

STRUCTURAL ENGINEERING: The Department of Civil Engineering at the University of South Alabama invites applications for a tenure-track faculty position in Structural Engineering at the assistant professor level. Applicants should possess an earned doctoral degree in Civil Engineering or a related field, but ABD's near completion of the degree will be considered. Good communication skills, a strong commitment to excellence in teaching at both the undergraduate and graduate levels, and the ability to initiate and maintain a funded research program is required. The undergraduate program in Civil Engineering is fully accredited by ABET and the Department also has a growing masters degree program. The Department is in the process of moving to a new state-of-the-art 155,000 sq. ft. Engineering and Computing Science building in Spring 2012. Mobile is the center of a growing metropolitan area along the northern Gulf Coast and is characterized by a challenging coastal environment for all aspects of civil engineering. Interested candidates should submit a letter of application specifically describing their professional experience, teaching and research interests, the names of three references and a comprehensive curriculum vitae to: Dr. Husam Omar, Chair, Faculty Search Committee, University of South Alabama, Department of Civil Engineering, 6021 USA South Drive, Room 280, Mobile, AL 36688. Applicants must be legally eligible to work in the U.S. Review of applications will begin December 15, 2010 and continue until the positions are filled. Starting date is August 15, 2012. The University of South Alabama is an Equal Opportunity/ Equal Access Employer.
