

3AName      KEY

1      absorption / transport

2      dense irregular CT

3      loose CT

4      zone of hypertrophy

5      saltatory conduction

6      communication betw fibers

7      bacterial infection

8      internal elastic membrane

9      production of B lymphocytes

10      large intestine

11      taste bud

12      secrete surfactant

13      keratinocyte

14      brush border

15      territorial matrix

16      Nissl bodies

17      Z line

18      basophil

19      spleen

20      pepsinogen

21      salivary gland

22      PSCC

23      arrector pili muscle

24      valve in vein

25      osteoclast
