Mitchell College of Business

The University reserves the right to make changes as required in course offerings, curricula, academic policies, and other rules and regulation affecting students, to be effective whenever determined by the University. These changes will govern current and former students. Interpretations of these policies will be made by the appropriate University authorities, keeping in mind the interests of the students and the University. Enrollment of all students is subject to these conditions.

The University of South Alabama provides equal educational opportunities to and is open and accessible to all qualified students without regard to race, color, creed, national origin, sex, or qualified handicap/disability, with respect to all of its programs and activities.

</table>
THE UNIVERSITY

The University of South Alabama, the only major public institution of higher learning on the upper Gulf Coast, was created by act of the Alabama State Legislature in May, 1963. With Alabama’s two older universities more than 200 miles distant, the University is strategically located in the greater Mobile area, which has a population of more than a million within a 100-mile radius.

THE GULF COAST REGION

Exploration in the Mobile River area began in 1519 when the Spanish Admiral Alonzo Alvarez de Pineda entered and charted the area now known as Mobile Bay. The old fort, now known as Fort Morgan, guarding Mobile Bay, was first fortified by the Spanish in 1559. Settled in 1711 by the French, the bay area has had a tradition rich in culture and vital in the affairs of the nation from its formative years to the present.

Trade and shipping are vital to the economy of the area. Millions of tons of shipping are handled annually through the Port of Mobile, which is rated among the top ports in the country. More than fifteen million tons of shipping are carried yearly on the Tombigbee-Black Warrior waterway system with its modern locks and dams. The intracoastal waterway, crossing the southern end of the state, is connected at Mobile Bay with both inland and ocean shipping. Railroads and airlines serve the Bay area. Diversified farming, woodland crops, and seafood and fisheries are major factors in the area’s economy.

EDUCATION IN MOBILE AREA

Mobile, the oldest city in Alabama, is the birthplace of public education in the State. The Barton Academy, constructed in 1836, was organized as a public school by Alexander B. Meek, a pioneer in Alabama public education. The Academy is still in use by the Mobile Board of School Commissioners. In 1853-54 the Alabama State Legislature under the guidance of an education committee, including Alexander B. Meek, drafted Alabama’s first public-school law, modeled in part upon the organization and curriculum of Barton Academy. Today the Mobile Public School System is the largest in the State. Medical education in Alabama began in Mobile with the founding of the Medical College of Alabama in 1859. After an interruption during the war years it continued until 1897 when a reorganization was effected. The College was discontinued in 1920. The Daphne Normal School, on the eastern shore of Mobile Bay, was founded on July 4, 1907. It pioneered teacher education in south Alabama until its closing in 1940. The University of South Alabama was opened in June, 1964. Its establishment continues an early progressive tradition of education in south Alabama.

A number of private schools, elementary and secondary, supplement the public schools in the area. Two church-related colleges are located in Mobile; the first, Spring Hill College, was founded in 1830; the other, Mobile College, (now University of Mobile) opened in 1963. The growth of these four-year institutions and the addition of several junior colleges in south Alabama increase the opportunities for higher education in the upper Gulf region. The establishment of the University of South Alabama was highly significant in meeting the needs of the increasing numbers of high school graduates of the region. The University is confident that the growth can keep pace with the needs of the expanding population in the area and, at the same time, serve students from other states and other countries.

MISSION
The University of South Alabama was chartered in 1963 by the State of Alabama as a comprehensive, coeducational institution of higher education. The University serves as a major center of high quality and accessible undergraduate, graduate and professional education for metropolitan Mobile, the State of Alabama, the Gulf Coast region, and the southeastern United States. The University mission actively embraces the functions of teaching, research, public service, and health care through which it vigorously pursues the preservation, discovery, communication and the application of knowledge. As it grows and develops, the University will focus its strengths to produce programs of interdisciplinary excellence that address the special needs of the people it serves. Undergraduate education is designed to promote the growth of the individual to think critically and analytically, to communicate effectively, to acquire information and apply it to problem-solving, and to understand the context of global complexity and diversity in which knowledge is applied. The University is committed to the education of the whole person—the creative person. To accomplish this, a wide range of curricular and co-curricular opportunities for students to expand their cultural, physical and emotional awareness are provided. The University’s environment must encourage and foster the qualities expected of leaders, such as integrity, service, stewardship, involvement and respect for individuals, as well as an appreciation for diversity. Graduate education provides students with increasing levels of challenge and opportunities for independent investigation, creative achievement, the advancement of knowledge, and participation in traditional and new forms of scholarly activity in a broad range of discipline-based and interdisciplinary programs. These programs will prepare students for new, as well as traditional, professional and academic careers. Scholarship is an important aspect of the mission of the University and the responsibility of every faculty member. The University of South Alabama will provide quality research and scholarly activity in all areas of its academic programs and community service activities, as illustrated by the work of its faculty in business, education, engineering, mathematics, science, fine arts, humanities, and health sciences. To advance scholarship the University will provide appropriate instructional and investigative facilities within an atmosphere of academic freedom and shared governance. Because of its location and commitment to the community, the University’s academic health center is an important resource for accomplishing its mission. The University is dedicated to the education of physicians, health scientists, allied health professionals, and professional nurses who will provide the community and the region with the highest quality health care. To promote improved health care in its service region through research, teaching, and outreach programs, its hospitals and clinics will offer the latest scientific and medical technology possible. The University is further dedicated to the promotion of lifelong learning and to the enhancement of access to education for a variety of individuals and communities. Thus, it will continue to develop programs that meet the needs of its evening, weekend, off-campus, and special program clients who seek both credit and non-credit learning experiences on campus and at the USA Brookley campus site. The USA Baldwin County campus will provide degree programs and other learning opportunities required by the rapidly growing population in Baldwin County. The University of South Alabama’s programs of education, research, public service, and health care are all founded upon the basis of a reciprocal relationship between the institution and the community it serves. Instruction, research, scholarship, public service, and health care that enhance the economic development of the State and improve the quality of life and health of its citizens are integral and essential parts of its mission as a comprehensive, metropolitan university.

ATHLETIC DEPARTMENT MISSION/PHILOSOPHY STATEMENT

The mission of the Department of Athletics at the University of South Alabama is to complement and supplement the total educational program of the institution and to provide equality to both student-athletes and all staff members regardless of race, gender, creed, nationality or economic status. The athletic department must provide learning experiences for all student-athletes and give each individual the opportunity to share in personal and group success. The University of South Alabama Department of Athletics provides student involvement in activities that help develop unity by encouraging a common quest for all students, alumni, faculty, staff and friends of the University. The athletic program is committed to enriching the mental and physical capabilities of its student-athletes while developing and building a respected program that is competitive on a national level in selected sports, at the same time operating a quality program in the other sports, which will create a basis for pride among the varied constituencies of the University.
The Department of Athletics’ philosophy includes the following ideals:

- Recognition of the dignity, worth, and respect of every individual who comes in contact with the Department of Athletics.
- Belief in the provision of opportunity equally given every student-athlete to develop his or her maximum ability, both in the classroom and on the playing field, regardless of race, gender, creed, nationality, or economic status.
- Belief in the provision of opportunity equally given to each and every Athletic department staff member to develop his or her maximum ability in the workforce.
- Provision of the best available coaching and training staff in order to bring out the athletic potential of all its student-athletes.
- Commitment to the ongoing development of all student-athletes so that each can become a contributing member of society and live a rewarding and fulfilling life.
- Commitment to the provision of academic support services necessary to maximize the opportunity for academic success and graduation for student-athletes through a system of advising, monitoring academic progress and identification of potential problems.
- Demonstration of sportsmanship through the ideals of fairness, civility, honesty, unselfishness, respect and responsibility in a competitive arena of intercollegiate athletics.

GOALS AND PURPOSES

The University of South Alabama is dedicated in purpose to the creation of an environment of intellectual excitement and an educational climate that will stimulate both faculty and students. A forum of free thought and discussion is provided which is intended to help develop an independent spirit undergirded by the moral and ethical values essential for effective participation in a free society. The University strives for fresh approaches to courses and programs. Emphasis is placed on the traditional dedication to the advancement and dissemination of knowledge, as a center of learning concerned with the arts and humanities, study of human nature, phenomena of the physical world, processes of human relationships, and the knowledge and skills necessary for participation in professional vocational endeavors. The University actively encourages the students to take responsibility for their own welfare and that of the community, thus stimulating them to become vitally involved in the pursuit of knowledge and the continuing use of their intellectual capabilities as responsible and effective individuals. Students are encouraged to participate in University decisions involving their own welfare, impressing upon them the responsibility inherent in this participation. The University is conscious of its obligation to the local, state, and national communities to assist students to attain the fullest possible knowledge of themselves in relation to society, and to become enlightened participants in civic affairs. An ever-present concern with the problems of a changing society causes recognition of the University’s responsibility to cooperate with local, civic, professional, and governmental organizations. It inculcates an awareness of the necessity for effective leadership in the social, political, and economic affairs of our society. The University intends to extend its academic and professional programs to the highest level by introducing graduate programs and forming new schools and colleges when appropriate. New programs will be instituted only after necessary facilities, library resources, and faculty are acquired. The University reaches outward to the international community and encourages a wide exchange of knowledge and cultural relationships with other peoples. Relations are maintained with other colleges and universities, for the purpose of sharing resources and responsibilities in teaching, research, and service, in this country and abroad, as well as with the secondary schools and junior colleges in this vicinity. The need for continuing adult education accounts for the public being offered an opportunity to profit from these intellectual and technical resources. By contributing to the advancement of knowledge, by involving faculty and students in teaching, learning and research, and by offering its services to society commensurate with its resources, the University will achieve its maximum effectiveness.

THE UNIVERSITY OF SOUTH ALABAMA STATEMENT ON INSTITUTIONAL EFFECTIVENESS

To insure continued excellence as an educational institution, the University of South Alabama is committed to evaluating its effectiveness. The institution has carefully developed goals and objectives which are used as the basis for planning and evaluation. A variety of assessment methods are employed to determine the extent to which each goal has been met, and the results of such assessments are used to improve both educational and support activities.
ORGANIZATION
The University of South Alabama, operating as a state institution of higher learning and financed in large part by public funds, is governed by a Board of Trustees composed of seventeen members; twelve members are appointed from south Alabama, three members are appointed from the State at large; the Governor of Alabama serves as President, ex officio, of the Board, and the State Superintendent of Education serves as a member, ex officio. Of the twelve members appointed from south Alabama, three of the members are appointed from Mobile County and one member is appointed from each of the nine southern senatorial districts as those districts were designated at the time the University was organized. All except ex officio members are appointed by the Governor with the advice and consent of the Senate. The administrative organization of the University has been designed to provide the greatest possible efficiency in operation for a multiplex, yet young, institution. The framework is sufficiently flexible, involving three primary areas of operation-academic, administrative, and student personnel-to provide for revision as the institution becomes more complex. The three primary areas of institutional operation are supplemented and supported by programs in development and university relations. The organization below the Board of Trustees is composed of the President, appointed by the Board of Trustees, and other chief administrative officers who report directly to him: Senior Vice President for Academic Affairs, Vice President for Medical Affairs, Senior Hospital Administrator, Vice President for University Services and Planning, Vice President for Student Affairs; and Vice President for Finance. Under the present organization, the University comprises the College of Allied Health Professions, College of Arts and Sciences, Mitchell College of Business, College of Education, College of Engineering, College of Medicine, College of Nursing, School of Computer and Information Sciences, School of Continuing Education and Special Programs, and the Graduate School, each headed by an academic officer. The Dean of University Libraries operates in cooperation with the faculty and reports directly to the Senior Vice President for Academic Affairs and Vice President for Medical Affairs. Departments within colleges operate under the direction of departmental chairs who report directly to the deans of the colleges.

ACCREDITATIONS
The University of South Alabama is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Ga., 30033-4097: Telephone: (404)679-4501 to award baccalaureate, masters, doctor of philosophy and doctor of medicine degrees. In addition, the University of South Alabama has programs accredited by the following organizations: Accreditation Board for Engineering and Technology; B.S. programs in Chemical Engineering, Civil Engineering, Electrical Engineering, and Mechanical Engineering are accredited by the EAC of ABET. Association for the Advancement of Collegiate Schools of Business, American Chemical Society Committee on Professional Training, Committee on Accreditation for Respiratory Care, American Medical Association Council on Medical Education, Accreditation Council for Occupational Therapy Education, Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association, American Speech-Language and Hearing Association: CAA, Association of American Medical Colleges, Computer Sciences Accreditation Commission, Computer Science and Information Systems are accredited by the CAC of ABET, Joint Review Committee on Education in Radiologic Technology, National Accreditation Agency for Clinical Laboratory Sciences, National Association of Schools of Music, National Council for Accreditation of Teacher Education, Commission of Collegiate Nursing Education, National Association of Schools of Art and Design.

POLICY OF NON-DISCRIMINATION
The University of South Alabama and its colleges and subdivisions follow a policy of nondiscrimination on the basis of sex, race, and disability in admission policies and practices, educational programs, activities, and employment practices according to Title IX of the Education Amendments of 1972. The University of South Alabama provides equal educational opportunities to and is open and accessible to all qualified students without regard to race, color, creed, national origin, sex, or qualified handicap/disability, with respect to all of its programs and activities. The University of South Alabama does not discriminate on the basis of disability. No otherwise qualified person with a disability, solely on the basis of such disability, will be excluded from participation in, be denied the benefits of, or be subjected to discrimination in the administration of any educational program or activity including admission or access thereto or in treatment or employment therein by the University of South Alabama.
COMPLIANCE WITH 1973 REHABILITATION ACT (SECTION 504) AND THE AMERICANS WITH DISABILITIES ACT OF 1990
The University of South Alabama complies with Section 504 of the Rehabilitation ACT of 1973 and the ADA of 1990 as amended. Any questions relating to the accessibility should be directed to the Manager, Special Student Services, Student Center, Room 270, (251)460-7212.

UNIVERSITY LIBRARIES
The need for good information is critical for student success at the University of South Alabama. The University Libraries provide the information resources and services necessary to obtain, understand, and think critically about information whether it is located physically in one of the libraries, or available electronically in a licensed database or on the Internet through the campus computing network. It not only provides bibliographic information about the collections of the University Libraries through SouthCat, but also provides access to licensed full-text article services, periodical indexes and abstracts, electronic reference sources, and the Internet. The book, journal, licensed databases, government document, microform, and audiovisual collections held by the University Libraries provide students with copyrighted information not yet available through the Internet.

The Libraries of the University of South Alabama consist of the University Library and the Charles M. Baugh Biomedical Library, both on the main campus, as well at the University Archives, the Medical Center Library, Knollwood Hospital Library and the Children’s and Women’s Hospital Library in downtown Mobile. The University Library is a Federal Depository Library and has a large collection of United States government documents. The Program for the Enhancement of Teaching and Learning (PETAL) and the Instructional Media Center (IMC) are also located in the University Library’s new addition on the first floor. The IMC houses education materials such as videotapes, DVSs, CDs and audio tapes as well as audio-visual viewing and listening rooms. Library services are also available through the Baldwin County campus. Faculty and staff of the University Libraries are available to assist patrons in locating and using all of these information resources, as well as circulation, interlibrary loan, reference, photocopying, group and individual study rooms, and other services.

Admissions/Enrollment Services

The Enrollment Services Division, through the Office of the Associate Vice President for Enrollment Services, the Office of Admissions and Orientation, the Office of Financial Aid, the Office of International Services, the Office of Career Services, the International Faculty/Staff Coordinator, and Student Publicity, provides services for students from pre-enrollment through graduation.

ADMISSION

ADMISSION TO THE UNIVERSITY

The Office of Admissions processes all applications from U.S. citizens applying for undergraduate and graduate programs at the University of South Alabama. Permanent residents follow the same admissions criteria as U.S. Citizens, plus each applicant must submit documentation verifying their residency. Acceptable documents include a valid passport, (with resident alien approval) or current green card. Permanent residents must submit their paperwork to the Office of International Services. Refer to the “International Students” section for details.

Inquiries about admission to the University of South Alabama should be addressed to the Director of Admissions, 182 Administration Building, University of South Alabama, Mobile, Alabama 36688-0002, or telephoned to (251) 460-6141, toll-free number at (800) 872-5247, or e-mail at admiss@usouthal.edu. Information is also available via a link on the University’s Home Page on the World Wide Web: http://www.southalabama.edu/admissions/.

ADMISSION PROCEDURE

Application for Admission

Students applying for admission to the University of South Alabama are required to file an application for admission with the $25 nonrefundable processing fee by the deadlines noted. The application is available on the Admissions web site which is available via a link from www.southalabama.edu/admissions/appls.html. Note: The University reserves the right to change fees, as deemed necessary by the Board of Trustees, without prior notice.

Application Deadlines

Students are urged to apply for admission well before their intended semester of entry. Financial aid and housing are more likely to be available to the qualified student who applies early. All undergraduate applications, including the required official documents, must be received no later than June 15 for fall semester, December 1 for spring semester, and May 1 for summer semester. Documents received by deadline are guaranteed to be processed before new student orientation and registration. Deadlines for applications and supporting documents for international students are earlier than the deadlines for U.S. Citizens Refer to the “International Students” section for details. Scholarship deadlines are significantly earlier and published in the “Financial Aid” section of the Bulletin.

READMISSION TO THE UNIVERSITY

Students who have been previously enrolled in the University of South Alabama, and who have failed to attend for one term should comply with the following:

How to Apply for Readmission

An applicant should request the appropriate application from the Registrar’s Office. The readmission application, including all required credentials, should be filed with the Registrar’s Office by one of the following deadlines: fall semester - June 30; spring semester - October 21 or summer semester - March 17. Readmission applications do not have to pay another processing fee.
Requirements for Readmission
An applicant must be eligible to return to the University of South Alabama on the basis of a previous academic record at this institution. If the student has attended any college or university subsequent to last enrollment at the University of South Alabama, the student must also have the required transfer average or higher (as computed by the University of South Alabama, Registrar's Office) on work attempted, and must be in good standing and eligible to return to the last institution attended.

ADMISSION POLICIES AND DOCUMENT REQUIREMENTS
The University of South Alabama seeks to admit only those students who possess the intellectual capacity, maturity, previous training, and motivation necessary for success in its several programs. Some colleges and programs of instruction have additional admission requirements. Please see the appropriate college section regarding specific additional admission requirements.

All documents required for admission review (e.g., transcripts, test scores, or letters of recommendation) must be official, i.e., mailed from the home institution or testing agency directly to the Office of Admissions by the deadline. These documents become the property of the University of South Alabama. The applicant is responsible for making certain that the admission application, processing fee, and all required documents have been received by the appropriate deadline.

ADMISSION OF UNDERGRADUATES
1. First Time Freshmen/High School Graduates are students who have never attended a college.

Academic Requirements: The University does not employ a rigid formula by which admission is determined, and has no fixed requirements for secondary school courses. However, the University's experience has been that students who have pursued the following pattern of courses in high school generally achieve a level of success markedly greater than those who have not followed such a pattern: English, four units; algebra, two units; precalculus or trigonometry or other higher math, one unit; geometry, one unit; natural science, two units; American history, one unit; world history, one unit; additional academic courses in foreign languages, social studies, natural science, or mathematics, two units; non-vocational electives, three units. Students with ACT composite score of less than 19 (or 900 SAT may be considered for admission to the Developmental Studies Program (see "Programs Available to the Specially Qualified Student".)

Documents Required: First Time Freshmen must submit an official high school transcript showing grades earned and courses pursued. (A final official high school transcript showing the date of graduation is required for those who apply before the end of their senior year.) In addition, First-Time freshmen applicants must submit official college entrance examination scores-either the result of the ACT or the Scholastic Assessment Test (SAT). The Director of Admissions reserves the right to request the student to submit official scores of more than one administration of the ACT or SAT or from both tests (if taken) if deemed necessary.

High school students should take the test in the spring of the junior year or early in their senior year so test results will reach the University in ample time for admission review. Applicants must have the scores sent directly to the University from the testing agency by listing the University's code number as a recipient when registering for the examination (ACT code is 0059; SAT code is 1880) or by completing a score request form from the testing agency.

In some instances, the Director of Admissions may require the applicant to submit a recommendation from the high school counselor or principal.

High school graduates must submit test scores if their semester of matriculation is within five years of high school graduation or if they have not reached the age of 23. If applying for admission five years after graduation, applicants who have not taken the ACT or SAT need not sit for the examination and may apply under the Special Freshman Admissions category.
2. **Freshmen with Previous Credits** are students who attended another collegiate institution prior to high school graduation.

**Academic Requirements:** Applicants must satisfy the requirements for First-Time Freshmen applicants and must have earned at least a "C" (2.0) average on all previous collegiate work attempted. The grade-point average used is that computed by the Office of Admissions.

**Documents Required:** Freshmen with Previous Credits applicants must submit all the documents required for First-Time Freshmen as well as an official transcript from each college attended prior to high school graduation. An evaluation of transfer credits will be completed and mailed to students prior to the semester of entry.

3. **Early Admission** applicants are students who have completed their junior year of high school and wish to enroll prior to high school graduation.

**Academic Requirements:** Applicants must be recommended by the high school counselor, have a 3.5 minimum high school GPA, as computed by the USA Office of Admissions, have scored at least a 28 composite on the ACT (or 1240 SAT scores), completed the junior year of high school, and be approved by the Director of Admissions.

**Documents Required:** Early Admission applicants must submit an official high school transcript showing grades through the junior year, official ACT or SAT scores and a letter of recommendation from the school guidance counselor.

4. **Special Freshman Admission** are students who graduated from high school at least five years prior to the semester of entry or who have reached the age of 23, and did not sit for the college entrance examinations (ACT or SAT).

**Academic Requirements:** Applicants who do not satisfy the requirements for traditional admission may be admitted if satisfactory evidence is provided that they have the ability to successfully pursue the courses in which they wish to enroll.

**Documents Required:** Special Freshman Admission applicants must submit an official high school transcript for admission consideration. Applicants for admission as Special Freshman students should be high school graduates whose semester of entry to the university is at least five years since high school graduation or are at least 23 years of age.

Students who sat for the ACT or SAT, even though they graduated from high school more than five years prior to the semester of entry or are at least 23 years of age, must apply as First Time Freshmen regardless of when they graduated from high school or of their age.

5. **GED First Time Freshmen** took the General Education Development (GED) test and did not graduate from high school.

**Academic Requirements:** Applicants are granted admission based on adequate performance (minimum average score of 500- or 50 if taken prior to January 2002) on high school level General Education Development (GED) test.

**Documents Required:** GED First Time Freshman applicants must submit an official copy of their General Educational Development (high school level) test results.

*Both Special Freshman Admission and GED First Time Freshman students are considered degree-seeking students and are subject to all academic regulations.*

6. **Transfer students** have attended a college or university after high school graduation, regardless of the time spent in attendance or credit earned.

**Academic Requirements:** Applicants are granted unconditional admission if they have earned a cumulative average of at least "C" (2.00) on all work attempted. Under certain conditions, a student with less than the requisite 2.00 average, who shows promise of success may be granted probationary admission. (Note: The grade-point average used is that computed by the University of South Alabama.) Students who were not admissible after high school are required to successfully complete a minimum of 30 semester hours or 40 quarter hours at another institution before being considered as transfer applicants. Applicants must be eligible to attend the institution in which they were last enrolled.

**Documents Required:** Transfer student applicants must make certain that official transcripts of all courses for which they have been registered at other colleges or universities are sent directly to the University from each home institution. Students must report colleges where registration was completed even though no credit was earned.
Admissions/Enrollment Services

Applicants who have attempted fewer than 30 semester hours or 40 quarter hours of college work must submit college transcripts and high school transcripts and ACT or SAT scores.

**Transfer of Credit:** The Office of Admissions evaluates all credits to determine the number transferable to the University of South Alabama. Such transferred credit will be applied, after evaluation, to the specific program of the student. The final program evaluation requires approval by the Dean of the College in which the student is accepted or by the Dean’s designated representative. Credits transferable to the University may or may not be applicable, in whole or in part, to a specific program. Transfer students are urged to review all the requirements for a degree as specified in the Academic Policies and Procedures section of the Bulletin.

No credit is given for college-level General Education Development tests, or for courses evaluated as non-credit or remedial at this institution. No more than a combined total of 32 semester hours of credit will be allowed for credit received through the College Level Examination Program (CLEP), Advanced Placement Program (AP), credit by examination, correspondence courses, military service school courses, and other approved non-collegiate-sponsored programs as recommended by the American Council on Education.

A maximum of 64 semester hours may be transferred from a junior or community college. Courses offered by this University with a course number of 300 or higher will not be accepted as a transfer from a junior college unless approved by the appropriate college dean.

A transfer student from a collegiate institution not accredited by the appropriate regional association may request an evaluation of transfer credits from the student’s academic dean after completing one year (32 semester hours) of work at the University of South Alabama. No degree credit will be accepted by the College of Education from any collegiate institution unless that institution has regional accreditation.

**Transfer Credit for English Composition:** No credit is given for course work in English Composition in which the grade is below a “C”.

7. **Transient students** are visiting students and wish to attend the University for one term and return to the home institution.

**Academic Requirements:** Students must be in good standing at the current institution and have the approval of their registrar or dean to enroll at USA. A transient student must accept full responsibility in meeting course prerequisites and having the necessary preparation to take the course or courses desired. Enrollment as a transient student in no way implies future admission as a regular student to the University of South Alabama.

**Documents Required:** Transient applicants must request the registrar or dean of the college or university in which they are currently enrolled to complete the University’s Transient Student Form or write a letter of good standing for the applicant and mail it directly to the University.

If the student should decide to remain in transient status for more than one term the student must submit the University’s Transient Student Form and a Readmission Application (available from the Admission’s Office) by the specified deadline (see “How to Apply for Readmission” section of the Bulletin) each semester. Should a transient student decide to transfer to the University of South Alabama, the student would be required to apply in the same manner as a transfer student and submit complete transcripts from each college or university attended.

8. **Unclassified applicants** are students who have earned at least a baccalaureate degree and wish to take additional undergraduate courses, but not for degree purposes.

**Academic Requirements:** Applicants are admissible if an official transcript showing evidence of the baccalaureate, master’s or doctoral degree is received. Note that unclassified students are eligible to enroll in undergraduate courses only and are not working toward a degree. Students seeking a second undergraduate degree should apply as Transfer students.

**Documents Required:** Unclassified students submit an official transcript showing their earned baccalaureate, master’s, or doctoral degree.

9. **Audit students** wish to take courses, but not receive credit.

**Academic Requirements:** Students are admissible if a completed application for admission and the $25 application fee are submitted to the Office of Admissions by the published deadlines. No other documentation is required. Audit students pay the same tuition and fees as credit students. Audit students are not required to submit documents with their application for admission.
NOTE: Transient, Unclassified and Audit students are not eligible to be considered for financial aid since they are not enrolled in degree-seeking programs.

TRANSFER CREDIT FROM JUNIOR COLLEGES
No more than 64 semester hours of transfer credit from junior colleges will be accepted. No degree credit will be granted for courses that are identified at the 300 and 400 levels in the University of South Alabama curriculum unless approved by the appropriate college dean.

Courses not generally accepted from a junior/community college may be considered for transfer credit on a selective basis. Such courses must be approved for degree credit by the student’s academic dean based upon the recommendation of the appropriate department chair.

University of South Alabama students at any level of progress toward a degree are restricted, in terms of junior college transfer credit, only by the first and second items above.

Alabama Articulation Program (STARS)
The Alabama Articulation Program (also called STARS - Statewide Articulation Reporting System) is a web-based articulation and transfer planning system designed to inform students who attend Alabama Community Colleges about degree requirements, course equivalents, and other transfer information pertaining to specific majors at each state funded four-year institution. STARS provides students, counselors, and educators with accurate information upon which transfer decisions can be made.

STARS is the information link between the state’s public two-year and four-year institutions, and can prevent the loss of course credit hours, can provide direction for the scheduling of course work, and can ease the transition from one institution to another. Students who are interested in obtaining a “Transfer Guide” should visit the University of South Alabama Transfer Assistance web site at: http://www.southalabama.edu/transfer/ or contact: University of South Alabama Office of Admissions, 182 Administration Building, Mobile, Alabama 36688-0002, (251)460-6141 or (800)872-5247.

TRANSFER CREDIT FROM MILITARY SERVICE SCHOOLS
Military service-school courses will be evaluated with reference to the recommendation of the American Council on Education when official credentials have been presented by the student to the Office of Admissions for new or returning students, or to the Office of the Registrar for currently enrolled students. Such recommendations, however, are not binding upon the University. In no instance, however, may any of the hours of credit be substituted for specific courses, but they may be substituted for electives.

Students who have successfully completed basic training in the armed forces may receive four semester hours of elective credit and exemption from P.E. by presenting a DD214, DD295, a copy of a Community College of the Air Force transcript, or a certificate of training to the Office of the Registrar for currently enrolled or former students, or to the Office of Admissions for new students.

The Office of Veterans Affairs is located in Room 240 of the Administration Building on the main campus of the University to facilitate veterans’ programs and to provide counseling and other veterans’ services. (See “Student Activities Section.”)

PROGRAMS AVAILABLE TO THE SPECIALLY QUALIFIED STUDENT
The University of South Alabama offers a number of opportunities to the specially qualified student. Several programs enable the student to accelerate course work. No more than a combined total of 32 semester hours of credit will be allowed for credit received through the Advance Placement Program (AP), International Baccalaureate Program (IB), College Level Examination Program (CLEP), credit by exam, correspondence courses, military service, or any other credit combination.

1. AP Credit: Students participating in the Advanced Placement Program of the College Entrance Examination Board (CEEB) will be granted University credit as indicated below.
   English: 3 semester hours credit will be awarded for English Composition 101 for students who score 4 or higher on the Language and Composition component of the Advanced Placement Program. In other subject areas: AP Credit with a score of at least ‘3’ will be awarded as follows:
Admissions/Enrollment Services

Psychology 5 PSY 120 (3 Semester Hours)

* All exams Standard Level unless indicated otherwise.

3. **English Composition I Exemption:** Students who score a minimum ACT English score of 27 or SAT verbal score of 550 will be exempt from taking English 101. Official scores should be mailed to the Office of Admissions for exemption to be granted.

4. **CLEP:** A student can receive up to 32 semester hours of credit from the General Examinations and certain Subject Examinations of the College Level Examination Program (CLEP) as shown below. Official CLEP scores mailed directly from the CLEP division of the Educational Testing Service are required before credit will be awarded.
EH 101/EH 102
Humanities-General 6 hrs 50
Fine Arts and Lit Elect
Mathematics-General 8 hrs 50
Math Electives
Natural Sciences-General 8 hrs 50
Bio & Nat Science Elect
Social Sciences-General 6 hrs 50
Soc Science & Hist Elect

Computer Science and Foreign Language CLEP credit is awarded based on USA departmental recommendations. The University reserves the right to change the CLEP minimum scores and credit awarded based on recommendations by the College Board and University research.

5. Credit by Examination: A student may receive credit for a course by passing a locally prepared examination and by paying appropriate fees. (See “Credit by Examination”.)

6. Military Service/ROTC Credit: A student may receive Military Science or Aerospace Science placement credit for prior military service or Junior ROTC training. Contact the Department of Military Science or the Department of Aerospace Studies for details.

7. The Prior Learning Assessment Center: housed in the Adult Interdisciplinary Studies department, will serve as a central location where potential and enrolled USA students can obtain information and advising on the assessment options available for earning USA credit for prior learning. The center will also be the primary academic unit responsible for the coordination and administration of prior learning assessment by portfolio.

8. PSP: A student in the College of Arts and Sciences, can, after completing 32 semester hours of work, choose to shape a major in the Personalized Studies Program. The student must present to the PSP Committee a satisfactory rationale for the proposed course of study.

9. Adult Interdisciplinary Studies: A student who is over the age of 25 may design, with the approval of an academic committee, a 54 semester hour interdisciplinary field of study through the Department of Adult Interdisciplinary Studies in the School of Continuing Education and Special Programs.

10. College of Medicine Early Acceptance Program: Qualified high school seniors are selected for acceptance to the University and to the University of South Alabama College of Medicine. Candidates selected for the program enter the Health Pre-Professions Program at USA; their curriculum will include core requirements for the selected baccalaureate program and prerequisites for matriculation in medical school. Students participating in the College of Medicine Early Acceptance Program must meet program requirements during their tenure as undergraduates to continue in the program. Upon successful completion of the baccalaureate degree and COMEAP requirements, students enter the University of South Alabama College of Medicine. To be considered for the COMEAP, high school seniors must complete freshman application procedures, have earned a minimum high school grade-point average of 3.5 based on a 4.0 system as computed by USA, submit an ACT score of at least 28 composite (or 1240 SAT), and must have demonstrated leadership qualities and motivation toward the study of medicine. All documents must be submitted by December 15 of their senior year in high school to be considered. For questions and applications, contact USA Admissions, 182 Administration Building, USA, Mobile, AL 36688-0002 or call (800) 872-5247 or (251) 460-6141.

11. Honors Program: See "Honors Program".

12. Accelerated College Enrollment Program: A limited number of high school seniors from Mobile County, and Baldwin County, Alabama, are offered the opportunity to take one free course at the University during the senior year of high school. The course can be used to satisfy degree requirements at USA, or can be transferred to other institutions.

Academic Requirements: Applicants must be recommended by the high school counselor, have earned at least a “B” (3.0 on a 4.0 scale) average in academic subjects, have scored at least 25 composite on the ACT (1130 SAT), completed the junior year of high school, and be approved by the Director of Admissions.

Documents Required: ACEP applicants must submit an official high school transcript showing grades through the junior year, official ACT or SAT scores and a letter of recommendation from the school guidance counselor. Interested students should contact USA Admissions for application deadlines and information.
If ACEP students wish to pursue a degree, they must fill out a new application and supporting documents and submit them to the Office of Admissions.

**DEVELOPMENTAL STUDIES PROGRAM (DSP)**
The Developmental Studies Program (DSP) is designed for underprepared students, those who may not have the high-school grades or ACT or SAT scores generally required for college admission but who indicate a potential for academic success in an institution of higher education. The program emphasizes improvement of basic skills essential for college achievement. Students admitted to the University through Developmental Studies complete courses in study skills, writing, prealgebra, elementary algebra, and intermediate algebra. Mathematics courses require a placement test. Classes are small and tutoring is provided.

Applicants must follow the general University admission policies and procedures. The Office of Admissions uses the following criteria for the ACT composite scores and high school grade point averages.

<table>
<thead>
<tr>
<th>ACT Composite Score</th>
<th>High School GPA</th>

</tbody>
</table>

Acceptances to the program are limited. DSP courses are also open to University students who are not admitted to the program. For more information, call (251) 460-7155.

**THE ESSENCE PROGRAM**
The ESSENCE Program provides freshmen the opportunity to participate in activities designed to assist with their transition to the University. Program components include living together on campus; eating together; learning the ropes of college success in CP 100, New Student Seminar; building community; peer advising; faculty mentoring; and tutoring. For more information, call (251) 460-6185.

**ADMISSION OF GRADUATE STUDENTS**
Refer to the University of South Alabama Graduate School Section for admission requirements. Applicants to the University of South Alabama Graduate School are considered for admission as follows:

1. **Graduate Students**—students pursuing postbaccalaureate degrees.
2. **Graduate Transfer Students**—students pursuing postbaccalaureate degrees who have attended graduate school at another institution and wish to have that credit considered for transfer to the University.
3. **Non-Degree Graduate Students**—students who have earned at least a baccalaureate degree who wish to take graduate courses but do not wish to pursue a degree. (Not all programs allow non-degree students)
4. **Graduate Transient Students**—applicants who wish to enroll for one semester to complete graduate work for transfer to the parent institution.

**COMPUTER EQUIPMENT REQUIREMENTS**
Recognizing the increasing expectation of technical/computer literacy for productive citizenship and optimum professional and career opportunities, the University of South Alabama provides formal classroom instruction and informal training in computer software and hardware applications. General skills as well as those necessary for specialized applications are included, as appropriate, in many University classes. To insure successful acquisition of these skills and guarantee that all students are able to adequately complete classroom assignments, all students entering the University of South Alabama are required to have personal access to a personal computer. This may be achieved in a number of ways including personal ownership of a computer with the required capabilities, access within the home or family, sharing with a roommate or in other ways that allow the student ready access when required to complete assignments. This access must include, as a minimum, a current version of the Microsoft Office software package to include word processing, and spreadsheet capability, provision for e-mail with attachments (both send and receive), and Internet access for research. Individual academic programs may have additional requirements.
specific to their curriculum and training needs. Students should realize that instructors will make assignments expecting the required computer and software access and lack of access will not excuse the student from class expectations and requirements. To assist students who are not comfortable using a computer, the University recommends (and in some programs requires) completion of Computer Science 150 for academic credit.

ORIENTATION FOR NEW STUDENTS
Orientation provides an introduction to the academic, service, and social areas of the University of South Alabama. It is offered prior to registration, and all new students are required to attend. The fee charged for Orientation covers costs of materials and meals during the programs. Details are sent to new students prior to registration. Further information may be obtained from the Office of New Student Orientation, 119 MCOB, Mobile, AL 36688-0002, telephone (251) 460-7093.

INTERNATIONAL STUDENTS

The Office of International Services at the University of South Alabama provides special services and programs for non-U.S. Citizens. One of the functions of the Office of International Services is the processing of applications for admission submitted by non-citizens. The following are the specific requirements needed by the applicants.

REQUIREMENTS FOR ADMISSION

Application Deadlines
All necessary documents must be received by the established deadline for the semester the student wishes to enter. Applications completed after the deadline will be considered for the following term, unless otherwise requested by the student.

Outside the United States:

- Fall-July 1
- Spring-November 1
- Summer-April 1

Within the United States:

- Fall-July 15
- Spring-December 1
- Summer-May 1

All documents submitted as part of the application process become the property of the University of South Alabama and will not be copied for or released to the student or any other institution.

Undergraduate Applicants
1. International Application for Admission - The International Application for Admission must be completed and signed by the applicant. A nonrefundable $25.00 application fee, payable through a U.S. bank, must accompany the application. Applications received without the $25.00 processing fee will not be processed.
2. Academic Records - Complete and certified academic records of all secondary and postsecondary education attempted must be submitted. Whenever possible, the records must be forwarded directly from the issuing institution to the University of South Alabama. Copies must be certified by an official of the government or school (e.g., registrar or dean). Notarized copies are not accepted.
3. English Proficiency

A. TOEFL - Nonimmigrant applicants, whose native language is not English, must submit a score of 500 (173) or above on the Test of English as a Foreign Language (TOEFL) for admission. Applicants who hold a baccalaureate or graduate degree from a regionally accredited United States institution are exempt. Students transferring from postsecondary institutions within the United States are exempt, subject to the following conditions:
   1) transfer credits total at least 96 quarter hours (64 semester hours); and
   2) completion of English Composition I with grade of “C” or above.

The exempted transfer students ARE subject to the proficiency examination discussed below.
In addition the TOEFL may be substituted with the following:

1) SAT Verbal score of 510
2) ACT English score of 19
3) Ordinary/Advanced Level English examinations from the United Kingdom with a score of “A”, “B” or “C/A-E”.

B. **English Proficiency** - Additionally, all international students with TOEFL scores between 473 (150 on newly formatted on-line TOEFL exam) and 500 (173 on newly formatted on-line TOEFL exam) are conditionally admitted to the University of South Alabama and placed directly into the Department of English as a Second Language and assigned an ESL advisor. All students in this category must take the English Placement Examination and depending on their performance, a determination will be made as to how many ESL courses each student will be required to complete.

C. **English Proficiency Examination** - All international students, regardless of TOEFL score, must sit for the English Proficiency Examination during the International Student Orientation with the following exceptions. Students holding J-1 visas and those holding baccalaureate or graduate degrees from regionally accredited United States postsecondary institutions are exempt. Permanent Residents who submit transcripts from regionally accredited United States secondary or postsecondary institutions with at least two full years of course work are also exempt. All transfer students must take the exam.

4. **Standardized Tests** - Permanent residents of the U.S. must submit an acceptable score on the ACT or SAT examination, unless they have one year or more of documented postsecondary education, graduated from high school 5 or more years previously, or apply on the basis of the GED. Those attending on nonimmigrant visas are not required to submit these tests for admissions unless required by the major department.

5. **Financial Statement** - Non-immigrants must provide proof that sufficient finances are available to undertake their entire course of study.

6. **Photograph** - All applicants must submit two recent passport size photographs.

**Notification**

Students are notified of admissions decisions as soon as all required documents are received. The I-20 or DS-2019 form is mailed to students with the letter of admission. Students wishing to postpone their arrival to a later semester must notify the Office of International Services in writing. If an I-20 or DS-2019 form has been mailed, the complete form must be returned to the University before a new form is issued.

**Transfer Credit from Foreign Institutions** - Students transferring to the University from foreign postsecondary institutions must submit a detailed course syllabus from which to evaluate transfer credit. Advanced Placement credit is available from a number of worldwide sources: contact the Office of International Services for details. Students may secure a professional evaluation of academic credentials at their own expense. Course-by-course professional evaluation is required of transfer students accepted into the College of Education and students applying to the professional component of any program in the College of Allied Health Professions.

(See the [Additional Information](http://www.southalabama.edu/bulletin/bulletin0506/admissions.htm) for all International Students.)

**Graduate Applicants**

1. **International Application for Admission** - The International Application for Admission must be completed and signed by the applicant. A nonrefundable $25.00 application fee, payable through a U.S. Bank, must accompany the application. Applications received without the $25.00 application fee will not be processed.

2. **Academic Records** - Complete and certified academic records of all secondary and postsecondary education attempted must be submitted. Please note consolidated marksheets are not accepted. Whenever possible, the records must be forwarded directly from the issuing institution to the University of South Alabama. Copies must be certified by an official of the government or school (e.g., registrar or dean). Notarized copies are not accepted.

3. **English Proficiency**
A. TOEFL - Nonimmigrant applicants, whose native language is not English, must submit a score of 525 (197) or above on the Test of English as a Second Language (TOEFL) for admission. (Specific programs may have more stringent English proficiency requirements.) Applicants who have completed two years of postsecondary education from a regionally accredited United States institution are exempt.

B. English Proficiency Examination - All international applicants, regardless of TOEFL score, must sit for the English Proficiency Examination during the International Student Orientation. Nonimmigrant applicants exempt from the TOEFL requirement are exempt from the English Proficiency Examination, as well. English as a Second Language course work may be recommended or required for graduate applicants.

4. Standardized Tests - Standardized test requirements for the various academic programs are listed in the appropriate sections of the Bulletin. All test scores must be official copies sent directly from the testing service which administered the examination.

5. Recommendation Letters - Two original letters of recommendation are required of all nonimmigrant applicants. The letters should be written by persons familiar with the applicant’s academic qualifications and ability to undertake the proposed course of study.

6. Financial Statement - Non-immigrants must provide proof that sufficient finances are available to undertake their entire course of study. Applicants for graduate assistantships should contact the appropriate department directly for information and assistantship applications.

Notification: Students are notified of the Graduate Dean’s admission decision as soon as all required documents are received and the Graduate Dean has received a recommendation from the appropriate graduate program. The I-20 or IAP-66 form is mailed to students with the letter of admission.

Students wishing to postpone their arrival to a later semester must notify the Office of International Services in writing. Students who have previously attended USA and who did not register for the semester in which they were accepted, but who wish to register for the same graduate program in the same academic year must update their admissions through the Office of International Services. First-time students who did not register for the semester for which they were accepted but who wish to register for the same graduate program in the same academic year must submit written requests to update their applications to the Office of International Services. The address is given at the end of this section. If an I-20 or IAP-66 form has been mailed, the complete form must be returned to the University before a new form is issued.

Additional Information for all International Students Nonimmigrant and International Student Fees - All international students with nonimmigrant visas are considered nonresidents for tuition purposes and will be assessed a nonresident fee and an international student fee each semester. Permanent residents may qualify for instate tuition rates.

Deposits - An advance tuition and living expenses deposit may be required of a student before an I-20 or IAP-66 is issued. This decision is based upon exchange regulations and fee receipt history of specific countries.

Orientation - New international students are required to participate in an orientation program prior to their first semester at the University. The orientation program welcomes students to the University, introduces them to staff and students, and familiarizes them with academic procedures and the community.

Medical Insurance - The University requires all international students on nonimmigrant visas to maintain medical insurance coverage. Students must purchase the University’s international student health insurance policy at registration.

TUITION AND STUDENT FEES

Office of the Bursar Department web site
http://www.southalabama.edu/bursar/

BASIC FEES
This schedule of fees includes the basic fees required each semester of all students enrolled at the University. Since personal expenses including books, supplies, and other living expenses vary, no attempt is made to estimate those costs here. The University reserves the right to change fees, as deemed necessary by the Board of Trustees, without prior notice.

Semester Fees required of all students:
Application Fee (non-refundable) ..............................................................................$25.00
Registration Fee (non-refundable) ................................................................................60.00
In-State Tuition (per semester hr)
Undergraduate ..............................................................................127.00
Graduate ..............................................................................167.00
Physician Assistant ..............................................................................167.00
Out-of-State Tuition (per semester hr)
Undergraduate ..............................................................................254.00
Graduate ..............................................................................334.00
Physician Assistant ..............................................................................334.00
Web Course Tuition (per semester hr)
Course Fee (undergraduate)..............................................................................187.00
Course Fee (graduate) ..............................................................................227.00
(Students taking both Online and on-campus courses are subject to additional on-campus fees including non-resident fees)
Transportation Fee ................................................................................20.00
Student Health Fee ................................................................................25.00
Student Center Fee ..................................................................................8.00
Building Fee
Undergrad. full-time (12 hrs or more) .............................................................................100.00
Undergrad. part-time (6-11 hrs) ................................................................................66.00
Undergrad. part-time (1-5 hrs) ................................................................................30.00
Graduate full-time (6 hrs or more) .............................................................................100.00
Graduate part-time (4-5 hrs) ................................................................................56.00
Graduate part-time (1-3 hrs) ................................................................................30.00
Library and Facilities Fee ................................................................................30.00
Activity/Athletic Fee
Undergrad. full-time (12 hrs or more) .............................................................................103.00
Undergrad. part-time (6-11 hrs) ................................................................................57.00
Undergrad. part-time (1-5 hrs) ................................................................................32.00
Graduate full-time (6 hrs or more) .............................................................................103.00
Graduate part-time (4-5 hrs) ................................................................................57.00
Graduate part-time (1-3 hrs) ................................................................................32.00
(Nonresident Fees are waived for graduate assistants.)

**DEPARTMENTAL FEES**

These fees are charged on a semester basis to students who enroll in certain courses: see [Schedule of Classes](http://www.southalabama.edu/bulletin/bulletin0506/tuition.htm) for detailed information.

All students enrolled in courses utilizing university computing facilities will be charged a fee. The amount of the fee ($15.00 or $22.00) will be based on the planned level of computer utilization as defined by individual departments.

Engineering Fee (per semester hour) $11.00

**MISCELLANEOUS FEES**

These fees are charged on a semester, yearly, or one-time basis or when certain conditions are present:

- **Application Fee** (one-time, non-refundable fee) $25.00
- **Late Registration Fee** (nonrefundable) $50.00
- **Late Payment Fee** (nonrefundable) $50.00
- **Returned Check Fee** $15.00
- **Deferred Payment Fee** $50.00
- **Graduation Re-evaluation Fee** $15.00
- **Document FAX Fee** (non-refundable)
  - **Domestic** $5.00
  - **International** $15.00
- **College-Level Examination Recording Fee** $10.00
- **Credit-by-Examination Fee** (plus usual course fee) $30.00
- **Orientation Fee** (one-time, non-refundable)
  - **Fall Semester** New Freshmen $100.00
  - **Transfers** $85.00
  - **Spring, and Summer Semesters** New Freshmen $40.00
  - **Transfers** $40.00
- **International Student Fee** $45.00
- **Transcript Fee** (per transcript) $6.00
- **Graduation Application Fee** $30.00
- **Professional Liability Coverage** (per academic year, non-refundable)
  - **Fall** $12.00
  - **Spring** $12.00

ROOM AND BOARD
The University offers a variety of residence hall accommodations and meal plan options. Students living in the residence halls who have completed less than 24 semester hours of course work are required to purchase a meal plan. The charges shown below are for one semester. These rates are subject to change by the Board of Trustees.

Residence Hall Fees
(Costs are Per Person Per Semester)

**Beta Complex**
- Two-person efficiency apartment: $1,355.00/Sem
- Four-person apartment: $1,218.00/Sem
- *Apartment for disabled: $1,809.00/Sem

**Gamma Complex**
- Two-person efficiency apartment: $1,355.00/Sem
- Four-person apartment: $1,218.00/Sem
- Private Suite w/semi-private bath: $1,514.00/Sem
- Four-person suite: $1,067.00/Sem
- *Suite for disabled: $1,578.00/Sem
- *Apartment for disabled: $1,809.00/Sem

**Delta Complex**
- Two-person suite: $1,234.00/Sem
- Two-person efficiency: $1,348.00/Sem
- Single: $1,609.00/Sem
- Single/efficiency: $1,786.00/Sem
- Large Single Suite: $1,752.00/Sem
- Delta 4 Two (2) Person Suite: $1,375.00/Sem
- Delta 4 Single Person Suite: $1,729.00/Sem
- Delta 4 Large Single Suite: $1,863.00/Sem

**Epsilon Complex**
- Two person suite
- Epsilon 1: $1,244.00/Sem
- Epsilon 2: $1,304.00/Sem

*Must be registered with Special Student Services Office to qualify for the space*

Rent rates are listed per student per semester and include local telephone service and voice mail, campus cable TV, unlimited laundry access and a high-speed Internet connection. Students may contract for long distance service through the University Telecommunications Department.

Board Plans
Information on the Board Plans is available through Campus Dining, located in the Student Center, (251)460-6296. See [Housing and Residence Life](http://www.southalabama.edu/bulletin/bulletin0506/tuition.htm) for additional information.

NEW REGISTRATION AND PAYMENT POLICIES
The University of South Alabama is implementing some new policies effective Fall 2005 to enhance services to all students. These policies are intended to make more class spaces available for students each semester by freeing up class spaces committed to students who register early but wind up not completing their registration. It is important that USA take measures to make sure class seats are used to the maximum benefit of all students. These changes bring USA’s policies in line with other major universities. Please note the new policies and procedures below.
New Payment Deadlines:

Students must pay at least 50 percent of tuition and fees by **Aug. 8, 2005**, for Fall Semester 2005 and **Dec. 13, 2005** for Spring Semester 2006 to retain their schedule. Payment can be made via cash, check or money order, or with your Visa, MasterCard or Discover card. Financial aid awarded to a student's account or approval in the USA Credit Union Deferred Payment Plan is also applied as payment toward the semester tuition and fees. The remaining balance is due on the third day of the class. **(Exception: see Deferred Payment Plans below)**. If a student does not provide 50 percent payment by Aug. 8 for Fall Semester 2005 and Dec. 13 for Spring Semester 2006, his/her schedule will be cancelled and the class seats made available to others. **IF A STUDENT MISSES THIS DEADLINE, HE OR SHE WILL BE GIVEN AN OPPORTUNITY TO RE-REGISTER FOR CLASSES.** However, if a student’s classes are cancelled, there is no guarantee that courses in the schedule will remain available.

Students adding classes or registering after Aug. 9, 2005 for Fall Semester 2005 and Dec. 14, 2005 for Spring Semester 2006, will need to insure proper payment (50% of all tuition and fees) by the third day of class or class schedules will be released on Aug. 29, 2005 for Fall Semester 2005 and Jan. 16, 2006 for Spring Semester 2006. **No schedules will be reinstated after Aug. 29, 2005 for Fall Semester 2005 and Jan. 16, 2006 for Spring Semester 2006.**

**PLEASE SEE SCHEDULE OF CLASSES FOR SUMMER SEMESTER PAYMENT DEADLINES.**

---

**University Deferred Payment Plan:**

The new University Deferred Payment Plan was created to give students more time, if needed, to pay their tuition and fees. If a student makes the 50 percent payment deadline, he or she either can pay the balance by Aug. 24, 2005 for Fall Semester 2005 or Jan. 11, 2006 for Spring Semester 2006 or for a fee of $50, can delay the remaining payment to approximately six weeks into the semester (See Schedule of Classes for dates). This gives students a longer period to pay as compared to previous policies. After this payment deadline accounts are delinquent and normal late fees and holds apply. **Note: Housing and Meal Plan balances are not included in the University Deferred Payment Plan and must be paid in full by the third day of class. NOTE: THE UNIVERSITY DEFERRED PAYMENT PLAN IS NOT OFFERED FOR SUMMER SEMESTER.**

**USA Federal Credit Union Deferred Payment Plan:**

The University of South Alabama Credit Union is offering USA students a low cost plan for financing 100% of tuition, fees, housing, and meal plans with equal payments over “four months” during the semester, subject to credit approval. A book allowance of $350 is also offered. To qualify for this plan, a student must meet the Credit Union eligibility requirements. The last day to apply for the USA Federal Credit Union Tuition Payment Plan each semester will be the last day of drop/add.

The interest rate is anticipated to be 12% Annual Percentage Rate (APR), although this rate is subject to change. In order to qualify for this tuition loan, a student must join the USA Federal Credit Union by depositing $25 into a share account. This amount will be returned to the student when the student no longer wishes to belong to the USA Credit Union.

**Financial Aid Refunds:**

Financial Aid refunds will be distributed after Drop/Add. The Bursar’s office will review eligibility after the third day of class and process the refunds within 5 business days. Refunds will continue to be processed via direct deposit and checks.

For more detailed information, please see the Schedule of Classes for Fall term. Remember, if you are a financial aid recipient, be sure to apply early and complete your file timely. Enrollment Services will be happy to direct students to the proper office should assistance be needed.

**Charging Privileges at the USA Bookstore (for Financial Aid Recipients Only):**
Students who have been awarded financial aid now charge their books at the USA Bookstore immediately. Students no longer have to wait until their financial aid balance is returned to them to buy books. If a student has been awarded financial aid by USA's Office of Financial Aid and has excess funds after all tuition, fees, meals, and housing have been paid, he or she may charge up to $750 (or the available balance, whichever is less) of books at the USA Bookstore. The Bookstore will have the available amount at checkout. Bookstore charges will be placed on the student's account and covered by the financial aid disbursement. Bookstore charges will run from Aug. 15–24, 2005 for Fall Semester 2005, Jan. 2–11, 2006 for Spring Semester 2006 and May 23–June 1, 2006 for Summer Semester 2006.

UNIVERSITY WITHDRAWALS AND REFUNDS
A student who withdraws from one or more courses may request a refund on course fees only. The refund period is the first two weeks of the semester.

For complete withdrawals, other fees are also proportionately refunded, except those listed as nonrefundable The actual dates for withdrawals are shown in the University Calendar section of this Bulletin. Application fees and registration fees (including the late-registration or late-payment fees) are nonrefundable fees. A student called for military service during the school term should consult the Bursar regarding refunds of fees. Meal plans may be canceled only if a student withdraws from the University. A copy of the withdrawal notice must be presented to the Dining Services Office located in the Student Center. The refund will be prorated based on the unused portion of the meal plan and a $25 cancellation fee will be charged.

FEDERAL FINANCIAL AID RECIPIENT WITHDRAWALS AND REFUNDS
Return of Federal Financial Aid Refunds
When a student completely withdraws from school, a portion of Federal Financial Aid grant or loan funds, except for Federal Work-Study earnings, must be returned to the applicable federal program(s).

The refund is based on the concept of ‘earned’ and ‘unearned’ federal financial aid and how it relates to the percentage of time the student was enrolled. The percentage of enrollment completed determines the percentage of earned aid.

For example, if a student attends 25 days of a 100 day term, the percentage of earned aid is 25%; and therefore, 75% of the unearned aid, up to the total of institutional charges, will be returned to the federal financial aid programs. Institutional charges consist of tuition, fees and campus housing (excluding Hillsdale).

In some circumstances, a student may need to repay a portion of the unearned aid. This repayment would not be more than ½ of the grant monies initially received. The student will be notified by Financial Aid if they owe a federal repayment.

NOTE: If your Title IV Financial Aid refund is greater than the posted University refund at the time of your withdrawal, you will owe the difference to the University. The Bursar Office will notify you of the amount due.

If a student completely withdraws after completing 60% of the term, then it is assumed that the student has earned 100% of their federal aid award and no funds will be returned to the federal programs.

For an example of the proposed Return of Title IV Funds Worksheet, please see either the Office of the Bursar or the Financial Aid Office located in the Administration Building.

NONRESIDENT FEE POLICY
A nonresident fee has been adopted for those students who are enrolled at the University of South Alabama and who are nonresident students. All nonresident students, including undergraduate, graduate and medical students, will be required to pay the nonresident fee. Residents of Escambia and Santa Rosa Counties in Florida, and George, Greene, Harrison, Jackson, Perry and Stone Counties in Mississippi will be considered “Service Area Residents” and will not be charged out-of-state fees. Students are required to submit documents to substantiate their residency in these counties.

The classification of students, as resident or nonresident, will be determined in accordance with the following policy and definitions:

1. A resident student is a student who:
   (a) has an intention to remain in the State of Alabama or the Service Area (see #4 below for definition of Service Area) indefinitely,
   (b) has a specific address or location within the State of Alabama or Service Area as their residence (not a residence hall),
   (c) possesses more substantial connections with the State of Alabama or Service Area than with any other state, and is not in Alabama or the Service Area for the sole purpose of obtaining an education, and
   (d) is not a "minor." However, a student who, at the time of registration, is a “minor” may obtain resident status based upon the student’s "supporting person."

“Minor.” An individual who, because of age, lacks the capacity under Alabama law. Under current law, this means a single individual under 19 years of age and a married individual under 18 years of age, but excludes an individual whose disabilities of nonage have been removed by a court of competent jurisdiction for a reason other than establishing a legal resident in Alabama.

“Supporting Person.” Either or both of the parents of the student, if the parents are living together, or if the parents are divorced or living separately, then either the parent having legal custody or, if different, the parent providing the greater amount of financial support, which may also include court-ordered responsibility for educational expenses; if both supporting parents are deceased or if neither has legal custody, supporting person shall mean, in the following order: the legal custodian of the student, the guardian, and the conservator.

2. Students may also be considered resident students if they:
   (a) are a full-time employee of the University of South Alabama or the spouse of such an employee,
   (b) can verify full-time permanent employment within the State of Alabama or Service Area, or is the spouse of such an employee, and will commence said employment within 90 days of registration at the University of South Alabama,
   (c) are a member, or spouse of a member, of the United States military on full-time active duty stationed in Alabama or the Service Area,
   (d) are employed as a graduate assistant or fellow by the University of South Alabama,
   (e) are an accredited member or spouse of an accredited member of a consular staff assigned to duties in Alabama or the Service Area, or
   (f) were enrolled during the Spring Quarter 1996 at the University of South Alabama and classified as a resident for tuition purposes, and maintain continuous enrollment every semester excluding summer.

3. All other students not classified as resident students under paragraphs 1 and 2 shall be deemed to be non-resident students for purposes of this policy.

4. The following counties in the states of Florida and Mississippi shall be defined as the University of South Alabama Service Area. Florida: Escambia, Santa Rosa. Mississippi: George, Greene, Harrison, Jackson, Perry, Stone.

APPLYING FOR RESIDENCY RECLASSIFICATION

A nonresident student may apply in writing for reclassification prior to any subsequent registration. In determining whether a student is in fact a resident student, the student or “supporting person” must declare, on the University of South Alabama Application for Residency Reclassification, an intention to remain in the State of Alabama or service Area. In addition the following criteria must also be met (if the student is basing their residency on a “supporting person,” that party must provide the following information):

A. A specific address or location within the State of Alabama or Service Area as the student’s residence.
B. Possession of more substantial connections with the State of Alabama than with any other state which may be shown by providing the following:
1. Required connections:
   (a) Voter Registration in Alabama or the Service Area or Alien Registration Card
   (b) Address shown on one of the following:
       (1) Selective Service registration
       (2) Auto title registration
       (3) Insurance policies
       (4) Last Will and Testament
       (5) Hunting/Fishing License
       (6) Stock and bond registration
       (7) Annuities/Retirement plans
       (8) Driver’s License (or official non-driver identification card)

2. In addition three of the following will support proof of substantial connection; however consideration will be given to any documents submitted:
   (a) Graduation from an Alabama or Service Area high school
   (b) Payment of Alabama or Service Area income taxes as a resident
   (c) Ownership of a residence or real property in the Alabama or Service Area (include proof of ad valorem taxes paid)
   (d) Full-time employment in Alabama or Service Area (notarized letter from employer required)
   (e) Spouse/parent/child residing in Alabama or Service Area
   (f) Previously lived in Alabama or Service Area
   (g) Possession of an Alabama or Service Area license to do business or practice a profession in the state or service area
   (h) Ownership of personal property in Alabama or Service Area, payment of taxes on property, possession of Alabama or Service Area license plate
   (i) Maintenance of checking account, savings account, safety deposit box, or investment account
   (j) Membership in religious, professional, business, civic, or social organizations in Alabama or Service Area (provide letter on organization letterhead from organization officer or membership documentation)

---

DELIQUENT/UNPAID ACCOUNTS
In the event of an unpaid balance of any nature on the student’s account (including any unpaid check returned by a bank) the following services will be withheld:

- Enrollment for subsequent terms
- Transcripts, including any for transfer of college credits
- Grades, including viewing on PAWS
- Diploma

until the balance is paid in full. If it is necessary to refer an account to an outside collection agency, any costs incurred in collection will be assessed to the account, including any attorney’s fees, and the account may be reported to credit bureaus.

---

OFFSET OF FUNDS
If a student’s University account has an outstanding balance due and the University has in its possession any funds payable to the student (from payments or credits applied to the student’s account, payroll checks, and/or any other source, except federal financial aid awards), the University reserves the right to withhold the funds necessary to clear the student’s outstanding balance and to cover any collection costs incurred. Once those amounts are paid, any remaining funds are paid to the student.

---

CHECK-CASHING SERVICE
Checks drawn on out-of-town banks to a maximum of $25.00 may be cashed at the Bursar’s Office by presenting a valid I.D. card. A $15.00 charge will be made on each returned check not paid by the bank. Checks are not cashed for students during the last two weeks of classes each semester.
FINANCIAL AID

PURPOSE
The University of South Alabama subscribes to the principle that the purpose of financial aid is to provide assistance to students who, for lack of funds, would otherwise be unable to attend college. Financial aid is awarded according to each individual’s need in relation to college costs. Awards may include loans and part-time employment, and may be offered to a student singly or in various combinations. The University’s financial aid staff is dedicated to the principle that each student must receive personal attention with complete confidentiality. Every effort is made to provide financial counseling by experienced, considerate personnel.

Inquiries about financial aid should be addressed to the Office of Financial Aid, Administration Building, Room 260, University of South Alabama, Mobile, AL 36688-0002, telephone (251) 460-6231 or e-mail: finaid@usouthal.edu.

APPLYING FOR FINANCIAL AID
Complete the Free Application for Federal Student Aid. Be sure to list the University of South Alabama in Section H. The University’s Federal ID number is 001057. By listing the University of South Alabama, and completing the Free Application correctly, USA should receive your financial aid information automatically. Upon receipt of your data, we will send you additional forms that you will need to submit to the Financial Aid Office.

Additionally, students whose applications are selected for verification will be asked to submit information such as tax returns (the student’s and parents’), verification of untaxed income, and other necessary documents to support the application.

When all required application information is submitted to the Financial Aid Office, the student’s file is reviewed and evaluated to determine eligibility for financial assistance. Students are notified of their financial aid award by mail.

Awards will not be made until all documents are received and the information on the application has been verified.

Financial aid awards are tentative pending receipt of funds by the University from local, state, or federal sources, and can be reduced mid-year if appropriations are cut.

APPLICATION DEADLINES
Financial aid is awarded on a continuing basis until funds are exhausted. Students who submit all required application data early and correctly will receive priority financial aid funding. Note: Scholarship deadlines are much earlier. See the appropriate section for details.

DISBURSEMENT OF FINANCIAL AID
During Registration: Financial aid awards are held at the University and paid to students during the registration process at the rate of one-half (½) per semester. 

Aid eligibility is determined at the end of the official Drop/Add days. Adding classes after that date will not increase a student’s aid eligibility.

All aid except Federal College Work-Study will be applied to institutional charges. If the financial aid does not cover costs, the student may make up the difference with a personal check or credit card. If the award is more than institutional charges, the excess funds will be disbursed to the student by the Bursar. Excess proceeds from the Parent Loan to Undergraduate Students will be refunded to the student. Students whose financial aid has not been received by the University should be prepared to meet the required costs of tuition and fees at registration.

During the Semester: Should a student fail to complete their financial aid application in a timely manner, there may be a delay in receiving financial aid funds. Lenders generally notify students of the date(s) they expect to disburse their loan proceeds.
To be considered for financial aid, a student must be accepted for admission. A student must be classified as a degree seeking student in an eligible program and an eligible major to be eligible for financial aid. Students who are admitted or re-admitted as non-degree, unclassified, transient, or audit students are not eligible to receive financial aid. Courses only required for your degree program can be used to determine enrollment status.

**CITIZENSHIP**
For all programs, an applicant must be a citizen of the United States or in the United States for other than temporary purposes.

**RENEWABILITY**
The Free Application for Federal Student Aid or the Renewal Free Application for Federal Student Aid must be filed each year. Other forms as determined by the University are required depending upon changing Federal legislation, regulations, and available funds.

Students are eligible to continue receiving financial aid as long as they meet the academic policies of the University. Students must also meet the conditions of satisfactory progress as defined in the current University Bulletin.

**GRANTS**

**Federal Pell Grant**
The Federal Pell Grant is a federally funded financial aid program that usually does not have to be repaid. It is designed to help undergraduate students (students who have not earned a first bachelor’s degree) pay for their college education. Undergraduates must apply for a Federal Pell Grant to be considered for other types of financial assistance.

The Department of Education uses a standard formula, passed into law by Congress, to evaluate the information students report on the Free Application for Federal Student Aid.

The amount of Federal Pell Grant a student may receive is based on financial eligibility, the cost of attendance at USA, enrollment status (full-time, three-quarter time, half-time, or less-than-half-time), and the level of federal funding.

Students apply for a Federal Pell Grant by completing the Free Application for Federal Student Aid. Applicants will receive a Student Aid Report (SAR) in the mail. Students should read all parts of the SAR to verify the information is correct. Contact the Financial Aid Office if any information is incorrect.

**Federal SEOG**
The Federal Supplemental Educational Opportunity Grant (FSEOG) provides funds to students who have extreme financial need as determined by the Free Application for Federal Student Aid. Federal SEOG is gift aid and usually does not have to be repaid. Only undergraduate students are eligible to apply for the Federal SEOG program, and since funds in this program are limited, priority is given to students who have the greatest financial need and receive a Federal Pell Grant.

The amount of the Federal Supplemental Educational Opportunity Grant depends on the student’s need and the amount of funds allocated to the University and the availability of those funds.

**Alabama Student Assistance Program**
Alabama Student Assistance Program (ASAP) is gift aid awarded to eligible Alabama residents seeking a first undergraduate degree. Students must meet general eligibility requirements including demonstrating financial need. Funds are awarded only to students who are Federal Pell Grant recipients.

The amount of ASAP awards depends on the student’s need and the amount of funds allocated to the University and the availability of those funds.

**Federal College Work Study**
This program provides part-time employment to students who have financial need. A variety of jobs are available on and off the University campus, and the student's work schedule is coordinated with their class schedule.

Both graduate and undergraduate students are eligible for the College Work Study program, and because of limited funds, priority is given to full-time students.

All Work Study awards are based on financial need of the student and the availability of funds. Generally, students work approximately fifteen hours per week during the semester. Students' paychecks are issued every two weeks by the Payroll Office.
Student Assistance Program
Part-time employment is available to students through individual departments or colleges. Contact departments directly regarding work possibilities.

Cooperative Education
Full-time and part-time employment directly related to students’ major fields of study is available to students having completed at least two semesters of academic work. Contact the Career Services Center for further information.

Off-Campus Employment
Announcements of part-time job openings in the Mobile area are posted on the Financial Aid web site at http://www.finaid.usouthal.edu. You must be enrolled at USA to access those job listings.

LOANS
Federal Perkins Loan
The Federal Perkins Loan is a long-term, 5% interest student loan for both graduate and undergraduate students. Interest does not begin to accrue and payments are not made until the student ceases to be enrolled at least half-time. Funds are awarded based on the financial need of the student and the availability of funds. You must attend at least half-time to be eligible for the funds. Undergraduates may borrow up to $4000 each year of study to a total of $20,000. Students in a program of 4 years or longer who have not achieved third-year status are limited to an aggregate maximum of $8000. Graduates may borrow $6000 each year to a total of $40,000, including the amount borrowed as an undergraduate. Awards are made based on appropriations from Federal sources. Repayment usually begins nine months after enrollment ends, and the minimum monthly payment is $40. Of course, the more a student borrows, the greater the monthly payment.

Federal Stafford Loans
This loan is a low interest loan made available by a lending institution such as a bank, credit union, or savings and loan association. Both degree-seeking graduates and undergraduates may apply, and you must attend at least half-time. Students who qualify for this loan on a need basis will have their interest paid for them while they are in school, in deferment and during the six month grace period. Students who do not qualify on a need basis for interest benefits may still borrow through the Federal Stafford Student Loan Program. These students will not have the interest paid for them. All other provisions of the Stafford Program apply to this loan. Students may not borrow more than the cost of attendance at USA. The maximum loan limits for the Federal Subsidized Stafford Loan as established by Federal guidelines are:

• $2,625 for first-year undergraduates
• $3,500 for second-year undergraduates
• $5,500 a year for students who have completed the first two years of study to a total of $23,000 as an undergraduate
• $8,500 a year for graduate and professional school students to a total of $65,000 including funds borrowed as an undergraduate.
Financial aid applicants considered independent may borrow additional money under the Federal Unsubsidized Stafford Loan Program. The maximum loan limits as established by Federal guidelines are: $4000 a year for first and second year students, $5000 a year for students who have completed the first two years of study, and $10,000 a year for graduates.

Limits for undergraduates were effective July 1, 1993. Limits for graduates were effective October 1, 1993. For aggregate loan limits, see the Financial Aid web site at http://www.finaid.usouthal.edu.

Remember, the amount a student may borrow is limited to financial eligibility. Also, Stafford loans may be subject to a 3% origination fee and a 1% guarantee fee. The minimum Federal Stafford Loan payment is $50 per month, and repayment usually begins six (6) months after students drop below half-time status.

**Federal Parent Loan Program for Undergraduate Students (PLUS)**

This program allows parents to borrow up to the cost of attendance, less other financial aid and veteran's benefits, at a maximum interest rate of 9%. The repayment period begins on the day the loan is fully disbursed, with the first installment due to the lender within 60 days of that date. A student must attend at least half-time to be eligible for the funds.

**STUDENT RIGHTS**

**Students Have The Right to Know:**

The names of organizations which accredit and license the University. About the University's programs, instruction, laboratories, physical facilities, and faculty. The cost of attending the University and its refund policy. The type of financial assistance offered by the University from federal, state, local, and private programs. Who the financial aid personnel are and the location of the Financial Aid Office. What the procedures and deadlines are for applying for financial aid. How the University selects its financial aid recipients. How the University determines financial need. How much financial need has been met. How financial aid is received. About each type of financial assistance offered. Information about all student loans offered. The kind of Work-Study jobs offered, hours, duties, rate, and frequency of pay. When and how financial aid awards are adjusted. About special facilities for the handicapped. The University’s Satisfactory Progress Policy.

**Consumer Complaint Procedures**

Students and prospective students should be aware that, should they have concerns or complaints related to the management or conduct of the Title IV financial assistance programs or to misleading or inappropriate advertising and promotion of the institution's educational programs, this institution has a complaint procedure. To the extent possible, students must seek a resolution of such matters through the institution's internal complaint procedure before involving others. Students with complaints should contact the Office of the Associate Vice President for Enrollment Services at (251) 460-6494. Should the institution not be able to resolve the problem, you may contact the Department of Education Ombudsman at 1 (202) 401-4498 or toll free at 1 (877) 557-2575.

**STUDENT RESPONSIBILITIES**

**Students Have The Responsibility To:**
Review and consider all information about the University before enrolling. Pay special attention to the application for financial aid, complete it accurately, submit it on time and to the right place. Know all deadlines for applying for aid and meet them. Provide all required documentation, corrections, and/or information requested by the Financial Aid Office. Notify the University of any information that has changed since the financial aid application was submitted. Read, understand, and keep copies of all forms. Repay any student loans borrowed. Perform an entrance and exit interview. Notify the Financial Aid Office of a change in name, address, or enrollment status (half-time, full-time, three-quarter-time). Satisfactorily perform the work agreed upon in a College Work-Study job. Understand the University’s refund policy.

STUDENT LOAN COUNSELING

Entrance Interview
Students receiving the Federal Stafford Loan for the first time at USA must have a counseling session before receiving their student loan check. During the counseling session, students will be informed of their rights and responsibilities as borrowers, advised on the consequences of excessive borrowing and of defaulting on a student loan, and given tips on money management. Perform the interview via the Internet at http://www.finaid.usouthal.edu.

Exit Interview
Students who received a Federal Stafford Student Loan or Federal Perkins Loan while attending USA must perform an exit interview before leaving the University through graduation, withdrawal, or transfer. Perform the interview via the Internet at http://www.finaid.usouthal.edu.

OVER AWARDS

Definition
When students receive federal funds, their financial need is established according to federal guidelines. Students may not receive more financial assistance than their cost of attendance. This occasionally occurs when students receive funds from other sources after the Financial Aid Office issues a financial aid award. This situation is called an over award.

Solution
When over awards occur, the Financial Aid Office is required to adjust the financial aid the student has been awarded. Students may be required to repay some of the funds they have already received.

Prevention
To prevent over awards, students should take the following steps:
- Notify the Financial Aid Office of any assistance from outside sources not listed on the award letter such as scholarships, ROTC, veterans benefits, etc.
- List all sources of financial assistance on the University Financial Aid Resource Form.
- Check with the Financial Aid Office before applying for financial assistance from other sources.

FEDERAL FINANCIAL AID RECIPIENT WITHDRAWALS AND REFUNDS

Return of Federal Financial Aid Refunds
When a student completely withdraws from school, a portion of Federal Financial Aid grant or loan funds, except for Federal Work-Study earnings, must be returned to the applicable federal program(s). The refund is based on the concept of ‘earned’ and ‘uneearned’ federal financial aid. How it relates to the percentage of enrollment completed determines the percentage of earned aid.
For example, if a student attends 25 days of a 100 day term, the percentage of earned aid is 25%; therefore, 75% of the unearned aid, up to the total of institutional charges, will be returned to the federal financial aid programs. Institutional charges consist of tuition, fees, and campus housing (excluding Hillsdale), and mandatory meal plans. In some circumstances, a student may need to repay a portion of the unearned aid. This repayment would not be more than 1/2 of the grant monies initially received. The student will be notified if they owe a federal repayment.

NOTE: If your Title IV Financial Aid refund is greater than the posted University refund at the time of your withdrawal, you will owe the difference to the University. The Bursar Office will notify you of the amount due.
If a student completely withdraws after completing 60% of the term, then it is assumed that the student has earned 100% of their federal aid award, and no funds will be returned to the federal programs.

For an example of the proposed Return of Title IV Funds Worksheet, please see either the Office of the Bursar or the Financial Aid Office located in the Administration Building.

REASONABLE ACADEMIC PROGRESS POLICY

Federal regulations require the University to establish a reasonable academic process policy which applicants for financial aid must meet. The policy must have a qualitative component, a quantitative component, and an overall time frame component. A student must maintain reasonable academic progress, regardless of whether the student was a previous recipient of financial aid.

Qualitative Component - The University’s academic standards are the qualitative standards for this policy. These are outlined in this University Bulletin. In addition, Federal Law requires that students who have earned 64 or more credit semester hours (juniors and seniors) to maintain the minimum cumulative grade-point average required by the University for graduation. This minimum is defined by the Bulletin as 2.00. This component is evaluated each semester.

Quantitative Component - After 2 semesters have been attempted, a student’s cumulative hours passed must be at least 75% of the cumulative hours attempted, as defined by the Office of Records. For example, a student enrolling in 12 hours per semester for two (2) semesters would be required to pass 18 hours. A student enrolled in 6 hours per semester for 4 semesters would be required to pass 18 hours. This component is evaluated at the time of each application. Note: if you have filed academic bankruptcy, you will be evaluated each term following the bankruptcy.

Overall Time Frame - Students are no longer eligible to receive Title IV Federal financial aid (this includes Loans) after attempting 16 full-time equivalent semesters. Transfer hours are included in the total hours attempted. This component is evaluated at the time of each application.

Grades - Courses with non-assigned grades, including withdrawals, are considered in determination of the percentage of hours completed toward the degree. Refer to this University Bulletin for the regulations concerning the effect on cumulative hours passed on cumulative hours attempted. Acceptable grades are: "A", "B", "C", "D", "E", "S", "P". Unacceptable grades are: "F", "U", "I", "X", "WD", "AU", "UA", "N". All of these grades are considered in evaluating the quantitative, qualitative, and overall time-frame components.

Transfer Students - Students transferring to the University are assumed to be maintaining satisfactory progress. Hours transferred from prior schools will be considered in establishing the class standing for grade-level requirements, as well as being considered in determining the maximum number of semesters attempted for the overall time frame component. Full-time equivalent semesters are determined by dividing the total transfer hours accepted by 12. Grade-point averages (GPAs) from transfer credits will not factor into your cumulative GPA at USA.

Second Bachelors Degree/Dual Degree - Students seeking a second undergraduate/dual degree will be permitted to enroll in up to eight full-time equivalent semesters beyond the first bachelor’s degree.

Graduate Students - The University’s academic standards for graduate students are the qualitative standards for this policy. The quantitative component is defined as passing 50% of all hours attempted. The overall time frame is defined as 10 full-time equivalent semesters.

Doctoral Students - The University’s academic standards for doctoral students are the qualitative standards for this policy. The quantitative component is defined as passing 50% of all hours attempted. The overall time frame is defined as 20 full-time equivalent semesters including graduate work.

Academic Bankruptcy - Credit hours earned prior to declaring academic bankruptcy will be counted in the overall time-frame component, qualitative and quantitative components.

College of Medicine - The academic regulations in the COM Bulletin describe the satisfactory progress requirements for a student enrolled in the College of Medicine.

Appeals - Students may appeal a decision of non-compliance using the following procedure:

In order to appeal the loss of eligibility for financial aid because of failure to make satisfactory progress under the quantitative, qualitative, or time-frame components, the following appeal procedure has been established. It is imperative that you follow the procedure precisely as outlined below.
1. Complete 12 consecutive credit hours at USA, that are required for your degree, with no final grades less than a “C” **without the use of federal funds**. The 12 hours may be taken all at once or over more than one semester. After the 12 hours have been completed, the student would then need to submit a typed or e-mailed letter of appeal. The Office of Financial Aid would review the request to determine if aid will or will not be restored in a probationary status.

2. Or, submit a typed or e-mailed appeal letter to the Office of Financial Aid if the failure to maintain Satisfactory Academic Progress was due to **extenuating circumstances**.

3. Or, make up any hour deficiency and/or attain the required cumulative GPA of 2.0 **without the use of federal funds**. Once completed, submit written notification to the Office of Financial Aid.

**Reinstatement** - Students who lose financial aid eligibility because of a failure to maintain satisfactory progress towards a degree may reapply for financial aid after clearing the deficiency or attaining the minimum GPA.

**SCHOLARSHIPS**

Students receiving University scholarships will have the award credited to their tuition and fees due each semester. Any balance from scholarships should be used to pay for associated academic costs such as books at the USA Bookstore, USA Housing and USA Food Service.

Students desiring to apply for College or Departmental scholarships should consult the appropriate Department Chairs for application procedures.

**Presidential Scholarships**

**Presidential - $10,000 per year.** *Qualifications: Candidates must have a minimum ACT composite score of 33 (or comparable SAT) and a 3.5 minimum high school GPA, as computed by the USA Office of Admissions, to be considered. Entering freshmen only.*

**Presidential - $8,000 per year.** *Qualifications: Candidates must have a minimum ACT composite score of 32 (or comparable SAT) and a 3.5 minimum high school GPA, as computed by the USA Office of Admissions to be considered. Entering freshmen only.*

**Presidential - $7,000 per year.** *Qualifications: Candidates must have a minimum ACT composite score of 30 - 31 (or comparable SAT) and a 3.5 minimum high school GPA, as computed by the USA Office of Admissions, to be considered. Entering freshmen only.*

**Presidential - $3,500 per year.** *Qualifications: Candidates must have a minimum ACT composite score of 27 - 29 (or comparable SAT) and a 3.0 minimum high school GPA, as computed by the USA Office of Admissions to be considered. Entering freshmen only.*

**Presidential - $2,500 per year.** *Qualifications: Candidates must have an ACT composite score of 24-26 (or comparable SAT) and a 3.0 minimum high school GPA, as computed by the USA Office of Admissions to be considered. Entering freshmen only.*

**Honors Program Scholarships** - Students admitted to the USA Honors Program may receive a four-year honors scholarship. Contact the Honors Program Director, (251) 461-1637, for application procedures and deadline dates and more information about this prestigious program. Information is also available on the USA Honors web page at www.southalabama.edu/honors.

**Bay Area Scholarships - $1,500 for Freshman year.** Qualifications: ACT Composite score of 21-23 (or comparable SAT), minimum high school grade-point average of 3.0 as computed by the USA Office of Admissions, and residence in Mobile or Baldwin counties in Alabama. Entering freshmen only.*
*Renewal criteria for Presidential Scholarships include maintaining a 3.0 minimum cumulative USA GPA as well as meeting all other criteria outlined in student’s scholarship contract. For awards made prior to the 2002-2003 academic year, refer to scholarship contract for GPA and other renewal criteria.

**Scholarships are awarded beginning late January each year to students who have completed the admissions process by the December 1 priority deadline. A special scholarship application is required. Students are encouraged to apply early as funds are limited to accepted students.

**Junior College Transfer - $1,000 per year.** Qualifications: The award is based on the cumulative GPA earned at the junior college as computed by the USA Office of Admissions. Application: No separate application is required. Candidates should be accepted for admission by May 1. Awards are made in mid-summer.

**Abraham Mitchell Business Scholars Program: $5,000 - $8,000 per year.** Qualifications: Candidates must have a minimum ACT Composite score of 28 (or comparable SAT), minimum 3.5 high school grade-point average as computed by USA Admissions, and major in the Mitchell College of Business. Preference is given to Mobile County and State of Alabama residents. The scholarship deadline is February 1 of each year. Scholarships are awarded to students who are graduating from high school and entering USA as freshmen. All students who meet the minimum qualifications and who have completed the admissions process will be considered.**

**Magnes Scholarship - $2,000 per year.** Qualifications: Candidates must have a minimum ACT composite score of 21, a high school GPA of 3.0 as computed by the USA Office of Admissions, be a resident of Mobile County and major in Business. Application: Separate applications are mailed in January of each year by the USA Office of Admissions to accepted freshmen students who meet the minimum qualifications. Applicants must also apply for financial aid and demonstrate financial need.

**CIBA - $2,500 per year.** Qualifications: The most academically talented freshman chemical engineering major from Washington County, Alabama is selected. Application: Applications are mailed by the USA Office of Admissions to all accepted students who meet the minimum qualifications. Applications are usually mailed in the Spring of each year.

**Performance (Athletic, Music, Theater Arts) -** The award amount varies. Qualifications: Selection is based on the individual’s ability. Applications: Contact the individual departments - Athletics (251) 460-7121, Music (251) 460-6136, Theater Arts (251) 460-6305.

**ACM Scholarship** - $1,000 annual scholarship for a student within the Computer and Information Sciences program. Contact the School of Computer and Information Sciences for more information, (251) 460-6390.

**Mary Ahn Nursing Scholarship** - Annual scholarship awarded to an outstanding Nursing major. Contact the College of Nursing for more details, (251) 434-3410.

**Air Force ROTC Scholarships** - Cover the costs of tuition, fees, and a reimbursable book allowance, plus a subsistence allowance of $150 per month for the academic year. Four-year and three-year scholarships are available to pre-freshmen having applied before December 1 of their senior year in high school. Three-year and two-year scholarships are available to eligible college students in all academic majors. Current enrollment in the Air Force ROTC program is not a prerequisite. Students selected to enter the advanced program (AS 300 and AS 400), will receive $100 per month subsistence. This allowance is tax free and is in addition to any other assistance that the student may receive. Applications and further information may be obtained from the Air Force Studies Department, (251) 460-7211.
Alumni Freshmen Leadership Scholarships - Four (4) one-year $2,500 scholarships to entering freshmen. Qualifications: Candidates must have a minimum ACT composite score of 24, a 3.0 cumulative grade-point average, and demonstrate achievement in academics and leadership activities within the school and community. Applications are mailed in January by the Office of Alumni Affairs to all accepted freshmen who meet the minimum qualifications or are available by request. Contact Office of Alumni Affairs (251) 460-7084.

Alumni Book Scholarship - Two (2) $500 book scholarships to a full-time sophomore, junior, or senior at the University. Qualifications: Candidates must have completed a minimum of 20 hours at the University with a minimum 3.0 cumulative grade-point average. Academics, activities, and leadership are considered in awarding the Alumni Book Scholarship, as well as financial need. Applications are available in January. Contact the Office of Alumni Affairs (251) 460-7084.

Army ROTC Scholarships - Cover the costs of tuition, fees, and a flat-rate book allowance plus a subsistence allowance of up to $350 per month for the academic year. Four-year scholarships are available to pre-freshmen having applied during the fall of their senior year in high school. Two and three-year scholarships are available to eligible students, and current enrollment in the R.O.T.C. program is not a prerequisite. Students who are selected to enter the advanced program, MS 301-303 and MS 401-403, will receive up to $350 per month subsistence for up to 10 months per year. This allowance is tax free and is in addition to any other assistance that the student may receive. Applications and further information may be obtained from the Military Science Department, (251) 460-6341.

Alabama Power Company Engineering Scholarship - Two $3,000 annual scholarships to Engineering students that are Alabama residents based on academic standing and financial need. Contact the College of Engineering for more information, (251) 460-6140.

Alpha Epsilon Delta - T. G. Jackson Preprofessional Scholarship - This scholarship was originated by AED alums. Alabama Zeta chapter of Alpha Epsilon Delta announces a prestigious scholarship program. The AED/T. G. Jackson Scholarship is an annual, non-renewable scholarship awarded to an outstanding junior or senior, and an AED National member. The recipient must be enrolled as a full-time student each semester (15 hours) and maintain at least a 3.5 grade point average for fall semester to receive the scholarship in spring semester. Applications may be obtained from the Health Preprofessional Advisor.

Art Scholarship - Awarded to a deserving Art major. Contact the Art Department for further details, (251) 460-6335.

Amanda Baker Scholarship - Awarded to a deserving student majoring in Nursing. Contact the College of Nursing for details, (251) 434-3410.

Dr. Graciella Blanco Scholarship - Awarded annually to an outstanding Spanish student. Contact the Department of Foreign Languages and Literatures for details, (251) 460-6291.

Dr. Victorino S. Blanco Mathematics Scholarship - An endowed scholarship awarded annually to the outstanding undergraduate senior mathematics major. Contact the Department of Mathematics and Statistics for details, (251) 460-6264.

Jeremy Blanton Memorial Scholarship - A scholarship awarded spring semester to an outstanding student who has completed the Freshman year. Criteria based on academic achievement and financial need. Contact the Office of Enrollment Services. (251) 460-6494.

Boise Engineering Scholarship - Given annually to a deserving Engineering student. Based on academic excellence and financial need. Contact the College of Engineering for more information. (251) 460-6140.

Ed Bunnell Scholarship - A $500 annual scholarship awarded to deserving AIS students. (More than one scholarship is usually available.) Contact Department of Adult Interdisciplinary Studies for further details, (251) 460-6263.
James and Ivel Caldwell Scholarship - An endowed scholarship awarded to a major in International Studies. For information, contact the Director of the International Studies Program, (251) 460-7161.

Canoe Crew of 1988 Scholarship - Given annually to a deserving Civil Engineering junior or senior. Contact Civil Engineering for further details. (251) 460-6174.

John C. Chester Music Scholarship - An endowed scholarship awarded annually to an outstanding piano student. Contact the Department of Music, (251)460-6136.

Chevron Texaco Engineering Scholarship - Two $1,000 annual scholarships for Chemical Engineering juniors or seniors. Two $500 annual scholarships for Mechanical Engineering juniors or seniors. Based upon academic excellence. Contact either Chemical Engineering at (251) 460-6160 or Mechanical Engineering at (251) 460-6168.

Children of Alumni Scholarship - One (1) year $2,500 scholarship awarded to a child of an alumnus of the University. Qualifications: full-time sophomore, junior or senior at USA. Must have completed 20 hours at USA with a minimum cumulative grade-point average of 2.5. Parent or guardian must be a dues-paying/active status USA Alumni Association member at time of scholarship application submission. Academics, activities and leadership are considered in awarding the scholarship. Applications are available in January. Contact the Office of Alumni Affairs (251) 460-7084.

Children of Employee Scholarship - A $1,000 scholarship awarded annually to children of University employees. Scholarships will be awarded for the academic year and are available to unmarried dependents of employees who are eligible for the University's Education Benefit Plan as outlined in Section 8.2 of the Staff Employee Handbook. Application deadline is April 1. For more information, contact the Office of Enrollment Services, (251) 460-6494.

Danny T. Conway Memorial Award - A $500 scholarship awarded annually to an upper class student based on academic acting excellence. Contact the Department of Dramatic Arts for further details, (251) 460-6305.

Alfred F. Delchamps Scholarship - Awarded to an outstanding junior or senior student in Education. All aid applicants are considered.

Desk and Derrick Club Scholarship in Geology/Geography - A $500 annual scholarship awarded to a deserving junior or senior Geology/Geography student. Contact the Earth Sciences Department for further details, (251) 460-6381.

Douglas Engineering Scholarship - Awarded annually to a deserving incoming Engineering freshman. Based on academic excellence and financial need. Contact the College of Engineering for more information. (251) 460-6140.

Jack Edwards Scholarship - Awarded to an outstanding junior or senior student in political science. All aid applicants are considered.

John W. Faggard Memorial Scholarship in Geology - $500 annual scholarship awarded to a student majoring in Geology. Contact the Department of Earth Sciences for more information, (251) 460-6381.

Marjorie Faircloth Speech Pathology Scholarship - A $500 annual scholarship awarded to a deserving student majoring in Speech Pathology. Contact the Department of Speech Pathology for further information, (251) 380-2600.

Sam P. Fleming Scholarship in Clinical Sciences - Awarded annually to senior student majoring in Clinical Laboratory Sciences who is a native of Alabama or Mississippi with demonstrated financial need and expressed plans to work in and contribute to the field of the clinical laboratory sciences. Contact the Department of Clinical Laboratory Sciences for details, (251) 434-3461.
Sue Ellen Gerrells/R. Eugene Jackson Award - An endowed award annually presented to an upper class drama major who excels in overall academics and has an outstanding record of achievement in theatre. Contact the Department of Dramatic Arts for more information, (251) 460-6305.

Dr. Erwin Goessling Foreign Language Scholarship - An endowed scholarship awarded annually to an outstanding student majoring in German. Contact the Foreign Language Department for further details, (251) 460-6291.

William Crawford Gorgas Chapter of the American War Mother’s Scholarship - An annual award granted to a deserving son or daughter of a war veteran. All aid applicants are considered.

Joseph Hadley Memorial Scholarship in Education - Awarded annually to an outstanding and deserving student in the College of Education. Contact the College of Education for further information, (251) 380-2738.

R. L. & Annie M. Hill Nursing Scholarship - Awarded to a deserving student majoring in Nursing. Contact the College of Nursing for details, (251) 434-3410.

Malcolm R. Howell Scholarship - A scholarship established by the Student Government Association in honor of the retired Dean of Students given to an entering freshman who exhibits outstanding leadership experience and potential. Contact the Student Government Association for details (251) 460-7191.

Martin Luther King Scholarship - Awarded annually to a deserving minority student. Contact Minority Student Affairs (251) 460-6895.

Regina Little Scholarship - Awarded to a deserving student majoring in Nursing. Contact the College of Nursing for details, (251) 434-3410.

Ray Lolley Memorial Scholarship - University scholarship established by the Board of Trustees as a memorial to Senator Ray Lolley, former trustee. All aid applicants considered.

MACE/Raburn Engineering Scholarship - Two $1,500 annual scholarships to Engineering students. Based on academic excellence and financial need. Contact the College of Engineering for more information. (251) 460-6140.

Charles R. McClothren, Jr. Scholarship - A $1,000 annual scholarship awarded to a deserving student majoring in Philosophy. Contact the Philosophy Department for further details, (251) 460-6248.

Patricia W. McRaney Memorial Scholarship - Awarded annually by the Federated Junior Woman’s Club to an outstanding junior majoring in Special Education. All aid applicants are considered.

Reese and Rose Miller Engineering Scholarship - Given annually to a deserving Engineering student. Based on academic excellence and financial need. Contact the College of Engineering for more information. (251) 460-6140.

Sushila Mishra Memorial Scholarship in Mathematics/Statistics - A $500 annual scholarship awarded to an outstanding junior or senior majoring in Statistics. Contact the Department of Mathematics/Statistics for further details, (251) 460-6264.

Mobile Association of Purchasing Management Scholarship - Awarded annually to a deserving junior or senior Business major. Established in honor of the Association’s lifetime members. Contact the Department of Marketing and Transportation, Mitchell College of Business, for details, (251) 460-6412.

John Stark Mobile Oilmen’s Association Scholarship - Two $600 annual scholarship for students majoring in Chemical Engineering. Contact that department for further details, (251) 460-6160.
Mobile Traffic and Transportation Club Scholarships - Scholarships of $1,000 are awarded annually to a deserving junior or senior majoring in Transportation. Contact the Department of Marketing and Transportation, Mitchell College of Business, for details, (251) 460-6412.

Mobile Women in Construction Scholarship - Awarded annually to a deserving junior or senior Engineering major. All aid applicants are considered, (251) 460-6140.

Chris Nash Memorial Scholarship - $500 annual scholarship awarded to an outstanding and deserving student majoring in Mathematics/Statistics. Contact the Department of Mathematics/Statistics for more information, (251) 460-6264.

Shirley Dean Panus Physical Therapy Scholarship - Awarded to an outstanding physical therapy student. Contact the Department of Physical Therapy for further information, (251) 434-3575.

Earl O. Parish and Elizabeth Osenton Parish Memorial Scholarship - Awarded annually to a deserving incoming Engineering freshman. Based on academic excellence and financial need. Contact the College of Engineering for more information, (251) 460-6140.

Howard M. Phillips Scholarship - Endowed scholarship award made to an academically talented and deserving student. All aid applicants are considered.

Physics Faculty Honors Fellowship - Tuition and fees (up to $1,500 per semester for up to four semesters). Qualifications: Awarded to outstanding Physics majors at the University of South Alabama with a minimum cumulative 3.0 GPA who have completed the calculus-based introductory physics sequence (PH 201 and PH 202) based on academic merit. Selection will be based upon the math/science GPA (as computed by the Physics department), recommendation of physics instructors, and recommendation of the Physics faculty. For more information contact the Physics department, (251) 460-6224.

Propeller Club of the United States, Port of Mobile Scholarship - $1,000 awarded annually to a junior or senior majoring in Marketing/Transportation. Contact the Department of Marketing and Transportation, Mitchell College of Business, for details, (251) 460-6412.

Katherine Lawrence Richardson Scholarship - Awarded annually to an outstanding senior majoring in English or in Secondary Education with a concentration in English. Contact the Department of English for details, (251) 460-6146.

Comer Scarborough Scholarship - Awarded periodically by the Mobile Chapter of the Phi Delta Kappa Fraternity to a major in Education planning to teach in Mobile.

Sigma Theta Tau Scholarship - Awarded to recognize outstanding scholarship by qualified nurses and nursing students. This award of $250 is available to undergraduate and graduate nursing students. Application is made in the College of Nursing, (251) 434-3410.

Ron and Gail Stallworth Scholarship - A $500 annual scholarship is given to a deserving student in Chemical Engineering. Contact Chemical Engineering for further details. (251) 460-6160.

Hooker/Kubik Slovak Scholarship - Awarded annually to a student (age 22 or older with a J-IVISA) from the Kosice, Slovakia area. Based on academics, references, and leadership. For further information, contact the Office of International Services, (251) 460-6050.

G. M. Tomasso Scholarship - Awarded to a deserving student majoring in Nursing. Contact the College of Nursing for details, (251) 434-3410.
STUDENT AFFAIRS AND STUDENT SERVICES

The Division of Student Affairs is responsible for that part of the student’s total educational experience which takes place outside the formal classroom program. Among its concerns are housing, Student Center, Mitchell Center, student activities, recreation, student organizations, programs, disciplinary actions, disabled student services, community service, personal counseling, minority affairs, testing services, food services, bookstore, and University Police. Through such activities as the Student Government Association, the students are given a responsible voice in the governance of the University. (See Student Handbook, The Lowdown.) Students also participate as members of University-wide committees as well as on committees within the colleges of the University.

STUDENT LIFE

The University of South Alabama, concerned with the total growth and development of its students, believes that attention should be given, not only to the intellectual aspect of this growth but also to the physical, social, emotional, and spiritual aspects. Through all of the services and programs of the University, students will hopefully acquire, along with a sound intellectual competence, a maturing sense of values.

STUDENT CENTER

The mission of the Student Center is to serve as a focal point of the campus where the University family - students, faculty, staff and alumni, as well as the extended community, can participate in informal association outside of the classroom. As the center of the University community it provides programs by students and for students which encourage the understanding and appreciation of cultural pluralism and ethnic diversity. It also provides opportunities for citizenship, social responsibility, and leadership development where students can enhance their educational development and enrich the University’s environment.

Located in the building are lounge areas, Southpaw Services, a computer lab, a student art gallery, office space for student organizations, recreational facilities, dining services, and other service facilities. Six meeting rooms, a ballroom, and audio-visual equipment are available at no charge to student organizations, and administrative and academic departments. Individuals and outside organizations may reserve space and equipment for a small fee.

Reservations for any space in or around the Student Center may be made in Southpaw Services, Monday through Friday, 8:00 a.m. - 5:00 p.m. at (251)460-6077.

CAMPUS RECREATION

The Campus Recreation Department is designed to offer a wide variety of recreational activities to the entire University community. Campus Recreation accommodates many styles of participation, including team and individual competition in a variety of sports and activities. Student groups may use recreational facilities or equipment for social activities approved by the Campus Recreation Department. The continuing goal of the recreation program is to provide activities that offer optimum benefits of enjoyment, health, social interaction, and sportsmanship to participants.

The Student Recreation Center opened in 1992 with racquetball courts, basketball courts, an indoor running track, and a fitness center. The Intramural Field Complex, containing six multi-purpose playing areas, opened fall semester 2003. The telephone number for the Student Recreation Center is (251) 460-6065, and the telephone number for the Intramural Field Complex is (251) 461-1627.

COUNSELING SERVICES
The University Counseling Services are staffed by professional counselors who are available to assist students with personal problems as well as with academic and vocational concerns. All types of adjustment and emotional problems are handled, including marriage and pre-marriage counseling, on a self-referral basis. Psychotherapy is provided by qualified counselors and referrals are made to various agencies as needs arise. The Counseling Service provides psychological testing and evaluation and coordinates other appropriate “campus survival” activities. No fees are charged for counseling, but, in some cases, a small fee is required for certain testing services. Counseling records are considered professional information and are protected accordingly. Personal confidences are strictly respected. Students may seek information or appointments either by telephoning (251) 460-7051 or by visiting the Counseling Services, located in Alpha Hall East, Room 326.

The University has established a Center for Substance Abuse Education and Prevention. This office provides assessment, counseling, intervention, and referral services for University students and employees. There is no charge for information or on-campus counseling. Contact the Manager, Substance Abuse Counseling at (251) 460-7980 located in Alpha Hall East, Room 326.

CRIME PREVENTION OFFICE
The USA Police Department has a Crime Prevention Program and a Crime Prevention Officer located on the main campus in Faculty Court South, Room 20. The telephone number is (251) 460-6611. Our Prevention Program includes lighting and safety programs, Rape Awareness Seminars and information, self-defense information, and campus safety tips.

DISABLED STUDENT SERVICES
The University offers special services to students with disabilities. Students requesting services must submit documentation regarding the disability to the Special Student Services office prior to receiving appropriate services. Services provided may include but are not limited to: priority registration, counseling, advocacy training, enlargements for the visually impaired, notetakers, textbooks on tape, readers, writers, extended testing time and any reasonable accommodation covered under Section 504 of the Rehabilitation Act of 1973 and ADA of 1990. The Special Student Services office is located in the Student Center, Room 270, (251) 460-7212.

DRUG AND ALCOHOL POLICY
The University does not permit the possession, consumption, or distribution of alcohol by an individual on any of its campuses and in any of its facilities except as designated. Organizations may be permitted to have alcohol at events if permission is granted through the Office of Campus Involvement. The possession, consumption, and/or distribution of illegal substances without a medical prescription are forbidden. Violation of either policy is subject to both University administrative action and criminal prosecution. See The Lowdown for a full description of the policy.

JAGTRAN
The University of South Alabama's campus transportation system, JagTran, was created to provide easy, safe, and efficient transportation for USA students, employees and visitors. Some JagTran vehicles run continuously throughout the day on the main campus. No tickets, money, or reservation are needed. Students will park their cars in color-coded lots, which they choose, and then walk or ride JagTran. For more information, visit www.southalabama.edu/jagtran.

MINORITY STUDENT AFFAIRS
The Office of Minority Student Affairs, located in 110 Student Center, is committed to providing programming for cultural awareness, coordinate efforts to increase the retention of minority students, encourage minority students to participate in all aspects of campus life, and provide leadership development for aspiring student leaders.

PROGRAMS AND SPECIAL EVENTS
The Student Programming Board, Jaguar Productions, presents activities to serve the cultural, educational, recreational, and social interests of students. Those students who are directly involved have opportunities to exemplify creative thinking and leadership outside the classroom.
Student Programming functions through committees, such as Fine Arts, Horizons, Club South, Trips and Tours, Concerts, Movies, Special Events, Technical and Promotions. Students select, publicize and produce the events. All students are invited to join these committees.

STUDENT CONDUCT
Students attending the University of South Alabama are accepted as responsible adults working with their faculty colleagues in search of knowledge. Rigid regulation of personal conduct will not be necessary since freedom as an objective of education is difficult without the actual existence of freedom. Such freedom must be balanced by individual responsibility and respect for the rights, responsibilities, and freedom of others. Students, therefore, will be held accountable for their own decisions and actions. Failure to assume responsibility for actions that jeopardize the rights and freedoms of others or involve the integrity of the University will result in disciplinary review.

The University holds its students to high standards of academic excellence and similarly expects high standards of individual conduct. The Spirit of South Alabama was adopted by the Student Government Association as a basis for expectations from our students. Persistent violations of expected standards or established regulations will necessarily involve appropriate disciplinary action. The University reserves the right to deny admission or continued attendance to students whose decisions and actions are contrary to the purposes and procedures of the University. The Lowdown, student handbook, contains, the Code of Student Conduct.

STUDENT ACADEMIC CONDUCT
The Student Academic Conduct Policy is presented in the student handbook, The Lowdown. Please refer to that publication.

CAMPUS INVOLVEMENT
Over one hundred eighty professional, departmental, special interest clubs, religious groups, and honor societies are active at the University. These organizations represent a wide variety of disciplines and interests and provide an opportunity for every student to get involved. Any student group seeking recognition is encouraged to pick up application forms in the Office of Campus Involvement, Room 129, Student Center, (251) 460-7003.

STUDENT SUPPORT SERVICES
The University receives federal funding to provide support services to students who are first generation (i.e., parents did not graduate from college), income eligible, and/or disabled. These services are free tutoring, study skills training, counseling, assistance in obtaining financial aid, and assistance in securing admissions and financial information for enrollment in graduate and professional programs. Students are also assigned to a faculty mentor. Students who wish to participate in this program should contact the Student Support Services Office, Room 161, Student Center, (251) 460-6613.

TALENT SEARCH
Talent Search is a federally funded program sponsored by the University. This program identifies at-risk young people in middle schools and high schools with potential for an education and encourages them to continue their education to graduate from secondary schools and enroll in programs of post secondary education. High school dropouts are also encouraged to return to school after “dropping out”. Tutoring for the program participants is provided by USA students. For information contact the Educational Talent Search Office, UCOM 5700, (251) 380-2620.

TRAFFIC REGULATIONS
All students, faculty, and staff are required to register their vehicles through the Bursar’s Office. Parking regulations are issued with each parking hang tag. All students will choose a parking area hang tag and their vehicle will be parked in that area ONLY between 7:00 a.m. and 1:45 p.m. on the main campus, Monday through Friday. Faculty/Staff (blue spaces) are off-limits for student use until 5:00 p.m.

Anyone driving a car to campus without a current hang tag should obtain a temporary permit from the University Police; visitors should obtain a Visitor Permit.
TESTING SERVICE
University Testing Service serves as a regional testing center for national testing organizations. Testing is provided as requested by the various departments of the University. Most national entrance examinations are administered by the center. Information regarding specific test offered, schedules, and registration materials may be obtained by contacting the University Testing Service located in Alpha Hall East, Room 326, at (251) 460-6271.

UPWARD BOUND
The Upward Bound program is a college preparatory program for high school students in the Mobile County Public School System. It provides academic counseling, tutoring, cultural enrichment and a six (6) week summer residential program including academic classes. The purpose of the program is to provide each participant with the necessary skills to successfully enter and complete post-secondary institutions. USA students serve as tutors and residential counselors for the participants. For information, contact the Upward Bound Office, Delta 2, Room 213, (251) 460-7322.

INTERCOLLEGIATE ATHLETICS
Competing in both men’s and women’s sports on the intercollegiate level, the University’s athletic program fulfills a vital role in giving the students a well-rounded environment of study and recreational entertainment. The University is an active member of the National Collegiate Athletic Association Division 1AAA. Teams are maintained yearly in baseball, basketball, cross country, golf, soccer, tennis, track, and volleyball. Governed by regulations set forth by the President of the University, the Director of Athletics, the NCAA, and the Sun Belt Conference, athletic participation and expansion is occurring as rapidly as facilities permit.

STUDENT HEALTH SERVICES
The Student Health Clinic is located at the end of Clinic Drive in the Health Services Building, Suite 1200. Ambulatory care services are available during each semester to all students actively enrolled at the University. The Clinic is open and staffed by a Physician, Physician Assistants, nurse practitioner, and Registered Nurses from 8:00 a.m.-4:00 p.m. when school is in session, Monday through Friday. Appointments can be made by calling (251) 460-7151 between 8:00 a.m.-4:00 p.m. Laboratory, x-ray, pharmacy and specialty services are available on a fee-for-service basis with payment due at the time services are provided. After regular hours, a provider is on call for urgent problems and can be reached by calling Student Health at (251) 460-7151. Students who require more extensive care for medical or surgical problems will be referred. Health and Prevention Education programs are also available and can be scheduled by calling Student Health. If students wish to participate directly in a peer health education program or the Student Health Advisory Council, they may inquire by calling Student Health.

STUDENT INSURANCE
All students should have medical insurance. An informational brochure on an optional student health insurance is available in the Admissions Office, Student Center Information Desk, and the Student Affairs Office. This information is available on the USA web site under Services. Click on Student Accident and Sickness Insurance Plan. Students are encouraged to purchase this policy if they do not have other medical insurance.

MUSICAL ORGANIZATIONS
The music department sponsors a number of musical organizations open to interested members of the entire University student body on credit and non-credit basis. These organizations include Concert Choir; University Chorale; University Symphonic Band; Jazz Band; Athletic Pep Band; Woodwind, Brass, Guitar, String, Percussion, and Piano Ensembles; and University Opera Theatre.

STUDENT MEDIA
The student newspaper, The Vanguard, is distributed free to students and is under the direction of a Board comprised of representatives from the Student Government Association, The Vanguard, the faculty, media services, and public relations. The editor and business manager are selected from applications submitted by interested students.
JAG-TV is seen throughout the campus on the University’s closed-circuit cable system and is under the direction of a board comprised of representatives from the Student Government Association, The Vanguard, JAG-TV, faculty, media services and public relations. The general manager is selected from applications submitted by interested students.

CULTURAL ACTIVITIES
The University and the community offer to students an opportunity to participate in a variety of cultural and recreational programs. Among them are concerts by symphonic and chamber organizations, choral groups and choirs, ballet and opera productions, theatre, art exhibits, film series, and lecture and discussion conferences. In many of these programs, students are urged to participate as performers. Special events are scheduled on the campus, and reduced rates for students are arranged for many civic programs.

UNIVERSITY POLICE
The University Police Department is available twenty-four hours a day, seven days a week to assist faculty, staff and students with any type of emergency or other assistance. University police officers are sworn by the State of Alabama and are certified by the Alabama Police Officers Standards and Training Commission. The University Police Department may be contacted by calling 511 (if an emergency and from an on-campus phone) or (251) 460-6312 for non-emergency. We encourage members of our campus community to be responsible for their own safety as well as the safety of others and to report crime occurrences to the University Police Department. In accordance with the Campus Security Act of 1990, the University’s “Campus Security Policies and Crime Statistics” are published and available at the Police Department’s web site by clicking on “Clery Act” or by going to http://www.southalabama.edu/police/clery.html. Printed versions of the policies and crime statistics may be obtained from the University Police Administration office located in Faculty Court South, Room 20.

The Police Department also has a Special Services Unit. This unit is designed to anticipate, prevent, and investigate behavioral concerns to include:

- Threats directed to a member or property of the University Community
- Any person exhibiting threatening or unusual behavior
- Administrative hearings or meetings that may pose a threat to those involved during or after the meeting
- Any social or family issue that may pose an on-campus threat to anyone

If there are any questions or concerns, please contact one of the following:
Special Services Unit 460-6611  Mail: Attn: Special Services Unit
After-Hours 460-6312  USA Police Department
Anonymous Crime Tip Line 460-6667  Faculty Court South (FCS) RM 20

OFFICE OF VETERANS AFFAIRS
The University of South Alabama is approved for the education of veterans, active duty members, and dependents of disabled veterans who are eligible for benefits under the Department of Veterans Affairs.

The Office of Veterans Affairs is located in the Administration Building, Room 240 on the main campus. The office provides services to all veterans and dependents of veterans. Students who wish to use veteran education benefits must contact the Office of Veterans Affairs (251)460-6230.

The University of South Alabama does not have a tuition/fees deferment policy. Tuition and fees are due at the time of registration and are the responsibility of the student. Starting V.A. benefits or transferring them to USA may take up to eight weeks. Applicants are encouraged to contact the Office of Veterans Affairs as early as possible.

For information concerning “Transfer Credit from Military Service School,” see Admissions/Enrollment Services Section.

HOUSING AND RESIDENCE LIFE
A college education offers students the opportunities for advanced learning, interesting career options, and meeting new people. An additional opportunity of the college experience is on-campus living where learning and personal growth take place in the community environment of University housing.

The University of South Alabama offers a wide range of housing facilities to meet the lifestyles of a diversified student body. The options available include suites, apartments, efficiencies, and a limited number of private suites and efficiency apartments. Family housing is also available on a limited basis. Some Greek organizations also offer on-campus housing leased from the University for their members.

All students accepted by the University will be sent housing information and a contract. Assignments are made on a “first come, first serve” basis. Students and parents should be aware that the signed contract and required prepayment is due when the contract/application is submitted. Students under 19 years of age must have a parent or legal guardian co-sign their housing contract. The balance of the housing charge is due by University fee payment deadline.

RESIDENCE HALLS
The residence halls at the University of South Alabama have several different types of accommodations to meet the varying needs of students.

**Two-Person Suites:** Most rooms in the Delta Area are two-person suites that open onto an exterior walkway. The Epsilon Area offers two-person suites that open onto an interior hallway. Both types of rooms have a private bath.

**Four-Person Suites:** Located in the Gamma Area, these suites are designed to accommodate four students. Gamma suites are composed of two rooms joined by a bathroom.

**Four-Person Apartments:** Both the Beta and Gamma areas offer two bedroom apartments with a living/dining space, a private bathroom, and a kitchen.

**Two-Person Efficiency Apartments:** A limited number of studio-type apartments are available in the Beta and Gamma areas. These apartments consist of a living/sleeping space, a private bathroom, and a kitchen.

**Two-Person Efficiency Suites:** This type of room is available on a limited basis in Delta VI and Epsilon II. Delta VI offers a kitchenette unit as an additional feature to the two-person suite. The two-person efficiency suite in Epsilon II offers a mini-microwave/refrigerator unit.

**Private Rooms:** A limited number of private suites and private efficiencies are available in the Delta and Gamma areas.

**Suites and Apartments for the Disabled:** The Gamma and Beta areas have accommodations suitable for the disabled. A limited number are available to students who qualify as disabled under the Americans with Disabilities Act. Students must be registered with the Special Student Services Office to qualify for this type space.

**Greek Housing:** Accommodations in the Greek houses are two-person suites with a private bath. Each Greek house is equipped with a laundry facility that is included in the cost of the room. Occupancy, in the Greek area, is limited to members of the individual organizations who have houses on campus. Greek Area residents are subject to the same Housing regulations as non-Greek residents and are required to sign the same contract required of all residence hall students. Note: Students in the Greek halls pay for local phone and Internet connection separately.

**Furnishing:** All residence hall rooms are equipped with beds, closets, and dressers. Also, all rooms are heated and air-conditioned through individual room units or through a central system. The apartments are also furnished with living room furniture, a dining table and chairs. Local telephone service, with voice mail, power, water, gas, campus cable TV, unlimited use laundry, and a high-speed Internet connection are included in the semester rent. Each residence hall area has a common building or space that includes a TV room, laundry facilities, and vending machines available for student use. A deli/convenience store is also located in the Delta Commons building.

**General Residence Hall Information:** All students are assigned based on the date their contract and prepayment are received by the Department of Housing. The residence hall contract provides housing for the entire academic year (Fall and Spring Semesters) or from the initial date of the contract to the end of the academic year. Students may change rooms and/or areas after receiving appropriate authorization and when vacancies are available. A residence hall contract may be canceled only if the student fails to enroll, withdraws from the University, marries, participates in a co-op or intern program outside the Mobile area, or graduates from the University, during the term of the contract. Refer to the residence hall contract for more specific information.
ESSENCE FRESHMAN EXPERIENCE PROGRAM
Freshmen students at the University of South Alabama have the opportunity to participate in a program designed to assist in their transition to college life. The ESSENCE freshmen live in the Epsilon halls and take a new student seminar course CP 100. ESSENCE students also have a peer advisor and tutors to assist them. New students should indicate that they want to be part of the ESSENCE program on their housing application.

FAMILY HOUSING
The University of South Alabama owns and operates two-and three-bedroom houses for rent to enrolled USA students and current faculty and staff. Hillsdale Heights is a residential community adjacent to campus. These houses are available to married students, students who are single parents with dependent children, students 19 years or older, and students who are currently enrolled. Houses in the Hillsdale community are equipped with stove and refrigerator but are otherwise unfurnished. Most of the houses are not air-conditioned. Students are required to sign a six-month lease.

General Housing Information: The information above has provided a general outline of the different styles of housing available at the University of South Alabama. It is recommended that any student having questions concerning housing should contact the Department of Housing at the address or appropriate telephone number listed below: University of South Alabama, Department of Housing, Mobile, AL 36688-0002
Residence Hall Information (251) 460-6185 or toll free (866) 872-0140
Family Housing/Hillsdale Information (251) 460-6187
Meal Plan Information: (251) 460-6296
General Housing Information: (251) 460-6187

AUXILIARY STUDENT SERVICES
The following Auxiliary Student Services are found at the University of South Alabama.

 LICENSING
As a department within Auxiliary Enterprises and the Division of Student Affairs, the Licensing Department serves as a support function to the University's overall mission which is: to protect the name and identifying marks of the University of South Alabama, also, to preserve the University's good name and reputation by insuring that products bearing its name or marks are good quality and reflect positively on the University, and to promote the University by stimulating public awareness and support of the University through commercial use of its name and marks.
All items bearing the logo/marks of the University, must be ordered through companies that are officially licensed. A list of vendor is maintained by this office and can be provided if requested.
All royalty income received will be placed into a permanent endowment for scholarships. The proceeds from this endowment will be divided equally for use in undergraduate, graduate, and athletic scholarships.
If you have any questions concerning the licensing program, please call (251) 460-6481.

MITCHELL CENTER
The Mitchell Center, home to the University of South Alabama Jaguars, was constructed adjacent to the historical Jaguar Gymnasium. The Mitchell Center features a 10,000-seat arena and exceptional support space with state-of-the-art equipment. The Center is a multi-purpose facility that hosts major events such as graduation, convocation, concerts, sporting events, and a variety of family events. There is also space dedicated to classrooms, meeting rooms, private offices, Athletic Administration offices and the USA Coastal Weather Research Center. A must see for many tourist visiting the area, the Waterman Globe is located in the Grand Lobby of the Mitchell Center. This massive historic globe was originally installed in 1948 in the Waterman Building, in downtown Mobile. It was acquired by the University and installed in the Mitchell Center Grand Lobby to be shared with the community and its many visitors.
For rental information call (251) 461-1632 or visit our web site at www.mitchellcenter.com

DINING SERVICES
USA Dining Services offers a variety of exciting service programs located conveniently to both residential and academic areas. The services are designed with the utmost in freedom and flexibility for the ever changing needs of the USA student. The USA meal programs are designed to ensure quality food at great prices. Any student living in University housing, including Greek Housing, with less than 24 credit hours is required to purchase the USA 12 as a minimum plan. These course hours may be transferred or earned at USA providing they are accepted by the University Registrar's office as completed and passed. However, you know your eating habits better than we do, so the option to upgrade is available. Meal programs are available to the entire student body. Please contact the Dining Service office for more information.

USA Dining Services now offers two new meal plans designed for the upperclassman/commuter. They offer greater flexibility at an affordable price.

USA Dining Services offers maximum flexibility and security through a Declining Balance account. This card operation is similar to a debit card and has two accounts available. The first account is for food purchases only and may be used in The Market, Freshens, and the Delta Deli. It requires no minimum and may be activated in the Dining Services business office or online at www.usadiningservices.com. The second account or Gold Card may also be used for food, as well as purchases in the Bookstore and Game Room. The Gold Card requires a $50 minimum and can be activated through the I.D. process in Room 160 - South Paw Services located in the Student Center. Both accounts are set up on the student's I.D. card. VISA and MasterCard are accepted for purchasing meal plans only. For additional information please call (251) 460-6296 or visit our web site at www.usadiningservices.com.

The Market - Located on the main floor in the Student Center, this is your main campus dining facility. Selections range from healthy home-style meals, international cuisine, a wide variety of hot and cold sandwiches, cold beverages, a salad bar, and Java City Coffee. The dinner meal has been modified to an all-you-care-to-eat option to accommodate the USA meal plans. The Market now accepts VISA/MasterCard.

Delta Deli and Grille - Located in the Delta Commons building, which is nested in the heart of the residential community, this facility is a short walk from all campus housing. Late night is a favorite time to stop by and grab a bite. We now offer convenience store items in the Delta Deli to save students a trip off campus. Now accepts VISA/MasterCard.

Mary's - Serving coffee and just the right amount of sweets, this is the place to visit while in the Administration Building. Located in the basement and run by a true customer service professional, come by and have a sandwich and become part of Mary's family.

Freshen's Smoothies - In the Student Center, located in the Market. Serving freshly prepared fruit Smoothies, fresh baked cookies, and beverages, this is one not to miss. The quick service and atrium seating make this a popular stop between classes.

Starbucks Coffee Shop - A Starbucks Coffee Shop is located in the Student Center on the lower level next to the northeastern entrance.

USA Catering Services - A full catering guide is available the help plan your next event. Services range from a quick drop off to an elegant evening dinner. Please call and speak to our catering representative for all your needs or questions. (251) 460-7948

UNIVERSITY BOOKSTORE

Located on the main campus, the USA Bookstore is your source for all your campus needs on campus and online. At the bookstore you will find new and used textbooks, as well as the supply materials necessary for all of your courses. In addition, you will find a variety of reading materials from classics to today's best sellers. To help you show your school spirit, an assortment of USA emblematic giftware and fashion sportswear is also offered.

Here are a few of our many other products and services:
HEALTH SCIENCES BOOKSTORE
This bookstore, located at USA Springhill, is a specialty store for medical, nursing, and allied health students and professionals. Approximately 2,000 reference titles are on hand and a special order system provides immediate access to over 300,000 titles available for special order. An extensive assortment of medical diagnostic equipment and multimedia products are available. Anatomical models are also available for sale or rent. The University Bookstore and the Health Sciences Bookstore both accept Visa, MasterCard, Discover, American Express, and the USA Jag Card in addition to personal checks. For additional information please call (251)434-3635, or visit our web site at www.southalabama.edu/bookstore.

POST OFFICE
The University of South Alabama Post Office is essentially a Public Service Contract Station operating under U.S. Postal Service guidelines and a mail room operating under the University of South Alabama policies and procedures. This post office is staffed by University of South Alabama employees, who are familiar with all areas of postal operations and are qualified to handle most any task. Up-to-date domestic manuals are maintained and used for reference purposes. Drop boxes and window service consist of selling postal supplies and accepting letters, flats and parcels for mailing. Departmental mail pickup and delivery service is provided by means of an established route. The campus mail room will process all departmental mail, domestic and foreign, except C.O.D., which must be handled with the U.S. Post Office. All students who live on campus are required to have a personal mail box to receive mail; thus the Post Office box number is the student’s campus address. For additional information please call (251) 460-6279, or visit our web site at http://www.southalabama.edu/postoffice.

TELECOMMUNICATIONS DEPARTMENT
USA Telecommunications Department is committed to providing high quality, cost effective services to the University Community. If you live on campus, we will be your service provider. Digital telephones are required to use the system and are provided and maintained by the Telecommunications Department. In addition, each telephone has an associated voice mail box furnished. Please do not bring telephones from home as they will not work with our system. Your telephone and voice mail box should be working when you get to your room. The exception is the on-campus Greek Organizations. They must open separate accounts. We also offer domestic long distance for only ten cents per minute. Instructions to activate your long distance code will be provided separately. If you are a first-time student, we are located off North Drive. As you approach the traffic circle on North Drive, we are the first building on your right. Hours are Monday through Friday, from 8:00 a.m. to 4:45 p.m. Our information number is (251)460-7491 or if you are on campus, dial 6-7491.

PUBLICATION SERVICES
The **Office of Publication Services** is located in University Commons (UCOM) on the corner of University Boulevard and Old Shell Road. This department services the printing needs of students, faculty, and staff on an individual, departmental, or organizational basis. Publication Services provides the latest techniques in typesetting, desktop publishing, creative design and layout, camera work, and one-to multicolor offset printing. Publications provides coin-operated copier services in convenient locations on and off campus. Coin-operated copiers can be found at USA Springhill on the 2nd floor of the College of Nursing. Most walk-in cash copy orders can be completed at the Office of Publication Services while you wait.

Publication Services also provides the University community with complete production of all directional and informational signs. Lamination is available for materials ranging in size from 2"x3" up to 11"x17".

The quality and effectiveness of a publication can be enhanced by consulting with staff artists early in the design stages. Consultation also allows Publication Services to share valuable timesaving and cost-effective tips with the customer. Publication Services creates printed material tailored to meet specific needs, including resume, newsletters, directories, handbooks, posters and flyers, stationery, and more. For further information or to schedule an appointment call (251)380-2828.

**CAREER SERVICES**

USA Career Services, located at 6420 Old Shell Road, assists students and alumni in all phases of career exploration, development, and job search strategies. USA Career Services is a comprehensive career education and career service center. The Division of Career and Education Information Services provides self-directed activities to assist in career exploration, the selection of appropriate academic programs, and identification of career related strengths and preferences in determining careers. The specialized Career Library is the core resource for these and other self-directed career and education research activities. The Career Experience Opportunities program helps students confirm career choices through pre-professional internships and work experiences through Alternating and Parallel Cooperative Education. Students approaching graduation and alumni are eligible for Career Employment Assistance. This service links qualified candidates with prospective employers. Interviewing techniques, resume writing, managing an effective job campaign, and strategies for changing careers are part of this program. Career Employment Assistance includes the on-campus recruitment program and resume referral service. Satellite offices are located in the Mitchell College of Business, College of Engineering, and the College of Arts and Sciences.

**Career and Education Information Service**

The Center’s Career and Education Information Service guides students in self-directed activities to determine career interests and selection of appropriate academic programs to reach their career goals. Freshmen, sophomores, and juniors are urged to take advantage of this service. The appropriate selection of a major can impact a student’s desire to complete a college education and a student’s success in college and the workplace. The **Career Library** is the central location for these activities and is staffed by graduate level Career Advisors. Career Advisors are trained to assist students in the various aspects of career and related academic development. Among the many resources available to students are:

- Career Library containing the recruiting literature of more than 1,500 local and national employers.
- Computer assisted career guidance programs and assessment.
- On-line access to national, local, state, and federal job openings.
- Books and videos on career development, job search skills, resume preparation, interviewing techniques, letter writing, and employer information.
- Occupational literature on numerous career fields including entrance requirements and projected employment outlook.
- Graduate and professional school information including: directories, catalogs, admissions, and financial aid information.

These and many other Career and Education Information services housed in the Career Library are available to students, faculty, staff, alumni, and the community.

**Career Experience Opportunities**
The Career Experience Opportunities Program enables students to combine classroom studies with paid work experience related to their major field of study. Practical experience is available in industrial, business, governmental, or service organizations. **Undergraduate students** may apply at the Career Services Center to enter the Cooperative Education Program when they have completed 12 credit hours, attained a cumulative grade-point average of 2.3 or above, and are classified as a full-time student upon commencement of participation in the program. The internship option requires a 2.0 GPA or above and sufficient time remaining before graduation to complete the internship. **Graduate students** may apply to enter the Career Experience Opportunities Program after they are accepted into a graduate program.

**Option 1. Parallel Cooperative Education:** Students work part-time, usually 15 to 20 hours per week, while attending classes for a minimum of 12 academic credit hours per semester for the Fall and Spring semesters. The Summer semester may be taken as a "vacation" semester. Students must have at least three semesters remaining before graduation to enter this option.

**Option 2. Alternating Cooperative Education:** Students work full-time one semester and attend classes full-time the following semester on a rotating schedule until graduation. The work assignment is usually shared by a pair of students on an alternating basis. Students must have at least six semesters remaining before graduation to enter this option.

**Option 3. Internship:** Students work between two and fifteen hours per week for various lengths of time depending upon the unique needs of the organization providing the experience. Some internships are not paid; experience is the reward. The option of receiving academic credit for this experience is approved through the academic advisor or department chair.

**Option 4. Engineering Cooperative Education - The Five Year Plan:** This program allows students to gain one year of valuable engineering experience as they pursue their degree. The freshman year is spent as a full-time student at the university. During the sophomore and junior years, the student alternates working full-time for one semester and taking full-time course work the next semester. Students are paid an excellent pre-professional salary during the work semester. The student returns to campus full-time for the senior year. This program offers many advantages for the student. Interested students should consult with either Career Services or the College of Engineering. Application should be made for admission to the program when entering the university or no later than the end of the second semester of the freshman year.

**Prerequisites for Participation**
Prerequisites for participation in the Career Experience Opportunities Program include attending the Employability Skills Seminar, offered continuously by Career Services, and payment of the materials fee in effect at the time of application for the program. To remain in the program, students must maintain good academic standing; a cumulative grade-point average of 2.3 or above for the parallel and alternating programs, a grade-point average of 2.0 for the internship program, and comply with the policies and procedures of the employer and the Career Experience Opportunities Program.

**Career Employment Assistance**
All students are urged to register for Career Employment Assistance at Career Services three semesters before graduation to begin preparation for the employment search process. Seniors and juniors are advised to take advantage of the career and employability skills training and the career advising functions of Career Services. Alumni may initiate service when needed.
Services include:
• A fully web-based system facilitating communication between the student, employer, and Career Services.
• Online registration with Career Services.
• Upload a quality resume online.
• Viewing job listings.
• Signing up for on-campus recruiting activities.
• Receiving and responding to employer inquiries.
• Resume referral.
• Five major Career Expositions annually: The USA Career Expo, all majors; Graduate and Professional School Expo; Allied Health and Nursing Expo; Education Career Expo; Spring Expo, all majors.
• Several specialized career conferences are developed in cooperation with the academic departments.

Prerequisites to registration for on-campus interviewing and resume referral include attending the Employability Skills Seminar designed to enhance candidates’ approach to employers and payment of the materials fee in effect at the time of application for the program.
ACADEMIC POLICIES AND PROCEDURES

The University of South Alabama’s academic policies and procedures provide the framework for the orderly conduct of its degree programs. They are intended to ensure a thorough and complete education for each of the University’s graduates. They are administered through the Office of the Senior Vice President for Academic Affairs.

Each student admitted to the University of South Alabama will be assigned a free, permanent, official University e-mail address (@jaguar1.usouthal.edu). Most changes in University policies and official University correspondence will be transmitted via the student's official e-mail account. Instructors may also utilize this address to communicate with students. Students are responsible for regularly reading e-mail sent to this address. The official University e-mail address cannot be changed, but students may elect to have official mail forwarded to any other personal e-mail address. To activate your jaguar1 account, select that link on the University's PAWS web site at http://paws.southalabama.edu.

SEMESTER SYSTEM

Terms normally consist of fifteen weeks of class followed by a final examination week. In some programs of study, courses may be scheduled for parts of terms different from a complete semester. Usually, one semester credit hour is awarded for each 50-minute lecture class per week or 2-3 hour laboratory or studio period. Quarter credit hours divided by 1.5 yield the equivalent number of semester credit hours. Each hour of lecture usually requires two hours of outside preparation. Thus, a student carrying sixteen semester hours should be prepared to spend at least 48 hours in class and study per week.

CLASSIFICATION OF STUDENTS

A student's classification is determined by the number of credits earned toward the degree. A student is classified as follows:

- Freshman 0 - 31 semester hours
- Sophomore 32 - 63 semester hours
- Junior 64 - 95 semester hours
- Senior 96 semester hours or more

NORMAL ACADEMIC PROGRESS

Normal progress for full-time students enrolled at the University of South Alabama shall mean the satisfactory completion of 32 semester hours of work in each calendar year from the date of first enrollment and the satisfactory completion of all degree requirements within 41/2 calendar years from the date of first enrollment.

FULL-TIME/PART-TIME ENROLLMENT STATUS

Degree students carrying twelve or more credit hours of work each term are considered full-time. However, students must carry at least sixteen hours each term (for eight semesters) to meet requirements for graduation in four academic years. Co-op students who alternate full-time enrollment with employment are considered full-time students for enrollment purposes. Students carrying six to eleven credit hours are considered half-time and students enrolled for one to five credit hours are considered less than half-time.
COMPUTER ACCESS REQUIREMENT
All students enrolled at the University of South Alabama are required to have access to a personal computer. This may be achieved by individual ownership, access to a family machine when residing at home, sharing with a roommate or other suitable arrangements. University public PC laboratories are not sufficient. This access must include a current version of the Microsoft® Office® software suite including Word® and Excel®, access to the University’s e-mail system and access to the Internet for research purposes. Individual programs may have additional requirements specific to their curriculum.

UNIVERSITY WRITING CENTER
The University Writing Center, located in Alpha Hall East, provides assistance in writing to any student enrolled in classes on any of the University’s campuses. Students work with writing consultants one-on-one in a relaxed, informal setting to improve their writing skills. The consulting schedule varies slightly from semester to semester, but information may be obtained by calling (251) 460-6480.

ACADEMIC ADVISORS
Before entering the university, students should study the curricula outlined to determine the program best suited to their interests and needs. Before registering, each student will select, tentatively at least, a curriculum. This decision will determine the academic unit in which the student will be advised. The designated academic advisor will counsel with the student regarding the proposed curriculum and choice of courses. This relationship continues as needed throughout the student's stay in the University, unless another advisor is assigned or the student selects a new program.

STUDENT RESPONSIBILITY
While the University of South Alabama will endeavor to provide timely and accurate advisement, it is the responsibility of the student to know and satisfy the degree requirements of the academic program.

GENERAL REQUIREMENTS FOR BACHELOR DEGREES
Minimum requirements for a bachelor's degree are listed below. The colleges and departments may have requirements which exceed these requirements. Students should consult the individual college program description for details.

MINIMUM HOURS
A student must complete a minimum of 128 approved semester hours, including both general education requirements and major requirements. In some colleges/degree programs a minor is also required. Degree requirements in some programs may exceed the minimum of 128 semester hours.

Minimum number of semester hours that must be completed in the major and minor at the University of South Alabama: A minimum of 15 credit hours of courses at the 300/400 level in the major discipline must be completed at the University of South Alabama. If a minor is required in the particular degree program, 9 credit hours of courses in the minor must be completed at the University of South Alabama.

DS AND ESL COURSES
Credits earned in the Developmental Studies Program or the Department of English as a Second Language cannot be used to satisfy University degree requirements.

MINIMUM GRADE-POINT AVERAGE
A student must earn a minimum grade-point average (GPA) of 2.00 (an average grade of "C") based on all course work taken at the University of South Alabama. Students enrolled in the College of Education must have a minimum grade-point average of 2.20 (2.50 grade-point average for teacher certification). Grades in pass-fail (S/U) courses do not carry quality points and are not used in determining the grade-point average.

PLACEMENT AND PROFICIENCY EXAMS: Chemistry, Computer Skills and Mathematics
Chemistry Placement Exam
All students planning to take General Chemistry I (CH131 and CH131L) who have not passed Fundamentals of Chemistry (CH100), as evidenced from student's transcript, are required to take the General Chemistry Placement Test. A passing score of 35 or better on the General Chemistry Placement Test is required prior to registration for CH131 and CH131L. The General Chemistry Placement Test is administered by the Department of Chemistry and the test locations and dates are published each semester in the University of South Alabama Schedule of Classes. To take the General Chemistry Placement Test, the student must bring a student number, a calculator and a number 2 pencil. No fee is charged for the test. All questions about the General Chemistry Placement Test should be directed to the Department of Chemistry office: (251) 460-6181.

Computing Proficiency Exam
(Refer to Computer Access above)
All undergraduate students must demonstrate basic computing skills prior to graduation from the University. This requirement may be satisfied by:
1. passing the Computer Proficiency Examination* (CPE),
or
2. passing CIS 150: Introduction to Computer Applications, or another CIS course specified by the major,
or
3. for students who are pursuing a major leading to teacher certification: passing EDM 310: Microcomputing Systems in Education. This course is required for all teacher certification programs.

*Freshmen and transfer students will take the CPE during New Student Orientation. Students who fail the CPE may repeat the exam one time. Those who fail the CPE two times must comply with either #2 or #3 above. Students are advised to complete the computer requirement in their freshman year since computing skills are used in most courses.

Mathematics Placement Exam
All incoming students must take the on-line mathematics placement exam. The only exceptions to this policy are:
1. Students who are enrolled in one or more Developmental Studies mathematics courses are not required to take the placement exam. Such students will only be allowed to register for mathematics courses, numbered 100 or higher, after successfully completing developmental studies coursework; and
2. Incoming students who transfer credit for college level mathematics courses are also exempt from the placement exam requirement.

All other students must take the mathematics placement exam. Once the mathematics placement exam is taken, a score will be obtained, and the students will be allowed to register for the appropriate mathematics course. If the exam is not taken, the students will be blocked from registering for all mathematics courses.
Instructions for taking the math placement exam, and further information about the placement procedure, are included in registration and orientation materials for incoming students. The math placement exam is given on-line. This exam is located at: www.southalabama.edu/mathplacement.
Instructions and further information are also available at the Department of Mathematics/Statistics web site: www.southalabama.edu/mathstat.

GENERAL EDUCATION REQUIREMENTS
All students must fulfill the following general education requirements consisting of a minimum of 41 semester hours plus two designated writing courses. Specific degree program and college requirements may exceed any or all of the minimum general education requirements. Also, since specific course requirements in general education will vary from major to major, students must refer to the program section of the Bulletin for their major before enrolling in courses intended to satisfy general education requirements, as well as other program requirements.
In addition, students should plan their degree program with an academic advisor. The general education requirements are:
I. WRITTEN COMPOSITION

EH 101 and 102 are required of all students, unless exempted. In addition, two designated writing (W) courses are required; with at least one course chosen from offerings in the student’s major or minor. Courses carrying this required credit are identified in this University Bulletin and the University Schedule of Classes by a (W) after the course title. EH 101 and EH 102 are prerequisites to writing courses. Students must demonstrate general competence in writing by earning a “C” or better in EH 101 and a “C” or better in EH 102. Students may exempt the EH 101 requirement with an enhanced ACT English score of 27 or above; a recentered SAT score of 550 or above on the verbal portion. Students scoring a minimum of 50 on the CLEP English Examination may satisfy the EH 101, EH 102 requirement. A score of 4 or higher in the Advanced Placement Program may satisfy the EH 101 requirement.

NOTE: Credits earned in the Department of English as a Second Language or Developmental Studies will not be acceptable toward meeting writing competency requirements.

II. HUMANITIES AND FINE ARTS

Requirements include at least 12 semester hours in humanities with a minimum of three semester hours in literature, and three semester hours in the arts, and the remaining semester hours from the humanities and fine arts. In addition to literature, disciplines in the humanities include, but are not limited to, philosophy, religious studies, speech*, foreign languages, art, music, theater, and dance.

Students must complete a six semester hour sequence either in literature or in history. Note that some majors specify the sequence, and the requirements of the major should be referred to before deciding upon either a literature or history sequence.**

Courses should be broad in scope and content rather than specific and should emphasize a global perspective. Courses in the arts should emphasize history and appreciation rather than performance. Examples in the humanities and fine arts include, but are not limited to, world literature, art history, music appreciation, comparative religions, and history or origins of dance.

*Students must complete one course that demonstrates competency in oral communication. Within the Colleges of Allied Health Professions, Arts and Sciences, Business, Education, and the School of Computer and Information Sciences, and the Department of Adult Interdisciplinary Studies, students must complete CA 110 to satisfy the competency in oral communications requirement. Students majoring in the Colleges of Engineering and Nursing must meet the specific oral communication requirements of their major (see appropriate sections of this Bulletin for details.)

**Students preparing to complete the B.S. Degree in engineering are required to complete nine rather than 12 semester hours in the humanities and fine arts. Rather than the six hour sequence in history or literature they must demonstrate in-depth study in a particular discipline of the humanities and fine arts or history, social and behavioral sciences through completion of six semester hours in a particular discipline.

III. NATURAL SCIENCES AND MATHEMATICS

Requirements include at least 11 semester hours with at least three semester hours in mathematics at the finite mathematics (MA 110) or precalculus algebra (MA 112) level or higher, and at least eight semester hours in the natural sciences which must include laboratory experiences. See MATHEMATICS PLACEMENT section.

Disciplines in the natural sciences include, but are not limited to, astronomy, biology, chemistry, geology, and physics.

Courses in the natural sciences should be broad in scope and content rather than specific to an aspect of a discipline, and may include interdisciplinary science courses. Courses in the natural sciences must include laboratory experiences which emphasize the scientific method.

IV. HISTORY, SOCIAL, AND BEHAVIORAL SCIENCES
Requirements include twelve semester hours in history, social and behavioral sciences with at least six semester hours from among other disciplines in the social and behavioral science. Other disciplines include, but are not limited to, anthropology, economics, geography, political science, psychology, and sociology.

Courses should be broad in scope and content, include global or international perspectives, and must emphasize the methods of inquiry in the social sciences. Students must complete a six semester hour sequence in literature or history.* Note that some majors specify the sequence and the requirements of the major should be referred to before deciding upon either a literature or history sequence. If the sequence selected is in literature, an additional three hours must be taken in any of the history, social science or behavioral science disciplines above.

*Students preparing to complete the BS degree in engineering are required to complete nine rather than 12 semester hours in the humanities and fine arts. Rather than the six hour sequence in history or literature they must demonstrate in-depth study in a particular discipline of the humanities and fine arts or history, social and behavioral sciences through completion of six semester hours in a particular discipline.

HOURS IN RESIDENCE/RESIDENCY REQUIREMENT
A candidate for graduation must complete a minimum of 32 credit hours of University of South Alabama upper-division course work (300 and 400 levels). Upon the recommendation of the dean of the appropriate college and approval of the Senior Vice President for Academic Affairs, other credit may be substituted to meet the residency requirement. Credits earned in approved Study Abroad programs, up to a maximum of 16 semester hours, may be used to satisfy this requirement provided the student is enrolled in IS 391, Study Abroad, and has transient course approval from the dean of the college. Study Abroad courses must be certified as equivalent to upper division (300 or 400 level) course work in order to fulfill the USA Residency Requirement.

For courses taken at the Dauphin Island Sea Lab, that occur in the University of South Alabama Catalog of Courses, transfer evaluation will assign the equivalent USA Course number and name. For the purposes of meeting USA degree requirements and upper division USA resident coursework requirements (32 hours of 300 and 400-numbered courses), 300 and 400-level Sea Lab/USA courses will count as if they were taken on the USA campus as a native USA student, even though they were taken while enrolled at the transfer institution.

Any deviation from these residency policies must be approved by the Senior Vice President for Academic Affairs. Students should consult the University Bulletin for additional regulations in each academic unit.

DOUBLE MAJOR
Undergraduate students may elect to fulfill the requirements for two majors concurrently. To do so, the student must declare a primary major and a secondary major on the Declaration of Program form that is filed with the Registrar’s Office. The student’s principal academic file will be maintained in the department of the primary major. A second file should also be maintained in the department of the second major. Both departments must prepare graduation completion check sheets. Students who declare a double major must participate in academic advising in each major. Completion of a minor is not required of students completing two majors. Students who declare two majors from different colleges will be required to fulfill all requirements for each major and to fulfill all degree requirements, including those for general education, that apply in the college of the primary major. Students who complete requirements for two majors from different colleges will be awarded the degree granted by the college of the primary major, and transcripts will designate that both the primary and secondary majors were completed.

SECOND MAJOR
Students who have been awarded a bachelors degree at the University of South Alabama may return to study for a second major as an non-degree student (see unclassified). Such students must fulfill the following requirements to have a second major recorded on their academic record:
1. They must complete the appropriate form in the Registrar’s Office prior to undertaking any course work toward the second major.
2. They must be enrolled in the college in which the major is administered.
3. They must meet all the requirements of the second major.
4. At least half the total number of hours required for the second major must be satisfactorily completed in residence at the University of South Alabama.
5. At least nine hours of the work in the second major satisfactorily completed in residence at the University of South Alabama must be in addition to work completed as part of the bachelor’s degree.
6. The appropriate dean’s office is responsible for notifying the Registrar’s office of satisfactory completion of the second major.

When these requirements have been met, a notation will be entered on the student’s record to indicate that the student has “completed work equivalent to a major in _____”. Students completing a major equivalency in this fashion may not apply the additional course work toward a second bachelor’s degree.

**DUAL BACHELOR’S DEGREES**

Students currently enrolled in a degree program, may pursue a dual degree. A dual degree differs from a double major in that the dual degree has additional requirements beyond those of a second major’s as specified below. To earn a dual degree, students must fulfill the following requirements:

1. They must complete the appropriate form(s) in the Registrar’s Office.
2. They must be enrolled in the college(s) in which both degrees are administered.
3. They must complete at least 160 total semester hours.
4. They must complete a course of study, approved by the appropriate dean, consisting of at least 32 credit hours in upper division course work in residence over and above the requirements for the first bachelor's degree including a recognized major program.
5. They must satisfy all degree requirements of the college(s) awarding each degree.
6. They must comply with all other University regulations.

**SECOND BACHELOR’S DEGREE**

Students who have been awarded a bachelor's degree from any institution may seek a second bachelor's degree. To earn a second bachelor’s degree, students must fulfill the following requirements:

1. They must complete the appropriate form(s) in the Admissions Office or Registrar's Office if a former USA student.
2. They must be enrolled in the college in which the second degree is administered.
3. They must complete a course of study, consisting of at least 32 credit hours in upper division course work in residence over and above the requirements for the first bachelor's degree, including a recognized major program.
4. They must satisfy all degree requirements of the college awarding the second degree.
5. They must comply with all other University regulations.

Students returning for a second degree in the College of Arts and Sciences must meet the requirements for a second major and meet the University requirements for a second degree. Students seeking a second degree in the area of the minor used for their first degree must have an additional minor.

**GRADUATE STUDY FOR ADVANCED UNDERGRADUATES**

With permission of the department chair and appropriate director of graduate studies, a student who has completed 96 semester hours with a “B” (3.0) average may register for graduate courses, provided the total load does not exceed 12 hours. This policy is extended to provide an opportunity for well-prepared undergraduates who meet two Graduate School Regular admission criteria: minimum GPA and sufficient undergraduate course work in the major subject to qualify for graduate study in the involved discipline.

The same course may not be counted both for undergraduate and graduate credit. The graduate course may only count toward a degree in graduate school if and when the student is admitted to the graduate school, provided such course was not used to satisfy requirements for the undergraduate degree, was taken no more than 5 years prior to the completion of the graduate degree, and the course is approved for credit by the graduate advisor.
PREREQUISITES
Students may not register for courses for which they do not have the prerequisites specified in the course descriptions. Any student who does so will be withdrawn by the Registrar, the student's dean, or the dean of the college in which the course is taught.

REGISTRATION
Registration (making course selections and enrolling in classes) occurs prior to the beginning of each term. All students obtain registration appointment times ("time tickets") and register utilizing USA’s Personal Access Web System (PAWS) at http://paws.southalabama.edu. (See the University Schedule of Classes for additional information.)
Registration is not complete until all fees have been paid and all admissions documents and examinations furnished. Failure to satisfy any of the admission or registration requirements is sufficient cause for dropping a student from all classes. Enrollment status can be found in PAWS web site at http://paws.southalabama.edu.

FULL LOAD OF COURSE WORK IN A SEMESTER
A full load is twelve to nineteen semester hours. Permission of the student’s academic dean is required to take more than nineteen hours.

ATTENDANCE AND ABSENCES
An individual student is responsible for attending the classes in which the student is officially enrolled. The quality of work will ordinarily suffer from excessive absences. At the beginning of classes, instructors must define their policy on absences, and all cases of illness and emergency shall be promptly reported and verified to the instructor. For excessive absences (two or three consecutive class meetings) due to illness, death in family, or family emergency, the Dean of Students’ office should be advised. Absence notices will be sent to each instructor notifying him of the reason for and the approximate length of the absence. This notification does not constitute an excused absence.
Students receiving veterans' benefits are required to attend classes according to the regulations of the Veterans Administration.
All international students on F-1 visas must comply with attendance regulations as dictated by the Department of Justice, Immigration and Naturalization Services. They must remain students in good standing with at least twelve (12) hours per term. Students attending authorized off-campus functions or required activities shall be excused by the responsible University official through the Office of Academic Affairs. In case of doubt, instructors may consult these lists in that office. Work missed as a result of these excused absences may be made up.

ADDING OR DROPPING COURSES
Students may drop courses, using PAWS, without penalty provided the withdrawal occurs within the time limits listed in the official calendar. Students cannot drop final course on PAWS. See procedures for withdrawals below. Course drops may also be submitted in person to the Registrar's Office. The grade of “F*” or “U*” is recorded for a course abandoned without an official withdrawal. Students who drop courses after the last day for refunds may continue to attend class.

WITHDRAWALS
Official withdrawal (dropping all courses in progress) from the University is initiated in the student’s academic dean’s office. Complete withdrawals from the University must be submitted in person (not online) at the Registrar’s Office. Clearance must be secured from the University Library, the University Registrar and the Veterans Affairs Office, if applicable. The symbol "WD" is recorded for all courses when the student completes the withdrawal form within the time limits listed in the official calendar. A grade of "F" or "U" is recorded when a currently enrolled student leaves the University without initiating and completing the withdrawal form.

COURSES REPEATED FOR CREDIT
A student may repeat a course in which a grade of "D" or "F" is received. Total grade-points are computed on the basis of all attempts. A student who has a grade of "C" or better may repeat the course with the approval of the appropriate academic dean. Credit for a repeated course may be counted only once toward graduation, but all grades are recorded on the student’s transcript and are counted in determining quality points.

EXAMINATIONS, GRADES AND GRADE-POINTS (UNDERGRADUATE)
Final examinations are held at the end of each semester. Students are graded on the basis of the following guidelines:

- **A**: Excellent, 4 grade-points per semester hour
- **B**: Good, 3 grade-points per semester hour
- **C**: Satisfactory, 2 grade-points per semester hour
- **D**: Minimum Passing, 1 grade-point per semester hour
- **F**: Failure, no grade-points (weighted)
- **F***: Failure due to leaving the University without withdrawing, no grade points
- **S**: Satisfactory, no grade-points (unweighted)
- **U**: Unsatisfactory, no grade-points (unweighted)
- **U***: Unsatisfactory due to leaving the University without withdrawing, no grade points

The following symbols are substitutes for grades. They are not grades:

- **I**: Incomplete (see below)
- **X**: Absence from Final Exam (see below)
- **WD**: Withdrawal in good standing
- **P**: Course in progress (see below)
- **AU**: Audit
- **UA**: Unsatisfactory Audit (did not meet attendance requirements)
- **N**: No grade or invalid grade (assigned only by the Registrar)

The symbol “I” (Incomplete) is assigned when, for reasons beyond the student’s control, the student is unable to fulfill all the normal course requirements. The situation warranting an “I” must be a medical condition, an equipment problem, or other mitigating circumstance that is patently demonstrable to be beyond the student’s control. This symbol is not used to provide time for completion of extra work beyond the normal course requirements for improving the student’s grade, nor is it assigned to permit the student to avoid probation, suspension, or dismissal. The symbol “X” (Absence from Final Examination) is assigned only in cases where illness or an unforeseen emergency precludes the student’s appearance at the scheduled examination. All records of the symbols “I” or “X” must be cleared by the specified deadline of the next term; if they are not, grades of “F” will be recorded by the Registrar.

The symbol “P” (In Progress) is assigned only in a limited number of approved courses which require more than one term for completion. Unless the “P” is removed by the end of the second succeeding term, a grade of “F” will be recorded.

A student whose work is unsatisfactory for any reason shall receive a final grade of “F” for the course.

PLAGIARISM AND CHEATING
Plagiarism and other forms of cheating are academic matters; accordingly, no credit will be given for work in which they are involved. In addition, incidents of this nature may be reported to other appropriate authorities for further disciplinary action. (See Student Academic Conduct Policy)

CREDIT BY EXAMINATION
USA students may receive credit by special examination upon approval of the appropriate academic personnel (statement of application procedures may be obtained from the Office of the Registrar). A fee of $30.00 will be charged for each examination. In addition, the student will be charged the current course fee per hour of credit. Hours attempted will be included in determining the student’s grade-point average.

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP)
The University of South Alabama is a participant in the College Level Examination Program. Transfer credits earned through the College Level Examination Program will be evaluated according to standards established by this University. Prospective or enrolled students may seek information from the Office of Admissions or Office of the Registrar.

32-HOUR CREDIT LIMITATION
No more than a combined total of 32 semester hours of credit will be allowed for credit received through the College Level Examination Program (CLEP), Advanced Placement Program (AP), International Baccalaureate Program (IB), credit by examination, correspondence courses, military service school courses, and other approved non-collegiate-sponsored programs, as recommended by the American Council on Education.

REPORTING OF GRADES
Final grades are available only through PAWS (Personal Access Web System at http://paws.southalabama.edu) at the completion of each term.

CHANGE OF GRADE
Grades reported by instructors to the Registrar may not be changed except in case of error in recording or in evaluation. Grade changes require the approval of the instructor and the signature of the department chair and the dean of the college in which the course is taught. Grades on record for one calendar year may not be changed for any reason.

FINAL GRADE GRIEVANCE POLICY
A student may initiate an inquiry under procedures set forth by the Undergraduate Final Course Grade Grievance Policy. A copy of this policy is available in the dean’s office of each college and is published in The Lowdown (Student Handbook) and in the Faculty Handbook.

ACADEMIC RECOGNITION
Candidates for all honor lists must be undergraduate degree-seeking students with a clear academic status. Graduates, unclassified, auditors, transients, non-degree, or other special categories are excluded.

The President’s Scholars include all full-time students earning a 4.0 semester grade-point average.
The Dean’s List includes all full-time students earning a 3.50 semester grade-point average.
The Dean’s Honor List includes all full-time students who have completed a minimum of 32.0 hours at the University of South Alabama, earned a cumulative grade-point average of 3.40 or greater.
The Dean’s List for part-time students (students taking fewer than twelve hours) includes all students who are enrolled in at least six semester hours and have earned a semester grade-point average of 3.50 or greater.
All of the above lists are compiled upon completion of the processing of a particular semester’s grades. Removal of “I”s, “X”s or other such symbols at a later date will not qualify the student for recognition. Grades recorded in error will be considered only if properly changed and the Dean’s office is notified before publication of the lists.

ACADEMIC STATUS POLICY FOR UNDERGRADUATES
Required Grade Point Average
All undergraduate students must meet the established standards designating appropriate academic progress. To stay in good academic standing with a Clear status, a student must maintain a grade point average of 2.0 or greater on University of South Alabama course work.

As discussed in the section, General Requirements of Bachelor Degrees, a student must earn a minimum cumulative USA grade point average of 2.0 to graduate. (See special requirements in the College of Education.)

Academic Probation

Students with a cumulative grade point average below 2.0 are having academic difficulties and are alerted to this fact by being placed on academic probation. Students on academic probation are restricted to taking not more than 13 credit hours per term, unless exempted from this regulation by the dean of their college. Students with grade point averages substantially below 2.0 are subject to academic suspension or dismissal as indicated below.

Academic Suspension

Academic suspension for one regular semester results if a student at the end of any semester does not have the minimum grade point average indicated in the suspension and dismissal table following. The minimum required grade point average varies with the total number of credit hours attempted at the University. No student will be suspended before they have passed at least thirty credit hours at the University.

Academic Dismissal

Academic dismissal for one calendar year results if a student who has been reinstated following a previous academic suspension or dismissal fails to make satisfactory progress. Satisfactory progress is specified in the sections following titled Reinstatement Following Academic Suspension and Reinstatement Following Academic Dismissal.

### SUSPENSION AND DISMISSAL TABLE

Reinstatement Following Academic Suspension

Students reinstated following one regular term (excludes summer term) of academic suspension are readmitted on academic probation. Students in this category are subject to academic dismissal if they do not make satisfactory progress. A student is considered to be making satisfactory progress as long as they maintain a USA grade point average for each semester of 2.25 or above until their cumulative USA grade point average is above the minimum required grade point average for dismissal as outlined in the table above. Once a student achieves a grade point average larger than the minimum required grade point average, he is subject to the requirement to maintain his grade point average above the minimum value as listed in the table. Returning students will remain on Probation until the cumulative USA grade point average is 2.0 or greater.

Students intending to seek readmission after suspension must first file a Readmission Form by the official deadline with the Office of the Registrar.

Reinstatement Following Academic Dismissal
Students academically dismissed from USA may be considered for readmission on academic probation after a period of one calendar year has passed. Readmission requires dean's office approval. Students readmitted after dismissal are subject to a second dismissal if they do not make satisfactory progress. A student is considered to be making satisfactory progress as long as they maintain a USA grade point average for each semester of 2.25 or above until their cumulative USA grade point average is above the minimum required grade point average for dismissal as outlined in the table above. Once a student achieves a grade point average larger than the minimum required grade point average, he is subject to the requirement to maintain his grade point average above the minimum value as listed in the table. Returning students will remain on Probation until the cumulative USA grade point average is 2.0 or greater. Students intending to seek readmission after dismissal must first file a Readmission Form with the Office of the Registrar by the official deadline and consult with their academic dean.

ACADEMIC BANKRUPTCY
Undergraduate students readmitted after an absence of at least one or more calendar years may choose to count all or none of their University of South Alabama credits toward completion of degree requirements and the computation of their GPA. Should the student elect to count none of the prior work, i.e., declare academic bankruptcy, the student is, in effect, allowed to start academic work at the University of South Alabama over with a GPA of zero; however, all course work will remain on the student's academic record. This determination must be made by the student during the term of reentry, but preferably at the time of application for readmission. It requires dean's office approval. This election may be made only once during a student's USA career and is irrevocable. Such election also carries with it the stipulation that the student's choice of Bulletin is limited to those in effect from the time in which the student declares academic bankruptcy onward. Academic bankruptcy applies only to courses completed at the University of South Alabama.

In determining academic honors at the University of South Alabama, only the course work taken after academic bankruptcy has been declared counts in the calculation of GPA.

The option of academic bankruptcy is not available to a student who has received a bachelor’s degree.

For financial aid recipients - filing academic bankruptcy will not clear your satisfactory progress problem nor reinstate your federal financial aid eligibility (including loans).

READMISSION TO THE UNIVERSITY
Students who have been previously enrolled in the University of South Alabama, and who have not attended for one regular term (not including summer) should comply with the following:

How to Apply for Readmission
An applicant should request the appropriate forms from the Registrar's Office. The readmission form, including all required credentials, should be filed with the Registrar's Office by one of the following deadlines: Fall Semester - April 4; Spring Semester - October 21 or Summer Semester - April 3.

Requirements for Readmission
An applicant must be eligible to return to the University of South Alabama on the basis of a previous academic record at this institution. If the student has attended any college or university subsequent to last enrollment at the University of South Alabama, the student must also have the required transfer average or higher (as computed by the University of South Alabama) on work attempted, and must be in good standing and eligible to return to the last institution attended.

CREDITS EARNED IN OTHER COLLEGES AS A TRANSIENT STUDENT
A student enrolled in the University of South Alabama is not permitted to take credit work as a transient student at another institution to be applied toward a degree without prior permission from the dean of the college. The permission must be in writing, specifying which courses are acceptable and their equivalents at the University of South Alabama. A copy of this permission must be filed with the University Registrar. Students do not need transient approval if they have not been enrolled at the University for two or more consecutive terms.
STUDENT RECORDS
The University of South Alabama maintains records and data relative to the individual student to facilitate the educational process of the student and to assist in the administration of student needs by the University. The University of South Alabama complies with the rights of privacy and access to the educational records of the student as set forth in the Family Educational Rights and Privacy Act (FERPA) of 1974. The University of South Alabama has formulated the following policy in accordance with the Act:

No information from records, files, or data directly related to a student other than that defined as “directory information” shall be disclosed or released to any individual or agency outside the University without the prior written consent of the student, except according to lawful subpoena or court orders, or except in the case of need by other educational agencies or governmental agencies. Information will be available to University personnel and faculty only for legitimate educational purposes. The student shall have the right of access to and to review the accuracy of all such information with those exceptions that are defined within this policy statement.

Records may be released to parents of a student who is claimed as a dependent on their most recent federal income tax form, as defined by Section 152 of the Internal Revenue Code of 1986. The University is not required to disclose information from the student's education records to any parent of a dependent student. Discretion in releasing the student's records to the parent will be exercised.

Information about deceased students may be released to legal next of kin and or the executor of the student's estate. The request for deceased student information must be in writing accompanied by an official death certificate and any additional documentation deemed necessary by the University.

A deceased student's educational records may also be accessed by subpoena and or court order issued by a court of competent jurisdiction. No notification of such subpoena or court order will be issued by the University.

Directory information may be released by the University without the written consent of the student. Directory information, as defined by FERPA, includes the student's name, address, telephone number, e-mail address, photograph, date and place of birth, major, dates of enrollment, degrees conferred and dates of conferral, any graduation distinction, institutions attended prior to admission, participation in officially recognized activities and sports, and weight and height of members of University athletic teams.

To request nondisclosure of directory information, students must complete a “Request to Prevent Disclosure of Directory Information” form in the Registrar's Office. The request must be received in the Registrar's Office within the first two weeks of a semester. This request will remain in effect unless changed by the student.

Additional information on FERPA may be found in the University Lowdown (student handbook) under “Student Record Policy”. A complete explanation of FERPA is available in the Registrar's Office. Any complaints regarding University compliance with this law may be filed with the Family Educational Rights and Privacy Act, Department of Education, Washington, DC 20201.

The Registrar's Office follows the recommendations of the State of Alabama Records Disposition Authority and the American Association of Collegiate Registrars and Admissions Officers in the retention and disposal of student records.

TRANSCRIPTS
Upon the written request of the student, transcripts are normally issued by the Registrar's Office within one to three days. The fee is $6.00 per transcript. All outstanding obligations to the University must be cleared prior to the release of transcripts. The University does not release copies of transcripts from other institutions.

ENROLLMENT CERTIFICATION AND DEGREE VERIFICATION
The Registrar's Office will provide official enrollment/degree verification upon the written request of the student.

For enrollment/degree verification related to financial aid, the University of South Alabama is a participant in the National Student Clearinghouse. The Clearinghouse is a repository for enrollment/degree status information and was established to simplify, standardize and automate the status verification and deferment process. The Clearinghouse, the University's agent, will provide student enrollment/degree information directly to the guaranty agencies, lenders, and other services.
GRADUATION

Application For Graduation

Students planning to graduate must make application according to the dates specified in the University Calendar. Failure to make application will result in a delay in scheduled graduation dates.

A student must file an application for graduation with the Registrar’s Office two terms before expected degree completion (see University Calendar for deadlines). The degree audit/official check sheet must be approved by the chair of the major department and the academic dean.

Choice of Bulletin Under Which A Student Graduates

A candidate for the bachelor’s degree must fulfill the requirements of a degree program as specified in the Bulletin in effect during the academic year of the student’s first matriculation as a degree student. Students may select a subsequent Bulletin during their matriculation with the approval of the appropriate academic dean. If a student does not attend the University for a period of one (1) calendar year or longer, the student will be required to fulfill the requirements of the degree program as specified by the Bulletin in effect during the year of the student’s return as a degree student.

If a student prolongs the completion of a degree program, curricular or programmatic changes may occur to such an extent that the requirements for the degree program as outlined in a Bulletin for which the student would otherwise be eligible cannot longer be fulfilled. If in the judgment of the appropriate academic dean, this has occurred, such Bulletins cannot be used for meeting degree requirements. In these cases, the academic dean would designate the appropriate Bulletin for determination of degree requirements.

If a student changes degree programs, the college or division may require the student to fulfill the requirements of the Bulletin in effect when the change of degree program is approved.

The University reserves the right to make changes, as required, in course offerings, curricula, academic policies, and other rules and regulations affecting students, to be effective whenever determined by the University. These changes will govern current and former students. Interpretations of these policies will be made by the appropriate University authorities, keeping in mind the interests of the students and the University. Enrollment of all students is subject to the conditions and policies as set forth in the Bulletin.

Evaluation of Degree Requirements

Each senior will have one official check of remaining degree requirements following filing of the degree application for graduation which includes the payment of the $30.00 application fee. This evaluation will be available from the student’s dean. A fee of $15.00 will be charged for any additional degree check necessitated by a student’s subsequent change of Bulletin, program of studies, or failure to complete degree requirements by the prescribed term.

Graduation With Honors

Students who have at least 60 credit hours attempted in residence at the University of South Alabama and have a grade-point average of 3.50 or better at the University of South Alabama are graduated with distinction. Transfer credit hours are not included in the determination of academic honors.

Students earning a grade-point average of 3.90 or higher are graduated summa cum laude.

Students earning a grade-point average of 3.70 but less than 3.90 are graduated magna cum laude.

Students earning a grade-point average of 3.50 but less than 3.70 are graduated cum laude.

Since commencement occurs before the official end of the term, final grades cannot be determined in time for inclusion in the printed commencement program. Thus tentative honors, based on the student's academic record through the end of the last term completed, will appear in the printed commencement program and will be recognized in the ceremony. Final, official honors will be computed after all grades are processed at the end of the term for the last term of attendance, and will appear on student's diploma and transcript.
Honors Program
Students who have completed all requirements for the University of South Alabama Honors Program with an overall grade-point average of 3.5 or higher will receive special recognition at graduation. For details of the USA Honors Program see USA Honors Program.

Commencement
The University has a Spring and Fall commencement. Students graduating spring term are eligible to participate in the Spring Commencement only. Students graduating summer and fall terms are eligible to participate in Fall commencement only.

Diplomas
Diplomas are issued each term; however, degrees are conferred at commencement. Diplomas will be held until all outstanding obligations to the University have been cleared. Unclaimed diplomas become the property of the University one calendar year thereafter.

Awarding of Posthumous Degree
If a deceased student has satisfactorily completed approximately 90 percent of the degree requirements, the Dean of the College may recommend the waiving of the remaining requirements for the appropriate academic degree. The Dean's recommendation will be submitted to the Senior Vice President for Academic Affairs for review. If approved, the recommendation will be forwarded to the Office of the President for final approval.
HONORS PROGRAM

The University of South Alabama Honors Program offers a curriculum of interdisciplinary excellence designed to stimulate analytical and critical thinking of exceptionally qualified and highly motivated students. In this effort, the USA Honors Program challenges the students with scholarly creative activities, exposes them to cultural enrichment and requires them to engage in community service. The USA Honors Program aspires to instill in students the intellectual excitement that will better prepare them for productive careers and citizenship.

Within the context and diversity of a midsize urban university, the Honors Program provides the academic and cultural atmosphere and setting expected on a small, personal campus community of excellence.

Two Honors Program options are available at the University of South Alabama, 1) a four-year program resulting in the designation on the transcript and at graduation of "University Honors Program", or 2) Departmental programs resulting in the designation of “Departmental Honors” on the transcript in selected majors.

PROGRAM DESCRIPTION

The University Honors Program is a campus-wide program that includes honors course work and extracurricular activities throughout the four years of a student’s undergraduate career. In addition to general university curriculum requirements and degree requirements of the selected major, USA Honors Students also complete enriched honors core courses, honors seminars and a Honors Senior Project. A cornerstone of the program is that each student will be assigned a faculty mentor chosen from the student’s major department, or suggested by the Honors Program until a major has been identified, who will direct the student through the research and scholarly experience that will culminate in an Honors Senior Project. Mentors will be outstanding faculty of the University. Honors classes are small, limited to 15 students, and are taught by the University’s most stimulating faculty.

Specially scheduled scholarly presentations involve Honors Students and the wider academic community in a format that includes the opportunity to debate various issues and to listen to and interact with invited speakers and performing artists.

In addition to a challenging academic curriculum, the USA Honors Program offers a variety of activities that extend learning beyond the classroom including social and cultural events and community service projects. All USA Honors Students are required to participate on a continuing basis in community and campus service activities. Honors Students are encouraged to participate in international programs and off-campus internship opportunities, and are assisted by the Program in applying for national or international scholarships. Honors Students will also be given priority for registration and an option to select Honors Housing.

Students who complete the requirements of both the USA Honors Program and of the selected major with a grade-point average of 3.5 or higher (overall and in the major) will receive the designation “University Honors Program” on the transcript and the diploma. These requirements apply to all students accepted into the University Honors Program. Students transferring from honors programs of other institutions may petition to receive credit for honors work completed elsewhere. Honors Program graduates will be specially recognized in the graduation program. All courses completed for honors credit will be so indicated on the student’s official transcript. Such achievements often represent the type of personal credentials sought by employers and graduate programs.

BENEFITS OF PARTICIPATING IN THE USA HONORS PROGRAM

• Mentored by a member of the University faculty, thereby establishing a one-to-one professional relationship with a faculty mentor.
• Participate in scholarly projects with their faculty mentors during their undergraduate careers.
• Participate in community service projects in conjunction with their faculty mentors and other Honors Students, and in service-learning activities associated with specific courses.
• Priority in registration.
• The option of designated Honors Housing.
• Access to and use of the facilities and services of the Honors Center.
• Participate in special faculty/student/scholar seminars and cultural events.
• Participate in an annual Honors Senior Showcase presentation of Honors Senior Projects results.
• Be encouraged to apply for national or international scholarships (e.g., Fulbright, Rhodes, etc.), and will be counseled and assisted in their efforts by the Honors Program Office and the Office of Enrollment Services.
• Have opportunities to actively participate in national and international conferences with their faculty mentors.
• Will receive special Honors recognition at graduation.

QUALIFICATIONS FOR CONSIDERATION FOR THE USA HONORS PROGRAM
High school seniors with a minimum 27 ACT Composite (or comparable SAT score) and a minimum 3.5 high school grade-point average (4.0 system) (as computed by the University of South Alabama) are invited to apply. USA students and transfer students who have completed no more than 32 semester hours with an overall grade-point average of 3.5 (4.0 system) are also eligible to apply to the program. Students without the above qualifications, that feel they have strong potential for success in the USA Honors Program, are encouraged to submit an application package and documentation of evidence of their special qualifications for review by the Honors Admissions Committee. Transfer students applying for admission to the University Honors Program should indicate any credit earned in other honors programs.

PROCEDURE TO APPLY FOR THE USA HONORS PROGRAM
1. Complete an application for admission to the University of South Alabama and submit to the Office of Admissions with the non-refundable processing fee.
2. Complete the University of South Alabama Honors Program Application Form and mail to the USA Honors Program. You must specially request this form when asking for a USA application package or it can be printed from the USA Honors web page.
3. Request that your high school counselor mail an official copy of your high school transcript to the USA Office of Admissions OR Request that your official transcript from your college/university registrar be sent to the USA Office of Admissions.
4. Request that your official ACT or SAT results be sent to the USA Office of Admissions.
5. Provide two (2) letters of recommendation from individuals that can comment on your intellectual capabilities and personal characteristics such as independent thinking, motivation, creativity and willingness to be academically challenged.
6. Complete an essay on a topic specified annually by the USA Honors Program. The topic will be provided by the USA Honors Program in your application package, may be requested from the Honors Program Office at (251)461-1637, or found in the Honors brochure and on the web page "Application Guidance.”
7. Participate in an interview with the Honors Admissions Committee if selected for final consideration.
8. All application materials above must be received at the University of South Alabama no later than 5:00 pm on December 15, 2005 to be considered.

QUALIFICATIONS TO MAINTAIN STATUS AS A USA HONORS STUDENT
University Honors Students must maintain satisfactory progress in the Honors Curriculum to remain in the Honors Program. A minimum of 15 hours of enrolled credit per semester is required for scholarship recipients unless otherwise indicated in the scholarship award. Required overall grade-point averages for Honors Students are 3.0 after the freshman year, 3.25 after the sophomore year and 3.5 after the junior year and throughout completion of the requirements for the Honors Degree. A student may be placed on honors probation for a period of one semester if the required GPA is not achieved and must attain the required GPA at the end of the probationary semester in order to return to full status in the Honors Program.
Participants are expected to participate in community and campus service projects and to regularly attend cultural and scholarly events on campus and in the community. These activities will be facilitated by the Honors Program Office and program mentors. Participation may be as a group or in individually focused activities. By the junior year, each Honors Student will identify a suitable faculty mentor and will design and implement an Honors Senior Project. The project represents a scholarly effort appropriate to the major, including a significant component of investigation and written presentation. Juniors will prepare a prospectus of their project prior to initiating the project. Graduating Honors seniors will present their Honors Senior Project at a defense before their committee in a formal format suitable for the project (e.g., an exhibition, research presentation or poster, or performance). The senior project will be evaluated and graded by a committee of three faculty chaired by the honors project mentor and must be approved by the Director of the Honors Program. Honors Students are encouraged to participate in international study opportunities, independent research programs and off-campus internships. The Honors Program Office maintains information on such opportunities and is available to assist students with applications and arrangements. Students will also be encouraged to apply for national and international scholarship programs (e.g., Fulbright, Rhodes, Eisenhower, etc.).

DEPARTMENTAL HONORS PROGRAM
A second honors option is available in many departments throughout the Colleges of the University of South Alabama. This option may be particularly suitable for transfer students, or others, who have completed significant credits toward graduation before deciding to pursue an honors degree, and for whom completing the entire University Honors curriculum would not be practical. To receive a designation of “Departmental Honors”, students must successfully complete an Honors Senior Project in their major, have at least a 3.5 GPA and meet the specific honors requirements of their major department. These students may also elect to take Honors Seminars and participate in other University Honors programs and activities upon the recommendation of their major advisor. Please consult departmental sections of the Bulletin for any additional honors requirements specific to your major.

OTHER HONORS OPTIONS
For transfer students, or others, who have completed significant credits toward graduation, the specific curriculum requirements for the Honors Degree may be impracticable. Additionally, other non-honors students may find certain honors courses desirable while being unable to commit to the entire honors curriculum. Options available in these cases include enrollment in specific honors courses (indicated on the transcript as honors credit), with permission of the instructor when space is available, and/or pursuing and completing an appropriate Honors Senior Project. Students interested in these options should consult with the Honors Program Director and their major advisor.

UNIVERSITY HONORS CURRICULUM REQUIREMENTS
The following courses, or a substitute approved by the Honors Program Office, must be completed with a grade of “C” or better, in addition to general studies requirements and specific requirements of the major department, to graduate with University Honors recognition. Transfer students may petition to receive credit for honors courses taken elsewhere. High School AP and IBP credits may not substitute for Honors required courses.

(Only three hours may be from the major)**

* Not required of transfer students or USA students who have completed at least 15 semester hours with a 3.0 or greater GPA.  
** Indicates courses that may meet USA General Studies requirements.  
*** Student should determine early in their program the requirements in their major.

Honors Seminars are special topics courses of interest to students in many majors. Seminars will be available each semester for students to make their selection. Topics are generally not repeated, or are repeated infrequently. When appropriate, Honors Seminars may be approved by an academic advisor for general studies credit, in addition to satisfying an Honors Program requirement. The Honors Electives requirements may be satisfied by taking additional Honors Seminars or any course offered for honors credit (courses with ‘Honors’ in the title or an ‘H’ suffix). Electives may be in the major or other fields of study. Students should seek the counsel of a faculty advisor in selecting their Honors Electives. It is often possible to satisfy both the Honors Elective requirement and a general studies requirement by proper course selection. USA Honors Students may also receive Honors credit for non-honors course work by “contracting” for additional work approved by the instructor and the Honors director.

DESCRIPTIONS OF ALL HONORS (HON) COURSES
The University of South Alabama, the only major public institution of higher learning on the upper Gulf Coast, was created by act of the Alabama State Legislature in May, 1963. With Alabama's two older senior universities more than 200 miles distant, the University is strategically located in the greater Mobile area, which has a population of more than a million within a 100-mile radius. The Graduate School provides the student with opportunities for creative achievement and the advancement of knowledge. Graduate study fosters the spirit of independent investigation while creating an environment for free inquiry and intellectual challenge in advanced and specialized areas. Emphasis upon scholarship, original thinking, and the practical application of knowledge to the solution of complex problems will enable the student to make a valuable contribution to society.

All graduate work is administered by the Graduate School under the direction of the Graduate Dean who is advised by the Graduate Council. The voting members of the council are eight Full Members of the Graduate Faculty, eight Graduate Directors, one from each college, and one graduate student. Non-voting ex officio members are the Senior Vice President for Academic Affairs, the Graduate Dean, the Dean of the University Libraries, a representative of the Office of Admissions, and a representative of the Registrar's Office.

DEGREES OFFERED
The Graduate School offers seventeen different graduate degrees (M.A., M.Ac., M.B.A., M.S.N., M.Ed., M.P.A., M.H.S., D.P.T., M.S., M.S.S.H., M.S.CHE., M.S.E.E., M.S.C.I.S., Au.D., Ed.S., Ph.D., and thirty-four programs, within numerous areas of concentration. For specific admission and degree requirements, in addition to those of the Graduate School, see the department or college section of your interest.

CERTIFICATE PROGRAMS
Education
See appropriate sections under College of Education.

Gerontology
See appropriate sections under Program in Gerontology.

ASSISTANTSHIPS AND FELLOWSHIPS
Information concerning assistantships and fellowships may be obtained from the college or department concerned or online at "http://www.southalabama.edu/graduateprograms/GSForm12GradAssistantship.pdf". In addition to a completed graduate assistantship/fellowship application which includes three (3) letters of recommendation, students must have attained regular standing to be eligible for consideration for a graduate assistantship/fellowship. Tuition granted for a graduate assistantship/fellowship may not be applied to courses outside of the degree program.

GRADUATE PROGRAMS
The following graduate degree programs are offered through the Graduate School of the University. More details are available under school/college listings elsewhere in this Bulletin.

The College of Allied Health Professions offers graduate programs leading to the degrees of Master of Science in Speech and Hearing Sciences, Master of Science in Occupational Therapy, Master of Health Sciences (Physician Assistant Major), Doctor of Physical Therapy, Doctor of Audiology, and the Doctor of Philosophy in Communication Sciences and Disorders.

The College of Arts and Sciences offers graduate programs leading to the degrees of Master of Arts in Communication, English, History, and Sociology; Master of Public Administration; Master of Science in Biological Sciences, Marine Sciences, Mathematics, Psychology, and Doctor of Philosophy in Marine Sciences.
The Graduate School

The **Mitchell College of Business** offers graduate work in business leading to the degree of Master of Business Administration and graduate work in accounting leading to the degree of Master of Accounting. These programs are given in the evenings and are designed for those individuals presently engaged in managerial or technical positions with business, industry, or government.

The **School of Computer and Information Sciences** offers a graduate program leading to the degree of Master of Science in Computer and Information Sciences.

The **College of Education** offers graduate programs leading to the degrees of Master of Education, Master of Science, the Educational Specialist, and the Doctor of Philosophy.

The **College of Engineering** offers graduate programs leading to the degree of Master of Science in Chemical Engineering, Master of Science in Electrical and Computer Engineering and Master of Science in Mechanical Engineering.

The **College of Medicine** offers a program leading to the Doctor of Philosophy degree in Basic Medical Sciences. The objective of the program is to produce graduates with training and knowledge in basic human biology with an in-depth knowledge of one of the basic medical sciences (Biochemistry and Molecular Biology, Microbiology and Immunology, Molecular and Cellular Pharmacology, Physiology, Cell Biology and Neuroscience). A combined program leading to the awarding of both the Ph.D. and M.D. degree is available to highly qualified applicants.

The **College of Nursing** offers a graduate program leading to the degree of Master of Science in Nursing.

The **Graduate School** offers an Interdisciplinary graduate program leading to the degree of Master of Science in **Environmental Toxicology**.

**GRADUATE SCHOOL ADMISSION REQUIREMENTS AND PROCEDURES**

The Dean of the Graduate School, advised by the Graduate Council, establishes and monitors the standards under which students are admitted for study in degree programs under its jurisdiction. Each student must be qualified for admission to the Graduate School. However, the fact of qualification does not guarantee admission. Admission may be restricted because of capacity limitations. Official notice of actions on applications for admission is provided by the Office of Admissions. Any other correspondence between student and faculty members, department chairs, and/or administrative officers does not constitute nor does it imply admission to the Graduate School.

Application forms and other materials should be requested from the Director of Admissions, 182 Administration Building, University of South Alabama, Mobile, Alabama 36688-0002, telephone (251)460-6141 or toll-free telephone number (800) 872-5247. The e-mail address is admis@usouthal.edu.

International students should contact the **Office of International Services**, Faculty Court South, Room 3, University of South Alabama, Mobile, Alabama 36688-0002, telephone (251)460-6050, for application information. Specific information regarding academic programs may be obtained by contacting the Director of Graduate Studies in the appropriate colleges.

**DEADLINES FOR APPLICATIONS**

Final deadlines for all applications and supporting documents for new graduate students are as follows: July 15 for Fall Semester; December 1 for Spring Semester; and May 1 for Summer Semester. New graduate students who do not register for the semester in which they were accepted must update their admission in writing by the deadline if they wish to enroll in a future semester.

A former USA graduate student who has not taken a graduate course within a five-year period, or a graduate student who wishes to change degree program or type, must apply through the **Office of Admissions**. Deadlines are stated above.

Deadlines for applications and supporting documents for new **international students** are usually at least one month earlier than the deadlines for U.S. citizens. Refer to the “**International Students**” section for details.

**Not all programs admit students each semester and some programs set earlier application deadlines. Please see appropriate section of this publication for exceptions.**
Students who were admitted into the Graduate School and did not register for the semester in which they were accepted, but who wish to register for the same graduate program in the same academic year do not have to reapply through the Office of Admissions unless the student has attended another institution in the interim. If this is the case, a reapplication is required, including official transcripts of any additional coursework completed.

USA graduate students who have failed to attend for one semester or more must file for readmission in the Admissions Office by July 7 for the Fall Semester, November 8 for the Spring Semester, or April 5 for the Summer Semester.

**DOCUMENTS REQUIRED FOR ADMISSION**

All documents required for admission review (transcripts, test scores or letters of recommendation) must be official, i.e., mailed from the home institution or testing agency directly to the Office of Admissions, and become the property of the University of South Alabama. Students applying for admission to the Graduate School must pay a $25 non-refundable processing fee by the appropriate deadline. If a student changes programs, a new processing fee and application must be submitted.

**CATEGORIES OF ADMISSION**

Each program has specific requirements for admission that may exceed the requirements listed as follows for admission to the Graduate School. Persons interested in applying for admission to a specific program should consult the appropriate program's Requirements for Admission.

Applicants to the Graduate school may be admitted in one of the following categories.

1. **Regular Admission** - Regular admission requires the following:
   A. A bachelor's degree from an accredited institution of higher education.
   B. A minimal grade-point average of 3.00 on all undergraduate work ("A"=4.00). The grade-point average used is that computed by the Office of Admissions.
   C. Sufficient courses in the major subject to qualify for graduate study in the involved discipline. A student who has a deficiency in courses in the discipline but who otherwise qualifies for Regular Admission will be required to complete appropriate prerequisite course work.
   D. Recommendation of the appropriate Coordinator/Chair, Director of Graduate Studies and approval by the Graduate Dean.
   E. International students must submit documentary evidence showing TOEFL test scores of 525 or above (197 on computer based test), or a bachelor's or graduate degree earned at an accredited United States institution of higher education.
   F. Most graduate programs require standardized test scores for admission. See the individual program descriptions elsewhere in this Bulletin for details.

For those students who have had previous graduate work, performance at the graduate level may be taken into consideration as well as undergraduate performance. An earned advanced degree may substitute for some admission requirements (see description of specific program).

2. **Provisional Admission** - Students who do not meet the requirements for Regular Admission may be admitted to the Provisional Admission category. A student in provisional status will not be allowed to enroll in courses other than those specified by their program of study. Provisional Admission requires:
   A. A bachelor's degree from an institution of higher education.
   B. A minimal grade-point average of 2.5 on all undergraduate work ("A"=4.00) or 2.75 on the last 64 hours of college work. The grade-point average used is that computed by the Office of Admissions. Graduate Directors or Coordinators of each graduate program may recommend consideration of other factors in the review of an application.
   C. Recommendation of the appropriate Coordinator/Chair, Director of Graduate Studies, the Dean of the College/School, and the Graduate Dean.
   D. International students must submit documentary evidence showing TOEFL Test Scores of 525 or above (197 on computer based test), or a bachelor’s or graduate degree earned at an accredited United States institution of higher education.
   E. Most graduate programs require standardized test scores for admission. See the individual program descriptions elsewhere in this Bulletin for details.

For a Provisional student to be changed to Regular status, the following are required:
A. Provisional students will be eligible for Regular status after accruing a minimum of nine (9) semester hours of course work taken at the University of South Alabama for graduate credit toward degree requirements, provided at least a "B" average is maintained in all such work attempted. No more than 15 semester hours of graduate credit earned as a Provisional Admission student may be approved for change of status to Regular Admission. The Provisional student who does not have the required "B" average upon completing 15 semester hours of graduate credit will be subject to dismissal from the graduate program and the Graduate School. See appropriate college or school and/or department section of this publication for any additional requirements. At all times, students are subject to the policy stated in the Academic Standards Section entitled “Academic Dismissal.”

B. Approval by the appropriate Director/Coordinator of Graduate Studies, and Dean of the College/School.

3. Non-Degree Admission - Students holding baccalaureate degrees from accredited institutions of higher education who are not interested in earning graduate degrees or who need to complete prerequisites for particular degree programs may enroll as Non-Degree graduate students. A suitable background for the courses to be taken is expected.

Because of limited class size and resources, academic units may limit the enrollment of Non-Degree students. After admission, permission to enter each course is obtained from the Graduate Director/Coordinator in the appropriate college, school and/or department.

Non-Degree students subsequently seeking admission into one of the graduate degree programs of the University must submit a formal application through the Office of Admissions to the Graduate Director/Coordinator of the appropriate college, school and/or department. Students may be subject to further conditions, such as the completion of necessary undergraduate background courses. The student’s record in graduate courses taken while in the Non-Degree status may be considered. A maximum of 15 semester hours of graduate credit earned while in Non-Degree status may be applied toward a graduate degree if the student is later admitted to a graduate program of study.

International students must submit documentary evidence showing TOEFL test scores of 525 or above, or bachelor’s or graduate degrees earned at accredited United States institutions of higher education.

TRANSIENT ENROLLMENT

Students in good standing in the graduate school of other universities may enroll in the Graduate School of the University of South Alabama, provided they have the written permission of the Dean of the Graduate School of the University of South Alabama. Enrollment as a transient student in no way implies future admission as a degree or non-degree graduate student. Students who wish to remain in transient status for more than one semester must submit the University’s Transient Student Form and a readmission form (available from the Admissions Office) each semester prior to the deadline (see “Readmission to the University”).

GRADUATE STUDY FOR ADVANCED UNDERGRADUATES

With permission of the department chair and appropriate director of graduate studies, a student who has completed 96 semester hours with a “B” (3.0) average may register for graduate courses provided the total load does not exceed 12 hours. This policy is extended to provide an opportunity for well-prepared undergraduates who meet two Regular admission criteria: minimum GPA and sufficient undergraduate course work in the major subject to qualify for graduate study in the involved discipline. The same course may not be counted both as undergraduate and graduate credit. The graduate course may count toward a degree in graduate school, if and when the student is admitted to graduate school, provided such course was not used to satisfy requirements for the undergraduate degree and it has been less than 5 years since the course was taken.

ADMISSION TO CANDIDACY REQUIRED BY COLLEGE OF EDUCATION

Admission to Graduate School does not imply admission of a student to Candidacy for the master’s degree in the College of Education. The student is referred to the “Admission to Candidacy” section in the College of Education for further information.

GRADUATE SCHOOL ACADEMIC STANDARDS
A student who withdraws from the University or from a course will have WD recorded on his permanent record, provided the withdrawal occurs within the time limits listed in the official Calendar. Withdrawal after the time limits can only be approved by the Dean of the Graduate School upon the recommendation of the appropriate director of graduate studies. (See Withdrawals.)

GRADE STANDARDS
Courses for which the grade of "D" is assigned may not be counted toward a degree program. A maximum of two courses with the grade of "C" may be counted toward a degree program. However, some programs accept no grades of "C"; see specific program.

GRADES
A - Excellent 4 grade-points per sem. hour
B - Good 3 grade-points per sem. hour
S - Satisfactory (certain designated courses only)
C - Marginal 2 grade-points per sem. hour
D - Unsatisfactory 1 grade-point per sem. hour
U - Unsatisfactory (certain designated courses only)
F - Failure no grade points
The following symbols are substitutes for grades. They are not grades:
I - Incomplete
X - Absent for final exam
WD - Withdrawal in good standing
P - Course in progress
AU - Audit
UA - Unsatisfactory audit (did not meet attendance requirement)
N - No grade or invalid grade
See academic policies and procedures for further explanation of the above grades and symbols.

CHANGE OF GRADE
Grades reported for graduate students by instructors to the Registrar may not be changed except in case of error in records or in evaluation. Grade changes require the approval of the instructor of record, with information regarding the change provided to the department chair, the director of graduate studies of the college in which the course is taught, and the Dean of the Graduate School. Grades on record for one-calendar year may not be changed for any reason.

ACADEMIC DISMISSAL
The Dean of the Graduate School has authority to dismiss graduate students from the Graduate School.
A student who receives six semester hours of "D" or "F" in all graduate courses toward degree requirements or required undergraduate prerequisite or foundation courses will be academically dismissed from Graduate School. In addition, any combination of nine (9) semester hours of grades of "C" or less (C,D,U,F) in all graduate courses or required undergraduate prerequisite or foundation courses will result in academic dismissal.
Any term in which a graduate student drops below a 3.0 Program GPA, the student is placed on probationary status and has a period of two terms to attain a 3.0 Program GPA or be dismissed.
A student will be dismissed from the Graduate School after two or three (depending on program) unsuccessful attempts to pass the comprehensive examination or the Qualifying Exam in Basic Medical Sciences. Some programs allow only two attempts. A student in the status of Provisional Admissions who does not have a "B" (3.0) average upon completing 15 semester hours of graduate credit applied toward the degree will be academically dismissed from the Graduate School. A student who has been academically dismissed is eligible to reapply to the Graduate School subject to the approval of the director of graduate studies of the specific new program and the Dean of the Graduate School. This is not intended to include the program from which the student has been dismissed.

NON-ACADEMIC DISMISSAL
A student dismissed from a graduate program as the result of an academic misconduct penalty will be automatically dismissed from the Graduate School and the University of South Alabama and will not be eligible to apply for readmission.
FINAL GRADE GRIEVANCE POLICY
A student may initiate an inquiry under procedures set forth by the Graduate School Final Course Grade Grievance Policy. A copy of this policy is available in the dean's office of each college and in the Graduate Dean’s Office.

APPEAL PROCEDURE
A graduate student dissatisfied with a ruling regarding academic affairs should consult with the faculty member concerned and the department chair to seek an acceptable solution to the problem. If no agreement can be reached, an administrative appeal procedure is available. Information concerning this procedure may be obtained from the office of the Graduate Dean.

ENGLISH LANGUAGE PROFICIENCY
English is the language of instruction at the University of South Alabama. International students, except those who have earned a bachelor’s or graduate degree at an accredited United States institution of higher learning, are required to take the English Language Proficiency Examination administered at this University at the beginning of the first semester in which they are enrolled. Students with deficiencies in any of the various areas of command of English (oral comprehension, reading comprehension, grammatical structure, vocabulary, etc.) will have appropriate ESL courses recommended. Any remedial work in English language skill, which may be found needed after a student has been admitted to the Graduate School (Provisional Admission or Regular Admission), may be specified and requested by the director of the graduate program in which the student is enrolled.

REGISTRATION
Registration (making course selections and enrolling in classes) occurs prior to the beginning of each semester. Students must register via the web utilizing USA’s PAWS (Personal Access Web System). (See the University Schedule of Classes for additional information.)

FULL LOAD OF COURSE WORK IN A SEMESTER
A full load is six to ten credit hours. Permission to take more than ten credit hours must be obtained within the college/department.

TRANSFER CREDIT
A maximum of nine (9) semester hours of approved transfer credit is allowed for a master’s degree. Transfer credit from regionally accredited universities may be accepted by certain programs. Prior approval of the college director of graduate studies is required. Only courses with "A" or "B" grades are acceptable for transfer. See specific Ph.D. program for transfer credit policy. The University of South Alabama does not award graduate credit for prior portfolio-based experiential learning.

CHANGE OF PROGRAM
A student wishing to change from one graduate program to another must apply to the new program through the Office of Admissions, unless the new program is in the College of Education or the Mitchell College of Business. If the new program is in the College of Education or Mitchell College of Business, the student should consult the Director of Graduate Studies of the appropriate college.

STUDENT RESPONSIBILITY
While the University of South Alabama will endeavor to provide timely and accurate advisement, it is the responsibility of the student to know and satisfy the degree requirements of the academic program, to be aware of the University calendar and to understand and comply with University academic policies and procedures.

DEGREE REQUIREMENTS: REQUIREMENTS FOR THE MASTER’S DEGREE
1. A minimum of 30 semester hours of credit in a program approved by the major department and the Dean of the Graduate School is required. The following limitations apply:
   A. No more than 12 hours of either dual-listed courses (400- and 500-level listings for the same course) or upper division undergraduate courses (400-level courses) may be counted toward meeting the minimum hours required for a degree; the total of dual-listed and 400-level credit hours may not exceed 18.
   B. A maximum of nine (9) semester hours of graduate credit obtained at another accredited institution may be approved for transfer to the University of South Alabama. The credit is approved only after completion of a minimum of nine (9) semester hours of graduate credit at the University of South Alabama and the student must be in regular status. Transfer credit must have the recommendation of the major department and appropriate director of graduate studies and the approval of the Dean of the Graduate School. Only grades of "A" or "B" or the equivalent may be accepted as transfer credit. Grade equivalency must be verified by the appropriate director of graduate studies. Course work completed more than five years prior to the date for graduation may not be counted for degree credit. Students must meet all degree residency requirements.
   C. A course applied toward credit for a degree at this institution, or elsewhere, will not be acceptable as credit toward a second degree, except in approved dual-master’s programs where a maximum of nine (9) hours may be counted in both programs.

2. A minimum overall 3.0 grade-point average on all work attempted in the student’s specific program of study as well as an overall 3.0 grade-point average on all work attempted is required. Courses for which the grade of "D" is assigned may not be counted toward a degree program. A maximum of two courses with the grade of "C" may be counted toward a degree program; however, some programs accept no grades of "C" (see specific program).

3. A minimum of 21 semester hours of degree program credit in residence at the University of South Alabama is required.

4. All requirements for a master’s degree must be completed within five calendar years from admission as a graduate student at the University of South Alabama.

5. A comprehensive examination is required and may be repeated no more than twice. For details see specific program.

6. Submission of a standardized test score may be required. For details, see specific programs.

7. A foreign language may be required. For details see specific programs. International students should note that English may not be offered as a foreign language. The foreign language requirement must be fulfilled, normally no later than two semesters before graduation, in one of two ways:
   A. Undergraduate course work in one acceptable foreign language which demonstrates successful completion of at least the second-year intermediate level (a course offered in the sixth quarter or fourth semester of an undergraduate sequence begun at the introductory level) with a minimum grade-point of 2.5 in all work attempted in the foreign language. The course work must have been completed within five calendar years before the date of graduation from the relevant program. Course work may be taken as a graduate student with no graduate credit.
   B. A satisfactory performance on an examination conducted at the University of South Alabama requiring a written translation from the foreign language into English, which examination will last no more than two hours and allow the use of a dictionary. The examination is offered only to matriculated students and must be passed no more than five calendar years before the date of graduation from the relevant program. The text set for translation will be related to the student’s subject area. Programs requiring a foreign language are invited to make recommendations regarding appropriate material to the Department of Foreign Languages and Literatures, which will appoint from its faculty a specialist to be the examiner and to schedule, prepare, administer, and evaluate the examination. The examiner will evaluate the translation as satisfactory or not satisfactory.

8. Thesis
A. A program may require or allow a candidate for the Master’s degree to prepare a thesis. A maximum of nine (9) semester hours of 599 thesis credit may be counted toward meeting the minimum hours required for a degree; some programs may allow fewer than nine hours (see specific program), but no fewer than three (3) hours.

B. The grade of "P" (In Progress) is assigned to thesis credit; upon completion and approval of the thesis by the Dean of the Graduate School, a quality-point grade (A, B, C, D, F) and accumulated credit are assigned.

C. A student on a thesis option program will be required to prepare a thesis prospectus.

D. An oral defense of the thesis is required.

E. The student must be enrolled in at least one hour of thesis during the semester in which the student completes their graduate degree. Normally, thesis students should be enrolled in 599 continuously from inception of the project until final approval of the thesis by the Dean of the Graduate School.

F. See Guidelines for Theses and Dissertations and Standards for Theses and Dissertations below.

REQUIREMENTS FOR THE DOCTOR OF AUDIOLOGY AND DOCTOR OF PHYSICAL THERAPY DEGREES
See appropriate section under College of Allied Health Professionals.

REQUIREMENTS FOR THE EDUCATIONAL SPECIALIST DEGREE
See appropriate section under College of Education.

REQUIREMENTS FOR THE DOCTOR OF PHILOSOPHY DEGREE

1. The specific requirements for the Doctor of Philosophy degree in the Basic Medical Sciences, in Communication Sciences and Disorders, in Instructional Design and Development, and in Marine Sciences vary among the specialties. Each of the four programs leading to the completion of a Ph.D. degree has specific requirements regarding courses, seminars, laboratory studies, directed studies, workshops, and research. In general, a minimum of 60 credits of graduate work will be required for the Ph.D. degree. Transfer of graduate credit from regionally accredited universities may be accepted by certain programs. Prior approval of the college director of graduate studies is required. Only courses with "A" or "B" grades are acceptable for transfer. The quality of the student’s program and performance are emphasized and are considered as important as the fulfillment of requirements. Completion of original research, and writing and defending a dissertation are requirements for the Ph.D. degree.

2. Students who are candidates for the Ph.D. degree must be enrolled for Research Dissertation during the semester in which the open defense of the dissertation is completed, and must be enrolled in at least one hour of Research and Dissertation during the semester in which the student completes their graduate degree.

3. All requirements for a Ph.D. degree must be completed within seven calendar years from admission to a Ph.D. program at the University of South Alabama. Extensions may be granted under appropriate circumstances.

GUIDELINE FOR THESES AND DISSERTATIONS

1. Students who intend to write a thesis or dissertation should consult early in their programs with the department chair or program director/coordinator for a list of Members of the Graduate Faculty from which to select an advisor to supervise and direct their research.

2. If the Member of the Graduate Faculty selected by the student consents to serve as an advisor, then the advisor and student initiate a recommendation for a thesis/dissertation committee using GS Form 4 (8/04).

3. Ph.D. dissertation committees must include at least one Full Member of the Graduate Faculty who is the committee chair and normally the student’s advisor/major professor. A Master’s thesis committee must have a minimum of three members and a dissertation committee must include at least four members of the Graduate Faculty. Both thesis and dissertation committees must have at least one member from outside the student’s department or program. Two-thirds of the committee must be USA faculty.
4. The Dean of the Graduate School is the appointing authority for thesis and dissertation committees. Once the Graduate Dean has appointed the committee, the student prepares a thesis or dissertation prospectus under the direction of the committee.

6. Once a thesis or dissertation committee is appointed by the Dean of the Graduate School, the student may then enroll for 599 Thesis or 799 Dissertation credit with permission of the thesis/dissertation committee chair (advisor or major professor).

7. To be considered for approval by the Dean of the Graduate School, an acceptable thesis or dissertation must be submitted to the Graduate School office by the first submission deadline announced in the University Calendar.

STANDARDS FOR THESES AND DISSERTATIONS
1. A thesis/dissertation should demonstrate that the student has the capacity for original research, facility in the use of the English language, the ability to review appropriate background material, formulate and address (a) significant question(s), obtain, collate, and analyze appropriate data and draw logical conclusions therefrom, and integrate in a meaningful way the new knowledge into the greater body of existing knowledge and state its significance. The final thesis/dissertation must be acceptable to the major professor, a majority of the thesis/dissertation committee, the chair of the student’s department, the college/school director of graduate studies and the Dean of the graduate school.

2. The thesis or dissertation must be an original research and/or creative project. This document will demonstrate the student’s ability to:
   A. Select a topic and delineate a problem that can be studied in terms of time, equipment needs and experimental population available to the faculty sponsor.
   B. Search the literature for relevant studies on the topic of choice.
   C. Organize and analyze the information that is available, using logical and/or statistical analysis appropriate for the project.
   D. Present the results orally and in a written form to the satisfaction of the thesis/dissertation committee and the Graduate Faculty.
   E. Present a final document as the Thesis or Dissertation to the Graduate School Office in an acceptable form and by the procedures outlined in the Guide for Preparing Theses and Dissertations, University of South Alabama.

APPLICATION FOR DEGREE
Each candidate for the Master’s, Educational Specialist’s, Doctor of Audiology, Doctor of Physical Therapy, or Doctor of Philosophy degree must make application for the degree during the semester preceding the semester of graduation, in the Registrar’s Office. The dates are specified in the University Calendar.

INTERDEDISCIPLINARY MASTER OF SCIENCE IN ENVIRONMENTAL TOXICOLOGY
The University of South Alabama offers an interdisciplinary curriculum to teach graduate students the biochemical and physiological processes resulting from the interactions between toxic compounds and the biosphere.

Students in this program will learn to:

- evaluate the impact of specific pollutants in the environment
- perform laboratory and field-tests to monitor environmental pollutants
- control and manage toxic substances
- identify water and air pollutants
- current and new legislation and protocols in this area.
Graduates from this program will be able to work in industrial settings in the areas of Industrial Hygiene, Environmental Health, Environmental Engineering and Toxicology or to continue their education by pursuing a Ph.D. degree in Toxicology or related areas. In addition, these graduates will be qualified for jobs requiring M.S. degrees in their original areas of concentration. For example, a chemist or a chemical engineer will be better qualified to work in a chemical or pharmaceutical company if, in addition to his/her background in chemistry or engineering, the applicant has the training in toxicology to address the environmental impact of the project.

ADMISSION
Students applying to this program must fulfill all the requirements for regular or provisional admission specified by the Graduate School. Additional requirements include:

B.S./B.A. degree from an accredited four-year institution: the program is designed for graduates holding degrees in Biology, Biomedical Sciences, Chemistry, Engineering or related fields.
The GRE will be required and will be considered among the admission criteria. Although no minimum numerical GRE score is required for admission to the program, candidates must perform at the 50th percentile level nationwide (around 500 points in both Verbal and Quantitative components of the test). In addition, students applying to this program must have completed the following undergraduate courses:

- Statistics (1 semester)
- Calculus (1 semester)
- Organic Chemistry (6 credit hours)
- Biochemistry (6 credit hours)
- Any other prerequisites needed for specific courses within each concentration

PROGRAM COMPLETION REQUIREMENTS
A total of 35 credit hours are required for the M.S. degree in Environmental Toxicology, including:

- 17 credit hours of core courses, including:
  - Environmental Statistics (3 credits)
  - Research Integrity (1 credit)
  - Environmental Chemistry (4 credits)
  - Environmental Sociology (3 credits)
  - Ecotoxicology (3 credits)
  - Molecular and Cellular Toxicology (3 credits)

- A Research Thesis (6 credit hours) or a Library Research Project (3 credits hours) on a subject identified jointly by the student and the Advisory Committee.
- 12 credit hours ("Research Thesis" track) or 15 credit hours ("Library Research Project" track) of courses in specific areas of concentration. Students in the "Library Research Project" track must take an extra 3 credit hours to complete the 35 credit hours in the program.

The "Research Thesis" must be completed either at the University of South Alabama or, upon approval by the Advisory Committee, at a government or industrial laboratory in the area.

Students may choose one of the following areas of concentration:

- Biology/Basic Medical Sciences (TXBY)
- Cellular Toxicology (TXCL)
- Chemistry/Chemical Engineering (TXCH)
- Civil Engineering (TXCE)

Each student will be assigned to an advisory committee responsible for designing the curriculum that best fits the student's professional goals. If, in the opinion of the student's committee, the student lack adequate undergraduate preparation, the student will be required to make up such deficiencies.
Upon approval by the Advisory Committee, students will be allowed to take some of the on-line courses offered at Troy State University. In particular, Troy State University will soon offer two courses on-line: ("Environmental Impact and Policy" and "Risk Management") and possibly a third one ("Environmental Ethics, Policy and Law"). The latter course is currently taught on Saturdays (every other week) making it suitable for our students who would like to take it.

DEADLINE FOR APPLICATION FOR ENVIRONMENTAL TOXICOLOGY
Applications are accepted twice a year, in the Fall and Spring semesters by the deadlines indicated in the University of South Alabama Bulletin.

CARLISS, RICHARD D., Assistant Professor of Clinical Laboratory Sciences. B.A., University of New Mexico; M.S., University of Miami; Ph.D., Northwestern University (2004)

CARR, PHILIP J., Assistant Professor of Anthropology. B.A., University of Louisville; M.A., Ph.D., University of Tennessee (1999) (Graduate)

CARSTENS, JAMES F., Assistant Professor of Communication. B.A., Colorado State University; M.A., University of South Florida; Ph.D., University of North Carolina-Chapel Hill (2003)

CARTER, J. SCOTT, Professor of Mathematics-Chair. B.S., University of Georgia; Ph.D., Yale University (1989) (Graduate)

CASTEEl, CAROLYN P., Professor of Department of Leadership and Teacher Education. B.S., M.A., Ed.D., West Virginia University (1981) (Graduate)

CAULEY, LANIER S., Associate Professor of Mechanical Engineering. B.S., M.S., Virginia Polytechnic Institute; Ph.D., Clemson University; PE (AL) (1980)

CEBRIAN, JUST, Assistant Professor of Marine Sciences-MESC. B.S., University of Barcelona; M.S., Universite de Perpignon; Ph.D., Polytechnic University of Catalonia (2000) (Graduate)

CESARINI, PATRICK, Assistant Professor of English. B.A., Amherst College; Ph.D., Rutgers University (2003)

CHAMPANERKA, ABHIJIT A., Assistant Professor of Mathematics and Statistics. B.S., M.S., Bombay University; Ph.D., Columbia University (2004)

CHANG, SEMOON, Professor of Economics; Director. Center for Business and Economic Research. B.A., Seoul National University-Korea; M.A., Southern Illinois University; Ph.D., Florida State University (1972) (Graduate)

CHAPMAN, DEBRA L., Instructor in Computer and Information Sciences. B.S., University of Southern Mississippi; M.S., University of South Alabama (1998)

CHAVASSE, PHILIPPE, Assistant Professor in Foreign Languages and Literatures. B.A., M.A., D.E.A., University of Lumiere Lyon 2; Ph.D., University of Oregon (2005)

CHEN, QIN JIM, Assistant Professor of Civil Engineering. B.S., M.S., Hohai University; Ph.D., Old Dominion University (2000) (Graduate)

CHILTON, LYNN L., Professor of Community/Mental Health Nursing. B.S.N., Marquette University; M.S.N., Mississippi University for Women; D.S.N., University of Alabama-Birmingham (2003)

CHILTON, THOMAS L., Professor of Health, Physical Education and Leisure Studies; Associate Dean, College of Education. B.S., Tennessee Polytechnic Institute; M.A., Tennessee Technological University; Ed.D., University of Tennessee (1972)

CHINKERS, MICHAEL, Associate Professor of Pharmacology. B.S., Penn State University; Ph.D., Vanderbilt University (1998) (Graduate)

CHRISTENSEN, LARRY B., Professor of Psychology-Chair. B.S., M.S., Ph.D., University of Southern Mississippi (1994) (Graduate)

CINKOVICH, ANNA M., Instructor in Biological Sciences. B.S., Southwest Baptist University; M.S., University of West Florida; A.B.D., University of South Alabama (2005)

CIOFFI, EUGENE A., Associate Professor of Chemistry. B.A., M.S., Youngstown State University; Ph.D., University of Connecticut (1998) (Graduate)

CLANTON, CLISTA, Assistant Librarian. B.A., University of Alabama-Huntsville; M.S.L.S., University of North Carolina-Chapel Hill (2002)

CLARK, ANGELA M., Instructor in Computer and Information Sciences. B.S., M.S., University of South Alabama (2001)

CLARK, E. JEAN, Associate Professor of Department of Professional Studies. B.A., Radford College; M.S., Indiana University; Ph.D., Florida State University (1993) (Graduate)

CLARK, MURLENE W., Associate Professor of Geology. A.A., Pensacola Junior College; B.S., M.S., Ph.D., Florida State University (1984)

CLARK, R. KENT, Professor of Physics. B.S., University of Alabama; M.S., Ph.D., Florida State University (1986) (Graduate)

CLEFTERDON, JOHN H., Professor Emeritus of Art and Art History (1964-1998)

COGGIN, JOSEPH H., Jr., Professor of Microbiology and Immunology-Chair. B.S.,
Vanderbilt University; M.A., University of Tennessee; Ph.D., University of Chicago (1977) (Graduate)

COHEN, ADAM M., Assistant Professor of English. B.A., Stanford University; Ph.D., University of Virginia (2002) (Graduate)

COHEN, MICHAEL V., Professor of Medicine and Physiology. AB, Harvard University; MD, Harvard Medical School (1991) (Graduate)

COKER, JOHN C., Associate Professor of Philosophy-Chair. B.A., University of Iowa; J.D., Ph.D., University of Illinois (1986) (Graduate)

COLEMAN, ROBERT L., Assistant Professor of English. B.S., M.A., Virginia Commonwealth University; Ph.D., Rutgers University (1999) (Graduate)

CONLON, JAMES E., Professor Emeritus of Art and Art History (1965-1997)

CONNORS, JAMES J., Instructor in Earth Sciences. B.S., University of South Alabama; M.S., University of Alabama (2005)

COOPER, CATHERINE M., Clinical Instructor in Radiologic Sciences. B.S., University of South Alabama (2000)

COVEY, PAT C., Professor of Biomedical Sciences; Senior Vice President for Academic Affairs. B.A., University of North Carolina at Asheville; Ph.D., Clemson University (1975) (Graduate)

CRITZ, STUART D., Assistant Professor of Cell Biology and Neuroscience. B.S., University of Massachusetts; M.S., Northeastern University; Ph.D., University of Texas (1993) (Graduate)

CROAKE, JAMES W., Professor of Psychiatry; Professor of Psychology. B.A., M.A., Central Washington University; Ph.D., Washington State University (1989)

CROZIER, GEORGE F., Associate Professor of Marine Sciences. B.S., Loyola University; M.S., Ph.D., University of Georgia (1966)

CRUMB, CYNTHIA A., Instructor in Mathematics. B.A., Oklahoma State University; M.A., University of Texas-Arlington (1992)

CULP, MARY BETH. Professor Emeritus of Curriculum and Instruction (1969-1999)

CURRY, LYNDAL, Instructor in Emergency Medical Services. B.A., Auburn University; University of South Alabama Paramedic Certificate (2002)

DAGENAIS, PAUL, Professor of Speech Pathology and Audiology-Chair. B.S., University of Ottawa; M.A., Northern Michigan University; Ph.D., University of Tennessee (1990) (Graduate)

DAIGLE, ROY J., Professor of Computer and Information Sciences. ISC Coordinator and Director of CIS Graduate Studies. B.S., Nicholls State University; M.S., University of Southwest Louisiana; Ph.D., University of Georgia (1981) (Graduate)

DALE, BARRY. Assistant Professor of Physical Therapy. B.S.P.T., University of South Alabama; M.A.E., University of Alabama-Birmingham; Ph.D., University of Alabama (2002) (Graduate)

DALEY, MICHAEL R., Professor of Social Work and Director of Social Work Program. B.A., Rice University; M.S.W., University of Houston; Ph.D., University of Wisconsin, Madison (2004)

DANIELS, SHERRY, Associate Professor of Adult Health Nursing; Adult Health Nursing-Chair. B.S.N., University of South Alabama; M.S.N., University of Alabama-Birmingham; D.S.N. (1981) (Graduate)

DANNEKER, PEGGY J., Instructor in Department of Leadership and Teacher Education. B.A., Brescia University; M.A. Governors State University; Ed.S., Illinois State University (2004)

DARDEAU, GENEVIEVE M., Instructor in Communication. B.A., Auburn University; M.A., Florida State University (2000)

DAUGHERTY, JOHN FRANKLIN, Instructor in English As A Second Language and Program Coordinator. B.A., Duke University; M.A., Lincoln Memorial University; Ed.D., University of Tennessee-Knoxville (1996) (Graduate)

DAUGHERST, RICHARD L., Professor of Department of Professional Studies. B.S., Northland College; M.A., University of Kansas; M.S.L.S., University of Alabama; Ph.D., University of Wisconsin (1978) (Graduate)

DAUGHERTY, JOHN FRANKLIN, Instructor in English As A Second Language and Program Coordinator. B.A., Duke University; M.A., Tulane University; M.A., Yale University; M.A., University of Southern Mississippi (1996)

DAVIDSON-SHIVERS, GAYLE V., Professor of Department of Professional Studies. B.S., Oregon State College of Education; M.A., Ph.D., University of Minnesota (1992) (Graduate)

DAVIS, DEBRA C., Professor of Adult Health Nursing; Dean, College of Nursing. B.S., University of Alabama-Birmingham (1990) (Graduate)

DAVIS, JAMES H., JR., Associate Professor of Chemistry. AB, University of North Alabama; Ph.D., Vanderbilt University (1995)
DAVIS, PATRICIA M., Instructor in Chemistry. B.A., Rosemont College; M.S., Brandeis University (1998)

DAVIS, WILLIAM B., Professor of Biomedical Sciences; Associate Professor of Microbiology. B.A., University of Mississippi; Ph.D., University of Mississippi-Jackson (1974)

DEARMAN, CATHERINE N., Professor of Maternal Child Nursing-Chair. B.S.N., Mississippi University for Women; M.S.N., University of Alabama-Birmingham; Ph.D., University of Mississippi (2000) (Graduate)

DELANEY, CYNTHIA LEIGH, Instructor in Biological Sciences. B.S., University of West Florida; M.S., University of South Alabama (1999)

DELMUS, JULIE M., Assistant Professor of Psychology. B.A., M.S., University of Alabama; Ph.D., University of Mississippi (2000)

DEMPSEY, JOHN V., Professor of Department of Professional Studies-Chair. B.S., Florida A & M University; M.S., Ph.D., Florida State University (1989) (Graduate)

DENTON, LEO F., Instructor in Computer and Information Sciences. B.A., Pontifical College Josephinum; M.S., University of South Alabama (2000)

DHAWAN, JAGDISH C., Professor of Chemical Engineering. B.Sc.Ch.E., M.Sc.Ch.E., Technological Institute, Kanpur; Ph.D., University of Mississippi (1983) (Graduate)

DICKENS, ROSS N., Professor of Finance. B.S., Presbyterian College; MBA, University of North Carolina; Ph.D., University of Tennessee (1998) (Graduate)

DILSAVER, LARY M., Professor of Geography. B.A., M.A., California State University-Hayward; Ph.D., Louisiana State University (1982) (Graduate)

DIXON-WORKS, DIANE, Assistant Professor of Physician Assistant Studies. B.S., M.A., University of Alabama-Birmingham; M.Msc., Emory University (1997) (Graduate)

DONOVAN, FRANCIS M., Jr., Professor of Mechanical Engineering-Interim Chair. B.S., Mississippi State University; M.S., Virginia Polytechnic Institute; Ph.D., Purdue University; PE: (AL, FL, MS) (1983) (Graduate)

DORAN, MICHAEL V., Professor of Computer and Information Sciences and CSC Coordinator. B.S.C.S., M.E., Ph.D., Tulane University (1989) (Graduate)

DOUGHERTY, FRANCES CARROLL, Assistant Professor of Mechanical Engineering. B.S., Purdue University; M.S., Ph.D., Stanford University (1998) (Graduate)

DOUGLAS, GEORGE W., Professor Emeritus of Mechanical Engineering (1980-1995)

DOUGLASS, SCOTT L., Professor of Civil Engineering. B.S., Virginia Polytechnic Institute; M.S., Mississippi State University; Ph.D., Drexel University; PE, (NJ) (1989) (Graduate)

DOWNEY, JAMES M., Professor of Physiology. B.S., Manchester College; M.S., Ph. D., University of Illinois (1975) (Graduate)

DUPREE-TAYLOR, APRIL Y., Instructor in Communication. B.S., M.S., University of Southern Mississippi (1998)

DURANT, DAVID Z., Assistant Professor of Music. B.M., M.M., University of Florida; D. M.A., University of Alabama (2003)

DURICK, DEBRA ANN, Assistant Professor of Clinical Radiologic Sciences. B.S., University of Alabama-Birmingham; M.P.A., University of South Alabama (1992)

DYESS, DONNA LYNN, Associate Professor of Surgery. B.S., Auburn University; MD, University of South Alabama (1987) (Graduate)

EL-SABA, AED M., Assistant Professor of Electrical and Computer Engineering. B.S., Louisiana Tech University; M.S., University of New Orleans; Ph.D., University of Alabama in Huntsville (1999) (Graduate)

ELLIOTT, CATHERINE R., Instructor in Accounting. B.A., University of West Florida; M.Acc., University of South Alabama (1997)

ELLIS, DAVID N., Professor of Department of Leadership and Teacher Education. B.S., M.A., University of Alabama; Ph.D., Vanderbilt University (1991) (Graduate)

ENGBRETSON, MARY, Senior Librarian; Coordinator of Public Services. B.A., Luther College; M.A., University of Denver; M.B.A., Arizona State University (1985)

ENGIN, ALI E., Professor of Mechanical Engineering. B.S., Michigan State University; M.S., Ph.D., University of Michigan (1995) (Graduate)

EPELEY, DONALD R., Ben May Distinguished Professor of Real Estate and Professor of Marketing. B.A., M.A., Whichita State University; Ph.D., University of Missouri-Columbia (2005)

ESTIS, JULIE M., Assistant Professor of Speech Pathology and Audiology. B.S., M.S., Ph.D., University of South Alabama (2004)

EVANS, W. BRYCE, Professor Emeritus of Speech Pathology and Audiology (1967-1999)
FANTONI, CHRISTIAN F., Assistant Professor of Foreign Languages and Literatures. B.A., M.A., University of Nice, France; M.A., University of Toronto; Ph.D., University of Paris III, Sorbonne Nourelle, France (2004)

FARMER, SONNAL, Instructor in Mathematics and Statistics. B.S., M.S., Mississippi State University (2004)

FARMER, JOSEPH E., Clinical Assistant Professor of Community Mental Health Nursing. B.S.B.A., University of Arizona; B.S.N., University of Mississippi; M.S.N., University of Southern Mississippi (2004)

FAUST, ROBERT E., Instructor in History. B.S., Manchester College; M.A., Ball State University; Ph.D., University of Missouri-Columbia (2003)

FEARN, MIRIAM L., Associate Professor of Geography. B.S., University of South Alabama; Ph.D., Louisiana State University (1996) (Graduate)

FEINSTEIN, DAVID L., Professor of Computer and Information Sciences; Dean of the School of Computer and Information Sciences. B.S., Brown University; M.S., Ph.D., Stanford University (1980) (Graduate)

FELDMAN, PHILLIP, Professor of Department of Leadership and Teacher Education-Chair; Associate Dean, College of Education. B.A., University of Mississippi; M.Ed., Ed. D., Memphis State University (1978) (Graduate)

FELDVOSS, JÖRG, Assistant Professor of Mathematics and Statistics. M.A., Ph.D., University of Hamburg (2003)

FELL, DENNIS W., Associate Professor of Physical Therapy-Chair; Associate Professor of Biomedical Sciences. B.S., B.S.P.T., MD, University of South Alabama (1992) (Graduate)

FICICI, ABDULLAH, Assistant Professor of Department of Leadership and Teacher Education. B.S., Bogazici University; M.A., Ph.D., University of Connecticut (2004)

FIELDS, PHILIP A., Associate Professor of Cell Biology and Neuroscience. B.S., University of Florida; M.S., Ph.D., Texas A & M University (1980) (Graduate)

FILER, JOHN E., Professor of Finance. B.A., University of Northern Colorado; M.A., University of Oklahoma; M.A., Ph.D., University of Chicago (1987)

FINLEY, VERA L., Senior Librarian. B.A., Fisk University; M.S.L.S., Atlanta University (1985)

FISHER, ALMA, Instructor Emeritus in Music (1965)

FISHER, SAMUEL H., III, Associate Professor of Political Science. B.A., Trinity University; M.A., Ph.D., University of Alabama (1989) (Graduate)

FISHMAN, ETHAN M., Professor of Political Science. B.A., Harpur College; M.A., SUNY-Binghamton; Ph.D., Duke University (1980) (Graduate)

FLYNN, NICOLE T., Assistant Professor of Sociology. B.A., M.A., College of William and Mary; Ph.D., Louisiana State University (1998) (Graduate)

FLYNN, W. RANDOLPH, Professor of Management; B.S., M.S., California State University; Ph.D., University of Colorado (1988) (Graduate)

FOGGER, SUSANNE E., Clinical Assistant Professor of Community-Mental Health Nursing. B.S., Wayland Baptist University; M.S.N., University of South Alabama (2003) (Graduate)

FOLEY, ROBERT C., Instructor; Assistant Dean of Engineering. B.S., U. S. Coast Guard Academy; M.S., Purdue University (1998)

FOLSE, DEBRA LANDRY, Instructor in Marketing and E-Commerce. B.A., M.B.A., Southeastern Louisiana University; MSCIS, University of South Alabama (2003)

FORBES, DAVID, Associate Professor of Chemistry. B.S., University of Florida; Ph.D. University of Illinois (1998)

FORBUS, PHILIP R., Associate Professor of Economics. B.A., M.A., Ph.D., University of Arkansas (1978) (Graduate)

FORNARO, ROBERT J., Professor of Anthropology; Director, International Programs and Development. B.A., Ph.D., Syracuse University (1975)

FOSTER, JOHN W., Associate Professor of Microbiology. B.S., Philadelphia College of Pharmacy and Science; M.S., Ph.D., Hahnemann University (1979) (Graduate)

FREEMAN, JOHN A., Professor of Biology-Chair. B.S., Florida State University; M.S., University of New Orleans; Ph.D., Duke University (1980) (Graduate)

FREGEAU, LAUREN A., Associate Professor of Department of Professional Studies. B.S., Stonehill College; M.A., University of Massachusetts at Boston; Ph.D., Pennsylvania State University (1994) (Graduate)

FRESNE, JEANNETTE, Assistant Professor of Music. B.MUS., University of Texas at Austin; M.M., Southwest Texas State University; Ph.D., Arizona State University (2002)

FRUH, SHARON M., Assistant Professor of Community/Mental Health Nursing. B.A., Bethany College; M.S., Rush University; Ph.D., University of Illinois (2001) (Graduate)

FUNKHOUSER, JANET D., Professor of Biochemistry and Molecular Biology. B.S., Ph.D., University of Arkansas (1976) (Graduate)
GALAKTIONOVA, ELENA. Assistant Professor of Mathematics and Statistics. M.S., Belorussian University, Minsk; M.S., Ph.D., University of Massachusetts-Amherst (2002)

GAMBLE, JOHN E. Associate Professor of Management. Associate Dean, Mitchell College of Business. B.S., M.S., Ph.D., University of Alabama (1996) (Graduate)

GANDY, JANICE K., Instructor in Art, Northern Colorado University; M.A., Arizona State University (1973)

GARD, ANTHONY L., Associate Professor of Cell Biology and Neuroscience. B.S., Ph. D., University of Iowa (1990) (Graduate)

GARDNER, WILLIAM A., JR., Professor Emeritus of Pathology

GARMON, DAVID F., Instructor in Emergency Medical Services Education. B.S., M.A., University of Alabama at Birmingham (1998)

GARTMAN, W. DAVID, Professor of Sociology. B.A., University of Houston; M.A., University of California-San Diego; Ph.D., University of California - San Diego (1980) (Graduate)

GAUBATZ, JAMES W., Associate Professor of Molecular Biology. B.S., M.S., University of Houston; Ph.D., University of Texas at Dallas (1979) (Graduate)

GILES, REBECCA M., Associate Professor of Department of Leadership and Teacher Education. B.S., Southwest Texas State University; M.Ed., University of Texas at Austin; Ph.D., University of Southern Mississippi (1998) (Graduate)

GILLESPIE, MARK N., Professor of Pharmacology-Chair. B.G.S., Ph.D., University of Kentucky (1995) (Graduate)

GILLEY, WILLIAM F., Professor of Health, Physical Education and Leisure Studies. B.S., M.S., Ed.D., University of Tennessee (1970) (Graduate)

GILLIGAN, MARIE AARON, Clinical Assistant Professor of Adult Health Nursing. B.S. N., M.S.N., University of South Alabama (2002)

GODFREY, ALICE J., Assistant Professor of Community/Mental Health Nursing. B.S. N., Emory University; M.P.H., University of North Carolina (1977) (Graduate)

GOU, JIHUA, Assistant Professor of Mechanical Engineering. B.S., M.S., Chongqing University; Ph.D., Shanghai Jiao Jong University; Ph.D., Florida State University. (2002) (Graduate)

GRAHAM, WILLIAM M., Associate Professor of Marine Sciences. Ph.D., University of California-Santa Cruz (1996) (Graduate)

GRAY, CHARLES, Assistant Professor of Clinical Physical Therapy and Assistant Professor of Occupational Therapy. B.S., Ithaca College; M.A., University of Alabama-Birmingham (1976) (Graduate)

GRAY, DAVID L., Associate Professor of Department of Leadership and Teacher Education. B.S., M.Ed., Frostburg State University; Ed.D., University of Alabama (1997) (Graduate)

GRUNER, GREG L., Professor of Music-Chair. B.M.E., New Mexico State University; M.M.E., Indiana University; D.A., Ball State University (1993)

GUENDOUZI, JACQUELINE A., Associate Professor of Speech Pathology and Audiology. B.A., Ph.D., Cardiff University (2004)

GUEST, CHARLES L., Jr., Associate Professor of Department of Professional Studies. B.S., University of Southern Mississippi; M.S., Ph.D., Mississippi State University (1996) (Graduate)

GUION, C. DENNIS, Associate Librarian/Head of Circulation/Reserves. B.A., Pan American University; M.L.S., Drexel University (2004)

GUNGOR, R. BEHIC, Professor Emeritus of Electrical Engineering (1975-1995)

GURCHIEK, LARRY R., Professor of Health, Physical Education and Leisure Studies. B.S., M.S., Indiana State University; Ph.D., Middle Tennessee State University (1994) (Graduate)

GUZY, ANNMARIE, Assistant Professor of English. B.S., M.A., Southern Illinois University at Edwardsville; Ph.D., New Mexico State University (1999) (Graduate)

HAIN, THOMAS F., Associate Professor of Computer and Information Sciences. B.Sc. (Hons), M.Sc., Melbourne University-Australia; M.S., Polytechnic University; Ph.D., Auburn University (1992) (Graduate)

HALL, HEATHER R., Clinical Assistant Professor of Maternal/Child Nursing. B.S.N., M.S.N., University of South Alabama (2004) (Graduate)

HALL, HOLLY K., Associate Professor of Clinical Laboratory Sciences-Chair; Adjunct Associate Professor of Biomedical Sciences; and Adjunct Associate Professor of Immunology-Microbiology. B.S., University of Southern California; M.B.A., Central Michigan University; Ph.D., University of South Alabama (1976)

HAMID, MICHAEL, Professor of Electrical Engineering. B.S., M.S., McGill University-
Canada; Ph.D., University of Toronto-Canada (1990) (Graduate)
HAMILTON, KAREN, Clinical Assistant Professor of Community/Mental Health Nursing. B.S.N., M.S.N., University of South Alabama (1996) (Graduate)
HAMILTON, MARSHA L., Assistant Professor of History. B.A., Purdue University; M.A., University of California at Riverside; Ph.D., State University of New York at Stonybrook (2003)
HAMILTON, WILLIAM J., Professor of Neurology. B.S., Purdue University; M.A., Ball State University; D.O., College of Osteopathic Medicine and Surgery (1985)
HANKS, ROMA S., Associate Professor of Sociology; Director-USA Programs in Gerontology. B.A., David Lipscomb College; M.A., Georgia Peabody College-Vanderbilt University; Ph.D., University of Delaware (1991) (Graduate)
HANNUM, ELLWOOD B., Professor of History; Associate Dean, School of Continuing Education and Special Programs. B.A., University of the South; M.A., Ph.D., University of South Carolina (1970)
HARKINS, WILLIAM J., Professor Emeritus of Political Science (1967-85)
HARRINGTON, ELLEN B., Assistant Professor of English. B.A., Fordham University; M.A., Ph.D., Tulane University (2002) (Graduate)
HARRIS, MARY JO, Professor Emeritus of Education
HARRISON, B. KEITH, Professor of Chemical Engineering-Chair. B.S., M.S., Georgia Institute of Technology; Ph.D., University of Missouri (1986) (Graduate)
HARRISON, CAROL H., Professor Emeritus of Adult Health Nursing (1973-1995)
HARRISON, EDWARD L., Professor of Management. B.A., Henderson State University; M.B.A., Southern Methodist University; Ph.D., University of North Texas (1974) (Graduate)
HAYES, RUSSELL M., Jr., Professor Emeritus of Electrical Engineering (1973-1995)
HAYNES, LINDA L., Assistant Professor of Department of Professional Studies. B.B.A., Faulkner University; M.S., Ph.D., University of South Alabama (2003)
HAYWICK, DOUGLAS W., Associate Professor of Geology, Adjunct Associate Professor of Marine Sciences. B.Sc., McMaster University; M.S., Memorial University of Newfoundland; Ph.D., James Cook University-Australia (1991) (Graduate)
HEAVER, TRACY LEE, Associate Professor of Music. B.M.E., M.M.E., Appalachian University; D.M.E., University of North Colorado (1995) (Graduate)
HECK, KENNETH J., Jr., Professor of Marine Sciences-MESC; Adjunct Professor of Biology. B.S., University of West Florida; M.S., Ph.D., Florida State University (1986) (Graduate)
HELMINGER, PAUL, Professor of Physics. B.S., North Carolina State University; Ph.D., Duke University (1973) (Graduate)
HENDERSON, JAMES D., Associate Professor of Physician Assistant Studies. B.S., Spring Hill College; B.S.Pharm., Auburn University; Ph.D., Emory University (1996) (Graduate)
HERBERT, DONALD, Professor of Radiology. B.S., Northwestern University; M.S., University of Oklahoma; Ph.D., University of London (1975) (Graduate)
HESTER, RAYMOND B., Associate Professor of Microbiology and Immunology. B.S., Millsaps College; M.S., Ph.D., University of Mississippi (1985) (Graduate)
HILL, ALETHEA, Clinical Assistant Professor of Adult Health Nursing. B.S.N., M.S.N., University of South Alabama (2004)
HILL, HAROLD FREDERICK, Jr., Assistant Professor of Clinical Cardiorespiratory Care. AA, Piedmont Community College; B.A., University of California-Santa Barbara (1980)
HOFFMAN, LEE M., Professor Emeritus of Art and Art History (1968-1999)
HOFFMAN, NORRIS W., Associate Professor of Chemistry. B.S., University of Florida; Ph.D., Stanford University (1983)
HOGAN, MICHAEL V., Associate Professor of Clinical Laboratory Sciences. B.S., Benedictine University; Ph.D., Loyola University (2004)
HOLLINGSWORTH, CRISTOPHER, Assistant Professor of English. B.A., Amherst College; M.A., Rutgers University; Ph.D., Rutgers University (2003)
HOLLOWAY, BRENDA J., Clinical Assistant Professor of Community/Mental Health Nursing. B.S.N., University of Mississippi; M.S.N., Mississippi University for Women (1989) (Graduate)
HOLM, ROBERT, Assistant Professor of Music. B.A., Pt. Loma Nazarene College; M.M., DMA, University of Illinois (1997)
HOLMES, LARRY E., Professor of History. B.A., McPherson College; M.A., Eastern New Mexico University; Ph.D., University of Kansas (1968) (Graduate)

HONKANEN, RICHARD E., Assistant Professor of Biochemistry and Molecular Biology. B.S., Ph.D., University of Georgia (1993) (Graduate)

HOPKINS, W. SCOTT, Professor of Department of Leadership and Teacher Education. B.S., East Central University; M.S., Northeastern State University; Ed.D., Oklahoma State University (1993) (Graduate)

HORENSTEIN, MARCELO, Assistant Professor of Pathology. B.S., Central University College, Mendoza, Argentina; MD, National University, Mendoza, Argentina (1998)

HOSSAIN, AKHTER B., Assistant Professor of Civil Engineering. B.S., M.Sc.Eng., Bangladesh University of Engineering and Technology; M.S., University of Cincinnati; Ph.D., Purdue University (2003)

HOUSTON, W. ROBERT, Associate Professor of History; Adjunct Assistant Professor of Military Science. B.A., Florida State University; M.A., Ph.D., Rice University (1968) (Graduate)

HOWARD, JOHN C., Instructor in Management. B.S., M.S., University of Maine; M.B.A., University of PA-Wharton School (2003)

HSIAO, KUANG-TING, Assistant Professor of Mechanical Engineering. B.S., National Taiwan University; Ph.D., University of Delaware (2003)

HSU, KO-CHENG, Associate Professor of Accounting. B.S., M.S., Illinois State University; M.S., Iowa State University; Ph.D., Memphis State University (1993) (Graduate)

HUBBARD, DAPHNE, W., Assistant Professor of Department of Leadership and Teacher Education. B.A., M.Ed., Ph.D., University of Alabama (2001) (Graduate)

HUDDLESTON, H. TED, Professor Emeritus of Chemical Engineering (1981-2002)

HUDSON, C. KENNETH, Assistant Professor of Sociology, B.A., University of Mobile; M.S.S.W., M.A, University of Louisville; Ph.D., University of North Carolina, Chapel Hill (2005)

HUDSON, VERONICA S., Clinical Assistant Professor of Maternal/Child Nursing. B.S.N., M.S.N., University of Mobile (2004)

HUGHES, DANNY R., Instructor in Economics and Finance. B.S., Georgia Institute of Technology; A.B.D., University of Georgia (2004)

HUSAIN, ZOHAIR, Associate Professor of Political Science. B.A., Schiller College; M.A., Ph.D., University of Pennsylvania (1986) (Graduate)

ICENOGLIE, MARJORIE L., Professor of Management-Chair. B.A., Indiana State University; M.S., Ph.D., Georgia State University (1994) (Graduate)

INGRAM, KATHLEEN W., Assistant Professor of Department of Professional Studies. B.S., University of Florida; M.A., University of Central Florida; Ph.D., Florida State University (2002) (Graduate)

IRION, GLENN L., Associate Professor of Physical Therapy. B.A., M.Ed., Temple University, B.S., University of Central Arkansas; Ph.D., Temple University - School of Medicine (2002) (Graduate)

IRION, JEAN M., Assistant Professor of Physical Therapy. B.S., West Virginia University; B.S., M.Ed., Temple University; Ed.D., University of Arkansas Little Rock (2004)

ISPHORDING, WAYNE C., Professor of Geology. B.S., M.S., University of Florida; Ph.D., Rutgers University (1966) (Graduate)

ITAYA, STEPHEN K., Professor of Biomedical Sciences-Chair. Adjunct Associate Professor of Cell Biology and Neuroscience. B.S., Washington University; Ph.D., University of Tennessee (1987) (Graduate)

JACKSON, KERN M., Assistant Professor of English. B.A., University of Virginia; M.A., University of Wisconsin; Ph.D., Indiana University (2004)

JACKSON, THOMAS G., Professor of Chemistry; Director-Preprofessional Health Program. B.S., M.S., University of Southern Mississippi; Ph.D., University of Tennessee (1965)

JACOBS, MICHAEL B., Clinical Assistant Professor of Adult Health Nursing. B.S.N., M.S.N., University of South Alabama (1999) (Graduate)

JALKH, CHUCRI M., Instructor in Clinical Radiologic Sciences. B.S., University of South Alabama (1993)

JEFFERSON, JOHN R., Assistant Professor of Physical Therapy. B.A., Dalhousie University; B.S., University of Toronto; M.S., University of Waterloo (1994) (Graduate)

LOVE, SylVIA, Clinical Assistant Professor of Adult Health Nursing. B.S.N., Troy State University; M.E.D., Auburn University in Montgomery; M.S.N., Troy State University (1998) (Graduate)
MACALUSO, LEONARD, Associate Professor of History. A.B., M.A., Emory
MACINTYRE, HUGH L., Assistant Professor of Marine Sciences. B.A., Cambridge University; M.A., University of Texas-Austin; Ph.D., University of Delaware (2003) (Graduate)

MAES, JEANNE D., Professor of Management. B.S., State University of New York; M.A., University of South Alabama; Ph.D., University of Southern Mississippi (1989) (Graduate)

MAJOR, CLINTON SMOOT, Laboratory Instructor in Biology. B.A., College of Atlantic; M.S., University of Maine (2003)

MAJOR, KELLY M., Assistant Professor of Biology. B.S., Elmira College; Ph.D., University of Maine (2001) (Graduate)

MAJORS, SARA C., Clinical Assistant Professor of Maternal Child Nursing. B.S., M.P.H., University of Alabama in Birmingham (1999) (Graduate)

MARK, PATRICIA F., Assistant Professor of Communication. B.A., M.B.A., University of South Alabama; Ph.D., University of Southern Mississippi (2004)

MATA, JUAN LUIS, Assistant Professor of Biology. B.S., M.S., University of Costa Rica; Ph.D., University of Tennessee (2004)

MATRE, MARC DAVID, Associate Professor of Sociology. B.A., Miami University; M.A., Ph.D., Ohio State University (1977) (Graduate)

MATTICS, LEON E., Professor Emeritus of Mathematics (1967-1997)

MCADORY, DENISE, Assistant Professor of Sociology. B.A., Knoxville College; M.A., University of South Alabama; M.A., Mobile College; Ph.D., Union Institute (1995)

MCCREADIE, JOHN W., Assistant Professor of Biological Sciences. B.S., University of Guelph; M.S., Ph.D., Memorial University of Newfoundland (1999) (Graduate)

MCCREADY, SUSAN E., Associate Professor of Foreign Languages and Literatures. B.A., Swarthmore College; M.A., Ph.D., University of Pennsylvania (1998) (Graduate)

MCDONALD, DANIEL, Professor Emeritus of English (1966-1992)

MCFADDEN, ALESDIA E., Instructor in English. B.S., Alabama State University; M.Ed., University of South Alabama; A.B.D., University of Massachusetts-Amherst (2004)

MCGILL, SUZANNE, Associate Professor of Mathematics. B.A., University of St. Thomas; M.S., Ph.D., Texas Christian University (1972)

MCGUINNESS, TEENA M., Associate Professor of Community-Mental Health Nursing. B.S.N., Old Dominion University; M.S.N., Virginia Commonwealth University-Medical College of Virginia; Ph.D., University of Pittsburgh (1997) (Graduate)

MCHANLEY, DONNA F., Clinical Assistant Professor of Adult Health Nursing. B.S., University of South Alabama; A.D.N., B.S.N., M.S.N., University of Mobile (2003)

MCINTOSH, P. IRENE, Associate Professor of Department of Professional Studies. B.S., M.S., Ph.D., University of Southern Mississippi; (1996) (Graduate)

MCIVER, DOROTHY JEAN P., Professor of English; Director, African-American Studies Program. A.B., Miles College; M.A., Atlanta University; Ph.D., University of Alabama (1985) (Graduate)

MCKENNA, FREDERICK W., Assistant Professor of Finance. Diploma, College of Technology-Dublin; M.Sc., University of Dublin; Ph.D., University of South Carolina (1985)

MCKINNEY, DAWN, Instructor in Computer and Information Sciences. B.A., M.S.-C.S., University of South Alabama (1998)

MCKIVEN, HENRY M., Jr., Associate Professor of History. B.S., Auburn University; M.A., Virginia Polytechnic Institute; Ph.D., Vanderbilt University (1991) (Graduate)

MCLAUGHLIN, BECKY R., Assistant Professor of English. B.A., Goshin College; M.A., University of Arkansas; Ph.D., SUNY-Buffalo (1999) (Graduate)

MCPHERSON, JEANNE, Assistant Professor of Communication. B.A., Purdue University; M.A., University of Florida; Ph.D., University of Colorado-Boulder (2003)

MEEEKER, KEVIN, Associate Professor of Philosophy. B.A., Wheaton College; M.A., Ph.D., University of Notre Dame (2000) (Graduate)

MENON, MOHAN, Professor of Marketing and E-Commerce-Chair. B.B.A., Madurai University; M.B.A., University of Madras; D.B.A., Memphis State University (1991) (Graduate)

MERRITT, BARBARA, Instructor in Chemistry. B.S., University of Wisconsin (1998)

MEYER, THOMAS W., Clinical Assistant Professor of Adult Health Nursing. B.S., M.S., University of South Alabama (2002)

MILLER, HARRISON S., Assistant Professor of History. B.A., Wesleyan University; M.A., Ph.D., Columbia University (2003)

MILLER MARGARET W., Professor Emeritus of Biology (1964-2000)
MILLER, MELBA M., Professor Emeritus of Special Education
MILLER, MOIRA, Assistant Professor of English, B.A., University of New Mexico; M.A., New Mexico State University; Ph.D., Miami University (2003)
MILLNER, VAUGHN S., Assistant Professor of Department of Professional Studies. B.S., University of Alabama; M.S., University of South Alabama; Ph.D., Auburn University (2001) (Graduate)
MISHRA, NUTAN, Assistant Professor of Mathematics and Statistics. B.Sc., M.Sc., Ph. D., Indore University, Indore, India (2002)
MISHRA, SATYA N., Professor of Statistics. B.Sc., University of Gorakhpur (India); M. Sc., Banaras Hindu University-India; M.A., University of Massachusetts; M.S., Ph.D., Ohio State University (1982) (Graduate)
MISRA, MANISH, Assistant Professor of Chemical Engineering. B.S., Institute of Technology, Banaras Hindu University; M.S., Ph.D., University of Texas (2003)
MOBERG, MARK, Professor of Anthropology. B.S., University of Iowa; M.A., Ph.D., University of California-Los Angeles (1989) (Graduate)
MOHR, CLARENCE L., Professor of History-Chair. A.B., Birmingham Southern College; M.A., Ph.D., University of Georgia (1998) (Graduate)
MOLLISE, DOROTHY C., Associate Professor of Developmental Studies-Chair. B.A., Emory University; M.Ed., Ph.D., Georgia State University (1990)
MONHEIT, MICHAEL L., Associate Professor of History. B.A., University of California; M.A., Ph.D., Princeton University (1991) (Graduate)
MOORE, CARL C., Professor of Management; Dean, Mitchell College of Business. B.S., M.A., Ph.D., University of Alabama (1971) (Graduate)
MOORE, ROBERT E., Assistant Professor of Speech Pathology and Audiology. B.A., M.A., Ph.D., University of Tennessee (2001) (Graduate)
MORGAN, CYNTHIA L., Clinical Assistant Professor of Maternal Child/Health Nursing. B.S.N., M.S.N., University of Tennessee (2003)
MORISANI, STEPHEN J., Assistant Professor of Chemical Engineering. B.S., Carnegie-Mellon University; M.S., Ph.D., University of Rhode Island (1982)
MORRIS, STEPHEN D., Professor of Political Science; Director of International Studies. B.A., M.A., University of Arizona (1989) (Graduate)
MORROW, JOHN E., Professor Emeritus of Education (1965-1997)
MOSLEY, DONALD C., Jr., Assistant Professor of Management. B.A., Millsaps College; M.B.A., University of South Alabama; Ph.D., Mississippi State University (2000)
MOSLEY, DONALD C., Sr., Professor Emeritus of Management (1973-1999)
MOULTON, V. GORDON, President. B.S., Georgia Institute of Technology; M.B.A., Emory University (1966) (Graduate)
MULEKAR, MADHURI S., Professor of Statistics. B.Sc., M.Sc., University of Bombay; Ph.D., Oklahoma State University (1990) (Graduate)
MUNN, MARY, Assistant Professor of Obstetrics and Gynecology. B.S., Springhill College; M.D., Tulane University (1998)
MURDICK, KENT G., Instructor in Mathematics and Statistics. B.M., Peabody Conservatory of Music; M.S., Nova University; M.S.T., Florida Atlantic University (2004)
MYERS, CHARLENE M., Clinical Assistant Professor of Adult Health Nursing. B.S.N., M.S.N., University of South Alabama (1995) (Graduate)
MYLES, HATTIE M., Assistant Dean, College of Medicine (1994)
NAIR, M. G., Professor of Biochemistry and Molecular Biology. B.S., M.S., Kerala University; Ph.D., Florida State University (1973) (Graduate)
NELSON, DAVID H., Associate Professor of Biology. B.A., M.A., Baylor University; Ph. D., Michigan State University (1977) (Graduate)
NELSON, RONALD, Assistant Professor of Political Science/Criminal Justice. B.S., Texas & A&M College Station, Tx; J.P., University of Miami-Law School, Coral Gables, FL.; M.A., New School of Social Research, N.Y.; Ph.D., University of Texas at Austin.
NEŞTIEL, RICHARD O., Assistant Professor of Physician Assistant Studies-Chair. B.S., Pennsylvania State University; B.S., University of Alabama-Birmingham; M.B.A., University of South Alabama (1996) (Graduate)
NEWELL, CHARLES W., Associate Professor of Radiologic Sciences-Chair. B.S., William Carey College; M.S., University of Southern Mississippi; R.T., Providence Hospital; Ed.D., Auburn University (1976)
NEWMAN, JOSEPH W., Professor of Department of Professional Studies-Chair. A.B., Emory University; M.Ed., Ph.D., Georgia State University (1977) (Graduate)

NGU-SCHWEMLEIN, MARIA, Associate Professor of Chemistry. B.S., LaTrobe University, Australia; Ph.D., The Australian National University (2002)

NICHOLLS, J. KEITH, Associate Professor of Political Science; Director, Public Administration Program. B.A., M.A., Memphis State University; Ph.D., Florida State University (1990) (Graduate)

NIGOTA, JOSEPH A., Associate Professor of History. B.S.F.S., Georgetown University; M.A., Ph.D., Emory University (1966) (Graduate)

NOONAN, PATRICIA K., Clinical Assistant Professor of Community Mental Health Nursing. B.S., University of Southern Mississippi; M.S.N., University of South Alabama (2002) (Graduate)

NORRELL, PHILLIP M., Assistant Professor of Health, Physical Education, and Leisure Studies. B.S., University of Southern Mississippi; M.S., United States Sports Academy; M.A., Webster University; Ed.D., University of Alabama (2002) (Graduate)

NORRIS, PHILLIP, Associate Professor of Continuing Education; Director, USA Baldwin County. B.A., M.S.W., University of Alabama; M.Ed., Ed.D., University of Massachusetts (1986) (Graduate)

NOVOMIC, MARIJA, Laboratory Instructor in Physics. B.S., University of NIS-Yugoslavia; M.S., Louisiana Tech University (2004)

NOWLIN, BARRY, Assistant Professor of English. B.A., M.A., Ph.D., University of South Alabama (1989)

OAKES, JOHN E., Professor of Microbiology and Immunology. B.S., M.S., University of Nebraska; Ph.D., University of Tennessee (1977) (Graduate)

O'BRIEN, JACK, Assistant Professor of Biology; Adjunct Assistant Professor of Marine Sciences. B.A., Stanford University; Ph.D., University of California-Santa Barbara (1993) (Graduate)

O'BRIEN, MARGARET, Assistant Professor in Pathology. B.A., Williams College; J.D., Vanderbilt; M.D., University of South Alabama (1998)

O'CONNOR, TRACY, Lecturer in Clinical Occupational Therapy. B.S., Tuskegee University; B.S., M.S., Auburn University (2004)

O'KEEFE, CATHY A., Instructor in Health, Physical Education and Leisure Studies. B. S., Springhill College; M.A., University of South Alabama (1990)

OLSEN, JOSEPH M., Professor of Civil Engineering-Chair. B.S., M.S., Ph.D., Massachusetts Institute of Technology (P.E.,UT) (1987)

OLSON, JACK W., Professor of Pharmacology. B.S., University of New Mexico; Ph.D., University of Southern California (1996) (Graduate)

OMAR, HUSAM ANWAR, Associate Professor of Civil Engineering. B.S., M.S., University of Texas-Arlington; Ph.D., University of Manitoba (1988) (Graduate)

OP'T HOLT, TIMOTHY B., Professor of Cardiorespiratory Care. B.S., Michigan State University; M.H.P.E., University of Illinois; Ed.D., Auburn University (1994)

O'SHEA, TIMOTHY, Associate Professor of Political Science and Criminal Justice. B. A., Southern Illinois University; M.A., Northeastern Illinois University; M.A., Ph.D., University of Illinois at Chicago (1996) (Graduate)

OSZUSCIK, PHILIPPE, Associate Professor of Art History. B.A., Northeast Louisiana State University; M.A., Louisiana State University; Ph.D., University of Iowa (1977) (Graduate)

OWEN, WILLIAM N., III, Associate Professor of Computer and Information Sciences and ITE Coordinator. B.S., Mississippi State University; B.S., M.S., Ph.D., University of South Alabama (1998) (Graduate)

PANCHENKO, HOLLY L., Instructor in Leadership and Teacher Education. B.S., M. Ed., University of Southern Mississippi (2005)

PAPASTEFAN, JOHN J., Professor of Music. B.Ed., University of Wisconsin-Whitewater; M.A., Appalachian State University; Ph.D., Walden University (1967) (Graduate)

PARDUE, HAROLD J., Associate Professor of Computer and Information Sciences. B. A., M.S., University of South Alabama; Ph.D., Florida State University (2000) (Graduate)

PARK, KYEONG, Associate Professor of Marine Sciences. B.E., Seoul National University; M.S., State University at New York Stony Brook; Ph.D., College of William and Mary (2003)

PARKER, JAMES C., Professor of Physiology. B.S., Washington and Lee University; Ph.D., University of Mississippi (1977) (Graduate)

PARKER, MARTIN R., Professor of Electrical Engineering. B.Sc., Glasgow University, UK; Ph.D., Salford University, UK (1996) (Graduate)

PARKER, PAULA DIANE, Assistant Professor of Accounting. B.S.B.A., M.P.A., University of Southern Mississippi; Ph.D., Mississippi State University (2003)

PARKER, VINCENT J., Instructor in Emergency Medical Services. B.S., University of
PAYNE, LINDA, Associate Professor of English. B.A., Messiah College; M.A., Ph.D., University of Delaware (1990) (Graduate)
PEARSALL, DESIREE, Assistant Professor of Medicine. B.A., Northwestern University; M.D., Rush Medical College (1998)
PENNERMAN, ALTIEA J., Assistant Professor of Department of Leadership and Teacher Education. B.Ed., University of the West Indies; M.Ed., Ph.D., University of South Alabama (2003) (Graduate)
PEREZ-PINEDA, FEDERICO, Associate Professor of Languages and Literatures-Spanish. B.A., State University of New York; M.A., Ph.D., Pennsylvania State University (1989)
PETERS, MARIAN, Clinical Assistant Professor of Maternal/Child Nursing. B.S.N., University of South Alabama; M.S.N., University of Alabama-Birmingham (1996) (Graduate)
PETERSON, KAREN W., Instructor in English. B.A., University of South Alabama; M.A., University of New Orleans (2004)
PHAN, ANH-VU, Assistant Professor of Mechanical Engineering. M.E., Ho Chi Minh City University of Technology; M.S., National Polytechnic Institute of Grenoble; M.E., Ph.D., University of Montreal (2002) (Graduate)
PHAREZ, MARYE C., Assistant Professor of Community Mental Health Nursing. B.S.N., M.S.N., University of South Alabama (2002)
PICKETT, GABRIELLA SEGALLA, Assistant Professor of Mathematics. Laurea in Mathematics, Universita Degli Studi di Padova; Ph.D., Tulane University (1992)
PICOU, J. STEVEN, Professor of Sociology-Chair. B.A., Southeastern Louisiana University; M.A., Ph.D., University of South Alabama (1988) (Graduate)
PIETRI, PAUL H., Jr., Professor of Management; Director, Management Development. B.A., Southeastern Louisiana University; M.S., Louisiana State University; D.B.A., Mississippi State University (1975) (Graduate)
PILLEN, CORNELIUS, Professor of Mathematics. Diploma, Albert-Ludwigs University; M.S., Ph.D., University of Massachusetts (1992) (Graduate)
PITTNER, STEVEN J., Professor of Biochemistry and Molecular Biology and Ophthalmology. B.S., Ph.D., Michigan State University (1992)
POWERS, SEAN PAUL, Assistant Professor of Marine Sciences. B.S., Loyola University; M.S., University of New Orleans; Ph.D., Texas A&M University (2002)
PRENDERGAST, AMY C., Associate Librarian. B.A., Mississippi University for Women; M.A., University of South Alabama; M.L.S., University of Alabama (1992)
PRESCOTT, GREGORY L., Instructor in Accounting. B.S., Troy State University; M.A., University of South Alabama (1994)
PROKHOROV, VASILY A., Associate Professor of Mathematics. M.Sc., Moscow State University; Ph.D., Dr.Sc., Steklov Mathematical Institute (1999) (Graduate)
PRUITT, WILLIAM CHARLES, Instructor in Clinical Cardiorespiratory Care. B.A., Georgia College; M.B.A., Brenau College (1999)
PUGH, STEVEN F., Associate Professor of Health, Physical Education, and Leisure Studies. B.S., M.Ed., University of South Alabama; Ph.D., Florida State University (1998) (Graduate)
RABER, MICKI S., Clinical Assistant Professor of Community Mental Health Nursing. B.S.N., University of South Alabama; M.S.N., Mississippi University for Women (2001) (Graduate)
RADUCAN, VIOREL, Associate Professor of Orthopaedic Surgery. M.D., Montreal University (1998)
RAHMAN, ARIFUR, Associate Professor of Electrical Engineering. B.S., University of Dacca, Bangladesh; M.S., Texas A&M University; Ph.D., University of Kentucky (1982) (Graduate)
RAINOEK, ALVIN P., Professor of Statistics. B.S., B.A., Ph.D., Texas A&M University (1970) (Graduate)
RALPH, JOAN R., Professor Emeritus of Nursing (1977-1991)
RATTIE, IRENE A., Clinical Assistant Professor of Adult Health Nursing. B.S., Adelphi University; M.S., The University of Maryland at Baltimore (2003)
RAVINE, TERENCE J., Clinical Assistant Professor of Clinical Laboratory Sciences. B.S.M.T., M.S., University of Akron; Ph.D., Medical College of Virginia/VCU (2002)
RETZLAFF-ROBERTS, DONNA L., Professor of Management. B.S., M.S., University of Illinois; Ph.D., University of Cincinnati (2003)
RHODES, ROSEMARY S., Professor of Adult Health Nursing, Associate Dean for Academic Affairs of Nursing, College of Nursing. B.S.N., University of Alabama-Birmingham; M.N., University of Mississippi; D.N.S., Louisiana State University (1977) (Graduate)

RICE, TIMOTHY M., Assistant Professor of Biology. B.S., Thomas More College; M.S., Ph.D., Miami University (2002) (Graduate)

RIVIZZIGNO, VICTORIA L., Associate Professor of Geography. B.S.E., M.A., State University of New York-Buffalo; Ph.D., Ohio State University (1978)

ROBENSTINE, CLARK, Professor of Department of Professional Studies. B.S., Ohio University; M.S., University of Kentucky; Ph.D., Ohio State University (1992) (Graduate)

ROBERTSON, JUSTIN C., Assistant Librarian. B.A., Emory University; M.L.I.S., Atlanta University (2000)

ROBINSON, CHERYL B., Clinical Assistant Professor of Maternal/Child Health Nursing. B.S.N., University of Alabama; M.S., University of Colorado (1994) (Graduate)

ROBINSON, LYNN, Professor Emeritus of Marketing. (1968-1989)

ROBINSON, MARY ANN, Associate Professor of Department of Professional Studies. B.S., M.Ed., Ph.D., University of South Alabama (1999) (Graduate)

ROCKWELL, STEVEN C., Associate Professor of Communication. B.A., University of South Alabama; M.A., Ph.D., University of Alabama (1998) (Graduate)

RODNING, CHARLES B., Professor of Surgery, Associate Professor of Cell Biology and Neuroscience. B.S., Gustavus Adolphus College; M.D., University of Rochester; Ph.D., University of Minnesota (1981) (Graduate)

RODRIGUEZ, HAROLD V., Professor Emeritus of Engineering (1969-1993)

ROE, DIANE, Instructor in Chemistry. B.S., University of South Alabama (1998)

ROGERS, DANIEL E., Associate Professor of History. B.A., University of Alabama; M.A., Ph.D., University of North Carolina-Chapel Hill (1991) (Graduate)

ROHLING, MARTIN, Assistant Professor of Psychology. M.A., Ph.D., University of Alabama (2001) (Graduate)

ROHRER, JAMES W., Associate Professor of Microbiology and Immunology. B.A., Ph.D., University of Kansas (1979) (Graduate)

ROSENE, JAMES M., Assistant Professor of Communication. B.A., M.A., Auburn University; Ph.D., Ohio University (1990)

ROSS, M. CANDICE, Professor of Community/ Mental Health Nursing; Associate Dean for Research and Development. B.S.N., M.S.N., University of Alabama-Birmingham; Ph.D., University of Texas-Austin (1995) (Graduate)

ROUSSEL, LINDA A., Associate Professor of Community/Mental Health Nursing. B.S.N., William Carey College; M.S., University of Southern Mississippi; D.S.N., University of Alabama-Birmingham (2003)

ROWELL, THOMAS L., Assistant Professor in Music. A.A., Northeast Mississippi Junior College; B.M., Austin Peay State University; D.M.A., Southwestern Baptist Theological Seminary (2005)

RUSSELL, THOMAS, Professor Emeritus of Curriculum and Instruction (1966-1995)

RYAN, REBECCA, Associate Professor of Adult Health Nursing. B.S., Jacksonville State University; M.P.A., Georgia Southern University; Ed.D., Georgia Southern University (1998) (Graduate)

RYDER, ROY H., Associate Professor of Geography. B.S., M.S., University of Glasgow; Ph.D., University of Florida (1989)

SACHS, JOHN J., Associate Professor of Department of Leadership and Teacher Education. B.A., Kansas Wesleyan University; M.Ed., University of Houston; Ph.D., Southern Illinois University (1988) (Graduate)

SADOVSKAYA, VICTORIA V., Assistant Professor of Mathematics. B.S., M.S., St. Petersburg State University, Russia; Ph.D., Pennsylvania State University (2003)

SAKLA, ADEL A., Associate Professor of Electrical Engineering. B.S., Assiut University (Egypt); M.S., Cairo University (Egypt); Ph.D., University of Illinois (1979) (Graduate)

SALE, MARTHA, L., Assistant Professor of Accounting. B.S., Louisiana Tech University; M.A.C.C., University of Florida; D.B.A., Louisiana Tech University (2000) (Graduate)

SANDERS, JUSTIN M., Associate Professor of Physics. B.S., Texas A&M University; Ph.D., Kansas State University (1995)

SANTOLI, SUSAN P., Assistant Professor of Department of Leadership and Teacher Education. B.A., Oklahoma State University; M.R.C.P., University of Oklahoma; Ph.D., Auburn University (2000) (Graduate)

SAUER, JANICE A., Senior Librarian. B.A., Marquette University; M.L.S., University of
Faculty

Alabama (1992)

SCAFFA, MARJORIE E., Associate Professor of Occupational Therapy-Chair. B.A., University of Maryland; M.S., Virginia Commonwealth University; Ph.D., University of Maryland (1993) (Graduate)

SCAFFIDI, FREDERICK M., Professor of Health, Physical Education and Leisure Studies-Chair. B.A., University of South Carolina; M.S., Hunter College; Ph.D., Vanderbilt University (1980) (Graduate)

SCAMMELL, JONATHAN, Professor of Pharmacology; Associate Professor of Comparative Medicine. B.S., University of Alabama-Tuscaloosa; Ph.D., University of Florida (1986) (Graduate)

SCHAFFER, STEPHEN W., Professor of Pharmacology. B.S., Buena Vista College; Ph.D., University of Minnesota (1981) (Graduate)

SCHROEDER, WILLIAM W., Professor of Marine Sciences. B.S., San Diego State University; Ph.D., Texas A&M University (1971)

SEBASTIAN, GLENN R., Associate Professor of Geography, Department of Earth Sciences-Chair. B.S., M.S., St. Louis University; D.A., University of Northern Colorado (1967) (Graduate)

SCAMMELL, JONATHAN, Professor of Pharmacology; Associate Professor of Comparative Medicine. B.S., University of Alabama-Tuscaloosa; Ph.D., University of Florida (1986) (Graduate)

SEGAL, MARK A., Professor of Accounting. B.A., M.B.A., J.D., Tulane University; M.L. T., Emory University (1987) (Graduate)

SHAH, ARVIND K., Professor Emeritus of Statistics (1976-2001)

SHAMBACK, BENJAMIN J., Assistant Professor of Art and Art History. B.A., Central Connecticut State University; M.F.A., Fontbonne College (2001)

SHARPE, THOMASINA, Assistant Professor of Family Practice. B.S., M.D., University of South Alabama (1998)

SHAW, EDWARD L., Jr., Professor of Department of Leadership and Teacher Education. A.B., University of Georgia; M.Ed., Columbus State University; Ed.D., University of Georgia (1987) (Graduate)

SHAW, THOMAS C., Assistant Professor of Political Science and Criminal Justice. B. S., M.A., University of Southern Mississippi; Ph.D., University of New Orleans (2005)

SHEARER, ROBERT A., Professor of Management, Assistant to the President (Academic Affairs). B.A., Belhaven College; M.Ed., University of Tampa; J.D., Stetson University of Law (1986) (Graduate)

SHELLEY-TREMBLAY, JOHN F., Assistant Professor of Psychology. B.S., Colorado State University; M.A., The New School for Social Research; Ph.D., The City University of New York (2002)

SHERMAN, TIMOTHY D., Associate Professor of Biological Sciences. B.S., Arkansas Technical University; Ph.D., Texas A&M University (1993) (Graduate)

SHIPP, ROBERT L., Professor of Marine Sciences-Chair, Adjunct Professor of Biology. B.S., Spring Hill College; M.S., Ph.D., Florida State University (1971) (Graduate)

SHLENSKY, LINCOLN, Assistant Professor in English. B.A., Brown University; M.A., University of California-Berkeley; Ph.D., University of California-Berkeley (2003)

SILVER, DANIEL, Professor of Mathematics. B.S., Trinity College; Ph.D., Yale University (1983) (Graduate)

SIMMONS, WARLAND EUGENE, Associate Professor of Computer and Information Sciences. B.S.Ch.E., Louisiana State University; M.Sc., Ph.D., University of Louisiana at Lafayette (2000) (Graduate)

SIMPSON, BARRY D., Assistant Professor of Economics. B.A., University of Tennessee-Chattanooga; M.S., Ph.D., Auburn University (2003)

SIMPSON, JENNIFER L., Instructor in Leadership and Teacher Education. B.A., Southern Louisiana University; M.Ed., University of South Alabama (2005)

SIMPSON, LARRY B., Professor of Art. B.F.A., Minnesota School of Art; M.F.A., Michigan State University (1991) (Graduate)

SINNOTT, JOAN, Associate Professor of Research Psychology; Adjunct Associate Professor of Speech Pathology and Audiology. B.A., Indiana University; Ph.D., University of Michigan (1988) (Graduate)

SKIADAS, MARGARITA, Instructor of Art and Art History. B.F.A., College of Santa Fe; M.F.A., University of Colorado at Boulder (2001)

SMITH, AGNES, Associate Professor of Department of Leadership and Teacher Education. B.S., University of South Alabama; M.Ed., Northeast Louisiana University; Ed.D., Auburn University (1997) (Graduate)

SMITH, KANDY K., Associate Professor of Adult Heath Nursing. B.S.N., University of
SMITH-PALOMBO, ALEESHA A., Instructor in Physical Education and Leisure Studies. B.A., University of South Florida; M.A., University of South Alabama (1992)

SNEATH, JULIE Z., Associate Professor of Marketing and E-Commerce. B.S., University of Arkansas; M.S., Ph.D., Georgia State University (2003)

SPAIN, LINDA, Instructor in English. B.A., M.A., University of South Alabama (1991)

SPAKE, DEBRA, Assistant Professor of Marketing and E-Commerce. B.A., University of South Alabama; M.A., Ph.D., University of Alabama (2002) (Graduate)

SPECTOR, MICHAEL P., Professor of Biomedical Sciences. Adjunct Assistant Professor of Microbiology and Immunology. B.S., Philadelphia College of Pharmacy and Science; Ph.D., Marshall University School of Medicine and West Virginia University (1988) (Graduate)

SPYRIDIS, GREG T., Assistant Professor of Chemistry. B.S., Seattle University; Ph.D., University of Washington (2004)

STAGGS, GENEVA B., Senior Librarian. B.S., Judson College; M.L.S., University of Kentucky (1982)

STANFIELD, CINDY L., Associate Professor of Biomedical Sciences. B.S., Ph.D., University of California, Davis (1992) (Graduate)

STARK, JOHN, Professor Emeritus of Chemical Engineering (1965-1989)

STEADMAN, JOHN W., Professor of Electrical and Computer Engineering-Dean, College of Engineering. B.S., M.S., University of Wyoming; Ph.D., Colorado State University (2003)

STEARS, J. DAVID, Adjunct Professor of Educational Leadership; Associate Vice President for Enrollment Services. B.A., Fort Lewis College; M.A., Adams State College; Ed.D., University of Alabama (1985)

STEELE, DAVID BROOKS, Assistant Professor of Department of Professional Studies. B.A., University of Alabama; M.Ed., University of South Alabama; Ph.D., University of Alabama (2003) (Graduate)

STEVENS, TROY, Assistant Professor of Pharmacology. B.S., Chadron State College; M.S., Ph.D., Colorado State University (1996) (Graduate)

STOUT, JUDY P., Associate Professor of Biology; Associate Vice President for Academic Affairs. B.S., M.S., Ph.D., University of Alabama (1980) (Graduate)

STRADA, SAMUEL J., Professor of Pharmacology; Senior Associate Dean, College of Medicine. B.S., M.S., University of Missouri-Kansas City; Ph.D., Vanderbilt University (1983) (Graduate)

STRANGE, JOHN H., Professor of Department of Professional Studies. B.A., Duke University; M.A., Ph.D., Princeton University (1990) (Graduate)

STUTSMAN, SAMUEL T., Instructor in Earth Sciences. B.S., University of South Alabama; M.S., University of Alabama (2002)

SULLIVAN, EUGENE V., Jr., Senior Librarian; Coordinator of Collection Management. M.S., University of South Alabama; B.S., Spring Hill College; Coordinator of M.L.S., Louisiana State University (1968)

SUMMERLIN, AMEINA S., Instructor in Mathematics and Statistics. B.S., University of Mobile; M.S., University of South Alabama (2002)

SURLINE, MARTHA N., Clinical Assistant Professor of Maternal-Child Nursing. B.S., Louisiana Tech University; M.S., Cornell University (1986) (Graduate)

SURRY, DANIEL W., Associate Professor of Department of Professional Studies. B.S., University of Alabama-Tuscaloosa; M.S., University of South Alabama; Ed.D., University of Georgia (1999) (Graduate)

SWEENEY, ROBERT B., Jr., Assistant Professor of Computer and Information Sciences. B.S., Auburn University; M.S., Memphis State University; Ph.D., University of Memphis (1999) (Graduate)

SWOFFORD, JAMES L., Professor of Economics. B.A., University of Richmond; Ph.D., University of Florida (1984) (Graduate)

SYLVESTER, NICHOLAS D., Professor of Chemical Engineering. B.S., Ohio University; Ph.D., Carnegie-Mellon University P.E. (OH) (1996) (Graduate)

SYLVESTRE, A. JEANNETTE, Professor of Accounting. B.S., M.B.A., University of South Alabama; Ph.D., University of Georgia (1977) (Graduate)

SZEDLMAYER, STEPHEN T., Assistant Professor of Research-CRDI. B.A., Millersville University of Pennsylvania; M.S., University of South Florida; Ph.D., College of William and Mary (1991)

TALBOTT, RICHARD E., Professor of Speech Pathology and Audiology; Dean of Allied Health Professions. B.S., M.S., West Virginia University; Ph.D., University of Oklahoma Health Sciences Center (2003)

TATE, VICKI L., Senior Librarian; Head, Government Documents. B.A., Knox College;
B.S., Illinois State University; M.S., University of Illinois (1995)
TAYLOR, AUBREY E., Professor Emeritus of Physiology
TEMPLE, ANTHELYN S., Associate Professor of Adult Health Nursing. B.S.N.,
Medical College of Georgia; M.S.N., Georgia State University; D.N.S. Louisiana State
University (1990) (Graduate)
THOMAS, ALBERT D., Assistant Professor of Department of Leadership and Teacher
Education/School Administrator. B.S., M.Ed., West Texas A&M; Ed.D., Texas A&M-
Commerce (2002) (Graduate)
THOMAS, J. STEPHEN, Professor of Anthropology. B.S., M.S., University of
Wisconsin-Milwaukee; Ph.D., University of Missouri-Columbia (1984)
THOMAS, THOMAS G., Jr., Associate Professor of Electrical and Computer
Engineering. B.S., B.S.E.E., University of South Alabama; M.S.E.E., University of
Alabama at Birmingham; Ph.D., University of Alabama at Huntsville (1999) (Graduate)
THOMASON, MICHAEL V., Professor of History; Director, University Archives. B.A.,
University of the South; M.A., Ph.D., Duke University (1970) (Graduate)
THOMPSON, JAMES J., Professor Emeritus of Behavioral Studies and Educational
Technology (1967-1995)
TODD, CARL E., Professor Emeritus of Education (1967-1986)
TORMOEN, SUZANNE, Assistant Professor of Medicine. B.S., University of Alabama;
M.D., University of South Alabama (1998)
TOWNSLEY, MARY I., Professor of Physiology. B.A., Lycoming College; Ph.D.,
University of California-Davis (1984) (Graduate)
TRIMM, R. FRANKLIN, III, Professor of Pediatrics and Neurology. B.A., Southern
College of Seventh-Day Adventists; M.D., Loma Linda University (1991)
TUNG, YE, Assistant Professor of Electrical and Computer Engineering. B.S., Xian
Jiaotong University; Ph.D., Pennsylvania State University (2002) (Graduate)
TUNKS, KARYN W., Assistant Professor of Department of Leadership and Teacher
Education. B.S., M.Ed., University of South Alabama; Ph.D., Florida State University
(2004)
TURNER, LISA A., Associate Professor of Psychology. B.S., M.A., Ph.D., University of
Alabama (1993) (Graduate)
TURRENS, JULIO F., Professor of Biomedical Sciences; Associate Dean and Director
of Graduate Studies-College of Allied Health Professions. Adjunct Associate Professor
of Biochemistry. M.S., Ph.D., University of Buenos Aires (1990) (Graduate)
UHLIG, GEORGE E., Professor of Department of Professional Studies; B.S., M.Ed.,
Ed.D., University of Nebraska (1976) (Graduate)
URBANCIC, FRANK R., Professor of Accounting-Chair. B.B.A., Cleveland State
University; D.B.A., Kent State University (1990) (Graduate)
VALENTINE, JOHN F., Associate Professor of Marine Sciences-MESC. B.A.,
University of Texas; Ph.D., University of Alabama (1995) (Graduate)
VAN DYKE, LEON, Associate Professor of Drama-Chair. B.A., Hope College; M.A.,
Western Michigan University; Ph.D., Wayne State University
VAN HANEGHAN, JAMES P., Professor of Department of Professional Studies. B.A.,
M.A., State University of New York; Ph.D., University of Maryland (1995) (Graduate)
VAN SLYKE, NANCY, Associate Professor of Occupational Therapy. B.S., State
University of New York-Buffalo; M.S., Southwest Texas State University; Ph.D., Auburn
University (1994) (Graduate)
VANDE WAA, ELIZABETH A., Associate Professor of Adult Health Nursing. B.S.,
Hope College; Ph.D., Michigan State University (1994) (Graduate)
VARGHESE, SANKOORIKAL L., Professor of Physics-Chair; Associate Dean of Arts
and Sciences. B.Sc., M.Sc., Kerala University-India; M.S., University of Louisville; Ph.
D., Yale University (1980) (Graduate)
VARNADO, S. LOWREY, Professor Emeritus of English (1967-1990)
VARNER, GARY L., Instructor in Emergency Medical Services. B.S., Auburn
University-Montgomery; M.P.H., University of Alabama-Birmingham (2002)
VARNER, JOYCE M., Clinical Assistant Professor of Adult Health Nursing. B.S.N.,
Auburn University-Montgomery; M.S.N., University of Alabama (2001) (Graduate)
VETROSKY, DANIEL T., Assistant Professor of Physician Assistant Studies. B.A., St.
Patrick's College; B.H.S., Duke University; M.Ed., Augusta College (1996) (Graduate)
VICKORY, JAMES A., Assistant Professor of Health, Physical Education and Leisure
Studies. B.A., Aurora University; M.A., DePaul University; M.S., George Williams
College; Ed.D., Brigham Young University (2003)
VITULLI, WILLIAM F., Professor Emeritus of Psychology (1965-2001)
VRETTOS, CHERYL D., Instructor and Clinical Coordinator in Physician Assistant
Studies. B.S., Florida State University; M.H.S., University of South Alabama (2002)
WADE, GINA, Instructor in Earth Sciences. B.S., University of South Alabama; M.S., Mississippi State University

WADE, RYAN, Instructor in Earth Sciences. B.S., University of South Alabama; M.S., Mississippi State University

WAGNER, PATRICIA C., Clinical Assistant Professor of Maternal Child Nursing. B.S.N., Loyola University; M.S.N., University of South Alabama (2002)

WAGNER, TERESA A., Assistant Professor of Department of Professional Studies. B.S., University of Houston; M.S., Ph.D., Virginia Tech (2004)

WALKER, SUE B., Professor of English-Chair. B.S., University of Alabama; M.A., M.Ed., Ph.D., Tulane University (1981) (Graduate)

WALL, JAMES CHRISTOPHER, Professor of Physical Therapy; Adjunct Professor of Department of Professional Studies. B.Sc., University of London; M.Sc., University of Surrey; Ph.D., University of London; M.Ed., University of Toronto (1989) (Graduate)

WALES, NORETTA, Clinical Assistant Professor of Community/Mental Health Nursing. B.S.N., M.S.N., University of South Alabama (2003)

WANG, BIN, Assistant Professor of Mathematics and Statistics. B.S., University of Science and Technology of China; Ph.D., Case Western University (2003)

WARD, ALICE S., Professor Emeritus of Adult Health Nursing (1978-97)

WARD, MICHAEL D., Instructor in Computer and Information Sciences. B.S., M.S.-C.S., University of South Alabama (2001)

WARD, RICHARD L., Associate Professor of Communication; B.A., University of Southern California; M.A., University of Southern Mississippi; Ph.D., University of Texas (1996) (Graduate)

WASSELKOV, GREGORY A., Professor of Anthropology; Director, Center for Archaeological Studies. B.A., University of Missouri; M.A., Ph.D., University of North Carolina (1988) (Graduate)

WELDY, TERESA, Instructor of Management. B.S., M.B.A., University of South Alabama (1993)

WELDING, THOMAS L., Professor of Continuing Education; Dean, School of Continuing Education and Special Programs. B.S., East Tennessee State University; M.Ed., University of Montevallo; Ph.D., University of Alabama (1976) (Graduate)

WELSH, MARY CAY, Associate Professor of Psychology; Clinic Coordinator. B.A., University of South Alabama; M.A., Ph.D., University of Alabama (1978) (Graduate)

WEST, THOMAS R., Assistant Professor of English. B.A., M.A., Ph.D., University of South Florida (1999) (Graduate)

WHEELE, KATHY P., Associate Librarian. B.A., Newberry College; M.A., University of South Carolina; M.L.I.S., Louisiana State University (1997)

WHITE, CAROLYN GREEN, Clinical Assistant Professor of Community/Mental Health Nursing. B.S.N., Auburn University-Montgomery; M.S.N., University of South Alabama; J.D., Faulkner University Jones School of Law (1997) (Graduate)

WHITE, KEVIN D., Professor of Civil Engineering. B.S., M.E., Louisiana State University; Ph.D., Virginia Polytechnic Institute (1991) (Graduate)

WIERZBICKI, ANDRZEJ, Professor of Chemistry-Chair. M.S., A. Mickiewicz University; Ph.D., Polish Academy of Sciences-A. Mickiewicz University (1993) (Graduate)

WILLIAMS, AARON, Jr., Associate Professor of Geography; Director, USA Weather Center. B.S., Florida State University; M.A., University of Missouri; Ph.D., University of Oklahoma (1985)

WILLIAMS, DIANE, Assistant Librarian. B.A., Rhodes College; M.L.S., University of Alabama (1992)

WILLIAMS, JERAL R., Professor of Psychology. A.A., Hutchinson Junior College; B.S., Washburn University; M.A., Ph.D., University of Iowa (1980)

WILLIAMS, KIMBERLY A., Assistant Professor of Community/Mental Health Nursing. B.S.N., M.S.N., University of South Alabama; D.N.Sc., University of Tennessee (2004)

WILLIAMS, MANDY J., Assistant Professor of Speech Pathology and Audiology. B.A., University of Utah; M.S., Ph.D., University of Nevada-Reno (2004)

WILLIAMS, SUSAN G., Professor of Mathematics. B.A., M.S., University of Chicago; Ph.D., Yale University (1983) (Graduate)

WILLIAMS, THOMAS, Senior Librarian; Director of Biomedical Library and Learning Resources. B.A., M.S.L.S., Columbia University (1996)

WILSON, CYNTHIA L., Associate Professor of Adult Interdisciplinary Studies. B.S., Millsaps College; M.S., East Texas State University; Ph.D., University of Alabama
WILSON, FELICIA, Assistant Professor of Pediatrics. B.S., University of South Carolina; M.D., Medical University of South Carolina (1992)
WILSON, GERALD L., Professor of Communication-Chair. B.S., Bowling Green State University; M.A., Miami University; Ph.D., University of Wisconsin (1980) (Graduate)
WILSON, GLENN L., Professor of Cell Biology and Neuroscience-Chair. B.S., University of New Mexico; Ph.D., University of Illinois (1980) (Graduate)
WILSON, L. BRITT, Assistant Professor of Physiology. B.S., West Texas State University; Ph.D., University of Illinois (1980) (Graduate)
WIMS, LOIS ANN, Associate Professor of Political Science and Criminal Justice; Associate Dean of the College of Arts and Sciences. B.S., Bryant College; M.S., Salve Regina; Ph.D., University of Rhode Island (2002)
WINKLER, HERBERT H., Professor of Microbiology and Immunology-Vice Chair. B.A., Kenyon College; Ph.D., Harvard University (1978) (Graduate)
WOJCIECHOWSKI, WILLIAM V., Associate Professor of Cardiorespiratory Care-Chair. B.A., University of Dayton; M.S., University of Illinois (1979)
WOOD, DAVID O., Professor of Microbiology and Immunology. B.A., Berry College; M.S., Ph.D., Medical College of Georgia (1979) (Graduate)
WOOD, PETER J., Assistant Professor of Music. B.S., University of Illinois-Urbana; M.M., University of Wisconsin-Madison; D.M., Indiana University-Bloomington (2005)
WOODFORD, KELLY C., Assistant Professor of Management. B.S., Springhill College; J.D., Georgetown University (2000)
WOODRUFF, JOYCE C., Assistant Professor of Adult Interdisciplinary Studies-Chair. B.S., Louisiana State University; M.S., University of South Alabama; Ed.D., Auburn University (1993)
WOOSTER, DONNA M., Assistant Professor of Occupational Therapy. B.S., Worcester State College; M.S., University of Connecticut (1994) (Graduate)
WRIGHT, DONALD K., Professor of Communication. B.A., Washington State University; M.A., California State University-Fresno; Ph.D., University of Minnesota (1983) (Graduate)
WRIGHT, JERRY T., Associate Librarian; A.B., Samford University; M.A., East Tennessee State University; M.S.L.S., University of Kentucky (1973)
WRIGHT, ROGER ANTHONY, Assistant Professor of Art and Art History. B.F.A., Moorhead State University; M.F.A., Southern Illinois University-Carbondale (2000)
YATES, MARK C., Assistant Professor of Psychology. B.S., Louisiana State University; M.A., University of Louisiana at Monroe; Ph.D., University of Kansas (2004)
YOUN, KYEONG-WON, Instructor in Art and Art History. B.S., Shin-Gu University-Korea; B.S., State University of New York College at Buffalo; M.F.A.; Temple University (2002)
YOUNGBLOOD, SUSAN, Assistant Professor of Philosophy. B.S., M.A., University of Alabama; Ph.D., Tulane University (1966)
ZAKHAROVA, ALLA P., Associate Librarian: Director of PETAL/IMC. B.Sc., M.S., Ph.D., Moscow State Pedagogical Institute; M.Ed., University of South Alabama (2004)
ZHANG, XIN-MIN, Professor of Mathematics. B.S., Shaanxi N.; M.S., Ph.D., University of Massachusetts (1990) (Graduate)
Zhou, Yan, Assistant Professor of Computer and Information Sciences. B.S., Xian Jiaotong University; M.S., The University of Mississippi; D.Sc., Washington University (2003)
ZOGHBY, LINDA, Assistant Professor of Music. B.M., M.M., Florida State University (1992)
BOARD OF TRUSTEES

The Honorable Bob Riley, President ........................................... Governor, State of Alabama

Dr. Joseph B. Morton ................................................................. State Superintendent of Education

Mr. Jack R. Brunson ................................................................. Coffee and Crenshaw

Mr. J. L. Chestnut, Jr. ............................................................... State at Large

The Honorable E. Crum Foshee .............................................. Butler, Conecuh, and Covington

Mr. J. Cecil Gardner ...................................................................... Mobile

The Honorable Samuel L. Jones .................................................. Mobile

The Honorable Larry P. Langford .............................................. State at Large

Mr. Donald L. Langham, Chair Pro Tempore ................................ Mobile

The Honorable W. H. Lindsey ................................................... Choctaw, Clarke and Washington

Ms. Bettye R. Maye, Secretary ................................................... Marengo and Sumter

Ms. Christie D. Miree ................................................................. Monroe and Wilcox

Mr. Mayer Mitchell ........................................................................... Mobile

The Honorable Bryant Mixon ..................................................... Dale and Geneva

The Honorable James P. Nix ...................................................... Baldwin and Escambia

Dr. Steven H. Stokes, Vice Chair ............................................... Henry and Houston

Mr. Larry D. Striplin, Jr. .............................................................. Dallas and Lowndes

Representation by County:
OFFICERS OF ADMINISTRATION

V. Gordon Moulton, B.S., M.B.A. .............................................................. President
Pat C. Covey, B.A., Ph.D. ................................................................. Senior Vice President
Robert A. Kreisberg, B.S., M.D. ....................................................... Dean and Vice President for Medical Affairs
Dale T. Adams, B.A., M.A.E., Ed.D. .................................................... Vice President for Student Services
Melissa Wold, B.A, M.P.A. ............................................................... Assistant to the Sr. Vice President for Academic Affairs and University Registrar
J. David Stearns, B.A., M.A., Ed.D. ................................................... Associate Vice President for Enrollment Services
Jean Tucker, B.S.N., M.P.H., J.D. ...................................................... University Attorney
M. Wayne Davis, B.S., M.A. .............................................................. Vice President for Finance

ACADEMIC DEANS

Richard E. Talbott, B.S., M.S., Ph.D. ................................................... Dean, College of Allied Health Professions
Julio F. Turrens, B.S., M.S., Ph.D. .................................................... Associate Dean, College of Allied Health Professions
G. David Johnson, B.A., M.S., Ph.D. ................................................... Dean, College of Arts and Sciences
S.L. Varghese, B.S., M.S., Ph.D. ...................................................... Associate Dean, College of Arts and Sciences
Lois Ann Wims, B.S., M.S., Ph.D. ...................................................... Associate Dean, College of Arts and Sciences
Carl C. Moore, B.S., M.A., Ph.D. ................................................................. Dean,  
Mitchell College of Business

John E. Gamble, B.S., M.S., Ph.D. ................................................................. Associate Dean,  
Mitchell College of Business

Richard L. Hayes, A.B., Ed.M., Ed.D. ................................................................. Dean,  
College of Education

Thomas L. Chilton, B.S., M.A., Ed.D. ................................................................. Associate Dean,  
College of Education

Phillip Feldman, B.A., M.Ed., Ed.D. ................................................................. Associate Dean,  
College of Education

John W. Steadman, B.S., M.S., Ph.D. ................................................................. Dean,  
College of Engineering

Robert C. Foley, B.S., M.S. ................................................................. Assistant Dean,  
College of Engineering

Thomas L. Wells, B.S., M.Ed., Ph.D. ................................................................. Dean,  
School of Continuing Education and Special Programs

Ellwood B. Hannum, B.A., M.A., Ph.D. ................................................................. Associate Dean,  
School of Continuing Education and Special Programs

Phillip E. Norris, B.A., M.S.W., M.Ed., Ed.D. ................................................................. Director,  
USA Baldwin County

Debra C. Davis, B.S.N., M.S.N., D.N.S. ................................................................. Dean,  
College of Nursing

Rosemary S. Rhodes, B.S., M.N., D.N.S. ................................................................. Associate Dean,  
College of Nursing

M. Candace Ross, B.S.N., M.S.N., Ph.D. ................................................................. Associate Dean,  
College of Nursing

Barbara A. Broome, B.S.N., M.S.N., Ph.D. ................................................................. Associate Dean,  
College of Nursing

David L. Feinstein, B.S., M.S., Ph.D. ................................................................. Dean,  
School of Computer and Information Sciences

Richard J. Wood, B.A., M.L.S., Ph.D. ................................................................. Dean,

COLLEGE OF ALLIED HEALTH PROFESSIONS

Dean: Richard E. Talbott (251) 380-2785
Associate Dean and Director of Graduate Studies: Julio F. Turrens (251) 380-2785
Academic Advisors: Selicia Judge, Kimberly Noble (251) 380-2772

[College of Allied Health web site]
http://www.southalabama.edu/alliedhealth

The College of Allied Health Professions offers the following programs:

Certificate Program in:
Radiologic Technology

Bachelor of Science Programs in:
Biomedical Sciences
Cardiorespiratory Sciences
Clinical Laboratory Sciences
Radiologic Sciences
Speech and Hearing Sciences

Master’s Degree Programs in:
Health Science: Major -
Physician Assistant Studies
Master of Science in Occupational Therapy
Master of Science in Speech - Language Pathology

Doctor of Audiology
Doctor of Physical Therapy

Doctor of Philosophy Program in:
Communication Sciences and Disorders

The programs are designed to provide the highest quality in basic medical sciences and health professional education to meet health care needs and to contribute to new knowledge through research. Upon graduation, students are eligible to sit for their respective licensure and board examinations to enter professional practice in their chosen area.

Through University approval and when deemed to be in the best interest of the students, the faculty of the College reserves the right to alter curricula and regulations as deemed necessary.

The professional programs in Allied Health are accredited by their respective national accrediting agencies as given below:

ACCREDITATION
Program and Accrediting Agency
Cardiorespiratory Care:
Committee on Accreditation of Allied Health Educational Programs (CAAHEP) and the Committee on Accreditation for Respiratory Care (CoARC)

Clinical Laboratory Sciences:
National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)

Occupational Therapy:
Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA)

Physical Therapy:
ACADEMIC ADVISING

Students are encouraged to take full advantage of the academic advising services provided for Allied Health students. The academic advisors are available to assist undergraduate students and other persons seeking information about Allied Health Professions programs. The academic advisors are located at 1550 University Commons, telephone number (251) 380-2772. Graduate students are advised by their respective departmental advisor.

UNDERGRADUATE PROMOTION POLICIES

For Professional Component undergraduate students in Cardiorespiratory Care, Clinical Laboratory Sciences, and Radiologic Sciences, a minimum grade of “C” is required in each Professional Component course. This minimum grade of “C” reflects only the letter grade since many courses will require an 80% or 90% competency in order to be considered passing level. Students receiving less than a “C” in a professional course in Cardiorespiratory Care, Clinical Laboratory Sciences, and Radiologic Sciences will not be allowed to proceed in the program. Students not meeting this minimal requirement may apply for reinstatement by petitioning the respective departmental Student Evaluation and Promotions Committee. The student must petition in writing through the office of the Department Chair no later than five days prior to the beginning of the semester for which reinstatement is requested. If for any reason, a student must withdraw from the Professional Component of a program, readmission will require approval of the appropriate Department Chair and the Dean of the College.

Undergraduate students majoring in Speech and Hearing Sciences must complete each SHS course with a grade of “C” or better. “C” reflects only the letter grade since some courses will require an 80% or 90% competency level-point average in order to be considered passing level. Speech and Hearing majors are expected to maintain an overall grade-point average acceptable for admission to the graduate program.

TRANSIENT COURSE WORK CREDIT

All students currently enrolled at the University of South Alabama must receive prior approval of the Dean before taking course work at another institution. All students enrolled in the College of Allied Health Professions must receive prior approval from both the Chair of the Department and the Dean before taking courses in their major field at another institution. Failure to obtain prior approval may result in loss of credit for the course work.
**Department of Biomedical Sciences**

Chair: (251) 380-2710  
Professors: Covey, Davis, Itaya, Spector, Turrens  
Associate Professors: Aliabadi, Fell, Stanfield  
Adjunct Professors: Guarino, Hall

The Department of Biomedical Sciences is dedicated to providing excellent undergraduate preparation for those students interested in pursuing careers in medicine, dentistry, basic medical research, biomedical education or other health professions. The curriculum is designed to provide students a strong general education in the humanities, arts, social sciences, mathematics, and sciences, followed by in-depth study in the basic medical sciences. The program offers an optional Honors Research Thesis (BMD 499) to qualified students consisting of a first-hand research laboratory apprenticeship in biomedical research under the mentorship of a faculty scientist. Students interested in the Honors Research Thesis option should contact Dr. Michael Spector for information. The Biomedical Sciences curriculum as a whole is aimed at establishing a conceptual framework from which the student can pursue postbaccalaureate educational experiences in the biomedical sciences, particularly medicine, dentistry, or Ph.D. study in Basic Medical Sciences, as well as in a variety of health and science related fields. In addition, the Department of Biomedical Sciences offers basic medical science course work that serves as a background for students wishing to pursue professional component programs in the College of Allied Health Professions. For more information, visit the departmental web site at: [http://www.southalabama.edu/alliedhealth/biomedical/](http://www.southalabama.edu/alliedhealth/biomedical/).

**PREPROFESSIONAL ADVISING PROGRAM**

Students planning to major in Biomedical Sciences who also have plans to attend medical, dental, optometry, veterinary or pharmacy school are advised by the preprofessional advisor and by a College of Allied Health advisor.

**REQUIREMENTS FOR A MAJOR IN BIOMEDICAL SCIENCES**

MAJOR REQUIREMENTS

Humanities/Fine Arts 3
CP 200 or HS 170 1
General Elective 3

Forty-seven or forty-eight semester hours of Biomedical Sciences courses including:

- BMD 101* 1
- BMD 311 3
- BMD 321 3
- BMD 322 3
- BMD 323 1
- BMD 334 3
- BMD 335 3
- BMD 336 2
- BMD 401 3
- BMD 402 5
- BMD 410 4
- BMD 420 3
- BMD 430 3
- BMD 450 2
- BMD 493 2

And either

- BMD 499 (With permission of the faculty) 6

OR

- BMD 415 (4 credits) plus Math/Science Elective (BMD 210, MA 126, ST 310, BLY 205, 215, 311, 341, 363, 459, CH 265) (3 credits) 7

*Please Note: BMD 101 is not required for transfer or change of major students who have completed at least 15 semester hours of college credit.

SPECIAL COURSE FEES

- BMD 311 Human Anatomy Online $170.00
- BMD 323 Biochemistry Lab 50.00
- BMD 330 Basic Human Physiology Online* 210.00
- BMD 336 Physiology Lab 37.00
- BMD 402 Medical Microbiology 45.00
- BMD 415 Microscopic Anatomy 37.00
- BMD 499 Honors Research Thesis 37.00

*Please Note: BMD 330 is not available to BMD majors.

REQUIREMENTS FOR A MINOR IN BIOMEDICAL SCIENCES

A minimum of 18 credits in Biomedical Sciences, including BMD 311, 321, 322, 334, 335, and 3 additional BMD credits. At least 50% of the credit hours must be taken in the Department of Biomedical Sciences.

DESCRIPTIONS OF ALL BIOMEDICAL SCIENCES (BMD) COURSES

College of Allied Health Professions
The Department of Speech Pathology and Audiology is to provide undergraduate, master’s and doctoral programs that challenge the student to achieve the highest standards of academic learning, scientific inquiry and clinical excellence. The Department of Speech Pathology and Audiology seeks to deliver a comprehensive program of academic, research and clinical training in the area of speech, language and hearing development and disorders. The Department offers the Bachelor of Science in Speech and Hearing Sciences, the Master of Science in Speech-Language Pathology, the Doctor of Audiology and the Doctor of Philosophy in Communication Sciences and Disorders.

The undergraduate program readies the graduate to undertake professional study on the graduate level. Students in Speech-Language Pathology who complete the Bachelor's and Master's programs will meet all the academic and practicum requirements to be eligible for the Clinical Fellowship (CF) that leads to national certification (CCC/SLP) by the American Speech-Language-Hearing Association (ASHA) and eligibility for the Alabama State License. Students in Audiology who complete the Bachelor's and Doctor of Audiology programs will meet all the academic and practicum requirements for national certification (CCC/A) and also be eligible for the Alabama State License. The Graduate programs in both Speech-Language Pathology and Audiology are accredited by the Council on Academic Accreditation (CAA) of ASHA.

Undergraduate students majoring in Speech and Hearing Sciences must complete each SHS course with a grade of "C" or better. Undergraduate speech and hearing majors are expected to maintain an overall grade-point average acceptable for admission to a graduate program.

Course requirements for the baccalaureate degree are outlined below.

</table>
History Elective (HY 101, HY 102, HY 135, or HY 136) 3
*Social Sciences Electives (3 courses)
(recommend AN 100 & SY 109) 9

Area V - Preprofessional, Major & Electives (24)
CIS 150 or CIS 110 or CIS 250 3
PSY 120 3
CLS 114, CLS 115 4, 4
ST 210 or BUS 245 3
PH 104 4
General Elective 3
*must complete a two course sequence in Literature or History

MAJOR REQUIREMENTS
Human Development (PSY 250, PSY 340, PSY 350; EPY 251, EPY 315, EPY 451) 3, 3
Aging (PSY 250, PSY 356; BLY 207; HSC 450, HSC 457; SY 372, SY 472; LS 479, GRN 290; AIS 201, AIS 401) 3, 3
Multicultural (EDF 315; EPY 315; AN 200, AN 458; SY 315, SY 428, SY 445, SY 455; PSY 270, PSY 485; AIS 320; IS 100, IS 200) 3, 3
Psychology (PSY of your choice) 3, 3
SHS 290 or approved elective 3

Prior to enrolling in SHS courses at the 300- and 400-level, students must complete CLS 114, CLS 115, CIS 150 or CIS 110 or CIS 250, SHS 291, and at least one course each from the Aging, Multicultural, and Human Development areas. Students must have achieved an overall GPA of 2.5 in order to enroll in SHS 300- and 400-level courses.

REQUIRED SPEECH AND HEARING SCIENCES COURSES (36 credits as given below)
SHS 291 3 SHS 314 3
SHS 331 4 SHS 341 4
SHS 414 3 SHS 431 3
SHS 441 3 SHS 452 3
SHS 474 3 SHS 473 3
SHS 480 4

A special course fee is assessed for the following course:
SHS 480 $37.00

DESCRIPTIONS OF ALL SPEECH AND HEARING SCIENCES (SHS) COURSES

MASTER OF SCIENCE IN SPEECH-LANGUAGE PATHOLOGY
The Master of Science (MSSLP) in Speech-Language Pathology serves either as a professional preparation for clinical certification by the American Speech-Language-Hearing Association (ASHA) or as preparation for graduate study leading to the Ph.D. degree. The MSSLP program provides a broad range of basic science courses and specialized offerings emphasizing evaluation and treatment of language, articulation, fluency, voice, swallowing, and neurologically-based communication disorders. Students are prepared for careers as clinicians in schools, hospitals, rehabilitation centers, and community clinics. Clinical practicum experiences occur at the on-campus Speech and Hearing Center and many affiliated clinics, rehabilitation centers, schools, and hospitals. Within this framework, students must meet the academic and practicum requirements leading to the Clinical Fellowship (CF) that occurs post graduation. Completion of the CF results in national certification (the Certificate of Clinical Competence (CCC) in Speech-Language Pathology awarded by ASHA) and eligibility for State of Alabama Licensure. The MSSLP program typically extends for five academic semesters, including one partial semester of clinical externship. Graduate assistantships are available annually on a competitive basis. Applications for admission and assistantships are accepted after November 1 with enrollment beginning in the Fall Semester only. The deadline for receipt of all application materials is February 15. Specific information about the Master's program is available from the department.
REQUIREMENTS FOR ADMISSION
Students are admitted in the Fall Semester only. The following criteria supplement the Graduate School criteria:

REGULAR ADMISSION
1. A baccalaureate degree (or equivalent) in the field of communication sciences and disorders from an accredited college or university is required for admission. This includes all prerequisites for admission into the graduate program. Students who do not hold a baccalaureate degree in the field must complete the Prerequisite Program. (See below.)
2. A minimum 3.0 ("A"=4.0) overall undergraduate GPA to be considered for regular admission, a minimum of 2.5 overall undergraduate GPA for provisional admission.
3. A Graduate Record Examination (GRE) score. The GRE must have been taken within the last five years.
4. Three references from faculty at the undergraduate institution are required. Two of these references must be provided by Ph.D. faculty within the applicant's undergraduate department.
5. A Letter of Intent stating the applicant's reasons for pursuing the degree.

Because the number of applicants is greater than the number of vacancies in the program, students are admitted on a competitive basis, based on the criteria stated above. Because of limited course sequencing, students are admitted in Fall Semester only. Students must submit complete applications by February 15 of the year in which they intend to matriculate.

In addition, students should have a course in human anatomy and physiology, an adequate background in psychology, and one course each in basic statistics and computer science. In order to meet ASHA certification requirements, students are strongly encouraged to complete course work in areas dealing with multicultural issues, aging/gerontology, and human development. Students with a bachelor’s degree in other fields will be expected to meet Prerequisite Program requirements in speech pathology and audiology.

REQUIREMENTS FOR DEGREE
The Master of Science in Speech-Language Pathology degree requires a minimum of five semesters of full-time academic study. A portion of the final semester is spent off campus completing the externship.

TYPICAL COURSE SEQUENCE
Master of Science in Speech-Language Pathology

Year 1
Fall | Spring | Summer
--- | --- | ---
SLP 532 3 | SLP 510 | 3SLP 568 2
SLP 541 3 | SLP 533 | 3SLP 534 2

SLP 596 3 | | |

A special course fee is assessed for the following course:
SLP 596 | $50.00

DESCRIPTIONS OF ALL SPEECH-LANGUAGE PATHOLOGY (SLP) COURSES

DOCTOR OF AUDIOLOGY
The Doctor of Audiology (Au.D.) serves either as preparation for professional clinical audiologists (including certification by the American Speech-Language-Hearing Association, ASHA) or as preparation for graduate study leading to the Ph.D. degree. The Au.D. program provides a broad range of basic science courses and specialized offerings emphasizing assessment, intervention, and prevention techniques used with patients of all ages who have hearing or balance related disorders. Students are prepared for careers as clinicians in schools, hospitals, rehabilitation centers, private practice and community clinics. Clinical practicum opportunities occur at the on-campus Speech and Hearing Center and many affiliated ENT clinics, rehabilitation centers, schools, and hospitals. Within this framework, students must meet the academic and practicum requirements for national certification (the Certificate of Clinical Competence, CCC, in Audiology awarded by ASHA) and State of Alabama Licensure. The Au.D. Program typically extends for 11 academic semesters including two semesters of clinical externship. Assistantships are available annually on a competitive basis. Applications for admission and assistantships are accepted after November 1 with enrollment beginning in the Fall Semester only. The deadline for receipt of all application materials is February 15. Specific information about the Au.D. Program is available from the department.

REQUIREMENTS FOR ADMISSION
Students are admitted in the Fall Semester only.
The following describes admission criteria:

REGULAR ADMISSION
1. A baccalaureate degree (or equivalent) in the field of communication sciences and disorders from an accredited college or university is required for admission. This includes all prerequisites for admission into the Au.D. program. Students who do not hold a baccalaureate degree in the field must complete the Prerequisite Program. See section below for information about the Prerequisite Program.
2. A minimum 3.0 (A=4.0) overall undergraduate GPA to be considered for regular admission, a minimum of 2.5 overall undergraduate GPA for provisional admission.
3. A Graduate Record Examination (GRE) score. The GRE must have been taken within the last five years.
4. Three references from faculty at the undergraduate institution are required. Two of these references must be provided by Ph.D. faculty within the applicant's undergraduate department.
5. A Letter of Intent stating the applicant's reasons for pursuing the degree.

Because the number of applicants is greater than the number of vacancies in the program, students are admitted on a competitive basis, based on the criteria stated above. Because of limited course sequencing, students are admitted in Fall Semester only. Students must submit complete applications by February 15 of the year in which they intend to matriculate.

In addition, students should have a course sequence in human anatomy and physiology, an adequate background in psychology, and one course each in basic mathematics and physics or chemistry. In order to meet ASHA certification requirements, students are strongly encouraged to complete course work in areas dealing with multicultural issues, aging/gerontology, and human development.

REQUIREMENTS FOR DEGREE
The Au.D. degree requires a minimum of 11 semesters of full-time academic study. The final two semesters are spent off campus completing externships.

- AUD 672: $50.00

### Descriptions of All Audiology (AUD) Courses

#### Prerequisite Program for Students Holding a Bachelor’s Degree in Another Discipline

The Prerequisite Program in the Department of Speech Pathology and Audiology offers appropriate prerequisite undergraduate course work to individuals who hold a bachelor’s degree in an area other than speech and hearing science, speech language pathology, audiology, or communication disorders. Students apply directly to their chosen program of study (Master’s in Speech-Language Pathology or Doctor of Audiology). Admission is limited and on a competitive basis. Those who meet admission requirements are admitted to the appropriate graduate program and, if they maintain appropriate grades, continue studies at the graduate level after completing the undergraduate curriculum. Students may need to successfully complete additional coursework outside of the department. This coursework may be completed prior to admission to the program or concurrently with the undergraduate SHS coursework. All out-of-department coursework must be completed during this initial year. This includes supporting course work in mathematics or statistics, an anatomy and physiology sequence, physics or chemistry, and 2 psychology courses.

Given the structured curriculum in this special track, students are admitted Fall Semester only. Students interested in this program should contact the department for advising prior to applying. Application procedures are outlined under the program of study, MSSLP or AUD.

#### Doctor of Philosophy Program in Communication Sciences and Disorders
The Doctor of Philosophy (Ph.D.) Program in Communication Sciences and Disorders offers students specialization in speech and language pathology, communication science, or audiology. The doctoral program is designed to provide a formal course of training and advanced research in communication sciences and disorders that produces significant, original contributions to the professional discipline. Course work in experimental research design, statistics and various out-of-department opportunities maximize the student’s ability to engage in original research and scholarship. A doctoral student is admitted to candidacy upon passing a written and oral comprehensive examination.

Applicants wishing to pursue the Ph.D. degree design a program suited to meet their future teaching and research goals in speech-language pathology, audiology, and/or applied speech/hearing sciences within the framework of the core requirements described below. For full-time students, it is anticipated that they can complete the Ph.D. in three years.

There are two tracks that students can choose in pursuit of the Ph.D. degree: Track One is for applicants who have completed both undergraduate and graduate level training in the profession or a related field. For these students, it is assumed that they have either already met course work requirements toward certification by the American Speech-Language-Hearing Association (ASHA), or they are not pursuing certification. Students with bachelor’s degrees within the discipline may enter this program but do not complete the clinical requirements for certification through ASHA (i.e., CCC-A or CCC-SLP).

Track Two is designed for students who wish to obtain clinical certification in either discipline as part of their training. This track is available as a fast-track option to the Ph.D. program and is available to Au.D. and SLP Master’s degree students after they have completed one half of their degree programs. That is, Au.D. students can apply to the Ph.D. program after the first two years of their Au.D. training. If accepted, they proceed to complete the requirements for the Au.D. and the Ph.D. programs simultaneously. They are awarded both degrees at the completion of all program requirements, and they are eligible for ASHA CCC-A. Students in the MSSLP program can convert to the Ph.D. program after one year of the master’s degree and complete the Ph.D. in three years. They are awarded the Ph.D. only. They will have, however, demonstrated the core knowledge and skills necessary to be eligible for the ASHA CCC-SLP. They will still need to complete the Clinical Fellowship (CF).

**REQUIREMENTS FOR ADMISSION**

**Minimum admission consideration requirements are as follows:**

**Track One:**
1. Bachelor’s or graduate degree. If the applicant wants to earn ASHA certification then a graduate degree in speech-language pathology or audiology is needed.
2. For bachelor’s applicants, minimum overall undergraduate GPA of 3.2 (based on 4.0) and minimum undergraduate GPA in the professional area of 3.5. For those holding a graduate degree, a minimum overall graduate GPA of 3.5.
3. Combined score of at least 1000 on the Verbal and Quantitative portions of the Graduate Record Examination (GRE).
4. Three letters of reference from faculty at the undergraduate institution are required. Two of these references must be provided by the Ph.D. faculty.
5. A Letter of Intent stating the applicant’s reasons for pursuing the degree.

**Track Two:**
1. Bachelor’s degree in speech-language pathology or audiology, or successful completion of undergraduate equivalency course work in the area of Speech and Hearing Sciences, or equivalent. (See prerequisite program above.)
2. Current status within the Au.D. or M.S. Speech-Language Pathology program at USA with a minimum graduate GPA of 3.5 (based on 4.0).
3. Combined score of at least 1000 on the Verbal and Quantitative portions of the Graduate Record Examination (GRE).
4. Three letters of reference from current faculty, two of these references being provided by the Ph.D. faculty.
5. A Letter of Intent stating the applicant’s reasons for pursuing the degree.

**PROGRAM REQUIREMENTS**

**CURRICULUM**

**Core Courses (12 hours)**

Pre-dissertation course work in experimental design, statistical procedures, and research instrumentation. Includes doctoral colloquia.
Electives (29 hours)
Electives include directed studies and directed research. Research projects are designed to give the student direct experience in the design, analysis and interpretation of experimental questions. This directed research is intended, in part, to provide the student with a project for their pre-comprehensive examination manuscript and oral presentation. These experiences are also designed as prerequisites to the preparation of the prospectus of the doctoral dissertation. Additionally, students may take course work within and outside the Department of Speech Pathology and Audiology.

Professional Practicum (4 hours)
Professional practicum experiences are designed to give direct experience with, at least, two of the following professional areas: teaching, clinical supervision and administration. These may be repeated but only 4 hours count toward degree requirements.

Dissertation (21 hours)
Total: 66 hours
NOTE: The above represent minimum requirements. A student, with approval or recommendation of the graduate faculty, may take additional course work in a specific area if it is needed to support the student's specialization area or to obtain knowledge in an ancillary area.

The Doctor of Philosophy degree program in Communication Sciences and Disorders requires a minimum of 66 semester hours of approved graduate course work beyond the Master's Speech-Language Pathology degree and a minimum of 50 hours beyond the Doctor of Audiology degree. Refer to the doctoral handbook for specific requirements.

APPLICATION
Applications for Track One of the Ph.D. program are accepted at any time and enrollment can begin any semester. Applications for the Track Two program are accepted after November 1 during the student's first year of the MSSLP program or second year of the Au.D. program. The deadline for receipt of all application materials is February 15.

GRADUATE ASSISTANTSHIPS/TUITION FELLOWSHIPS
Graduate assistantships and tuition fellowships are available annually on a competitive basis.

TRANSFER CREDIT
Normally, students are not permitted to transfer doctoral level credits. Exceptions to this policy would require approval of the Admissions Committee, Director of Graduate Studies for the College of Allied Health Professions, and the Dean of the Graduate School.

COMPREHENSIVE EXAMINATION
Ph.D. students must pass a comprehensive examination following successful completion of academic work. Subsequent to passing the comprehensive examination and successful presentation of an original research project the student is admitted to candidacy. The content of the student's comprehensive examination is determined by the student's comprehensive examination committee. The comprehensive examination consists of 18 hours of written examination followed by a 2 hour oral examination.

CANDIDACY
Admission to candidacy will be achieved upon successful completion of the comprehensive examination and professional presentation of a completed research project. The research project is undertaken with the guidance and approval of a pre-dissertation project committee. The doctoral candidate is, therefore, a student who has fulfilled all preliminary requirements for the Ph.D. and has only the dissertation research project as the remaining program requirement.

DISSERTATION/DISSERTATION DEFENSE
While only 21 semester hours of dissertation research may count towards the degree, a student must continually enroll in CSD 799 (Dissertation Research) until the final dissertation document has been approved by the Dean of the Graduate School. The final oral defense of the dissertation is scheduled after the dissertation study is completed and prepared in written form. Additional revisions of the dissertation may be required as a result of the defense or Graduate School evaluation.

**TIME LIMIT**
After reaching candidacy, students have a maximum of two years to complete the dissertation.

**DESCRIPTIONS OF ALL COMMUNICATION SCIENCES AND DISORDERS (CSD) COURSES**

DEPARTMENT OF CLINICAL LABORATORY SCIENCES

Chair: Holly K. Hall (251) 434-3461
Medical Advisor: J. Allan Tucker
Associate Professor: Hall
Assistant Professor: Carliss
Clinical Assistant Professors: Barrett, Ravine
Adjunct Associate Professor: Aliabadi
Adjunct Clinical Faculty: Cale, Engels, Gale, McRoyan, Miller, Stuardi, White

Department of Clinical Laboratory Sciences web site
http://www.southalabama.edu/alliedhealth/cls/

The Department of Clinical Laboratory Sciences prepares graduates for careers in the clinical laboratory sciences, involving the performance of laboratory tests used in the diagnosis and treatment of disease and the maintenance of health. Most graduates work in hospital laboratories in Clinical Chemistry, Hematology, Immunohematology and Microbiology, performing analyses on blood, various body fluids, and tissues. Clinical laboratory scientists help diagnose conditions such as diabetes, anemias, infectious disease and blood transfusion compatibility. The curriculum is designed to provide a broad education in the humanities and social sciences, extensive preparation in basic math and sciences followed by strong, in-depth study of the various clinical laboratory sciences. Completion of the program results in a Bachelor of Science degree in Clinical Laboratory Sciences and eligibility to challenge any of several national certification and state licensure examinations.

The program is organized in a 2+2 format, consisting of a 2-year pre-professional component and a 2-year professional component. The pre-professional component (freshman and sophomore years) consists of 64 units of prescribed general preparation and elective studies. The professional component (junior and senior years) comprises 5 semesters of advanced biomedical and clinical laboratory science course work. Enrollment in or successful completion of the pre-professional component as a clinical laboratory sciences major does not automatically assure acceptance in the professional component. A limited number of students are admitted each Spring to the professional component which begins in the fall semester.

The Senior Year consists of three consecutive semesters (12 months) beginning with the summer term following the junior year. The senior year calendar varies considerably from the normal University calendar. Twenty-eight weeks of the senior year comprise the clinical practica in the University teaching hospitals under supervision of clinical instructors. Students gain skills and confidence necessary for the entry-level professional. The students return to the University classroom for the final 5 weeks of the program for clinical correlation studies and certification examination review. During this time students evaluate case studies and practice advanced problem solving skills in preparation for national certification examinations.

ADMISSION REQUIREMENTS FOR THE PROFESSIONAL COMPONENT

Students are urged to obtain academic advice early and often while taking lower division pre-professional courses. Specific questions about Clinical Laboratory Sciences and professional course equivalents should be directed to the Chair of the Department.
All candidates for admission to the professional component must complete 2 years of pre-professional course work prior to entry into the program. Students must submit a special application for admission to the Professional Component. Application forms can be requested by writing the Department of Clinical Laboratory Sciences, University of South Alabama, 1504 Springhill Avenue, Room 2309, Mobile AL 36604-3273 or by telephone, (251)434-3461, or on the Allied Health Application deadline is February 1. Interviews will be scheduled during March and notification of admission to the professional component will be made by May 1. Late applications to the program (after February 1) will be considered if positions are available. Students are selected by various criteria that predict probability of success as a laboratory professional. Selection criteria include: 1) Science/Mathematics grade-point average to include course work in General Biology, Anatomy and Physiology, Microbiology, General Chemistry, Mathematics and Statistics; 2) overall grade-point average; and 3) interview with faculty to assess candidates’ aptitude for the program and the profession.

In order to be considered for admission to the Professional Component of the Clinical Laboratory Sciences Program, students must meet the following criteria:

1. The following pre-professional courses should be completed by the end of the fall semester in which the application for admission is submitted:
   - BLY 121, MA 112, BMD 210, ST 210, CH 131, 132, CLS 114.
2. The student must have a cumulative GPA for all college courses of 2.40 or higher and a GPA in BLY 121, MA 112, BMD 210, ST 210, CH 131, 132, CLS 114 of 2.40 or higher.
3. ALL pre-professional requirements must be completed prior to the beginning of the fall semester of the junior year. Students may not defer pre-professional prerequisites to the junior year.
4. The student must be in good academic standing to begin the Professional Phase of the Program. (See ACADEMIC STATUS, in the section titled ACADEMIC POLICIES AND PROCEDURES). Senior didactic courses (CLS 410, CLS 420, CLS 431 and CLS 432) must be completed at USA to receive a B.S. degree in CLS.

Failure to meet these criteria will disqualify an applicant from the professional component of the program for that year. Such an individual may reapply for admission to the professional program for the following year.

The Admissions Committee reserves the right to consider exceptional applicants who may not meet all requirements.

CORE PERFORMANCE STANDARDS are fundamental tasks and skills that are required for successful completion of the program. They have been outlined and are available from the Department upon request.

REQUIREMENTS FOR A MAJOR IN CLINICAL LABORATORY SCIENCES

Successful completion of 134 semester hours of pre-professional and professional course work are required for the Bachelor of Science in Clinical Laboratory Sciences as listed:

I. Pre-professional Component

Area I - Written Composition (6)
   - EH 101, EH 102

Area II - Humanities & Fine Arts (12)
   - CA 110 3
   - ARH 100, ARH 103, ARH 123, ARH 240, ARH 242, 3
   - ARS 101, DRA 110, MUL 101
   - EH 215 or EH 216 or EH 225 or EH 226 or EH 235 or EH 236 3
   - *Humanities elective (recommend PHL 131 if HY sequence chosen)

Area III - Natural Sciences & Math (11)
   - MA 112 3
   - CH 131/CH 131L, CH 132/CH 132L 4,4

Area IV - History, Social & Behavioral Sciences (12)
   - History elective (HY 101, HY 102, HY 135, HY 136) 3
   - *Social Science Electives (3 courses) 9

Area V - pre-professional, Major & Electives (23)
   - BLY 121/BLY 121L 4
   - CH 201 5
II. Professional Component

The Clinical Laboratory Sciences Program is fully accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), 8410 West Bryn Mawr Avenue, Suite 670, Chicago, IL 60631, (773)714-8880.
DEPARTMENT OF OCCUPATIONAL THERAPY

Chair: Marjorie E. Scaffa (251) 434-3939
Associate Professor: Scaffa
Assistant Professors: Lemcool, Wooster
Lecturer: O'Connor

Department of Occupational Therapy web site
http://www.southalabama.edu/alliedhealth/ot/ot.htm

Occupational Therapy is a health care profession devoted to providing service to persons with acute and chronic physical, emotional, mental and developmental disabilities. The occupational therapist helps individuals achieve independence in their daily lives and activities. An occupational therapist may aid in the growth and development of premature babies; create a learning environment for physically and mentally challenged children; adapt home environments for persons with stroke, cerebral palsy, spinal cord injury and other disabilities; and create activities that are designed to restore mental health for persons with emotional, mental, and substance abuse problems.

The Master of Science degree program in Occupational Therapy is an entry-level professional program designed to enable the student to develop advanced critical reasoning skills and to prepare the graduate for professional practice in a variety of settings. Graduates will also have the capability of assuming responsibilities in the areas of administration, program development, consultation and research in occupational therapy.

The program consists of 94 semester hours and is seven consecutive semesters in length. This includes 24 weeks of full-time Level II Fieldwork as required by accreditation standards. Level II Fieldwork is available in a variety of medical and community sites representing a diverse range of learning opportunities for students.

The program is designed to accommodate applicants who have either a baccalaureate degree in another field or advanced undergraduates who have completed three years (96 semester hours) of prescribed and elective undergraduate course work.

CRITERIA FOR ADMISSION

A new class of Master’s students begins each year in Fall semester. To be considered for admission to the program, students must submit an application with appropriate fees to the Occupational Therapy Department by the January 15th deadline.

The following are the minimum criteria to be considered for admission:

1. Completion of a baccalaureate degree with a minimum cumulative GPA of 3.0 on a 4.0 scale from an accredited institution prior to the starting date of the program, or completion of a minimum of 96 semester (144 quarter) hours. Students with 96 semester (144 quarter) hours of course work with a minimum 3.0 GPA may be admitted as Advanced Undergraduates.
2. Completion of the prerequisite course work listed below with a minimum GPA of 3.0 on a 4.0 scale.
3. Completion of the Graduate Record Examination (GRE) within the past 5 years. Official scores must be submitted directly to the University before the application deadline. Verbal and Quantitative components will be considered for admission purposes.
4. Applicants who meet all admission requirements will be invited for personal interviews.

Admission will be offered to students after both academic and interview scores are considered. Core Performance Standards, which are fundamental tasks that must be performed to successfully complete the program, have been outlined and are available upon request from the program.
Baccalaureate Degree Holders (Category I)
The student must hold a baccalaureate degree from an accredited college or university including prerequisites listed below and must meet the minimum requirements for admission.

Or

Advanced Undergraduates (Category II)
The student must have completed a minimum of 96 semester (144 quarter) hours of prerequisite work as stated below for Advanced Undergraduate students and must meet the minimum requirements for admission. Applicants interested in this category of admission should review the Additional Information for Advanced Undergraduate Applicants section.

APPLICATIONS ARE AVAILABLE IN OCTOBER AND ARE DUE BY JANUARY 15.

PROGRAM PREREQUISITES
Baccalaureate Degree Holders (Category I) and Advanced Undergraduate Applicants (Category II) must complete these prerequisites:

<td></td>
</tr>
</tbody>
</table>

*Must complete a two course sequence in Literature or History.

Extra points will be given to applicants who have completed any of the following additional courses with a grade of “B” or higher: anatomy (300 level or higher), physiology (300 level or higher), chemistry, pathophysiology, physics, infectious disease or microbiology, medical terminology, and any additional anthropology or sociology courses (300 level or higher).
Applicants are strongly encouraged to observe occupational therapy practice in a variety of settings. One (1) extra point towards admission is awarded for each 25 hours observed, up to a maximum of 75 hours or three (3) points. Documentation forms for observation may be obtained from the occupational therapy department.

Additional Information for Advanced Undergraduate Applicants:
Students not holding a baccalaureate degree must complete additional prescribed and elective courses including 25 semester hours in a major of their choice. This will help ensure that students who fail to gain admission to the Occupational Therapy program or who elect not to apply will be able to complete an undergraduate degree within the normal time frame.
Advanced undergraduates who are admitted to the graduate program will officially be classified as undergraduates for the first two semesters of the program but will be taking graduate courses in the program and will be held to the same standards of performance as the graduate students with bachelor’s degrees.
Upon satisfactory completion (minimum GPA of 3.0) of all course work during the first two semesters of the program, the student will be awarded a Bachelor of Science in Pre-Professional Health Sciences. The student will complete all necessary paperwork for reclassification as a graduate student and will continue through the remainder of the program.
The academic program for students with bachelor’s degrees and advanced undergraduates is identical in its entirety. Tuition will be assessed at the graduate level for the entire seven semesters of the Master’s degree program.
In the first two semesters of the program while classified as an undergraduate student, any financial aid awarded is restricted to the types and amounts for which an undergraduate student is eligible.

REQUIREMENTS FOR THE MASTER OF SCIENCE DEGREE IN OCCUPATIONAL THERAPY

</table>
During the Fall and Spring semesters of the last year students participate in fieldwork education at special fieldwork sites affiliated with the program. Students should plan on relocation to two different out-of-town fieldwork centers during these two semesters.

**Expenses**

Students should be prepared for extra expenses associated with professional studies including books, local travel to and from fieldwork sites and out-of-town travel and living expenses during Level II Fieldwork assignments. Special lab fees are assessed for the following courses:

**ACCREDITATION**

The Occupational Therapy Program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220. ACOTE’s phone number is c/o AOTA (301)652-AOTA. Graduates of the program will be able to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). Most states require licensure in order to practice; however, state licenses are usually based on the results of NBCOT Certification Examination. A felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure.

**DESCRIPTIONS OF ALL OCCUPATIONAL THERAPY (OT) COURSES**

**College of Allied Health Professions**
DEPARTMENT OF PHYSICAL THERAPY

Chair: Dennis W. Fell (251) 434-3575
Professor: Wall
Associate Professors: Fell, G. L. Irion
Assistant Professors: Dale, Gray, J. M. Irion, Jefferson

Department of Physical Therapy web site
http://www.southalabama.edu/alliedhealth/pt/

A Physical Therapist, also called a PT, is a health care professional who provides direct patient care to persons who have disorders of movement, mechanical, physiological and developmental impairment and functional limitations, whether caused by injury, disease, or pain to help them achieve maximum physical function and mobility. Physical therapists have the necessary training to meet the total range of primary patient care responsibilities involved in preventing disabilities and promoting restoration of function to the physically impaired, including musculoskeletal, neuromuscular, cardiovascular/pulmonary and integumentary disorders that interfere with physical function. The Physical Therapist performs an examination and then uses clinical reasoning to plan and implement patient-centered PT intervention. Physical Therapists practice in rehabilitation centers, private practices, hospital-based and outpatient-based centers, home health care, sports medicine centers, and in universities.

As its mission, “The Department of Physical Therapy is dedicated to the education of physical therapists who will be able to provide the community with the highest levels of professional care while maintaining a commitment to lifelong learning and the pursuit of excellence. We are further committed to advancement of knowledge in the profession through research and scholarly activity.”

The Doctor of Physical Therapy (DPT) program is an entry-level Physical Therapy program that consists of eight consecutive semesters of full-time professional graduate study. The DPT is a clinical doctorate degree, not a research degree, and is awarded after successful completion of the prescribed sequence of 118 semester hours (listed below) including classroom and clinical laboratory coursework and 33 weeks of full-time physical therapy internships. As an entry-level program, the DPT is designed as a first PT degree and is not appropriate for students who already hold a PT degree. The goals and objectives of the program are guided by the criteria and guidelines set forth by the Evaluative Criteria for Accreditation of Educational Programs for the Preparation of Physical Therapists (Commission on Accreditation in Physical Therapy Education). Graduates of the program are eligible to take the National Physical Therapy Exam for licensure.

The program begins each year in the Fall semester. The application deadline for Fall semester is January 15th of the same year. Additionally, international students must apply to the University's Office of International Services (including certified translations of transcripts) by October 15th, before making application to the Department of Physical Therapy.

Two categories of applicants are considered for admission:

1. Regular Graduate Applicants:
   It is highly recommended, and in most cases required, that applicants complete a bachelor's degree prior to starting the PT program.

   These applicants must hold a bachelor's degree in any field from an accredited college or university and complete all prerequisites for regular graduate admission as listed below with a GPA = 3.00. These applicants may apply in January if they will complete their bachelor's degrees before the Fall semester.

2. Advanced Undergraduate Applicants:
This special "advanced" early-entry option is reserved for the highly motivated and academically strong student. Students with at least 96 semester or 144 quarter hours of specific college prerequisites listed below and an overall GPA ≥ 3.50 may apply for entry into the program prior to completion of the bachelor's degree. The student applying with three years of prerequisites is then able to complete the Doctor of Physical Therapy degree with just six years of college. Applicants in this category should carefully review Additional Information for Advanced Undergraduates that follows the list of prerequisites.

MINIMUM REQUIREMENTS FOR ALL APPLICANTS
1. The applicant must declare one of the above categories on the application form (deadline January 15th) and meet all requirements including prerequisites.
2. Graduate Record Exam (GRE) scores must be officially reported to the University of South Alabama Office of Admissions by January 15th. GRE must have been taken within the last 5 years. Verbal, Quantitative and Analytical Writing sections may be utilized.
3. Regular Graduate applicants must have a minimum 3.0 (A=4.0) overall grade point average (GPA); Advanced Undergraduate applicants must have a minimum 3.5 overall GPA.
4. All applicants must have a minimum grade of “C” in each of the prerequisite courses.
5. Observation or work experience in Physical Therapy (50 hours minimum) under the supervision of a licensed Physical Therapist must be documented. A form is available for download from the web site that must be signed by the physical therapist with the license number included.
6. International applicants must have a TOEFL score ≥ 600, TSE ≥ 60 and TWE ≥ 4.5 and must apply to the University’s Office of International Services, with certified translations of transcripts, by October 15 of the previous year. This DPT program is not designed for students who already have a physiotherapy degree.

NOTE: If selected for interview, the applicant must achieve a satisfactory interview score, and if accepted into the program, must submit a health form and physical examination which includes required immunizations.

PROGRAM PREREQUISITES**
Prerequisites Required For All Applicants:
• English Composition (2 courses)
• Social Sciences (3 courses--at least two of which must be Psychology)
• Precalculus Algebra/Trigonometry or Higher Mathematics (1 course)
• Statistics (1 course)
• College Physics - with labs (2 semester or 3 quarter sequence)
• General Chemistry for science majors - with labs (2 semester or 3 quarter sequence)
• General or Cell Biology for science majors - with labsb (2 semester or 3 quarter sequence)
• Human Physiology - USA courses are BMD 334 & 335 (preferred) or BMD 330.

Additional Prerequisites for Advanced Undergraduate Applicants
• Fine Arts (History or Appreciation) (1 course)
• Literature I & II (World Lit, American Lit, or British Lit)
• Oral Communication (Speech) (1 course)
• History of Civilization or U.S. History (1 course)
• Computer Science (1 course)
• Microbiology or Infectious Disease (1 course)
• Electives (21 semester hours)c
  For Advanced Undergraduate applicants, prerequisites must total at least 96 semester hours.

a. For all prerequisite courses, credit older than ten years from the application deadline must be repeated or validated by examination or other appropriate mechanism.

b. Botany may not be used to satisfy this prerequisite.

c. Electives should be concentrated in a back-up major of the student's choice.

Additional Information for Advanced Undergraduate Applicants:
Students who have completed 96 semester or 144 quarter hours of prescribed and elective course work and who meet all admission criteria and the terms specified below are eligible for application to the program. Thus, these students may be able to complete the DPT degree in 6 years from entry into college. Students planning to pursue this category of admission should be working toward a back-up major in a discipline of their choice by the junior undergraduate year. This will insure that students who are not admitted to the graduate program or who elect not to apply will be able to complete a degree within a normal time period. Also, students who go on to complete a bachelor's degree and who meet all admission criteria (GPA = 3.0) will be eligible to apply later as Regular Graduate applicants.

In addition to the minimum admission requirements listed above, advanced undergraduate applicants also must acknowledge an understanding of the following:

- That, according to University policy, no more than 64 semester hours of transfer credit from two-year colleges will be accepted.
- That they will be officially classified as an undergraduate for the first 2 semesters of the program but will be taking graduate courses of the DPT program.
- That in the first 2 semesters of the program, while classified as undergraduate students, any financial aid is restricted to the types and amounts for which undergraduate students are eligible.
- That upon satisfactory completion (minimum GPA of 3.0 in all course work) of the first 2 semesters of the program, they will be awarded the Bachelor of Science in Preprofessional Health Science degree. These students must then complete application for reclassification and admission to the Graduate School. Upon satisfactory completion of the next 6 semesters of the DPT program, students will be awarded the Doctor of Physical Therapy (DPT) degree.
- That tuition will be assessed at the graduate level for the entire 8 semesters of the professional program.
- That the academic program for students in both categories is identical in its entirety.
- That for the entire 8 semesters of the program they will be held to the same standards and policies as students enrolled in the graduate school (see the policies of the Graduate School).

**ESSENTIAL FUNCTIONS**

Core Performance Standards, which are fundamental tasks that must be performed to successfully complete the program, have been outlined and are available upon request from the program and on the department web site.

**EXPENSES**

Students should be prepared for extra expenses (estimates available on the web site) associated with professional studies including books, local travel to and from clinical facilities and for out-of-town travel and living expenses during the 33 weeks of clinical internship in the first year and the final year. Special lab fees are assessed for the following courses:

- **PT 600** Human Anatomy I $75.00
- **PT 601** Human Anatomy II $200.00
- **PT 603** Neuroscience $15.00
- **PT 612** Research Project $50.00
- **PT 621** Introductory PT Skills $20.00
- **PT 625** Therapeutic Intervention $20.00

**REQUIREMENTS FOR THE DOCTOR OF PHYSICAL THERAPY DEGREE**

The Doctor of Physical Therapy (DPT) degree requires the following course sequence after admission to the professional program:
Year I Fall
- PT 600 Human Anatomy I 3
- PT 602 Life Span Human Development 2
- PT 620 Clinical Kinesiology 4
- PT 621 Introductory PT Skills 2
- PT 622 Exercise Physiology 4
- PT 680 Professional Practice - W 2

Year I Spring
- PT 601 Human Anatomy II 4
- PT 623 Therapeutic Exercise I 3
- PT 625 Therapeutic Intervention 2
- PT 630 Musculoskeletal Disorders I 4
- PT 670 Clinical Case Studies I - W 1
- PT 681 Clinical Practice Issues 2

Year I Summer
- PT 604 Pathophysiology 4
- PT 610 Principles of Research 2
- PT 671 Clinical Case Studies II 1
- PT 682 PT Internship I 7

Year II Fall
- PT 603 Neuroscience in Physical Therapy 3
- PT 606 Pharmacology in Rehabilitation 2
- PT 624 Therapeutic Exercise II 2
- PT 631 Musculoskeletal Disorders II 4
- PT 650 PT in Integumentary Disorders 4
- PT 672 Clinical Case Studies III 1

Year II Spring
- PT 611 Research Proposal Development 2
- PT 627 Medical Screening 2
- PT 640 Neuromuscular PT Examination 3
- PT 641 Neuromuscular PT Evaluation 3
- PT 660 PT in Cardiovascular and Pulmonary Disorders 4
- PT 673 Clinical Case Studies IV 1

Year II Summer
- PT 612 Research Project 1
- PT 628 Mobility, Orthotics, and Prosthetics 3
- PT 632 Special Topics in Musculoskeletal Disorders 2
- PT 642 Neuromuscular PT Intervention 4

Year III Fall
- PT 605 Human Learning and Patient Education 1
- PT 614 Measurement in PT 1
- PT 674 Clinical Synthesis and Patient Management 2
- PT 683 PT Internship II 9
- PT 685 Management of PT Practice 3

Year III Spring
- PT 613 Critical Analysis of Research Literature 2
- PT 626 Health Promotion and Prevention in PT 1
- PT 675 Comprehensive Capstone 1
- PT 684 PT Internship III 10

Accreditation and Licensure
The Doctor of Physical Therapy program is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE). CAPTE can be contacted at 1111 N. Fairfax Street, Alexandria, VA 22314; accreditation@apta.org; (703) 684-2782 or (703) 706-3245. Graduates of the program are eligible to sit for the National Physical Therapy Examination (NPTE) to gain licensure. Applicants are hereby informed that a history of felony conviction, use of drugs or intoxicating liquors which affects professional competence, or narcotic law conviction will prevent licensure.
DEPARTMENT OF PHYSICIAN ASSISTANT STUDIES

Chair: Richard O. Nenstiel (251) 434-3641
Medical Director: Richard H. Esham
Associate Professor: Henderson
Assistant Professors: Nenstiel, Vetrosky, Dixon-Works
Instructor: Vrettos

Department of Physician Assistant Studies web site
http://www.southalabama.edu/alliedhealth/pa/

PHYSICIAN ASSISTANT PROGRAM
MASTER OF HEALTH SCIENCE DEGREE

The Physician Assistant Program serves as an entry into the profession and is designed for the student who holds a baccalaureate degree. Although the student's undergraduate major is not specified, certain prerequisites are required. These prerequisites are delineated under the section "Prerequisite Requirements and Criteria for Admission."

The program is designed to prepare the student for Physician Assistant practice in a variety of clinical practice settings following graduation. The focus of the program is to prepare primary care practitioners who will provide health care to rural and urban medically underserved areas.

Physician assistants are highly skilled practitioners who work under the general supervision of a physician. Physicians play a major role in the teaching program in order to assure that the patient-care provided by physician assistants is equivalent in quality to that of the physician. Physician assistants provide many medical services traditionally performed only by physicians. The services provided by physician assistants are both diagnostic and therapeutic. Diagnostic procedures can include taking medical histories, performing physical examinations, ordering and analyzing diagnostic studies such as laboratory tests, electrocardiograms and imaging studies. Therapeutic procedures such as suturing, removal of minor lesions and casting are also part of the services provided by physician assistants. Once diagnostic procedures are completed, the physician assistant reports pertinent findings to the supervising physician and develops a diagnosis. A treatment plan is implemented and appropriate referrals are made, if necessary, to other health professionals. Physician assistants are also able to prescribe medication in most states.

Patient education and counseling are important aspects of a physician assistant's daily activities. Physician assistants educate and advise patients concerning disease prevention, health promotion, and help direct patients toward appropriate psychological and social resources.

The complete program consists of seven consecutive semesters (27 continuous months) of study and is divided into two components: The Preclinical Component and the Clinical Component. The Preclinical Component consists of four semesters (15 consecutive months) of basic and clinical medical sciences. The Clinical Component is three semesters (12 continuous months) in length and consists of clinical rotations in each of the major areas of medicine and surgery. During the clinical component, the student increases medical knowledge and refines clinical skills which are needed for professional practice as a physician assistant. The entire curriculum is outlined as follows.

In addition to the academic standards of the Graduate School, any grade of "D" or lower will result in academic dismissal from the Department of Physician Assistant Studies. Withdrawal from any course in the Physician Assistant Program automatically results in dismissal from the program.
PREREQUISITE REQUIREMENTS AND CRITERIA FOR ADMISSION

Listed below are minimum criteria including course prerequisites necessary to be considered for admission to the Physician Assistant Program. The Department of Physician Assistant Studies and the Office of Academic Advising can address questions concerning these prerequisites. All prerequisite and/or bonus courses, even if earned through advanced placement or experiential learning, must appear as an official course on a transcript from a regionally accredited institution. The Department of Physician Assistant Studies does not accept transfer credit. The selection of students for entry into the program is competitive. Successful applicants will generally exceed the minimum criteria listed below for admission.

The following are minimum criteria for admission:

1. Completion of a Baccalaureate degree with a minimum cumulative GPA of 3.0 on a 4.0 scale from a regionally accredited institution prior to the starting date of the program. Provisional admission may be offered to selected students who do not meet this criterion.

2. Course work with a minimum grade of "C" in science and mathematics including the following: one course each in general biology, anatomy, microbiology, and physiology; two courses in general chemistry; one course in mathematics (college level algebra minimum); one course in psychology and one course in statistics. Extra points will be given to applicants who have completed any of the following courses with a minimum grade of "C": organic chemistry, immunology, genetics, biochemistry, physics, pathophysiology, pharmacology, and medical terminology.

3. Completion of the Graduate Record Examination (GRE) within the last 5 years. A minimum score of 900 on the combined Verbal and Quantitative portions is required. Official scores must be submitted directly to the University before the application deadline. Students should plan to take the GRE no later than early-October to ensure that official scores are received by the November 1st deadline.

4. At least one reference must be from a Medical Doctor (MD), Doctor of Osteopathy (DO), or Physician Assistant (PA).

5. Interview: Following the initial review of applications, a limited number of applicants will be invited for a personal interview. Verbal and written communication skills and previous healthcare experience will be assessed during the interview. The interview score is an important component for determining admission to the program.

6. Although out-of-state applicants are encouraged to apply, preference is granted to residents of Alabama as well as those in our Service Area. Residents of Escambia and Santa Rosa counties in Florida, and George, Green, Harrison, Jackson, Perry and Stone counties in Mississippi live within the 50-mile Service Area and are considered in-state.

LENGTH OF STUDY
Twenty-seven consecutive months.

PROGRAM ENTRANCE DATE
Late May of each year.

PROGRAM APPLICATION DATE
The application is a two-step process. The first step is to complete the online application via the Central Application Service for Physician Assistants (CASPA) at www.caspaonline.org. The deadline for applying through CASPA is November 1. If you do not have Internet capability, you may request a paper CASPA application at (240) 497-1895. The second step is to submit the supplemental application directly to the USA PA Program. The deadline for submission of all application materials is November 1. Timely and complete submission of all required materials is the applicant's responsibility. Applicants are strongly encouraged to complete all application materials at least 1 month prior to the deadline. The supplemental application, along with other detailed information is available by visiting our web site at http://www.southalabama.edu/alliedhealth/pa. Applicants with any transcripts from non-U.S. institutions will be required to complete an international student application through the Office of International Admissions, (251) 460-6050, if accepted into the program.
ACCREDITATION
The program has been granted accreditation by the Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA). Graduates are eligible to sit for the Physician Assistant National Certifying Examination (PANCE). Certification is required by most State Boards of Medical Examiners to practice as a PA.

REQUIREMENTS FOR DEGREE
The Physician Assistant Program leading to the Master of Health Science degree requires 121 semester credit hours with a minimum of seven semesters of study. Three of the seven semesters (12 consecutive months) are spent in full-time preceptorships in clinical settings.

Program requirements and course sequence are listed below.

At least 16 weeks of the clinical rotations must serve rural/urban underserved populations.

EXPENSES
Lab Fee for Human Gross Anatomy: $275.00 (one time charge).
In addition to expenses associated with textbooks, food, health insurance and lodging, students will be required to purchase their own laboratory coats, stethoscope, otoscope, ophthalmoscope, soft reflex hammer, and tuning fork. Also, students should anticipate extra expenses, particularly related to housing and transportation, during the clinical year.
The University reserves the right to change tuition and fees, as deemed necessary by the Board of Trustees, without prior notice.

PROGRAMS OFFERED:
Certificate Program in Radiologic Technology, Bachelor of Science in Radiologic Sciences
The Department of Radiologic Sciences prepares students for careers in diagnostic imaging. Although most graduates seek employment as diagnostic radiographers, many choose to specialize in advanced imaging modalities, such as mammography, magnetic resonance imaging, vascular radiography, computed tomography, ultrasound, and radiation therapy. To meet these diverse needs, the Department of Radiologic Sciences offers a Certificate Program in Radiologic Technology and a Bachelor of Science Degree in Radiologic Sciences. The programs are described as follows:

CERTIFICATE PROGRAM
The certificate program requires twenty-four months for completion. Students attend two academic years and two summer sessions. The program is fully accredited by the Joint Review Committee on Education in Radiologic Technology. Upon completion of the prescribed courses, students are eligible to write the American Registry of Radiologic Technologists Examination for licensure as Radiologic Technologists.

Students graduating from the certificate program and Registered Radiographers who are graduates of other college-level accredited programs may continue their education and complete a Bachelor of Science Degree in Radiologic Sciences. The baccalaureate program is designed to provide graduates of the certificate program with an opportunity to expand their career opportunities in radiology as administrators, educators, and advanced imaging specialists. The bachelor's degree requires an additional four semesters beyond the certificate program for completion. Following the completion of the bachelor's degree and appropriate clinical experience, students may seek advanced certification through the American Registry of Radiologic Technologists or American Registry of Diagnostic Medical Sonographers.

</tbody>
</table>

Total 23 hours
Completion of Department of Radiologic Technology certificate application. The application, reference forms, and revised question and answer packet are available on the web at www.southalabama.edu/alliedhealth/radiologicsciences.

Application deadline is May 15th.

Submit official ACT or SAT scores regardless of previous educational background. If individual scores for Math, English and Natural Science on the ACT are below 18, it is strongly advised that the test be retaken.

Submit three completed reference forms.

Submit official transcripts (all previous college transcripts, and high school transcript if one has completed less than 30 semester hours of college level work).

Minimum 2.0 GPA is required. For students who are attending/or have attended USA, the USA GPA will be used. GPAs from outside courses are not averaged into the USA GPA.

Prospective students will be required to spend four hours in the Department of Radiology at a designated hospital prior to the personal interview.

Personal interview with members of the Department of Radiologic Sciences Admissions Committee.

A short writing assignment will be given to each candidate on the day of their interview.

Following notification of acceptance to the program, applicants will receive information regarding the completion of a personal background check and a drug screening test.

Applicants will be screened on the basis of past educational performance and potential for the number of clinical openings available. Therefore, acceptance into the University does not guarantee admission to the program.

Special Lab Fees:
Special lab fees are assessed for the following courses:
RAD 131  $15.00
RAD 201  15.00
RAD 417  15.00
RAD 418  15.00
RAD 419  15.00
RAD 430  15.00

THE BACHELOR OF SCIENCE IN RADIOLOGIC SCIENCES PROGRAM
Enrollment in the Advanced Imaging course work is limited; thus, students should visit the web site at www.southalabama.edu/alliedhealth/radiologicsciences for information on the B. S. program and requirements for application.

ADMISSION CRITERIA
1. Successful completion of the Radiologic Technology Certificate program (90 semester hours) or another college-based program.
2. Admission to the University of South Alabama.
3. Completion of the ARRT examination with a passing score prior to the end of the first semester of the BS program.
4. Submit official ACT or SAT scores regardless of previous educational background.
5. Completed departmental application form and submission of transcripts no later than May 15th of the year for which admission is requested.
6. Submit three completed reference forms available on web site.
7. Minimum of 2.0 GPA.
8. Personal interview with members of the Department of Radiologic Sciences Admissions Committee.
9. A short writing assignment will be given to each candidate on the day of their interview.
10. Following notification of acceptance to the program, applicants will receive information regarding the completion of a personal background check and a drug screening test.
11. Applicants will be screened on the basis of past educational performance, review of Radiologic Technology course work and the number of clinical openings available. Therefore, acceptance into the University does not guarantee admission to the program.
REQUIREMENTS FOR THE DEGREE OF BACHELOR OF SCIENCE IN
RADIOLOGIC SCIENCES

Requirements for the degree of Bachelor of Science in Radiologic Sciences include the courses as specified below:

I. Successful completion of the Radiologic Sciences Certificate Program or equivalent (90 hours)

II. Imaging Specialty Electives and Management Option (20/25 hours)

Students may choose one of the following:

(a) the ultrasound option - 8 courses
   (28 semester hours)
   RAD 417, 421, 423 - Fall Semester
   RAD 418, 424 - Spring Semester
   RAD 419, 425, 427 - Summer Semester

(b) two other imaging areas - 4 courses
   (20 semester hours)
   Vascular (RAD 401, 402)
   CT (RAD 405, 406)
   Mammography (RAD 413, 414)
   MRI (RAD 409, 410)

(c) one imaging area listed in option (b) - 2 courses (10 semester hours)
   and 4 management courses (12 sem. hrs.)
   MGT 300, MGT 305, MGT 310, MGT 311, MGT 340, MGT 351, MGT 451, MGT 452, MGT 454, MGT 455, MGT 460, MGT 465

(d) The radiation therapy option - 12 courses
   (42 semester hours)
   RAD 441, 446, 448, 450 - Fall Semester
   RAD 442, 452, 455 - Spring Semester
   RAD 443, 453, 456 - Summer Semester
   RAD 444, 458 - Fall Semester

For students completing a certificate program at another college:

Students must complete at least 15 hours of upper division (300/400 - level) courses at USA in the major. In addition, two "W" (writing component) courses as well as 32 hours of upper division courses must be taken at USA.

III. General Studies

Literature Elective
(EH 215, EH 216, EH 225, EH 226, EH 235, or EH 236)
*Humanities Elective
ST 210
History Elective (HY 101, HY 102, HY 135, or HY 136)
*Social Science Electives (2 courses)
MUL 101, ARH 100, ARH 103, ARH 123, ARH 240, ARH 242, ARS 101, DRA 110
PSY 120
BLY 101, BLY 102 or BLY 121, BLY 122

* must complete a 2 course sequence in literature or history

**DESCRIPTIONS OF ALL RADIOLOGIC SCIENCES (RAD) COURSES**

**College of Allied Health Professions**
DEPARTMENT OF CARDIORESPIRATORY CARE

Chair: William Wojciechowski (251) 434-3405
Medical Director: Ronald Allison
Professor: Op't Holt
Associate Professor: Wojciechowski
Clinical Assistant Professor: Hill
Clinical Instructor: Pruitt

The University of South Alabama offers a complete program in Cardiorespiratory Care leading to the Bachelor of Science degree. The curriculum provides a broad education in liberal arts and basic sciences and an in-depth study in respiratory therapy and non-invasive cardiovascular technology. The program is fully accredited by the Committee on Accreditation of Allied Health Educational Programs (CAAHEP) and the Committee on Accreditation for Respiratory Care (CoARC). Upon graduation students are eligible to sit for the National Board for Respiratory Care Examination for entry into practice. The curriculum is divided into two components: the Pre-Professional Component and the Professional Component.

PRE-PROFESSIONAL COMPONENT
The Pre-Professional Component (freshman and sophomore years) may be completed in two years and consists of 66 semester hours of prescribed and elective course work.

PROFESSIONAL COMPONENT
The Professional Component (junior and senior years) consists of two years of academic and clinical study in Cardiorespiratory Care. The program includes one summer term between the junior and senior years. All candidates must have satisfied the requirements of the Pre-Professional Component to qualify for admission to the Professional Component. Enrollment into the Pre-Professional Component as a Cardiorespiratory Care major does NOT automatically assure the student admission to the Professional Component. Enrollment in the Professional Component is limited and admission is based on academic record and aptitude for a career in respiratory therapy and non-invasive cardiovascular technology as evidenced by personal qualifications such as character and motivation. Students will be required to complete formal application to the Professional Component. The application process normally begins in the spring semester of the sophomore year.

PROBLEM-BASED LEARNING CURRICULUM
The Cardiorespiratory Care curriculum is a problem-based curriculum. This instructional methodology requires students to be active participants in the learning process. This method of teaching is used to develop and improve the students' problem-solving abilities.

In the curriculum, students work in groups (5-7 students) and solve case studies under the direction of faculty members. Students assume the major responsibility for resolving the problems in the case studies by utilizing a variety of resources.
This approach to learning emphasizes self-direction, independent thinking, decision-making, information gathering, and problem solving. All of these skills are needed to succeed in the clinical setting. Students also develop and improve communication skills through this process, as they interact with fellow students, instructors, and other health care personnel. Students learn the value of working together as a team through the small group process.

ADMISSION REQUIREMENTS FOR THE PROFESSIONAL COMPONENT
1. Completed application form with appropriate application fee submitted no later than March 15 of the year for which admission is requested. (Late applications will be evaluated based on individual circumstances.)
2. A minimum of a 2.5 cumulative grade-point average in the science prerequisites.
3. A minimum of a 2.5 cumulative grade-point average in the Pre-Professional Component.
4. A personal interview with the Cardiorespiratory Care Admissions Committee.
5. Tour of hospital

REQUIREMENTS FOR A MAJOR IN CARDIORESPIRATORY CARE
Successful completion of 132 semester hours of Pre-Professional and Professional course work as specified below.

I. Pre-Professional Component

Area I - Written Composition
EH 101, EH 102 3,3

Area II - Humanities & Fine Arts
CA 110 3
ARH 100, 103, ARH 123, ARH 240, ARH 242, ARS 101, DRA 110, MUL 101 3
EH 215 or EH 216 or EH 225 or EH 226 or EH 235 or EH 236 3
*Humanities Elective (recommend PHL 121 or PHL 131 if HY sequence chosen) 3

Area III - Natural Sciences & Math
MA 112 3
CH 131/CH 131L, CH 132/CH 132L 4,4

Area IV - History, Social & Behavioral Sciences
PSY 120 3
SY 109 3
HY 101 or HY 102 or HY 135 or HY 136 3
*Social Science Elective 3

Area V - Pre-Professional, Major & Electives**
ST 210 3
BLY 121/BLY 121L 4
PH 104 4
BMD 210 3
CLS 114, CLS 115 8
CIS 150 3

*Must complete two course sequence in Literature or History.
**All Area V courses are required for entry into the Cardiorespiratory Care Program.

### Summer

Either:
- CRC 430 3
- CRC 440 5

Or:
- CRC 432 4
- CRC 442 5

And:
- CRC 415 2

10-11

### Senior Year

#### Fall

Either:
- CRC 430 3
- CRC 440 5

Or:
- CRC 431 3
- CRC 441 5

Or:
- CRC 432 4
- CRC 442 5

And:
- CRC 446 2
- CRC 450 1
- CRC 429 1

12-13

Special Fees

A special course fee is assessed in each of the following courses:

- CRC 330 $60.00
- CRC 431 100.00
- CRC 450 19.00
- CRC 451 19.00

In special situations, advanced standing may be available in the form of transfer credits and equivalency examinations. Documentation of pertinent information submitted by advanced-standing applicants, such as individuals having an associate degree in respiratory therapy, certified respiratory therapy technicians, or practitioners credentialed in other allied health professions, will be reviewed by the Cardiorespiratory Care Admissions Committee to determine the actual awarding and the method of advanced standing. Applicants seeking advanced standing at the University of South Alabama should consult directly with the Chair of the Department of Cardiorespiratory Care, USA Springhill, 1504 Springhill Avenue, Mobile, Alabama 36604-3273, Phone: (251)434-3405.

COLLEGE MISSION STATEMENT
The College of Arts and Sciences is the intellectual center of the University of South Alabama and is the foundation for establishing and building the quality of the University's academic programs. In the College of Arts and Sciences, students receive broad exposure to all areas of academic inquiry, as well as in-depth knowledge in their chosen field of study. The College provides every undergraduate student at the University, regardless of major, with the fundamentals of a liberal arts education to enhance students' knowledge and create an atmosphere in which students develop their own critical thinking, communication skills, and the tools with which to carry out independent inquiry. Such an education promotes a heightened sense of intellectual curiosity, an appreciation of the values and accomplishments of the sciences, arts and humanities, and a sense of awareness and responsibility for the well-being of their society.
In achieving these educational goals, the College of Arts and Sciences will:
• offer a full range of subjects in the humanities, fine arts, social sciences,
mathematics, and the natural sciences
• encourage breadth of learning and training in the fundamentals of scholarship
• create and apply knowledge in the arts and sciences through dedicated research, teaching, scholarship, and creative works
• maintain a community of teachers and scholars devoted to the preservation and discovery of knowledge and its transmission to students and to the public
• encourage and support the application of knowledge in service to the University, the Mobile metropolitan area, and the wider society
• emphasize the regional uniqueness of southwest Alabama, including its cultural heritage, its natural environment, and its strategic location as a port city on the Gulf of Mexico
• prepare students to participate in the larger world beyond the region by giving them an awareness of the complexity of global issues and contexts
• prepare students for meaningful and productive careers and contribute to the development of an educated work force responsive to the needs of the region

DEGREE REQUIREMENTS
The College of Arts and Sciences offers the following undergraduate degrees:

Anthropology B.A.
Biological Sciences B.S.
Communication B.A.
Chemistry B.S.
Criminal Justice B.A.
Dramatic Arts B.A.; B.F.A.
English B.A.
Foreign Languages B.A.
(French, German, Russian, Spanish)
Geography B.S.
Geology B.S.
History B.A.
International Studies B.A.
Mathematics B.S.
Meteorology B.S.
Music B.M.
Personalized Studies B.A.; B.S.
Philosophy B.A.
Physics B.S.
Political Science B.A.
Psychology B.A.
Social Work B.S.W.
Sociology B.A.
Statistics B.S.
Visual Arts B.F.A.

Options exist for students to earn dual degrees, double majors, or complete more than one minor. Students interested in these options should contact the Dean’s Office or Registrar’s Office for details.

Degree requirements are to be satisfied with Arts and Sciences courses unless otherwise specified. Upper division (300 level or greater) courses in other colleges may be taken for elective credit, only after approval of the student’s advisor, chair, and the dean.

At least 32 hours of course work must be at the upper division level in order to fulfill the University’s residency requirement. At least 15 of the 32 upper-division hours must be in the major or concentration area.

An overall grade-point-average (GPA) of 2.0 is required for graduation. In addition, a minimum GPA of 2.0 is required in the student’s major or concentration area.

BACHELOR OF ARTS AND BACHELOR OF SCIENCE
A minimum of 128 hours in prescribed and elective courses is required for the Bachelor of Arts or Bachelor of Science degrees in the College of Arts and Sciences.
Candidates for these degrees must meet the general requirements listed below, as well as completing the requirements for a major and minor field. All degrees within the College of Arts and Sciences require a minor with the exception of a B.A. in Foreign Languages and the B.F.A. in music, art, or drama. Requirements for a major or minor are listed under the departmental headings. A student may count no more than 50 hours in a single discipline toward a degree, and no more than eight hours of directed study toward a degree. The same course cannot be used to satisfy both the major and minor requirements.

**GENERAL EDUCATION REQUIREMENTS**

A minimum of 128 hours is required for all bachelors degrees awarded by the College of Arts and Sciences. Candidates for all bachelors degrees must complete the requirements of the general education curriculum, which encompasses four major areas of study:

**I. Written Composition**

**II. Humanities and Fine Arts**

**III. Natural Sciences and Mathematics**

**IV. History, Social and Behavioral Sciences**

The student should work with an academic advisor to plan his or her course of study in each of these four areas of the general education curriculum. The courses should be planned with an emphasis placed on continuity of information and compatibility with the student's major field(s) of study.

The following section lists the specific general education requirements for each of these four areas. The requirements described below apply to all Bachelor of Arts and Bachelor of Sciences degrees awarded in the College. The general education requirements that apply to the Bachelor of Fine Arts (B.F.A.) and the Bachelor of Music (B.M.) degrees are described in those sections of the *Bulletin: Departments of Visual Arts (B.F.A.), Dramatic Arts (B.F.A.), and Music (B.M.)*.

**GENERAL EDUCATION REQUIREMENTS**

**I. Written Composition (6 HRS)**

The written composition component of the general education curriculum is based upon the fundamental literacy in written English. The basic skills for this component are competence in university-level English composition, which includes writing well-organized, effective essays and research papers.

EH 101    EH 102

All undergraduates must complete two designated writing credit (W) courses, at least one of which must be in the student's major or minor.

**II. Humanities and Fine Arts (Total of 21 HRS)**

The Humanities and Fine and Performing Arts requirements have four components listed below as A, B, C, and D. The Fine and Performing Arts component of the general education curriculum addresses the creative and aesthetic needs of individuals, helping them to achieve an appreciation of art, music, and the dramatic arts. The oral communication component addresses the development of skills in the oral communication of English. The Foreign Language component emphasizes an introductory level of proficiency in a foreign language. The Humanities component of the general education curriculum focuses on the fundamental ideas, philosophy, and values of civilization. Humanities disciplines include African-American Studies, English, Foreign Languages and Literatures, and Philosophy.
A. Fine and Performing Arts Component (At least 3 HRS, but no more than 9 HRS)
   ARH 100, ARH 103, ARH 123, ARH 240, ARH 242, ARS 101, DRA 110, MUL 101

B. Oral Communication (3 HRS)
   CA 110

C. Foreign Language (6 HRS) One-year sequence; select from any one group:
   LG 101 and LG 102 or LG 024
   LG 111 and LG 112 or LG 021 or LG 113
   LG 131 and LG 132 or LG 023 or LG 134
   LG 151 and LG 152 or LG 022 or LG 153
   LG 171 and LG 172 or LG 173
   LG 190 or LG 290
   LGS 101 and LGS 102
   LGS 106 and LGS 107
   LGS 121 and LGS 122
   LGS 141 and LGS 142
   LGS 190 or LGS 290

D. Humanities Component (9 HRS Total. No more than 6 HRS in one discipline)
   One literature course is required (3 HRS). Choose from EH 215, EH 216, EH 225, EH 226, EH 235, EH 236.
   Two additional courses from Group 1 or Group 2 (6 HRS).
   **Group 1:** EH 215, EH 216, EH 225, EH 226, EH 235, EH 236, AFR 101, LG 205, LG 211, LG 212, LG 213, LG 231, LG 232, LG 251, LG 252, LG 271, LG 272, LGS 201, LGS 202, LGS 206, LGS 207, LGS 221, LGS 222, LGS 241, LGS 242, LGS 290, PHL 110, PHL 121, PHL 131, PHL 231, PHL 240
   **Group 2:** ARH 100, ARH 103, ARH 123, ARH 240, ARH 242, ARS 101, DRA 110, MUL 101, ARS 121, ARS 123, ARS 124, ARS 241, ARS 281, DRA 100, DRA 101, DRA 102, DRA 120, DRA 121, DRA 130, DRA 131, DRA 132, DRA 220, DRA 221, DRA 240, DRA 250, MUA 101-MUA 300, MUB 101-MUB 300, MUE 102, MUE 103, MUE 202, MUE 203, MUL 201, MUO 111-MUO 125

III. The Natural Sciences and Mathematics (14 HRS)
   The natural sciences, mathematical, and statistical component of the general education curriculum focuses on the experience of science as a rational search for understanding the natural world, and the appreciation of mathematics and statistics as valuable tools for everyday life and as intrinsically important ways of thinking.

A. Mathematics
   Select one course:
   MA 110, MA 112, MA 113, MA 115, MA 120, MA 125, MA 126

B. Natural Sciences
   Complete either option A or option B below:
   **Option A:** Complete 3 courses with labs.
   AN 210, BLY 101 or BLY 121, BLY 102 or BLY 122, CH 101, CH 103, CH 131 or CH 141, CH 132 or CH 141, GEO 101, GEO 102, GY 111, GY 112, PH 101, PH 104, PH 114 or PH 201, PH 115 or PH 202
   **Option B:** Complete 2 courses from list above and ST 210 or a math course above MA 112 except MA 201 and MA 202

C. Computer Technology Requirement
   All undergraduate students must demonstrate basic computer skills prior to graduation. This requirement may be satisfied by:
   1. Passing the Computer Proficiency Examination* (CPE),
   2. Passing CIS 150: Introduction to Computer Applications, or another CIS course specified by the major,
   3. For students who are pursuing a major leading to teacher certification: Pass EDM 310: Microcomputer Systems in Education. The course is required for all teacher certification programs.
*Freshman and transfer students will take the CPE during New Student Orientation. Students who fail the CPE may repeat the exam one time. Those who fail the CPE two times must comply with either #2 or #3 above. Students are advised to complete the computer competence requirement in their freshman years since computing skills are used in most courses.

IV. History, Social & Behavioral Sciences* (12 HRS)
This component of the general education curriculum focuses upon developing an appreciation of the study of human behavior and its consequences, including the structure and functioning of institutions and the history of cultures. Disciplines include Anthropology, Economics, Geography, History, International Studies, Political Science, Psychology and Sociology.
Select courses from at least 2 disciplines and a minimum of 3 hours History required. AN 100, AN 101, ECO 215, ECO 216, GEO 114, GEO 115, HY 101, HY 102, HY 135, HY 136, IS 100, PSC 130, PSY 120, PSY 250, SY 109, SY 112

*Sequence Requirement
As part of either area II (Humanities) or Area III (History, Social, and Behavioral Sciences), the student must take a 2 course sequence in either Literature (Area II) or History (Area III). The student must choose one of these sequence options:

EH 215 and EH 216
EH 225 and EH 226
EH 235 and EH 236
HY 101 and HY 102
HY 135 and HY 136

MAJORS AND MINORS IN THE COLLEGE OF ARTS AND SCIENCES
Requirements for a major are determined by the department and are listed under the departmental listing in this Bulletin. At least 15 hours of course work chosen from the major and numbered 300 or above must be satisfactorily completed in residence at the University of South Alabama. Courses are chosen in consultation with departmental advisors. Substitutions for stated requirements must be approved by the Chair of the department and the Dean of the college.
Undergraduate students pursuing a degree in the College of Arts and Sciences are required to have a major and a minor. The exceptions to this requirement are students who are pursuing a Bachelor of Fine Arts in Music, Drama, or Art, or a major in a Foreign Language. Requirements for a minor are determined by the department and published in this bulletin.
Students may not choose a major and a minor in the same department unless they are clearly separate disciplines that fall administratively under a single department and have been approved by the Dean. The same courses cannot be used to satisfy both the major and minor requirements.
Minors available to Arts and Sciences students include: Anthropology, Art, Art History, Biological Sciences, Communication, Chemistry, Criminal Justice, Dramatic Arts, English, Foreign Languages, Geography, Geology, History, Interdisciplinary Studies (African-American Studies, Gender Studies, Gerontology), International Studies, Mathematics, Meteorology, Music, Philosophy, Physics, Political Science, Psychology, Related Sciences, Sociology, and Statistics.
Minors are available in other colleges. See section below on Programs In Other Colleges and Divisions.

DOUBLE MAJOR
Undergraduate students may elect to fulfill the requirements for two majors simultaneously. To do so, the student must declare a primary major and a second major on the Declaration of Major form that is filed with the Registrar’s Office. The student’s academic file will be maintained in the department of the primary major. Students who complete the requirements for a second major are not required to complete a minor.
Students may count related courses from one major toward the fulfillment of the requirements for the other major, provided that the total number of credit hours counted toward both majors does not exceed twelve. Written permission of the student’s academic advisors and the Chair or Director of each major department or program is required for all courses double-counted.
BACHELOR OF FINE ARTS IN STUDIO ART
The degree requirements and admission requirements to the B.F.A. program in studio art are listed under the Department of Visual Arts.

BACHELOR OF FINE ARTS IN THEATRE ART
The requirements for the B.F.A. degree in theatre arts are listed under the Department of Dramatic Arts.

BACHELOR OF MUSIC
The requirements for the B.M. degree in performance and music education are listed under the Department of Music.

PROGRAMS IN OTHER COLLEGES AND DIVISIONS
Students in the College of Arts and Sciences may elect to pursue two majors and several minor fields of study in other colleges and divisions of the University. Those programs available to them are: a minor in General Business or Economics through the Mitchell College of Business; a minor in Computer and Information Sciences; a minor in Leisure Services through the College of Education; and a minor in Biomedical Sciences through the College of Allied Health Professions. For details of these programs, see the appropriate sections of this Bulletin.

Students seeking dual degrees or second degrees must have a course of study approved in advance.

INTERNATIONAL PROGRAMS
The College participates in a number of international programs: summer sessions in England, France, Greece, and Mexico; student exchange programs and seminars in France, Germany and Russia; as well as the International University Consortium.

For further information about these programs, contact the Department of Foreign Languages and Literature, or the Office of International Programs in the School of Continuing Education.

TEACHER CERTIFICATION FOR ARTS AND SCIENCES STUDENTS
Students in the College of Arts and Sciences may participate in the program leading to teacher certification in middle and high school education.

See College of Education for Teacher Certification Requirements.

COOPERATIVE EDUCATION PROGRAM
Students in the College of Arts and Sciences may participate in the Cooperative Education Program, which is described in a later section of the Bulletin. For further information, write to the Director, Career Services Center, University of South Alabama, Mobile, Alabama 36688-0002.

GRADUATE STUDIES
The College of Arts and Sciences offers programs leading to the Master of Arts in Communication, English, History, and Sociology; to the Master of Public Administration degree; to the Master of Science degree in Biology, Marine Sciences, Mathematics, and Psychology; and to the Doctor of Philosophy in Marine Sciences.

REQUIREMENTS FOR ADMISSION
Each applicant to a graduate program must meet the general Graduate School standards stated in the Graduate School Admission Requirements and Procedures. Individual programs may have additional requirements for admission and may be restricted because of capacity limitations. Consult departmental descriptions for additional information.
Department of Air Force Studies (AFROTC)

Chair: Lt Col Dale Blackburn (251) 460-7211
Professor: Blackburn
Assistant Professors: Dombrosky, Guillen, Pollitz, Stewart
Email: afrotc@usouthal.edu

Department of Air Force Studies web site
http://www.southalabama.edu/afrotc

Air Force ROTC offers students a course of study leading to a commission as a second lieutenant. Designed to complement individual academic majors, AFROTC courses can be applied toward minor requirements. Cadets enrolled in the program represent a broad cross section of the student body. The student/cadet has an opportunity to explore and evaluate Air Force career opportunities while earning a college degree. Completion of the AFROTC curriculum is the initial step in the education of the professional officer and provides a firm understanding of basic aerospace doctrine and the Air Force missions, organization, and operation.

The Air Force ROTC program consists of two phases: the General Military Course (GMC) and the Professional Officer Course (POC). Each phase requires four (4) semesters of study.

GENERAL MILITARY COURSE (THE BASIC COURSE)
Students may enroll in the General Military Course with no military obligation. The GMC courses deal primarily with the various Air Force organizations and their missions, as well as the history of the Air Force. Communication skills are also emphasized.

PROFESSIONAL OFFICER COURSE (THE ADVANCED COURSE)
Enrollment in the POC is limited to those students who have applied and been accepted for the course. Selection is based on interest in the Air Force together with academic records, observed leadership abilities, physical fitness, and the results of the Air Force Officer Qualifying Test. Application is normally made while a member of the GMC or (for students not enrolled in the GMC) early in the academic year prior to the year of desired entry. Individuals entering the POC must have two academic years remaining in college as full-time students at the undergraduate and/or graduate level. Upon completion, all POC students are obligated to accept a commission and enter the active-duty Air Force. Junior-year materials emphasize student involvement in learning and practicing management and leadership techniques. Leadership and management skills as they apply to a Junior officer in the Air Force are emphasized, and communication skills are stressed throughout the entire AFROTC curriculum. The senior-year course deals extensively with the political, economic, and social factors relating to the formulation and implementation of national security policy.

Cadets receive a nontaxable allowance ranging from $250 to $400 per month while on contract (normally during the two academic years in the POC). This stipend is in addition to any other scholarship benefits.

FIELD TRAINING COURSE
All students must complete one field training course, conducted at an active Air Force base during the summer months. Two types of courses are available, depending upon which program the student anticipates entering (two-or four-year). The two-year program requires a six-week field training course prior to entering the POC. The four-year program requires a four-week course to be completed, normally, between the sophomore and junior years.
When attending either field training course, a student is furnished transportation or payment for travel plus pay at the current rate of approximately $600 per month. Uniforms and free medical care are furnished while at field training. Students attending a six-week field training course receive academic credit for the full two years of courses in the GMC.

AFROTC COLLEGE SCHOLARSHIP PROGRAM
The Professor of Air Force Studies (PAS) can nominate qualified freshmen, sophomores, and juniors to compete for three and two-year scholarships. The scholarship entitlement pays full tuition and fees at USA, a textbook allotment, and the monthly $250 to $400 allowance mentioned above. Scholarship consideration is predicated on student ability, performance, and potential needs of the Air Force. Interested students need to contact the Department of Air Force Studies. Three and four-year scholarships are also available to high school students. High school students interested in applying should call the Department of Air Force Studies at (251)460-7211 or write the Department of Air Force Studies (AFROTC), University of South Alabama, SRH 156, Mobile, AL 36688-0002. Also, you can apply via the Internet at http://www.afrotc.com.

AIR FORCE ROTC UNIFORMS
Students in Air Force ROTC will be issued uniforms to wear to class and leadership laboratory. They must be turned in upon completion of the year or when the cadet drops or is dropped from the program.

COURSES OF INSTRUCTION
The GMC course is normally completed during the freshman and sophomore years. This basic course consists of four semesters of study with one hour of classroom work and two hours of leadership laboratory per week. The POC consists of four semesters of study, and this advanced course leads to a commission in the United States Air Force. Three classroom hours and two hours of Leadership Laboratory are required weekly. Students interested in this program should contact the Professor of the Air Force Studies.

REQUIREMENTS FOR A MINOR
Completion of the 16 hours of Arts and Sciences course work included in the GMC (Basic Course) and the POC (Advanced Course) are required for a minor in Air Force Studies. In addition, students must complete all commissioning requirements.

UNDERGRADUATE STUDIES

The program of the Department of Biological Sciences is designed to contribute to a scientific background as part of a liberal education. The department offers a diversified, broadly based program, which can be designed to satisfy many areas of study. Our multitrack major can provide the traditional student with a well-rounded background in biology, or students may select courses to prepare them for a particular area of study. The multitrack curriculum can prepare students for graduate study, pre-health professional fields (such as medicine or dentistry), marine biology, or environmental science. The department has persons trained to advise in each of these areas. A list of advisors for a specific track or area of study can be obtained from the departmental office. Students pursuing a degree in Biological Sciences also must have a minor in another discipline.

REQUIREMENTS FOR A MAJOR IN BIOLOGY

Students desiring to major in biology must meet the general requirements for a degree of Bachelor of Science in addition to the following requirements.

1. At least thirty-six hours of biology, including:
   a. Biology 121 and 122 ........................................................................................ 8 hrs
   NOTE: BLY 121, 121L, 122, 122L, or the equivalents, are prerequisites to all courses numbered 300 or above except by permission of the Chair of the Department of Biological Sciences. A year of college chemistry, or advanced high school preparation in biology and chemistry is highly recommended for these two introductory courses.
   b. At least 28 hours of biology electives above BLY 121, 121L, and BLY 122, 122L. One course must be selected from each of the following four categories:

   Category A
   Cellular and Molecular Biology, Biochemistry, and Physiology
   BLY 311 4 hrs BLY 314 4 hrs
   BLY 341 3 hrs BLY 431 4 hrs
   BLY 436 4 hrs BLY 440/441 4/4 hrs

   Category B
   Botany
   BLY 332 4 hrs BLY 432 4 hrs
   BLY 430 4 hrs BLY 435 4 hrs
   BLY 433 4 hrs

   Category C
   Zoology
   BLY 352 4 hrs BLY 354 4 hrs
BLY 360  4 hrs  BLY 365  5 hrs  
BLY 363  4 hrs  BLY 451  4 hrs  
BLY 453  4 hrs  BLY 455  4 hrs  
BLY 459  3 hrs  BLY 463  4 hrs  
BLY 470  4 hrs  BLY 471  4 hrs  

Category D Interdisciplinary Courses

Upper level courses not listed here will count towards a biology major but do not satisfy the requirements above.

2. Chemistry (CH 131, 132, 201, and either CH 202, 265, 414, 440, or 441)
3. A year of Physics (PH 114, 115) or Geology (GY 111 and 112)
4. Mathematics through Calculus (MA 115 and 125) or Statistics (MA 115 and ST 210)

Students must also complete two (W) and one (C) courses.

AREAS OF CONCENTRATION

Students who wish to concentrate in a specific area may want to follow one of these optional tracks:

1. **Marine Biology**
   Biology majors desiring a concentration in marine biology should follow the recommended four-year curriculum for biology majors. At least one term must be spent in residence at the Marine Environmental Sciences Consortium at Dauphin Island or other approved marine lab, after the sophomore year. The department recommends that students select courses from: BLY 360, 367, 430, 451, 471, 474, 475 and 478.

   Dauphin Island Sea Laboratory publishes an Information Bulletin each year. Students may request a copy of the Information Bulletin by writing or calling: Registrar, Dauphin Island Sea Laboratory, Post Office Box 369-370, Dauphin Island, AL 36528, (251) 861-2141.

2. **Environmental Science**
   Biology majors desiring a concentration in environmental science should focus primarily on biology and chemistry. Biology 325 or 475 is required. The following biology courses are recommended: BLY 314, 352, 360 and 433. Upon consultation with the student's faculty advisor, additional biology electives are to be selected from the following: Cell Biology/Biochemistry, Non-Vascular Plants, Ecotoxicology (BLY 515), Freshwater Ecology (BLY 426), Additional courses augmenting this concentration include: CH 414, GY 111, GY 112 and GY 311; GEO 310; and SY 467.

3. **Pre-Health Professions**
   Biology majors planning a career in medicine, dentistry, optometry, pharmacy, veterinary medicine, or other preprofessional fields should follow the recommended curriculum for biology majors. A year of physics and one or more semesters of genetics and cell biology are strongly recommended for pre-health professional students.

Biology majors may select a traditional minor offered by departments in the College of Arts and Sciences or the Mitchell College of Business or select a Minor in Related Sciences by taking CH 131, CH 132, CH 201 and any two courses from the following:

- CH 202, CH 265, CH 414, CH 440, CH 441
- KY 344, KY 371, KY 413, KY 461
- MAS 573, MAS 575, MAS 589

GENERAL EDUCATION REQUIREMENTS FOR BIOLOGY MAJORS
Areas I, II, and III of the General Education Requirements for Biology are specified on page 50 (College of Arts and Sciences section). Note that Area IV requirements (Mathematics and Natural Sciences) are fulfilled by the major requirements specified above.

UNDERGRADUATE SENIOR THESIS IN BIOLOGY

The Biology Senior Thesis Program offers bright, academically motivated undergraduate students the opportunity to develop research and communication skills in preparation for a graduate or professional career. To apply for admission into the program, a student must:

1. Have completed BLY 121, 121L, BLY 122, 122L, CH 131, CH 132, plus one more upper division biology course.
2. Have earned a 3.25 GPA or better in biology courses attempted.
3. Have earned a 3.0 GPA or better overall.
4. Obtain a recommendation from a faculty member.

In addition to fulfilling the requirements of the standard biology program, senior thesis students must complete:

1. A minimum of two semesters (6 cr) of directed research, 3 cr of which must be Honors Research (BLY 499).
2. A formal research prospectus including an introduction, proposed methods, and relevant literature citation. The prospectus must be submitted and approved before the final semester of honors research is undertaken.
3. A formal written report in the form of a scientific paper.
4. A poster presentation at the USA Annual Research Forum.

Students participating in the Biology Senior Thesis Program who have a 3.5 GPA will also be eligible for University Departmental Honors status.

Biology students who are part of the University Honors Program will meet requirements for the Undergraduate Biology Senior Thesis as well as those of the University's program.

REQUIREMENTS FOR A MINOR IN BIOLOGY

Twenty-four hours of biology are required, including:
1. Biology 121, 121L, 122, 122L (General Biology).
2. Sixteen hours of biology electives, at least eight of which must be in laboratory courses taken in the Biology department at the University of South Alabama.

GRADUATE STUDIES

The Master of Science degree in Biology is designed to provide qualified students the opportunity to further their knowledge in generalized and specialized areas of biology, as indicated by course offerings and research interests of the faculty. In addition, the Department incorporates into its offerings some areas of study leading to concentrations in Basic Medical Sciences (through cooperative agreement with the College of Medicine - see next page) and in Marine Biology (through cooperative agreement with the Department of Marine Sciences and/or the Dauphin Island Sea Laboratory). Admission to the M.S. Program does not automatically qualify a student for entry into one of the special areas of concentration; students desiring such entry should familiarize themselves with the special conditions noted below and contact the Department for special rules and conditions.

REQUIREMENTS FOR ADMISSION

Students are admitted each semester.

The following criteria supplement the Graduate School criteria (see Categories of Admission):

REGULAR ADMISSION

1. Undergraduate major in Biology, Botany, or Zoology with a minimum GPA of 2.8 (on a 4-point scale) in all biological courses taken.
2. Two years of chemistry.
3. One year of physics or geology.
4. Mathematics at least through calculus or statistics.
5. Graduate Record Examination (GRE) score of at least 1100 on the Verbal and Quantitative portions, with at least a score of 500 on Verbal. (An MCAT score of 24 may be substituted for the GRE by persons intending to enter a cellular/molecular area.)

6. Students who do not speak English as their native language must submit a minimum TOEFL score of 600.

8. A letter from the student indicating their research interests.

9. A willing mentor from Biology (in this regard the student should contact the Graduate Coordinator before applying to the program).

PROVISIONAL ADMISSION
1. Undergraduate major or minor (or equivalent) in Biology, Botany, or Zoology.
2. A minimum undergraduate GPA of 2.5 (on a 4-point scale), with a minimum of 2.8 on all biological courses taken.
3. Submission of GRE (or MCAT) score as outlined above, but without minimum score requirements, and a minimum TOEFL score of 600.

NON-DEGREE ADMISSION
The Department of Biological Sciences accepts Non-Degree Graduate Students within the general admission and credit regulations of the University of South Alabama with certain reservations and limitations. Students should consult the Department concerning these limitations before applying for such status. Included, but not limited to, are the following:

1. Students are restricted to enrollment in courses prefixed BLY that the Chair determines will advance their career development in biological sciences. Only in exceptional cases wherein it is determined to the satisfaction of the Chair that the aforementioned career goals are enhanced will a non-degree student be permitted to enroll in courses in other departments.
2. Students must confer with the Chair or the Graduate Coordinator of the Department of Biological Sciences before attempting to enroll in any class.
3. Students seeking to change from non-degree status to a degree-granting program must reapply and be evaluated as any other student who has not previously applied to such program.

CONCENTRATION IN BASIC MEDICAL SCIENCES (BMS)
The purpose of this track is to provide qualified beginning graduate students with an opportunity to become research scientists in biology with an emphasis in basic medical science. Course work and research opportunities are offered in the Departments of Biochemistry, Microbiology/Immunology, Pharmacology, Physiology, and Structural and Cellular Biology in the College of Medicine, as well as in the Department of Biological Sciences. Students fulfill the normal criteria for the MS degree in Biology. Students must complete thesis research in basic medical sciences. This track prepares the student for additional graduate study in the basic medical sciences leading to the Ph.D. degree. A non-thesis option is not available.

Students are expected to choose a major professor and to define a thesis topic by the end of the first year in residence. The student and the major professor select an advisory committee consisting of the major professor, who may be from either Basic Medical Sciences (with a co-major professor from Biological Sciences) or the Department of Biological Sciences, and at least one other member from Biological Sciences.

CONCENTRATION IN MARINE BIOLOGY
Dauphin Island Sea Laboratory
The Dauphin Island Sea Laboratory is supported by nineteen colleges and universities in Alabama to form one marine campus. Students in the MS program Biological Sciences at the University of South Alabama may take courses through the sea laboratory and apply credits earned toward fulfilling requirements for the MS degree. Students frequently choose to spend part of their time, particularly in the summers, at Dauphin Island and the rest of their time on the main campus in Mobile. Other arrangements are also possible.

GRADUATE ASSISTANTSHIPS
The Department offers several types of assistantships to qualified students. Application forms for assistantships with primary responsibilities in teaching and preparing laboratories are available from the departmental office. In addition, some assistantships with primary responsibility in research are usually available each year. These assistantships are associated with grants and contracts that support the research of individual faculty members. In all cases, assistantships are approved by the Dean of the Graduate School upon recommendation of the appropriate sponsor within the University. To be eligible for an assistantship, MCAT or GRE scores must be submitted to the Biology Department.

**REQUIREMENTS FOR DEGREE FOR ALL STUDENTS**

Students will find detailed explanation of special departmental requirements in a document, “Special Policies and Procedures Regarding the Master’s Degree Program in the Department of Biological Sciences.” This document is available from the departmental office or the Biology web site, and describes initial orientation for new students, administration of the comprehensive examination, departmental seminars, and the like.

The curriculum for each student will be developed by the student’s advisory committee in view of the student’s professional goals. If, in the opinion of a student’s committee, the student lacks adequate undergraduate preparation or English skills, the student will be required to make up such deficiencies.

In addition to satisfying the general requirements of the Graduate School, the candidates for the Master of Science degree in Biology must satisfy the following requirements:

**Thesis Program**

1. Complete, with a minimum grade of “B”, thirty hours, of which at least twenty-four hours must be course work at the 400 or 500 level. No course at the 300 level or below may be taken for graduate credit. A maximum of six credit hours may be granted for Directed Studies (BLY 594). All courses must be accepted by the student’s graduate advisory committee. The student’s graduate committee may, at its option, after consultation with the student, require demonstration of additional proficiency in mathematics, computer skills, statistics, and/or require the student to take additional course work beyond the twenty-four hour minimum.
2. Complete a thesis representing original research. A maximum of six hours credit will be granted for the thesis. Enrollment in Biology 599 (Thesis) is not permitted until the student’s research prospectus has been approved by the advisory committee and the Directory of Graduate Studies, College of Arts and Sciences.
3. Enroll in Biology Seminar during at least two semesters of residency.
4. Complete successfully a comprehensive written examination in the student’s general area(s) of expertise as indicated by their research project and course work. The student’s graduate committee determines what defines the ‘area(s) of expertise’. This examination may be taken only after the student has completed 18 hours of graduate work excluding thesis credits. The student, with the endorsement of the major professor, should submit to the department a letter of intent to take the examination one week prior to its administration. The comprehensive examination is a requirement for graduation, not for admission to regular graduate standing. Candidates failing the comprehensive examination may be examined over the parts of the test which they failed after a minimum three-month delay. No portion of the comprehensive examination may be taken more than twice.
5. Make an oral defense of the thesis.
6. A student that starts as a ‘thesis student’ will be allowed to change their status to non-thesis only with the majority consent of their committee.

**Non-Thesis Program**

Students planning to pursue the Ph.D. degree are encouraged to follow the thesis option. However, a non-thesis curriculum is available for those students who so elect. The student will be required to complete the same degree requirements as those for a student who chooses the thesis option, with the following exceptions.

1. A thesis will not be required. Consequently BLY 599 (Thesis) may not be taken, and the six semester hours normally associated with it must be earned through formal course work.
2. The student must complete BLY 594 (Directed Studies) under the direction of a major professor. The student must also have a faculty committee whose members will decide if the student's report relating to the directed study is satisfactory. The committee normally will consist of the major professor and two others. The student is required to present an open seminar about the directed study during the last semester of residency.

3. A non-thesis student is allowed to change their status to 'thesis' only with the majority consent of their committee.
DEPARTMENT OF CHEMISTRY

Chair: Andrzej Wierzbicki (251) 460-6181
Professors: Jackson, Wierzbicki
Associate Professors: Cioffi, J. Davis, Forbes, Hoffman, Ngu-Schwemlein
Assistant Professors: R. Andrews, Loftin, Spyridis
Instructors: M. R. Andrews, P. Davis, Merritt, Roe

Department of Chemistry web site
http://www.southalabama.edu/chemistry

UNDERGRADUATE STUDIES
The chemistry curriculum is designed for students seeking a liberal education as well as for those students requiring more specialized training and skills. The courses provide the foundation necessary for those planning careers as chemists and biochemists following graduation, for students planning to further their education through advanced degrees in chemistry, biochemistry, related sciences, and for those in other professional fields. Two basic curricula are offered for chemistry majors:

1. **the American Chemical Society certified degree program in Chemistry** is available for those students seeking technical positions in chemistry, as well as for those planning to attend graduate school, or

2. a **Biochemistry Option track** is available for students strongly interested in the interface of chemistry and biomedical or biological sciences, especially for students anticipating going to graduate school in medical sciences, biochemistry, biophysics, or other life sciences.

Students pursuing a degree in Chemistry also must have minor in another discipline.

**REQUIREMENTS FOR A MAJOR IN CHEMISTRY (ACS CERTIFIED)**
A minimum of 48 semester hours in Chemistry beyond the Chemistry 132 or 141 course level as listed below:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CH 131, 131L</td>
<td>3, 1 hrs</td>
</tr>

</tbody>
</table>

**Electives:** In addition to these courses above, a student must choose one other 400 level chemistry course to satisfy the degree program requirements.

**Mathematics:** Two semesters of Calculus (MA 125, 126).

**Physics:** Two semesters of Calculus based Physics (PH 201, 202). Students planning to attend graduate school interested in either physical chemistry or analytical chemistry are encouraged to take the third semester of physics (PH 303).

**REQUIREMENTS FOR A MAJOR IN CHEMISTRY (BIOCHEMISTRY TRACK)**
A minimum of 45 semester hours in Chemistry beyond the Chemistry 132 or 141 course level, as listed below:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CH 131, 131L</td>
<td>3, 1 hrs</td>

CH 443  3 hrs  CH 465  5 hrs
CH 394/494  4 hrs  CH 492, 493  1, 1 hrs

Mathematics: Two Semesters of Calculus (MA 125, 126)

Physics: Two Semesters of calculus-based Physics (PH 201, 202)

GENERAL EDUCATION REQUIREMENTS FOR CHEMISTRY MAJORS
Areas I, II, and III of the General Education Requirements for Chemistry are specified on page 50 (College of Arts and Sciences section). Note that Area IV requirements (Mathematics and Natural Sciences) are fulfilled by the major requirements specified above.

REQUIREMENTS FOR A MINOR IN CHEMISTRY
A minimum of 15 semester hours in Chemistry beyond the Chemistry 132 or 141 course level is required. This minor will consist of CH 201, 202, and 265. Students are advised to consult with the Chair of the Department of Chemistry.

GRADUATE STUDIES
Although the Department of Chemistry has no graduate degree programs, courses are offered at the graduate level for those students who need such work.

DESCRIPTIONS OF ALL CHEMISTRY (CH) COURSES

College of Arts and Sciences
DEPARTMENT OF COMMUNICATION

Chair: Gerald L. Wilson (251) 380-2800
Professors: Wilson, Wright
Associate Professors: Aucoin, Rockwell, Ward
Assistant Professors: Carstens, Kearney, Mark, McPherson, Rosene
Instructors: Dardeau, Dupree-Taylor, Rigsby

The primary objectives of the Communication Department are: to understand and teach the functions, processes, and effects of communication; to attempt to influence communication environments in which we live in a contributory way; and to provide professional preparation for communication-oriented careers, including communication technology, journalism, public relations, organizational communication, and the mass media.

Given these goals, the Department attempts to meet individual performance and career needs with a flexible curriculum. Thus, while a “core” of courses is required of all Communication majors, students select one of the six tracks offered and confer with their advisors to plan their courses of study. These focused areas of study are not a vocational education, but they will help to prepare students for several employment possibilities.

The six tracks, or concentrated areas of study, offered in Communication are: Communication Technology, Interpersonal Communication and Rhetoric, Journalism (Print Journalism and Broadcast Journalism), Organizational Communication, Public Relations (Public Relations and Advertising), and Radio-Television-Film. In brief, the Department’s commitment to a broad-based study of communication activities permits a more intelligent choice of career fields. In addition, it provides a more meaningful classroom experience during the junior and senior years. Students pursuing a degree in Communication also must have a minor in another discipline.

REQUIREMENTS FOR A MAJOR IN COMMUNICATION

Communication majors must complete the College of Arts and Sciences Public Speaking requirement (CA 110), plus a four-course Communication Core consisting of Communication Theory (CA 200), Argumentation (CA 210), Writing for Communication Media (CA 220), and Foundations of Communication Research (CA 300). EH 101 and 102 are prerequisites to CA 200, 210 and 220. CA 200 is a prerequisite to CA 300. In addition to these five courses, all Communication majors must complete 27 semester hours in one of the department’s six tracks listed below. At least five Communication classes must be numbered 300 or higher and must be taken at USA.

Note: Credit for CA 394 and 494 cannot be used to satisfy this requirement.

GENERAL EDUCATION REQUIREMENTS FOR COMMUNICATION MAJORS

General Education Requirements for Communication are specified in the College of Arts and Science Section.

REQUIREMENTS FOR A MINOR IN COMMUNICATION

Minors in Communication must complete a total of 24 hours to include CA 110 (Public Speaking), CA 200 (Communication Theory), CA 210 (Argumentation), CA 220 (Writing for Communication Media), CA 300 (Foundation of Communication Research), plus nine additional hours in Communication including at least three hours of upper level credit. At least nine hours must be taken at USA.

TRACKS IN COMMUNICATION
COMMUNICATION TECHNOLOGY TRACK
This track is for students interested in studying communication technology.
**Required:** CA 260, CA 360, CA 366, CA 445
**Choose One:** CA 270, CA 286
Choose One: CA 211, CA 230, CA 241
**Choose Three:** CA 340, CA 352, CA 435, CA 453, CA 455, CA 496

INTERPERSONAL COMMUNICATION AND RHETORIC TRACK
This track is for students interested in studying interpersonal communication and rhetoric.
**Required:** CA 100, CA 211, CA 310, CA 400, CA 410, CA 422, CA 424
**Choose One:** CA 315, CA 411
Choose One: CA 360, CA 366

JOURNALISM TRACK
This track is for students interested in studying print or broadcast journalism.
**Required:** CA 101, CA 270, CA 445, CA 455

Print Journalism:
**Required:** CA 281, CA 370, CA 387, CA 472
**Choose One:** CA 360, CA 382, CA 388, CA 453, CA 457, CA 470, CA 481, CA 496

Broadcast Journalism:
**Required:** CA 250, CA 340, CA 350, CA 450
**Choose One:** CA 244, CA 360, CA 382, CA 388, CA 440, CA 453, CA 457, CA 496

ORGANIZATIONAL COMMUNICATION TRACK
This track is for students interested in studying organizational communication.
**Required:** CA 211, CA 230, CA 275, CA 286, CA 430
Choose One: CA 310, CA 411
Choose One: CA 400, CA 410, CA 422
Choose Two: CA 221, CA 260, CA 360, CA 435, CA 457

PUBLIC RELATIONS TRACK
This track is for students interested in studying public relations or advertising.
**Public Relations:**
**Required:** CA 101, CA 286, CA 386, CA 445, CA 484, CA 486
**Choose Two:** CA 230, CA 270, CA 470
Choose One: CA 211, CA 221, CA 244, CA 281, CA 321, CA 322, CA 350, CA 360, CA 370, CA 430, CA 453, CA 455, CA 496

Advertising:
**Required:** CA 101, CA 221, CA 321, CA 322, CA 445, CA 476
**Choose Two:** CA 286, CA 310, CA 455, CA 470
Choose One: CA 230, CA 241, CA 360, CA 386, CA 453, CA 484, CA 496

RADIO/TV/FILM TRACK
This track is for students interested in studying radio or television.
**Required:** CA 101, CA 241, CA 340, CA 356, CA 445
**Choose One:** 343, 344
Choose Three: CA 244, CA 260, CA 343 (if not selected above), CA 344 (if not selected above), CA 350, CA 352, CA 360, CA 388, CA 440, CA 441, CA 453, CA 455, CA 457, CA 496

GRADUATE STUDIES
The Master of Arts degree in communication provides education for the student who wishes to pursue either further graduate study beyond the master’s degree or a career in corporate or public communication. The department offers a thesis program. Students who select the thesis program will demonstrate mastery of knowledge of corporate and/or public communication and skills necessary to conduct communication research. Students who select the non-thesis program will demonstrate the mastery of knowledge of corporate and/or public communication and skills necessary to carry out a project.
REQUIREMENTS FOR ADMISSION
Students are admitted each semester. The following criteria supplement the Graduate School criteria (see Categories of Admission).

REGULAR ADMISSION
1. GRE General test is required. A combined score of at least 1,000 on the verbal and quantitative subtests is required. Permission may be granted on an individual basis by the Coordinator of Graduate Study to use a GMAT score in lieu of the GRE scores. If the GMAT score is used, it will enter into a formula that must compute to at least a score of 1,000. The formula used to compute the score of admission is: 200 x GPA + GMAT score. An earned master's degree may substitute for satisfactory GRE General Test scores.
2. An undergraduate major in communication or 36 semester hours in communication. A master's degree earned in a field other than communication may be offered as a substitute for a major in communication; all such requests for substitution will be reviewed on a case-by-case basis.
3. Satisfactory completion of these courses at the University of South Alabama or elsewhere: Communication Theory (CA 200 or 400), Research Methods (CA 300). An undergraduate course in Statistics is recommended.

PROVISIONAL ADMISSION
1. GRE General Test combined score of at least 800 on the verbal and quantitative subtests or GMAT/GPA calculated score of at least 800 (200 x GPA + GMAT) is required.
2. Minimum GPA of 2.5.
3. An undergraduate minor in communication or 24 semester hours in communication; applicants with otherwise strong records may be admitted conditionally with fewer than 24 semester hours in communication, but will be required to make up deficiencies in their undergraduate course work in addition to the normal master's degree requirements and to be eligible for Regular Standing. A master's degree earned in a field other than communication may be offered as a substitute for a minor in communication; all such requests will be reviewed on a case-by-case basis.
4. Incomplete record of undergraduate core courses (see #3 above under Regular Standing); applicants admitted provisionally will be required to make up deficiencies in the undergraduate core in addition to the normal requirements and in order to be eligible for Regular Standing.

NON-DEGREE ADMISSION
An applicant for admission to the Master of Arts in Corporate and Public Communication program who does not meet the requirements for admission under the regular or provisional categories, especially mature adults with considerable work experience, may apply for and be admitted as non-degree candidates if approved by the department's graduate committee. Students must maintain a "B" average on all courses attempted in the department to remain in the program. Upon successful completion of nine or more credit hours of graduate core courses with a grade of "B" or better in each course, a non-degree student may apply for regular admission to the program. Completion of the GRE with a combined score of at least 800 is required for admission to the program. Non-degree students may take a maximum of 18 credit hours over no more than two years. No more than 15 hours taken as a non-degree student may be applied to degree status.

GRADUATE ASSISTANTSHIPS
Applicants for graduate assistantships in communication should submit an application and three letters of recommendation to the Graduate Coordinator by February 1 at which date review of completed applications will commence for appointments for the following academic year. An application may be obtained by writing to the Graduate Coordinator.

REQUIREMENTS FOR DEGREE
Thesis Program
In addition to satisfying the requirements of the Graduate School, the candidate for the Master of Arts Degree in Communication must satisfy the following.
1. Complete at least 33 approved semester hours beyond the bachelor’s degree with a minimum overall 3.0 grade-point average. At least 24 hours of these courses must be in communication. At least 24 hours of these courses must be at the 500 level. All 400 level courses must be approved by the Graduate Coordinator. A minimum of 24 semester hours must be taken in residence at the University of South Alabama.

2. Complete successfully a comprehensive written examination, at least one semester before graduation. The comprehensive examination may be attempted no more than two times. A student who fails this examination must wait a minimum of three months before repeating it. Failure of the examination on the second attempt will result in dismissal from the program.

3. Complete a thesis representing original research.

4. Defend orally the thesis during the last semester of residency.

5. Complete all requirements for the degree within five calendar years from the date of matriculation as a graduate student.

Non-Thesis Program
This program is available to students who do not wish to conduct research or to continue graduate study beyond the master’s degree. Students who select the non-thesis program will complete two additional courses for graduate credit and an approved project instead of a thesis. The student must defend orally the project during the last semester of residency. At least 24 hours of courses in the non-thesis program must be in Communication. All other requirements of the thesis program apply to the non-thesis program.

THE CORE CURRICULUM
All candidates for the Master of Arts Degree in Communication must complete the following courses:

CA 500  CA 501  CA 502
CA 503

DESCRIPTIONS OF ALL COMMUNICATION (CA) COURSES
DEPARTMENT OF DRAMATIC ARTS

Chair: Leon Van Dyke (251) 460-6305
Professor: Miller
Associate Professors: Britton, Van Dyke
Assistant Professor: Ames

The programs are designed to provide students with a theoretical foundation and a practical proficiency in the arts of theatre. The Bachelor of Arts (B.A.) allows the student to gain a better understanding of the theatre, while the Bachelor of Fine Arts (B.F.A.) provides professional training in the same field. Both include lectures, workshops, and practical experience in all phases of the theatre.

REQUIREMENTS FOR THE BACHELOR OF ARTS DEGREE IN DRAMA
A minimum of forty-eight semester hours in Dramatic Arts, including DRA 100, DRA 101, DRA 103 (every semester), DRA 110, DRA 120, DRA 210, DRA 250, DRA 340, DRA 350, DRA 351; also one additional hour selected from DRA 100, DRA 101, DRA 102, DRA 300, DRA 301 or DRA 302; one additional three-hour acting course; six hours selected from DRA 130, DRA 131, and/or DRA 132; three hours selected from DRA 330, DRA 431, or DRA 432; and seven elective hours in Drama except DRA 100, DRA 101, DRA 102, DRA 103, DRA 300, DRA 301 or DRA 302. Students pursuing a degree in Drama also must have a minor in another discipline.

REQUIREMENTS FOR THE MINOR IN DRAMA
A minimum of twenty-four semester hours in Dramatic Arts, including DRA 100, DRA 101, DRA 110, DRA 120, DRA 210, DRA 350, DRA 351; three additional hours selected from DRA 130, 131, 132; and six elective hours in Drama.

REQUIREMENTS FOR THE MINOR IN DRAMA WITH A CONCENTRATION IN DANCE
Those interested in pursuing this minor should contact the Department of Dramatic Arts for minor requirements.

REQUIREMENTS FOR THE BACHELOR OF FINE ARTS DEGREE IN THEATRE ARTS
General Education and Core requirements as listed here and other theatre courses as approved. In addition to the Drama core requirements, an emphasis must be selected in either Acting, Tech/Design or Musical Theatre. An additional six hours are required and may be selected from any remaining courses in Dramatic Arts. Students pursuing the BFA in Theatre are not required to have a minor.

GENERAL EDUCATION REQUIREMENTS FOR BFA
I. Communication (6 HRS)
   EH 101, EH 102

II. Humanities (6 HRS)
   Dramatic Literature: EH 302, EH 322, EH 323, EH 460, EH 461, EH 462, EH 463, EH 472

III. History, Social & Behav. Sciences (12 HRS)
   Anthropology, Geography, History, Political Science, Psychology, Sociology

IV. Natural Sciences and Mathematics (11 HRS)
   1. Select 3 hours: MA 110, MA 112, MA 113, MA 115, MA 120, MA 125, or MA 126
   2. 2 Lab Sciences (8 hrs.): AN 210, BLY 101 or BLY 121, BLY 102 or BLY 122; CH 101, 103, 131 or 141, CH 132 or 141, GEO 101, GEO 102, GY 111, GY 112, PH 101, PH 104, PH 114 or PH 201, PH 115 or PH 202

V. BFA in Theatre Arts
   A. Dramatic Arts Core Requirements (31 HRS)
      DRA 100 1 hrs       DRA 101 1 hrs
      *DRA 103 4 hrs       **DRA 104 3 hrs
      DRA 110 3 hrs       DRA 120 3 hrs
      ***DRA 130 3 hrs     ***DRA 330 3 hrs

DESCRIPTIONS OF ALL DRAMATIC ARTS (DRA) COURSES
DEPARTMENT OF EARTH SCIENCES

Chair: Glenn R. Sebastian (251) 460-6381
Professors: Dilsaver, Isphording, Lamb (Emeritus), Wilson (Emeritus)
Associate Professors: Allison, Blackwell, Clark, Fearn, Haywick, Rivizzigno, Ryder, Sebastian, Williams
Assistant Professor: Kimball
Instructors: Connors, Stutsman, G. Wade, R. Wade

Department of Earth Sciences web site
http://www.southalabama.edu/geology

Geology is the study of Earth, its composition, and the forces that form and change it. As such, it encompasses a broad spectrum of studies and draws from the other basic sciences: chemistry, physics, and biology.

Geography, which is both a natural and a social science, studies the location, spatial distribution, and spatial interaction of Earth’s natural and human environments. Special attention is given to biogeography, climatology, environmental geography, soil geography, cultural geography, economic geography, historical geography, and urban geography.

Meteorology is the study of atmospheric phenomena and the processes that cause weather. The science of meteorology is firmly rooted in basic physical laws governing mass, momentum, and energy. Many weather processes are simulated by complex computer models; however, accurate weather analysis and forecasting often requires meteorologists to identify and conceptualize weather patterns often missed by automated techniques.

The programs of the Department of Earth Sciences are designed to give the non-major a background in Earth and atmospheric science and the human impact on the landscape as part of a general education. Students pursuing a degree in Geography, Geology, or Meteorology must also have a minor in another discipline.

A student may receive a major or minor in either geology, geography, or meteorology.

REQUIREMENTS FOR A MAJOR IN GEOLOGY

Students should complete a minimum of 50 semester hours in geology. GY 111 and GY 112 are prerequisites for most other upper level geology courses. The core requirements for a degree in Geology are listed below:

Core requirements for a geology major

<table>
<thead>
<tr>

Courses in statistics and computer science are strongly recommended for all Geology majors.
A program in related sciences has been approved as an acceptable minor for geology majors; however, it is recommended that the student seek a traditional minor. The completion of the related sciences minor requires: Biology 101 and 102 or 121 and 122; Physics 114 and 115; Chemistry 131 and 132; Mathematics through MA 126. Students seeking a minor in related sciences should be aware of the University requirement that all students must complete 32 resident hours in 300/400 level courses. An overall GPA 2.0 is required for the major.

GENERAL EDUCATION REQUIREMENTS FOR GEOLOGY MAJORS
Areas I, II, and III of the General Education Requirements for Geology are specified in the College of Arts and Sciences. Note that Area IV requirements (Mathematics and Natural Sciences) are fulfilled by the major requirements specified above.

REQUIREMENTS FOR A MINOR IN GEOLOGY
A student must take a minimum of 20 semester hours of Geology courses including GY 111 and GY 112. GY 310, 344, 345 and 371 are recommended for students majoring in Biology. GY 341, 431 and 475 are recommended for students majoring in Chemistry. GY 305, 360 and 420 are recommended for students majoring in Physics or Mathematics. For other majors, contact the Department of Earth Sciences.

REQUIREMENTS FOR A MAJOR IN GEOGRAPHY
A student with a major in geography must take a group of required core geography courses as well as six (6) additional upper division courses for a total of 50 semester hours. The six (6) additional upper division courses must be chosen from at least three (3) of the following categories: Human, Physical, Regional, and Technical. Geography 101 and 102 are prerequisites to most upper level physical geography courses and Geography 114 and 115 are prerequisites to most upper level human geography courses listed below.

A. Geography Major Requirements (46 HRS)

Core requirements for a geography major:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 101</td>
<td>4</td>
</tr>
<tr>
<td>GEO 114</td>
<td>3</td>
</tr>
<tr>
<td>GEO 330</td>
<td>3</td>
</tr>
<tr>
<td>GEO 435</td>
<td>3</td>
</tr>
<tr>
<td>GEO 102</td>
<td>4</td>
</tr>
<tr>
<td>GEO 115</td>
<td>3</td>
</tr>
<tr>
<td>GEO 332</td>
<td>4</td>
</tr>
<tr>
<td>GEO 480</td>
<td>4</td>
</tr>
<tr>
<td>Total</td>
<td>28</td>
</tr>
</tbody>
</table>

B. One additional natural science course, one additional social science course outside of geography, ST 210, and CIS 150.

C. Select six courses (for at least 18 hrs) from a minimum of three groups:

Human Geography Courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 312</td>
<td>3</td>
</tr>
<tr>
<td>GEO 365</td>

</tr>
<tr>
<td>GEO 320</td>
<td>3</td>
</tr>
</tbody>
</table>

Technical Geography Courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 461</td>
<td>4</td>
</tr>
<tr>
<td>GEO 331</td>
<td>4</td>
</tr>
<tr>
<td>GEO 442</td>
<td>3</td>
</tr>
<tr>
<td>GEO 420</td>
<td>4</td>
</tr>
</tbody>
</table>

D. Complete at least 15 semester hours in residence in major at the 300 and/or 400 level. A minimum GPA of 2.0 is required in major.

GENERAL EDUCATION REQUIREMENTS FOR GEOGRAPHY MAJORS

Areas I and II of the General Education Requirements for Geography are specified in the College of Arts and Sciences. Note that a portion of Area III (GEO 114, GEO 115) and the Natural Sciences portion of Area IV (GEO 101, GEO 102, ST 210) are fulfilled by the major requirements specified above.

REQUIREMENTS FOR A MINOR IN GEOGRAPHY

A student must take 20 semester hours of Geography, including 101, 102, 114, 115, and two electives at the 300 or 400 level.

REQUIREMENTS FOR A MAJOR IN METEOROLOGY

A student with a major in Meteorology must take a group of required courses totaling at least 45 semester hours. Meteorology students must take a core of 35 semester hours of meteorology courses, plus one of the specialty tracks listed below and three to four hours of electives. Students may meet the meteorology elective requirement by taking one or more course(s) from another track(s) or from additional meteorology offerings.

The meteorology degree also requires MA 125, 126, 227, 238, PH 201, 202; ST 315 and CIS 227 or MET 420.

Meteorology Major Requirements (49 HRS)

A. Meteorology Core Courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MET 140</td>
<td>4</td>
</tr>
<tr>
<td>MET 353</td>
<td>4</td>
</tr>
<tr>
<td>MET 341</td>
<td>3</td>
</tr>
<tr>
<td>MET 354</td>
<td>3</td>
</tr>
</tbody>
</table>
MET 355 3 hrs  MET 356 3 hrs
MET 357 2 hrs  MET 454 6 hrs
MET 455 6 hrs  MET 496 1 hr
Total  35 hrs

B. Select 3 - 4 hours of electives in Meteorology or courses listed in the tracks, and/or from MET 420, MET 442, MET 456 (W).

C. Select one group:
   Group 1 - Basic Meteorology Track:
   GEO 332 4 hrs or MET 492** 3 hrs
   GY 475 4 hrs MET 358 3 hrs
   Total  10-11 hrs

   Group 2 - Industrial Meteorology Track:
   MGT 300 3 hrs MET 492*** 2 hrs
   MKT 320 3 hrs GY 475 4 hrs
   Total  12 hrs

   Group 3 - Broadcast Meteorology Track:
   MET 359 2 hrs MET 498 3 hrs
   MET 497 3 hrs MET 358 3 hrs
   Total  11 hrs

   Group 4 - Environ. Meteorology Track:
   GY 475 4 hrs MET 492**** 3 hrs
   MET 359 2 hrs GEO 461 4 hrs
   MET 492**** 3 hrs
   Total  11 hrs

**Satellite Meteorology seminar
***Industrial meteorology seminar
****Air Pollution Meteorology seminar

D. Complete at least 15 semester hours in residence in major at the 300 and/or 400 level. A minimum GPA of 2.0 is required in major.

GENERAL EDUCATION REQUIREMENTS FOR METEOROLOGY MAJORS
Areas I, II, and III of the General Education Requirements for Meteorology are specified on page 50 (College of Arts and Sciences section). Note that Area IV requirements (Mathematics and Natural Sciences) are fulfilled by the major requirements specified above.

REQUIREMENTS FOR A MINOR IN METEOROLOGY
A student must take 20 semester hours of Meteorology, including MET 140, MET 353, MET 341 and 9 semester hours of electives from MET 342, MET 354, MET 355, MET 356, MET 357, MET 358, MET 401, MET 402, MET 420, MET 442, and MET 456 (W).

GRADUATE STUDIES
Although the Department of Earth Sciences has no graduate degree program, courses are offered at the graduate level for students enrolled in Marine Sciences and others who need such course work. Contact the Department.

DEPARTMENT OF ENGLISH

Chair: Sue B. Walker (251) 460-6146
Professors: McIver, Walker
Associate Professors: Beason, Payne
Assistant Professors: Alford, Amare, Amado-Miller, Cesarini, Coleman, Cohen, Guzy, Harrington, Hollingsworth, Jackson, McLaughlin, Nowlin, Shlensky, West
Instructors: Kracke, McFadden, Peterson, Spain
Emeritus: Hamner, McDonald, Varnado, Wilson

Department of English web site
http://www.southalabama.edu/english

Through its focus on the interpretation, analysis, and production of literary and other texts, the English Department teaches students how those texts are shaped by and in turn shape the world around them. In so doing, the Department helps students acquire the critical skills they need to analyze and participate in these interactions and contribute to the shaping of their worlds. The faculty's teaching and research in literature, creative writing, and composition/rhetoric combine to foster excellence in critical reading, creative thinking, and effective writing.

For all students, the Department provides the composition skills essential for success at the University and offers courses introducing the cultural diversity and historical breadth of British, American, and world literatures. For students majoring or minoring in English, the Department teaches critical strategies needed for intensive study in creative writing, professional writing, and in diverse literatures in English. For students pursuing graduate study in English, the Department provides advanced training in creative writing, literary analysis, rhetoric, methods of scholarly research, and critical theory. In all cases, by asking students to read, discuss, and write about a wide variety of texts, the Department promotes an inclusive and evolving understanding of English Studies. Students pursuing a degree in English also must complete a minor in another discipline.

REQUIREMENTS FOR A MAJOR IN ENGLISH

A minimum of 36 semester hours, exclusive of freshman English. Majors are required to take at least one survey sequence: EH 215/216 or EH 225/226 or EH 235/236. Any additional 200-level courses may be used to fulfill the 36-hour requirement; however, no more than four 200-level courses can count toward the major. The remaining hours must come from courses at the 300 level or above and include:

1. At least one course in literature prior to 1660 (EH 311, EH 321, EH 322, EH 323, EH 324, EH 460, EH 461, EH 465, EH 467, EH 470, EH 471, EH 472).
2. At least one course in British or American literature from 1660-1900 (EH 331, EH 332, EH 334, EH 340, EH 342, EH 343, EH 351, EH 352, EH 353, EH 354, EH 462, EH 474, EH 475).
3. At least one course in twentieth-century literature (EH 360, EH 361, EH 367, EH 368, EH 463, EH 468, EH 476, EH 478, EH 479).
4. One of the following courses: EH 402, EH 421, or EH 422.
5. At least two courses (exclusive of requirement 4) at the 400-level must come from any courses offered by the Department.

A student wishing to deviate from the standard curriculum and devise a unique program of study must demonstrate in writing to the English Advising Committee that such a program best serves that student's intellectual needs or career goals.

HONORS IN ENGLISH

To be awarded Honors in English a student must:

1. Complete all the standard requirements for the major in English.
2. Maintain a 3.5 overall GPA (University requirement) and a 3.5 GPA in all course work in English.
3. Receive permission from the Department Chair and agreement from a Department member to serve as mentor.
4. Complete a Senior Honor Thesis (EH 499) with a grade of “A” or “B” in addition to the standard 36 hour English requirement. EH 499 will count as six semester hours and generally be completed within one year (two semesters); however, three of these hours may be counted toward the 36 hour requirement including one 400-level course requirement. Normally, the student will conduct research during the Fall Semester and complete the paper during Spring. A committee of three or more faculty, which may include a member of the University Honors Program, will conduct an oral defense.

GENERAL EDUCATION REQUIREMENTS FOR ENGLISH MAJORS
General Education Requirements for English are specified in the College of Arts and Sciences section. Note that Area II Requirements are partially satisfied and Sequence Requirement fully satisfied by the major requirements specified above.

REQUIREMENTS FOR A MAJOR IN ENGLISH WITH A CONCENTRATION IN CREATIVE WRITING
A minimum of 36 semester hours in English, exclusive of freshman English. The two British survey courses (EH 215-EH 216) are required. Remaining hours must include:

1. Five creative writing courses (EH 391, EH 392, EH 393, EH 394, EH 395, EH 396, EH 483-EH 488, EH497, EH 498).
2. Five literature courses at the 300 level or above, including an American novel course (EH 331 or EH 361) and a Shakespeare course (EH 322, EH 323, or EH 472). The remaining three literature courses may be chosen from EH 300 and/or 400 level except EH 391, EH 392, EH 395, EH 396, EH 483-EH 488. Appropriate seminar and “Studies in” courses can serve to fulfill these requirements.

GENERAL EDUCATION REQUIREMENTS FOR ENGLISH MAJORS
General Education Requirements for English with a concentration in creative writing are specified in the College of Arts and Sciences section. Note that Area II requirements are partially satisfied and Sequence Requirement fully satisfied by the major requirements specified above.

REQUIREMENTS FOR A MINOR IN ENGLISH
A minimum of 21 semester hours in English, exclusive of freshman English. The minor requires at least four courses at the 300 level or above.

REQUIREMENTS FOR A MINOR IN ENGLISH: PROFESSIONAL WRITING
The minor in English: Professional Writing provides students with the conceptual foundations and hands-on practice necessary for communicating and writing proficiently in technical and professional contexts. The minor is intended to prepare students for producing the forms of writing they will encounter in the workplace (feasibility studies, technical reports, business letters, and grants, for example), and to provide a broad understanding of the rhetorical dimensions of written communication, especially nonacademic texts.

Requirements (21 hours)
Core Courses (9 hours):
1. EH 372: Technical Writing (W) or EH 373: Writing in the Professions (W)
   EH 402: Rhetoric: Ancient & Modern (W)
   EH 481: Studies in Composition/Rhetoric (W)
2. One of the following (3 hours):
   EH 371: Approaches to English Grammar (W)
   EH 372: Technical Writing (W) or EH 373: Writing in the Professions (W)*
   EH 401: Theory & Practice in Composition (W)
   EH 403: Art of the Essay
   EH 496: Professional Studies Internship
3. Three additional 300- or 400-level English courses (9 hours):
   Including but not limited to courses in the second section above.
*Students can take either or both of these two courses.
GRADUATE STUDIES
The Master of Arts degree program in English is designed to meet the needs both of students pursuing a terminal MA and of those planning to work toward the Ph.D. and a career in university teaching. The terminal MA serves such career tracks as junior college or secondary-school teaching, and writing or editing in the business or corporate community. Creative writers find the degree meaningful in careers both in and out of the academic community.

REQUIREMENTS FOR ADMISSION
Students are admitted each semester. The following criteria supplement the Graduate School criteria (see Categories of Admission):

REGULAR ADMISSION
1. For the Literature Concentration, an undergraduate major in English or at least 30 semester hours of course work in English beyond the freshman level. For the Creative Writing Concentration, at least 15 semester hours of course work in English beyond the freshman level.*
2. A minimum GPA of 3.0 in junior and senior level courses presented in fulfillment of requirement 1.
3. A score of at least 500 on the Verbal subtest of the GRE General Test.
4. For applicants for whom English is a second language, a TOEFL score of at least 535 and a personal statement of no more than 500 words in their own handwriting outlining their interest in and goals for pursuing a master's degree in English, an exercise that must be acceptable to the English Department's Graduate Committee.

PROVISIONAL ADMISSION
1. For the Literature Concentration, a minor in English or at least 21 semester hours of course work in English beyond the freshman level, at least 12 of these hours in upper-division literature courses. Students lacking the literature component can qualify by completing additional upper-division courses in literature. For the Creative Writing Concentration, 15 semester hours of course work in English beyond the freshman level.* Provisional Admission with fewer semester hours than those stipulated requires specific approval of the Department’s Graduate Committee.
2. A minimum GPA of 2.50 in junior and senior level courses presented in fulfillment of requirement 1.
3. Applicants presenting a score of less than 500 on the Verbal subtest of the GRE General Test must enter in the Provisional category. Applicants may also be admitted provisionally without submitting a score, but one must be submitted before the student can advance to Regular Status.
4. Same as requirement 4 for Regular Admission.

Students admitted provisionally may be required to make up deficiencies in their undergraduate course work in addition to the normal degree requirements listed below.
*Students must specify their concentration at the time of application and may not thereafter change concentrations without the specific approval of the English Department's Graduate Committee.

NON-DEGREE ADMISSION
Applicants for non-degree status in English will normally be admitted only if they meet admission standards for provisional admission. That is, they must have a 2.5 GPA overall and in junior-level and senior-level courses presented to meet the 21 hour (15 hours for creative writing) course work in English requirement. Following admission, non-degree students must have the permission of the Department Chair and the Director of Graduate Studies of the College for each course in which they wish to enroll. Enrollment will be on a space available basis with preference being given to degree students. Non-degree students must satisfy the same prerequisites as degree students to enroll in a course. Non-degree students may not enroll in directed studies courses. Non-degree students can change their status to Regular Admission by reapplying to the program after two semesters. Non-degree students can transfer up to 15 credit hours they earned as non-degree students.

GRADUATE ASSISTANTSHIPS
The English Department awards both teaching assistantships and research assistantships. Teaching assistantships involve responsibility for freshman composition classes. Graduate students holding research assistantships are usually assigned tasks involving tutoring, research, editing, or administrative/clerical tasks. Awards are normally made for the academic year; occasionally, assistantships become available for Spring Semester. Applications are taken continuously; competition for appointments begins in May for the following year. See Coordinator for information and application. (See also Bulletin section on Graduate School, “Assistantships and Fellowships.”)

REQUIREMENTS FOR DEGREE

During the second semester in the program, each student must submit an individual plan of study with regard to adequate coverage of British and American literature, literary theory, language, development of writing skills, and the student’s individual needs and objectives. The plan must be approved by the Coordinator of Graduate Studies in English.

1. **Concentration in British and American Literature**
   a. A minimum of thirty-six semester hours of credit is required beyond the bachelor’s degree with a grade of “A” or “B”, to include EH 501, Intro to Literary Theory, in the first year of course work, two courses from literary periods pre-1800, and two courses from literary periods post-1800. No more than twelve semester hours selected from the 400-level English courses may be used to meet the requirement of a minimum of thirty-six hours.
   b. Comprehensive examination options now include a written exam, a thesis with oral exam, and a writing portfolio with oral exam. Please contact the coordinator of Graduate Studies for information.
   c. Demonstrated proficiency in a foreign language is required (see 4 below).

2. **Concentration in Creative Writing**
   a. **Thesis with oral exam option:** A minimum of thirty hours credit in English course work, to include eighteen hours of courses in literature, and twelve hours of courses in writing, is required beyond the bachelor’s degree with a grade of “A” or “B”. No more than twelve semester hours selected from 400-level English courses may be used to meet the requirement of thirty-six hours minimum. The required thesis (six hours thesis credit to be granted on successful completion and oral defense of the thesis) will serve as the student’s exit evaluation along with an oral examination.
      
      **Written and Thesis option:** A minimum of thirty hours credit in English course work, to include eighteen hours of courses in literature and twelve hours of courses in writing, along with six hours of thesis credits to be granted on the successful completion and defense of the thesis, are required beyond the bachelor’s degree with a grade of “A” or “B”. No more than twelve semester hours selected from 400-level English courses may be used to meet the requirement of thirty hours minimum. At least one semester before graduation, students pursuing this option must pass one-half of the written comprehensive examination as described under the literature concentration.
   b. Students may concentrate on fiction, nonfiction, or poetry writing.
   c. This concentration is offered only as a thesis degree. For the thesis, a book-length work of fiction, nonfiction, or poetry is required.
   d. An oral defense of the thesis will be required at least four weeks prior to the anticipated graduation date. (For final submission of the thesis to the Graduate School, see the Bulletin section on General Information.)
   e. At least one semester before graduation, students must pass a written comprehensive examination, normally offered between semesters, based on a uniform study guide suggesting representative works in the field of literature and literary criticism. The study guide should be obtained from the English Graduate Coordinator as soon as the student enrolls in the MA program. A student who fails the examination may retake the failed sections after six months have elapsed from the date of the first examination. The comprehensive examination may be taken only twice and must be passed in its entirety.
   f. Demonstrated proficiency in a foreign language is required (see 4 listed below).

3. **MA in English with Alabama Class-A Professional Teaching Certification.**
Students holding Class-B Professional Teaching Certification may, in many cases, complete the regular graduate program in English with the literature emphasis in order to qualify for Class-A certification. Most students with an undergraduate degree in education will already have taken those education courses required for certification.

Upon admission, however, all students planning to pursue this certification must have their transcripts reviewed by the records specialist in education in order to ascertain whether the education requirements have been met or will require further course work in education. Up to nine semester hours in education at the graduate level may be incorporated into the literature emphasis as electives.

4. Foreign Language Proficiency Requirement
All students pursuing the MA in English must demonstrate a reading proficiency in Spanish, French, German, or Latin before registering for the comprehensive exam. Foreign nationals for whom English is not native may offer their native language. Credit in reading courses in acceptable languages may not count toward the 36 hour credit requirement for the MA in English.
Department of Foreign Languages and Literatures

Chair: Calvin Jones (251) 460-6291
Professors: Jones, Mozur
Associate Professors: Brown, McCreedy, Perez-Pineda
Assistant Professors: Fantoni, Lomangino, Khan, Rex
Instructors: Britt, Wilbanks

Department of Foreign Languages and Literatures web site
http://www.southalabama.edu/languages

The department contributes to the liberal education of all students by helping them to improve their ability to communicate with and understand other cultures in an increasingly interdependent world. The study of foreign languages provides students with additional basic knowledge of their own language, allows them to escape a narrow, monolingual view of the world, and offers them the opportunity to develop proficiency in a second or third language. In addition to introductory and intermediate level courses in Arabic, Chinese, Greek, Japanese, and Latin, the department offers a major in Foreign Languages and Literatures with concentrations in French, German, Russian, and Spanish. Minors are also available in those four languages.

In the first-year sequences (Introductory) the student is given a basic foundation in listening, speaking, reading, and writing. Typically, the emphasis is on ear training and oral practice followed by development of reading and writing skills. The second-year courses (Intermediate) build upon the skills acquired in the first year. Upper-level courses provide students with comprehensive knowledge of the important writers and movements of each language area’s literary legacy, while other courses concentrate on language and culture. Students with previous language training will be placed at the appropriate level.

REQUIREMENTS FOR A MAJOR IN FOREIGN LANGUAGES AND LITERATURES

In addition to fulfilling the general education requirements on page 50, students majoring in Foreign Languages and Literatures will complete 25 hours of core courses and 24 hours of study in an area of concentration. The core requirement takes the place of a traditional minor. 36 hours of electives remain toward completion of a Bachelor of Arts degree. The required core courses include Global Issues (IS 100), World Languages (LG 110), World Literature I & II (EH 235 and EH 236), Directed Study: Pre-Study Abroad (LG 394), Study Abroad (IS 391), and Senior Seminar (LG 480). Students are also required to submit a portfolio of work done in upper-level language and literature courses.

STUDY ABROAD COMPONENT

As part of their core requirement majors will earn a minimum of 9 semester hours at the upper level in the language of their concentration in an approved study abroad program. During their stay abroad students will be required to maintain on-line contact with their advisors, keep a journal of their activities, and gather materials to be used in LG 480 Senior Seminar upon their return. Subject to availability of funding, grants covering travel and cost-of-living expenses that majors would not normally incur as full-time residential students will be provided by the department.

For students majoring or minoring in Foreign Languages and Literature or International Studies, credits earned in approved Study Abroad programs, up to a maximum of 16 semester hours, may be used to satisfy the university residency requirement provided the student is enrolled in IS 391, Study Abroad and has transient course approval from the dean of the college. Study Abroad courses must be certified as equivalent to upper division (300 or 400 level) course work in order to fulfill the USA Residency Requirement.
Requirements for a Concentration

A minimum of 24 semester hours in one language is required, in addition to the 9 hour upper-level study abroad component. After completing the lower-division courses (Introductory and Intermediate sequences) the following specific upper-division courses are required depending upon the language in which the student wishes to concentrate:

- **French** - LG 311, 312, 326, 327
- **German** - Six hours from each of the following groups: LG 366, 367, 368, and LG 361, 362, 363, 364
- **Russian** - LG 374 or LG 376 and the remaining nine hours selected from the following courses: LG 374, 376, 381 and 375 (to be taken three times for a minimum of three course credits), 372 and 380
- **Spanish** - LG 333, 334, 336, and 431. Remaining credits needed to complete the concentration will be selected from additional upper-division courses offered in the respective languages.

Requirements for Minor in a Language

Students must complete a minimum of nine semester hours beyond the Introductory and Intermediate sequences. The student must complete the following upper-division courses depending on the language in which the student elects to minor:

- **French** - LG 326 and 327 and either 311 or 312
- **German** - LG 366 and either 367 (to be taken three times for a minimum of three course credits), or 368
- **Russian** - LG 374 or 376
- **Spanish** - LG 333 and 334. Remaining credits, if any, are to be selected from the upper-division courses in the appropriate language. Native or near-native speakers of a language may not enroll in upper-level conversation courses.

Advanced Placement Credit Policy

It is to the advantage of students to begin their study of a foreign language at the highest possible level because they can gain college credits through advanced placement. Students who have had three to five years of a foreign language in high school may wish to take the CLEP examination in that language and earn as many as twelve (12) semester hours of lower-division credit. On the basis of the Foreign Language department’s evaluation of their previous foreign language training and/or proficiency test scores, students may also elect to begin in the second semester of the introductory sequence, or the first semester of the intermediate sequence, and qualify for advanced placement credit. By earning a “C” or better in the higher level course the student may petition the department for either 3 or 6 semester hours of introductory-level credit. Native speakers are not eligible.

Foreign Language Proficiency Tests

Students in the College of Arts and Sciences with previous foreign language experience may satisfy the one-year foreign language requirement by taking a proficiency test administered by the department. The proficiency test measures levels of proficiency in listening, speaking, reading, and writing. A fifteen-minute oral test will be scheduled after satisfactory completion of the written component. Grading will be “S/U”. Non credit.

NATIONAL ASSOCIATION OF SELF-INSTRUCTIONAL LANGUAGE PROGRAMS (NASILP)

The Department offers several languages under the auspices of the National Association of Self-Instructional Language Programs, a professional organization that provides guidelines, develops materials, and sets standards for self-instructional language programs throughout the United States. Success in these courses requires a high degree of motivation, self-discipline, and a long-term commitment to developing oral/aural proficiency in the target language. Students, working on their own 10-12 hours a week with audio and video tapes and written materials, follow a carefully organized sequence of lessons and normally meet three times a week in small groups (3-6) with native drill instructors. NASILP-approved examiners are invited to the campus to administer final student performance evaluations. Success in this program depends upon students’ willingness to assume responsibility for learning appropriate listening and speaking skills. Before enrolling in a NASILP course students are urged to discuss course requirements and testing procedures with the local program coordinator. Call (251) 460-6291 for more information. Fee.

Graduate Studies

Although the Department of Foreign Languages and Literatures has no graduate degree program, graduate-level course work is offered in several languages under the rubrics of “Special Topics,” “Seminar,” and “Directed Studies.”

DEPARTMENT OF HISTORY

Chair: Clarence L. Mohr (251) 460-6210
Graduate Coordinator: Richmond Brown
Professors: Brandon, Holmes (Emeritus), Mahan (Emeritus), Mohr, Thomason
Associate Professors: Brown, Hannum, Houston, Macaluso, McKiven, Monheit, Nigota, Rogers
Assistant Professors: Brazy, Hamilton, Kozelsky, Miller
Instructor: Faust

Department of History web site
http://www.southalabama.edu/history

UNDERGRADUATE STUDIES

Knowledge and awareness of history and society are important ingredients of a liberal education. The Department of History offers general courses for all students, a major and a minor in history, and preparation for students who plan to continue study at the graduate level, to teach history, or to enter related fields.

REQUIREMENTS FOR A MAJOR IN HISTORY

A minimum of 36 semester hours in History, including HY 101, 102, 135, 136, one course in African (HY 362), or Asian (HY 103, 104, 366, 367, 368, 461), or Latin American History (HY 228, 321, 323, 325, 326, 429), and 21 semester hours of electives. These electives must include a minimum of fifteen semester hours in courses numbered 300 or above taken at this University, of which six semester hours must be in courses at the 400 level. Majors should seek as broad an acquaintance with the varieties of historical experience as possible. A strong major program should include upper-level courses numbered 300 or above in the history of Europe, the United States, Latin America, and non-Western societies. Students pursuing a degree in History also must have a minor in another discipline.

GENERAL EDUCATION REQUIREMENTS FOR HISTORY MAJORS

General Education Requirements for History are specified on page 46 (College of Arts and Sciences section). Note that Area IV requirements are partially satisfied and Sequence Requirement fully satisfied by the major requirements specified above.

REQUIREMENTS FOR A MINOR IN HISTORY

A minimum of 21 semester hours in History. Students must complete a six hour sequence in either Western Civilization (101 and 102) or US History (135 and 136) and 15 semester hours of electives, of which nine semester hours must be taken in courses numbered 300 or above at this University.

HONORS IN HISTORY

To be awarded Honors in History, a student must:

a) complete the standard requirements for a major in History
b) have a 3.5 overall GPA (University requirement)
c) have a 3.5 History GPA (Department requirement)
d) receive agreement of a member of the History Department to serve as mentor
e) receive permission of the Department Chair to undertake this program
f) complete a Senior Honor Paper (HY 499), with a grade of "B" or "A", in addition to the standard history requirements. HY 499: Senior Honors Paper (six semester hours credit) may be counted toward three hours of the 36 required for a major and toward three hours of the six 400-level hours required for the major. Thus, the student receiving honors in history will be required a total of 39 hours in history instead of 36 (In HY 499, the student will normally take three hours in Fall Semester for research and three in Spring for writing, though occasionally this may be spread out over a longer period. A final committee of three or more faculty, which may include a representative of the University Honors Program, will conduct an oral defense.)

NOTE: 1) one need not be receiving University Honors to obtain Honors in History; 2) a certificate will be awarded and a notation will be placed on the student’s transcript

GRADUATE STUDIES

The Master of Arts degree in History is designed to meet the varied needs of students. There are two study tracks or plans for completion of the degree: thesis, non-thesis. Normally, those who wish to enter a Ph.D. program, law school, or certain positions in archives, government, and community college teaching positions pursue the thesis option. Other students pursuing positions where a thesis is not needed often study in the non-thesis track.

For further information on the M.A. program, see the departmental booklet Graduate Program in History.

REQUIREMENTS FOR ADMISSION

Students are admitted each semester. In addition to Graduate School requirements, all applicants must submit GRE scores, a statement of purpose for undertaking graduate work in History and provide three letters of recommendation directly to the Office of Admissions. The following criteria supplement Graduate School criteria (see Categories of Admission).

REGULAR ADMISSION

1. At least twenty-one semester hours of college work in history approved by the Graduate Committee of the Department of History.
2. An average of "B" (3.0) or better in the junior- and senior-level history courses presented in fulfillment of requirement 1.

PROVISIONAL ADMISSION

Applicants whose undergraduate preparation in history does not meet the Graduate History Committee’s full approval may, at the discretion of the Committee and under the regulations of the Graduate School, be admitted provisionally and may be required to make up deficiencies in undergraduate course work in addition to fulfilling the regular degree requirements listed as follows.

To qualify for Regular Standing, a Provisional Admission student must satisfy the general requirements of this Bulletin and achieve a grade of "A" or "B" in nine consecutive semester hours of acceptable graduate course work.

NON-DEGREE STUDENTS

Students holding baccalaureate degrees from accredited institutions of higher education who are not interested in earning an MA degree, or who are not yet ready to apply for Regular Admission may enroll in a Non-Degree status. A suitable background for the courses to be taken is expected. Non-Degree students may enroll only in courses offered at specific times and places. They may not enroll in directed studies courses.

GRADUATE ASSISTANTSHIPS

A limited number of assistantships are awarded to incoming and returning graduate students on a competitive basis. Assistantships include a tuition waiver and a stipend, for which students are asked to work 20 hours a week, usually as teaching assistants, in public history, or assisting in the University Archives. Applications for each academic year are due in the department no later than March 15.

REQUIREMENTS FOR DEGREE

All candidates for the Master of Arts degree in History, regardless of which of the two tracks they are following, must complete the following requirements:

- A minimum of 33 credit hours with grade of "A" or "B".
• A minimum of 20 credit hours completed at the University of South Alabama.
• A maximum of 12 credit hours of 400-level courses. 400-level work taken for graduate credit will require extra work beyond what is expected of undergraduates.
• Take at least 21 credit hours at the 500 level, not all of which must be history courses.
• Complete HY 530 American Historiography.
• Complete HY 540 Modern European Historiography.
• Complete one of the following research seminars: HY 581 or HY 586 (HY 546, HY 553 or HY 578 may be substituted, if a research paper is completed).
• Choose two of the following fields and complete 12 credit hours in each:
  - American History
  - European History
  - Topical Fields

Note: A grade of “C” or below is not considered a passing grade by the Department of History. Students receiving such a grade in a required course must repeat the course.

The remaining requirements are dictated by the track under which students choose to study:

Non-Thesis
• Complete comprehensive examinations in two fields, one in American and one in European History (see list of fields above).
• Complete HY 597 Professional Studies: Directed Field Research or HY 592 The Teaching of History.

Thesis
• Complete a comprehensive examination in one field (see list of fields on previous page) other than the thesis field.
• Complete six credit hours of HY 599 Thesis.
• Submit an approved thesis prospectus.
• Formally defend their thesis. (Students must be enrolled in at least one hour of HY 599 when they defend.)
• Submit an approved thesis in accordance with Graduate School regulations.

MA in History with Class A Teaching Certification
This is also know as the “Strength in Subject Matter Program.” Only students who hold a valid Class B Teaching Certificate are eligible. Normally this applies to students with a B.A. in Education at a university or college in Alabama. Questions regarding eligibility should be directed to the Dean’s Office of the College of Education.

Students in this track may pursue the thesis or non-thesis option. In either case they must meet all requirements outlined above, with the following exception:
• A Survey of Special Education course (either SPE 400 or SPE 500), if not previously completed.

DESCRIPTIONS OF ALL HISTORY (HY) COURSES
INTERDISCIPLINARY PROGRAMS

Interdisciplinary programs are designed to combine several disciplines in their curriculum. Several interdisciplinary programs are offered by the College:

1. a minor in African-American Studies,
2. a minor in Gender Studies,
3. an undergraduate and graduate certificate in Gerontology,
4. a major in International Studies,
5. a minor in International Studies, and
6. Personalized Studies Program.

The requirements for each of these programs are listed as follows.

- **African-American Studies**
- **Gender Studies**
- **Gerontology**
- **International Studies**
- **Personalized Studies**

DESCRIPTIONS OF ALL INTERDISCIPLINARY STUDIES (IDS) COURSES

College of Arts and Sciences
AFRICAN-AMERICAN STUDIES

Director: Jean P. McIver (251) 460-6146
Faculty Affiliates:
- Mr. Bruce Alford, English
- Dr. Martha Jane Brazy, History
- Dr. Richmond F. Brown, History
- Dr. Zohair Husain, Political Science
- Dr. Denise McAdory, Sociology
- Ms. Alesia McFadden, English
- Dr. Henry M. McKiven, Jr., History
- Dr. Clarence L. Mohr, History
- Dr. J. Steven Picou, Sociology
- Dr. Michael V. Thomason, History
- Dr. Susan Youngblood, Philosophy
- Dr. Nathaniel Abston, Psychology

The minor in African American Studies provides an interdisciplinary investigation of the experiences, conditions, origins, accomplishments, and contributions of people of African ancestry in the United States. Students may deepen their appreciation and understanding of African-Americans by studying their earlier history in Africa, their transition to the New World, and their diasporic experiences in other parts of the world. The African-American Studies Program is comprised of eighteen courses offered through seven departments of instruction within the College of Arts and Sciences. The minor in African-American Studies takes advantage of those characteristics of the African-American experience that make it uniquely valuable for serious academic study and teaching, for it exposes students to the diversity and unity of the African-American experience as well as to the similarities and differences among the cultures of Africa.

Core Requirements
1. AFR 101, Introduction to African-American Studies (three semester hours). This course is to be taken immediately after the African-American Studies minor is declared.
2. At least one humanities and one social science course selected from the offerings below.
3. The election of additional courses to bring the total credits to at least 21 hours.

African-American Studies Course Offerings
AFR 101 (Required)

- HY 478
- PSC 364
- PSY 270
- SY 315
- SY 435
- SY 445

Other
- ARH 250
- ARH 343

A description of these courses may be found under the appropriate departments.
GENDER STUDIES

Director: Linda Payne (251) 460-6502

Department of Gender Studies web site:
http://www.southalabama.edu/genderstudies

The Gender Studies Program offers a minor in the interdisciplinary study of contemporary and historical gender theory and gender issues on a global level. The program allows students to acquire depth of knowledge in specific areas of gender-related focus and gender theory, as well as a wide range of research skills and methodologies from across the disciplines. The program offers courses from nine departments within the College of Arts and Sciences, as well as service learning and community internship opportunities.

Gender Studies deepens students’ understanding of areas of study such as historical/cultural constructions of femininity and masculinity and their representations; sexuality; feminist theory; GLBT studies; male and female physiology; gender and health, business and politics; and others. The Gender Studies Program encourages students to become actively engaged in gender-focused research and its practical applications, and provides numerous opportunities for students to interact with faculty members to discuss their current research.

CORE REQUIREMENTS

1. Students minoring in Gender Studies must complete a total of 18 semester hours in approved courses.
2. Students are required to complete two courses in the Humanities and two courses in Social Sciences.
3. Minor courses must also represent four different disciplines.
4. Approved Variable and Special Topics Courses that focus on gender studies can also be taken to complete the 18 semester hour requirement.
5. Students must complete at least one GS 290, Gender Studies Lecture Seminar. This is a one credit course and can be repeated up to three different semesters, for a maximum of three credits.

CORE COURSES

Gender Studies Courses
GS 290 Gender Studies Lecture Seminar (1 credit)
GS 490 Gender Studies Special Topics
GS 492 Seminar
GS 494 Directed Studies
GS 496 Internship

Humanities Courses
EH 207 Literature and Gender
EH 480 Studies in Gender and Literature
LG 305 Studies in Gender and Writing
Frequent offerings in approved special topics.

Social Science Courses
AN 355 Gender and Anthropology
HY 343 Witchcraft and Magic in Medieval and Early Modern Europe
PSY 470 Psychology of Gender
SY 200 Social Factors in Sexual Behavior
SY 220 Marriage and the Family
SY 418 Advanced Family Studies
SY 428 Gender and Society
Gender Studies

Natural Science Course
BLY 215 Human Genetics

Gerontology

Program Director and Graduate Academic Advisor:
Roma Stovall Hanks (251) 460-6347 or (251) 460-6020
Assistant Director and Undergraduate Academic Advisor:
Denise McAdory (251) 460-6347

Department of Gerontology web site
http://www.southalabama.edu/gerontology

The University of South Alabama offers Certificates in Gerontology at the Graduate and Undergraduate levels and an Interdisciplinary Minor in Gerontology.

Gerontology is the interdisciplinary study of:
1. the human life cycle,
2. issues related to aging, and
3. the relationships between the generations.

The Gerontology program is designed to establish an expertise that will enhance and compliment the analytical skills that the student acquires as part of the major area of study. This expertise may be used as preparation to specialize within the career area related to the student's major area of study or to pursue further academic training in graduate or medical school. Special topics courses and online instruction are available. Depending on their specific needs and interests, students may be able to complete requirements for the Undergraduate Certificate in Gerontology through distance learning options. Students who are interested in pursuing the undergraduate certificate online should speak with their academic advisor and the Gerontology program director.

UNDERGRADUATE PROGRAM IN GERONTOLOGY

REQUIREMENTS FOR THE UNDERGRADUATE GERONTOLOGY CERTIFICATE
Students who wish to earn an Undergraduate Certificate in Gerontology must complete 21 semester hours, including an internship that will expose the student directly to elderly people and their families. The internship must be approved by the program director during the semester prior to placement. Prior to the start of the internship, students must provide documentation that the supervising agency assumes liability for interns, or they must carry their own liability insurance during the internships.

Approved courses are offered in various departments as well as in Gerontology. Students are encouraged to pursue the Gerontology Certificate in conjunction with degree programs.

CORE COURSES (UNDERGRADUATE)
(Required)
BLY 207, SY 372
Select One
AIS 201, AIS 401, PSY 356, PSY 250

INTERNSHIP (Required)
Internship in Gerontology (GRN 496) or equivalent (for example, Sociology majors may substitute SY 496 with Director's approval). Internships in other disciplines may be substituted for GRN 496 if the director and the student's academic advisor approve. The placement must provide significant contact with older people, their families or appropriate service agencies. Proof of insurance is required. Three semester hours required; up to six semester hours may be accepted.

ELECTIVE COURSES
(Select three)
Any required course option that is not chosen from the list above to fulfill a requirement may be used as an elective. Other elective choices include:

EDF 490, GRN 290, GRN 490, GRN 494, HSC 450, HSC 457, LS 479, LS 490, PSC 481, SY 435, SY 472, and SY 490. When the course topic is appropriate for gerontology, EH 492 and PSC 440 may be taken as electives.

REQUIREMENTS FOR THE INTERDISCIPLINARY MINOR IN GERONTOLOGY
The Interdisciplinary Minor in Gerontology requires 24 semester hours. It is designed for those Arts and Sciences majors who are interested in obtaining jobs in agencies that provide services for older individuals and their families or in pursuing graduate degrees that involve research on aging and intergenerational relationships. Majors in other colleges may also pursue the Interdisciplinary Minor in Gerontology, but should discuss this option with an advisor from the major field. It is possible to obtain the Undergraduate Certificate in Gerontology as part of the Minor, provided all requirements for the Certificate are met. The same course may not be used to fulfill requirements of both a major and a minor.

CORE COURSES (UNDERGRADUATE)
(Required)
SY 372
BLY 207 Or SY 435
PSY 356 Or PSY 250
PSC 481 Or HSC 450

INTERNSHIP (Required)
Internship in Gerontology (GRN 496 or equivalent). With permission of the program director and the student's academic advisor, an internship in the student's primary discipline may be substituted if the internship provides significant contact with older people, their families, or appropriate service agencies. Three semester hours required; up to six semester hours may be accepted. Approval of the internship must be obtained prior to registration. Proof of insurance is required.

ELECTIVE COURSES
(Select three)
Any required course option that is not chosen from the list above to fulfill a requirement may be used as an elective, other elective choices include:

GRN 490, GRN 290, SY 472, GRN 494, PSC 440, SY 490, and EH 492 may be taken as electives when the course topic is appropriate for gerontology.

GRADUATE PROGRAM IN GERONTOLOGY
The aim of this certificate program is to transmit a core of cognitive knowledge and skills in Gerontology. Requirements for admission are the same as those of the Graduate School. Students seeking to obtain Graduate Certification in Gerontology should either hold a graduate degree, or concurrently be enrolled in a graduate program.

REQUIREMENTS FOR THE GRADUATE CERTIFICATE IN GERONTOLOGY
The Graduate Certificate Program at USA requires a minimum of seven courses (21 hours) with grades of “A” or “B”, including Aging in American Society (SY 523) and an approved internship. Public Policy in Aging (PSC 581) and Ethical Considerations in the Care of the Aging (HSC 550) are strongly recommended.
The Gerontology internship (GRN 596) is required or an equivalent internship experience within the student's discipline. The internship must allow the student to apply skills to work with older individuals and their families. Research shows that positive, supportive attitudes toward aging are best developed through personal involvement with older people. The skill of applying knowledge to the problems of the elderly is developed in experiential learning situations. Therefore, an internship is required unless the student demonstrates substantial previous experience with the client population. In that event, a directed study or an additional academic course in aging may be substituted for the internship. A maximum of six credit hours of internship and six credit hours of directed study may be applied toward the requirements for the Graduate Certificate in Gerontology. The internship must be approved by the program director during the semester prior to placement. Proof of insurance is required for the internship.

All course waivers and substitutions must be approved by the director. The student must work closely with the director and with the advisor in the major area of specialization to develop the best program possible to meet career goals. Directed studies, special topics courses, and online courses may be used to fulfill program requirements if approved by the director.

A maximum of two 400-level undergraduate courses (up to 6 semester hours credit) may be included in the Graduate Certificate Program, provided they were not previously applied to the student's undergraduate certificate or minor in Gerontology. Following are the courses approved for the Graduate Certificate:

(Required)

SY 523
GRN 596 or equivalent

(Elective Courses)

AIS 401, CED 564, EDL 510, EDL 573, GRN 490, GRN 494, HSC 457, HSC 524, HSC 550, PSC 581, SY 435, SY 572

Graduate level Special Topics courses and Directed Studies may be taken as electives when the course topic is appropriate for gerontology. Distance learning options may be offered for some courses. Check with the program director for information about online courses and other distance learning opportunities.

Up to six semester hours of 400-level courses may be applied to the Graduate Certificate Program in Gerontology, provided they were not previously applied to the student's Undergraduate Certificate Program or the Interdisciplinary Minor in Gerontology.

Courses which are taken as part of a degree program may be considered for credit toward the certificate provided they are approved by the Director of the University Programs in Gerontology, the Director of Graduate Studies in the College offering the degree, and the Dean of the Graduate School. For further information about the program contact Dr. Roma Stovall Hanks, Director, USA Programs in Gerontology, HUMB 34, University of South Alabama, Mobile, Alabama 36688-0002; phone: (251) 460-6020; FAX (251) 460-7925; e-mail: rthanks@usouthal.edu.

INTERNATIONAL STUDIES

Director: Stephen D. Morris (251) 460-7200

Faculty Affiliates:
Ms. Kristy Britt, Foreign Languages (Latin America); Dr. Isabel Z. Brown, Foreign Languages (Latin America); Dr. Richmond Brown, History (Latin America); Dr. Larry Dilsaver, Geography (Europe); Dr. Christian Fantoni, Foreign Languages (French); Dr. Robert Fornaro, Anthropology (International Relations); Dr. Elwood Hannum, History (Europe); Dr. Harry Miller, History (Asia); Dr. Robert Houston, History (International Relations); Dr. Zohair Husain, Political Science (Asia, International Relations); Dr. Calvin Jones, Foreign Languages (Europe); Dr. Zoya Khan, Foreign Languages (Spanish, Latin America); Dr. Konrad Kressley, Political Science (Europe); Dr. Heide Lomangino, Foreign Languages (Europe); Dr. Eric Loomis, Philosophy (Asia); Dr. Susan McCready, Foreign Languages (Europe); Dr. Mark Moberg, Anthropology (Latin America); Dr. Joseph Mozur, Foreign Languages, (Europe); Dr. Scott Rex, Foreign Languages (Europe, Latin America); Dr. Victoria Rivizzigno, Geography (International); Dr. Daniel Rogers, History (Europe); Dr. Roy Ryder, Geography (Latin America); Dr. James Swofford, Economics (International Economics)

International Studies web site
http://www.southalabama.edu/internationalstudies/

The International Studies major is a rigorous interdisciplinary program designed for students who wish to build a solid foundation for a career in international affairs. The program combines language fluency, international/area studies, and international business, and, as such, fulfills the requirements for both the major and minor. The faculty directing the major is drawn mostly from the departments of foreign languages and literatures, geography, history, philosophy, political science, sociology and anthropology.

REQUIREMENTS FOR A MAJOR IN INTERNATIONAL STUDIES

Students majoring in International Studies should complete the 12 hours of core courses, one of five tracks of study, and a pre-professional program. The pre-professional program takes the place of a traditional minor. IS majors must also take AN 100, GEO 114 and HY 102 as part of their general education requirements since these courses are prerequisites for upper division courses in the major.

CORE COURSES
(Required of all majors) (12 hrs)

- IS 100 Global Issues
- PSC 250 Comparative Politics
- PSC 270 International Relations
- GEO 312 World Economic Geography (W)

AREA CONCENTRATIONS (27 hrs)
(majors must complete one of the following tracks of study)

Asian Studies (27 hrs)
International Studies

- 3 hours of Asian Language at the 200 level (LGS 201, LGS 206, LGS 221)
- HY 104 Asian Civilization since 1800
- 3 hours 300-400 level course on Asian history (HY 367, HY 368, HY 461)
- 3 hours in Asian Philosophy (PHL 354, PHL 355)
- PSC 368 Politics of South Asia
- 12 hours of electives from among the following: HY 367, HY 368, HY 461 (not taken above); LG 202, LG 207, LG 222; PHL 354, PHL 355 (not taken above); PSC 365; IS 492, IS 496; or any approved Special Topics course or Directed Studies focusing on contemporary Asia or Asian country.

European Studies (27 hrs)

- Six hours of a European language at the 200 level* (LG 211 and LG 212, LG 231 and LG 232, LG 241, LG 242, LG 251 and LG 252, or LG 271 and LG 272)
- GEO 314 Geography of Europe
- HY 357 Europe since 1918
- PSC 360 Politics of Europe
- 12 hours of electives from among the following: any 300-400 level course in European language or literature (if not in language pre-professional or double major program); EH 216, EH 349; HY 246, HY 333, HY 334, HY 335, HY 336, HY 347, HY 348, HY 457; PSC 313; IS 492, IS 496; or any approved Special Topics course or Directed Studies focusing on contemporary Europe or European country.

*Students selecting the pre-professional program in Language should take an additional six hours of non-language electives.

International Relations (27 hrs)

- Six hours of a foreign language at the 200 level* (LG 211 and LG 212, LG 231 and LG 232, LG 251 and LG 252, LG 271 and LG 272, LG 206 and LG 207, LG 221 and LG 222, LG 241 and LG 242, or LG 201 and LG 202)
- PSC 251 World Leaders
- PSC 372 American Foreign Policy
- IS 492 Seminar
- 12 hours of electives from among the following: ECO 330, ECO 363 (if not taken as part of a pre-professional program), ECO 371; HY 303, HY 305, HY 405; PSC 313, PSC 365, PSC 470, PSC 484; IS 492 (when content varies), IS 496; or any approved Special Topics course or Directed Studies focusing on International Relations.

*Students selecting the preprofessional program in Language should take an additional six hours of electives.

International Political Economy

Latin-American Studies (27 hrs)

- Six hours of Spanish at the 200 level*
- AN 347 Latin American Cultures and Societies
- GEO 315 Geography of Latin American
- HY 228 Latin America
- PSC 363 Politics of Latin America
- 9 hours of electives from among the following: any 300-400 level course in Spanish language or literature (if not in language pre-professional or double major program); HY 321, HY 323, HY 325, HY 326, HY 429; PSC 450 (appropriate content), PSC 470 (appropriate content); or any approved Special Topics course or Directed Studies focusing on contemporary Latin America or Latin American country.

*Students selecting the pre-professional program in Language should take an additional six hours of non-language electives.

PREPROFESSIONAL PROGRAM
Students should complete one of the following programs to help prepare them for a career in international business or international affairs. The pre-professional course of study takes the place of a traditional minor. Students taking a double major are not required to take the pre-professional program.

**International Business (21 hrs)**
The International Business option provides students with a basic foundation in business and best equips the student to enter the field of international business or related areas upon graduation.

- ACC 211 Accounting principles
- ECO 300 Introduction to Economics
- ECO 330 Current Global Economic Issues or ECO 363 International Economics
- MKT 320 Principles of Marketing
- 9 hrs electives from the following: MGT 465; MKT 336; MKT 383; MKT 477; MKT 492; IS 496

**Language Specialization (21 hrs)**
The Language Concentration option allows students to acquire a professional level of fluency in a foreign language as a complement to their international studies training. The requirements are 21 hours of study in a selected foreign language. Students wishing to concentrate in language should possibly consider the FL/IS double major described below. Note: This option may not be available for all languages.

**Personalized Preprofessional Program (21 hrs)**
The Personalized Preprofessional Program is designed primarily for students who wish to pursue graduate study and need a special program tailored to the needs of their expected graduate area. A preprofessional program consisting of a minimum of 21 semester hours including at least one upper-level seminar, directed studies, or internship. Proposals for a personalized program, drawn up by the student in consultation with his or her advisor, must be submitted for approval to the Program Director and the Dean of Arts and Sciences before the first semester of the student's junior year.

**FOREIGN LANGUAGE/INTERNATIONAL STUDIES DOUBLE MAJOR**
This program allows students to truly maximize their international training and experience. In addition to completing the 39 hours requirements for the International Studies major, the student will complete the program of study set out by the Department of Foreign languages. This option allows the student to develop their language skills well beyond the pre-professional component of the program. Moreover, Foreign Language majors enjoy additional and special opportunities to participate in studies abroad programs.

**INTERNATIONAL BUSINESS / INTERNATIONAL STUDIES DOUBLE MAJOR**
A joint initiative of the College of Arts and Sciences and the Mitchell College of Business, this program maximizes a student's preparation for a career in international business or for advanced study in business. In addition to completing the IS core, students take a special area concentration in International Political Economy and complete all of the required courses for a degree in International Business. The program requires a total of 140 credit hours and meets the requirements of both colleges. Students must designate either International Studies or International Business as their primary major and receive the degree from the college of the primary major. Interested students should consult the program director for advise.

**General Education Requirements**
- EH 101, EH 102
- CA 110
- 6 hours Foreign Language (100 level)
- 3 hours Literature
- 3 hours Fine Arts
- AN 100, GEO 114, HY 102
- 3 hours history or literature to complete 6 hour sequence
- MA 120 (prerequisite MA 112)
- 8 hours Natural Science with Lab
Business Core

- ACC 221, ACC 212 Principles of Accounting I and II
- BUS 245, 255 Applied Business Statistics I and II
- CIS 250 Advanced Computer Applications (prerequisite CIS 150)
- ECO 215, ECO 216 Principles of Microeconomics and Macroeconomics
- BUS 305 Information Systems and Technology
- FIN 315, Business Finance
- MGT 300 Management Theory and Practice
- MGT 305 Organizational Communication (W)
- MGT 310 Legal Environment of Business I
- MGT 325 Operations Management
- MGT 320 Principles of Marketing
- MGT 485 Business Policy in a Global Economy (W)
- MGT 486 Undergraduate Comp Exam (MGT 485 Corequisite)

International Studies Core
IS 100, PSC 250, PSC 270, GEO 312 (W)

Area Concentration: International Political Economy

- 6 hours Foreign Language (200 level or above)
- ECO 363 International Economics
- ECO 330 Current Global Economic Issues
- ECO 371 Economic Development
- FIN 332 Multinational Finance
- IS 492 Seminar: International Political Economy
- MKT 336 International Marketing

International Business - Marketing Concentration

- MGT 334 International Management
- MKT 374 Buyer Behavior
- MKT 384 Market Research
- MKT 479 Marketing Policy
- 3 hours from the following: MKT 375 Supply Chain Management, MKT 376 Industrial Marketing, MKT 377 Purchasing and Materials Handling, MKT 477 Export-Import Management, MKT 492 Seminar: International Business, MKT 496 Internship.

GENERAL EDUCATION REQUIREMENTS FOR INTERNATIONAL STUDIES MAJORS

General Education Requirements for International Studies majors are specified on page 46 (College of Arts and Sciences section).

REQUIREMENTS FOR A MINOR IN INTERNATIONAL STUDIES

For a minor in International Studies, students must complete the following course of study: (21 hours) AN 100; GEO 114; GEO 312; HY 228 or HY 357; IS 100; PSC 250; PSC 270.

DESCRIPTIONS OF ALL INTERNATIONAL STUDIES (IS) COURSES

College of Arts and Sciences
The Personalized Studies Program (PSP) is intended to provide a viable curricular option for those students whose objectives could best be met by a "tailoring" of the distribution of existing requirements and offerings. Students whose academic status is clear and who have completed a minimum of 32 semester hours are eligible to present a contract proposal to the PSP Committee. In the proposal, the student will formulate a coherent statement of personal objectives. When accepted, the contract becomes the statement of the student's academic major. The General Requirements for the Degree of Bachelor of Arts or Bachelor of Science must be met. An academic minor is not required. A minimum of 54 semester hours distributed among three to five academic departments is required for the major. Not more than 27 semester hours in one department may be applied toward the PSP Major. At least 50 percent of the courses specified in the contract shall be at the 300-400 level. Seventy-five percent of all courses that constitute the major shall be specifically designated as required. Students must complete at least 20 semester hours after approval of the PSP proposal. The list of remaining courses in the major may be modified with the concurrence of the student's advisor.

No more than one third of PSP hours may come from departments outside of the College of Arts and Sciences.

The following procedures will be followed. The prospective major contacts one of the committee members for initial counseling. The student fills out an information form that provides name, rank, current major and status, and a brief statement of goals. This form may be used later to designate an advisor. The student-advisor team completes the contract contingencies. The student presents the contract proposal to the PSP Committee. Upon approval of the contract by the PSP Committee and the Dean of the College of Arts and Sciences, the student's program is in effect. Approved contracts may undergo revisions upon request of the student-advisor team and approval from the PSP Committee and the Dean of Arts and Sciences.
DEPARTMENT OF MARINE SCIENCES

Chair: Shipp  
Professors: Aronson, Heck, Kiene, Shipp  
Associate Professors: Crozier, Graham, Park, Valentine  
Assistant Professors: Cebrian, MacIntyre, Powers

Department of Marine Sciences web site
http://www.southalabama.edu/marinesciences

MASTER OF SCIENCE (M.S.) DEGREE

The Master of Science (MS) Program in marine sciences is designed to train and prepare superior students for a career in this field. The marine sciences program offers courses and opportunities for research in four main areas: biological, chemical, physical, and geological oceanography. Each MS student receives formal training in at least three of these disciplines while concentrating in a specific research area. Thus, the program is structured to develop the capacity for productive and innovative research, founded on a solid background of broad scientific knowledge. The requirements and procedures that follow are specifically for the Department of Marine Sciences. However, the general rules and policies of the Graduate School also apply.

MINIMUM REQUIREMENTS FOR ADMISSION

Application before March 1 is encouraged; beginning April 1, the admission committee will make initial recommendations about applicants for the following Fall class, with formal letters sent to applicants by the end of April. Although students are normally admitted in the Fall Semester, depending on availability of space and funding, applications may be approved and students admitted throughout the year. In addition to the general admissions requirements of the Graduate School, minimal requirements for admission in full standing to the Marine Sciences MS Program are:

1. A baccalaureate degree in marine sciences or in a discipline related to marine sciences (e.g., biology, chemistry, geology, physics) from an accredited four year college or university.
2. An undergraduate minimum grade-point average of 3.0 overall (4.0 point system).
3. A minimum score of 1100 combined on the verbal and quantitative subtests of the Graduate Record Exam (GRE).

The applicant will be required to submit:
1. A completed application including a statement indicating the student's interests and professional goals.
2. Official transcripts from all undergraduate institutions attended.
3. Three letters of recommendation.
4. Official scores from the Graduate Record Exam (General Test).

Assessment of credentials will be supplemented by evaluation of letters of recommendation and the educational background of the student. Foreign applicants will be required to pass the TOEFL exam with a score of 525 or greater, or equivalent score on computer administered tests.

Conditional admission may be granted upon recommendation of the departmental admissions committee. Full standing can be attained after conditional admission by satisfactorily completing (with a grade of no lower than "B") eight (8) semester hours of course work in marine sciences at USA.
To insure compatibility between the student's research interests and the faculty expertise in the Marine Sciences Department, particular attention will be given to the statements of research interests. A faculty member will be asked to act as a "mentor" for the applicant based on the statement of interest and, if necessary, a personal interview. Through this process the student's interests will be matched to the expertise available within the faculty. Moreover, the mentor also may be able to offer the student financial support if a departmental stipend is not available. Students whose interests do not correspond to those of a faculty member and/or have not identified a faculty willing to serve as a mentor, will not be admitted into the MS degree program in marine sciences.

Application forms for admission to the program and for fellowships (see below) are obtained by writing to: Chair, Department of Marine Sciences, University of South Alabama, Mobile, AL 36688-0002 or visit the web site at [http://www.southalabama.edu/marinesciences](http://www.southalabama.edu/marinesciences)

**FELLOWSHIPS AND ASSISTANTSHIPS**
The Department of Marine Sciences offers at-large fellowships to MS students annually on a competitive basis. In addition, there are a variable number of research assistantships that are sponsored by externally funded grants and contracts. The current stipend for MS students is $11,600 per year plus a tuition fellowship and waiver of out-of-state fees. Prospective students must submit applications by February 15 to receive consideration for at-large fellowships. Information about assistantships is available from the Office of the Dean of the Graduate School, Mobile Townhouse 222, University of South Alabama, Mobile, AL 36688-0002.

**DEGREE REQUIREMENTS**
The Master of Science degree in Marine Sciences is awarded in recognition of the student's demonstrated ability to successfully complete a prescribed program of courses. It also is strongly preferred that students undertake original scholarly research, which culminates in writing and defending an acceptable thesis.

**GENERAL**
**Required Credit**
A minimum of thirty-two (32) semester hours of course credit beyond the baccalaureate degree is required for students pursuing an MS degree. Details about the curriculum are given as follows.

**Transfer Credit**
A maximum of eight (8) semester hours of graduate courses taken at another accredited university in the same (or closely related) subject as that of the masters program may be considered as part of the MS degree requirements at USA. Only grades of "A" or "B" may be accepted as transfer credits. The student's mentor (major professor), in consultation with the Chair, and if necessary, the student's advisory committee, will evaluate transfer credit; the transfer credit is approved by the Dean of the Graduate School only after completion of a minimum of eight semester hours of graduate course work in the MS program in marine sciences at USA.

**Residence, Full-Time Study, and Continuous Registration**
A minimum of two consecutive semesters of full-time study in residence is required. The residency requirements may be met at USA or the Dauphin Island Sea Lab. Employment other than University activities directly associated with graduate study is not allowed during full-time study, unless specifically approved by the Chair.

**Time Limit**
All requirements for the MS degree must be completed within five years from the date of matriculation. A student who has not satisfactorily completed a M.S. degree in a five-year period must apply for a defined extension to complete the degree. This request must be recommended by a major professor, the Chair, the Director of Graduate Studies, and approved by the Dean of the Graduate School. If the student does not complete the degree requirements in the defined extension period, the Director of Graduate Studies may recommend, and the Dean of the Graduate School may take, whatever action is necessary up to and including dismissal. The comprehensive examination must be passed within three (3) years of the beginning of the MS program of study.
Failure to complete the work within the periods specified shall necessitate reevaluation of the student's program, and may result in a recommendation of dismissal by the Director of Graduate Studies to the Graduate Dean.

COURSE REQUIREMENTS
A field of specialization is required of all candidates for the MS degree. In addition, all students must have formal course work in at least three (3) of the following general areas of marine sciences: biological, chemical, geological, and physical oceanography. This requirement is normally met by completion of three of the four (4) core courses (see below), representing nine (9) credit hours.

Core Courses
The four (4) core courses consist of three (3) semester hours each, for a total of 12 semester hours in physical (MAS 601), chemical (MAS 602), geological (MAS 603), and biological oceanography (MAS 604), or equivalent transfer hours. At least two (2) semester hours of seminar (two, one (1) semester hour enrollments) are required. The remaining course work will be determined by the student's advisory committee, but must include six (6) semester hours of marine sciences electives. Although a thesis is not an absolute requirement, this program is strongly oriented toward research, and students will be expected to demonstrate research capability, preferably through completion of an acceptable thesis. For students pursuing a thesis program, the MS degree program of study may include up to nine (9) hours of thesis credit toward the minimum requirements of thirty-two (32) semester hours.

Schematic of Typical Program
Core Courses (3 of 4)
MAS 601 3 MAS 602 3
MAS 603 3 MAS 604 3
Seminar (two enrollments) 2

Marine Sciences Electives (as determined by advisory committee, but at least six (6) semester hours) 6
Directed Studies 4(maximum)
Thesis 9 (maximum)
Total Hours 33 (32 minimum)

COMPREHENSIVE EXAMINATIONS
A written comprehensive examination in marine sciences is required of all students seeking the MS degree. These examinations are general in scope and are given by the advisory committee after at least one full year, but before three full years of graduate study are completed. The examination may be taken no more than twice.

NON-THESIS PROGRAM
Students pursuing the MS degree in Marine Sciences are strongly encouraged to follow the thesis option. However, a non-thesis curriculum is available for students, upon agreement of the major professor and advisory committee, who so elect. The student will be required to complete the same degree requirements as those for a student who chooses the thesis option, with the following exceptions:
1. A thesis will not be required, consequently MAS 599 (Thesis) may not be taken, and the nine (9) semester hours normally associated with it must be earned through formal course work.
2. Course work must include all four core courses.
3. The student must take an oral comprehensive exam, to be given by the advisory committee, in addition to the written exam.
4. The student must complete MAS 594 (Directed Studies) under the direction of the major professor. The student must also have an advisory committee whose members will decide if the student's report relating to the directed study is satisfactory. The committee normally will consist of the major professor and two others. The student is required to present an open seminar about the directed study during the last semester of residency.

DEFENSE OF THESIS (when applicable)
The final oral defense of the thesis is scheduled after the thesis is completed except for such revisions as may be necessary as a result of the defense. The final oral defense will not be given before all required course work has been completed or is currently in progress.

DOCTOR OF PHILOSOPHY (Ph.D.) PROGRAM
The Doctor of Philosophy (Ph.D.) Program in marine sciences is designed to provide formal course work and advanced research in marine sciences that produces significant, original contributions to knowledge. The Ph.D. degree is awarded to students who have reached and formally demonstrated a level of competence and accomplishment that enables them to pursue careers as marine science professionals. The Ph.D. degree confers eligibility for many positions in academia, industry, and government.

The marine sciences program offers courses and opportunities for research in four main areas: biological, chemical, physical, and geological oceanography. Each student receives formal training in each of these disciplines while concentrating in a specific research area. The requirements and procedures that follow are specifically for the Department of Marine Sciences. However, the general rules and policies of the Graduate School also apply.

MINIMUM REQUIREMENTS FOR ADMISSION
Students are normally admitted in the Fall Semester. Although applications for admission and fellowships are accepted throughout the year, application before March 1 is encouraged; beginning April 1 the admissions committee will make initial recommendations about applicants for the following Fall class, with formal letters sent to applicants by the end of April. Depending on availability of space and funding, applications may be approved and students admitted throughout the year. In addition to the general admissions requirements of the Graduate School, requirements for admission to the Marine Sciences Ph.D. program are:

1. A narrative statement indicating the student's research interests, professional goals and commitment to full-time study for completion of degree requirements.
2. Three letters of recommendation.
3. For students with baccalaureate degrees:
   A. Official scores from the Graduate Record Examination General Test with a minimum score of 1100 combined on the verbal and quantitative subtests.
   B. A baccalaureate degree in a discipline related to marine sciences (e.g., biology, chemistry, geology, physics) from an accredited four-year college or university.
   C. An undergraduate minimum grade-point average of 3.0 overall (A=4).
4. For students with MS degrees:
   A. An MS degree in a discipline related to marine sciences (e.g., biology, chemistry, geology, physics) from an accredited college or university.
   B. A graduate minimum grade-point average of 3.25 overall (A=4).
   C. For fellowship applicants, official GRE scores are required.
5. International students must submit an official score of at least 525 on the Test of English as a Foreign Language (TOEFL), or equivalent score on computer administered tests.

To insure research compatibility between the student and the faculty in the marine sciences program, attention will be given to the statement of research interests. A faculty member will be asked to act as a mentor for the applicant based on the statement of interests and, if necessary, a personal interview. Through this process, the student's interests will be matched to the expertise available within the faculty. Moreover, the mentor may also be able to offer the student financial support if a stipend is not available. Students whose interests do not correspond to those of a particular faculty mentor, and have not identified a faculty member willing to serve as a mentor, will not be admitted into the Ph.D. degree program in marine sciences.

Application forms for admission to the program and for fellowships (see below) are obtained by writing to: Chair, Department of Marine Sciences, University of South Alabama, Mobile, AL 36688-0002.

FELLOWSHIPS AND ASSISTANTSHIPS
The Department of Marine Sciences offers at-large fellowships to Ph.D. students annually on a competitive basis. In addition, there are a variable number of doctoral assistantships that are sponsored by externally funded grants and contracts to faculty. The current stipend for Ph.D. fellowships is $14,000 per year plus a tuition fellowship and waiver of out-of-state fees. Prospective students must submit applications by February 15 to receive consideration for at-large fellowships. Information about assistantships is available from the Office of the Dean of the Graduate School, Mobile Townhouse 222, University of South Alabama, Mobile, AL 36688-0002.

DEGREE REQUIREMENTS
The Doctor of Philosophy degree is awarded in recognition of the student's demonstrated ability to conduct original, scholarly research at the highest levels without extensive supervision. The degree is not granted upon completion of a stated amount of course work, but rather after demonstration by the student of a comprehensive knowledge and research capability in a specialized field of study. The student must demonstrate this ability in writing and by defending a dissertation based upon the results of an original investigation.

GENERAL
Required Credit
A minimum of 60 semester hours of approved graduate credit is required. Details about the curriculum are given below.

Transfer Credit
Graduate courses taken at another accredited university, such as for students with MS degrees in the same (or a closely related) subject as that of the Ph.D. program, may be considered in the Ph.D. plan of study up to a maximum of 32 semester hours. Only grades of "A" or "B" may be accepted as transfer credit. The student's mentor, in consultation with the Chair, and if necessary, the advisory committee, will evaluate transfer credit; the transfer credit is approved by the Dean of the Graduate School only after completion of a minimum of eight semester hours of graduate course work in the doctoral program at USA.

Residence, Full-time Study, and Continuous Registration
A minimum of two consecutive semesters of full-time study in residence is required. The residency requirement may be met at USA or the Dauphin Island Sea Lab. Employment other than University activities directly associated with graduate study is not allowed during full-time study, unless specifically approved by the Chair.

Time Limit
All requirements for the Ph.D. degree must be completed within eight years from the date of matriculation. A student who has not satisfactorily completed a dissertation in an eight-year period must apply for a defined extension to complete the degree. This request must be recommended by the major professor, the Chair of the Department, the Director of Graduate Studies, and approved by the Dean of the Graduate School. If the student does not complete the degree requirements in the defined extension period, the Director of the Graduate Program may recommend and the Dean of the Graduate School may take whatever action is necessary up to and including dismissal. The comprehensive examination must be passed within five years of the beginning of doctoral study, or within four years if the student entered with a master's degree in the same or a closely related field. Failure to complete the work within the periods specified shall necessitate reevaluation of the student's program and may result in a recommendation for dismissal by the Director of Graduate Studies to the Graduate Dean.

COURSE REQUIREMENTS
Core Courses
A field of specialization is required of all candidates for the Ph.D. degree. All students must have formal course work in all of the core marine science subdisciplines. This requirement is normally met by completion of four (4) core courses (see below) and seminar, representing fourteen (14) credit hours. The four (4) core courses consist of three (3) semester hours each for a total of 12 semester hours in physical (MAS 601), chemical (MAS 602), geological (MAS 603), and biological oceanography (MAS 604), or equivalent transfer courses.

Other Required Courses
At least 46 semester hours in courses beyond the baccalaureate degree are required in addition to the core courses, at least half of which must be taken in formal courses exclusive of directed studies or directed research. Up to 16 semester hours of dual-listed and 400-level courses may be counted, with no more than 12 hours of either type. The remaining courses must be solely graduate level. At least 12 semester hours of dissertation course credit is required. Not more than 15 hours in this category can be counted toward the minimum requirement of 60 semester hours. At least two (2) semester hours of seminar (two, one (1) semester hour enrollments) are required.

**Total 14 Hours**

**Marine Science Electives**

at least 23

**Directed Studies**

8 (maximum)

**Dissertation (1-5 per semester)**

15 (maximum)

at least 60

**COMPREHENSIVE EXAMINATIONS**

Written and oral examinations in marine sciences are required of all students seeking the Ph.D. degree in marine sciences. These examinations are given after at least two full years but before five full years of graduate study are completed. The written comprehensive examination is taken first and normally is more general in scope than the oral comprehensive examination. The examinations may be taken no more than twice.

**CANDIDACY**

A doctoral student is admitted to candidacy upon passing both the written and oral comprehensive examinations and after completing all formal course work requirements. The doctoral candidate is a student who has fulfilled all preliminary requirements for the Ph.D. and has only completion of the dissertation research as the remaining requirement.

**DEFENSE OF DISSERTATION**

The final oral defense of the dissertation is scheduled after the dissertation is completed except for such revisions as may be necessary as a result of the defense. The final oral defense will not be given earlier than one semester after admission to candidacy and not before all required course work has been completed or is currently in progress.

*See departmental section of this Bulletin for complete course information in subdisciplines of Marine Sciences (Biology, Chemistry, Geology).

DEPARTMENT OF MATHEMATICS AND STATISTICS

Chair: Scott Carter
Graduate Coordinator: Pillen

Mathematics

Professors: Carter, Crossley (Emeritus), Hitt (Emeritus), Kovacs (Emeritus), Mattics (Emeritus), Pillen, Silver, Williams, Windham, Zhang
Associate Professors: Brick, Dodd (Emeritus), McGill, Prokhorov
Assistant Professors: Champanerkar, Feldvoss, Galaktionova, Kalinin, Kouchechian, Pickett, Sadovskaya
Professorial Lecturer: Jellett
Instructors: Crumb, Farmer, Murdick, Summerlin

Statistics

Professors: S. Mishra, Mulekar, Shah (Emeritus), Rainosek, Windham
Assistant Professors: N. Mishra, Wang
Instructors: Farmer, Summerlin

Department of Mathematics and Statistics web site
http://www.southalabama.edu/mathstat

UNDERGRADUATE STUDIES

The purpose of the Department of Mathematics and Statistics is to provide a well-rounded program for students majoring in the mathematical sciences and to fulfill the mathematical science needs of students in other fields of study. To this end, the department emphasizes excellence in teaching, and encourages the professional growth of its faculty through study, research, and consulting. The Department offers a major leading to the Bachelor of Science Degree in Mathematics and Statistics. We also offer a minor in mathematics and a minor in applied statistics. Students pursuing a degree in Mathematics and Statistics also must have a minor in another discipline.

MATHEMATICS AND STATISTICS MAJOR

The core requirements for this major provide the student with a balanced program of undergraduate mathematics and statistics in areas that have proven applications. The program produces a graduate who is employable based on good inductive and deductive inferential, problem formulating and solving, and communication skills.

REQUIREMENTS FOR THE MAJOR ARE:

- **Introductory courses:** Calculus (MA 125, MA 126), Statistics (ST 210 or ST 315)
- **Intermediate courses:** Multivariable Calculus (MA 227), Linear Algebra (MA 237)
- **Quantitative modeling courses:** Differential Equations (MA 238) and Regression (ST 335) followed by Computer Assisted Modeling (MA 354)
- **Upper division courses:** 18 additional hours of 300 level or above courses in mathematics or statistics including at least three courses at the 400 level or above.

The program also requires an approved minor.

The modeling component is the cornerstone of the major. It gives the student the ability to formulate, build, analyze and implement mathematical models.
● The differential equations course introduces mathematical modeling using “first” principles.
● The regression course introduces the inductive, data based aspects of modeling and the analysis of models.
● The quantitative modeling course puts these two together to develop the whole modeling process through a small number of major projects.

GENERAL EDUCATION REQUIREMENTS FOR MATHEMATICS AND STATISTICS MAJORS

General Education Requirements for Mathematics and Statistics are specified on the College of Arts and Sciences section. Note that the Mathematics section of Area IV is satisfied by the major requirements specified above.

REQUIREMENTS FOR A MINOR IN MATHEMATICS

The requirements for a minor in mathematics are MA 125 and MA 126, plus four additional courses from among:

MA 227, MA 237, MA 238, MA 267, MA 311, MA 316, MA 320, MA 332, MA 334, MA 335, MA 354, MA 367, MA 410, MA 414, MA 434, MA 436, MA 437, MA 451, MA 458, ST 315.

At least two of the courses chosen for the minor must be 300 level or higher.

REQUIREMENTS FOR A MINOR IN APPLIED STATISTICS

The requirements for a minor in applied statistics consist of a minimum of 18 credit hours chosen as follows:

1. ST 210, or ST 315, but not both, and ST 335 and ST 340.
2. At least three courses selected from: ST 345, ST 350, ST 355, ST 415, ST 450, ST 460, MA 451 and ST 550. One statistics oriented course from any other discipline may be counted toward this requirement with the approval from the department chair.

Where to Begin in the Mathematics Courses

Students must begin at the proper level and in the proper track in mathematics. Students who lack college level credit in mathematics should take the on-line placement exam available at http://www.southalabama.edu/mathplacement 48 hours prior to registering for a mathematics course.

Note: To Avoid Duplication:
1. Credit for both MA 112 and MA 115 is not allowed.
2. Credit for both MA 113 and MA 115 is not allowed.
3. Credit for both MA 120 and MA 125 is not allowed.
4. Students may receive credit for only one of the following: ST 310, ST 315 or ST 320.

GRADUATE STUDIES

A Master of Science degree in Mathematics is offered by the Department of Mathematics and Statistics. The program has been designed to meet the varied needs and goals of most students seeking advanced degrees in mathematics. The course of study accommodates students interested in traditional and modern mathematics, applied mathematics, statistics, and computer science. Additionally, there is a program available for students who are seeking Class A Professional Teacher Certification. Undergraduate preparation in mathematics is required for the program.

REQUIREMENTS FOR ADMISSION

Students are admitted each semester. The following criteria supplement the Graduate School criteria (see Categories of Admission).

REGULAR ADMISSION

1. A bachelor's degree in mathematics or in a mathematics-related field from an accredited institution of higher education with a concentration of upper-level mathematics courses including a sequence in advanced calculus or real analysis.
2. Submission of scores on the General Test of the Graduate Record Examination. Normally a minimum combined score of 1000 on the verbal and quantitative sections or a minimum score of 600 on the quantitative section (without regard to the score on the verbal section). An advanced degree or other standardized test score may be considered in lieu of a GRE score.
PROVISIONAL ADMISSION
Applicants who do not meet all requirements for regular admission, but who do meet the Graduate School requirements for provisional admission, will be considered for provisional admission. Applicants must have an undergraduate major in mathematics or a closely related field with a concentration of upper-level mathematics courses. Applicants who are deficient in their undergraduate preparation may be denied admission or may be required to take undergraduate courses in the areas of deficiency without graduate credit in addition to the normal degree requirements listed below.

NON-DEGREE ADMISSION
Applicants who do not meet all the conditions for provisional admission or who are not interested in earning a graduate degree may apply for non-degree admission. Adequate undergraduate preparation in mathematics which indicates a reasonable chance of success in graduate mathematics courses is required for non-degree admission. After admission, permission of the department graduate coordinator is required for each course taken. In cases where undergraduate preparation is inadequate for a particular graduate course, a plan of study including additional undergraduate courses can be worked out in consultation with the graduate coordinator.

GRADUATE ASSISTANTSHIPS
Graduate students holding assistantships are usually assigned duties such as tutoring or supervising lab sections in the Department of Mathematics and Statistics. Awards are normally made for the academic year, but positions occasionally become available during the year. An assistantship application can be obtained from the Graduate Coordinator in the Department. Three letters of recommendation sent directly to the Graduate Coordinator are required. Graduate Assistants are required to enroll in MA 592 (Seminar) each semester.

REQUIREMENTS FOR DEGREE
Several degree options are available. MA 501, MA 502, MA 503, MA 504, MA 505, MA 506 do not satisfy degree requirements except as stated below. For the purpose of describing degree requirements, graduate courses in mathematics are divided into two groups:

Group 1: MA 511, MA 512, MA 515, MA 516, MA 518, MA 519, MA 521, MA 525, MA 535, MA 536, MA 537, MA 538, MA 539, MA 542 and MA 543.

Group 2: MA 507, MA 508, MA 521, MA 525, MA 550, MA 551, MA 555, MA 560, MA 565, MA 567, MA 568, MA 571, MA 572, ST 540, and ST 545.

THESIS OPTION
1. A minimum of 32 semester hours of course work including MA 535, MA 536 and MA 599.
2. At least two courses selected from Group 1 other than MA 535 and MA 536.
3. At least two courses selected from Group 2.
4. In addition to MA 535 and MA 536, at least one two-course sequence must be completed.
5. Complete a thesis. A maximum of six semester hours of credit will be granted for the thesis. A student may not enroll in MA 599 (thesis) until a thesis prospectus has been approved by the Graduate Coordinator and the Director of Graduate Studies in the College of Arts and Sciences.
6. Complete a comprehensive examination covering a collection of course work specified by the Graduate Coordinator.
7. Complete MA 592 (Seminar) during at least two semesters.

NON-THESIS OPTION
1. A minimum of 32 hours of course work including MA 535 and MA 536.
2. At least three courses selected from Group 1 other than MA 535 and MA 536.
3. At least three courses selected from Group 2.
4. In addition to MA 535 and MA 536, at least one two-course sequence must be completed.
5. Complete a comprehensive examination covering a collection of course work specified by the Graduate Coordinator.
6. Complete MA 592 (Seminar) during at least two semesters.
COMPUTER SCIENCE EMPHASIS (NON-THESIS)

1. A minimum of 23 semester hours of Mathematics courses including MA 535 and MA 536 and a minimum of nine semester hours of Computer Science courses approved by the Mathematics Graduate Committee.
2. MA 521 or MA 525.
3. At least two courses selected from Group 1 in addition to MA 535, MA 536 and the course satisfying 2.
4. At least one course selected from Group 2.
5. At least three courses in Computer Science approved by the Mathematics Graduate Committee.
6. Complete a comprehensive examination covering a collection of courses specified by the Graduate Coordinator.
7. Complete MA 592 (Seminar) during at least two semesters.

M.S. IN MATHEMATICS WITH ALABAMA CLASS A PROFESSIONAL TEACHING CERTIFICATION (NON-THESIS)

This option is available for students holding a Class B Professional Certification in Education. The curriculum consists of 33 semester hours of course work. Upon completion of the program, the MS degree in Mathematics is awarded by the University and the Class A Professional Certification is awarded by the State Department of Education.

1. A minimum of 30 semester hours of Mathematics course work with at least 21 hours in Mathematics courses numbered 507 or higher.
2. At least two courses selected from Group 1 and other than MA 535 and MA 536.
3. At least two courses selected from Group 2.
4. In addition to MA 535 and MA 536, at least one two-course sequence must be completed.
5. Complete a comprehensive examination covering a collection of course work specified by the Graduate Coordinator.
6. No more than four courses from MA 501, MA 502, MA 503, MA 504, MA 505, MA 506 and SED 563 may be counted toward the degree.
7. Students with no previous work in Special Education are required to take SPE 500. This course may not be counted toward the required 33 semester hours of course work for the degree.

POLICIES AND PROCEDURES

The document "Department Policies and Procedures for the MS Degree Program in Mathematics" is posted on the departmental web site. It contains details concerning advising, the comprehensive examination, graduate assistant duties, student meetings and colloquia.

College of Arts and Sciences
DEPARTMENT OF MILITARY SCIENCE

Chair: Lt Col Eric Van Vliet (251) 460-6341
Professor: Van Vliet
Assistant Professors: Bachus, Bass, Rey
Instructors: Bowden, Downey, Owens, Powell

Department of Military Science web site
http://www.southalabama.edu/armyrotc

MILITARY SCIENCE

The Military Science Department offers a progressive program which will enhance student education regardless of academic endeavor. The program is designed to improve the leadership abilities of students, develop managerial skills, inform students concerning the roles, missions, and capabilities of the army, and train qualified ROTC students to become commissioned officers the National Guard, Reserve, and U.S. Army. Military Science is an accredited field of minor study. Students may take Military Science courses and receive graduation credit in lieu of Physical Education courses. National Guardsmen, reservists, veterans and former JROTC students may received advanced placement by requesting it through the department chair.

BASIC COURSE

The purpose of the Army ROTC Basic Course is to introduce students to Army ROTC, to give them general information about the Army and to introduce them to basic skills which have both military and civilian application. Courses and practical exercises in land navigation, orienteering, and leadership round out the student's academic life, provide a challenge, develop confidence, and break the classroom monotony. With this initial exposure, the students will have experience upon which to base their decisions to continue into the Advanced Course and into the Army as commissioned officers. There is no military obligation in connection with the Basic Course.

MS I (MS 101-102). Meets for one hour per week. All students are required to attend a two hour leadership lab every other week. In addition, contracted students are required to attend physical training lab two times per week for 1 hour per session. During leadership laboratory, students will participate in adventure training, and other military activities. Several optional training activities on and off campus are scheduled each semester.

MS II (MS 201-202). Meets for two hours per week. All students are required to attend a two hour leadership lab every other week. In addition, contracted students are required to attend physical training lab two times per week for 1 hour per session. During leadership laboratory, students will participate in adventure training, and other military activities. Several optional training activities on and off campus are scheduled during the school year.

LEADERSHIP TRAINING CAMP

Army ROTC Leaders Training Course, conducted during the summer session, is a challenging four-week training course designed to evaluate students ability to handle themselves and others in new and demanding situations. Throughout the program, the student is provided with the fundamentals of soldiering which include physical training, marksmanship, tactical operations, map reading, and orienteering. Students are provided transportation to and from camp, fees, room and board, as well as approximately $650 in pay and allowances. Attendance at the Leaders Training Course does not necessarily obligate the student to military service; it does, however, qualify the student for the Army ROTC Advanced Course when taken in lieu of the Basic Course requirements.

Provided eligibility criteria are met, 2-year scholarships are granted upon graduation. See the scholarship section as follows for more information.

ADVANCED COURSE
Upon completion of the Basic Course or Leaders Training Course (above), ROTC students entering the Advanced Course continue to develop their ability in evaluating situations, making decisions, and practicing traits considered essential in a leader. The ability to motivate subordinates, to win their confidence, and to supervise them effectively has been attributed by many civilian and military leaders to training received through ROTC in college. The ROTC Program uses and extends the intellect, education, and special abilities of college students. Its primary purpose is to produce Army officers needed for the defense of our nation in time of crisis; but, in the process, it also develops the kind of junior executive or manager needed in every field of civilian endeavor.

All Advanced Course students earn $350-$400 a month (upon contracting) beginning the first month of their junior year and continuing until they complete the Advanced Course. Additional pay and travel allowances for the 32-day National Advanced Leadership Course training between the junior and senior years, makes the total received approximately $8,300.

MS III (MS 301-302). Meets for three hours per week. All students are required to attend a two hour leadership lab once per week. In addition, contracted students are required to attend physical training lab three times per week for 1 hour per session. Three training activities off campus will be scheduled during the school year.

MS IV (MS 401-402). Meets for three hours per week. All students are required to attend a two-hour leadership lab once per week. In addition, contracted students are required to attend physical training lab three times per week for 1 hour per session. Three training activities off campus will be scheduled during the school year.

ROTC SCHOLARSHIP PROGRAM
See information provided in the chapter on financial aid.

Army ROTC Scholarships
These competitive scholarships are awarded solely on potential rather than financial need and cover the costs of tuition, fees, and a flat-rate book allowance (of $450 per semester) plus a monthly subsistence allowance of $300 for freshman and sophomores; $350 for juniors; $400 for seniors. Four-year scholarships are available to designated freshmen, who applied and were selected during their senior year in high school. Three and two-year scholarships are available to eligible students, both enrolled and not enrolled in the ROTC program. Two-year scholarships are awarded to students who successfully complete the Leaders Training Course and agree to join ROTC. This allowance is tax-free and is in addition to most other assistance that the student may receive.

ACTIVITIES
In an effort to develop maximum leadership qualities among cadets, the following organizations and activities are sponsored by ROTC as an integral part of the Army Cadet Corps:

Color Guard: The official color guard for the city of Mobile is composed of ROTC cadets from the University of South Alabama.

Ranger Challenge: Students are trained in small-unit tactics and participate in ranger-type operations.

Running Club: Participation is open to all cadets. Runs from 3k to 26.2 mile marathons.

ACADEMIC CREDIT
Academic credit is granted for the completion of Military Science course requirements as follows:

Basic Course 1st Year (MS 101-102)
1st and 2nd Semester - 1 hour each - Total 2

Basic Course 2nd Year (MS 201-202)
1st and 2nd Semester - 2 hours each - Total 4
(Leadership Training Course in lieu of Basic Course) (6)

Advanced Course 1st Year (MS 301-302)
1st and 2nd Semester - 3 hours each - Total 6

Advanced Course 2nd Years (MS 401-402)
1st and 2nd Semester - 3 hours each - Total 6
AUDITING
Students who do not meet qualifications for Army contracting and commissioning may be allowed to audit a Military Science course. Students desiring to audit must receive the permission of the department chair. Auditing students may not participate in leadership laboratory, field training exercises, or other physical activities. Non-U.S. students must have written permission from their government prior to taking an ROTC course.

REQUIREMENTS FOR A COMMISSION AS A SECOND LIEUTENANT IN THE UNITED STATES ARMY
Students desiring a commission must complete a minimum of 21 hours of course work to include:

1. 19 hours of Military Science, including
   a. MS 101 and 102;
   b. MS 201 and 202;
   c. Students can receive placement credit for the 100- and 200-level courses for prior military service, Junior ROTC, ROTC Leadership Training Course, and equivalent military training with PMS approval;
   d. MS 301 and 302;
   e. MS 401 and 402.

2. In addition to the required courses, students must contract and attend the ROTC National Advance Leadership Course for 32 days of training between the junior and senior year.

REQUIREMENTS FOR A MINOR
Completion of the 18 semester hours of MS course work included in the Basic Course and the Advanced Course are required for a minor in Military Science. Placement credit may be awarded for the Basic Course for prior military service, attendance at ROTC Leadership Training Course, or three or four years of JROTC. Students who are already commissioned officers are not eligible to receive a minor in military science. Non-contracted students are not eligible to receive a minor in Military Science.

Department of Music web site
http://www.southalabama.edu/music

The Music Department of the University of South Alabama is a fully accredited member of the National Association of Schools of Music. Degree programs are offered for those students pursuing careers in music performance, music education, music business, and who wish to combine studies in music with other academic disciplines.

REQUIREMENTS FOR A MINOR IN MUSIC
A minimum of 26 semester hours in music, including the following: MUT 112 and MUT 113; MUL 235, MUL 236, Applied Music (six hrs. at 200 level), MUO 111/MUO 117 (four hrs.) six hours of electives in music at 300 level or above.

REQUIREMENTS FOR A BACHELOR OF MUSIC DEGREE (B.M.)
A total of 128 semester hours is required for the BM degree. All students are required to complete the Music Core and General Requirements. In addition, they will complete the requirements in their chosen Concentration: Music Education, Music Business, Performance or Outside Fields. Only those students pursuing a degree in outside fields must have a minor in another discipline. An audition is required for acceptance into a music degree program. Contact the Department (460-6136 or www.southalabama.edu/music) for audition requirements.

University residency requirements stipulate that at least 32 semester hours, including 15 hours in the major, must be completed in residence at the 300 and/or 400 level. An overall GPA of 2.0 is required for graduation as well as a minimum GPA of 2.0 in the major.

MUSIC CORE (54 hours)
Music Theory - 16 hours
MUT 112 MUT 213
MUT 113 MUT 312
MUT 212 MUT 313

Conducting - 3 hours
MUT 361

Music Literature - 10 hours
MUL 235
MUL 236
MUL 335
MUL 336

Major Ensemble - 7 hours
Concert Choir or Symphony Band
Applied Music (MUA or MUB) - 14 hours
200 level - 8 hours
300 or 400 level - 6 hours

Piano - 4 hours
MUE 102 or MUE 212
MUE 103 or MUE 213
MUE 202 or MUE 312
MUE 203 or MUE 313

Recital Class
MUA 100 (repeat six times with grade of "S")

Senior Recital
MUA 400

GENERAL REQUIREMENTS (35 hours)

Written and Oral Communication (9 hrs)
EH 101, EH 102, CA 110

Humanities (3 hrs)
One literature course required, select from EH 215, EH 216, EH 225, EH 226, EH 235, EH 236

History, Social & Behavioral Sciences (12 hrs)
Select from at least two disciplines, a minimum of three hours history required. AN 100, AN 101, GEO 114, GEO 115, HY 101, HY 102, HY 135, HY 136, PSC 130, PSY 120, PSY 250, ECO 215, ECO 216, SY 109, SY 112, SS 199, SS 299

Sequence Requirement
Select a six hour sequence in literature or history:
EH 215 and EH 216, EH 225 and EH 226, EH 235, and EH 236, HY 101 and HY 102, HY 135 and HY 136

Mathematics (3 hrs)
MA 110 or higher

Natural Sciences (8 hrs)
Select two: BLY 101/BLY 121, BLY 102/BLY 122, CH 101, CH 103, CH 131, CH 132/CH 141, GEO 101, GEO 102, GEY 111, GEY 112, PH 101, PH 104, PH 114/PH 201, PH 115/PH 202, NS 199, NS 299

CONCENTRATION REQUIREMENTS

Music Education - Instrumental (35 hrs.)
MUE 120, MUE 141, MUE 241, MUE 342, MUE 345, MUE 346, MUE 444, MUE 455, MUS 201 or 490, MUT 362, EDF 211, EDF 315, EPY 251, SPE 400, SED 470
Electives (4 hrs.)

Music Education - Vocal (35 hrs.)
MUA 181 (repeat for two semesters), MUE 444, MUE 448, MUE 455, MUS 201 OR MUS 490, MUS 202, MUS 203, MUT 364, EDF 211, EDF 315, EPY 251, SPE 400, SED 470
Electives (4 hrs.)

Completion of a Music Education concentration and teacher certification requires a grade-point average of at least 2.5 on all course work attempted, no grade below a "C" in professional teacher education, and at least a 2.5 grade-point average on all work attempted in the teaching specialization (music).
Performance - Instrumental (23 hrs.)
MUA 300, Applied Music 400 level (6 hours), MUE 4** Pedagogy, MUL4** Literature, 
MUO 411/MUO 417, 4 semesters of small ensemble, 9 hours of electives in music at 
300 level or above 
Electives (16 hrs.)

Performance - Vocal (25 hrs.)
MUA 300, MUA 423, (6 hours), MUE 448, MUO 411, MUO 416, (4 semesters), MUS 
202, MUS 203, LG 111, LG 151, 3 hours of electives in music at 300 level or above 
Electives (14 hrs.)

Music Business (35 hrs.)
MUS 204, MUS 304, MUS 305, MUS 404, MUS 470, ACC 211, ACC 212, ECO 215, 
ECO 216, MKT 320 
Electives (4 hrs.)

Elective Studies in Outside Fields(24-36 hrs.)
MUA/MUB 300 level (2 hrs.), MUO 411/417, 3 hours of electives in music at 300 level or 
above. Additional Major or Minor specific requirements determined by academic area 
(18-30 hrs.) 
Electives - variable to complete 128 hr. degree total.

ADDITIONAL INFORMATION FOR MUSIC MAJORS

PIANO PROFICIENCY
1. The piano proficiency is attained by successfully completing the class piano 
sequence (MUE 102, MUE 103, MUE 202, MUE 203) and achieving a passing 
score on the final exam of MUE 203. 
2. Students with piano as their principal instrument, or others who have sufficient 
piano background may be placed in the Advanced Keyboard Musicianship 
Sequence (MUE 212, MUE 213, MUE 312, MUE 313) after an audition for the 
piano faculty. 
3. Excess hours in piano required to complete the piano proficiency examination may 
not be counted toward graduation in music. Additional hours in piano beyond the 
proficiency may be counted toward graduation. 
4. The piano proficiency must be completed before a student may enroll in Senior 
Recital or Student Teaching.

PLACEMENT IN MUSIC THEORY
Transfer students intending to take music theory must take a Theory Placement 
Examination. Contact the Music Office for details.

PLACEMENT IN APPLIED MUSIC CLASSES
All students not previously enrolled in private music study at the University of South 
Alabama must audition prior to enrolling. Contact the Music Office for audition 
requirements and scheduling. 
All students enrolled in private music study must fill out a Teacher Preference form for 
each Applied Music course in which they are enrolled. These forms must be filed in the 
Music Office before registration begins. Once a student is registered and knows their 
schedule, they must request the form back to complete schedule information and return 
to the Department Secretary.

APPLIED MUSIC
Applied music is an integral and vital part of the total education in the field of music. In 
addition to performing in recitals, full-time music students are also required to attend 
concerts and recital class (MUA 100) for six semesters and take part in various 
programs given during their course of study. 
Students choosing a minor in music must include applied music courses at the 200 level. 
Credit for applied music is based on the minimum practice time per week, not on the 
length of the lesson period. Courses that show one hour’s credit require one 30-minute 
lesson per week with a minimum practice period of 30 minutes per day. A two-hour 
course requires 60 minutes of lesson time a week and at least 60 minutes of practice 
time per day. Those that show three hours’ credit require 60 minutes of lesson time per 
week with a minimum of two hours per day for practice. Satisfactory achievement and 
development are best achieved by practicing twice the above minimum requirements.
A student may take no more than two applied music courses in any given semester unless permission is obtained from the student's advisor, major applied teacher, and department chair.

**Senior Recital Requirements**

A public senior recital (MUA 400) is required for the BM degree. Specific requirements vary according to the chosen concentration. See the Department of Music Student Handbook for details.

**APPLIED MUSIC LEVELS**
Students must audition in order to enroll in Applied Music courses. Contact the Department of Music for information.

**100 Level** (Elective) is designated for students majoring in other academic disciplines (when possible) or music majors who wish to study in a secondary applied area.

**200 Level** (Major/Lower Division) is designated for the first four semesters of study as a music major. A student must pass an examination at the end of the fourth semester in order to enroll at the 300 or 400 level. Music minors will also enroll at the 200 level.

**300 Level** (Major/Upper Division) is designated for the junior and senior music major in all concentrations except Performance.

**400 Level** (Major/Performance) is designated for the junior and senior music major with a concentration in performance.

**MINOR**

Students pursuing a Bachelor of Music Degree are not required to have an academic minor with the exception of the Bachelor of Music with Elective Studies in Outside Fields.

**MUSIC ORGANIZATIONS**
The Department of Music sponsors performing organizations open to all students of the University, providing satisfactory audition requirements have been met. Ensemble participation is recognized as an essential literature class in music and music education. The appropriate MAJOR ensemble (Symphony Band or Concert Choir) must be elected each semester that a student is enrolled as a full-time student in music. Lower division credit is for 1st and 2nd year students. Upper division credit is for 3rd and 4th year students and reflects increased responsibility and leadership within the section and/or ensemble as assigned by the conductor/director. Graduate credit requires assisting the conductor/director with logistics, rehearsals, and presentation of concerts. Each course number is to be repeated four times for a two-year sequence of the course. All Bachelor of Music Degree majors in guitar and piano must satisfactorily complete a minimum of six semester hours in a major ensemble, to be taken for three consecutive years and one semester hour in another ensemble in which they will play their principal performing instrument. Students are, in addition, encouraged to elect additional hours in both major and small ensembles. Consult the appropriate curriculum in the section entitled Music Organizations for the requirements. The organizations include the Concert Choir; University Chorale; University Symphony Band; Jazz Band; Woodwind, Brass, Guitar, Percussion, and Piano Ensembles; and South Alabama Opera Theatre.

**Note:** No more than twelve credits in this area are applicable toward a degree.

DEPARTMENT OF PHILOSOPHY

Chair: John Coker (251) 460-6248  
Associate Professors: Baldwin, Buckley, Coker, Meeker  
Assistant Professors: Loomis, Youngblood

Department of Philosophy web site  
http://www.southalabama.edu/philosophy

UNDERGRADUATE STUDIES

Through reasoned reflection, philosophy seeks to understand human experience in all its various aspects. Courses examine the moral, social, political, aesthetic, and religious dimensions of human existence, topics in special fields such as science, and the historical development of philosophy. In these courses students can develop skills in the presentation, interpretation, analysis, and evaluation of differing viewpoints, and refine their own beliefs about deeply important issues.

GENERAL EDUCATION REQUIREMENTS FOR PHILOSOPHY MAJORS

GENERAL Education Requirements for Philosophy are specified on the College of Arts and Sciences section.

REQUIREMENTS FOR A MAJOR IN PHILOSOPHY

All majors in Philosophy, whether concentrating in Philosophy or in Religion, must complete 30 semester credit hours of course work, of which 15 hours (i.e., 50% of course work in their major) must be in the common core. In addition, all majors in Philosophy, whether concentrating in Philosophy or in Religion, must complete 15 semester hours of course work in the major at 300 and/or 400 level. Students pursuing a degree in Philosophy also must have a minor in another discipline.

The Common Core:

- One of PHL 121 (Introduction to Logic) or PHL 321 (Symbolic Logic)  
- PHL 240 (Western Philosophy: Classical and Medieval) and PHL 245 (Western Philosophy: Renaissance/Enlightenment)  
- PHL/REL 352 (World Religions)  
- PHL 461 (Metaphysics)

The following further courses are required for the Religion Concentration:

- PHL/REL 351 (Philosophy of Religion) or PHL/REL 354 (Philosophies of India)  
- 2 Religion (REL) courses at 300 or 400 level  
- 2 more (REL) courses

The following further courses are required for the Philosophy Concentration:

- PHL 431 (Advanced Ethical Theory) or PHL 441 (Epistemology)  
- 2 Philosophy (PHL) courses at 300 or 400 level  
- 2 more (PHL) courses

No more than six hours at the 100-level may be counted toward the hours required for the major; however, additional hours taken at this level can be counted toward the total number of hours required for graduation. Fifteen hours must be taken at the 300/400-level. PHL 240 and 245 do not have to be taken in sequence and should be taken early in the major. Credit for PHL 499, Honors Thesis, is only given as an addition to the hours required for the major.

REQUIREMENTS FOR A MINOR IN PHILOSOPHY

A minimum of 18 semester hours in Philosophy, to include a logic course (PHL 121 or 321). At least two courses must be taken in residence. No more than two 100-level courses may be counted toward the minor.
GRADUATE STUDIES
Although the Department of Philosophy has no graduate program, graduate-level courses are offered for those students who need such work.

College of Arts and Sciences
DEPARTMENT OF PHYSICS

Chair: Sankoorikal L. Varghese (251) 460-6224
Professors: Clark, Helminger, Jenkins, Varghese
Associate Professor: Sanders
Assistant Professor: Kim
Instructors: Boleman, LaBrier, Novovic

Department of Physics web site
http://www.southalabama.edu/physics/

The curriculum in the Department of Physics serves three groups of students: those preparing for careers in physics, those pursuing professional fields such as medicine and engineering, and those electing physics and astronomy as part of the natural-science requirement for Bachelor of Arts or Bachelor of Science Degrees. The degree program in physics allows for flexibility to the extent that the serious student can select related courses in biology, chemistry, geology, computer science, and engineering to prepare for a career in such interdisciplinary areas as biophysics, geophysics, oceanography, and environmental science. Three options for a Bachelor of Science degree in Physics are offered. One option (the Premedical Option) is for those students pursuing medicine as a career. Sample programs and requirements for each option follow. Students pursuing a degree in Physics also must have a minor in another discipline.

#### REQUIREMENTS FOR A MAJOR IN PHYSICS (Option A)

Option A is designed for a student anticipating graduate study in Physics. This option gives the student a solid foundation in basic Physics. Physics course requirements include: PH 107, PH 201, PH 202, PH 303, PH 348, PH 349, PH 366, PH 367, PH 385 (W), PH 411, PH 448, PH 449, and PH 463. Two Physics Elective courses (PH 301, PH 346, PH 354, PH 390, PH 494 or PH 499) must be taken. The following additional technical courses are required: CH 131 and CH 132 and CIS 227. In addition, the following math courses are prerequisites for upper division Physics courses: MA 125, MA 126, MA 227, and MA 238. With the exception of PH 303 and PH 448, which are offered every year, all upper division Physics courses are offered every other year.

REQUIREMENTS FOR A MAJOR IN PHYSICS (Option B)

Option B is designed for a student intending no graduate study in Physics. This option emphasizes applied Physics and has a large number of elective hours so that the student may tailor an interdisciplinary degree. Physics course requirements include: PH 107, PH 201, PH 202, PH 303, PH 348, PH 354, PH 366, PH 385(W), PH 411, PH 448 and PH 463. Three Physics Elective courses (PH 301, PH 346, PH 390, PH 494 or PH 499) must be taken. The following additional technical courses are required: CH 131 and CH 132 and CIS 227. In addition, the following math courses are prerequisites for upper division Physics courses: MA 125, MA 126, MA 227, and MA 238. With the exception of PH 303 and PH 448, which are offered every year, all upper division Physics courses are offered every other year.

REQUIREMENTS FOR A MAJOR IN PHYSICS (Premedical Option)
The Premedical Option is designed for a student intending a career in a health profession field such as Medicine. Physics course requirements include: PH 107, PH 201, PH 202, PH 303, PH 348, PH 366, PH 385(W), PH 448 and PH 463. Two Physics Elective courses must be taken from the list: PH 346, PH 354, PH 390, PH 411, PH 494 or PH 499. The following additional technical courses are required: CH 131, CH 132, CH 201, CH 202, BLY 121, BLY 122 and BLY 311. In addition, the following math courses are prerequisites for upper division Physics courses: MA 125, MA 126, MA 227 and MA 238. With the exception of PH 303 and PH 448, which are offered every year, all upper division Physics courses are offered every other year.

REQUIREMENTS FOR A MINOR IN PHYSICS
A minimum of 20 semester hours in Physics, including PH 303, and at least six additional hours at the 300 level or above.

GENERAL COMMENTS
PH 114 and PH 115 with either PH 201 or PH 202 may be substituted for PH 201 and PH 202 with the prior approval of the physics department chair.
The sequences PH 114, PH 115 and PH 201, PH 202 may not both be taken for credit.

DESCRIPTIONS OF ALL PHYSICS (PH) COURSES

College of Arts and Sciences
DEPARTMENT OF POLITICAL SCIENCE
AND CRIMINAL JUSTICE

Chair: John Ortiz Smykla (251) 460-7161
Graduate Coordinator: Sam Fisher
Professors: Fishman, Morris
Associate Professors: Bowers, Fisher, Husain, Nicholls, O'Shea, Wims
Assistant Professors: Blakely, Nelson, Shaw
Emeritus Professors: Barrow, Harkins, Kaempfer
Academic Advisor: Alene Green

Department of Political Science and Criminal Justice web site
http://www.southalabama.edu/poliscie/

UNDERGRADUATE STUDIES
The courses offered in the Department of Political Science and Criminal Justice are designed to achieve three important objectives:
1. to help students attain a liberal education;
2. to encourage and prepare students to participate actively in public affairs;
3. to help students advance toward professional careers in such fields as education, law and government.

POLITICAL SCIENCE
Political Science is a broad discipline in both content and methods. Political Science includes philosophical, historical, and analytical studies of governments, politics, and policies. Political scientists may focus on political behavior, decision making, processes, organizations, and public policies. Inquiry in political science addresses the domestic and international policies of the United States and all other countries and regions. Political scientists study the political values, attachments, and activities of people, individually and in groups. Political science examines both what preferences people share and how they differ according to their personal attributes and positions in the economy and society. Political science also studies how people regard and trust each other as well as their leaders and governments. Consequently, political science has many facets and offers opportunities for many different concentrations.

REQUIREMENTS FOR A MAJOR IN POLITICAL SCIENCE
The major in political science requires 36 semester hours, of which 15 hours come from the core political science courses, 15 hours of PSC electives at the 300/400 level, and 6 hours of PSC electives at the 400 level. A grade of "C" or higher is required for PSC majors in all core classes (PSC 130, PSC 250, PSC 270, PSC 310, PSC 311 or PSC 312 or PSC 313). Students must complete 15 hrs. of the 36 hrs. at the 300/400 level at the University of South Alabama. Students pursuing a degree in Political Science also must have a minor in another discipline.

Total Required Hours 36

GENERAL EDUCATION REQUIREMENTS FOR POLITICAL SCIENCE MAJORS
General Education Requirements for Political Science majors are specified in the College of Arts and Sciences section.
REQUIREMENTS FOR A MINOR IN POLITICAL SCIENCE
For a minor in political science a student must take a minimum of 21 semester hours in political science, of which 9 hours are required (PSC 130, PSC 250 or PSC 270, PSC 311 or PSC 312 or PSC 313), and 9 hours of 300/400 level PSC electives and 3 hours of 400 level PSC electives. Students must complete 9 hrs. of the 21 hrs. at the University of South Alabama.

POLITICAL SCIENCE MINOR:
- PSC 130 3
- PSC 250 or PSC 270 3
- PSC 311 or PSC 312 or PSC 313 3
- 400 level PSC elective 3
- 300/400 level PSC electives 9
Total Required Hours 21

CRIMINAL JUSTICE
The Department of Criminal Justice provides students interested in law enforcement, criminal law, corrections, and the criminal court system with a broad educational background emphasizing social science and the University’s general education skills of critical thinking, writing and analysis. At the same time, students in the department gain basic knowledge of the criminal justice field to the extent of specialization compatible with University and College requirements. The curriculum leads to the Bachelor of Arts degree. The mission of the department must be conceived as interdisciplinary in nature, since no traditional discipline covers the wide spectrum of expertise required. The undergraduate program addresses issues respecting the entire criminal justice system, from the nature of crime and delinquency to society’s varied responses to crime. Such a focus includes the organization and operation of each of the functional components in the field.

REQUIREMENTS FOR A MAJOR IN CRIMINAL JUSTICE
The major in criminal justice requires 39 semester hours, including PSC 130, CJ 205, CJ 310, CJ 320, CJ 330, CJ 340, and CJ 360, plus 18 semester hours of criminal justice electives. CJ 205 is a prerequisite to all CJ courses and must be passed with a grade of “C” or higher before enrolling in any other CJ course. CJ majors must earn a grade of “C” or higher in all core courses (PSC 130, CJ 205, CJ 310, CJ 320, CJ 330, CJ 340 and CJ 360). Students must complete 15 hrs. of the 39 hrs. at the 300/400 level at the University of South Alabama. Students pursuing a degree in Criminal Justice also must have a minor in another discipline.

CRIMINAL JUSTICE MAJOR

Total Required Hours 18

GRADUATE STUDIES
The Master of Public Administration degree (MPA) curriculum in the Department of Political Science and Criminal Justice is a professional degree program designed principally for present and future administrators and officers in government and other public related organizations. It is open, however, to other qualified students as well. Students entering the program come from varied academic and vocational backgrounds. Accordingly, no specific undergraduate major is required for admission to the MPA Program. However, certain course prerequisites must be satisfied prior to enrollment in any of the required core courses of the curriculum.

All students in the program have an option of non-thesis (Plan A) or thesis (Plan B). Students in the program who are not already employed in the public sector should, if possible, serve in government internships, discussed as follows.

REQUIREMENTS FOR ADMISSION
Students are admitted each semester. The following criteria supplement the Graduate School criteria (see Categories of Admission).

REGULAR ADMISSION
1. Minimum cumulative undergraduate grade-point average of 3.00 (on a 4-point scale).
2. Satisfactory GRE (or equivalent standardized test) scores (at least 1000 combined score on the Verbal and the Quantitative Subtests).
3. The GRE requirement may be waived for holders of earned advanced degrees on the recommendation of the program coordinator. GRE (or equivalent standardized test) scores must be submitted prior to any category of admission except for the person with an earned advanced degree from an accredited institution.

PROVISIONAL ADMISSION
In addition to the minimum standards required by the Graduate School, the student must have a minimum undergraduate GPA of 2.7 and submit GRE general test scores.

REQUIREMENTS FOR DEGREE
To qualify for the degree of Master of Public Administration, all candidates must satisfactorily complete a minimum of thirty-six semester hours, as follows:

1. PSC 130, Introduction to US Government, or its equivalent is a prerequisite for the core curriculum
2. Twenty-four hours in the following eight core courses:
   Note: The Core Curriculum Cycle Should Ideally Commence in the Fall Semester
   PSC 500  PSC 510  PSC 520
   PSC 530  PSC 540  PSC 550
   PSC 570  PSC 580
3. Twelve hours of electives approved by the Coordinator of the MPA Program in the Department of Political Science and Criminal Justice. These twelve hours are to be selected from among the following: PSC 596, Internship (maximum of nine hours); PSC 594, Directed Research (one to six hours); PSC 599, Thesis (six hours); and/or other graduate or 400, 500 or 600-level courses offered by the University of South Alabama as approved by the advisor.

Any substitutions for the above requirements must be approved in writing by the Coordinator of the MPA Program.

A candidate for the MPA degree must complete successfully a comprehensive written examination covering the eight core courses listed previously. To be eligible to take this examination, a student must have achieved at least a 3.00 (B) grade-point average on the core curriculum course work. Normally, the examination will be administered during the Fall and Spring Semesters. The comprehensive examination may be attempted no more than twice.

INTERNSHIP
Students in the MPA Program who are not suitably employed full-time in public agencies may be allowed to enroll in PSC 596, Graduate Internship in Public Administration, for a maximum of nine semester hours. Normally, admission to the Internship Program will be dependent upon the following prerequisites:

1. Satisfactory completion of at least six of the required core courses;
2. Approval by the internship professor of the prospective intern's qualifications and proposed project; and
3. Placement of the student in an appropriate agency of the government or other public service institution.

The length of the internship and corresponding credit (at the rate of three to nine hours per semester), not to exceed a total of nine hours, will be determined for each student on the basis of the student's particular needs and opportunities. Each intern will be required, in consultation with the intern professor, to develop a research design for the project to be undertaken during the internship. Each intern will also be required to write a paper showing how that research design has been carried out. Particular emphasis will be placed in the paper upon the relationship between the internship experience and academic course work. Close and continuing supervision of each intern's progress will be provided by the intern professor.

DEPARTMENT OF PSYCHOLOGY

Chair: Dr. Larry Christensen (251) 460-6371
Graduate Coordinator: Labbe'
Professors: Brown, Christensen, Labbe', Langhinrichsen-Rohling, Williams
Associate Professors: Anderson, Downey, Sinnott, Turner, Welsh
Assistant Professors: Kline, Rohling, Shelley-Tremblay, Yates

Department of Psychology web site
http://www.southalabama.edu/psychology

UNDERGRADUATE STUDIES
The objective of psychology, as a science, is to understand, explain, and predict the behavior of organisms. The Department of Psychology has developed and organized its course offerings to meet three major goals:
1. To provide a strong foundation for those students who plan to enter a graduate school of psychology after completing their undergraduate degree requirements.
2. To assist those students who are planning careers in psychology or in related fields by providing a flexible curriculum that can be designed to meet the career goals of individual students.
3. To meet the needs of those students who are taking psychology courses as part of their liberal arts education.

REQUIREMENTS FOR A MAJOR IN PSYCHOLOGY
A minimum of 36 semester hours in psychology including 30 hours from the undergraduate core and six hours of electives.

Ten courses (30 hours)

The remaining six hours of electives needed for a major may be taken from any courses not taken previously (excluding PSY 250).

GENERAL EDUCATION REQUIREMENTS FOR PSYCHOLOGY MAJORS
General Education Requirements for Psychology majors are specified on the College of Arts and Sciences section. Note that Area III is partially satisfied by the major requirements specified above.

REQUIREMENTS FOR A MINOR IN PSYCHOLOGY
A minimum of 21 semester hours in Psychology, including PSY 120 or PSY 121, PSY 220 and 15 semester hours of electives (twelve of those must be in courses numbered 300 or above).

GRADUATE STUDIES
The Master of Science degree program in Psychology is designed to provide individuals with knowledge of current theories, principles, and methods of experimental and applied psychology in preparation for future work toward a doctoral degree, employment under supervision in an applied setting, employment in a research setting or employment in a junior college teaching position.

The student is given an opportunity to apply for a concentration in either of the following areas of study:
1. General/Experimental Psychology
2. Applied Psychology

An individualized course of study will be developed by the student and an advisor so as to fulfill the student's career objectives and, at the same time, meet all requirements for the M.S. degree in Psychology.

REQUIREMENTS FOR ADMISSION
Students are admitted Fall Semester only. Applications to the Psychology Graduate Program should be completed by March 1 for admission the following Fall. Applications completed after March 1 will be considered only if there are still openings available.

Please note that the Psychology Graduate Program is a competitive program with a limited capacity and admits students to begin in the Fall Semester only.

In addition to the Graduate School application form and required supporting documentation, the Department of Psychology requires submission of a Psychology Department application form, statement of purpose and three letters of recommendation. Applicants will be asked to indicate whether they are applying for the general/experimental or the applied concentration. Applicants should contact the Department of Psychology for guidelines on submission of these materials.

The following criteria supplement the Graduate School criteria for admission (see Categories of Admission).

REGULAR ADMISSION
In addition to meeting graduate school requirements for regular admission (see Categories of Admission), applicants to the psychology graduate program must meet the following criteria:
1. Completion of at least 21 semester hours of psychology courses on the undergraduate level including at least one statistics course and one course in experimental methods/research design. In addition, the following courses are highly recommended: abnormal psychology, biological psychology, learning, personality, social psychology, developmental psychology, and history/systems of psychology.
2. Summed score of 1000 or better on the verbal and quantitative subtests of the General Test of the Graduate Record Examination.
3. Submission of a score on the GRE Subject Test in Psychology is recommended, especially for applicants for graduate assistantships.

PROVISIONAL STANDING
Applicants who do not meet all requirements for regular admission but who show evidence of promise as a graduate student may, in exceptional cases, be considered for provisional admission if space is available in the program. The graduate admissions committee will consider provisional admission on an individual basis. Students admitted provisionally may be required to make up deficiencies in their undergraduate course work without graduate credit in addition to completing the normal degree requirements listed below.

Provisional students may apply for regular standing after satisfactory completion of the first nine semester hours of recommended graduate course work in psychology. Students must also remove any undergraduate deficiencies before being approved for change of status. Students in provisional standing who receive a grade lower than "B" in any graduate or undergraduate psychology course will be recommended to the Dean of the Graduate School for academic dismissal.

NON-DEGREE STUDENTS
Applicants for non-degree status in psychology are considered only in exceptional cases and will normally be admitted only if they meet regular admission standards. That is, they must have a 3.0 GPA overall and in psychology, a score of 1000 or better on the verbal plus quantitative subtests of the Graduate Record Examination, and must have completed the required undergraduate course work. Following admission, non-degree students must have permission of the department chair and director of graduate studies of the college for each course they wish to enroll in. Enrollment will be approved on a space-available basis with preference being given to degree students. Non-degree students must satisfy the same prerequisites and corequisites as degree students.

**PROGRESS TOWARD DEGREE**
All graduate students will be evaluated each semester to determine if they are making satisfactory progress toward completion of degree requirements. Students will be given written reports, including specific deficits, if they are not making satisfactory progress. Such students will have one semester to remedy the specific deficits listed or will be subject to dismissal from the program.

**GRADUATE ASSISTANTSHIPS**
Each year the Psychology Department recommends qualified applicants to the Dean of Graduate School for graduate assistantships. Applicants must be students in Regular Standing. The graduate admission committee strongly recommends that applicants for assistantships submit scores from the GRE Subject Test in Psychology as part of their application materials.
Application forms for graduate assistantships may be obtained by writing the Psychology Department, University of South Alabama, Mobile, AL 36688-0002 or by calling the secretary of the Psychology Department at (251)460-6371. The deadline for receipt of completed assistantship applications is March 1.

**GRADUATE CORE CURRICULUM**
The core courses in Part A are required of all students in the Master's Program in Psychology regardless of concentration. The core courses in Part B are required of all students in the Master's Program in Psychology regardless of concentration but may be waived if the student has sufficient undergraduate background in the subject matter. Any waivers must be approved by the Graduate Committee. In addition to these core courses, all students are required to complete either a major project in psychology (PSY 598, minimum of three hours required) or a thesis (PSY 599, minimum of six hours required). Further guidelines for completion of theses and major projects are available in the Department of Psychology.

**Core Courses (Research Methodology) - Part A**
- PSY 500 2 hrs
- PSY 502 3 hrs
- PSY 552 3 hrs
- PSY 501 3 hrs
- PSY 506 3 hrs
- PSY 510 3 hrs

**Core Courses - Part B**
One of the following:
- PSY 514* 3 hrs
- PSY 520* 3 hrs
One of the following:
- PSY 516* 3 hrs
- PSY 522* 3 hrs

**Total Hours Required 17 hours**

**Research Experience**
- PSY 598 min of 3 hrs
- PSY 599 min of 6 hrs

*Dual listed with 400-level courses.

**Applied Concentration**
In addition to the graduate core curriculum, students admitted to the applied concentration are required to complete all courses in Group A below for a total of at least 27 hours. In addition, students in the applied concentration must complete either a major project in psychology (minimum of three hours required) or a thesis (minimum of six hours required). Satisfactory completion of PSY 530 with a minimum grade of "B" is required before a student is allowed to enroll in any practicum course.

**Note:** In addition to the specific courses listed above, other 500-level or dual-listed (400/500) psychology courses and graduate courses in other departments (e.g. CED) may be taken for elective credit with prior approval of the student's graduate advisor and the Graduate Committee.

**General/Experimental Concentration**

Students admitted to the general/experimental concentration will develop an individualized program of study in consultation with their graduate advisor. The program of study must be approved by the Psychology Graduate Committee and must include the graduate core curriculum and other courses (typically 12 to 15 hours) culminating in completion and oral defense of a thesis based on original research. A minimum of 36 hours of graduate courses are required.

**DESCRIPTIONS OF ALL PSYCHOLOGY (PSY) COURSES**

[College of Arts and Sciences]
DEPARTMENT OF SOCIOLOGY, ANTHROPOLOGY AND SOCIAL WORK

Chair: J. Steven Picou (251) 460-6347
Graduate Coordinator: Roma S. Hanks
Professors: Daley, Fornaro, Gartman, Johnson, Moberg, Picou, Thomas, Waseklov
Associate Professors: Hanks, Matre
Assistant Professors: Carr, Flynn, McAdory

Department of Sociology, Anthropology and Social Work web site
http://www.southalabama.edu/syansw

UNDERGRADUATE STUDIES

Sociology is the scientific study of human social patterns and processes. Broad questions which are addressed include: how are patterns (institutions, group structures and procedures) derived, maintained and changed; how do patterns interrelate and what are the implications of these patterns for the human condition?

Anthropology is the study of human biological and cultural variation, both past and present. It seeks to establish principles and generalizations about societies and their cultures, and to increase understanding among people.

REQUIREMENTS FOR A MAJOR IN SOCIOLOGY

A minimum of 35 semester hours in Sociology, including SY 109, SY 376, SY 381 and SY 382. All sociology majors are also required to take AN 100 or 101, and ST 210. At least 17 of the 35 semester hours required for a major must be taken in upper division courses (300-400 level). SY 375 is recommended for students contemplating graduate work. No more than six semester hours of Directed Studies may be used in meeting the major requirements. Students pursuing a degree in Sociology also must have a minor in another discipline.

GENERAL EDUCATION REQUIREMENTS FOR SOCIOLOGY MAJORS

General Education Requirements for Sociology majors are specified in the College of Arts and Sciences section. Note that Area IV is partially satisfied by the major requirements specified above.

REQUIREMENTS FOR A MINOR IN SOCIOLOGY

A minimum of 18 semester hours in Sociology, including SY 109. No more than six semester hours of Directed Studies may be used in meeting the minor requirements.

REQUIREMENTS FOR A MAJOR IN ANTHROPOLOGY

A minimum of 34 semester hours in Anthropology, including AN 100, AN 101, AN 210, AN 454, a 300 or 400 level Archaeology course, and a 300 or 400 level Cultural Anthropology course. Majors must complete 15 of the 34 semester hours required in Anthropology at the 300 level or above. All Anthropology majors are also required to take SY 109. Students pursuing a degree in Anthropology also must have a minor in another discipline.

REQUIREMENTS FOR THE ANTHROPOLOGY DEPARTMENTAL HONORS PROGRAM

Students will work with a faculty mentor from the Anthropology Program and two other faculty members while pursuing an Honors Senior Thesis. Students must apply for the program, during any year of attendance at the University.

GENERAL EDUCATION REQUIREMENTS FOR ANTHROPOLOGY MAJORS
**General Education Requirements** for Anthropology majors are specified in the College of Arts and Sciences section. Note that Area IV is partially satisfied by the major requirements specified above, and that Area V is partially satisfied by AN 210.

**REQUIREMENTS FOR A MINOR IN ANTHROPOLOGY**
A minimum of 18 semester hours in Anthropology, including AN 100 and AN 101.

**GRADUATE STUDIES**
The Master of Arts degree program in sociology provides the student with training in advanced methods of sociological analysis and increased knowledge of specialized areas in sociology. The student may choose either the basic research or the applied research program. The basic research program is designed to prepare students for admission to doctoral programs in sociology. The applied research program is designed for students whose current situations or immediate goals involve careers in teaching, government, industry or social services. The program offers specialized training in a number of areas of sociology, including Applied, Maritime, Environmental, Family Studies, Criminology and Gerontology. Students may be enrolled in the University's Gerontology Certification program while pursuing the M.A. in sociology.

**REQUIREMENTS FOR ADMISSION**
Students are admitted each semester. The following criteria supplement the Graduate School criteria (see [Categories of Admission](http://www.southalabama.edu/bulletin/bulletin0506/artsoc.htm)).

**REGULAR ADMISSION**
1. Undergraduate major in a social science from an accredited institution of higher education.
2. "B" average in undergraduate courses in social science theory, research methods, and statistics.
3. Score of 1000 or better on the verbal and quantitative subtests of the General Test of the Graduate Record Examination.
4. Submission of a statement of purpose, written by the applicant, which provides a brief intellectual autobiography of the student, an indication of special areas of interest within sociology, and a description of career goals. Statement should be typed, single spaced, and 1 to 1.5 pages in length.
5. Submission of recommendation that documents the student's ability and willingness to work cooperatively and productively with faculty, students and staff.

**PROVISIONAL ADMISSION**
Applicants who do not meet all the requirements for full standing may be admitted provisionally. A minimum undergraduate GPA of 2.5 and submission of GRE scores are required for provisional admission to the program. Admission decisions are based on the applicant's entire application package. Applicants with lower GPA's or GRE scores below 1000 may be admitted only when other outstanding credentials warrant exception. Students meeting requirements for Provisional Admission will be required to remove all deficiencies in undergraduate theory, methods, and statistics before change of status to Regular Standing is considered. Provisional students will be eligible for Regular status after accruing a minimum of nine (9) semester hours of course work taken at the University of South Alabama for graduate credit toward a degree requirements, provided at least a "B" average is maintained in all such work attempted. Per Graduate School and Departmental requirements, no more than 15 semester hours of graduate credit earned as a Provisional Admission student may be approved for change of status to Regular Admission. The Provisional student who does not have the required "B" average upon completing 15 semester hours of graduate credit will be subject to dismissal from the graduate program and the Graduate School. Undergraduate courses in sociological theory and/or methods may be required upon Provisional Admission to the Sociology master's program. These courses are considered by the Department to be remedial and will not satisfy requirements for the master's degree.

**NON-DEGREE ADMISSION**
Students holding baccalaureate degrees from accredited institutions of higher education who are not interested in earning graduate degrees in Sociology or who need to complete prerequisites for particular graduate degree programs may enroll as Non-Degree graduate students. A suitable background for the courses to be taken is expected, i.e., at least one undergraduate course (or equivalent) in sociological theory and at least one undergraduate course (or equivalent) in sociological research methods. Because of limited class size and resources, the Sociology Department may limit the enrollment of Non-Degree students. After admission, permission to enter each course is obtained from the Graduate Director/Coordinator in the Department. Unless a non-degree applicant's academic record demonstrates prior mastery of sociological theory and methods, a minimum of one graduate-level sociological theory course and one graduate-level sociological methods course must be taken while pursuing non-degree studies at USA.

Non-Degree students subsequently seeking admission into Sociology master's program must submit a formal application through the Office of Admissions to the Graduate Director/Coordinator of the Department. Students may be subject to further conditions, such as the completion of necessary undergraduate background courses and/or specific graduate-level courses. The student's record in graduate courses taken while in the Non-Degree status may be applied toward a graduate degree if the student is later admitted to a graduate program of study. Please refer to the Graduate School Requirements for non-degree admission.

**ACADEMIC STANDARDS**

Any student who receives two grades lower than "B" in graduate courses will be recommended to the Dean of the Graduate School for academic dismissal. Provisionally admitted or non-degree students must meet the conditions stated in their admission letter.

**DEGREE REQUIREMENTS, BASIC RESEARCH PROGRAM**

1. A minimum of thirty-six semester hours beyond the bachelor's degree with a grade of "A" or "B". At least twenty-five of these hours must be in sociology.
2. Completion of core requirements: SY 500, SY 505, SY 506, SY 508 and SY 509. SY 505 may be waived for students based on extent of background in undergraduate sociology and performance on a diagnostic test. If waived, student will be required to complete one additional elective course (three hours) in sociology.
3. Successful completion of a comprehensive written examination in theory and methods in the semester immediately following completion of core courses. For full time students, comprehensive exams will normally be taken in their third full semester. Comprehensive exams typically will be scheduled during the first month of classes in Fall and Spring semesters. If the student fails the examination, it may be retaken during the next scheduled exam period. The comprehensive examination may be taken no more than two times.
4. Completion of SY 594, a directed studies course focused on the area of research interest and resulting in a thesis prospectus. This course must be taken after the comprehensive written exam.
5. Completion of a thesis representing original research. Six semester hours will be granted for the thesis.

**DEGREE REQUIREMENTS, APPLIED RESEARCH PROGRAM**
1. A minimum of thirty-six semester hours beyond the bachelor's degree with a grade of "A" or "B". At least twenty-five of these hours must be in sociology.

2. Completion of core requirements: SY 500, SY 505, SY 506, SY 508 and SY 509. SY 505 may be waived for students based on extent of background in undergraduate sociology and performance on a diagnostic test. If waived, student will be required to complete one additional elective course (three hours) in sociology.

3. Completion of SY 512 (Applied Sociology) and SY 596 (Internship).

4. Successful completion of a comprehensive written examination in theory and methods in the semester immediately following completion of core courses. For full time students, comprehensive exams will normally be taken in their third full semester. Comprehensive exams typically will be scheduled during the first month of classes in Fall and Spring semesters. If the student fails the examination, it may be retaken during the next scheduled exam period. The comprehensive examination may be taken no more than two times.

5. Completion of Sociology Internship (SY 596), in which a student spends 200 hours working in a local agency under an on-site supervisor and with a USA faculty member as academic supervisor.

7. An oral presentation of the Applied Research Project in a professional forum (such as a professional meeting, a university lecture, or community or agency presentation).

**SOCIAL WORK**

The Social Work program, leading to the Bachelor of Social Work Degree will begin operation in the Fall Semester 2005. The program is currently seeking candidacy status from the Council on Social Work Education. For updates on the social work program, admission, and curriculum requirements, go to:

[http://www.southalabama.edu/socialwork/](http://www.southalabama.edu/socialwork/)
DEPARTMENT OF VISUAL ARTS

Interim Chair: Victoria L. Rivizzigno (251) 460-6335
Professor: Simpson
Associate Professors: Bantens, Oszusck
Assistant Professors: Shambach, Wright
Instructors: Evangelista, Gandy, Gibbs, Johnson, Skiadas, Youn

Department of Visual Arts website
http://www.southalabama.edu/art

The goals of the Department of Visual Arts include preparing students for graduate work or careers in the visual arts; providing suitable programs and courses for persons who want to study or practice the arts for their own personal development and cultural enrichment; and introducing students to their cultural tradition.

The Department of Visual Arts offers one degree program, the Bachelor of Fine Arts degree with concentrations in Art History, Ceramics, Graphic Design, Painting, Photography, and Sculpture.

This degree program is intended for students who plan to pursue careers in Art or Art History, which will typically require their having continued their studies at the graduate level. The Department offers minors in Art and in Art History.

REQUIREMENTS FOR THE DEGREE OF BACHELOR OF FINE ARTS IN STUDIO ART

A minimum of 128 hours of required and elective courses. At least 32 hours in courses numbered 300 or higher must be taken at this University, including a minimum of 12 hours in the primary concentration, and 6 hours in a secondary concentration. Two courses, including one in Studio Art, must be designated “Writing Across the Curriculum” (W) courses, and one “Computer Competency” (C) course.

General Academic Studies Requirements

Written composition: EH 101, EH 102 .............................................................................. 6 hrs
Oral communication: CA 110 ............................................................................................ 3 hrs

Fine Arts - Art History:
ARH 103, ARH 123, ARH 240, ARH 242, ARH 344..................................................... 15 hrs

Humanities:
One approved course in literature (EH 215, EH 216, EH 225, EH 226, EH 235, EH 236) ........................................................................................................................................ 3 hrs

History, Social and Behavioral Sciences:
HY 101-102 or HY 135-136 ............................................................................................... 6 hrs
Two approved 100/200 level courses in Anthropology, Economics, Geography, Political Science, Psychology or Sociology (AN 100, AN 101, ECO 215, ECO 216, GEO 114, GEO 115, IS 100, PSC 130, PSY 120, PSY 250, SY 109, SY 112) ........................................ 6 hrs

Natural Sciences and Mathematics:
MA 110, 112, or higher level course ............................................................................. 3 hrs
Two courses in laboratory sciences (AN 210, BLY 101 or BLY 121, BLY 102, or BLY 122, CH 101, CH 103, CH 131 or CH 141, CH 132 or CH 141, GEO 101, GEO 102, GEY 111, GEY 112, PH 101, PH 104, PH 114 or PH 201, PH 115 or PH 202) .......................................................... 8 hrs

Studio Art Core Requirements

- Drawing: five course including ARS 121, ARS 122, one or two 200 level courses,
and at least one 300 or higher level drawing course ........................................ 15 hrs
b. Design: ARS 123, ARS 124 ................................................................. 6 hrs
c. Professional Practices: ARS 396 ......................................................... 3 hrs

Studio Concentration Requirements
Two options are available. See below for specific requirements for each Studio Concentration.

Option One:
A Primary Studio Concentration in Ceramics, Graphic Design, Painting, Photography, or Sculpture; and a Secondary Studio Concentration in another studio area.

Senior Thesis or Senior Portfolio Requirements
Students with the primary concentration in Graphic Design take ARS 488 (three hours). All other option one students take ARS 499 (six hours).

Primary Studio Concentrations
Primary Studio Concentrations are offered in the areas of Ceramics, Graphic Design, Painting, Photography, and Sculpture.
a. Ceramics: 24 hours in Ceramics courses.
b. Graphic Design: 30 hours in ARS 271, ARS 272, ARS 273, ARS 372, ARS 373, ARS 374, ARS 375, ARS 376, ARS 472, and either ARS 479 or ARS 496.
c. Painting: 24 hours in Painting courses, including ARS 231 and ARS 232.
d. Photography: 27 hours in Photography courses, including ARS 281 and ARH 248.
e. Sculpture: 24 hours in Sculpture courses.

Secondary Studio Concentrations
Fifteen hours in a second studio area. Secondary concentrations are available in Ceramics, Graphic Design, Painting, Photography, and Sculpture.

Option Two:
A primary concentration in Art History, including ARH 492 and 24 hours in Art History, beyond the General Academic Studies Requirements, with at least one course in each of the following areas:
1. Ancient and Medieval Art - ARH 304, ARH 406, ARH 415.
2. Renaissance and Baroque Art - ARH 322, ARH 324, ARH 326, ARH 330, ARH 434.
   ARH 290 and ARH 390, Special Topics, may be used to satisfy area requirements.
A Secondary Concentration in one of the Studio Art areas is also required for option two.

REQUIREMENTS FOR A MINOR IN ART
A minimum of 21 hours in Studio Art of which nine hours must be taken at this university. At least three hours must be in courses numbered 300 or higher taken at this University.

REQUIREMENTS FOR A MINOR IN ART HISTORY
A minimum of 21 hours in Art History of which nine hours must be taken at this university. At least six hours must be in courses numbered 300 or higher taken at this University. ARH 100 and ARH 360 will not count toward the minor in Art History.

GRADUATE STUDIES
Although the Art and Art History Department has no graduate degree programs, courses in Art History and Studio Art are offered at the graduate level for those students who need such course work.

DEPARTMENTS OF INSTRUCTION

Department of Accounting
Department of Economics and Finance
Department of Management
Department of Marketing and E-Commerce

The Mitchell College of Business offers the degrees of Bachelor of Science, Master of Accounting and Master of Business Administration.
The foundation of the College is quality instruction in all undergraduate and graduate programs. Our instructional mission is to prepare our graduate and undergraduate students for professional careers in the fields of accounting, economics, finance, management, marketing, and transportation through a curriculum designed for both broad exposure to each field and in-depth coverage within a specific field of choice.

MISSION, GOALS AND OBJECTIVES

To provide an internationally accredited business education program to qualified undergraduate and graduate students, to support the economic development of the region and contribute to the continuing success of the University. We accomplish this mission through quality instruction, faculty scholarship, and external services.

PRIORITIES

I. Instruction
The highest responsibility of the College is the instruction of its students and primary emphasis is placed on excellent teaching. In so doing, the College affirms its commitment to the University focus on excellence, lifelong learning and the education of the whole person. The College fulfills its instructional mission through the B.S. degree program for undergraduates and the M.B.A. and Master of Accounting programs at the graduate level.

II. Intellectual Contributions
The College encourages and supports faculty basic and applied scholarship as well as instructional development for the purposes of expanding knowledge, enhancing classroom instruction, and contributing to regional economic development. Scholarship is broadly defined to include investigative efforts that lead to the origination, the integration, or the application of knowledge pertinent to the various field of business. A program of continuing scholarship is the responsibility of each faculty member. The College is responsible for using its resources, including faculty recruiting, to encourage, support, and reward faculty scholarship.

III. Service
The College’s service mission is to engage in activities which support and contribute to the development of the University, community and region, and to provide a vehicle for the continuing development of faculty and staff through interaction with the College’s numerous constituents. This mission is accomplished through participation in the College’s external program, and through the efforts of individual faculty and staff.
BUSINESS RESOURCES CENTER
The Business Resources Center directs the professional and management development programs of the College. These include a variety of business seminars and programs for professional organizations, industrial firms, and the business community.

CENTER FOR BUSINESS AND ECONOMIC RESEARCH
The Center for Business and Economic Research (CBER) publishes a monthly newsletter showing trends in local business and visitor activities; maintains a community database; publishes faculty working papers; and undertakes applied business and economic research in cooperation with the state and local agencies.

SMALL BUSINESS DEVELOPMENT CENTER
The University of South Alabama Small Business Development Center is one of eleven Small Business Development Centers located in universities around the State. Funded jointly by the Small Business Administration and the University, the Center offers business services to business people in a six-county area of southwest Alabama. The SBDC provides free one-on-one counseling, and conducts workshops that address the problems of the business community.

CAREER SERVICES CENTER
The University Career Services Center acts as a liaison between employers and students. Business and professional firms of national significance visit the campus regularly to interview prospective graduates. The Center maintains an office in the Mitchell College of Business to assist students.

SCHOLARSHIPS
The Mitchell College of Business offers prestigious scholarships to entering freshmen students from Alabama who are majoring in the Mitchell College of Business. Contact the Office of Enrollment Services, (251) 460-6494, for application procedures, deadline dates and more information about the Abraham Mitchell Business Scholarships. In addition, scholarships for eligible students in the Mitchell College of Business are made available by local and regional firms in Accounting, Management, Marketing, Real Estate, Transportation, and Data Processing. (Refer to Financial Aid section of this Bulletin for details.)

COOPERATIVE EDUCATION PROGRAM
The Cooperative Education Program is available to students in the Mitchell College of Business. This program offers qualifying students opportunities to work part-time while attending school as a full-time student or alternate full-time employment with course work on a rotating semester basis. For details write the Director, Career Services Center, 6420 Old Shell Rd., University of South Alabama, Mobile, Alabama 36688-0002.

ADMISSION TO THE MITCHELL COLLEGE OF BUSINESS
Students may transfer from other colleges in the University to the Mitchell College of Business. Degree requirements are defined by the University Bulletin in effect for the semester of entry into the College. A student’s counseling file must be available for evaluation of courses required for a degree in Business.

TRANSFER STUDENTS
The Office of Student Services of the Mitchell College of Business evaluates for credit all courses transferred from other colleges and universities. Degree credit will be given only for those courses which meet the requirements for the degree program of the College.
Students transferring from a junior college may have a maximum of 64 semester hours accepted toward the degree program. No junior- or senior-level courses listed in the curriculum of the Mitchell College of Business will be accepted from a junior college for degree credit.

TRANSIENT COURSE CREDIT
Students enrolled in the Mitchell College of Business must receive prior approval from the Dean's Office before taking 300 and 400 level business courses at another institution. If the course is a concentration requirement, approval of the appropriate Department Chair is also required. Transient course approval may be granted based on one of the following conditions.

1. Students who are not residents of the area and who leave USA to return home for one or more semesters.
2. Students who move to another area prior to completing all degree requirements but who have met the residency requirements for the Mitchell College of Business.
3. Students who are scheduled to graduate and the course is not offered at USA during the final term.

Failure to obtain prior approval may result in loss of transfer credit for the course work. Transient Course Approval forms may be obtained in the Office of Student Services.

STUDENTS RESPONSIBILITY AND ADVISING

Each student is responsible for meeting all requirements of the degree program. Before registering for any course, students must complete any prerequisites listed in course descriptions in this Bulletin. The Office of Student Services is available to all students for the evaluation of their degree-program record. When an exception is made in a student's program, written approval of the exception by the Associate Dean must be placed in the student's file. Failure to properly document exceptions may delay graduation.

Each student enrolled in the Mitchell College of Business must complete or be in the process of completing the following Basic Business Techniques Core before enrolling in any course of the 300 or 400 series.

- ACC 211, ACC 212
- CIS 250
- CA 110
- BUS 245, BUS 255
- MA 120
- ECO 215, ECO 216
- EH 101, EH 102

All students enrolled in the College will list their major area as Business Administration until they have completed the Basic Business Techniques Core listed above with a 2.0 average in the area. Upon entering the 300 series each student must declare a major concentration area selected from the fields of Accounting, Economics, Finance, Management, Marketing, or General Business. After declaring a major concentration area, students will be advised by a faculty advisor from that area.

Students attending other colleges, including junior colleges, who are planning to enter the Mitchell College of Business must take at least fifty percent of the required business credit hours and at least five (5) out of eight (8) major courses at the University of South Alabama.

REQUIREMENTS FOR SECOND MAJOR IN BUSINESS

Undergraduate students enrolled in the Mitchell College of Business who plan to add a second major to their curriculum must meet all requirements for the second major. Courses included in the business core requirements and the first major cannot be counted toward the second major requirements. A minimum of 15 semester hours in the second major must be taken in addition to degree requirements.

DUAL MAJOR ACROSS COLLEGES

Students not enrolled in the Mitchell College of Business and interested in a dual major in business must meet with an adviser in the Office of Student Services for information.

GENERAL BUSINESS MINOR

Students in other colleges may elect, with the approval of their department chair, a minor in the Mitchell College of Business. Students are required to take the following eight courses:

- ACC 211
- BUS 245 or ST 210
- ACC 212
- MGT 300
- ECO 215
- MGT 310
- FIN 315
- MKT 320

Students must complete at least 50% of the courses counted towards the minor at the University of South Alabama.
REQUIREMENTS FOR A MINOR IN ECONOMICS FOR STUDENTS ENROLLED IN
THE College of Arts and SCIENCES OR THE SCHOOL OF COMPUTER AND
INFORMATION SCIENCES
The courses designated for the minor will meet the needs of students who desire a
knowledge of economics to support major study in another field.
A minimum of 21 semester hours in Economics including:
ECO 215  ECO 216
ECO 315  ECO 316
Plus nine semester hours of other upper-level courses numbered 301 or above.

REQUIREMENTS FOR THE BACHELOR OF SCIENCE DEGREE
All students enrolled in the Mitchell College of Business are required to take specified
Business courses and courses in other Colleges of the University. Additionally, a
major field of study must be selected in either Accounting, Economics, Finance,
Management, Marketing or E-Commerce. Students who attend evening classes only
may select a concentration in either General Business or Accounting. Other
concentration areas are not available in the evening. The concentration in General
Business is available only to evening students.
To graduate, you must have a minimum of 128 semester hours with an overall
institution grade-point average of 2.0. In addition, a 2.0 grade-point average is
required in the 200-level business courses, a 2.0 grade-point average is required in
the 300-level business courses, and a 2.0 grade-point average is required for all
courses counted in the Major.
All students enrolling in the Mitchell College of Business must complete at least fifty
percent of all business credit hours and at least five of the eight courses counted
toward the concentration at the University of South Alabama.
All students must petition for graduation according to University requirements
explained elsewhere in this Bulletin.
Requirements for a degree in the Mitchell College of Business are detailed below. The
sequence, as outlined, is intended as an example schedule only. Freshman and
sophomore students may take lower division courses in any combination which meets
prerequisite requirements. Each student must comply with Course Prerequisite
Requirements as listed in the course description sections of the current University
Bulletin.

BUSINESS UNDERGRADUATE CURRICULUM
I. General Education Requirements
EH 101, EH 102 English Composition I & II 6
Humanities and Fine Arts
   Literature (EH 215-EH 216, EH 225-EH 226, or EH 235-EH 236) 6
   Fine Arts 3
CA 110 Public Speaking 3
Social Sciences
   History (HY 101, HY 102, HY 135 or HY 136) 3
   ECO 215 Prin of Microeconomics 3
   ECO 216 Prin of Macroeconomics 3
   PSY 120 General Psychology 3
Natural Science with lab 8
   (Select from BLY 101 or BLY 121, BLY 102
   or BLY 122, CH 101, CH 103, CH 131, CH 132, CH 141,
   GEO 101, 102, GY 111, GY 112,
   PH 101, PH 104, PH 114 or PH 201, PH 115 or PH 202)
Non-Business Elective 12
Total 50 hours

II. Lower Division Requirements Related to Business
ACC 211  
ACC 212  
BUS 245  
BUS 255  
CIS 250  
MA 120  

**Total**  
18 Hours  
A 2.0 GPA is required in this area in order to graduate.

### III. Business Core

- BUS 305  
- FIN 315  
- MGT 300  
- MGT 310  
- MGT 305  
- MKT 320  
- MGT 325  
- MGT 485, MGT 486  
- International Core 6

Select two courses from the following:

<table>
<thead>
<tr>
<th>ECO 330</th>
<th>FIN 332</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 334</td>
<td>MKT 336</td>
</tr>
</tbody>
</table>

**Note:** Any course counted for the international core may not be counted in the major. Finance majors must take FIN 332 as one of their two international core courses.

**Total**  
30 hours

### IV. Business Major

**Required and Electives**  
24 hours  
Beginning with those entering students in Fall Semester, 2005, a minimum of fifteen credit hours of courses at the 300/400 level in the major discipline must be completed at the University of South Alabama. A 2.0 GPA is required in this area in order to graduate.

### V. Business Electives

Upper Division Electives  
6 hours  

**Total MCOB Curriculum**  
128 hours

### GENERAL BUSINESS

(For Evening Program Students Only)

The concentration in general business is designed for students planning careers in small business management, institutional management, human resource management, or sales. Areas of concentration are pursued in the junior and senior years.

Choose eight courses from the following:

<table>
<thead>
<tr>
<th>ACC 331</th>
<th>ECO 315</th>
<th>ECO 316</th>
<th>ECO 340</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 300</td>
<td>FIN 343</td>
<td>FIN 345</td>
<td>FIN 346</td>
</tr>
<tr>
<td>FIN 350</td>
<td>FIN 420</td>
<td>FIN 421</td>
<td>MGT 311</td>
</tr>
<tr>
<td>MGT 351</td>
<td>MGT 455</td>
<td>MGT 456</td>
<td>MKT 375</td>
</tr>
<tr>
<td>MKT 377</td>
<td>MKT 379</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### REPEAT COURSE POLICY

If a course in the Mitchell College of Business is completed with a grade of "C" or better, the course cannot be repeated for credit. Any grade received will not be counted in the calculation of the Grade Point Average (GPA).

### THE MASTER OF BUSINESS ADMINISTRATION DEGREE PROGRAM (MBA)
The Master of Business Administration degree program is designed to enable individuals to study advanced concepts of business, industry, and government operations. This program is intended for both the active manager or technical supervisor as well as the recent graduate who is interested in advanced study in the field of business. The program includes accounting, finance, quantitative methods, marketing, economics, human behavior, and labor-management relations. The program requires a minimum of ten (10) courses, each carrying three (3) semester hours credit. The normal load is two courses per semester. Students are expected to make appropriate arrangements with their employers to meet classes on time, avoid absences due to out-of-town travel, and provide sufficient time to complete library and other assignments as required.

The graduate program offered in Business Administration is fully accredited by the Association for the Advancement of Collegiate Schools of Business.

THE MASTER OF ACCOUNTING DEGREE PROGRAM (MAcc)

Students may earn a Master of Accounting degree in the Mitchell College of Business. The admissions requirements, academic regulations, and general degree requirements are the same as those required for the MBA Degree

ADMISSION REQUIREMENTS FOR MBA AND MAcc

Students are admitted each semester. The Regular Admission requirements are:

1. a bachelor's degree,
2. a minimal grade-point average of 3.0 on all undergraduate work (A=4.0), and
3. a satisfactory score on the GMAT (Graduate Management Admissions Test) based on the formula: 200 x GPA + GMAT = 1050

A student who has a bachelor's degree with less than 3.0 but greater than a 2.5 (A=4.0) or a minimum grade-point average of 2.75 on the last 64 semester hours of college work may attain Provisional Admission provided the student has a satisfactory GMAT score based on one of the following formulas:

- 200 x GPA + GMAT = 1050
- 200 x UDGPA (last 64 hours) + GMAT = 1100

In addition all applicants must achieve a GMAT Analytical Writing score of 3.0 or higher.

The GMAT must have been taken in the last five years.

International students must submit documentary evidence showing TOEFL test scores of 525 or above or its equivalent.

The non-degree category is reserved exclusively for students with an MBA Degree. Students in this category must obtain permission of the Director of Graduate Studies before registering for any graduate courses in the Mitchell College of Business.

REQUIREMENTS FOR REGULAR STANDING

A Provisional Admission student will qualify for Regular Standing upon completion of a minimum of nine semester hours taken for graduate credit (500 level) toward degree requirements provided at least a “B” average is maintained in all such work attempted. In addition, at least a “B” average is required for all work taken as a graduate student, including undergraduate and graduate level foundation courses. If the student has not met these requirements upon completing twelve semester hours of graduate credit (500 level) for degree requirements, the student will be dismissed from the MBA program.

ACADEMIC REGULATIONS

The following regulations apply to all graduate students and encompass all work taken as a graduate student including all graduate degree courses (core, elective, concentration, business and accounting).

1. Students must earn a “B” average overall. In addition a “B” average must be earned in the graduate degree courses.
2. Students who receive six (6) semester hours of “F” will be academically dismissed.
3. Students who receive any combination of nine (9) semester hours of grades of “C” or less will be academically dismissed.

Courses taken outside the Mitchell College of Business which are not an approved part of the degree program will not be included in the computation of the grade-point average.
No more than one (1) course (three (3) semester hours) from academic programs outside the Mitchell College of Business may be counted in the degree program. All such courses must be approved by the Director of Graduate Studies.

TRANSFER CREDIT
A maximum of nine (9) semester hours of graduate credit earned in another institution may be considered for credit toward degree requirements in the graduate program. Transfer credit is approved only after completion of a minimum of nine (9) semester hours of graduate credit (500 level) toward degree requirements at the University of South Alabama and the student has qualified for Regular Standing. Only grades of “A” or “B” may be accepted as transfer credit. Transfer credits are not used in the calculation for the grade-point average. Students transferring from other University of South Alabama graduate programs must complete a minimum of nine courses (27 semester hours) after formal admission into the Mitchell College of Business graduate programs.

TRANSIENT APPROVAL
Students enrolled in the Master of Business Administration Program and the Master of Accounting program are expected to complete all requirements at the University of South Alabama. Students transferring from other accredited graduate programs may transfer a maximum of nine credit hours (three courses) to be counted toward USA graduate requirements. Once enrolled at USA, students are expected to complete the degree requirements at USA.

Transient student requests will be approved only under the following conditions:

1. The student is graduating and the specific course requirement is not offered at USA during that term
2. The student is moving from the Mobile area and can complete the degree requirements at another accredited institution (a maximum of nine hours if the student has not transferred other graduate credit to USA)

Transient approval will not be granted for students to enroll in graduate classes at other local (non-AACSB accredited) institutions.

Transient approval will not be granted for MGT 515 (Business Policy).

FAILURE OF A COURSE
Should a student fail more than one course, he or she will be dismissed. In no case will a student be permitted to repeat a course more than one time.

TIME LIMITATION
All requirements for a graduate degree must be completed within five (5) calendar years from the date of matriculation as a graduate student.

GRADUATE ASSISTANTSHIPS
Graduate Assistantships are awarded on an annual basis and are granted for the academic year. The stipend for the two semesters is $4,000 and waiver of up to nine hours tuition. Out-of-state fees, if applicable, are also waived. Fees are paid by the student.

Application forms can be secured from the Director of Graduate Studies, Mitchell College of Business.

REQUIREMENT FOR DEGREES
MBA students must satisfactorily complete Ten (10) three semester-hour graduate courses, including nine (9) Core courses and one (1) Elective course. Students seeking the Master of Accounting degree must complete ten (10) business courses including not less than five (5) advanced level accounting courses.

A maximum of one-course (3 semester hours) from programs outside the Mitchell College of Business may be used to satisfy the MBA Degree requirements. The course must be approved by the Director of Graduate Studies.

MASTER OF BUSINESS ADMINISTRATION CURRICULUM
Undergraduate Foundation Courses
All courses must be completed as an undergraduate student or transferred into the university before admission will be granted to the MBA program. Courses must have been passed with a minimum grade of "C" to complete a prerequisite requirement.

THE MASTER OF ACCOUNTING DEGREE PROGRAM

Students may earn a Master of Accounting degree in the Mitchell College of Business. The admissions requirements, academic regulations, and general degree requirements are the same as those required for the MBA Degree. In addition, students earning the MAcc Degree must earn a "B" average in all accounting courses. Students seeking the Master of Accounting degree are required to complete any of the following foundation courses as designated by the Director of Graduate Studies. In addition, students must complete six (6) graduate accounting courses and four (4) elective courses.

Undergraduate Foundation Courses

All courses must be taken as an undergraduate student or transferred into the university before admission will be granted to the MAcc program. Courses must have been passed with a minimum grade of "C" to complete a prerequisite requirement.

CPA Eligibility
Persons seeking qualification to sit for the uniform CPA examination in the state of Alabama must have completed a minimum of 150 semester hours or 225 quarter hours of postsecondary education, including (1) a baccalaureate degree from an accredited university, and (2) evidence that he or she has satisfied either one of the following:

a. At least 33 semester hours or equivalent quarter hours (excluding principles of accounting courses) at the upper division undergraduate and/or graduate level, including minimum requirements in each of the following areas: financial accounting - 9 hours; auditing - 6 hours; taxation - 6 hours; management accounting - 3 hours; governmental and not-for-profit accounting - 3 hours; additional accounting - 6 hours and at least 30 semester hours or equivalent quarter hours in business courses (other than accounting courses) at the undergraduate and/or graduate level, including at least 3 semester hours in business law, concentrating primarily on the Uniform Commercial Code.

b. Awarded a graduate degree in accounting or business and completed a course of instruction that includes all of the requirements specified in (a) above.

If you need any further information, see the Chair of the Department of Accounting.
DEPARTMENT OF ACCOUNTING

Chair: Frank R. Urbancic (251) 460-6144
Professors: Segal, Sylvestre, Urbancic
Associate Professor: Hsu
Assistant Professors: Parker, Sale
Instructors: Elliott, Prescott

Department of Accounting web site
http://www.southalabama.edu/mcob/accounting.shtml

Reporting on the financial affairs of private and public institutions, preparing regulatory reports, and tax return preparation require sound accounting procedures. Since management decisions are made from accounting information, qualified accountants must be available, not only as executive accountants for industrial firms but also as public accountants for auditing and for general services to business firms and governmental agencies. The concentration in accounting is designed to prepare students for positions in these areas. The program is broad and covers the functional areas of business.

A student is not permitted to repeat any accounting course for which they have previously earned a grade of “C” or better.

The following six accounting courses are required of all accounting majors:
ACC 331        ACC 341        ACC 371
ACC 372        ACC 381        ACC 451

In addition, students must take two electives from the following four accounting courses:
ACC 416        ACC 432
ACC 452        ACC 461

TRANSIENT COURSE CREDIT
All students majoring in Accounting must receive prior approval from the Chair of the Department before taking courses in the major field at another institution. Failure to obtain prior approval may result in loss of transfer credit for the course work. Only equivalent courses with grades of “C” or above from a college of business that is accredited by AACSB The International Association for Management Education will be accepted.

Mitchell College of Business
DEPARTMENT OF ECONOMICS AND FINANCE

Interim Chair: Ross N. Dickens (251) 460-6729
Professor Emeritus: James Bobo
Professors: Chang, Dickens, Filer, Swofford
Associate Professor: Forbus
Assistant Professors: Delcoure, Hughes, Hunsader, McKenna, Simpson

Department of Economics and Finance web site
http://www.southalabama.edu/mcob/econfin.shtml

THE ECONOMICS PROGRAM
The Economics program is designed to prepare students for professional careers in managerial positions, graduate students in economics or for related fields such as law, government, administration, education, and others. Positions in business economics and graduate study require knowledge of economics and the application of economic tools to analyze problems for decision-making.
Specific areas of interest not covered by listed courses may be met by special research programs and guided individual study in ECO 494 (Directed Study in Economics).

REQUIREMENTS FOR AN ECONOMICS CONCENTRATION IN THE MITCHELL COLLEGE OF BUSINESS
Requirements for a concentration in economics are:
ECO 315  ECO 316  ECO 491
At least fifteen credits of elective courses in economics, numbered 301 or above, and related fields, approved by the department.

REQUIREMENTS FOR A MINOR FOR STUDENTS OUTSIDE THE MITCHELL COLLEGE OF BUSINESS
The courses designated for the minor will meet the needs of students who desire a knowledge of economics to support major study in another field.
A minimum of 21 semester hours in economics including ECO 215, 216, 315, 316, and nine hours in other courses numbered 301 or above.

DESCRIPTIONS OF ALL ECONOMICS (ECO) COURSES

Mitchell College of Business

THE FINANCE PROGRAM
The Finance program is designed to provide an understanding of the various areas and principles of finance. Students will develop a body of specialized knowledge and analytical techniques that are used in the acquisition, allocation and management of financial resources. Finance careers are typically in industry and commercial businesses, public utilities and government agencies, banks, insurance companies, brokerage houses, investment companies and other financial institutions. Within the finance program, students may pursue either a general finance degree or a finance degree with a concentration in banking/depository institutions.
The general finance degree is appropriate for students who plan a career in corporate finance, financial planning, investment planning and research, real estate, or insurance.

The following courses are required:
FIN 343  FIN 350  FIN 410
FIN 411  FIN 420
Choose three electives from the following:

<table>
<thead>
<tr>
<th>ACC 331</th>
<th>ECO 315</th>
<th>ECO 340</th>
<th>FIN 430</th>
</tr>
</thead>
<tbody>
<tr>

<td>FIN 470</td>
<td>FIN 490</td>
</tr>
<tr>
<td>FIN 492</td>
<td>FIN 494</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Finance majors must take FIN 332 as one of their two international core courses.

Banking/Depository Institutions Concentration

Students whose interests are in Banking and Depository Institutions Management can choose this concentration. This concentration is designed to prepare students for a career in banking, savings and loans, credit unions and management of other financial institutions.

The following courses are required:

<table>
<thead>
<tr>
<th>FIN 343</th>
<th>FIN 350</th>
<th>FIN 410</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 420</td>
<td>FIN 470</td>
<td>FIN 471</td>
</tr>
</tbody>
</table>

Choose two electives from the following:

<table>
<thead>
<tr>
<th>ACC 331</th>
<th>ECO 315</th>
<th>ECO 340</th>
<th>FIN 421</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 345</td>
<td>MKT 345</td>
<td>FIN 411</td>
<td>FIN 490</td>
</tr>
<tr>
<td>FIN 430</td>
<td>FIN 445</td>
<td>MKT 348</td>
<td>FIN 492</td>
</tr>
<tr>
<td>FIN 494</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Finance majors must take FIN 332 as one of their two international core courses.

**DESCRIPTIONS OF ALL FINANCE (FIN) COURSES**

Mitchell College of Business
DEPARTMENT OF MANAGEMENT

Chair: Marjorie Icenogle (251) 460-6411
Professors: Flynn, Harrison, Icenogle, Maes, Moore, Pietri, Shearer
Associate Professors: Gamble, Slagle
Assistant Professors: Boyar, Jeffery, Mosley, Retzlaff-Roberts, Woodford
Instructors: Howard, King, Weldy

Department of Management web site
http://www.southalabama.edu/mcob/management.shtml

Four options are available within the Management concentration: General Management, Human Resource Management, Entrepreneurship and Service Management.

General Management
The General Management curriculum offers courses designed to give students a solid foundation in the field of Management and will enable them to become effective managers, problem-solvers, and decision-makers in the world of business, industry, and government. Emphasis is placed upon problem recognition and anticipation, problem solving, and managerial decision-making. The thrust of the curriculum is to give students insight into the means for improving the productivity and efficiency of modern organizations.

Each General Management major must take MGT 340 (Organizational Behavior), MGT 351 (Human Resource Management) and MGT 492 (Seminar: Management). In addition, five Management concentration electives must be selected by the student with the approval of the Management faculty advisor.

General Management Electives
MGT 311  MGT 345  MGT 450  MGT 390
MGT 430  MGT 441  MGT 455  MGT 451
MGT 452  MGT 454  MGT 470  MGT 456
MGT 460  MGT 465  MGT 474
MGT 483

Human Resource Management
Managers have become aware of the significant impact on the bottom line of effective utilization of the human resources in an organization. As a result, the Human Resource Manager has become a key person on the top management team. The Human Resource Management curriculum provides the student with the skills and knowledge to become a proficient practitioner in this leading organizational field.

Each student in the Human Resource Management Option must take MGT 340 (Organizational Behavior), MGT 351 (Human Resource Management) and MGT 492 (Seminar: Management). In addition, five of the following Human Resource Management electives must be completed.

MGT 450  MGT 451  MGT 452  MGT 454
MGT 455  MGT 456  MGT 460  MGT 470

Entrepreneurship
Entrepreneurship is the key to economic growth for the United States and the Mobile region. The Entrepreneurship concentration is designed to meet the needs of individuals anticipating the creation of a new venture upon graduation. The concentration allows students to choose a combination of courses that best match their interest and venture opportunities.
Each student in the Entrepreneurship concentration must take MGT 311 (Legal Environment of Business II), MGT 340 (Organizational Behavior), MGT 351 (Human Resource Management), MGT 345 (Small Business Management), FIN 350 (Financial Statement Analysis), and MGT 492 (Seminar: Management), MGT 465 (New Venture Creation) and a 300 or 400 level elective approved by program coordinator.

**Service Management**

Services are the largest and fastest growing sector of the U.S. economy with considerable job opportunities both nationally and in the region. The service Management concentration is designed to meet the growing need for individuals anticipating management careers in service organizations. The flexible course composition of the concentration allows students to choose the combination of courses that best suit their interests and career strategy.

Each student in the Service Management concentration must take MGT 340 (Organizational Behavior), MGT 351 (Human Resource Management), MGT 390 (Total Quality Management), MGT 441 (Service Operations), MKT 374 (Buyer Behavior) and MGT 492 (Seminar: Management). In addition, one course must be selected from each of the following two groups of electives:

<table>
<thead>
<tr>
<th>Group 1</th>
<th>Group 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 430</td>
<td>ACC 381</td>
</tr>
<tr>
<td>MGT 450</td>
<td>FIN 345</td>
</tr>
<tr>
<td>MGT 451</td>
<td>MKT 345</td>
</tr>
<tr>
<td>MGT 455</td>
<td>FIN 445</td>
</tr>
<tr>
<td>MGT 470</td>
<td>MKT 348</td>
</tr>
<tr>
<td>MGT 483</td>
<td>MKT 376</td>

DEPARTMENT OF MARKETING AND E-COMMERCE

Chair: Mohan Menon (251) 460-6412
Professors Emeritus: Lynn Robinson
Professors: Joseph, Menon
Associate Professor: Sneath
Assistant Professors: Finney, Spake
Instructors: Bishop, Folse, Kahn

Department of Marketing and E-Commerce web site
http://www.southalabama.edu/mcob/marketing.shtml

In addition to providing a solid foundation in key areas of business, all programs in the department provide the student with a strong background in the practices and theories that are the foundation of contemporary marketing and E-Commerce in the global competitive marketplace.

The department offers two major programs of study: Marketing and E-Commerce. Within the Marketing major are three concentrations: Marketing Management, International Business, and Sport and Event Marketing. Each of the majors and concentrations within them are detailed below. In addition to the regular classes, students also have the opportunity to enroll in Internship, Directed Study, and Special Topics courses.

Minimum Grade of “C” in all Marketing Courses.
All students majoring in the Department of Marketing and E-Commerce are required to earn a minimum grade of “C” (2.0) in MKT 320 and all other marketing courses. (Note: MKT 320 Principles of Marketing is a prerequisite for nearly all marketing courses.) A minimum grade of “C” must also be earned in all non-marketing business courses taken as part of the concentration requirements.

Qualified students majoring in Marketing and E-Commerce are urged to apply for internships that are designed to provide students with practical experience in their field of study. Students who meet the requirements need to contact a faculty advisor in the area of interest and register to enroll in the Internship class (MKT 496) as a business elective. The faculty advisor will guide the student through the internship and provide information for fulfilling the course requirements.

Marketing Management Concentration
The Marketing Management Program prepares students for entry-level positions in sales and sales management, channel management, retailing, advertising, and market research. Marketing Management students must take the following seven required courses:

MKT 374  MKT 375  MKT 377
MKT 380  MKT 382  MKT 384
MKT 479

In addition, students must complete one of the following elective courses:

MKT 350  MKT 376
MKT 379  MKT 481

Marketing-International Business Concentration
The Marketing-International Business Program prepares students for entry level positions with import-export firms, international departments of domestic firms, and firms based throughout the world. International Business students must take the following seven required courses:

MKT 336  MKT 374
MKT 384  MKT 477
MKT 479  MKT 492
MGT 334*
In addition, they must complete one of the following elective courses:
ECO 363  MKT 350
MKT 375  MKT 376

*Any course counted in the major cannot also be counted for the International Core required in the Mitchell College of Business. Marketing - International Business students are required to take ECO 330 and FIN 332 as their International Core courses.

It is recommended that Marketing-International Business students take the following courses as their non-business electives:
IS 100  GEO 114  GEO 312

Proficiency in a Second Language
Marketing-International Business students are required to demonstrate introductory-level proficiency in a second language by passing a foreign language proficiency examination as administered by the University of South Alabama Department of Foreign Languages and Literature or by successfully completing the second semester of any approved elementary sequence in a foreign language.

Sport and Event Marketing Concentration
The Sport and Event Marketing Program prepares students for entry-level positions in the sport and event marketing industries including performance, production, promotion, and specialized segment. Sport and Event Marketing students must take the following seven required courses:
MKT 374  MKT 380  MKT 382  MKT 384
MKT 385  MKT 479  MKT 495
In addition, students must complete one of the following elective courses:
MKT 350  MKT 376  MKT 379  MKT 481

E-Commerce Major
The E-Commerce program provides students with a sound background in business disciplines as well as a strong foundation in Web-enabling technology. It positions technology as a tool for business applications. Students gain analytical and problem-solving skills through the integration of technical knowledge and skills with business applications and case studies. The program offers students the opportunity to work for Internet-enabled organizations, or be self-employed.
This Mitchell College of Business degree program includes a combination of four Business application courses, six technology courses from the School of Computer and Information Sciences, and two Internet communication courses from the Communication Department of the School of Arts and Science. Students work closely with the three academic units to coordinate their program and courses and to develop application projects required during the senior year.

Note: E-Commerce students DO NOT have to meet the Professional Component requirements of the School of Computer and Information Sciences.

Technology Courses:
CIS 120/CIS 122 (lab) (prerequisite MA 112)
ITE 285 (prerequisite CIS 120)
These two courses can be taken as non-business electives.
CIS 321 (prerequisite ITE 285)
CIS 324 (prerequisite ITE 285)
ITE 375 (prerequisite CIS 321, CIS 324)
ITE 453 (prerequisite ITE 375)

Business Courses:
MKT 340 (prerequisite MKT 320)
MKT 350 (prerequisite MKT 340)
MKT 355 (prerequisite MKT 350)
MKT 480 (prerequisite MKT 355)

Communication Courses:
CA 360 (no prerequisites) - to be taken as a non-Business elective.
CA 366 (no prerequisites) - recommended as a Business elective.

All students must have a laptop computer and earn a minimum "C" grade in all E-Commerce program courses. This and other information regarding the program can be found at:
http://www.usaecomm.com or http://www.ecdegree.com

DEPARTMENTS OF INSTRUCTION
Health, Physical Education and Leisure Studies
Leadership and Teacher Education
Professional Studies

MISSION STATEMENT
Preparing professional educators for lifelong learning through teaching, service, and research.
The College of Education at the University of South Alabama seeks to:

- provide students with quality, accessible undergraduate and graduate professional education
- prepare graduates for professional careers and lifelong learning
- promote the creation and dissemination of knowledge
- service our constituencies through professional development programs and community outreach
- assist regional agencies in meeting their professional obligations.

ACCREDITATION AND APPROVALS
The College of Education at the University of South Alabama is accredited by the National Council for Accreditation of Teacher Education (NCATE), 2010 Massachusetts Ave., NW, Suite 500, Washington, DC 20036; phone (202) 466-7496. This accreditation covers initial teacher preparation programs and advanced educator preparation programs.

Programs in the College of Education are accredited by the National Council for Accreditation of Teacher Education (NCATE), approved by the National Association of State Directors of Teacher Education and Certification (NASDTEC), approved by the Interstate Reciprocity Compact (IRC), and approved by the Alabama State Board of Education.

UNDERGRADUATE
The College of Education, working in cooperation with the Administrative staff and with other colleges of the University, recognizes and accepts the responsibility for identifying, recruiting, and preparing students who will be capable of providing education in a dynamic society. It accepts the further responsibility of ensuring that every student preparing to teach will have the advantage of continuous counseling. Planned observation and participation are regular parts of the student’s program throughout the preparation period.

The College of Education has five major objectives: to prepare professional educators for meeting educational needs of children, youth, and adults; to prepare support personnel for meeting the educational needs of the schools; to assist schools with the improvement of instructional programs; to prepare students in professional areas other than teaching; and to conduct research to expand, enhance, and evaluate instructional programs and personnel.
Undergraduate preparation is offered in elementary education, middle and high-school education, and special education programs. Offerings in educational psychology, foundations of education, health, physical education and leisure studies, safety education, and other areas of general appeal are available to students in the University on the basis of need and interest.

The College of Education, as an integral part of the total University, strives to give all possible services to the people of Alabama through assistance to their educational programs and related activities.

**UNDERGRADUATE RESIDENCY REQUIREMENT**
In addition to the University Residency Requirements, a student seeking a degree in the College of Education must complete 32 hours of the last 45 semester hours and at least a minimum of 15 hours of upper level course work in the major discipline as a student at the University of South Alabama.

**THE TEACHER EDUCATION PROGRAM**
The Teacher Education Program begins with selective recruitment, gives careful attention to each phase of the preparation program, and assists in the proper placement and adjustment of teachers and other educational personnel. Follow-up studies of graduates are made in an effort to assist them, to gain knowledge of their effectiveness on the job, and to secure data vital to future planning and development. Programs for the preparation of teachers are built on a liberal arts foundation. Those preparing for teaching positions in the secondary schools pursue a composite teaching specialization in the College of Education, and a content area in the College of Arts and Sciences. Those preparing to teach in elementary school concentrate on subject matter relevant to the elementary school curriculum while completing general requirements in the liberal arts. Those preparing to teach special education and for a teaching specialization which extends from nursery through twelfth grade pursue a broad program appropriate to elementary and secondary schools. All groups complete their undergraduate programs with suitable professional preparation.

**UNDERGRADUATE PROGRAM OPTIONS WITHIN THE COLLEGE**
The College of Education offers teaching and non-teaching programs. Teaching programs are presented first and predominate among all programs offered. Various teaching program options are available at the Class B (Bachelor of Science degree) level in the College.

**MINIMUM GENERAL STUDIES REQUIREMENTS (64 Hours)**
See individual department for additional or specific general studies requirements.

**Area I - Written Composition**
2 courses EH 101, EH 102 6 hrs

**Area II - Humanities and Fine Arts**
1 course CA 110 3 hrs
1 course from ARS 101; MUL 101; DRA 110; ARH 100, ARH 103, ARH 123, ARH 240, ARH 242 3 hrs
1 course from *EH 215, EH 216, EH 225, EH 226, EH 235, EH 236 3 hrs
1 course from EH 215, EH 216, EH 225, EH 226, EH 235, EH 236; AFR 101; AIS 105; PHL 110, PHL 121, PHL 131, PHL 231, PHL 240; LG 111-272; ARS 101; MUL 101; DRA 110; ARH 100, ARH 103, ARH 123; ARH 240, ARH 242 3 hrs

**Area III - Natural Sciences and Math**
1 course from MA 110, MA 112, MA 113, MA 115 3 hrs
2 courses from BLY 101, BLY 102; GY 111, GY 112; CH 101, CH 103, CH 131, CH 132, CH 141; GEO 101, GEO 102; PH 101,PH 104, PH 114, PH 115, PH 201, PH 202 8 hrs

**Area IV - History, Social and Behavioral Sciences**
1 course from *HY 101, HY 102, HY 135, HY 136 3 hrs
3 courses from **HY 101, HY 102, HY 135, HY 136; AN 100, AN 101; GEO 114, GEO 115; SY 109, 112; PSC 130; PSY 120, PSY 250; ECO 215, ECO 216 9 hrs
** Only one additional History course may be selected from this area.

**Area V - Preprofessional, Major and Electives**
1 course PE 100 and 1 course from PE 101-PE 157 4 hrs
1 course EPY 251 (Professional Studies) 3 hrs
Required electives in the Major to total 64 hrs.
*As a part of the General Studies Curriculum, students must complete a 6 semester hour sequence in Literature or History.
Elementary Education, Early Childhood Education, and Special Education majors must take 12 semester hours in each of the following four disciplines: English language arts, mathematics, social sciences and natural sciences. In addition, Elementary and Early Childhood majors must include BLY 101 and BLY 102, and one laboratory science course from CH, GY, or PH.
See Departmental Advising Sheets for Specific Course Requirements.

COURSE FEES
All undergraduate three semester hour courses in the COE, except the PE activity courses, Internships and Practicum have a special computer fee. Internships have an internship fee, and some PE activity courses have special fees as noted in other sections of this Bulletin.

MINIMUM PROFESSIONAL STUDIES REQUIREMENTS
Because professional studies requirements vary from program to program, the student is referred to the appropriate departmental section in this Bulletin. However, a candidate may not enroll in more than five professional studies courses before the candidate has met all criteria for unconditional admission to a teacher education program. The candidate may repeat any of the five courses in which he or she received a grade of "C" or below. A student who changes from non-teacher certification to a teacher certification program must comply with this standard. A student who violates this standard is in jeopardy of losing academic credit.

REQUIREMENTS FOR ADMISSION TO CANDIDACY IN A TEACHER EDUCATION PROGRAM
Student should make a written application for admission to a teacher education program during the semester immediately following the completion of 60 semester hours of credit. Courses in progress during the semester the student makes the application for candidacy may be used as a part of meeting the regulations. Admission to a program in teacher education requires that:
1. The student
   (a) declare teaching specializations,
   (b) take any necessary tests (including those in the communicative skills),
   (c) submit to any needed evaluations, and
   (d) be available for necessary interviews.
2. The student’s application must be submitted to the College of Education Office of Student Services by the second week of the semester in which the student is eligible to be admitted.
3. Transfer students must complete twelve semester hours of work at the University of South Alabama to be eligible for candidacy consideration.
4. The student’s application receives approval from the Student Services and Teacher Education Committee.

CRITERIA FOR ADMISSION TO TEACHER EDUCATION CANDIDACY
1. Completion of 60 semester hours of course work, 48 of which must be in general studies.
2. A minimum overall grade-point average of 2.5 on all work attempted at the University of South Alabama and a minimum program grade-point average of 2.75 (including transfer work).
3. A minimum grade-point average of 2.75 in professional teacher education (including transfer work).
4. A minimum grade-point average of 2.75 in area(s) of teaching specialization(s) (including transfer work).
5. Completion of EH 101, 102, CA 110, EDM 310, SPE 400, EDF 315/211.
6. Satisfactory performance on the College of Education Reading Test (IDE 010). Students who are seeking a second Bachelor of Science degree or students with official E-ACT scores of 19 (or higher) on the Reading Component (RD) are exempt from IDE 010.
7. Satisfactory performance on the Alabama Prospective Teacher Test (APTT).
8. Completion of the dispositions Self Survey and satisfactory completion of a departmental interview designed to provide information on the applicant's personality, dispositions, interests, and aptitudes consistent with the requirements for the successful teaching.
9. Sufficient physical ability and emotional stability to perform successfully as a teacher. (NOTE: These factors might be covered in the departmental interview.)
10. Recommendation of advisor and department chair.

REQUIREMENTS FOR ADMISSION TO STUDENT TEACHING
Admission to student teaching requires that the applicant:
1. Submit an application for student teaching to the Office of Field Services through the advisor at the end of the first month of the semester prior to student teaching.
2. Receive approval of the application from the Director, Office of Field Services.
3. All students must comply with the College of Education Policies and Procedures, which are on file in the Office of Field Services and in the Office of the Dean.
4. A student may not enroll in any other course during the hours assigned for student teaching.
5. **Student Teaching Assignments:** All student teaching placements and nontraditional fifth-year teaching field internships will be coordinated by the Office of Field Services. All student teaching placements will be made in the greater Mobile area to facilitate the supervision of students by University of South Alabama faculty or other personnel so designated by the chair of the department in which that student is enrolled.

CRITERIA FOR ADMISSION TO STUDENT TEACHING
1. A minimum overall grade-point average of 2.5 on all work attempted at the University of South Alabama.
2. A minimum program grade-point average of 2.75 (including transfer work).
3. A minimum grade-point average of 2.75 in professional teacher education (including transfer work). In the professional education component, no grade below “C” is acceptable.
4. Completion of a minimum of three-fourths of the teaching specialization(s) (including appropriate methods courses) with a minimum grade-point average of 2.75 in area(s) of teaching specialization(s) (including transfer work).
5. Continued satisfactory progress in meeting requirements for admission to the program of teacher education (candidacy).
6. Satisfactory completion of all components of the Alabama Prospective Teacher Test (APTT).
7. Satisfactory score on the Praxis II test for teaching field or content area.

RETENTION
To remain in the teacher education program, each student shall make satisfactory progress as determined by continuous evaluation. A student shall be removed from candidacy when any of the minimum required program GPA's drop below 2.75, or, the USA transcript GPA drops below 2.50.

MINIMUM PROGRAM COMPLETION AND CERTIFICATION REQUIREMENTS
Successful completion of the following minimum requirements qualifies the student for Class B Certification **valid for five years.**
1. Satisfactory completion of a program approved by the State Board of Education with a minimum overall grade-point average of 2.5 on all work attempted at the University of South Alabama and a minimum program grade-point average of 2.75 (including transfer work), a minimum grade point average of 2.75 in professional teacher education with no grade below "C" (including transfer work), and a minimum grade-point average of 2.75 in area(s) of teaching specialization(s) (including transfer work).
2. Demonstrated readiness to teach through on-the-job performance as a student teacher as determined by an evaluation plan approved by the State Board of Education.
3. Satisfactory completion of the course in student teaching.
4. A minimum of 32 of the last 45 semester hours of work must be earned in residence at this University.
5. A junior college graduate can transfer no more than 64 semester hours toward the Bachelor of Science degree requirements.
6. A satisfactory score on a comprehensive examination covering the Teaching Field(s) and Professional Education.
7. A passing score on all areas of the Alabama Prospective Teacher Test (APTT).
8. Satisfactory performance on the Alabama Professional Studies Assessment and Praxis II before program completion.
RECOMMENDATION FOR CERTIFICATION
The Associate Dean of the College of Education is responsible for recommending qualified University of South Alabama students seeking teacher certification. Only those students who have completed requirements of the University and of the State Department of Education will be recommended for Class B Professional Certificate.

WARRANTY STATEMENT
Consistent with the policies of the Alabama State Department of Education, the College of Education at the University of South Alabama warranties its graduates (State Approved Program Competencies) under the following conditions: Warranties will be provided USA graduates who receive their initial professional certification through the college and are employed by a public school district in Alabama in their area of specialization. The College of Education shall provide assistance at no cost to such individuals who were recommended for certification by the College of Education and are deemed to be unsatisfactory based on performance evaluations established/approved by the State Board of Education and recommended by the Local Education Agency within two years after program completion.

TRANSFER CREDIT FROM NON-ACCREDITED INSTITUTIONS
No degree credit will be accepted by the College of Education from any collegiate institution unless that institution has regional accreditation.

PERSONS WITH DEGREES OTHER THAN IN EDUCATION
Persons holding degrees other than in Education may apply for study in an “approved program” leading to professional certification; they will be required to complete their approved programs outlined in this Bulletin to qualify for Alabama certification.

WORKSHEETS AVAILABLE FOR ALL PROGRAMS
Advising sheets are available in the department of your major. Each student will have access to his/her degree audit via PAWS.

APPROvals AND SERVICES
Upon satisfactory completion of an approved program of study and upon recommendation of the Associate Dean and Certification Officer of the College of Education, a professional certificate will be issued by the appropriate State Department of Education only if the student is eligible and applies. Presently, almost all State Departments of Education have reciprocal agreements for issuing certificates to graduates of NCATE-accredited institutions.

Students in colleges other than the College of Education are encouraged to take courses in Education and Educational Psychology for acquiring understanding of teaching as a profession and of human growth and development. They are eligible to take any course in the College of Education for which they have the prerequisites.

DOUBLE MAJOR PROGRAM
Students in other colleges of the University wishing to complete requirements for graduation in an academic department and also to satisfy the degree requirements of the College of Education may follow the double major program. A student choosing the program will be assigned an advisor in the academic department in which he/she is enrolled, and the comparable major program within the College of Education.

CERTIFICATION IN MORE THAN ONE TEACHING FIELD
Students enrolled in the College of Education desiring to complete certification requirements in more than one teaching field will complete the curriculum in each field: general studies, professional studies in teacher education (including the internship), and teaching specialization. Courses used for one level of certification may not be used again for a higher level certificate.

THE TEACHER EDUCATION EXIT EXAMINATION AND ALABAMA PROSPECTIVE TEACHER TEST(S)
Students under the current state standards must pass satisfactorily the tests mentioned above if they are to be recommended to be certified by the Alabama State Department of Education. Dates these tests will be administered are announced in advance. Application forms for the Alabama Prospective Teacher Test may be obtained from the Student Services Office, UCOM 3020. Information pertaining to the exit examination may be obtained in the student’s major department.
GRADUATION AVERAGE
A minimum grade-point average of 2.2 in the major/specialization (including transfer work) and a grade-point average of 2.2 on all work undertaken in residence at the University of South Alabama are required for the Bachelor of Science degree. In addition, students seeking teacher certification must have a minimum overall grade-point average of 2.5 on all work attempted at the University of South Alabama and a minimum program grade-point average of 2.75 (including transfer work), a minimum grade-point average of 2.75 in professional teacher education with no grade below “C” (including transfer work), and a minimum grade-point average of 2.75 in area(s) of teaching specialization(s) (including transfer work).

GRADE-POINT AVERAGE (GPA) DEFICIENCY (OVER ALL)
If additional course work is required to fulfill the GPA requirement, only course work in the humanities, social sciences, science, mathematics, or the teaching field(s)/specialization(s) may be used.

DIRECTED/INDEPENDENT STUDIES
No more than two (2) Directed/Independent Study courses may be used for degree and/or certification requirements, including use in improving the grade-point average.

GRADUATE

The College of Education offers the following Alternative Master of Education degree programs leading to the Alabama Class A Certificate, or equivalent, to persons who have earned a non-education baccalaureate degree from an accredited institution of higher education: Elementary Education, Health Education, Physical Education, Secondary Education, and Special Education.

The College of Education offers an Educational Specialist degree leading to AA Certification, in Alabama, in the following areas: Early Childhood Education, Educational Administration, Elementary Education, Health Education, Physical Education, Secondary Education, and Special Education.

The College of Education offers a Doctor of Philosophy Degree Program in Instructional Design and Development.

COURSE FEES
All graduate three semester hour courses in the COE, except Internships, practicum and pre-practicum experiences have a special computer fee.

GENERAL INFORMATION
Requirements for Admission/Readmission
Each applicant to a graduate program must meet the general Graduate School Standards stated in the “Graduate School Admission Requirements and Procedures” section of this Bulletin. Individual programs may have additional requirements for admission and may be restricted because of capacity limitations. Consult departmental or program descriptions for additional information. Readmission to some programs in Education (i.e., Educational Administration, Doctoral Program, and some AA/Ed.S. Programs) require review by program faculty.

Academic Regulations
1. All degree programs require a minimum of 33 semester hours of approved course work of which 21 hours must be at 500-level or above.
2. A minimum overall 3.0 GPA on all work attempted for Master’s Degree programs (Educational Administration - 3.25, M.Ed.) and a 3.25 GPA for Educational Specialist Degree programs is required for graduation.
3. All requirements for a Master’s Degree or Educational Specialist Degree must be completed within five calendar years from the date of matriculation.

Student Responsibilities
1. Students admitted on a provisional basis will be eligible for regular admission when they complete nine hours of approved graduate course work with a minimum grade-point average of 3.0. If this requirement is not met in the first nine hours, provisional status will be continued for a maximum of 15 semester hours. Students who do not meet the required minimum GPA of 3.0 after 15 hours are completed are subject to academic dismissal.

2. Apply for Graduation. See University Calendar for deadline dates. Apply two semesters in advance in the Registrar’s Office, AD 165.

3. Apply for Written Comprehensive Examination. This should be done by the end of the first week of class in the semester student wishes to sit for the examination.

TEACHER CERTIFICATION
Master of Education degree programs require that students be eligible for the appropriate State of Alabama Class B Professional Certificate. Sixth-year programs require that students be eligible for the appropriate State of Alabama Class A Professional Certificate.

FOREIGN LANGUAGES
A foreign language is not required for graduate programs in the College of Education.

GRADUATE ASSISTANTSHIPS
Masters Level assistantships are awarded on an annual basis and are granted for the fall and spring semesters. The stipend for the two semesters is $6,000 and waiver of tuition. Fees are paid by the student. In return, twenty clock hours of work are required per week. The awards are made generally before the end of the spring semester.

Ph.D. Level assistantships are awarded on an annual basis and are granted for the fall, spring, and summer semesters. The stipend for the three semesters is $10,000 and waiver of tuition. Fees are paid by the student. In return, twenty clock hours of work are required per week. The awards are made generally before the end of the spring semester.

Application forms can be secured by a request addressed to Director, Graduate Studies, College of Education.

TRANSFERRED WORK
(After completion of nine semester hours on USA campus)
A maximum of nine semester hours of graduate credit from an institution having a Master’s Program may be transferred to the University of South Alabama. The appropriateness of courses for transfer will be determined by the candidate's department. A minimum grade of “B” is required for each course. Courses completed more than five years prior to graduation may not be used to meet degree requirements. Transfer request forms are available in UCOM 3020.

MASTER OF EDUCATION DEGREE PROGRAM
The programs for the Master of Education degree in the College of Education provide for a major in each area. Both thesis and non-thesis degree options are available to the graduate student. Each degree area specifies courses that support the major area. Supporting courses are developed for the particular demands of the individual degree areas. The programs lead to the Alabama Class A Certificate, or equivalent.

REQUIREMENTS FOR ADMISSION
Students are admitted each semester. The following criteria supplement the Graduate School criteria (see Categories of Admission in the general section of this Bulletin).

REGULAR ADMISSION
1. Sufficient courses in the major area to qualify for graduate study in the involved discipline.
2. An appropriate advanced degree may be used in lieu of other requirements for Regular Standing.
3. A completed application for admission to the Graduate School.
4. Official test scores - GRE or MAT (must be sent by testing agency to the Registrar).
5. Official transcripts from all institutions attended.
6. A copy of a valid Alabama Teaching Certificate.

PROVISIONAL ADMISSION

See Categories of Admission in the general section of this Bulletin for criteria for Provisional Admission and requirements for a provisional student to be changed to Regular Standing.

**MASTER OF SCIENCE DEGREE PROGRAMS**

The programs for the Master of Science degree program in the College of Education provide for a major in each area. Both thesis and non-thesis degree options are available to the graduate student. Each degree area provides for areas of study that support the major area. These are developed for the particular demands of the individual degree areas. Supporting areas of study draw upon other divisions of the University, as well as the College of Education, to give greater depth and breadth to the major. Courses in the supporting area are elected by the student after consultation with the advisor.

**REQUIREMENTS FOR ADMISSION**

Students are admitted each semester. The following criteria supplement the Graduate School criteria (see Categories of Admission in the general section of this Bulletin).

**REGULAR ADMISSION**

1. Sufficient courses in the major area to qualify for graduate study in the involved discipline.
2. An appropriate advanced degree may be used in lieu of other requirements for Regular Standing.
3. A completed application for admission to the Graduate School.
4. Official test scores - GRE or MAT (must be sent by testing agency to the Registrar).
5. Official transcripts from all institutions attended.

**PROVISIONAL ADMISSION**

See Categories of Admission in the general section of the Bulletin for criteria for Provisional Admission and requirements for a provisional student to be changed to Regular Standing.

**ALTERNATIVE MASTER OF EDUCATION DEGREE PROGRAMS**

Alternative Master of Education degree programs are available in selected areas to persons who have earned a non-education baccalaureate degree from an accredited institution of higher education. The program provides for a major concentration in an area of teacher certification. Each certification area specifies courses that support the particular demands of the individual certification areas. The programs lead to the Alabama Class A Certificate, or equivalent.

The following Alternative Master of Education degree programs are offered:

**REQUIREMENTS FOR ADMISSION**

Students are admitted each semester. Students must meet the criteria for Provisional or Regular Standing in the Graduate School described in Categories of Admission in the general section of this Bulletin as well as the following program criteria:

**LEVEL-ONE STATUS**

1. A grade-point average of at least 2.50 (A=4.0) on all college work (undergraduate and graduate) taken prior to admission. Courses taken to meet deficiencies or prerequisites will count toward this 2.50 minimum GPA. If these courses cause the original admissions GPA to drop below the minimum 2.50, the individual would no longer be eligible to continue in the program. Courses (graduate or undergraduate) taken in graduate status to meet the deficiencies or prerequisites are subject to the Academic Dismissal policy of the Graduate School.
2. Evidence of having earned as many hours of credit in the subject to be taught as are required in an undergraduate teacher education program. (Minimum 32 semester hours/19 semester hours upper level.) Social Science, General Science and English Language Art composite programs require at least one course in each area of the composite program. For example General Science composite program requires course work in Biology, Chemistry, Earth and Space Science, and Physics.
3. Official test scores - GRE or MAT (must be sent by testing agency to the Registrar),
4. and completion of the APTT (test scores are sent directly to the Office of Student Services in the College of Education).
Students in alternative master’s programs are limited to specific courses in level-one status. A list of courses that require level-two status can be found with each specific alternative master’s program in this Bulletin and on program advising sheets available in the department or advising center.

LEVEL-TWO STATUS
1. Completion of all Level-One Status requirements (above), including any prerequisites.
2. Regular Admission in the Graduate School.

COMPLETION OF A TEACHER EDUCATION PROGRAM
Master of Education Programs
Successful completion of the following minimum requirements qualifies the student for Class A Certification.

A. Program for Teachers:
   1. A minimum grade-point average of 3.0 on all work attempted in the graduate program.
   2. Successful completion of a written examination including the teaching field, humanistic and behavioral studies, curriculum and teaching, and evaluation of teaching and learning.
   3. Satisfactory performance as a teacher. (Not required of students in the alternative master’s degree program.)

B. Programs for Instructional Support Personnel:
   1. A minimum grade-point average of 3.0 on all work attempted in the graduate program.
   2. A satisfactory score on a comprehensive written examination covering content of the program.
   3. Satisfactory performance of the responsibilities of the specialist in a full-time internship of not less than ten weeks or the equivalent.
   4. A minimum of 80% of the curriculum in each area of specialization must be taken in work approved for graduate students.

EXAMINATIONS
Two types of examinations are available. See departmental sections for departmental option(s).

Type I Comprehensive Examination Written or Oral
This examination is written or oral, or both, at the option of the faculty of the student's major department, and is in the candidate's field or fields of concentration. The examination is conducted by a committee of at least three members appointed by the chair of the department in which the student has majored. This examination shall not exceed three hours. Comprehensive examinations are scheduled once each semester. The student is responsible for ascertaining the date and time of the examination. Normally, the comprehensive examination is taken during the semester in which the student completes his degree requirements. The examination is given at least two weeks before the end of the semester, and the result is reported to the Director of Graduate Studies, College of Education. Applications for the comprehensive examination given in any semester will not be accepted after the last day of the first week of classes.

Comprehensive examinations may be repeated at the discretion of the graduate student's department. In no case may the comprehensive examination be repeated more than twice. A student will be dismissed from the program after three unsuccessful attempts to pass the examination. Specific recommendations for additional work, following failure of the comprehensive, will be at the discretion of the department involved.

Type II Comprehensive Examination Performance
This examination requires a performance either as part of a culminating seminar, internship, field study, or practicum review. Successful completion of this examination is determined by the faculty of the department of the student's major.

The result of this examination is reported to the Director of Graduate Studies, College of Education by the chair of the department.

The student should consult with an advisor for entering this phase of graduate work.
If a thesis is submitted, an oral examination on the thesis, not to exceed one hour, is required. The examination is conducted by the candidate’s Thesis Committee. Approval by a majority of the examination committee is required.

EDUCATIONAL SPECIALIST DEGREE PROGRAM FOR THE INSTRUCTIONAL SPECIALIST

The Educational Specialist degree program for the Instructional Specialist leading to AA Certification, in Alabama, is available in the following areas: Early Childhood Education, Educational Administration, Elementary Education, Health Education, Physical Education, Secondary Education, and Special Education.

ADMISSION TO THE PROGRAM

The requirements for admission to the Program are as follows:

1. The applicant shall have successfully completed a fifth-year program in the same teaching area in which the sixth-year program is sought (except in Special Education);
2. Shall have a Master’s degree from an accredited institution, an appreciate certification; and
3. Shall have at least one year’s successful experience as a teacher in the area of specialization in which the sixth-year program is sought, except in Special Education.

Application forms can be requested from the Director of Admissions, University of South Alabama, Mobile, Alabama 36688-0002. If a student already holds a Master’s degree from the University of South Alabama, a new application will be submitted, as this is considered a different program.

Transferred Work (After completion of nine semester hours on USA campus)

A maximum of nine semester hours of graduate credit from an institution having a Sixth-Year Program may be transferred to the University of South Alabama for the program. Only graduate credit earned following the completion of a Master’s degree may be transferred. The appropriateness of courses for transfer will be determined by the candidate’s department. Courses more than five years old may not be used to meet degree requirements. Transfer request forms are available in UCOM 3020.

DESCRIPTION OF THE PROGRAM

The Program for the Instructional Specialist is organized around the following Program components.

A. Core Courses

Core courses are designed to insure that each candidate possess required basic knowledge and competencies. The Core Courses are IDE 620, IDE 640, IDE 650, and IDE 692, EPY 602, EDF 615, and Departmental 699.

B. Area of Certification

In addition to the Core Courses, each candidate will complete an Area of Specialization from among the following available in the program: Early Childhood Education; Educational Media; Elementary Education; Health Education; Physical Education; Secondary Education and Special Education. The specializations are designed to provide candidates with an in-depth study of instructional concerns and skills appropriate to specific student groups and areas of study in the school curriculum.

C. Research Project Seminar

The Research Project Seminar is designed for the purposes of selecting and developing a field project proposal. The proposal, in turn, provides the basis for the Field Project. Successful completion of the Core Courses is prerequisite to the enrollment in the Research Project Seminar.

D. Research Project

The Research Project, as the culminating experience in the Instructional Specialist Program, provides an opportunity for the candidate to synthesize and apply the various Program components in a selected instructional setting. The Research Project may carry three semester hours of credit. The candidate reaches suitable agreements with the appropriate public school system. A Project Report in standard form is required.

Educational Specialist Degree Programs

Successful completion of the following minimum requirements qualifies the student for Class AA Certification.
A. Programs for Teachers:
1. A minimum grade-point average of 3.25 on all work attempted.
2. Successful completion of a written comprehensive examination covering the content of the program.

B. Programs for Instructional Support Personnel:
1. A minimum grade-point average of 3.25 on all work attempted.
2. Successful completion of a written comprehensive examination covering the content of the program.
3. Satisfactory performance in the area of specialization (2 years).

DOCTOR OF PHILOSOPHY PROGRAM IN INSTRUCTIONAL DESIGN AND DEVELOPMENT
The College of Education offers a Doctor of Philosophy degree in Instructional Design and Development. The purpose of the program is to produce graduates who will discover, advance, and disseminate knowledge in the field of instructional design and development.
DEPARTMENT OF HEALTH, PHYSICAL EDUCATION AND LEISURE STUDIES

Chair: Frederick M. Scaffidi (251) 460-7131
Professors: Chilton, Gilley, Gurchiek, Heitman, Kovaleski, Scaffidi
Associate Professor: Pugh
Assistant Professors: Broach, Keshock, Norrell, Vicory
Instructors: Barter, O'Keefe, Smith-Palombo

Department of Health, Physical Education and Leisure Studies web site
http://www.southalabama.edu/coe

The Department of Health, Physical Education and Leisure Studies offers state and nationally accredited undergraduate and graduate teacher certification programs in Physical Education (P-12) and Health Education (6-12). Undergraduate and graduate non-teacher certification programs are available in Physical Education (Exercise Science) and Health Education. An undergraduate major is offered in Leisure Studies with a concentration in Therapeutic Recreation. A graduate concentration is available in Therapeutic Recreation. The department also provides a basic physical activity instructional program for all university students through courses in physical fitness, lifetime sports, dance, and martial arts.

UNDERGRADUATE PROGRAMS

MINIMUM GENERAL STUDIES REQUIREMENTS FOR HPELS MAJORS (64 hours)
See College of Education section or departmental advising sheets for General Studies requirements.

PHYSICAL EDUCATION

I. General Studies Component
   See Departmental advising sheet for specific requirements and suggestions.

II. Requirements for Physical Education (P-12) Class B Teacher Certification
   HS 170, HS 262, HS 263, HS 362, HS 460; PE 100, PE 106, PE 130, PE 166, PE 201, PE 282, PE 351, PE 370, PE 380, PE 381, PE 452, PE 461, PE 474, PE 475, PE 476, PE 478, PE 470, two (2) additional and different one-hour activity courses; CLS 114, EPY 251, EDF 211, 315; EDM 310; SPE 400 and RED 451

III. Requirement for Non-Certification Physical Education (Exercise Science).
   HS 170, HS 262, HS 263, HS 362, HS 460; PE 100, PE 201, PE 278, PE 282, PE 351, PE 370, PE 380, PE 381, PE 474, PE 475, PE 476, PE 479, PE 480, PE 495; CLS 114, four (4) different one-hour PE activities, and the USA computer proficiency requirement.

The Exercise Science program is designed to follow the recommendations for exercise and training as set forth by the American College of Sports Medicine (ACSM) and the National Strength and Conditioning Association (NSCA). The Exercise Science Program is academically identified by the National Strength & Conditioning Association's Education Recognition Program for preparing students for health and fitness careers. Also, a pre-Athletic Training experience is available in the Physical Education program. See departmental advisor for details.

Additional departmental requirements are listed on HPELS advising sheets (see advisor).

HEALTH EDUCATION

I. General Studies Component
   See Department advising sheets for specific requirements and suggestions.
II. Requirements for Health Education
(6-12) Class B Teacher Certification
HS 170, HS 262, HS 263, HS 351, HS 361, HS 362, HS 460, HS 463; PE 100
and one (1) hour activity course; PE 201, PE 460, PE 475; PE 381 or EPY 455;
PE 380 or PE 474 or PE 476 or PE 479 or PE 480; CLS 114, CLS 115; SED 340,
SED 341, EDF 211, EDF 315; EPY 251; EDM 310; SPE 400; RED 451; BLY 205,
SY 220.

III. Requirements for Non-Certification Health Education
HS 170, HS 262, HS 263, HS 351, HS 361, HS 362, HS 460, HS 463; PE 100,
PE 201, PE 278, PE 381, PE 475, PE 380 or PE 474 or PE 476 or PE 479 or PE
480, PE 495, and one (1) hour activity course; BLY 205; CLS 114, CLS 115; SY
220, and the USA computer proficiency requirement.

Additional departmental requirements are listed on HPELS advising sheets (see
advisor).

LEISURE STUDIES
I. General Studies Component
See departmental advising sheet for specific requirements.

II. Leisure Studies Program Requirements
Professional Core (40 hours): LS 191, LS 292, LS 375, LS 391, LS 479, LS 483,
LS 498; HS 170, HS 262, HS 263, and the USA computer proficiency requirement.

III. Concentration Areas
See departmental advising sheet and advisor for specific course requirements for
Recreation Administration and Therapeutic Recreation.

LEISURE STUDIES INTERNSHIPS
Students must complete LS core and candidacy requirements and attain senior status
prior to enrollment in the internship. All LS 498 Internships must be completed at
departmentally approved sites and must be planned and approved at least one full
semester in advance of enrollment in LS 498.

THERAPEUTIC RECREATION CERTIFICATION
Additional requirements may be needed for National Council for Therapeutic
Recreation Certification (NCTRC). See departmental advisors for specific NCTRC
requirements.

LEISURE STUDIES MINORS
Minors are available in Biology, Business, Geography, Psychology, and Sociology. See
specific subject areas for requirements.

REQUIREMENTS FOR ADMISSION TO CANDIDACY IN TEACHER-
CERTIFICATION PROGRAMS (PE AND HS)
All students must apply at the Education Certification and Student Services Office,
College of Education, for admission to teacher candidacy. This is normally done during
the final semester of the sophomore year or first semester of the junior year. All
previously listed requirements of the University and College must be met prior to
application. See specifics in College of Education section.
All Health and Physical Education teacher certification students must complete the
following as partial fulfillment of the requirements for teacher education candidacy:
APTT; IDE 010 or ACT (Reading) score of 19 or higher; EH 101, EH 102; CA 110;
EDM 310; SPE 400; CLS 114; EDF 211, EDF 315; PE 100, PE 201;
All (P-12) Physical Education majors must also complete PE 166.
All (6-12) Health Education majors must also complete HS 262 and HS 263.
Students seeking teacher certification must have a minimum overall grade-point
average of 2.5 on all work attempted at the University of South Alabama and a
minimum program grade-point average of 2.75 (including transfer work), a minimum
grade-point average of 2.75 in professional teacher education with no grade below
"C" (including transfer work), and a minimum grade-point average of 2.75 in area(s) of
teaching specialization(s) (including transfer work).
Candidacy requirements are summarized on departmental programs sheets. See
academic advisor.

REQUIREMENTS FOR ADMISSION TO CANDIDACY IN NON-TEACHER-
CERTIFICATION PROGRAMS (LS, PE, HS)
All students must apply for admission to a program during the semester immediately following the completion of 60 semester hours of credit provided they meet the requirements listed below. Courses in progress during the semester the student makes application for candidacy may be used in the candidacy application process.

Admission to a non-teacher-certification program requires that

1. the student:
   a. declare a specialization,
   b. take any necessary tests,
   c. submit to any needed evaluations, and
   d. be available for necessary interviews.
2. the student’s application receives approval from the advisor and departmental chair. The application must be submitted to the Student Services Committee of the College of Education by the second week of the semester in which the student is eligible to be admitted.
3. the student’s application receives approval from the Student Services Committee.
4. the student’s application receive the approval of the Dean or Associate Dean, College of Education.

The following are the criteria to be considered by the Student Services Committee:

1. Completion of 60 semester hours of course work, 48 of which must be in General Studies.
2. A minimum overall grade-point average of 2.2 in the major/specialization (including transfer work) and a grade-point average of 2.2 on all work attempted at the University of South Alabama.
3. Satisfactory performance on the College of Education Reading Examination (IDE 010) or equivalent.
4. Sufficient physical ability and emotional stability to perform successfully as a professional. These and other factors could be determined in a departmental interview.
5. Recommendation of advisor and department chair.
6. Completion of any departmental prerequisite courses.
7. LS majors must complete EH 101, EH 102; LS 191, LS 391, CA 110 and any departmental prerequisite courses, in addition to the above.
8. PE (Exercise Science) majors must complete EH 101, EH 102; PE 100, PE 201, PE 282; HS 170, HS 262, HS 263; CLS 114, CA 110, and any departmental prerequisite courses, in addition to the above.
9. HS majors must complete EH 101, EH 102; PE 100, PE 201; HS 170, HS 262, HS 263; CLS 114, CLS 115; CA 110, and any departmental prerequisite courses, in addition to the above.

The Student Services Committee may recommend the admission of the student to the program, defer admission, or reject the student’s application.

MINOR IN LEISURE STUDIES (21 hours)
LS 191, LS 375, LS 391, and the remaining hours from other Leisure Studies courses as assigned by the advisor.

GRADUATE

The Department of Health, Physical Education and Leisure Studies offers:

I. The Master of Education degree in HPELS with specializations in:
   1. Health Education, and
   2. Physical Education
   These programs are planned to lead to Alabama Class A Teacher Certification. An Alabama Class B certificate or the equivalent is required for students seeking the Masters level (Class A) certification.

   II. The Master of Science degree in Exercise Science or Therapeutic Recreation.
   This is a non-teacher certification specialization.

   III. The Alternative Master of Education Degree Program is a special teacher certification program for individuals with baccalaureate degrees in non-teacher-education fields.

REQUIREMENTS FOR MASTER OF EDUCATION DEGREE (M.Ed. 33 hours)
The requirements for the Master of Education Degree includes Educational Research and Evaluation (IDE 510), and 30 semester hours in the area of specialization. Eighteen hours of graduate course work must be in HPELS. All 400 level courses that apply to any HPELS graduate program must be approved by the Chair of HPELS. No courses below the 400 level can apply to any graduate program.

**Option 1: Physical Education (P-12)**

A. **Curriculum and Teaching (6 hours)**
   - HPE 506 and HPE 521 or HPE 530.

B. **Professional Studies (3 hours)**
   - Select One: EDF 501 or EDF 515.

C. **Research and Evaluation (3 hours)**
   - IDE 510.

D. **Technology (3 hours)**
   - EDM 510.

E. **Teaching Field (15 hours)**
   - HPE 505, HPE 516; HS 562, HS 563; Advisor approved elective.

F. **Elective (3 hours) - Advisor approved**
   - All certification programs require SPE 500 or an introductory Special Education course if not taken at the undergraduate level.

G. **Additional Requirements**
   - Submission of scores on either the GRE, MAT, or NTE (PRAXIS) required for admission. Students must successfully complete a comprehensive examination.

---

**Option 2: Health Education (6-12)**

A. **Curriculum and Teaching (3 hours)**
   - HPE 530.

B. **Professional Studies (3 hours)**
   - Select One: EDF 501 or EDF 515.

C. **Research and Evaluation (3 hours)**
   - IDE 510.

D. **Technology (3 hours)**
   - EDM 510.

E. **Teaching Field (15 hours)**
   - HS 562, HS 563; HPE 505; Advisor-approved electives (6 hours).

F. **Electives (6 hours) - Advisor-approved**
   - All certification programs require SPE 500 or an introductory Special Education course if not taken at the undergraduate level.

G. **Additional Requirements**
   - Submission of scores on either the GRE, MAT, or NTE (PRAXIS) required for admission. Students must successfully complete a comprehensive examination.

---

**ALTERNATIVE MASTER OF EDUCATION DEGREE PROGRAM (42 hours)**

This is a special alternative program for individuals with baccalaureate degrees in non-teacher education fields. For specific admission and degree requirements see the College of Education general section of this Bulletin.

**Option 1: Physical Education P-12 (Alternative Master’s Degree Program)**

A. **Curriculum and Teaching (6 hours)**
   - HPE 506 and HPE 521 or HPE 530.

B. **Professional Studies (3 hours)**
   - EDF 501 or EDF 515.

C. **Research and Evaluation (3 hours)**
   - EPY 455.

D. **Teaching Field (15 hours)**
   - Fifteen hours from HPE, HS course work -Advisor recommendation required.

E. **SPE 500 or SPE 400 (3 hours)**

F. **Reading in the content field (3 hours)**
   - RED 541.

G. **Internship (6 hours)**
   - HPE 595.

H. **Technology Requirement (3 hours)**
   - EDM 510.
I. Additional Requirements
Submission of scores on either the GRE, MAT, or NTE (PRAXIS) required for admission. Students must successfully complete a comprehensive examination.

Option 2: Health Education 6-12
(Alternative Master’s Degree Program)

A. Curriculum and Teaching (3 hours)
HPE 530.

B. Professional Studies (3 hours)
EDF 501 or EDF 515.

C. Research and Evaluation (3 hours)
EPY 455.

D. Teaching Field (18 hours)
Fifteen hours from HPE, HS course work (advisor recommendation required).

E. SPE 500 or SPE 400 (3 hours)

F. Reading in the content field (3 hours)
RED 541.

G. Internship (6 hours)
HPE 595.

H. Technology Requirement (3 hours)
EDM 510.

I. Additional Requirements
Submission of scores on either the GRE, MAT, or NTE (PRAXIS) required for admission. Students must successfully complete a comprehensive examination.

MASTER OF SCIENCE DEGREE PROGRAM (33 hours)
In addition to satisfying the general requirements of the Graduate School, the candidate for the Master of Science degree in HPELS must complete a minimum of 33 semester hours.

Exercise Science (Thesis Option)

A. Required Core
Research and Evaluation (6 hours)
IDE 510, IDE 620.

Area of Specialization (18-21 hours)
HPE 505, HPE 516, HPE 540, HPE 570, HPE 571, HS 563 (18 hours); and advisor-approved elective (3 hours).

B. Thesis (6-9 hours)
HPE 599.

C. Additional Requirements
Submission of scores on either the GRE, MAT, or NTE (PRAXIS) required for admission. Students must successfully complete a comprehensive examination.

Exercise Science (Non-Thesis Option)

A. Required Core
Research and Evaluation (3 hours)
IDE 510.

Area of Specialization (21 hours)
HPE 505, HPE 516, HPE 540, HPE 570, HPE 571, HS 563.

B. Advisor-approval Electives (9 hours)

C. Additional Requirements
Submission of scores on either the GRE, MAT, or NTE (PRAXIS) required for admission. Students must successfully complete a comprehensive examination.

Therapeutic Recreation

A. Required Core
Research and Evaluation (6 hours)
IDE 510, HPE 505.

Internship/Special Project (6-9 hours)
LS 580, LS 596.

Area of Specialization (6 hours)
LS 570, LS 571.

B. Advisor-approval Electives (12-15 hours)
See advisor for additional requirements for National Council for Therapeutic Recreation Certification (NCTRC).

http://www.southalabama.edu/bulletin/bulletin0506/edhealth.htm (5 of 6)
C. Additional Requirements
Submission of scores on either the GRE, MAT, or NTE (PRAXIS) required for admission. Students must successfully complete a comprehensive examination.

Non-Certification Health Education
A. Required Core (15 hours)
IDE 510; HS 562, HS 563; HPE 505, HPE 595.
B. Area of Specialization
Advisor-approved electives (18 hours).
C. Additional Requirements
Submission of scores on either the GRE, MAT, or NTE (PRAXIS) required for admission. Students must successfully complete a comprehensive examination.

College of Education
DEPARTMENT OF LEADERSHIP AND TEACHER EDUCATION

Chair: Dr. Phillip Feldman (251) 380-2894
Professors: Casteel, Ellis, Feldman, Hopkins, Shaw
Associate Professors: Bailey, Baxter, Daughenbaugh, Giles, Sachs
Assistant Professors: Bullard, Ficici, Gray, Hubbard, Kent, Pennerman, Santoli, Smith, Thomas, Tunks
Emeritus Professors: Mary Beth Culp, John E. Morrow, Carl E. Todd
Instructors: Baggett, Byrd, Busby, Danneker, Kennedy, Panchenko, Simpson

Department of Leadership and Teacher Education web site
http://www.southalabama.edu/coe/c&i

UNDERGRADUATE
The Department offers the B.S. degree in Education leading to Alabama Class B certification in the following areas: Elementary and Early Childhood Education, Secondary Education, and Special Education.

PROGRAM REQUIREMENTS
Minimum General Studies (64 semester hours) For Elementary Education (K-6) See College of Education General Studies Requirement.
Elementary/Early Childhood majors must take 12 semester hours in each of the following four disciplines: English language arts, mathematics (MA 110 or higher and MA 201), social science and science (BLY 101 and BLY 102 or BLY 121 and BLY 122 and one science course from CH, GY, or PH, GEO 101 or GEO 102).

ELEMENTARY EDUCATION (K-6)
The program in Elementary Education is designed to prepare teachers for kindergarten through grade six. Satisfactory completion of the program and accompanying tests lead to a recommendation for a Class B Certificate in Elementary Education. Students may also qualify for a Class B Certificate in Early Childhood Education (P-3) through an additional internship placement.

PROGRAM REQUIREMENTS (no grade below “C” in professional studies or teaching field)
In addition to General Studies, the requirements for a B.S. degree in Elementary Education are:

Professional Studies (28 semester hours)
Curriculum, Teaching, and Media EEC 345*, EEC 346*; EDM 310 7 hrs
Educational Foundations EDF 315 and EDF 211, EPY 251, and SPE 400 9 hrs
Evaluation of Teaching and Learning EPY 455* 3 hrs
Internship EEC 430* 9 hrs

Teaching Field/Curriculum Area (36 semester hours)
Choose one: HS 262 or HS 361

*Only for students admitted to teacher candidacy
**RED 330 must be taken prior to RED 331*
***Recent and future federal directives may require additional revisions to this list of courses.

CRITERIA FOR ADMISSION TO STUDENT TEACHING
In addition to meeting the College of Education criteria for admission to student teaching, Elementary/Early Childhood majors must have satisfactorily completed: 12 hours in each of the following four disciplines: English Language Arts, mathematics, social sciences, and natural sciences.

CRITERIA FOR ADMISSION TO TEACHER CANDIDACY
In addition to meeting the College of Education criteria for admission to teacher candidacy, Elementary/Early childhood majors must have satisfactorily completed: EEC 300: Classroom Management

SECONDARY EDUCATION
The Department offers degree programs to prepare high school teachers.

PROGRAM REQUIREMENTS
Minimum General Studies (64 semester hours)
For Secondary Education (Grades 6-12)
The Secondary School Programs will be adjusted to meet the requirements of recent federal legislation. See College of Education General Studies Requirements

I. Secondary Education (Grades 6-12) Option
This option is designed to prepare students to teach in secondary and P-12 schools.

A. Professional Studies (37 semester hours minimum)
EDF 315, 211; EPY 251, SPE 400; EDM 310; EPY 455; SED 340, 341; RED 451; SED 464; and SED 342(1) and one of the following methods courses: SED 453, SED 454, SED 456, SED 457

B. Teaching Fields
Students must select one Comprehensive Teaching Field. One third of the course work in each teaching field must be in the upper-division. All programs require a double major in secondary education and in an Arts & Sciences content field.

(1) English Language Arts
( Arts and Sciences - English Double Major with Education, 54 semester hours)
RED 352; DRA 110; CA 100; and CA 220 or CA 388; EH elective (200 level or above); CA or DRA or EH elective; EH 371, EH 401. Nine hours in EH 215 or EH 236 and EH 225 or EH 226 and EH 235 or EH 236; and one additional survey elective course: EH 215 or EH 216 or EH 225 or EH 226 or EH 235 or EH 236. The remaining coursework must come from the following areas (18 hours):

1. At least one course in literature prior to 1660 (EH 311, EH 321, EH 322, EH 323, EH 324, EH 460, EH 461, EH 465, EH 470, EH 471, or EH 472).
2. At least one course in British or American literature from 1660-1900 (EH 331, EH 332, EH 334, EH 340, EH 342, EH 343, EH 351, EH 352, EH 353, EH 354, EH 462, EH 467, EH 474, EH 475).
3. At least one course in twentieth-century literature (EH 360, EH 361, EH 367, EH 368, EH 463, EH 468, EH 476, EH 478, or EH 479)
4. One of the the following courses: EH 402, EH 421, or EH 422.
5. At least two courses at the 400-level (exclusive of requirement #4, above) from the following courses: EH 403, EH 461, EH 477, EH 480, EH 481, EH 482, EH 483, EH 484, EH 485, EH 486, EH 487, EH 488, EH 490, EH 492, EH 494, EH 496, or EH 499).
Must include at least 36 semester hours of English courses (excluding EH 101 and EH 102), with a minimum of 19 semester hours of English coursework at the 300-400 level to include a minimum of three (3) courses at the 400-level -- at least 15 of these upper division hours MUST be taken at USA.

(2) Mathematics
(Arts and Sciences - Mathematics Double Major with Education, 48 semester hours)
ST 210 or ST 315, and ST 335; CIS 110, or CIS 120, or CIS 150; and MA 354 (Spring), MA 311 (Fall), MA 320 (Fall), MA 321 (Spring), MA 410 (Fall), and MA 413 (Fall); one 3-hour elective from MA 400-499 level; MA 125, MA 126, MA 227, MA 237, and MA 238. Must have a minimum of 19 semester hours of MA 300-400 level courses. At least 15 of these upper division hours must be taken at USA.

(3) General Science Composite
(Arts and Sciences - Biology Double Major with Education, 74 semester hours)
GY 111, PH 101, MA 115, ST 210, BLY 121 + Lab and BLY 122 + Lab, CH 131 + Lab and CH 132 + Lab, CH 201, PH 114, PH 115, three hours of BLY 205 or BLY 300-499, and twenty-five (25) hours from specified BLY 300-499 courses. Students must also complete one (W) and one (C) courses.

At least 15 of these upper division hours (6 hours at 400 levels and 9 hours at 300 or 400 level) MUST be taken at USA.

(4) Social Science Composite
(Arts and Sciences - Social Science Double Major with Education, 54 semester hours)
PSC 130 or PSC 232, and PSC 230 or PSC 250, or PSC 270; ECO 300 or ECO 215 and ECO 216; GEO 115; PSY 120; SY 109, or AN 100; HY 101, HY 102, HY 135, and HY 136; HY 103 or HY 104 or HY 362 or HY 279 or HY 366 or HY 367, or HY 368 or HY 461; HY 477 or HY 478, or HY 479; and eighteen (18) hours of approved upper-division History electives. (Check with Department.) At least 15 of these upper division hours (6 hours at 400 levels and 9 hours at 300 or 400 level) MUST be taken at USA.

SPECIAL EDUCATION
The Department has two undergraduate Special Education Programs, each leading toward a Bachelor of Science Degree: Early Childhood Special Education and Collaborative Teaching.

The programs in Special Education are designed to prepare teachers to function in a variety of settings with birth-through-high-school-level students.

Students must obtain a minimum grade of “C” in each professional (block) course in the area of Special Education (i.e., 300-level or above courses which carry the SPE prefix.

Non-majors seeking enrollment in courses should obtain permission from the department chair. Successful completion of the program and eligibility for the Bachelor of Science degree and/or teaching certificate necessitates that requirements of the Department, the College of Education, the University of South Alabama, the Alabama State Department of Education, and National Council for Accreditation of Teacher Education be met.

The Special Education programs places particular emphasis upon the student-advisor relationship. Each advisor has detailed information to aid the student’s progress and to ensure that the many and various requirements are met. Enrollments are limited in some courses. Students should consult with their advisor about the effect this may have on their planned course of study. Recent federal legislation requires that Early Childhood Special Education and Collaborative teachers have completed 12 semester hours of courses in each of four disciplines: English language arts, Mathematics, Science, and Social Science. To ensure that the appropriate courses are taken, students must consult with their advisor.

THE BACHELOR’S DEGREE PROGRAM
All Special Education undergraduate majors’ programs include a minimum of 128 semester hours. Differences in course work exist within the teaching areas and advisors provide the specific course information for each student. Professional courses are organized into blocks which must be taken in a specified sequence. The professional “block” of courses begins once each year, in the fall.

ADMISSION TO CANDIDACY
Students must apply at the Education Certification and Student Services Office, College of Education, for admission to teacher candidacy. Students should have completed EDF 315, EDF 211, EDM 310, SPE 400 and SPE 205. All previously listed requirements of the University and College must have been met also. Students must apply as early as possible preferably by the end of the sophomore year.

Minimum General Studies (64 semester hours)
See College of Education section or departmental advising sheets for general studies requirements.

Professional Studies (30 semester hours minimum)
To include: SPE 400; EDF 315, EDF 211; EPY 251; SPE 311.
Additional Professional Studies: SPE 202, SPE 203, SPE 205, SPE 410, SPE 495, SPE 496 or SPE 497; EDM 310.

Areas of Specialization (34 semester hours)
Collaborative Teaching
SPE 201, SPE 312, SPE 313, SPE 342, SPE 362, SPE 363, SPE 373, SPE 443, SPE 454, SPE 484; RED 330, and SHS 290. Collaborative Teaching majors must choose an internship at either the K-6 or 6-12 grade level.

Areas of Specialization (34 semester hours)
Early Childhood Special Education

GRADUATE
The department offers the M.Ed. degree leading to Alabama Class A Certification in the following areas: Education Leadership, Elementary and Early Childhood Education, Reading Education, Secondary Education, and Special Education.
The department also offers the Instructional Specialist degree (Ed.S.) leading to Alabama Class A Certification in the following areas: Education Leadership, Elementary and Early Childhood Education, Secondary Education, and Special Education.

EDUCATION LEADERSHIP
Educational Leadership courses empower students for advancement in educational service. Leadership programs emphasize growth from the knowledge base through simulations to practical application and career mobility. This Department offers three certification programs approved by the Alabama State Department of Education for educational administrators: a Class A Certification Program, a Class A Certification Program with a Master of Education degree, and a Class AA Certification Program with an Educational Specialist Degree.

Online Programs in Educational Administration
Two of the Department’s programs are now available Online: the Class A Certification program in Educational Administration, and the Class A Certification program in Educational Administration with the Master of Education Degree in Educational Administration. These programs are designed to prepare administrators for Alabama’s public and private schools. Because the programs are nationally recognized and accredited, students may be able to qualify for administrative positions in other states. The Online format offers students the flexibility and convenience of taking graduate courses at home, at the office, or wherever else they have access to the Internet. Online programs are designed to provide contact with the professor, interaction with other students, and access to the University Library.
Program requirements are listed below. Students can complete most requirements Online. EDL 513, Instructional Leadership and Curriculum Development, must be taken on campus. The written comprehensive examination must also be taken on campus.
For further information on Online programs, contact Dr. Agnes E. Smith at (251) 380-2746 or aesmith@usouthal.edu.

Admission Requirements
Applications for graduate programs in Educational Leadership are reviewed once yearly for admission in the fall semester. **Readmission** to some programs in Education (i.e. Educational Administration, Doctoral Program, and some AA/Ed.S. Programs) require review by program faculty. Deadline for receipt of all application materials is March 1.

Requirements for admission are:

1. A completed application for admission to the Graduate School.
2. An official copy of all undergraduate and graduate transcripts.
3. Scores from the Graduate Record Examination (GRE - Verbal, Quantitative, and Writing) or the Miller Analogies Test (MAT) no older than five years from the date of application.
4. A minimum of three years of successful teaching experience.
5. An admission portfolio that contains:
   a. Three letters of recommendation describing the applicant's academic and professional abilities. One letter must be from the applicant's principal or, for applicants who work in a central office or other setting, the immediate supervisor.
   b. A completed copy (all forms) of the most recent performance appraisal, including the professional development component if available. For Alabama applicants, the documentation will consist of the most recent PEPE appraisal, including the Structured Interview, Supervisor's Review Form, Observation Record, and the Professional Development Plan/Goal Accountability Plan.
   c. Evidence of leadership and management potential, including evidence of the applicant's most recent accomplishments in educational leadership and/or student achievement.
   d. A one-to-two page statement, typed and double-spaced, of the applicant's reasons for pursuing a degree or certificate in educational administration and a summary of what the applicant expects from the preparation program.
   e. Applications should follow a specific format for organizing contents of their Admission portfolio. A copy of this format may be obtained by accessing "Admission Requirements" at [http://www.southalabama.edu/coe/el&f/Leadership.htm](http://www.southalabama.edu/coe/el&f/Leadership.htm)
6. Successful Completion of a structured interview with Educational Leadership faculty members.

Admission decisions involve evaluation of the applicant's grade-point average, scores on the GRE or MAT, all materials in the admission portfolio, and structured interview. Program enrollment and availability will also be considered. The application, transcripts, test scores, and complete admissions portfolio must be received by the Office of Admissions, Administration Building, Room 182, University of South Alabama, Mobile, AL, 36688-0002 by March 1.

**Class A Certificate in Educational Administration**

Students entering this program must have a master’s degree and Alabama Class A Certification in a teaching field or instructional support area. Program requirements include:

1. completing a minimum of 21 semester hours as outlined below with at least a 3.25 grade-point average, including a grade of “B” or “A” in all courses with EDL prefix,
2. passing assessment modules with at least an 80% level of proficiency, and
3. passing a written comprehensive examination.

The Class A Certificate is valid for 5 years and is renewable.

**I. Educational Leadership Core**

*(15 semester hours minimum)*

EDL 513, EDL 517, EDL 525, EDL 550, EDL 557

**II. Internship (six semester hours minimum)**

EDL 595

Students register for one semester hour of internship credit with each course in the Educational Leadership Core and one additional hour during the program. In addition to the above requirements, students who have not completed a survey course of exceptionalities as part of an undergraduate or graduate program must take SPE 500, Nature and Needs of Exceptional Children and Youth.
Class A Certificate in Educational Administration and Master of Education Degree
Students entering this program must have a bachelor's degree and Alabama Class B Certification in a teaching field. Program requirements include:
1. completing a minimum of 33 semester hours as outlined below with at least a 3.25 grade-point average, including a grade of "B" or "A" in all courses with EDL prefix,
2. passing assessment modules with at least an 80% level of proficiency, and
3. passing a written comprehensive examination.

The Class A Certificate is valid for 5 years and is renewable.

I. Educational Leadership Core
   (15 semester hours minimum)
   EDL 513, EDL 517, EDL 525, EDL 550, EDL 557

II. Internship
    (six semester hours minimum)
    EDL 595
    Students register for one semester hour of internship credit with each course in the Educational Leadership Core and one additional hour during the program.

III. Educational Foundations and Educational Psychology
     (six semester hours minimum)
     A. Select One:
        EDF 501, EDF 515
     B. Select One:
        EPY 502, EPY 521

IV. Research (three semester hours minimum)
    IDE 510

V. Electives
   (three hours minimum)
   Advisor-approved courses. Students who have not completed a survey course of exceptionalities must take SPE 500.

Class AA Certificate in Educational Administration and Educational Specialist Degree for the Instructional Specialist
Students entering this program must have a master's degree, Alabama Class A Certification in Educational Administration, and three years of successful teaching experience. Program requirements include completing a minimum of 33 semester hours as outlined below with at least 3.25 grade-point average and a grade of "B" or "A" in all courses with EDL prefix and passing a written comprehensive examination.

The Class AA Certificate is valid for five (5) years and is renewable.

I. Core Courses
   (21 semester hours minimum)
   IDE 620, IDE 640, IDE 650, IDE 692, EPY 602, EDF 615, EDL 699

II. Area of Certification
    (12 semester hours minimum)
    EDL 603, EDL 611, EDL 621, EDL 631, EDL 695 (req)

Students who have earned only 3 semester hours of EDL 595 credit in a Class A certification program must take an additional 3 semester hours. Students who have not completed a survey course in exceptionalities as part of an undergraduate or graduate program must take SPE 500, Nature and Needs of Exceptional Children and Youth. Refer to the College of Education general section of this Bulletin for other program requirements.

MASTER OF EDUCATION IN EARLY CHILDHOOD
The Master of Education (M.Ed.) program in Early Childhood Education provides advanced study for teachers working with children three through eight years of age. Upon completion of the program, students are eligible for the Class A Professional Early Childhood Education Certificate provided they already hold the Class B Professional Early Childhood Certificate.

Note: The appropriate advising guide sheets and the assigned departmental advisor should be consulted in all program matters.
Candidacy

The special requirements for Admission to Candidacy in Early Childhood Education are:

1. Submission of a test score from one of these tests:
   (a) Graduate Record Examination, or
   (b) Miller Analogies Test

2. Satisfactory completion of the written Candidacy Examination which is administered by the department once each semester. This must be completed prior to eighteen semester hours of course work and after the graduate has taken IDE 510. The exam may be repeated no more than twice. Applications are available in UCOM 3020.

3. Completion of a minimum of nine (9) semester hours of graduate studies with a 3.00 grade-point average.

4. Completion of IDE 510.

Comprehensive Examination

After being admitted to Candidacy and completing 36 semester hours of course work, the student must successfully complete a Comprehensive Examination covering all areas of the student's program. Application forms for the Comprehensive Examination are available in UCOM 3020.

Thesis

A student may elect to write a thesis as part of the program. If the student decides to write a thesis, a Thesis Committee will be appointed to work with the student and to evaluate the thesis. (IDE 510 and IDE 620 are required.)

Program

The program for the M.Ed. in Early Childhood Education is as follows: 33 minimum hours required (24 must be on the 500 level)

A. Curriculum and Teaching (six semester hours)
   EEC 551, EEC 553

B. Educational Foundations (six semester hours)
   Select One
   EDF 501, EDF 515
   Select One
   EPY 502, EPY 521

C. Research & Evaluation (three semester hours)***
   IDE 510

D. Technology (three semester hours)
   EDM 510

E. Teaching Field (15 semester hours)
   EEC 535, EEC 536, EEC 537, EEC 550, EEC 552, EEC 554, EEC 555, EEC 556,
   EEC 560, EEC 562, EEC 575, EEC 590, EEC 592, EEC 594, EEC 599, AED 501,
   RED 530 or RED 531, RED 544, RED 545
   *All certification programs require an introductory special education course, if not completed at the undergraduate level.
   ***Students who have previously not completed an evaluation course will be required to complete an approved evaluation course in addition to IDE 510.
   ***No more than three semester hours can be applied to the Teaching Field.

MASTER OF EDUCATION IN ELEMENTARY EDUCATION

The Master of Education (M.Ed.) program in Elementary Education provides advanced study for teachers working with children six through eleven years of age. Upon completion of the program, students are eligible for the Class A Professional Elementary Education Certificate provided they already hold a Class B Professional Elementary Education Certificate.

Note: The appropriate advising guide sheets and the assigned department advisor should be consulted in all program matters.

Candidacy

The special requirements for Admission to Candidacy in Elementary Education are:

1. Submission of a test score from one of these tests:
   (a) Graduate Record Examination, or
   (b) Miller Analogies Test.
2. Satisfactory completion of the written Candidacy Examination which is administered by the department once each semester. This must be completed prior to eighteen semester hours of course work and after the student has taken IDE 510. The exam may be repeated no more than twice. Application forms are available in UCOM 3020.

3. Completion of nine (9) semester hours of graduate studies with a 3.00 grade-point average.

Comprehensive Examination
After being admitted to Candidacy and completing 33 semester hours of course work, the student must complete successfully a Comprehensive Examination covering all areas of the student’s program. Application forms for the Comprehensive Examination are available in UCOM 3020.

Thesis
A student may elect to write a thesis as part of the program. If the student decides to write a thesis, a Thesis Committee will be appointed to work with the student and to evaluate the thesis. (IDE 510 and IDE 620 are required.)

Program
The program for the M.Ed. in Elementary Education is the following: 33 minimum hours required (24 must be on 500 level).

A. Curriculum and Teaching (six semester hours)
   EEC 522*, EEC 523*

B. Educational Foundations (six semester hours)
   Select One
   EDF 501, EDF 515
   Select One
   EPY 502, EPY 521

C. Research & Evaluation (three semester hours)***
   IDE 510*
   IDE 620 (Thesis Option Only with IDE 510)

D. Technology (three semester hours)
   EDM 510

E. Teaching Field (15 semester hours)
   EEC 551 (three semester hours)
   Twelve semester hours from: EEC 532, EEC 535, EEC 536, EEC 537, EEC 550,
   EEC 552, EEC 554, EEC 557, EEC 558, EEC 560, EEC 562, EEC 575, EEC 590,
   EEC 592, EEC 594, EEC 599, AED 501, RED 530 or RED 531, RED 544, RED
   545, SED 559
   *All certification programs require an introductory special education course SPE
   500, if not completed at the undergraduate level. This is in addition to the 33
   semester hour requirement.
   ***Students who have not previously completed an evaluation course will be
   required to complete an approved evaluation course in addition to IDE 510.
   ***No more than three hours can be applied to the Teaching Field.

ALTERNATIVE M.Ed. IN ELEMENTARY EDUCATION
After admission to the program, the assigned advisor reviews the student’s record and determines prerequisite course needs as required by the Department. In general, the program requires a minimum of 51 graduate hours and such additional undergraduate courses or experiences as the Department may require. A degree plan sheet is available upon request from the Department of Curriculum and Instruction, College of Education. See College of Education general section for program admission requirements.

The following prerequisite courses are required. Equivalent courses or experiences may be substituted with written approval of the advisor and department chair.

Prerequisites
RED 330, RED 333, MA 201, EPY 455, SPE 400 or SPE 500
Other courses as the Advisor may require.
In addition to the above prerequisites, students must also have completed 12 hours in English, Math, Science, and Social Sciences.

Program
The program for the Alternative M.Ed. in Elementary Education is as follows: 51 minimum graduate hours requires (30 must be 500 level).
Students may not enroll for more than 18 hours of degree program course work before achieving Level II (Unconditional) admission status.

A. Curriculum and Teaching (six semester hours)
   EEC 522*, EEC 523*

B. Educational Foundations (six semester hours)
   EDF 501, or EDF 515 and EPY 502

C. Research and Evaluation (three semester hours)
   IDE 510  Educ Research & Eval*

D. Technology (three semester hours)
   EDM 510

E. Teaching Field (24 semester hours)

   Remaining or additional hours from any AED, EEC, or RED courses.

F. Field Experience (three semester hours)
   EEC 557

G. Clinical Field Experience (six semester hours)
   IDE 597* **
   (Supervised practice in a school setting in the student’s teaching field. The student will work full time in the school for an entire semester).

*Required Graduate Courses
**Courses restricted to level-two status.

MASTER'S DEGREE IN READING EDUCATION
1. Admission. Requirements for admission to the Class A Reading Specialist program shall Include:
   a. At least baccalaureate-level professional educator certification in any area of education;
   b. Two years of successful classroom teaching experience; and
   c. Certification in Early Childhood Education, Elementary Education, or Collaborative Teacher (K-6 or 6-12)

   All certification programs require an introductory special education course if not completed at the undergraduate or master's level.

2. Program Requirements.
   A. Curriculum and Teaching (three semester hours)
      EEC 522 or SED 552
   B. FOUNDATIONS OF EDUCATION (six semester hours)
      Choose One
      EDF 501, EDF 515
      Choose One
      EPY 502, EPY 521
   C. RESEARCH AND EVALUATION (three semester hours)
      IDE 510
   D. TEACHING FIELD (18 semester hours)
      EEC 532, RED 531, RED 533, RED 534, RED 541, RED 545
   E. INTERNSHIP (three semester hours)
      RED 595

A "Certification Only" Program is available in Reading Education. Contact the Department of Curriculum and Instruction for details.

PROGRAMS IN SECONDARY EDUCATION MASTER OF EDUCATION DEGREE PROGRAMS
M.Ed. programs are designed to enhance and extend the knowledge and qualifications of secondary teachers.
Requirements for admission to candidacy in high school education programs are:
1. Successful completion of at least nine semester hours of graduate work.
2. Completion of required SED course and IDE 510 with a grade of “B” or higher.
3. Successful completion of a candidacy examination.
4. Alabama Class B Professional Certification (or equivalent) must be held by the student.

5. Regular admission in Graduate School and submission of a test score on either the GRE, MAT or PRAXIS.

6. English Language Arts, General Science, and Social Science programs require at least one course in two areas of the teaching field.

I. Programs in Secondary Education
   A. Curriculum and Teaching (six semester hours)
      SED 552
      Specific Course for certificate area:
      Language Programs (French, German, Spanish, Language Arts)
      SED 561
      Mathematics
      SED 563
      Science Programs
      SED 564
      Social Science Programs
      SED 562
   
   B. Foundations of Education (six semester hours)
      Choose One
      SED 551, EPY 502, EPY 521
      Choose One
      EDF 501, EDF 515
   
   C. Research and Evaluation (six semester hours)
      IDE 510
      (Prerequisite: EPY 455 or equivalent)
      SED 560
   
   D. Teaching Field (12 semester hours)
      Courses selected with advisor approval from student's teaching field.
      Language Arts: Courses selected with advisor approval from English, Speech, Communication, Drama, and Reading.
      Mathematics: Courses selected with advisor approval from Mathematics.
      Science Programs: Biology: Courses selected with advisor approval from Biology. Science Composite: Courses selected with advisor approval from Biology, Chemistry, Geology, Physics.
      Social Science Programs: History: Courses selected with advisor approval from student's teaching field. Social Science Composite: Courses selected with advisor approval from Economics, Geography, History, Political Science, Psychology and Sociology.
   
   E. Technology (three semester hours)
      EDM 510

*All certification programs require an introductory special education course (SPE 400 or SPE 500), if not completed at the undergraduate or master's level. This is in addition to the minimum number of hours required.

ALTERNATIVE M.Ed. IN SECONDARY EDUCATION
This program is designed to provide initial teacher preparation at the graduate level primarily for students interested in pursuing a career in teaching but whose undergraduate degree did not include a teacher education program. See College of Education general section for program admission requirements.

Requirements for admission to Level II Status in the alternative program:
1. Successful completion of at least nine semester hours of graduate work.
2. Completion of six hours of required courses with a grade of “B” or higher.
3. Submission of a test score on either the GRE or MAT.
4. Completion of a candidacy application.
5. Successful completion of the department candidacy exam.
6. Regular admission in the Graduate School.

Students will complete one of the following programs.

I. High School Option
   A. Curriculum and Teaching (nine semester hours)
      SED 555**, SED 559**
      Appropriate methods course for the teaching specialization.
B. Foundations of Education (six semester hours)
   Choose One
   EDF 501, EDF 515
   Choose One
   EPY 502, EPY 521

C. Evaluation (three semester hours)
   EPY 455

D. Survey of Special Education (three semester hours)
   SPE 500 or SPE 400

E. Reading (three semester hours)
   RED 541

F. Technology (three semester hours)
   EDM 510

G. Teaching Field (15 semester hours)
   Selected from approved electives in the student's teaching field. These fields
   are presently available in this program:
   Language Arts Composite
   General Science Composite
   Social Science Composite
   Spanish    Biology
   Mathematic  French
   German     History

H. Internship (six semester hours)
   IDE 597 Student Teaching*
   Supervised practice in a school setting in the student's teaching field. The
   student will work full time in the school for an entire semester.

I. Each comprehensive teaching field of English language arts, general science,
   and general social science shall ensure that the candidate has completed at
   least one course in each of the areas of the comprehensive field in addition to
   the area on concentration.

*Courses restricted to Level-Two Status.

Special Education Graduate
The graduate program in Special Education prepares individuals with or without
special education backgrounds to work with exceptional children and youth. Students
seeking Alabama Class A Professional Certification may select programs of study in
the areas of Collaborative Teaching, Early Childhood Special Education, and
Gifted and Talented provided they already have certification in any area of education.
Post-master's or Sixth-Year Graduate Programs which lead to an Instructional
Specialist Degree are available, and for qualified individuals, an Alabama Professional
Certificate at the AA level. On occasion, limited resources may dictate that an online
version of the course will be the only offering in a given academic year.

ACADEMIC STANDARDS AND STUDENT RESPONSIBILITY
Students should be aware that the Special Education Program requires that certain
courses be taken in sequence. Advisors should be consulted to obtain information
about sequencing and prerequisite course work.
A committee consisting of graduate faculty members within the program will be
selected by program advisors to assist in planning students’ courses of study. Such
planned programs should be effected before the completion of nine semester hours of
work. Planned programs will also indicate prerequisite courses. Failure to follow the
advised planned program of study could result in the student being blocked from
registration.
The Special Education Program requires that students who receive a grade of “C” on
courses in their major area within the Special Education programs, must repeat that
course and attain a grade of “B” or better.
Satisfactory performance in all course work (an average of “B” or better) is required of
all graduate Special Education majors; in the event of unsatisfactory performance in a
course not in their major area, a student’s Graduate Program Committee selects the
option of repeating the course and demonstrating satisfactory performance or
demonstrating satisfactory performance in an approved alternate course.
Students may be permitted to do their internship/practicum during one of their two final
semesters in residence. This is a joint decision between student and advisor.
Students are assigned to advisors in their respective program areas. No faculty member other than the assigned advisor may advise Special Education students. The student has the sole responsibility for initiating applications and meeting test and other deadline requirements.

**WRITTEN COMPREHENSIVE EXAMINATION**

Satisfactory performance on a written comprehensive examination is required of all graduate students prior to the completion of their program.

**MASTER OF EDUCATION DEGREE PROGRAM IN SPECIAL EDUCATION**

The requirements for the Master of Education include IDE 510, Educational Research and Evaluation and a minimum of 30 semester hours in the program specialization, as determined by the student’s graduate faculty committee. All graduate majors will have a graduate program committee plan the individual program of study based upon the students; training, experience and needs. This committee will determine if any prerequisite courses are needed. Students already certified in the same field of special education as their graduate major (e.g., Collaborative Teaching) may need some prerequisite courses. Students changing fields of study with special education and those with no prior special education certification may also need prerequisite courses. Those students seeking teacher certification must complete one of the program areas detailed as follows:

**PROGRAM FOR COLLABORATIVE TEACHING**

The 33 semester hour minimum program for the M.Ed. in the area of Collaborative Teaching includes:

**Curriculum and Teaching (six semester hours)**

SPE 512, SPE 516

**Educational Foundations (six-nine* semester hours)**

*SPE 500

*Select One:

EDF 501, EDF 515

*Select One:

EPY 502, EPY 521

**Technology (three semester hours)**

EDM 510

**Research and Evaluation (three semester hours)**

IDE 510 Educational Research and Evaluation

**Teaching Field (15 semester hours)**

Nine semester hours from SPE 515, SPE 591, SPE 592
Six semester hours of advisor approved Collaborative Teaching electives

*SPE 500 is taken only if the student has not had a recent undergraduate equivalent. It becomes an additional part of the program.

**PROGRAM FOR EARLY CHILDHOOD SPECIAL EDUCATION**

The 33 semester hour minimum program for the M.Ed. in the area of Early Childhood SPE:

**Curriculum and Teaching (six semester hours)**

SPE 512, SPE 516

**Educational Foundations (six semester hours)**

*SPE 500

*Select One:

EDF 501, EDF 515

*Select One:

EPY 502

**Technology (three semester hours)**
EDM 510
Research and Evaluation (three semester hours)
IDE 510

Teaching Field (15 semester hours)
Nine semester hours from SPE 515, SPE 591, SPE 592
Six semester hours of advisor approved Early Childhood Special Education Teaching electives

Electives (0-nine semester hours)
Guided electives to be selected with advisor approval.
*SPE 500 is taken only if the student has not had a recent undergraduate equivalent.

PROGRAM FOR TEACHERS OF THE GIFTED AND TALENTED
The 33 semester hour minimum program for the M.Ed. in the teaching of the gifted and talented includes:
Curriculum and Teaching (six semester hours)
SPE 598, SPE 523
Educational Foundations (six-nine semester hrs)
*SPE 500
Select One:
EDF 501, EDF 515
Select One:
EPY 502, EPY 521, EPY 568
Technology (three semester hours)
EDM 510
Research and Evaluation (three semester hours)
IDE 510
Teaching Field (nine semester hours)
SPE 521, SPE 522, SPE 524
Electives (six semester hours)
Guided electives to be selected with advisor approval.
Suggested courses include (on campus) SPE 511, SPE 514, SPE 515, SPE 518, (online) CED 584, CED 588.

*SPE 500 is taken only if the student has not had a recent undergraduate equivalent. The course then becomes an added course to the program.

ALTERNATIVE M.Ed. IN COLLABORATIVE TEACHING
This is a special alternative program for individuals with a baccalaureate degree in non-teacher education fields. For specific admission requirements see College of Education general section of the Bulletin. In general the program requires a minimum of 42 graduate hours. Recent federal legislation requires that Early Childhood Special Education and Collaborative teachers have completed 12 semester hours of courses in each of four disciplines: English language arts, Mathematics, Science, and Social Science. To ensure that the appropriate courses are taken, students must consult with their advisor. The State of Alabama requires that individuals seeking admission to the Alternative Master's in Special Education have either a major in the field or 32 semester hours in a specialized area of study in the discipline (including at least 19 hours of upper-division courses).

Level I Qualifying Courses (12 semester hours)
SPE 400 or SPE 500, SPE 443, SPE 489, SPE 311
Foundation Requirements (nine semester hours)
Level II Upper Division Prerequisite Courses (15 semester hours)
SPE 510, SPE 511, SPE 515, SPE 518, SPE 589

Upper Division Courses (15 semester hours)
SPE 512, SPE 516, SPE 517, SPE 591, SPE 592

Intern (three semester hours)
SPE 595 or SPE 596

ALTERNATIVE M.Ed. IN EARLY CHILDHOOD SPECIAL EDUCATION
This is a special alternative program for individuals with a baccalaureate degree in non-teacher education fields. For specific admission requirements see College of Education general section of the Bulletin. In general, the program requires a minimum of 39 graduate hours. Recent federal legislation requires that Early Childhood Special Education and Collaborative teachers have completed 12 semester hours of courses in each of four disciplines. English Language Arts, Mathematics, Science, and Social Science. To ensure that the appropriate courses are taken, students must consult with their advisor. The State of Alabama requires that individuals seeking admission to the Alternative Master's in Special Education have either a major in the field or 32 semester hours in a specialized area of study in the discipline (including at least 19 hours of upper-division courses).

Prerequisites (12 semester hours)
SPE 432, SPE 311, SPE 489, SPE 400 or SPR 500

Curriculum and Teaching (six semester hours)
SPE 512*, SPE 516*

Behavioral Studies/Foundation (three semester hours)
EPY 502

Research and Evaluation (three semester hours)
EPY 455 or IDE 510

Teaching Field (24 semester hours)
SPE 433, SPE 510, SPE 515, SPE 517*, SPE 518, SPE 589, SPE 591*, SPE 592*

Technology (three semester hours)
EDM 510

Internship (three semester hours)
SPE 597*

*Courses restricted to Level-Two Status.

NOTE: We require all graduate students in Special Education (who are not already certified in their field of study) to observe a classroom or setting which is a model of good teaching practice in their proposed field of certification. Students are to observe for one full day twice each semester or to make a total of 6 observations, whichever is greater, until graduated.

ADVANCED GRADUATE STUDY: SIXTH-YEAR (POSTMASTER'S) PROGRAMS IN SPECIAL EDUCATION
Postmaster’s or Sixth-Year Graduate Programs which lead to an Instructional Specialist (Ed.S.) Degree and/or AA (State of Alabama) Professional Certification are available for qualified individuals. In addition to college requirements previously stated, students seeking certification will have a graduate program committee plan a program based upon the student’s training, experience and needs. This committee will determine if any prerequisite courses are needed.

**AA CERTIFICATE IN SPECIAL EDUCATION**
In addition to the Core Courses required for the Instructional Specialist program, IDE 620, IDE 640, IDE 650, IDE 692, EPY 602, EDF 615 and SPE 699, certain specified teaching field courses are required for the AA Certificate.

**COLLABORATIVE TEACHING**
Teaching Field (12 semester hour minimum)
Course work to be approved by student’s graduate program committee.

SPE 500 is taken only if the student has not had a recent equivalent. The course then becomes an added course to the program.

**GIFTED AND TALENTED EDUCATION**
Teaching Field (12 semester hour minimum)
Course work to be approved by student’s graduate program committee.

SPE 500 is taken only if the student has not had a recent equivalent. The course then becomes an added course to the program.

**DESCRIPTIONS OF LEADERSHIP AND TEACHER EDUCATION COURSES:**

- DESCRIPTION OF ALL ART EDUCATION (AED) COURSES
- DESCRIPTION OF ALL EDUCATIONAL FOUNDATIONS (EDF) COURSES
- DESCRIPTION OF ALL EDUCATION LEADERSHIP (EDL) COURSES
- DESCRIPTION OF ALL ELEMENTARY/EARLY CHILDHOOD EDUC (EEC) COURSES
- DESCRIPTION OF ALL READING EDUCATION (RED) COURSES
- DESCRIPTION OF ALL SECONDARY EDUCATION (SED) COURSES
- DESCRIPTIONS OF ALL SPECIAL EDUCATION (SPE) COURSES

College of Education
Department of Professional Studies

Chair: John V. Dempsey (251) 380-2861
Professors: Daughenbaugh, Davidson-Shivers, Dempsey, Hayes, Johnson, Law, Litchfield, Newman, Robenstine, Strange, Uhlig, Van Haneghan
Associate Professors: Clark, Fregeau, Guest, McIntosh, Robinson, Surry
Assistant Professors: Adams, Haynes, Ingram, Millner, Norris, Steele, Wagner
Instructors: Blaylock, Lewis

Department of Professional Studies web site
http://www.southalabama.edu/coe/bset

The Department of Professional Studies offers the Master of Education degree in Educational Media, School Counseling, and School Psychometry, the Master of Science degree in Community Counseling, Rehabilitation Counseling, and in Instructional Design and Development, and a Doctor of Philosophy degree in Instructional Design and Development.

For certification as a school counselor, school psychometrist or library media specialist by the State Department of Education, one must have completed a basic program in a teaching field. Eligibility for certification requires two years of appropriate professional experience, at least one of which must be in teaching. The initial certificate is good for five years.

INTERDEPARTMENTAL EDUCATION
The department provides undergraduate and graduate students in the College with courses in Educational Foundations, Educational Technology, Educational Psychology, and Educational Research, but it does not offer undergraduate or graduate degree programs in these areas. These courses are designed to broaden and strengthen the student's degree-area preparation as a professional educator.

COUNSELOR EDUCATION PROGRAMS
The programs described below are designed to provide for the acquisition of skills and competencies needed by the professional counselors and psychometrists working in educational, agency, and rehabilitation settings.
A grade of “B” or better is required in the professional major sequences. Counselor educators are ethically required to ensure that students meet academic requirements and demonstrate clinical competencies. Satisfactory progress will be predicated on a combination of factors such as academic success, clinical competence, adherence to ethical standards, and appropriate interpersonal functioning. Students who do not demonstrate satisfactory competence within any of these critical areas of professional performance may be terminated from the program. Core faculty will evaluate students on a continuing basis to determine students' satisfactory progression through the program.

ADMISSIONS REQUIREMENTS
Applications for graduate programs in counseling and psychometry are reviewed throughout the year. Deadlines for all application materials (specified below) are: for Fall admission - June 15; for Spring admission - November 1, and for Summer admission - April 1. Requirements for admission are:

1. A completed application for admission to the Graduate School.
2. One official copy of all undergraduate and graduate transcripts.
3. Two letters of recommendation from persons familiar with the applicant's academic and/or professional abilities.
4. A written statement of the applicant's career goal(s) and purpose(s) for pursuing the Master's program in counseling or psychometry.
5. Results of the Graduate Record Examination (GRE): Verbal, Quantitative, Writing ; or the Miller Analogies Test (MAT).
6. Requirements for School Counseling and School Psychology admission include baccalaureate-level or master's-level professional Educator certification in a teaching field.

Applications, transcripts, letters of recommendation and all supporting materials should be submitted to the Office of Admissions, Administration Building, Room 182, University of South Alabama, Mobile, Alabama 36688-0002 by the deadlines noted above.

Final admission decisions involve evaluation of the following: grade-point average; scores on the GRE or MAT; letters of reference; professional experience; the applicant's statement of purpose; and program enrollment and availability. Students who are not enrolled for three consecutive semesters must complete all admissions requirements again and be reviewed by the program admissions committee.

Comprehensive Examination Type I is required.
The special requirements for completion of the program include demonstration of satisfactory performance in the prescribed curriculum and a written comprehensive examination. For certification in School Counseling or School Psychology, 2 years of satisfactory teaching experience is required.

**REQUIREMENTS FOR THE SCHOOL COUNSELOR PROGRAM**
(39 Semester hours Minimum)

**Major Instructional Support Area:**
(27 Sem hours)
CED 571, CED 572, CED 574, CED 576, CED 583, CED 584, CED 586, CED 588, CED 595 Internship (3 semester hours required; 300 contact hours)

Related Studies in Educational Foundations*:
(9 Semester hours)
EPY 521, EPY 555

And One Course from Social Foundations:
EDF 501, EDF 515

Research in Education Area:
(3 Semester hours)
IDE 510

*SPE 500 Must be taken for 3 additional hours by students who have not previously satisfied the special education requirement.

**REQUIREMENTS FOR THE SCHOOL PSYCHOMETRY PROGRAM**
(39 Semester Hour Minimum)

**Major Instructional Support Area:**
(27 Sem hours)
EPY 555, EPY 556, EPY 557, EPY 558, CED 560, CED 571, CED 583, CED 584, CED 596 Internship (3 semester hours required; 300 contact hours)

Related Studies in Educational Foundations
(9 Semester hours)
EPY 521

One course from the following:
EDF 501, EDF 515

One additional course in CED, EPY or related field.

Research in Education Area:
(3 Semester hours)
IDE 510

*SPE 500 Must be taken for 3 additional hours by students who have not previously satisfied the special education requirement.

**REQUIREMENTS FOR THE COMMUNITY COUNSELING PROGRAM**
(48 Semester Hour Minimum)

Required Major Professional Core:
(42 Sem hours)
CED 560, CED 566, CED 571, CED 572, CED 574,
CED 576, CED 584, CED 586, CED 588,
CED 597 (6 semester hours. required; 600 contact hours)
Required Related Professional Courses
(9 Semester hours)
IDE 510, EPY 521, EPY 555

Approved Electives: (6 Semester hours)

REQUIREMENTS FOR REHABILITATION COUNSELING PROGRAM
(54 Semester hour Minimum)
Required Major Professional Core:
(51 Sem hours)
CED 560, CED 566, CED 572, CED 574, CED 575,
CED 576, CED 579, CED 581, CED 584,
CED 585, CED 586, CED 588
CED 598 Internship (6 semester hours required; 600 contact hours)
Required Related Professional Courses:
(9 Semester hours)
IDE 510, EPY 521, EPY 555

Approved Electives: (3 Semester hours)

For information concerning the national certification examination in Rehabilitation
Counseling and the Alabama License for Professional Counselors, contact the
Behavioral Studies and Educational Technology Department.

EDUCATIONAL MEDIA PROGRAM ONLINE
The Department of Behavioral Studies and Educational Technology offers two
programs entirely over the Internet: Alabama Class A Certificate in Library Media with a
Master of Education Degree, and Alabama Class A Endorsement in Library Media.
These programs prepare students to plan, design, and administer library/media centers
and qualify them to serve as School Library Media Specialists/Librarians in K-12
schools throughout Alabama. Because the programs are nationally recognized and
accredited, graduates may be able to qualify for S.L.M.S./L. positions in other states.
The online format offers students the flexibility and convenience of taking graduate
courses at home, at the office, or wherever they have access to the Internet. The
programs are designed to provide contact with the professor, interaction with other
students, and access to the University Library and student services.

ADMISSION REQUIREMENTS

Applicants for the Educational Media program are reviewed throughout the year.
Deadlines for all application materials (specified below) are: Fall admission - June 15;
Spring admission - November 1; and Summer admission - April 1. Requirements for
admission are (in addition to the general Graduate School Standards):
1. A completed application for admission to the Graduate School.
2. One official copy of all undergraduate and graduate transcripts.
3. Two letters of recommendation from persons familiar with the applicant's
   academic and/or professional abilities. In addition, the letters should reference
   the applicant's dispositions necessary to help K-12 students learn.
4. A letter from the applicant indicating the applicant's goal(s) and purpose(s) for
   pursuing the field of Educational Media, and the dispositions that make the
   applicant a good candidate for helping K-12 students learn.
5. Valid Alabama Certification: For the master's degree, an Alabama Class A or B
   Certificate in a teaching field. For the endorsement only, an Alabama Class A
   Certificate in a teaching field or instructional support area.
6. Results of the Graduate Record Examination (GRE), including written
   component.
Applications, transcripts, letters, and all supporting materials should be submitted to the Office of Admissions, Administration Building, Room 182, University of South Alabama, Mobile, Alabama 36688-0002 by the deadlines noted above. Final admission decision involves evaluation of the following: grade-point average, scores on the GRE, letters of reference, applicant’s statement of career goal(s) and purpose(s), professional experience, and program enrollment and availability.

**Alabama Class A Certificate in Library Media with a Master of Education Degree (33 semester hours)**

Students entering this program must have a valid Alabama Class A or B Certificate in a teaching field.

Program requirements include:

1. Completing a minimum of 33 semester hours as outlined below, with a minimum grade-point average of 3.0 (B) on all work attempted. A minimum grade of “B” is required for all EDM courses, and a satisfactory performance is required in each of the internship experiences.
2. Passing a written comprehensive and portfolio examination.
3. Having at least two years of successful teaching experience at the time application for certification is submitted.

**I. Educational Media Core Courses (18 semester hours)**

EDM 520, EDM 533, EDM 552, EDM 580, EDM 581, EDM 583

*Enrollment is limited to Educational Media majors only.*

**II. Internship (3 semester hours)**

EDM 595-A, EDM 595-B, EDM 595-C

**III. Instructional Support Courses (12 semester hours)**

EPY 502, EDF 501 or EDF 515, IDE 510, SPE 500 (If a survey course in Special Education was previously taken at the undergraduate or graduate level, an advisor-approved elective may be taken in lieu of SPE 500.)

**Alabama Class A Endorsement in Library Media (21 semester hours)**

Students entering this program must have a master's degree and a valid Alabama Class A Certificate in a teaching field or instructional support area. Program requirements include:

1. Completing a minimum of 21 semester hours as outlined below, with a minimum grade of “B” in all core courses and a satisfactory performance in each of the internship experiences.
2. Passing a written comprehensive and portfolio examination.
3. Having at least two years of successful teaching experience at the time application for certification is submitted.

**I. Educational Media Core Courses (18 semester hours)**

EDM 520, EDM 533, EDM 552, EDM 580, EDM 581, EDM 583

*Enrollment is limited to Educational Media majors only.*

**II. Internship (3 semester hours)**

EDM 595-A, EDM 595-B, EDM 595-C

In addition, a survey course in Special Education is required if not previously taken at the undergraduate or graduate level.

For more detailed information, please visit the University of South Alabama online website at: [http://usaonline.southalabama.edu](http://usaonline.southalabama.edu) (click on Academic Information and then Educational Media) or contact: Dr. Mary Ann Robinson, University of South Alabama, College of Education, UCOM 3700, Mobile, AL 36688-0002. Phone: (251)380-2861; E-mail: mrobinson@usouthal.edu

**MASTER OF SCIENCE IN INSTRUCTIONAL DESIGN AND DEVELOPMENT PROGRAM**
The Master of Science degree program in Instructional Design and Development provides students with the information and skill training to analyze instructional tasks, to design and deliver instructional programs, and to perform evaluative procedures on instructional products and services. The job market potential for graduates of the program includes the management of in-service education in business and industry, health-related institutions and agencies, military agencies, institutions of higher education, K-12 education, and related self-employed activities.

1. Each student will be assigned a major professor and will complete a course-of-study form by the end of the first semester of study.
2. A program committee will be appointed to work with the student.
3. A Master’s Comprehensive Examination will be completed by each student during the student’s last semester.

The Master’s program in Instruction Design and Development (ID&D) has both on-campus and online courses. Although not all courses are taught in both formats, students are able to complete the masters program in one format or the other, or a combination of on-campus or online courses. Using the Internet and other distance learning technologies, the ID&D online program provides an educational opportunity for those who choose to use similar technology to that they might employ for delivering educational and training courses after graduation.

Flexibility is the key to the program, and students can complete courses via the Internet following their individual learning schedules during the semester. Students are able to interact directly with their instructor and classmates to obtain subject information, to work on course and team assignments, and to complete examinations via the Internet.

In addition, students have direct access to the University Library and advising services.

For more detailed information, please visit the ID&D web site at [http://idd.southalabama.edu](http://idd.southalabama.edu) or the University of South Alabama online web site at [http://USAOnline.southalabama.edu](http://USAOnline.southalabama.edu) or contact: Ms. Gail McLean, IDD Program Secretary, College of Education, University of South Alabama, Mobile, AL 36688-0002. Telephone (251) 380-2861; E-mail: gmclean@usouthal.edu

**REQUIREMENTS FOR ADMISSION**

Applications for the Instructional Design and Development program are reviewed throughout the year. Deadlines for all application materials (specified below) are: Fall admission - June 15; Spring admission - November 1; Summer admission - April 1.

Requirements for admission are:

1. A completed application for admission to the Graduate School.
2. One official copy of all undergraduate and graduate transcripts.
3. Two letters of recommendation from persons familiar with the applicant's academic and/or professional abilities.
4. A statement of the applicant's career goal(s) and purpose(s) for pursuing the Master's program in Instructional Design and Development.
5. Results of the Graduate Record Examination (GRE) including the writing component.

Applications, transcripts, letters, and all supporting materials should be submitted to the Office of Admissions, Administration Building, Room 182, University of South Alabama, Mobile, Alabama 36688-0002 by the deadlines noted above.

Final admission decision involves evaluation of the following: grade-point average scores on the GRE, letters of reference, applicant's statement of career goal(s) and purpose(s), professional experience, and program enrollment and availability.

**INTERNSHIP**

Many Instructional Design and Development students complete an internship of a minimum of 240 contact hours. Students must have completed all core courses prior to enrolling for the internship. The internship component is designed to give students practical experience in design, implementation, and/or evaluation of instructional systems.

**REQUIREMENTS FOR DEGREE**

To qualify for the M.S. Degree in Instructional Design and Development, candidates must satisfactorily complete the following program with a minimum grade-point average of 3.00 on all course work undertaken. Students must complete a written course of study by the end of their second semester in the program.

**REQUIREMENTS FOR THE M.S. DEGREE IN INSTRUCTIONAL DESIGN AND DEVELOPMENT PROGRAM (40 semester hours minimum)**
I. Core Courses (13 semester hours required)
   EPY 502, IDE 510, ISD 600, ISD 610, ISD 621

II. Approved concentration areas (24 semester hours required)
    Select one of the concentration options (A, B, C, or D)

   A. E-Developer
      Required (15 Semester hours)
      ISD 582, ISD 583, ISD 650, ISD 651, ISD 653
      Select at least 9 Semester hours
      ISD 581, ISD 584, ISD 602, ISD 613, ISD 622, ISD 652, ISD 655, ISD 656, ISD 682, IDE 685, CED 678

   B. Applied Research & Evaluation
      Required (15 Semester hours)
      IDE 620, IDE 621, IDE 635, IDE 660, IDE 690
      Select at least 9 Semester hours
      IDE 630, IDE 692, ISD 581, ISD 602, ISD 640, ISD 650, ISD 656, SY 512, PSC 580, CED 678, EPY 602, EPY 610

   C. Performance Systems & Training
      Required (15 Semester hours)
      ISD 611, ISD 613, ISD 640, ISD 641, ISD 642
      Select at least 9 Semester hours
      CED 678, EPY 602, EPY 610, IDE 660, ISD 581, ISD 582, ISD 602, ISD 612, ISD 622, ISD 650, ISD 651, ISD 653, ISD 656, ISD 682, MGT 502, MGT 520, MGT 525

   D. Individualized Program
      15 Semester hours must be made up of courses with the ISD prefix. 9 Semester hours selected from any USA graduate courses approved by the student's committee.

III. Field Courses
     Minimum of 3 semester hours required
     ISD 595, ISD 598, ISD 599

DOCTOR OF PHILOSOPHY PROGRAM IN INSTRUCTIONAL DESIGN AND DEVELOPMENT

The Doctor of Philosophy degree in Instructional Design and Development consists of components in instructional systems design, instructional technology, learning theory, and research and evaluation. Program emphases are: applying instructional systems design procedures in educational program development; developing instructional models for a variety of subject matter areas and educational settings; matching instructional strategies to student learning styles; evaluating, selecting, and integrating new technologies into instructional systems; and utilizing formative and summative evaluation and research in the development and improvement of instructional systems. Graduates of the program will be prepared to function in school districts, colleges and universities, business and industry, health care organizations, and the military with responsibility for planning, implementing, and evaluating instructional programs.

REQUIREMENTS FOR ADMISSION

Applicants must have earned the master’s degree before being considered for admission to the program. Students who will complete the master’s degree before matriculation to the doctoral program are eligible for admission contingent upon receipt of a final transcript from an accredited institution showing a degree and date of graduation. Persons with deficiencies in instructional design, technology, and other program areas will be required to complete necessary course work. This course work is available in the University.

The Admissions Committee will select the most highly qualified candidates to be considered for admission to the program. A positive effort will be made to identify and recruit minority students into the program. The following must be on file for an applicant to be considered.

1. A completed application for admission to the Graduate School.
2. Official GRE scores, including the writing section, sent by the testing agency to the Registrar.
3. Official transcripts from all institutions attended.
4. A written statement of the applicant’s career goal(s) and purpose(s) for pursuing the Ph.D. program in Instructional Design and Development.
5. Three letters of recommendation from persons familiar with the applicant’s academic and/or professional abilities.
The admission decision involves evaluation of the following: the grade-point average on undergraduate and graduate course work; scores on the GRE; letters of recommendation; professional experience; the applicant’s statement of purpose; and the program’s enrollment. Final decisions regarding admission will be based on the applicant’s personal and professional qualifications as well as the program’s ability to accommodate additional doctoral students. Upon acceptance by the College of Education, the applicant will be recommended to the Dean of the Graduate School for admission. The Dean of the Graduate School will make the final admission decision and notify all applicants in writing of the disposition of their applications. Students are admitted into the Ph.D. program twice per year. The deadlines for application to the Ph.D. program are April 1 for Fall admission and November 1 for Spring admission. Requests for application blanks for admission should be addressed to the Office of Admissions, Administration Building, Room 182, University of South Alabama, Mobile, Alabama 36688-0002 (Telephone: (251) 460-6141 or 1-(800) 872-5247).

Information about the Ph.D. program should be requested from the Coordinator, Instructional Design and Development Program, 3700 UCOM, College of Education, the University of South Alabama, Mobile, Alabama 36688-0002 (Telephone: (251)380-2861).

All documents for admission review (i.e., transcripts, test scores or letters of recommendation) must be official and mailed from the home institutions or testing agency directly to the Office of Admissions. Once submitted, documents become the property of the University of South Alabama.

PROGRAM
The Doctor of Philosophy degree program in Instructional Design and Development is designed to provide persons with skills required in planning, implementing, and evaluating instructional programs in a variety of educational settings. The program consists of four major components:

1. the instructional design and development foundation core;
2. research methods and statistics;
3. supporting coursework and
4. completion of a dissertation.

A minimum of 82 semester hours of approved graduate course work is required in the program. Appropriate course work taken at the master’s level and beyond may be used to meet this requirement. A minimum of 40 semester hours of course work must be completed at the University after admission to the doctoral program. Refer to the doctoral handbook for specific requirements.

The requirements for each of the components in the program in Instructional Design and Development are described below. (Any additional requirements will be determined by the student’s doctoral advisory committee.)

Instructional Design and Development Foundation Core (40 hours minimum)
The Instructional Design and Development Core includes course work in instructional systems design, instructional technology, learning theory, performance technology, and courseware development. Students will be required to demonstrate proficiency in all Core areas in written and performance examinations and will complete successfully a supervised field internship in a selected instructional setting.

Research Methods/Statistics (18 hours minimum)
Research course work and experiences are designed to prepare students to produce and apply knowledge in the field of instructional design and development. Emphasis is given to:

1. conceptualizing research/evaluation models appropriate for different instructional settings;
2. applying basic assessment techniques to instructional environments; and
3. performing basic and applied research in order to develop and improve instructional systems. Students will be required to demonstrate proficiency in research methods and statistics on written and performance examinations.

Supporting Course Work (12 hours minimum)
Course work to support the proposed doctoral program is available from several academic divisions of the University. Course work is selected with the approval of the student’s doctoral advisory committee.

Dissertation (9 hours minimum)
A dissertation is required of all candidates for the Ph.D. degree. The dissertation will involve independent, original research and creative effort. It should make a significant contribution to the field of knowledge in instructional design and development. The student's major professor and advisory committee will be responsible for supervising the dissertation research and for recommending approval of the dissertation to the Graduate School. The candidate will be required to complete an oral defense of the dissertation before the Graduate faculty. For additional information and guidance on the technical aspect of the dissertation, please see the following:

1. the Graduate Section of this Bulletin;
2. the University's current edition of *A Guide for Preparing Theses and Dissertations*;
3. the current *APA Publication Manual*;
4. the Instructional Design and Development Program's *Doctoral Student Handbook*.

**CONTINUOUS ENROLLMENT**

Students will be in continuous enrollment in a dissertation research seminar (IDE 710/711) from the time they are admitted into the program until the end of their 6th semester in the program. From the time of admission until the end of their 3rd semester in the doctoral program, students will enroll each academic term for one semester hour of IDE 710, Research Seminar. From the beginning of their 4th semester in the doctoral program until the end of their 6th semester, doctoral students will enroll each academic term for one semester hour of IDE 711, Research Seminar. Doctoral students must enroll in the Research Seminar even if they are not taking any other courses. After successful completion of these research seminar requirements, students may choose to take additional terms of IDE 711 or other coursework. In any case, doctoral students must be continuously enrolled for one semester hour or more to remain active in the program. After admission to candidacy and until graduation, students must enroll each academic term for a minimum of one semester hour of IDE 799, Research and Dissertation. A minimum of 9 hours of dissertation credit is required.

Failure to enroll for any hours during any semester will result in a student being removed from the program. Students who voluntarily withdraw from the program may be considered for readmission. The student will be reviewed by the Admissions Committee under standards in effect at the time the student applies for readmission. The student will need to demonstrate that he or she is current with the research literature in the field. This will require additional work on the part of the candidate.

**RESIDENCY**

Students in the program will complete a **minimum** of one year of residency during their doctoral studies. Residency is defined as enrollment as a full-time student for a period of three consecutive semesters, including summer, or completing a minimum of 21 semester hours in one academic year. Residency is a requirement for admission to candidacy.

**EXAMINATIONS**

Doctoral students are required to successfully complete two major examinations before admission to candidacy.

**Measurement/Research/Statistics Examination**

The Measurement/Research/Statistics Examination is a one day examination consisting of a written portion and the analysis of a data set using a computer program of the student’s choice. The purpose of the examination is to verify that the student has developed an understanding of research and statistical skills.

**Comprehensive Examination**

The Comprehensive Examination is a written and oral examination. The purpose of the two-day written portion is to assure that all Instructional Design and Development candidates are prepared in the core areas of the discipline. The two-hour oral examination is intended to review and extend the topics covered in the written parts of the examination.

**CANDIDACY**

Students will be admitted to candidacy for the degree of Doctor of Philosophy in Instructional Design and Development after successful completion of the following program requirements:
1. doctoral advisory committee appointed;
2. program of study established;
3. residency established;
5. ID & D Qualifying Examination; and
6. dissertation topic approved.

ANNUAL REVIEW
Every doctoral student will be reviewed annually. The purpose of the review is to ensure that each student is making satisfactory progress in the program. Students who are not making satisfactory progress may be required to meet specific performance goals and may be suspended or dismissed from the doctoral program. The Annual Review will include the following criteria:
• The student has met with the doctoral advisor at least once per semester.
• The student's plan of study is complete and signed by all members of the Doctoral committee and approved by the chairman of the Behavioral Studies and Educational Technology department and the Director of Graduate Studies within the first two years.
• Student's participation in IDE 710/IDE 711 and other courses is satisfactory.
• Doctoral candidates is making steady progress on dissertation prospectus or dissertation investigation.
• Student is taking courses on a regular basis and completing them in a timely fashion (a minimum of 15 credit hours per year).
• Student is maintaining a satisfactory grade point average (3.0 or higher) and no more than two courses with grades of "C" in his or her entire Program of Studies.
• Student does not have an excessive amount of incompletes.

TIME LIMIT
Students will have seven years from the date of admission to the doctoral program to complete all requirements for the degree. This limit may, in extremely unusual cases, be extended for a defined period of time with approval of the Doctoral Advisory Committee, Director of Graduate Studies, and the Dean of the Graduate School.

TRANSFER CREDIT
Graduate credit earned at an approved graduate school may be transferred to the University of South Alabama; however, no prior commitments will be made by the Graduate School or the College of Education concerning approval of the course work to meet requirements in the Ph.D. program in Instructional Design and Development. Recommendations concerning transfer credit will be made by the Doctoral Advisory Committee in light of a student's total program of study. All proposed transfer credit must be approved by the Director of Graduate Studies and the student's Doctoral Advisory Committee. Students in the doctoral program must complete a minimum of 40 semester hours at the University of South Alabama after admission to the doctoral program.

IDD DOCTORAL STUDENT HANDBOOK
The Instructional Design and Development Doctoral Student Handbook provides additional information about the program. The latest version of the handbook is available from the Professional Studies department secretary.
COLLEGE OF ENGINEERING

Dean: John Steadman (251) 460-6140
Interim Associate Dean and Director of Graduate Studies: B. Keith Harrison (251) 460-6140

Assistant Dean: Robert C. Foley (251) 460-6140

College of Engineering web site
http://www.eng.usouthal.edu

DEPARTMENTS OF INSTRUCTION
Chemical Engineering
Civil Engineering
Electrical and Computer Engineering
Mechanical Engineering

DEGREE PROGRAMS OFFERED
The College of Engineering offers programs of study leading to the following degrees:
Bachelor of Science in Chemical Engineering
Bachelor of Science in Civil Engineering
Bachelor of Science in Computer Engineering
Bachelor of Science in Electrical Engineering
Bachelor of Science in Mechanical Engineering
Master of Science in Chemical Engineering
Master of Science in Electrical Engineering
Master of Science in Mechanical Engineering

MISSION STATEMENT
The mission of the College of Engineering is to provide students with quality, accessible undergraduate and graduate engineering education, to prepare graduates for professional careers and lifelong learning, to promote the creation and dissemination of knowledge, to serve society through professional practice and community outreach and to act as a catalyst for economic and technological development of the Gulf Coast region, the State of Alabama and the Nation.

UNDERGRADUATE PROGRAMS
Admission to the University of South Alabama constitutes admission to the College of Engineering for those students wishing to major in engineering. Incoming students should specify a particular discipline in the College as a major as soon as practical in order to receive proper counseling and pursue their engineering course work. Transfer students must declare a major and have all transfer credit evaluated by the Admissions Office. The department chair will approve transfer credit for engineering degree credit except where substitutions are involved; substitutions require the approval of the dean. Transfer students are encouraged to have departmental evaluations accomplished prior to their first registration for classes.

Entering freshmen students not adequately prepared to enter the degree program may be required to take additional preparatory course work. Such preparatory work will not be counted toward the major degree program.

Students must have the prerequisites for the courses in which they enroll; students who enroll without prerequisites are subject to administrative withdrawal. Prerequisites are satisfied by courses taken either at South Alabama or by acceptable transfer credit. Students not exempted from EH 101 will be required to take it as a prerequisite to EH 102.
Today's society is permeated by an extensive technology that affects the lives of everyone. The engineering function in this modern society—while basically unchanged from the goal of using natural resources for the betterment of mankind—has more far-reaching and immediate consequences than ever before through the social, economic, environmental, and political reactions that follow technological developments.

The engineering profession has recognized that to fulfill the social as well as technical responsibilities incumbent upon today's engineer, engineering graduates must not only be technically competent, but must also be as broadly educated as possible within the allotted educational time period. To this end, the College of Engineering strives to prepare its students ultimately to assume their responsibilities by providing technically sound programs of instruction that incorporate a strong component in the humanities and social sciences. Graduates are prepared to take industrial positions, to assume positions with government, or to pursue graduate studies.

Engineering students may also qualify as premedical students should they desire to apply for admission to medical school. Students interested in medical careers should consult with the Dean of the College of Medicine.

**PROFESSIONAL COMPONENT STANDING FOR UNDERGRADUATE PROGRAM**

All departments in the College of Engineering require Professional Component Standing (PCS) for most 300- and 400-level courses. PCS is awarded by the appropriate department chair when the student does the following:

1. Completes a required set of fundamental courses;
2. Has at least a 2.00 GPA (and a C-grade minimum in all EE/CIS courses in the Computer Engineering Degree) or "C" level competency for certain departmentally specified courses taken at the University of South Alabama; and
3. Has at least a 2.00 GPA overall at the University of South Alabama.

Students who fail to maintain PCS criteria will lose PCS and may be required to take or repeat appropriate courses as specified by the department chair to correct their deficiencies and may not be permitted to continue in the 300- and 400-level engineering courses. See departmental policy statements for additional details.

**DEGREE REQUIREMENTS FOR A BACHELOR DEGREE**

To become a candidate for a Bachelor of Science degree in one of the five major disciplines within the College of Engineering, the student must satisfy the general requirements of the University as set forth in "Academic Policies and Procedures," and must have satisfactorily completed the program of instruction specified by the major department. In addition to these requirements, the Engineering student must have at least a GPA of 2.00 or C-level competency in all subjects taken in the student's major department at the University of South Alabama.

A transfer student must complete at least 32 hours of approved upper-division courses with at least 16 hours in the upper level of the student's major department at the University of South Alabama.

Engineering students must comply with the University's general education requirements. In the area of Humanities and Fine Arts, engineering students are required to take a total of at least 9 semester hours with a minimum of 3 semester hours in literature and a minimum of 3 semester hours in the arts with the remaining hours from the Humanities and Fine Arts. In the area of History, Social, and Behavioral Sciences, engineering students are required to take at least 9 semester hours with a minimum of 3 semester hours in history and a minimum of 3 semester hours from among the other disciplines in the social and behavioral sciences. Engineering students must take at least one 6 semester hour in-depth sequence in either Humanities and Fine Arts or History, Social, and Behavioral Sciences.

Engineering students are required to take and make a "good faith" effort to pass the Fundamentals of Engineering examination prior to their anticipated date of graduation. Students should be aware of the 90-day advance deadline established by the State Board of Registration for submission of examination application materials. Failure to meet the deadline could result in delayed graduation.

**HONORS PROGRAM IN ENGINEERING**

To receive a designation of "Departmental Honors," students must have at least a 3.5 GPA at the time of graduation and complete an Honors Senior Project in their major. The Honors Senior Project requirement may be satisfied in either of two ways:

1. By completing a Senior Honors Project course that requires completion of a research project under the guidance of a faculty mentor.
2. By completing a special honors design project as part of the capstone engineering design requirement under the guidance of a faculty mentor.
It is required that there be both a written report and oral presentation of the results of the Honors Senior Project.

Students participating in "Departmental Honors" may also elect to take University Honors Seminar and participate in other University Honors Activities upon recommendation of their major advisor.

**REQUIREMENTS FOR MINORS IN DISCIPLINES OTHER THAN ENGINEERING**

Engineering students may complete a minor in disciplines other than engineering. Students desiring to do so must complete the published requirements for that discipline subject to the limitation that no more than three courses required in their engineering curriculum may also be used to satisfy the requirements for a minor.

**CHOICE OF BULLETIN FOR UNDERGRADUATE DEGREE REQUIREMENTS**

After an absence of one calendar year or when transferring into an engineering program, students must use the Bulletin in effect at the time of readmission or transfer, or a later version. No student may use a Bulletin older than six years from the date of graduation.

**COOPERATIVE EDUCATION PROGRAM**

The College of Engineering also offers an attractive five year cooperative Education Program. This program allows the student to gain valuable engineering experience as he or she pursues his or her degree. The freshman year is spent as a full time student at the university. During the sophomore and junior years the student alternates working full time with an excellent salary for one semester and taking full time course work the next semester. The student returns to school full time for the senior year. This program offers many advantages for the student. Interested students should consult with either Career Services Center or the College of Engineering.

**MASTER'S PROGRAMS**

The College of Engineering offers programs leading to degrees of Master of Science in Chemical, Electrical and Mechanical Engineering. The Department of Civil Engineering offers graduate level course work but does not offer a graduate degree program at present. The programs of study are designed to provide knowledge of modern engineering concepts and practices; to prepare the graduate for the practice of engineering at a higher level of proficiency than attainable with the bachelor's degree; and to prepare the graduate for further study toward the doctoral degree should the graduate so desire. The programs comprise course work and directed theoretical and experimental inquiry in thesis or project research. A program option requiring only course work is also available. The course work only option, while available to all graduate students, is particularly attractive to full time employed engineers that are interested in augmenting and enhancing their engineering skills as part time students. Courses are available in the evening to accommodate employed students.

The following criteria supplement the Graduate School criteria (see Categories of Admission):

1. **Regular Admission**
   a) B.S. degree in engineering in a relevant field, from an ABET accredited program.
   b) For those students not holding a B.S. degree in engineering from an ABET accredited program: a B.S. degree in engineering in a relevant field and a minimum combined score of 900 on the verbal and quantitative sections of the Graduate Record Exam.

2. **Provisional Admissions**
   a) B.S. degree in engineering from an ABET accredited program or a minimum combined score of 900 on the verbal and quantitative sections of the Graduate Record Examination is required. Applicants for Chemical Engineering may substitute an American Chemical Society accredited B.S. degree in chemistry in place of the B.S. degree from an ABET accredited program.
   b) A B.S. in engineering or in a field acceptable to the departmental Graduate Admissions Committee is required. Depending on the student's background additional undergraduate preparatory courses may be required. These courses will not count toward the Master's degree.
   c) A minimum grade-point average of 2.5 on all undergraduate work (A=4.0) including a minimum grade-point average of 2.5 over the last 64 course hours of undergraduate work or, a minimum grade-point average of 2.75 over the last 64 course hours of undergraduate work is required.
3. **Non-degree Admission**
   a) Non-degree admissions are accepted in accordance with Graduate School requirements.

   Each applicant will be reviewed by the Admissions Committee of the appropriate department which may reserve the right to evaluate additional credentials, such as, but not limited to, course work taken, letter of recommendation, etc.

   At the beginning of the first semester, international students, except those who have earned a bachelor’s or graduate degree at an accredited United States institution of higher learning, are given a foreign language test by the University. Students with deficiencies in English skills are assessed by the test, will be required to take and successfully complete a special English Communication ESL course tailored to Engineering. This course will be in addition to other requirements for the degree. The above are minimum requirements for admission.

**CHANGE OF STATUS FROM PROVISIONAL TO REGULAR STANDING WITHIN THE MASTER's PROGRAMS**

The following requirements are in addition to the Graduate School requirements for change of status:

   Students required to complete additional undergraduate course work in partial fulfillment of the requirements to advance from Provisional Admission to Regular Admission must obtain a minimum grade-point average of at least 3.00 on the total of all such required courses with a grade of at least "C" in each course.

**DEGREE REQUIREMENTS FOR A MASTERS DEGREE**

Each student will have a graduate advisory committee and a faculty advisor. The student's program of study must be approved by the advisory committee and all courses taken must have the approval of the student's faculty advisor.

Three plans of study are offered. The thesis option includes 6 hours of credit for the thesis. The project option includes 3 hours of credit for the project. The thesis differs from the project in that the thesis is usually oriented toward original engineering research whereas the project is usually oriented toward engineering applications. The following minimum distribution requirements must be met for each of the three options:

**Thesis Option:** 31 semester hours credit required for degree (25 hours course work required).
- 16 to 19 semester hours course work in engineering
- 6 to 9 semester hours course work in supporting areas
- 6 semester hours of thesis credit

**Project Option:** 34 semester hours credit required for degree (31 hours course work required). Electrical Engineering requires 36 semester hours credit for this option.
- 19 to 22 semester hours course work in engineering
- 9 to 12 semester hours course work in supporting areas
- 3 semester hours of project credit

**Course Work Option:** 33 semester hours credit required for degree (33 hours course work required). Electrical Engineering requires 36 semester hours credit for this option.
- 21 to 24 semester hours course work in engineering
- 9 to 12 semester hours course work in supporting areas

The distribution for the last two options relating to the MSEE degree is somewhat higher than the minimum. For details, see the [Master of Science in Electrical Engineering](http://www.southalabama.edu/bulletin/bulletin0506/engineer.htm). Supporting areas include mathematics, natural sciences, basic medical sciences, computer sciences, statistics, business, as well as engineering.

All students pursuing a thesis or project option are required to take a one semester hour course in research integrity as part of their engineering course work requirements. A maximum of six hours of directed study may be counted toward the degree. A maximum of six hours of thesis may be counted toward the degree.

Students must complete satisfactorily a comprehensive examination. Students failing this examination may try a second time not sooner than 12 weeks after the first attempt. Students failing the second time will be academically dismissed from the program.

The thesis or project candidate must present a satisfactory oral defense of the written report. Should the student present an unsatisfactory defense, a second attempt will be allowed not sooner than 12 weeks after the first attempt. A second unsatisfactory defense will result in dismissal from the program.

An engineering senior at the University of South Alabama who has completed 96 semester hours with a GPA of 3.00 or better may with approval of the Director of Graduate Studies enroll in graduate engineering courses in accordance with Graduate School policies. See [Graduate Study For Advanced Undergraduates](http://www.southalabama.edu/bulletin/bulletin0506/engineer.htm).
Chemical Engineering is the profession in which a knowledge of mathematics, chemistry, and the other natural sciences gained by study, experience, and practice is applied with judgment to develop economical ways of using materials and energy for the benefit of mankind. The program required for the degree of Bachelor of Science in Chemical Engineering provides fundamental instruction in mathematics, chemistry, physics, and engineering. This education prepares the graduate to seek employment in petroleum refineries, the manufacturing of synthetic fibers, steel, paper, electronic components, plastics, and pharmaceuticals. Also, he or she may be found in related areas of design, nuclear energy, and pollution abatement, as well as management. If the graduate prefers, he or she is adequately prepared to pursue additional studies in a graduate program.

Chemical engineering students are required to take the Chemical Engineering discipline specific Fundamentals of Engineering examination of Alabama or another state prior to graduation. All electives must be approved by the student’s advisor. Degree requirements include a minimum of 18 semester hours of approved electives in the Humanities and Social Sciences.

Satisfactory completion of the 129 hour program outlined below leads to a Bachelor of Science in Chemical Engineering. Students must also comply with the College of Engineering Requirements for a Degree which are covered in the Bulletin under College of Engineering.

The Chemical Engineering program's objectives are to produce graduates who during their first few years after college:

1. Can work in an environment that requires problem solving skills, often utilizing a team based approach.
2. Can apply technical knowledge that is fundamental to the practice of chemical engineering, using techniques, skills and modern engineering tools as appropriate.
3. Can function especially well as a chemical engineer in the traditional chemical and petroleum process industries.
4. Demonstrate proficiency in written, graphical, and oral communications.
5. Have continued the development of their knowledge and skills after graduation.
6. Appreciate professional, business and ethical responsibilities.

Computer Ownership Policy

All students enrolling in any ChE undergraduate class, other than CHE 101 and CHE 201, are required to own a personal laptop computer system that conforms to the current ChE program minimum published standards. This is a one-student one-machine requirement. Consult the ChE web site at www.southalabama.edu/engineering/chemical for current standards.
The Bachelor of Science program in Chemical Engineering is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: (410) 347-7700.

**MASTER OF SCIENCE IN CHEMICAL ENGINEERING**

A Master of Science degree in Chemical Engineering is offered requiring advanced course work in core areas of chemical engineering: separations, reactor design, transport phenomena, and thermodynamics. The student is offered a wide latitude in choosing electives to build expertise in associated areas such as computer science, biology, and environmental toxicology. Students with chemistry backgrounds can qualify for admission by taking a prescribed series of undergraduate courses. See degree requirements.

**DESCRIPTIONS OF ALL CHEMICAL ENGINEERING (CHE) COURSES**

**College of Engineering**
Civil Engineering involves the design and construction of systems necessary for our modern society to function. It encompasses many technical specialties whose focus is the design of large, normally one-of-a-kind, facilities such as bridges, buildings, tunnels, highways, dams, waterways, airports, flood control systems, coastal protection systems, water supply networks, and waste treatment plants. As our society expands, challenging opportunities will continue to be available for Civil Engineers practicing in their own private firms, in large companies, or in governmental agencies.

The Civil Engineering program objectives are:

• Graduates will be prepared for engineering practice in the environmental, geotechnical, structural, transportation, and water resources/coastal engineering sub-disciplines and be prepared to pursue graduate education.
• Graduates will have the necessary written, graphical, and oral communication skills to effectively communicate to both technical and non-technical audiences.
• Graduates will be able to prepare practical engineering designs individually or as a part of a multidisciplinary design team.
• Graduates will be prepared to pursue professional registration and will be actively participating in continuing education and professional development.
• Graduates will recognize and be able to apply the principles of professional engineering practice, including ethics, environmental awareness, professionalism, societal impacts, and economics.

The curriculum builds on a strong base in mathematics, physical sciences, engineering sciences, and humanities developed primarily during the freshman and sophomore years. During the junior year, students develop an understanding of the fundamentals of each area of Civil Engineering. The specialty areas include:

• Environmental Engineering
• Geotechnical Engineering
• Structural Engineering
• Transportation Engineering
• Water Resources and Coastal Engineering

The senior year focuses on design, construction and the integration of more advanced knowledge in civil engineering. A comprehensive project with students participating in a design team prepares them to enter professional practice.

Satisfactory completion of the 132-hour program outlined below leads to a Bachelor of Science in Civil Engineering. Students must also comply with the College of Engineering Requirements for a Degree which are covered in this Bulletin under College of Engineering.

The Bachelor of Science program in Civil Engineering is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: (410) 347-7700.

http://www.southalabama.edu/bulletin/bulletin0506/engrce.htm
The Department of Electrical and Computer Engineering offers the Bachelor of Science in Electrical Engineering (BSEE) and a joint program with the School of Computer and Information Sciences leading to the Bachelor of Science in Computer Engineering (BSCpE), both degrees being granted by the College of Engineering. 

The fundamental objectives of the Electrical Engineering Degree Program are to produce graduates who during their first few years after graduation:

- Are able to demonstrate a comprehensive knowledge in Electrical Engineering, founded upon strong basic instruction in science, mathematics and engineering fundamentals. The electrical engineering topics may include electronics, control systems, signal processing, digital systems, communications, electromagnetics, instrumentation, power and electric machines.
- Have the background, means, and opportunity to plan and conduct experiments and to apply appropriate techniques for data collection, analysis, and interpretation.
- Have the necessary electrical engineering design skills, including the capacity for problem formulation, background research, solution generation, decision making, implementation, communication and teamwork.
- Can identify global, societal, legal, economic, and other key issues in arriving at ethical decisions in professional life.
- Are successful in their chosen field in the electrical engineering profession or are continuing their education at the graduate level.
- Have a commitment to professional development and life-long learning enabling continued career success in a changing technological environment.

Electrical Engineering is among the fastest evolving disciplines in our technological society. The engineering developments in electrical technology have provided, in a substantial way, for improvement in the standard of living of humanity. The domain of the electrical engineer reaches from massive electrical energy systems to microscopic integrated circuits; from life studies in bioengineering to satellite communications systems; and from the control of electromagnetic radiation to the control of information flow in a computer. The Computer Engineering program is geared to students who are interested in the design of digital computing systems, integrating both hardware and software design components.

The highly diverse and rapidly evolving characteristics of these fields require a thorough understanding of fundamentals as well as flexibility in the design of individualized programs of study. Therefore, emphasis is placed on mathematics, physics, humanities, social sciences, basic sciences and engineering sciences during the first two years while sufficient flexibility is provided at the senior level to allow a student, in consultation with an advisor, to prepare a specialized course of study in two areas from the broad field of electrical and computer engineering.

The fundamental objectives of the Computer Engineering Degree Program are to produce graduates who during their first few years after graduation:
● Are able to demonstrate a comprehensive knowledge in Computer Engineering, founded upon strong basic instruction in science, mathematics, and hardware and software engineering fundamentals. The computer engineering topics may include digital systems, computer architecture, electronics, control systems, hardware description languages, software design, and computer communications.

● Have the background, means, and opportunity to plan and conduct experiments and to apply appropriate techniques for data collection, analysis, and interpretation.

● Have the necessary computer engineering design skills, including the capacity for problem formulation, background research, solution generation, decision making, implementation, communication, and teamwork.

● Can identify global, societal, legal, economic and other key issues in arriving at ethical decisions in professional life.

● Are successful in their chosen field in the computer engineering profession or are continuing their education at the graduate level.

● Have a commitment to professional development and life-long learning enabling continued career success in a changing technological environment.

In the Computer Engineering Degree Program, sequences of courses are chosen from Electrical and Computer Engineering and from Computer Science that produce an in-depth treatment of digital logic and systems theory. In addition, means are provided in both degree programs, through the Electrical and Computer Engineering Design Laboratory, for a student to pursue a design topic outside of, but related to, the formal course work.

General Education electives, in two broad areas:
(i) Literature, Humanities and Fine Arts,
(ii) History, Social, and Behavioral Sciences, provide breadth to the educational experience of Electrical Engineering and Computer Engineering students. These electives must be planned, in consultation with an academic advisor, to reflect a rationale appropriate to the educational objectives of the Departmental Programs, while conforming strictly to the requirements of the Articulation and General Studies Committee of the State of Alabama.

A minimum of 18 semester hours, comprising three courses in each of the areas (i) and (ii) above must be successfully completed. This selection of General Education electives must include at least one (two-course) concentration in **either** area (i) **or** area (ii).

Moreover, in area (i), at least one course must be in literature and at least one must be in the arts; in area (ii), at least one course must be in history and at least one course must be from disciplines in the social and behavioral sciences.

Students in Electrical Engineering are required to become Student Members of the Institute of Electrical and Electronics Engineers (IEEE) when they enroll in EE 301. Students in Computer Engineering are required to become members of either the Institute of Electrical and Electronics Engineers (IEEE) or the Association for Computing Machinery (ACM) when they enroll in EE 301. Through participation in the activities of such technical organizations the student becomes aware of the activities of electrical and computer engineers in society. An excellent opportunity is provided to students for contact with practicing professionals as well as fellow students.

Any Electrical and Computer Engineering student interested in pursuing a career in medicine or bioengineering should consult with an advisor for an appropriate sequence of courses which will meet the minimum requirements for entry into a medical school or the necessary life sciences background to enter a graduate program in bioengineering. The attainment of the BSEE or the BScpE degree will allow the graduate to enter the professions of electrical engineering or computer engineering directly, or to continue his/her education at the graduate level.

The Bachelor of Science program in Electrical Engineering is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: (410) 347-7700.

*Students with an adequate ACT/SAT score in English Composition will not be required to take EH 101 as a prerequisite to EH 102.

**EE technical electives must be selected from Electrical Engineering courses carrying a 400 number and must include a two-course concentration from the following concentration areas with permission of the student's advisor:

- Control Systems: EE 422, EE 423, EE 424, and EE 427.
- Communications and Networks: EE 441, EE 444, EE 456, EE 471, and EE 473.
- Digital Systems: EE 440, EE 441, EE 443, EE 444, EE 445, EE 465, EE 468, and EE 469.
- Electromagnetics and Optics: EE 450, EE 452, EE 453, EE 454, EE 458, and EE 488.
- Electronics: EE 430, EE 431, EE 432, EE 438, EE 439, EE 455, EE 457, EE 470, EE 482, and EE 486.
- Power Systems: EE 481, EE 482, EE 483, EE 484, EE 485, EE 486, EE 488, and EE 489.

***Senior Lab may be chosen from either EE 425 or EE 447.

Note:
1. A student must complete EH 101, EH 102, MA 125, MA 126, CH 131, PH 201, CIS 210, and EE 220 with a minimum overall GPA of 2.0 to obtain PCS in the Electrical Engineering Program.

2. Students enrolling in EE 263 are required to own a personal laptop computer system that conforms to the current departmental minimum published standards. This is a one machine per student requirement.

3. Appropriate software tools will be utilized in almost all EE courses.

3. Appropriate software tools will be utilized in almost all EE and CIS courses.

4. For technical elective courses, BScpE students must select one of the following tracks:
   
   **Hardware Track:** Students must take 3 senior level EE courses and the remaining 2 courses can be senior level EE or CSC courses.
   
   **Software Track:** Students must take CIS 231, CSC 333, CSC 432 and the remaining 2 courses can be senior level EE or CSC courses.

**MASTER OF SCIENCE IN ELECTRICAL ENGINEERING**

With the ever-increasing pace of technological development in society, new and challenging opportunities are becoming available that require engineering graduates with increased levels of specialization. To provide for this, the Electrical and Computer Engineering Department offers electrical engineering and computer engineering graduates a cutting-edge program in graduate studies leading to the Master of Science in Electrical Engineering (MSEE) degree. The program offers advanced level courses and areas of specialization in computer engineering, digital controls, laser-assisted fabrication, microelectronics, networks, image processing, pattern recognition, wireless communications, optical information processing and power systems. Graduate students have wide opportunities to undertake front-line engineering research alongside faculty for both thesis and project work. In addition, a course work-only program is also offered by the department for those in industry who intend to further their professional development while pursuing a graduate degree.

The minimum credit hour requirements for the different options pertaining to the MSEE degree are:

1. **Thesis Option** 31 cr
2. **Project Option** 34 cr
3. **Course Option** 37 cr

The details of each option are contained in the Electrical and Computer Engineering Department Guidelines for the MSEE program.

**DESCRIPTIONS OF ALL ELECTRICAL AND COMPUTER ENGINEERING (EE) COURSES**

**College of Engineering**
Chair: Francis M. Donovan, Jr. (251) 460-6168
Professors: Donovan, Engin

Assistant Professors: Dougherty, Gou, Phan, Hsiao
Adjunct Associate Professor: Hollis
Instructor: Foley

Department of Mechanical Engineering web site
http://www.southalabama.edu/engineering/mechanical

Mechanical Engineering is one of the most basic and widely applied of all scientific disciplines, as evidenced by the diverse positions occupied by mechanical engineers throughout the entire spectrum of industry, research, and consulting. Mechanical engineers play a vital role in all energy-related industries, including petroleum, nuclear, and chemical. They are leaders in design, production, and management in such varied fields as aerospace, manufacturing, computers, electrical power, controls, construction, biomechanics, and comfort engineering. The curriculum is designed so that graduates may enter any area of Mechanical Engineering, or continue their education at the graduate level.

The basic fields of study include the following:
Materials science is the study of the relationship between structure, properties, and processing of materials.
Thermodynamics and heat transfer deal with basic concepts and applications of work, energy, and power, such as found in internal combustion, nuclear, and solar devices. Studies involving heating, air conditioning, and ventilation are also found in this area. Engineering mechanics is the study of static and dynamic effects of forces applied to rigid and flexible solid bodies.
Fluid mechanics is the study of the forces and motions of liquids and gases. Included in this area of study are hydraulics, gas dynamics, aerodynamics, and design and application of pumps, compressors, and turbines.
Control systems include studies of transient and steady-state response of systems to external inputs.
Design synthesis utilizes the above areas to produce safe, practical, efficient, and economically feasible solutions of problems facing the mechanical engineer.

The program objectives for the Mechanical Engineering department are:
Students will be able to apply mathematical, computational and computer skills to analyze mechanical engineering problems.
Students will be able to plan and conduct experiments using traditional and modern equipment, and to apply the appropriate statistical techniques for data analysis.
Students will be able to demonstrate engineering design skills in the areas of thermal and mechanical systems, including problem formulation, solution generation, decision making, implementation, communication, and teamwork.
Students will be able to successfully enter any discipline of the Mechanical Engineering profession or to continue their education at the graduate level.
Students will be prepared for success in careers and life-long learning, including professional registration.

The courses listed below are required for the Bachelor of Science degree in Mechanical Engineering.
The Bachelor of Science program in Mechanical Engineering is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: (410) 347-7700.

*Eighteen hours of Humanities/Social Science courses are required. These must include nine hours in Humanities, nine hours in Social Sciences including one sequence. Also required is one literature, one fine arts, one CA 110 (Public Speaking), one history and one Social and Behavioral Science.

***The Technical elective must be an approved Mechanical Engineering course.

****All required 100- and 200-level courses are prerequisite to 400-level courses.

### MASTER OF SCIENCE IN MECHANICAL ENGINEERING

Admission and MS Degree requirements in Mechanical Engineering as well as three plans of study (thesis option, project option, course work only option) are stated at the beginning under College of Engineering section. Most graduate courses in Mechanical Engineering are offered at night for the benefit of full-time employed engineers within commuting distance of the campus. Graduate courses normally meet one evening per week. The program leading to the degree of Master of Science in Mechanical Engineering has several possible specializations: biomechanics, orthopaedic biomechanics, heat transfer and fluid mechanics with special emphasis on computational mechanics, vibrations, dynamics, simulation and controls. MA 507 and MA 508 are required in Mechanical Engineering. See degree requirements.

Robert A. Kreisberg, M.D.
Senior Associate Dean: Samuel J. Strada, Ph.D.
Director of Graduate Studies: Ronald Balczon, Ph.D.
(For Doctor of Medicine see separate Bulletin)

College Of Medicine web site
http://www.southalabama.edu/com/

The Interdisciplinary Graduate Program in Basic Medical Sciences at the University of South Alabama College of Medicine awards the Ph.D. degree in Basic Medical Science and is designed for students interested in careers in biomedical investigation. Research training is offered in traditional disciplines basic to medicine: Biochemistry and Molecular Biology, Cell Biology and Neuroscience, Microbiology and Immunology, Molecular and Cellular Pharmacology, or Physiology, and in the interdisciplinary Cancer Biology and Lung Biology Programs.

REQUIREMENTS FOR ADMISSION
The requirements for admission to the Interdisciplinary Graduate Program for the Doctor of Philosophy degree in Basic Medical Sciences are:
1. The applicant shall possess by the time of matriculation a baccalaureate degree or the equivalent from an accredited college or university.
2. Two semesters or three quarters of undergraduate work are recommended in each of the following: physics, general chemistry, organic chemistry, biology, English composition, and mathematics (including calculus and statistics).
3. A grade-point average of at least 3.0 for all undergraduate and graduate work, on a 4.0 scale.
4. Satisfactory standing at the last educational institution attended.
5. Satisfactory scores on all standardized achievement examinations. The Graduate Record Examination is required. In addition, foreign applicants must present evidence of competence and fluency in spoken and written English with a TOEFL score of at least 600.

Matriculation is contingent upon review and recommendation by the Admissions Committee of the Graduate Program in Basic Medical Sciences.

PROCEDURES FOR ADMISSION
Applications for the Basic Medical Sciences Interdisciplinary Graduate Program are accepted for matriculation in the Fall Semester. Matriculation in the Summer Semester is possible in limited circumstances. The Basic Medical Sciences Graduate Program does not accept students on a "non-degree" basis.
Applications for admission (U.S. citizens) are available through the Office of Admissions at 182 Administration Building, University of South Alabama, Mobile, Alabama, 36688-0002. Foreign applicants should apply through the Office of International Services at Faculty Court South, University of South Alabama, Mobile, Alabama, 36688-0002. Application materials are also available through the university's web site: www.southalabama.edu.

Information for the graduate program can be obtained on-line http://southmed.usouthal.edu/com/bms PhD or by contacting the Director of the Interdisciplinary Graduate Program in Basic Medical Sciences, MSB 3316, College of Medicine, University of South Alabama, Mobile, Alabama 36688-0002; Telephone: (251) 460-6153; FAX: (251) 460-6071; E-mail: lflagge@jaguar1.usouthal.edu.

To be considered for review by the Admissions Committee, an applicant must submit the following:
1. A completed application form.
2. A certified transcript from each college or university attended.
3. An official report of all scores on standardized achievement examinations (GRE, TOEFL).
4. Supplemental materials required for the program in Basic Medical Sciences can be obtained and must be submitted directly to the Graduate Office for the Basic Medical Sciences Interdisciplinary Graduate Program at MSB 3316, College of Medicine, University of South Alabama, Mobile, Alabama, 36688-0002:
   a. Three letters of recommendation from instructors, advisors, or other persons qualified to evaluate the student's academic performance and potential in graduate school.
   b. A personal statement

All other documents for admission review (transcripts, test scores and letters of recommendation) must be official, and become the property of the University of South Alabama.

**PROGRAM**

**Required Course Work**

Students will matriculate into the first year interdisciplinary core curriculum for the Ph. D. Program in Basic Medical Sciences without the necessity to choose an advanced program prior to entry. In year one, students complete IDL 576, IDL 577, IDL 580 and IDL 581, GIS 501, and three research rotations. The purpose of rotations is to acquaint the students with various research problems under investigation and aid in the selection of a major professor in their area of specialization. By the end of the first year, the student should have selected a major professor and matriculated into an advanced program. Advanced curricula are determined by the program, in conjunction with the student's dissertation committee. Students will develop communication skills by presentation of formal lectures and seminars and the completion and approval of a written research proposal.

**Dissertation Committee**

Typically, by the end of one and a half years of study, the student will consult with their major professor, departmental Chair, and the Director of the Graduate Program to select at least four additional graduate faculty members to serve on the Dissertation Committee. At least two members should be from outside the student's major department or program. In special situations, one member may be selected from another institution with the recommendation of the departmental Chair and the Director of the Graduate Program and approval of the Dean of the Graduate School. The student shall convene the first committee meeting no later than six months following the selection of the Dissertation Committee.

The purpose and duties of the Dissertation Committee are:

1. To establish a suitable academic and research training program for each student.
2. To counsel the student in professional development.
3. To administer and judge a closed defense of the dissertation at the end of a student's training program.
4. To assist the student in gaining superior scientific training and to accept responsibility for helping the graduate obtain opportunities for postdoctoral positions.

The student, in consultation with the major professor, shall prepare and submit for approval to the Dissertation Committee a two page research project description no later than the end of one and a half years of study. The Dissertation Committee shall meet with the student at six-month intervals to review progress. At each meeting, the student shall make an oral presentation of the progress being made on the project in an orderly and professional manner and discuss any significant problems which have arisen with a view toward gaining constructive criticism from the committee. At the conclusion of each of these reviews, the Dissertation Committee shall meet in executive session to discuss the acceptability of the student's progress. Documentation of the committee meeting and the student's progress report shall be submitted to the Graduate Office after each meeting.
A student whose progress is found to be unsatisfactory by a majority of the committee members at two such successive meetings shall be placed on probation. If the student's progress is then found to continue to be unsatisfactory, the Director of the Graduate Program (in consultation with the Dissertation Committee, the Student Evaluation and Promotions Committee (SPEC), and the departmental Chair in the student's area of specialization) may take necessary action up to and including a recommendation to the Dean of the Graduate School for academic dismissal of the student.

Changes in the composition of an established Dissertation Committee may be initiated by the student with the consent of the Chair of the Dissertation Committee. Changes in committee composition must be recommended by the Chair of the student's department and the Director of the Graduate Program, and approved by the Dean of the Graduate School.

**Qualifying Examination**

The Qualifying Examination, composed of separate written and oral examinations, will be completed no later than the end of the third year in the program. The written component will focus on the student's approved research project and be prepared in the form of a hypothesis-driven research grant proposal. The written document must be approved by the Examination Committee (the student's Dissertation Advisory Committee and one outside member of the Graduate Faculty appointed by the Department Chair or Program Director who serves as its Chair) prior to scheduling of an oral examination. The student's oral defense of the written proposal and their knowledge of the underlying basic medical science discipline will comprise the oral component of the Qualifying Exam. Should the student fail one or both components of the Qualifying Exam, the student will be allowed to retake that component of the exam once more.

**Candidacy**

The approved research proposal must be filed in the Graduate Office and will be submitted as the formal Research Proposal to the Graduate School within one month of the student's successful completion of the Qualifying Examination. The research Proposal must also be approved by the Dean of the Graduate School. Upon satisfactory completion of the Qualifying Exam and acceptance of the Research Proposal, the student will be admitted to candidacy for the Ph.D. Students will not be permitted to register for Dissertation Research (799) until the candidacy requirement is satisfied.

**ACADEMIC STANDARDS**

To remain in good academic standing in the Interdisciplinary Graduate Program in Basic Medical Sciences, a student must maintain a cumulative grade-point average of 3.0. If the cumulative GPA falls below 3.0, the student will be placed on academic probation. The student must return to good academic standing within two semesters from the time of being placed on probation. When it becomes evident that it is impossible to remove the probationary status, the Director will recommend dismissal from the Graduate Program. In addition to the aforementioned standards, students accumulating more than nine (9) semester hours of "C" or 6 semester hours of "D" and/or "F" will automatically be recommended for dismissal from the Graduate School. At the request of the Director of the Graduate Program, SPEC will review student progress and could recommend dismissal on the basis of unsatisfactory performance on preliminary/qualifying examinations, unsatisfactory research progress, scientific misconduct or failure to meet other requirements of the Ph.D. program in a timely manner. When appropriate, SPEC will meet with the student prior to formulating a recommendation to the Director of the Graduate Program.

**STUDENT APPEALS**
Any student wishing to appeal a SPEC recommendation for dismissal must present their case at a meeting of the SPEC which may also be attended by a student advocate (e.g., Department Chair, Program Director or other designated member of the College of Medicine Graduate Faculty). The student advocate can speak on the student's behalf during this meeting. Following the appeal hearing, SPEC will render a decision in a closed session, with a majority vote of committee members present required. Any recommendation regarding the appeal will be forwarded to the Director of the Graduate Program and Senior Associate Dean of the College of Medicine. Following administrative review, the Senior Associate Dean will communicate the recommendations to the Dean of the Graduate School. In the event that a student is dissatisfied with the appeals decision rendered by SPEC, he or she can initiate an “administrative appeals procedure” as stipulated in the University Undergraduate/Graduate Bulletin. In the case of administrative appeal, the Senior Associate Dean will serve as the final arbitrator for the College of Medicine.

DEGREE REQUIREMENTS
In addition to the requirements set by the Graduate School, the following requirements must be completed for the Ph.D. degree in the Basic Medical Sciences: completion of the core and advanced curricula, a minimum overall 3.0 grade-point average on all work attempted for credit, qualifying examination, a completed dissertation approved by the student's major professor and a majority of the Dissertation Committee, and closed and open defenses of the research presented in the dissertation. All requirements for the Ph.D. degree should normally be completed within four to five years from the date of matriculation, and must be completed within seven years. A student who has not satisfactorily completed a dissertation in a seven-year period must apply for a defined extension to complete the degree. This request must be approved by the major professor, the Chair of the department, the Director of the Graduate Program, and the Dean of the Graduate School. If the student does not complete the degree requirements in the defined extension period, the Director of the Graduate Program, with the advice of the Graduate Executive Committee, may recommend to the Dean of the Graduate School appropriate action up to and including dismissal.

DEPARTMENT OF BIOCHEMISTRY AND MOLECULAR BIOLOGY
Chair: Nathan Aronson (251) 460-6402
Professors: Aronson, Barik, Funkhouser, Honkanen, Nair, Pannell
Associate Professors: Gaubatz, Lane

DEPARTMENT OF CELL BIOLOGY AND NEUROSCIENCE
Chair: Glenn Wilson (251) 460-6490
Professors: Gard, Kayes, LeDoux, Wilson
Associate Professors: Aides, Balczon, Bhatnagar, Chronister, Critz, Fields
Assistant Professors: Alexeyev, Chou, Ofori-Acquah

DEPARTMENT OF COMPARATIVE MEDICINE
Chair: Christian Abee (251) 460-6239
Professor: Abee
Associate Professors: Brady, Gibson, Ruiz, Williams
Assistant Professor: Schuler

DEPARTMENT OF MICROBIOLOGY AND IMMUNOLOGY
Chair: Joseph Coggin, Jr. (251) 460-6339
Professors: Coggin, Foster, Lausch, Oakes, Winkler, Wood
Associate Professors: Hester, Rohrer
Assistant Professors: Audia, McGee

DEPARTMENT OF PHARMACOLOGY
Chair: Mark Gillespie (251) 460-6497
Professors: Ayling, Gillespie, Olson, Scammell, Schaffer, Stevens, Strada
Associate Professors: Chinkers, King, Whitehurst
Assistant Professor: Al-Mehdi

DEPARTMENT OF PHYSIOLOGY
Chair: Thomas Lincoln (251) 460-7004  
Professors: Ballard, Cohen, Downey, Lincoln, Parker, A. Taylor (Emeritus), Townsley  
Assistant Professors: M. Taylor, Weber, Yang

**CANCER BIOLOGY**  
Cancer Research Institute: Oystein Fodstad (251) 460-6995  
Advisory Committee: Balczon, Fodstadt, Honkanen, Ju, Lausch, Pannell, Samant, Shevede-Samant, Tucker

**LUNG BIOLOGY**  
Coordinator: Mary Townsley (251) 460-6815  
Advisory Committee: Stevens, Haynes, Strada, A. Taylor

**DESCRIPTIONS OF ALL COLLEGE OF MEDICINE COURSES:**  
**DESCRIPTIONS OF ALL INTERDISCIPLINARY BASIC MEDICAL SCIENCE (IDL) COURSES**

**DESCRIPTIONS OF ALL BIOCHEMISTRY (BCH) COURSES**

**DESCRIPTIONS OF ALL CELL BIOLOGY & NEUROSCIENCE (CBN) COURSES**

**DESCRIPTIONS OF ALL MICROBIOLOGY & IMMUNOLOGY (MIC) COURSES**

**DESCRIPTIONS OF ALL PHARMACOLOGY (PHA) COURSES**

**DESCRIPTIONS OF ALL PHYSIOLOGY (PHS) COURSES**
COLLEGE OF NURSING

Dean: Debra C. Davis (251) 434-3410
Associate Dean for Academic Affairs: Rosemary Rhodes (251) 434-3410
Associate Dean for Research and Development: M. Candice Ross (251) 434-3410
Associate Dean Baldwin County: Barbara Broome
Professors: Chilton, Davis, Dearman, Rhodes, Ross
Associate Professors: Broome, Daniels, McQuinnes, Roussel, Ryan, Temple, Vande Waa
Assistant Professors: Fruh, Godfrey, Smith, Williams
Instructors: Denmark, Whitworth

Department Chair, Adult Health Nursing: Sherry Daniels
Department Chair, Community/Mental Health Nursing: Barbara Broome
Department Chair, Maternal/Child Health Nursing: Catherine Dearman
Director of Student Services: Martha Surline
Director of RN-BSN: Bettye Odom
Academic Advisor: Nancy Howell

College of Nursing web site
http://www.southalabama.edu/nursing

MISSION
The mission of the College of Nursing is to provide quality innovative education programs to a diverse student body, to participate in research and scholarly activities, and to provide service to the University, the profession, and the public. The College accomplishes this by providing a caring, engaging environment for the empowerment of student learning potential, the professional development of faculty, and the promotion of the nursing profession.

GOALS
1. Cultivate a caring and engaging environment to facilitate teaching, learning, scholarship, and service.
2. Deliver innovative quality nursing programs that meet the needs of a diverse student body and other communities of interest.
3. Promote the discovery, communication, and preservation of knowledge through scholarly activities and leadership.
4. Provide service to the University, the profession, and the public.
5. Develop community partnerships to promote nursing and the enhancement of the health care delivery system.

UNDERGRADUATE
The College of Nursing is dedicated to the education of professional nurses who provide the highest quality health care to the communities they serve. The practice of nursing is both an art and a science; the focus of nursing is the diagnosis and treatment of human responses to actual or potential health problems.

Upon completion of the Baccalaureate Program, graduates should be able to:
1. Deliver professional nursing care that assists individuals, families, and communities with changing needs across the life span for health promotion and maintenance, illness care, and rehabilitation.
2. Use theoretical and empirical knowledge from nursing and related disciplines to think critically, communicate effectively, and provide professional nursing care in a variety of health care settings with diverse populations.
3. Assume responsibility and accountability for one’s own nursing practice.
4. Evaluate research findings for use in nursing practice.
5. Participate in the improvement of the nursing profession, the health care delivery system, and the formulation of health policy through leadership, management, and teaching skills.
6. Collaborate with health care providers and consumers in promoting the health of individuals, families, and communities.
7. Incorporate ethical, moral, legal, and economic values into professional nursing roles designed to meet current and emerging health needs of a changing society.

The College of Nursing has two locations. One is at USA Springhill on the corner of Springhill Avenue and Catherine Street in Mobile. The other is on the USA Baldwin County campus in downtown Fairhope. The resources of the University, the USA Hospitals and clinics, and numerous clinical agencies provide excellent opportunities for students to acquire the knowledge and skills essential for professional nursing.

The program is approved by the Alabama Board of Nursing and accredited by the Commission on Collegiate Nursing Education (One Dupont Circle, NW Suite 530, Washington, D.C. 20036-1120: Telephone 202-887-6791). Upon completion of requirements for the Bachelor of Science in Nursing Degree, the graduate is eligible to apply for the National Council Licensure Examination to become a registered nurse (RN) and for licensure to practice in the State of Alabama and U.S.

ADMISSION CRITERIA
Enrollment into the pre-professional component as a nursing major does not assure the student admission to the Professional Component. Enrollment in the Professional Component is limited and competitive. Students are admitted without regard to race, color, creed, national origin, sex, or qualified disablement. Students must be in good standing with all academic institutions/nursing programs that they have attended in order to be admitted to the BSN program.

Application forms are available in the Office of Student Services in the College of Nursing. A $50.00 non-refundable application fee must be submitted with your application. Money orders or personal checks ($20.00 fee on returned checks) are acceptable.

For fall admission applications should be submitted semester by April 1.
For spring admission applications should be submitted semester by September 1.
Applications for admission to summer semester should be submitted by February 1.
Applications received at other times will be considered on a space available basis.
Students are selected for admission to the Professional Component based on the following factors:
1. Submission of a completed application.
2. Minimum GPA of 2.50 on all prerequisite courses and in good standing within the University. (When the number of qualified applicants exceeds the number that can be accommodated, students are admitted according to GPA ranking.)
3. Minimum University GPA of 2.0.
4. Minimum grade of “C” in all pre-professional courses.
5. Submission of health data forms and evidence of health insurance.
7. Admission will be contingent on a negative drug screen.

Students are expected to have basic computer skills. The College of Nursing Admissions Committee and the Dean of the College reserves the right to select applicants best qualified for and most likely to succeed in the study of nursing. In keeping with dynamic changes in health care and nursing, the baccalaureate curriculum may undergo change. Changes in curricula and/or admission requirements will be published as far in advance as possible. Advisors are available to assist students in adapting to those changes and planning their course of study accordingly.

PROMOTION/PROGRESSION
Students will progress in clinical nursing courses according to the established sequence. The College will recommend for promotion only those students who, in the judgment of the faculty, satisfy the requirements of health, conduct, scholastic achievement, and aptitude for nursing. Students continually in adjustment difficulties may be dismissed from the nursing program. Those students accepted into the Professional Component must provide a negative drug test before beginning classes. Random drug screens or testing for reasonable suspicion are conducted. Students must submit to drug testing for controlled substances and background checks. Failure to submit to testing or a positive drug test and/or unsuitable background checks will result in the student's dismissal from clinical courses. If a student’s progression is interrupted for any reason, it is the student’s responsibility to contact the Office of Student Services and apply for readmission. Any alteration in usual progression may lengthen the student’s program.

A grade of “C” or higher is required for all professional nursing courses. A student may repeat only one professional nursing course in the curriculum. A second “D”, “F”, or “U” will result in academic dismissal from the nursing program. The number of times a student may withdraw failing is limited to two. A third withdrawal failing will result in academic dismissal from the College of Nursing. A student achieving a grade of less than “C” in a course in combination with two withdrawal failings from the College of Nursing will also be dismissed. Successful completion of a math exam is required each term prior to promotion in clinical courses. All students are required to take a Midcurricular Exam. Students who do not successfully pass this exam are required to complete a 3 hour directed study, prior to progressing in the curriculum. Students are also required to complete an exit exam as part of the NU 460 course requirements. If the student is unsuccessful on the exit exam, a grade of "I" will be given for the course and the student must complete additional remedial requirements the next term. Students failing to complete the remedial work will receive an "F" for NU 460. A minimum GPA of 2.0 at the University of South Alabama is required to continue in the program and for graduation. Failure to comply with legal, moral, and legislative standards required for licensure to practice as a registered nurse merits immediate dismissal from the program.

EXPENSES
Students enrolled in clinical courses must maintain current CPR certification and must keep all immunizations current. Students are responsible for all personal health care expenses including expenses resulting from injury or accident, etc. while the student is engaged in learning experiences required by the College of Nursing. Therefore, all students are required to have adequate health care insurance. All students are charged once a year for professional liability insurance. Students are responsible for all travel expenses to clinical sites. Students are responsible for purchase of uniforms and required clinical equipment and supplies. Students may also be responsible for costs related to drug testing and criminal background checks.

TRANSIENT COURSE CREDIT
Any courses taken at another institution to meet degree requirements must have prior approval of the College of Nursing Dean. Failure to obtain prior approval may result in loss of transfer credit for the course work.

TRANSFER CREDIT FOR PROFESSIONAL NURSING COURSES
Nursing course work taken at other institutions prior to admission to the University of South Alabama will be evaluated on an individual basis. Courses determined by the appropriate department chairs to be equivalent to USA courses will be accepted based on the following data:
1. Only course work taken at accredited programs will be considered.
2. Only courses with grades of “C” or above will transfer.

CURRICULUM MODEL FOR BACHELOR OF SCIENCE DEGREE IN NURSING
### FRESHMAN YEAR

**1st Semester**
- EH 101 3
- PSY 120 3
- BLY Elect/Lab 4
- History Elective 3
- Fine Arts Elective (history or appreciation) 3

**2nd Semester**
- EH 102 3
- MA 110/112 3
- HY/SOC/ 3
- Beh Sc Elect 3
- BLY 213/ or BMD 210 Literature Elective 3

**Total Credits**: 16

### SOPHOMORE YEAR

**1st Semester**
- CH 101 4
- CLS 114 4
- Humanities Elec 3
- HY/SOC/ 3
- Beh SC Elect 3

**2nd Semester**
- CLS 115 4
- ST 210/BUS 245 3
- Economics 3
- CIS 150 3
- Humanities Elect 3

**Total Credits**: 14

*Must have a 2 semester sequence in either history or literature.*

### JUNIOR YEAR (Clinicals Begin)

**1st Semester**
- NU 325 4
- NU 327 3
- HSC 343 3
- HSC 342 1
- NU 300 3
- NU 301 2

**2nd Semester**
- CMN 350 3
- CMN 351 3
- AHN 347 3
- AHN 348 3
- HSC 332 3

**3rd Semester**
- NU 304 3
- MCN 340 3
- MCN 341 3

**Total Credits**: 16

### SENIOR YEAR

**1st Semester**
- MCN 345 3
- MCN 346 3
- AHN 447 3
- AHN 448 3
- NU 409 3

**2nd Semester**
- NU 412 3
- NU 413 3
- CMN 420 3
- NU 460 5

**Total Credits**: 15

### Total Credits**: 130

### ACCELERATED BSN TRACK

The College of Nursing has a special Accelerated BSN track for highly academically qualified and motivated individuals. The professional component of the curriculum which normally takes 5 semesters to complete can be completed in 12 months of full-time study. The curriculum and contact hours are the same as required for the traditionally taught BSN degree offered by the College, except that the course schedule is accelerated and is not confined by the traditional academic calendar. At the end of the 12-months of study, students are awarded the BSN degree and are prepared for the RN licensure (NCLEX) examination. Students are admitted based on prerequisite GPA and space available. Admission is competitive and limited. Admission criteria and application deadlines are the same for all undergraduate students.

Students in the Accelerated BSN follow the same promotion/progression policies as the students in the traditionally taught BSN. Students having difficulty maintaining the pace of the program may request a transfer to the traditional program if they are in good academic standing.
The College of Nursing has a track designed especially for registered nurses pursuing the baccalaureate in nursing degree. Once prerequisites are completed (see previous curriculum model) the nursing curriculum can be completed in one calendar year. Courses are offered online and clinical requirements can be completed in the student's home community if approved by faculty. Each applicant’s educational credentials are individually evaluated and a program of study is designed. Upon completion of the bridge course (NU 410), 36 hours of nursing credit will be awarded.

ADMISSION CRITERIA
1. Submission of completed application
2. Minimum GPA of 2.50 in all prerequisite courses
3. Minimum University GPA of 2.0
4. Minimum of "C" in all prerequisites
5. Submission of health data forms and evidence of health insurance
6. Evidence of CPR certification
7. Completion of an accredited diploma or associate degree in nursing and a current unencumbered RN license
8. Admission will be contingent on a negative drug screen.

PROFESSIONAL COMPONENT FOR RN - BSN TRACK

1st Semester
NU 410  6
NU 325  4
NU 327  3
       13

2nd Semester
NU 409  3
CMN 420  3
NU 413  3
NU 304  3
       12

3rd Semester
NU 460  5
NU 412  3
       8

Total Nursing credits: 33

GRADUATE STUDIES
The Master of Science in Nursing program prepares graduates for advanced nursing practice and doctoral study. Graduates of the program are able to synthesize and apply advanced knowledge, theories, and research to a specialized area of nursing practice and function as leaders in practice and to contribute to the advancement of the profession. The Master of Science in Nursing program is accredited by the Commission on Collegiate Nursing Education (One Dupont Circle, NW Suite 530, Washington, DC 20036-1120: Telephone (202) 887-6791). The program outcomes are:
1. Integrate advanced knowledge and theories from nursing and related disciplines into a specialized area of advanced nursing practice.
2. Demonstrate competence in selected advanced nursing roles to meet current and emerging health needs of a changing society.
3. Use scientific inquiry to identify researchable problems and participate in nursing research.
4. Apply advanced knowledge of leadership, management, and teaching to improve nursing practice.
5. Influence the improvement of health care delivery and the formulation of health policy.
6. Contribute to the focus and direction of the nursing profession.
A common core of courses includes concepts, theory, research, and issues related to advanced nursing practice is required of all students. Several concentration areas are offered to meet the career goals of students. Students may prepare for advanced nursing practice in one of seven merged nurse practitioner and clinical nurse specialist roles. Available merged role NP/CNS tracks include Advanced Family Nursing, Advanced Psychiatric/Mental Health Nursing, Advanced Child Health Nursing, Advanced Infant/Neonatal Nursing, Advanced Women’s Health Nursing, Advanced Gerontological Nursing, and Advanced Adult Acute Care Nursing. Concentrations are also available for students pursuing careers in Executive Nursing Administration, Advanced Community/Public Health Nursing, or Nursing Education. The Nursing Education tracks prepares students as clinical specialists in Maternal Child, Adult-Health, or Community Mental Health.

The College of Nursing is responsive to the unique needs of nurses and has developed strategies to facilitate students achieving the MSN. Full-time or part-time study is available with most classes offered exclusively online. Check web site for current listing of courses: http://usaonline.southalabama.edu. The college offers a special track for registered nurses who have bachelors degrees in a field other than nursing and on accelerated track for individuals with a non-nursing baccalaureate degree. Individualized programs of study are also developed for BSN prepared nurses who hold national certification as a nurse practitioner and for MSN prepared nurses who are interested in returning for preparation in a new speciality area.

REQUIREMENTS FOR ADMISSION TO REGULAR M.S.N. PROGRAM
Admission to the graduate program is limited and selective. Students are admitted each semester as space is available in the selected speciality track. Applications should be submitted by April 1 for consideration for fall admission, by September 1 for spring semester admission, and by February 1 for summer semester admission. A $50.00 non-refundable application fee must be submitted with your application. Money orders or personal checks ($20.00 fee on returned checks) are acceptable. Applications received at other times will be considered on a space available basis. It is recommended that prospective students contact the Director of Graduate Studies for more information. Students are admitted to a speciality track and may not change their track without prior permission. Students must be in good standing with all academic institutions/nursing programs that they have attended in order to be admitted to the MSN program. The following criteria supplement the Graduate School admission criteria (see Categories of Admission).

REGULAR ADMISSION
1. Graduate of an approved bachelor’s program with major in nursing.
2. Verification of a course or equivalent in research and health assessment.
4. Submission of Health Data Forms.
5. A grade-point average of 3.0 on all undergraduate work (A=4.00).
   (Note: Prior to enrolling in a merged role nurse practitioner/clinical nurse specialist clinical course, students are required to have at least 2 years experience in an area appropriate to the Speciality track.)
7. Negative drug screen.

Note: An earned graduate degree from any accredited institution of higher education may qualify the applicant for regular standing.

PROVISIONAL ADMISSION
1. Graduate of an approved bachelor’s program with a major in nursing.
2. Verification of a course or equivalent in research and health assessment.
4. Submission of Health Data Forms.
5. A minimal grade-point average of 2.50 on all undergraduate work (A=4.00).
   (Note: Prior to enrolling in a merged role nurse practitioner/clinical nurse specialist clinical course, students are required to have at least 2 years experience in an area appropriate to the Speciality track.)
7. Negative drug screen.

NON-DEGREE ADMISSION
1. Hold bachelor's degree from accredited institution.
2. Current unencumbered registered nurse licensure.
3. A minimal grade-point of 2.50 on all undergraduate work ("A"=4.00)
   Enrollment in selective courses may not be available to non-degree students due to
   class size or required prerequisite.

PROGRESSION FOR THE REGULAR M.S.N.
A maximum of two (2) courses with a grade "C" can be counted towards a degree or
post master's completion program, however, only one (1) "C" is permitted in support
or specialization courses. If a second "C" or lower is earned in a support or
specialization course, the course in which the second "C" or lower is obtained must be
repeated. Any combination of three (3) courses with grades "C" or less (C, D, U, F)
including "C" grades which have been repeated, will result in academic dismissal from
the graduate program. Two courses with a grade "D" or "F" will result in academic
dismissal from the graduate program. Failure to comply with legal, moral, and
legislative standards required for licensure to practice as a registered nurse merits
immediate dismissal from the program.
If a student's progression is interrupted for any reason, it is student's responsibility to
contact the Director of Graduate Studies. Because of limited spaces in the advanced
clinical courses, any alteration in progression may lengthen the student's program.

REQUIREMENTS FOR DEGREE REGULAR M.S.N.
A minimum of 45 semester credits are required for the M.S.N. degree with preparation
in a merged nurse practitioner/clinical nurse specialist track. Preparation in community
health or executive nursing administration requires 34 semester credits for the M.S.N.
degree. Individualized programs of study are developed for baccalaureate prepared
nurses with national certification as a nurse practitioner and post M.S.N. students.
The program offers a thesis or non-thesis option. Students selecting the thesis option
earn up to six credits for the thesis. Students selecting the non-thesis option earn one
credit for a research project experience. Students who do not complete the thesis in
the allocated time must register for additional thesis hours until such work is
completed. These additional hours will not apply towards the degree.

REQUIREMENTS FOR ADMISSION POST M.S.N.
1. Graduate of master's program with a major in nursing.
2. Verification of an undergraduate course or equivalent in health assessment.
3. Current unencumbered registered nurse license.
4. Submission of health data forms.
5. Submission of a resume which documents clinical experience.
   (Note: Prior to enrolling in a merged role nurse practitioner/clinical nurse specialist
   clinical course, students are required to have at least two years experience in an
   area appropriate to the Speciality track.)

PROGRESSION POST M.S.N.
Students follow the progression policies for regular M.S.N. program.

PROGRAM COMPLETION REQUIREMENTS FOR POST M.S.N.
Individualized programs of study are developed for post M.S.N. students. Program
plans are designed to fulfill certification requirements as appropriate to assist students
achieve their professional goals.

REQUIREMENTS FOR ADMISSION TO R.N. - M.S.N. TRACK
A RN-MSN Track for entering the Master of Science in Nursing degree program is
available to persons who are registered nurses and have a baccalaureate degree
from an accredited institution in a discipline other than nursing. Students are admitted
to this track as Provisional Admission; the admissions criteria are the same as for
Provisional Admission to the Regular M.S.N. Program (above) except for #1
(bachelor's degree in nursing).

PROGRESSION FOR R.N. - M.S.N. TRACK
The following undergraduate nursing and specific prerequisite courses must be
completed with a GPA of at least 2.5 prior to enrolling in graduate nursing clinical
courses. Students who have earned a GPA of less than 2.5 on all undergraduate
nursing and prerequisite courses will be academically dismissed from the Graduate
School. Students in the R.N. to M.S.N. track follow the same progression as students
in the regular M.S.N. program.
PROGRAM COMPLETION REQUIREMENTS FOR R.N. - M.S.N.
Students in the R.N. - M.S.N. track follow the same degree requirements and progression policies as students in the regular M.S.N. program with the addition of the following courses.

Prerequisite Courses
Social Science 4 courses
Biological or Physical Science 4 courses
(Including Anatomy/Physiology)
Humanities/Fine Arts 2 courses
Research 1 course

Undergraduate Nursing Courses
NU 410  CMN 420  NU 413  NU 325

ACCELERATED MSN TRACK
The graduation program in the College of Nursing has a special 101 credit accelerated track for individuals with non-nursing baccalaureate degrees. The curriculum can be completed in 24 months of full-time study and prepares the student for licensure as a registered nurse and for a career as a nurse educator or nurse administrator. In the first 12 months student complete undergraduate nursing foundation courses and five graduate "bridge" courses. These five graduate courses "bridge" undergraduate and graduate knowledge in pharmacology, pathophysiology, nursing research, health assessment, and nursing roles and leadership. Courses in the nursing foundation component of the curriculum are equivalent to the curriculum and contact hours required for the traditionally taught BSN degree offered by the College, except that the course schedule is accelerated and is not confined by the traditional academic calendar.

At the end of the 12-month foundation component of the curriculum, students are awarded the BSN degree and are prepared for the RN licensure (NCLEX) examination. Students then begin the 3-semester specialty component of the curriculum to prepare for a career in nursing education or nursing administration. Within the nurse educator track students further select one of the following clinical concentration areas: adult health nursing, maternal-infant nursing, community health nursing, child health nursing, or psychiatric/mental health nursing. Courses for the specialty component of the curriculum are offered online. Clinical requirements are completed in faculty-facilitated preceptorships.

REQUIREMENTS FOR ADMISSION TO THE ACCELERATED MSN TRACK
Admission is selective and competitive. The curriculum is intensive and fast paced. The College of Nursing reserve the right to select students determined to be the best qualified and most likely to succeed in this challenging graduate program in nursing.

1. Graduate of an accredited baccalaureate program with a minimum 3.0 GPA on a 4.0 scale. In accordance with graduate school policy provisional admission may be granted to selected students who do not meet this standard.
2. Completion of all prerequisite course work as listed below with a minimum GPA of 3.0 ("A"=4.0) and no grade less than a "C".

Prerequisite Courses
EH 101
EH 102
Anatomy and Physiology I and Lab
Anatomy and Physiology II and Lab
Microbiology or Infectious Disease
Statistics
Precalculus algebra (or higher)
Chemistry and Lab
General Psychology
3. Submission of completed application by April 1
4. Payment of $50.00 non-refundable application fee
5. Submission of health data form
6. Submission of a negative drug test
7. Submission of resume
8. Interview - after initial review of applications a limited number of applicants will be invited for a personal interview. Verbal and written communication skills will be assessed during the interview.

PROGRESSION FOR THE ACCELERATED M.S.N. TRACK
Students must maintain an overall GPA of 3.0 on all work attempted in the program. A maximum of two (2) courses with a grade of "C" can be counted toward a degree, however, only one "C" is permitted in the specialization courses for the clinical nurse educator or clinical nurse manager or in the following bridge courses; NU 530 Health Assessment, NU 531 Advanced Pathophysiology, and NU 532 Advanced Pharmacology. If a second C is earned in these courses the course in which the second "C" is obtained must be repeated. Any combination of three (3) courses with grades of "C" or less including "C" grades of repeated courses will result in dismissal from the program. During the foundation component of the curriculum, all students are required to pass a midcurricular exam. Students not successful in passing the exam are required to complete a 3 hour directed study course prior to progressing in the curriculum. Students are also required to complete an exit exam as part of NU 460 course requirements. If the student is unsuccessful on the exit exam a grade of "I" will be given for the course and the student must complete additional remedial requirements the next term. Students failing to complete the remedial work will receive an "F" for the NU 460.

A student may withdraw failing from only two courses, the third withdrawal failing results in dismissal. Students are required to apply for registered nurse licensure upon completion of the nursing foundation component of the curriculum and bridge courses. Prior to enrolling in the specialty component of the curriculum, students must possess their RN license or hold a temporary registered nurse license. Any student failing the licensure examination or allowing their temporary permit to expire will be withdrawn from the program.

ADDITIONAL INFORMATION FOR ACCELERATED MSN

Students are admitted as undergraduates for a second bachelors degree during the foundation component of the curriculum (first 12 months). During the first twelve months of the program, tuition is charged at the undergraduate rate for undergraduate courses and at the graduate rate for the five graduate level bridge courses. Financial aid is restricted to the types and amounts for which an undergraduate student is eligible.

Upon satisfactory completion of the foundation component of the curriculum, the student will complete all necessary paperwork for reclassification as a graduate student and will continue through the remainder of the program. During this phase of the curriculum. Financial aid is restricted to the types and amounts for which a graduate student is eligible.

REQUIREMENTS FOR STUDENTS IN PRACTICUM COURSES

All students must submit a completed health data form and provide evidence of required immunizations upon admission. Immunizations must be kept current. Students must also maintain current CPR certification, and RN licensure while enrolled in the program. Students must provide a negative drug test before beginning classes. Random drug screens or testing for reasonable suspicion are conducted. Students must submit to drug testing for controlled substances and background checks. Failure to submit to testing or a positive drug test and/or unsuitable background checks will result in the student's dismissal from clinical courses.

EXPENSES

Students are responsible for purchasing equipment and supplies to be used in the clinical courses. Transportation costs to the clinical sites is the responsibility of the student. Students are charged a fee for professional liability insurance the semester they enter the program and then every fall semester thereafter. Students are responsible for all personal health care expenses including expenses resulting from injury or accident while the student is engaged in learning experiences required by the College of Nursing. Therefore, all students are required to have adequate health care insurance.

GRADUATE ASSISTANTSHIPS

A limited number of graduate assistantships is available to students of full standing. Additional information and an application can be obtained by contacting the College of Nursing graduate office.

PROGRAM OF STUDIES

Students choose from the following options:

OPTION I Advanced Community/ Public Health Care Nursing

OPTION II Executive Nursing Administration

OPTION III Nursing Education

OPTION IV Merged Role Nurse Practitioner/ Clinical Nurse Specialist:
- Advanced Gerontological Nursing
- Advanced Adult Acute Care Nursing
- Advanced Psychiatric/Mental Nursing
- Advanced Family Nursing
- Advanced Women’s Health Nursing
- Advanced Child Health Nursing
- Advanced Infant/Neonatal Nursing

CURRICULUM

OPTION I Advanced Community/Public
Health Care Nursing  
A. Core Courses (9 credits)  
NU 506  3  
HSC 568  3  
B. Research Courses (4 to 6 credits)  
NU 513  3  
or  
NU 599  3  
C. Support Courses (3 credits)

### Descriptions of All Nursing Courses:
- **Nursing (NU)**
- **Adult Health Nursing (AHN)**
- **Community/Mental Health Nursing (CMN)**
School of Continuing Education and Special Programs

The primary mission of the School of Continuing Education and Special Programs is one of advocacy for the adult and non-traditional student in the Metro-Mobile area. This includes providing educational services to individual students as well as to institutional clients. Various formats exist by which the school delivers educational programs to meet its stated mission. Both non-credit and credit programs assist individuals and institutions in meeting their educational objectives.

The Department of Conference Activities and Special Courses provides noncredit courses, conferences and workshops, cultural offerings, lecture series, and special education services projects. Programs are designed to serve the needs of business and industry, help individuals lead more useful lives, challenge the active mind, employ leisure time more wisely, and develop better citizenship.

Noncredit course offerings have included courses in a number of areas: conversational languages, supervision and management, computer literacy and application, art, music, literature, secretarial skills, communication, photography and leisure activities. Continuing Education Units are awarded to individuals attending noncredit courses and other noncredit activities. One CEU is awarded for each ten hours of class contact. Students may receive a certificate indicating that they have completed the course satisfactorily and may request a transcript which includes the noncredit courses, conferences, institutes and workshops they have satisfactorily completed plus the number of CEU's earned for each noncredit activity.

The Department of Interdisciplinary Studies offers the Adult Degree Program and the Interdisciplinary Degree Program. These programs are designed to give students a variety of options in earning a Bachelor's degree tailored to meet their needs and interests. The department also administers the Weekend College, enabling students to take courses from the University's regular curriculum in a weekend format. Evening, weekend, and online courses offer persons who are employed during the day an opportunity to pursue their college education on a part-time basis without interfering with their employment. These courses are the same as those offered during the day in content, quality, and quantity of work required.
The University of South Alabama Brookley Center is a 327-acre campus that includes conference, meeting, and training facilities, lodging, complete dining services including catered events and special functions, administrative offices, and residential housing units. The recreational activities provided are: a swimming pool, jogging areas, and the 18-hole Gulf Pines Golf Course and Clubhouse. The Center offers special programs, seminars, conferences, workshops, and other educational and training programs. The academic units housed on the USA Brookley Center include the Department of Conference Activities and Special Courses, the Department of Emergency Medical Services Training, the Center for Emergency Response Training, and educational leasing facilities. In any given year, the USA Brookley Center will serve between 25,000 and 40,000 people.

UNIVERSITY OF SOUTH ALABAMA BALDWIN COUNTY
Director: Phillip Norris (251) 928-8133
Associate Director: Cindy Wilson
Assistant Director: Linda Garrett Cone
Head of Informational and Library Services: Ann Taylor Blauer
Coordinator of Noncredit Programs: Linda Garrett Cone
Home Page: http://www.southalabama.edu/usabc
E-mail: usabc@usouthal.edu

The University of South Alabama Baldwin County (USABC) campus was created in August, 1984, to meet the upper-division, higher-education needs of one of the fastest growing and most diverse counties in Alabama. The campus is located in downtown Fairhope. The administration building is at 10 North Summit Street and the classroom complex is at the corner of Summit Street and St. James Place.
Academic offerings are concentrated in liberal arts, business, education, emergency medical training, and nursing on the undergraduate level and education courses are offered on the graduate level. The nursing program allows a student who has completed general requirements to complete the bachelor of science in nursing courses in Baldwin County. The Adult Degree Program is an option for students pursuing a bachelor's degree and an advisor is available to assist students in the program. Academic courses at the branch campus are taught by University of South Alabama faculty.
Credit courses are offered during the day and the evening in Fairhope and most courses meet once a week. A computer laboratory is available for student and faculty use. USABC offers noncredit courses to people in the area during the fall and spring semesters.
USABC is committed to providing the same high-quality educational experiences in Baldwin County that are provided on the main campus of the University of South Alabama.

DEPARTMENT OF INTERDISCIPLINARY STUDIES
Chair: Joyce C. Woodruff (251) 460-6263
Professors: Hannum, Wells
Assistant Professors: Bryan, Lauderdale, Norris, Wilson, Woodruff
Academic Advisors: Fishman, Cone (USABC)
Academic Counselor: Organic
Interdisciplinary Degree Program Director: Bryan
Home Page: www.southalabama.edu/ais
E-mail: ais@usouthal.edu

The Department of Interdisciplinary Studies provides opportunities for students through two flexible, individually designed interdisciplinary degree programs: the Adult Degree Program (ADP) and the Interdisciplinary Degree Program (IDP), and Weekend College, a coordinated effort to offer University courses during weekend hours.

ADULT DEGREE PROGRAM
Adult students frequently have unique goals, along with other primary life responsibilities, that necessitate a more flexible approach to the design of learning experiences, the scheduling of classes, and the formulation of a program of study. To meet these needs, the Adult Degree Program offers a major in Interdisciplinary Studies leading to the Bachelor of Arts or Bachelor of Science degree.

Upon completion of the baccalaureate, ADP graduates should be able to:

1) Understand and appreciate the interdisciplinary approach to learning;
2) Clarify their educational and professional goals and plan a program of study to achieve those goals;
3) Express themselves effectively orally and in writing;
4) Understand and apply knowledge of adult development personally and professionally;
5) Appreciate individual and cultural differences and collaborate effectively with colleagues of diverse backgrounds;
6) Identify and articulate important questions and problems related to their interests, education, and career development, and to execute research strategies for discovering viable solutions;
7) Organize and present research findings effectively;
8) Complete an individualized degree program of study that meets their educational and professional needs.

Students applying to the Adult Degree Program must satisfy general requirements for admission to the University of South Alabama (see “Admission to the University”). In addition, applicants must be at least twenty-five years of age or fulfill the following definition of an adult learner: someone who has assumed major responsibilities and/or commitments of adulthood (work, family, community), who is operating independently in society, and whose principal identity is other than that of a full-time student.

Each adult student’s individualized, interdisciplinary program of study is planned in consultation with an academic advisor. Students choose one of the following concentrations of study: Administrative Sciences, Liberal Studies, Applied Sciences, Applied Arts, Human Services, Community Services, or Professional Development. All programs of study must consist of a minimum of 128 credit hours. Course requirements necessitate that students be enrolled in the program for a minimum of three terms before graduation.

The degree program begins with a required three semester hour foundation course, AIS 101: “Theories and Principles of Adult Learning” or AIS 301: “Adult Learning—Critical Reflections.” All students must satisfy the University’s general education requirements (See “Academic Policies and Procedures”). In addition to the general requirements, each student must complete 15 hours of general competencies (CIS 150 or its equivalent, an advanced writing course such as EH 372 or MGT 305, a statistics course such as ST 210 or AIS 300, a course in adult development such as AIS 401 or SY 220, and a course in cultural diversity such as AIS 320 or EDF 315) and an individualized 54-hour concentration, with at least 30 hours from upper division courses. The concentration, designed in consultation with an academic advisor, must include at least three disciplines, each of which must be represented by a minimum of 12 credit hours of appropriate course work (6 of which must be 300-400 level), relevant supporting courses, and a senior project (see AIS 430 course description). The concentration forms part of the graduation plan, which all majors must submit to the Interdisciplinary Studies department for approval by their senior year.

A minimum grade-point average of 2.00 in all course work undertaken at the University of South Alabama and a minimum grade-point average of 2.00 in the concentration are required for graduation.

Students with a 3.5 overall GPA and 60 hours of credit from USA are encouraged to apply for departmental honors at the beginning of their senior year. Contact the department for specific honors requirements.

INTERDISCIPLINARY DEGREE PROGRAM

The Interdisciplinary Degree Program (IDP) is designed for traditional students who have educational and career goals that cannot be met through traditional academic majors. In the Interdisciplinary Degree Program students can choose from seven concentrations: Administrative Sciences, Applied Arts, Applied Sciences, Community Services, Human Services, Liberal Arts, or Professional Development, leading to a Bachelor of Arts or Bachelor of Science degree with a major in Interdisciplinary Studies. All programs of study must consist of a minimum of 128 credit hours. Upon completion of the degree, IDP graduates should be able to:

http://www.southalabama.edu/bulletin/bulletin0506/continue.htm (3 of 12)7/14/2005 11:37:38 AM
1. Understand and appreciate the interdisciplinary approach to learning.
2. Have the competence to determine, clarify, and plan a course of study that will meet their continuing educational and career needs and goals.
3. Have the ability to think critically and express themselves effectively orally and in writing.
4. Understand and apply knowledge of human development personally and professionally.
5. Appreciate individual and cultural differences and collaborate effectively with others.
6. Demonstrate competence in various concentrations that are tailored to their educational and career goals.

Students applying to the Interdisciplinary Degree Program must satisfy general requirements for admission to the University of South Alabama (see "Admission to the University") and must complete an interview with the program director. The student's individualized program of study is planned in consultation with the director and must be approved by the Department of Interdisciplinary Studies.

Each student enrolled in the Interdisciplinary Degree Program must satisfy the University's general education requirements (see "Academic Policies and Procedures"), a 3 hour foundation course, and 15 hours of competencies in computer applications, applied statistics, advanced writing, human development, and cultural diversity. The student's concentration consists of a minimum of 54 hours from three related disciplines, with at least 30 hours from upper division courses. One discipline must be represented by a minimum of 15 hours, 9 of which must be upper division. The other two disciplines must each be represented by a minimum of 12 hours, 6 of which must be upper division. Additional requirements include 6 hours of internship or a senior project. Remaining coursework in the concentration may be from the disciplines or relevant supporting courses.

A minimum grade-point average of 2.00 in all coursework undertaken at the University of South Alabama and a minimum grade-point average of 2.00 in the concentration are required for graduation.

Qualified students may participate in the University Honors Program (see "Honors Program"). Students with a 3.5 overall GPA and 60 hours credit from USA are encouraged to apply for IST departmental honors at the beginning of their senior year. To receive department honors, an honors senior project must be completed. Contact the IST department for specific honors requirements.

**WEEKEND COLLEGE**

The University of South Alabama offers courses from its regular curriculum on the weekend. These courses are taught by University faculty and are adapted to the weekend format to provide flexible scheduling options for nontraditional students. The Weekend College program is coordinated through the Department of Interdisciplinary Studies. The scheduling of classes is done by the appropriate departments and colleges.

**PRIOR LEARNING ASSESSMENT CENTER**

The Prior Learning Assessment Center, housed in the AIS Department, serves as a central location where potential and enrolled USA students can obtain information and advising on programs available at the University for the assessment of experiential and non-collegiate-sponsored learning. The center is also the primary academic unit responsible for the coordination and administration of the prior learning assessment by portfolio program.

**DESCRIPTIONS OF ADULT INTERDISCIPLINARY STUDIES COURSES**

**DEPARTMENT OF CONFERENCE ACTIVITIES AND SPECIAL COURSES**

Chair: Martha M. Matherne (251) 431-6411
Program Directors: Sue Allison, Virtie Bell, Laurent Cadden, Carolyn Dunnam, Julia McKinnell, Patricia Miles
Marketing Specialist: Lovelace Cook
Home Page: [http://www.southalabama.edu/casc](http://www.southalabama.edu/casc)
Serving as a community outreach arm of the University of South Alabama’s School of Continuing Education and Special Programs, the Department of Conference Activities and Special Courses provides a wide range of noncredit educational opportunities designed to meet the needs of both specialized organizations and individuals. Located at the USA Brookley campus, this department reaches numerous groups, including business and industry, health care providers, governmental agencies, and individuals seeking personal enrichment or career enhancement.

PROFESSIONAL DEVELOPMENT SEMINARS, WORKSHOPS, AND CONFERENCES
Programs emphasize education and training for the working professional in the form of seminars, workshops, conferences, and in-house programs. University faculty as well as local and national experts from many fields actively participate in the development and instruction of these programs. Additionally, conferences focusing on specific topics of interest, such as alcohol and drug abuse, are offered annually.

Seminars and workshops are offered on an open-enrollment and an in-house (contract) basis. Open-enrollment programs are designed to meet the training and development needs of a variety of organizations. Program participants are drawn from throughout the region and the nation. In-house (contract) training programs are designed to meet the education and training needs of a specific organization. Services include needs assessment, course development and delivery of training. USA instructional resources travel throughout the country to deliver these programs at sites selected by the contacting organization. Topics include supervision, communication, management, information technology certification training, computer software applications, business and technical writing.

SPECIAL COURSES
Special Courses are noncredit, short courses designed with the concept of lifelong learning in mind. Personal enrichment, career development, and general educational enhancement for individuals throughout the community are offered during spring, summer, fall, and winter terms each year. Most courses are held during evening or weekend hours once or twice a week for a period of four to eight weeks.

Topics offered include art, music, dance, health and fitness, languages, cooking, and other fields concerned with improving the quality of life. Several certificate programs are also offered for individuals seeking vocational development in areas such as data processing, paralegal, secretarial, accounting, medical office management, photography, and administrative careers. Academic examination review classes are also offered, including ACT and SAT reviews for high school students and GRE, GMAT, LSAT, and LPC reviews for college graduates.

PROGRAMS FOR MATURE LEARNERS
Elderhostel is a national residential program designed for individuals over the age of 55. Participants’ length of stay is one week during which they take a variety of classes similar to those offered through Special Courses. Educational content is diverse and utilizes both USA faculty and local experts. USA is an Elderhostel super-site offering over 90 programs annually.

Odyssey USA is a self-managed study program for mature learners in the local community. It is affiliated with the Elderhostel Institute Network, an organization formed in 1988 to encourage the lifelong learning movement at a national level. An Executive Board of elected members provides leadership for issues relating to curriculum development and the operation of the organization.

PROGRAMS FOR YOUTH
The USA Camps Program has a dual purpose. It manages most camps sponsored by the University of South Alabama and facilitates all non-University camps utilizing USA’s facilities and services. The goal is to provide educational opportunities for the mental and physical development of young people.

OTHER OPPORTUNITIES
The Department of Conference Activities and Special Courses facility at the USA Brookley Center houses its computer laboratory. The lab is used for workshops and short courses sponsored by the University. It is also available, on a rental basis, to organizations conducting their own training.
Suitcase Studies combines the ease and enjoyment of group travel with a dynamic educational focus. Faculty escorts and local specialists share insights about the cultural, historical and geographic aspects of the destination.

DEPARTMENT OF DEVELOPMENTAL STUDIES

Chair: Dorothy C. Mollise (251) 460-7155  
Associate Professor: Mollise  
Instructors: Bru, Matthews, Rowe  
Academic Advisor: LaDora Howard  
Web Page: [http://www.southalabama.edu/developmentalstudiesprogram](http://www.southalabama.edu/developmentalstudiesprogram)

The Mission of the Developmental Studies Program is to produce courses and instructional support services of excellence that address the special needs of the people it serves, students with deficiencies in their preparation for collegiate study and other students in transition to the University. The courses and services offered to underprepared and transitional students, whether Developmental Studies or regular admission students, provide them with opportunities to strengthen the basic skills necessary for academic success; to explore career options and preparation; to access campus activities, programs, and services; and to become active participants in the University community.

Students admitted to the University through the Developmental Studies Program (DSP) typically do not have the high school grades or ACT (or SAT) scores generally required for college admission but have shown a potential for academic success in an institution of higher education. Students admitted to Developmental Studies are required to complete CP 150 Study Skills and College Reading, DS 014 Writing, and a mathematics sequence: DS 081 Prealgebra, DS 083 Elementary Algebra, and DS 084 Intermediate Algebra. Each student's first required mathematics course is determined by placement testing conducted during Orientation. The mathematics courses have required labs in the program's computer learning lab, a valuable resource for students. All DS courses include information on study techniques and general coping strategies necessary for college success. Classes are small and tutoring is provided.

Acceptances to the program are limited. DS courses are also open to University students who are not admitted through the Developmental Studies Program.

CP courses are degree credit courses. Credits earned in DS courses do not meet degree requirements within the University; however, credits earned do carry institutional nondegree credit and allow students to qualify for financial aid.

Grades earned are computed into the overall GPA in most colleges and hours are counted toward classification (sophomore, etc.).

ADMISSIONS

Applicants must follow the general University admission policies and procedures. The Office of Admissions uses the following criteria for ACT composite scores and high school grade point averages.

<table>
<thead>
<tr>
<th>ACT Composite Score</th>
<th>High School GPA</th>
<th>Admission Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>18</td>
<td>2.50 or greater</td>
<td>Regular Admission</td>

PROMOTION AND COMPLETION POLICIES

Students admitted to the Developmental Studies Program are advised by the DSP Academic Advisor, and their records remain in the Department of Developmental Studies for a minimum of two semesters. During this time, progress is closely monitored; evaluation by instructors and the Academic Advisor is ongoing. Student records are released to the major department after all program requirements have been successfully completed and the student has attained a cumulative GPA of at least 2.00. Students may take approved academic courses applicable toward a degree while enrolled in the Developmental Studies Program. Required Developmental Studies Program courses must be taken each semester until program requirements have been met. DSP courses carry grades of "A", "B", "C", or "F". Developmental Studies students must repeat any required DSP courses in which a passing grade is not received.
NEW STUDENT SEMINAR
The University's ESSENCE Program provides freshmen the opportunity to participate in activities designed to ease the transition to the University. One component of the program is CP 100, New Student Seminar. This course for first-time students assists with maximizing the student’s potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by college life.

CAREER PLANNING AND DEVELOPMENT
Career Planning and Development is a university-wide program offered under the aegis of the School of Continuing Education and Special Programs. The career courses are open to all students for credit. There are no prerequisites for CP 150, 250 and 450.

The Career Program is designed to achieve four objectives: (1) to help students begin their academic careers with the skills necessary for college success; (2) to provide occupational exposure to students who plan to enter medicine, dentistry, optometry, pharmacy, or veterinary medicine; (3) to assist students who are uncertain as to a career or a major; and (4) to help students, especially those in the liberal arts, launch their careers by obtaining suitable employment upon graduation, or to help students plan and develop their graduate or professional education.

CP 150, Study Skills and College Reading, is designed to help students achieve the first objective by providing them with the study techniques, college reading strategies, and critical thinking skills necessary for success in their academic careers.

CP 200, Clinical Observation, is designed to help students achieve the second objective by providing them with actual experience in these health care fields so that they may determine whether or not they are suited for the careers they have chosen.

CP 250, Career Planning and Development, is designed to help students achieve the third objective. Through the use of psychological testing and systematic self evaluation, as well as the study of occupations and occupational trends, students are aided in selecting a suitable career.

CP 450, The Job Campaign, is designed to help students achieve the fourth objective. In this course, emphasis is placed on developing strategies for obtaining suitable positions and making career choices based on decision theory.

DESCRIPTIONS OF CAREER PLANNING (CP) COURSES

UNIVERSITY WRITING CENTER
The University Writing Center, located in Alpha Hall East, provides assistance in writing to any student enrolled in classes on any of the University’s campuses. Students work with writing consultants one-on-one in a relaxed, informal setting to improve their writing skills. The consulting schedule varies slightly from semester to semester, but information may be obtained by calling (251)460-6480.

DEPARTMENT OF EMERGENCY MEDICAL SERVICES (EMS) EDUCATION
Chair: David W. Burns, M.P.H. (251) 431-6418
Program Directors: Garmon, Parker
Medical Director: Frank S. Pettyjohn, M.D.
Instructors: Burns, Curry, Garmon, Parker, Varner
Academic Advisors: Burns, Curry, Garmon, Parker, Varner
Part-time Instructors: Vinson, Sims
Clinical Coordinator: Erwin
CME Coordinator: Faggard
Home Page: http://www.southalabama.edu/ems
The University of South Alabama Department of EMS Education offers two academic certificate programs for students interested in pursuing a career in the field of emergency medical services (EMS). The Department provides this education and training at two nationally established levels of competency: EMT Basic and Paramedic. Successful completion of the EMT Basic program (which can be completed in one academic semester) is a prerequisite to the Paramedic program. Together, both programs can be completed in six semesters. Students may, however, elect to complete only the EMT Basic level of training. After successful completion of each level of training, the student is eligible to sit for the National Registry of EMT’s (NREMT) certification examination. Successful completion of this examination is mandatory for licensure to practice in the State of Alabama. Those who complete both levels of training and certification are qualified to work in many areas of out-of-hospital emergency medical care, including ambulance services, fire rescue departments, and industrial health and safety settings. Some graduates are welcome additions to hospital staffs.

Students desiring to pursue a bachelor’s degree with an emphasis in emergency medical services may do so through a cooperative arrangement between the Department of Interdisciplinary Studies (IST) and the Department of Emergency Medical Services Education. Students interested in a Bachelor’s degree should consult a representative from the Department of Interdisciplinary Studies.

PROFESSIONAL ACCREDITATION

The department’s Paramedic Program is fully accredited by the Commission on the Accreditation of Allied Health Education Programs (CAAHEP) and the Committee on Accreditation of Educational Programs for the EMS Professions (CoAEMSP).

ADMISSIONS

Criteria for general admission of EMT Basic students to the University are the same as those for all students.

PROGRESSION AND COMPLETION POLICIES

To progress throughout the Program, a minimum final grade of 80% (or satisfactory, if applicable) must be achieved in each course. The State of Alabama mandates the National Registry of EMT’s examination at both the EMT Basic and Paramedic levels of practice. Only those students who have met all academic requirements of the Program will be eligible to sit for the National Registry examination.

Students unable to satisfactorily complete the final comprehensive examinations in EMT 495 will be required to repeat this course the following semester.

Students will be allowed to repeat a course only one time.

In accordance with State EMS Rules, each student must be a state licensed EMT Basic prior to beginning his or her second semester of paramedic (third semester overall) instruction.

All other criteria for progression will be listed in each course syllabus and will be mandatory.

CLASS AND CLINICAL INTERNSHIPS

Attendance is mandatory. Those students who have conflicts regarding attendance will be asked to transfer to programs more suited to their schedules.

EXPENSES

Students enrolled in the EMT Basic or Paramedic program must maintain current Healthcare Provider (CPR) certification and must keep all immunizations current. Students are responsible for all personal health care expenses including expenses resulting from injury or accidents, while engaged in learning experiences required by the Department of EMS Education. All students are charged once a year for professional liability insurance. All students are responsible for all travel expenses to and from clinical and field internship sites. Students are responsible for purchase of uniforms and required clinical equipment and supplies for internships. Tuition and fees are set by the University of South Alabama, upon approval of the Board of Trustees.

CURRICULUM
The basis for the curriculum is the current Department of Transportation National Standard curriculum for the EMT Basic (1994) and Paramedic (1999).

**EMT BASIC PROGRAM**

**First Semester**
- EMT 200: Basic Emergency Care 6
- EMT 205: Basic Clinical Internship 1
- EMT 206: Basic Skills Labs 1

**Paramedic Program Corequisites**
- EMT 210: Medical Terminology 3
- EH 101: English Comp. 3
- MA 110: Finite Math 3

**PARAMEDIC PROGRAM**

**Second Semester**
- EMT 310: Human Systems/Disease Process 3
- EMT 335: Essentials of Paramedicine 3
- EMT 315: EMS Pharmacology I 3

**Third Semester**
- EMT 345: EMS Pharmacology II 3
- EMT 340: Intro to EMS Cardiology 3
- EMT 350: Patient Assessment and Management 3

**Fourth Semester**
- EMT 355: Paramedic Emergency Care I 3
- EMT 375: Women and Children 3
- EMT 425: Paramedic Emergency Care II 3

**Fifth Semester**
- EMT 455: Paramedic Skills Lab 3
- EMT 465: Paramedic Clinical 6

**Sixth Semester**
- EMT 440: EMS Operations/Special Consid. 3
- EMT 475: Paramedic Field Internship 6
- EMT 495: Comprehensive Review and Exams 1

**SPECIAL NOTES**

Academic advising is required of all new and existing students prior to each semester. It is the responsibility of each student to schedule an advising session with his or her academic advisor prior to registration each semester.

All students must successfully complete all 200 and 300 level EMT course work prior to enrolling in EMT 455 and EMT 465. Also, students must successfully complete EMT 425, 455 and 465 prior to enrolling in EMT 475 or 495.

**DESCRIPTIONS OF EMERGENCY MEDICAL TRAINING (EMT) COURSES**

**THE CENTER FOR EMERGENCY RESPONSE TRAINING**

Director: David W. Burns, MPH (251) 431-6527
Program Coordinator: Maxwell
Instructors: Howell, Maxwell, Norton, Phillips, Vaughan
Home Page: [http://www.southalabama.edu/ems/cert](http://www.southalabama.edu/ems/cert)
The University of South Alabama’s Center for Emergency Response Training (CERT) serves industry, government and other agencies with state-of-the-art instruction in the handling of hazardous materials and emergency spills. Much of the training is mandated by federal and state laws and CERT’s programs follow the guidelines set forth by the Occupational Safety and Health Administration, the Environmental Protection Agency and the Department of Transportation, among others. As part of the School of Continuing Education and Special Programs, the Center’s staff works directly with industry and other emergency response groups to customize the training to their specific workplace hazards, through academic classroom instruction and practical “hands-on” scenarios.

Overlooking historic Mobile Bay at USA Brookley, the CERT lab has an impressive array of “real-world” training devices, including actual industry props and transportation and confined space mock-ups. One of the best training fields in the area, it provides an ideal environment for intensive scenario training, allowing CERT instructors to expose students to seemingly real hazardous materials situations. While challenging, students often note the “hands-on” portion of the programs as a highlight of their course work.

CERT students receive certificates of completion and continuing education units for their participation. Upon request, CERT will attempt to register C.E.U.s with specific groups and organizations. The State of Alabama Emergency Medical Services Division, along with other state agencies, has approved CERT’s program for elective continuing education units.

Below are CERT’s main course offerings. However, the Center’s staff is always glad to develop new curricula and deliver training tailored to a client’s individual needs.

HAZWOPER TRAINING - Hazardous Waste Operations and Emergency Response
29 CFR 1910.120

HAZARDOUS MATERIALS TECHNICIAN
40 hours
For individuals who respond to releases of hazardous substances for the purpose of stopping the release and/or workers who regularly participate in activities conducted on hazardous waste sites who may be required to wear personal protective equipment.

HAZWOPER ANNUAL REFRESHERS
8 hours
Designed as an annual refresher for those who have completed Hazardous Materials Technician training.

INCIDENT COMMAND
8 hours - Prerequisite: Hazardous Materials Technician (40 hours)
For incident commanders who will assume control of the incident beyond the first responder level.

TECHNICAL RESCUE LEVEL I (24 hours)
For industrial, public safety and military emergency responders. Course topics will include Site Operations, Victim Management, Maintenance and Ropes/Rigging, among others. The student will demonstrate competency in all job performance requirements in NFPA’s “Standard for Rescue Technician Professional Qualifications”: (NFPA 1006), to include the job performance requirements for at least one specialty area, such as confined space rescue.

TECHNICAL RESCUE LEVEL II (24 hours)
Designed to provide additional rescue skills for students who have completed the Rescue Technician Course (Basic Rescue Techniques), with an emphasis in confined space or high angle rescue. Prerequisite: Technical Rescue - Level I

CONFINED SPACE REFRESHERS
8 hours

DEPARTMENT OF ENGLISH AS A SECOND LANGUAGE (English Language Center)

Director: Frank Daugherty, Coordinator
(251) 460-7185; FAX: (251) 460-7201
Instructors: Basque, Daugherty, Faircloth, Habib
The English Language Center provides intensive English-language instruction to individuals whose native language is not English. Matriculation in these courses is limited to international students of the University, to students of the English Language Center and to any resident internationals who wish to take one or more courses as students through the Continuing Education office of the University. A variety of courses is offered each semester. ESL courses MAY NOT be substituted for EH 101 or 102 requirements. All required ESL composition courses must be completed BEFORE the student may register for EH 101 or 102. Credits earned in the English Language Center will not be acceptable toward meeting degree requirements within the University. However, ESL courses may be counted as part of the 12-hour course load required of F-1 students and may be taken as electives by students wishing to improve their proficiency in English.

DESCRIPTIONS OF ALL ENGLISH AS A SECOND LANGUAGE (ESL) COURSES

INTERNATIONAL PROGRAMS AND DEVELOPMENT

Director: Dr. Robert J. Fomaro (251) 460-7053
FAX: (251) 460-6228
E-mail: Intprog@jaguar1.usouthal.edu
Program Coordinator: Ana C. Burgamy
Home Page: www.southalabama.edu/intlprograms

The International Programs and Development Office, an administrative unit of Academic Affairs and the School of Continuing Education and Special Programs, is responsible for the coordination and oversight of University international activity, e.g., academic programs and projects beyond U.S. territorial limits involving University faculty, students or staff. All existing or proposed international programs, exchanges, contracts and grants are reviewed and registered with the Office of International Programs. The director chairs the University International Affairs Committee, whose members are appointed by the President of the University and charged with disseminating information, guiding policy and planning. In addition, the Director of International Programs works directly with University deans, division heads and directors responsible for curriculum and faculty development.

The Office of International Programs and Development administers all University Programs Abroad, including the Alumni Travel Programs.

The resources of the Office of International Programs and Development are available to local governmental and community organizations that foster international cooperation and understanding.

All USA students going to study abroad must contact the Office of International Programs for information on the required paperwork, etc.

COOPERATIVE EDUCATION PROGRAM

Director: Allan McPeak, Ph.D. (251) 460-6188

The Cooperative Education Program enables students to combine classroom studies and paid work experience related to their major field of study. Practical experience is available in industrial, business, governmental, or service organizations. Undergraduate students may apply at the Career Services Center to enter the Cooperative Education Program when they have completed 12 credit hours, and attained a cumulative grade-point average of 2.3 or above. They must have at least three semesters remaining before graduation and be full-time students upon commencement of participation in the program. Graduate students may apply to enter the Career Experience Opportunities Program after they are accepted into a graduate program.

Option 1: Parallel Cooperative Education: Students work part-time, usually 15 to 20 hours per week, while attending classes for a minimum of 12 academic credit hours per semester throughout the calendar year.
Option 2: Alternating Cooperative Education: Students work full-time one semester and attend classes full-time the following semester on a rotating schedule until graduation. The work assignment is usually shared by a pair of students on an alternating basis. Prerequisites for participation in the Cooperative Education Program include attending the Employability Skills Seminar offered continuously by Career Services and payment of the materials fee in effect at the time of application for the program. To remain in the program, students must maintain good academic standing, a cumulative grade-point average of 2.3 or above, and comply with the policies and procedures of the employer and the Cooperative Education Program.

Option 3: Engineering Cooperative Education - The Five Year Plan: This program allows the student to gain valuable engineering experience as he or she pursues his or her degree. The freshman year is spent as a full-time student at the university. During the sophomore and junior years the student alternates working full-time with an excellent salary for one semester and taking full-time course work the next semester. The student returns to school full-time for the senior year. This program offers many advantages for the student. Interested students should consult with either Career Services or the College of Engineering.

DESCRIPTIONS OF ALL COOPERATIVE EDUCATION (COE) COURSES
SCHOOL OF COMPUTER AND INFORMATION SCIENCES

Dean: David L. Feinstein (251) 460-6390
Director, CIS Graduate Studies: R. J. Daigle
Coordinators: Daigle (ISC), Doran (CSC), Owen (ITE)
Professors: Daigle, Doran, Feinstein, Longenecker
Associate Professors: Hain, Langan, Owen, Pardue, Simmons
Assistant Professors: Johnsten, Landry, Moulton, Sweeney, Zhou
Instructors: Black, Chapman, Clark, Denton, Johnson, McKinney, Ward

School of Computer and Information Sciences web site
http://www.cis.usouthal.edu

The School of Computer and Information Sciences (CIS) provides a stimulating curriculum which includes a variety of courses for students in many disciplines, as well as for citizens in the business and industrial community.

MISSION STATEMENT
The School Mission Statement states:
The School of Computer and Information Sciences prepares graduates who are professionally competent, motivated to lifelong learning, and demonstrate ethical behavior in the computing sciences.
The School of Computer and Information Sciences provides an atmosphere for faculty to demonstrate research and teaching excellence.
The School of Computer and Information Sciences provides service in the computing sciences to our community and discipline.

CIS MAJORS
CIS majors must elect course work in one of three areas of specialization:
1. Computer Science (CSC)
2. Information Systems (ISC), or
3. Information Technology (ITE)

A joint program with the College of Engineering leading to the Bachelor of Science in Computer Engineering (CpE) is also offered. The Computing Accreditation Commission (CSC) of the Accreditation Board for Engineering and Technology, Inc. (ABET) has accredited the Computer Science and the Information Systems specializations.

COMPUTER SCIENCE (CSC):
Computer Science is a discipline that involves the understanding and design of computers and computational processes. In its most general form, it is concerned with the understanding of information transfer and transformation. Particular interest is placed on making processes efficient and endowing them with some form of intelligence. The discipline includes both advancing the fundamental understanding of algorithms and information processes in general, as well as the practical design of efficient, reliable software to meet given specifications.

INFORMATION SYSTEMS (ISC):
Computer-based information systems have become a critical part of products, services, and management of organizations. The Information Systems discipline centers on the development of systems that will improve the performance of people in organizations. Information systems are vital to problem identification, analysis, and decision making at all levels of management. Information Systems professionals must analyze the evolving role of information and organizational processes. Their work includes the design, implementation and maintenance of the information systems that form the backbone of today’s global economy.
INFORMATION TECHNOLOGY (ITE):
Information technology professionals utilize state-of-the-art, computer-based tools to deliver today’s rapidly evolving computing technology to knowledge workers in widely diverse situations. The information technologist must be prepared to work in the complex network and World-Wide-Web environments to meet the needs of the end users in today’s organizations. These tasks require bringing solutions together using the different technologies developed by the computer engineers, computer scientists, and information scientists.

ADMISSION TO THE DEGREE PROGRAM AND COURSES
Admission to the University of South Alabama constitutes admission to the School.

GENERAL REQUIREMENTS FOR THE DEGREE OF BACHELOR OF SCIENCE IN COMPUTER AND INFORMATION SCIENCES
Candidates for this degree must complete one of the three specializations: Computer Science, Information Systems, or Information Technology. Under special circumstances, and with approval of the Dean, a student may select a unique specialization in which the general Philosophy and requirements of the program are not violated.

All undergraduate students in the School of Computer and Information Sciences must comply with the University’s general education requirements, see Academic Policies and Procedures. Although these requirements are not specifically organized according to the four general education areas, each of the specializations, Computer Science, Information Systems, and Information Technology, incorporates the general education requirements within the published programs.

In addition to an overall grade-point average of 2.0, all courses in the major, including Professional Component courses and prerequisites, must be passed with a minimum grade of “C.” Any course taken at the University of South Alabama with a grade of “D” or “F” may be retaken only at the University of South Alabama.

Any courses taken at another institution to meet degree requirements must have prior approval of the School of Computer and Information Sciences Dean. Failure to obtain prior approval may result in loss of transfer credit for the course work.

COMPUTER OWNERSHIP POLICY
All students enrolling in any undergraduate or graduate courses offered by the School of CIS except for CIS 110, CIS 150, CIS 210, CIS 211, CIS 227, CIS 250 and CIS 500, are required to own a personal laptop computer system that conforms to the current School minimum published standards. This is a one-student one-machine requirement. For more information consult Links for Students, Resources, Policies at www.cis.usouthal.edu.

TRANSFER STUDENTS
Transfer students must complete at least eighteen (18) credit hours of work at the 300-level or above at this University, in courses in their specialization. Students who receive credit for CIS 110, Introduction to Computer and Information Sciences are required to take CIS 100, Information Technology in Society.

FIVE-YEAR COMBINED BACHELORS AND MASTERS DEGREE PROGRAMS
Qualified students may enroll in a program that results in both a bachelors degree and a masters degree. Students in this program will normally complete the B.S. degree in four (4) years and complete the M.S. Degree in one (1) additional calendar year. Admission to the program is competitive. Students must apply in the second semester of their junior year. Minimum requirements are a 3.25 GPA and a composite score of 1100 on the verbal and quantitative portions of the Graduate Record Examination (GRE) with neither score below 400. Financial aid is available to students admitted to the program.

CHOICE OF CATALOGUE UNDER WHICH A STUDENT GRADUATES
Students entering the CIS program may choose any catalogue from their entry date to their time of graduation. This applies for entering freshmen and transfer students. Students at the University of South Alabama changing their specialization in CIS, changing their major to CIS or who interrupt their program for more than one calendar year are considered new students with respect to catalogue selection.

PROFESSIONAL COMPONENT
Upper division courses require Professional Component Standing (PCS). These courses must be completed with a minimum grade of "C" and are designated by the symbol PC for each specialization.

PROFICIENCY EXAMINATION
A proficiency examination is administered by the School of Computer and Information Sciences for placement in 250.

REQUIREMENTS FOR THE COMPUTER SCIENCE SPECIALIZATION (CSC)

1. COMMUNICATION - Fifteen (15) credit hours are required as follows:
   - PC EH 101 *English Composition I
   - PC EH 102 English Composition II
   - PC CA 110 Public Speaking
   - PC CA 275 Small Group Communications And
     EH 372 Technical Writing

2. THE FINE AND PERFORMING ARTS AND THE HUMANITIES - Twelve (12) credit hours are required consisting of:
   a. one course from Art, Drama, Foreign Languages, Music and Philosophy,
   b. one course from Literature,
   c. one additional course from Art, Drama, Foreign Languages, Music, Philosophy and Literature, And
   d. PC PHL 121- Introduction to Logic
   Two courses in the SOCIAL SCIENCES or HUMANITIES must be either a Literature or History sequence as enumerated here.

3. THE SOCIAL SCIENCES - Twelve (12) credit hours are required from the following approved areas: Anthropology, Criminal Justice, Economics, Geography, History, Political Science, Psychology, and Sociology.

Two courses in the SOCIAL SCIENCES or HUMANITIES must be either a Literature or History sequence as enumerated here.

4. THE NATURAL SCIENCES - Sixteen (16) credit hours are required. Complete one of the following sequences and two additional courses from the sequences:
   A. PH 201 Cal-Based Physics I and
      PH 202 Cal-Based Physics II.
   B. CH 131 Chemistry I and
      CH 132 Chemistry II.
   C. GY 111 Geology I and
      GY 112 Geology II.
   D. BLY 121 Biology I and
      BLY 122 Biology II.
   E. MET341 Climatology and
      MET353 General Meteorology.
   Or
   F. Advanced courses beyond the sequences.

5. MATHEMATICS AND STATISTICS' Seventeen (17) credit hours are required as follows:
   - PC MA 125 Calculus I
   - PC MA 126 Calculus II
   - PC MA 267 Discrete Math
   Or
   - PC MA 367 Combinatorial Enumeration, and
     ST 315 Statistics
   Three (3) additional hours from the approved math minor courses.

6. CORE COURSES - Forty-six (46) credit hours are required as follows:
   - PC CIS 110 Intro to Computer & Info Science
   - PC CIS 120 Problem Solving and Prog Concepts I
   - PC CIS 121 Problem Solving and Prog Concepts II
   - PC CIS 230 Adv Data and File Structures
   - PC CIS 231 Software Engineering Prin
   - PC CSC228 Digital Logic and Comp Architecture
   - CIS 321 Data Communications and Networking
   - CIS 322 Operating Systems
   - CIS 324 Database Design, Development, & Management
   - CIS 497 Senior Project I (W)
   - CIS 498 Senior Project II (W)
   - CSC320 Computer Organization and Architecture
7. **CIS ELECTIVES** - Nine (9) credit hours are required. Select any three (3) of the following courses:

- CSC 410 Compiler Design & Const
- CSC 411 Comm & Network Analysis
- CSC 412 Real-Time Systems
- CSC 413 Computer Graphics
- CSC 414 Modeling and Simulation
- CSC 415 Numerical Analysis
- CSC 433 Artificial intelligence
- CIS 439 Windows Programming
- ITE 474 Human Computer Interface

8. **GENERAL STUDIES ELECTIVES** - Hours as needed to meet degree and 128 semester - hour requirement. All General Studies Electives must be approved by the Computer Science Coordinator.

*Students with a sufficient ACT/SAT score in English Composition will not be required to take EH 101.*

### REQUIREMENTS FOR THE INFORMATION SYSTEMS SPECIALIZATION (ISC)

1. **COMMUNICATION** - Fifteen (15) credit hours are required as follows:

- PC EH 101  *English Composition I*
- PC EH 102  English Composition II
- PC CA 110  Public Speaking
- PC CA 275  Small Group Communications

And

- EH 372  Technical Writing

2. **THE FINE AND PERFORMING ARTS AND THE HUMANITIES** - Nine (9) credit hours are required consisting of:

a. one course from Art, Drama, Foreign Languages, Music and Philosophy,

b. one course from Literature,

And

c. one additional course from Art, Drama, Foreign Languages, Music, Philosophy and Literature. Two courses in the SOCIAL SCIENCES or HUMANITIES must be either a Literature or History sequence as it is enumerated [here](http://www.southalabama.edu/bulletin/bulletin0506/cis.htm).

3. **THE SOCIAL SCIENCES** - Nine (9) credit hours are required from the following approved areas: Anthropology, Criminal Justice, Economics, Geography, History, Political Science, Psychology, and Sociology.

Two courses in the SOCIAL SCIENCES or HUMANITIES must be either a Literature of History sequence as it is enumerated [here](http://www.southalabama.edu/bulletin/bulletin0506/cis.htm).

4. **THE NATURAL SCIENCES** - Eight (8) credit hours are required from approved areas: Physics, Chemistry, Geology, Biology, and Geography 101, 102.

5. **MATHEMATICS AND STATISTICS** - Nine (9) credit hours are required as follows:

A. PC MA 267  Discrete Mathematical Structures

And

B. one course from

- PC ST 210  Statistical Reasoning
- PC BUS 245  Applied Business Statistics I

And

C. one course from

- PC BUS 255  Applied Business Statistics II
- PC ST 310  Statistical Research Techniques
- PC ST 340  Design and Analysis of Experiments

6. **INFORMATION SYSTEMS ENVIRONMENT** - Fifteen (15) credit hours are required as follows:

- PC MA 267  Discrete Mathematical Structures

And

- PC ST 210  Statistical Reasoning
- PC BUS 245  Applied Business Statistics I

And

- PC BUS 255  Applied Business Statistics II
- PC ST 310  Statistical Research Techniques
- PC ST 340  Design and Analysis of Experiments

   CIS 497  Senior Project I (W)  
   AND  
   CIS 498  Senior Project II (W)  

8. CIS ELECTIVES - Nine (9) credit hours of approved concentration electives are required. The following groups have been approved as concentration elective groups:
   A. Group I:
      Three (3) courses selected from:
      ITE 382  Network Administration  
      ITE 384  Network Infrastructure  
      ITE 476  Network Security Management  
      ITE 484  Advanced Network Management  
   B. Group II:
      Three (3) courses selected from:
      ITE 370  Advanced Application Development  
      ITE 472  Advanced Data Management  
      ISC 457  Data Warehousing & Decision Support  
      ISC 463  Info Systems DBA and Security  
   C. Group III:
      Three (3) courses selected from:
      ITE 375  Publishing for the World Wide Web  
      ITE 380  Multimedia Production  
      ITE 453  Web Site Management  
      ITE 482  ITE E-Commerce Systems  

9. GENERAL STUDIES ELECTIVES - Hours as needed to meet degree and 128-semester-hour requirements. All General Studies Electives must be approved by the Information Systems Coordinator.

*Students with a sufficient ACT/SAT score in English Composition will not be required to take EH 101.  

REQUIREMENTS FOR THE INFORMATION TECHNOLOGY SPECIALIZATION (ITE)  

1. COMMUNICATION - Fifteen (15) credit hours are required as follows:
   PC  EH 101  *English Composition I  
   PC  EH 102  English Composition II  
   PCCA 110  Public Speaking  

http://www.southalabama.edu/bulletin/bulletin0506/cis.htm (5 of 15)7/14/2005 11:37:49 AM
2. THE FINE AND PERFORMING ARTS AND THE HUMANITIES - Fifteen (15) credit hours are required consisting of:
   a. one course from Art, Drama, Foreign Languages, Music and Philosophy,
   b. one course from Literature,
   c. two additional courses from Art, Drama, Foreign Languages, Music, Philosophy and Literature,
   d. PC PHL 121 Introduction to Logic

Two courses in the SOCIAL SCIENCES or HUMANITIES must be either a Literature or History sequence as it is enumerated here.

3. THE SOCIAL SCIENCES - Twelve (12) credit hours are required from the following approved areas: Anthropology, Criminal Justice, Economics, Geography, History, Political Science, Psychology, and Sociology.

Two courses in the SOCIAL SCIENCES or HUMANITIES must be either a Literature or History sequence as it is enumerated here.

4. THE NATURAL SCIENCES - Eight (8) credit hours are required.

Complete one of the following sequences:
A. PH 114 Non-Calculus-Based Physics I, and
   PH 115 Non-Calculus-Based Physics II
B. PH 201 Calculus-Based Physics I, and
   PH 202 Calculus-Based Physics II
C. BLY 101 Life Science I and
   BLY 102 Life Science II
D. BLY 121 General Biology I and
   BLY 122 General Biology II
E. CH 131 General Chemistry I, and
   CH 132 General Chemistry II
F. GY 111 Earth Materials and
   GY 112 Earth History
G. GEO 101 Atmospheric Processes and
   GEO 102 Landscape Processes and Patterns

5. MATHEMATICS AND STATISTICS - Nine (9) credit hours are required as follows:
   PC MA 267 Discrete Mathematical Structures
   PC ST 210 Statistical Reasoning
   Or
   PCBUS 245 Applied Business Statistics I
   And
   PCBUS 255 Applied Business Statistics II
   Or
   ST 310 Statistical Research Techniques
   Or
   ST 340 Design and Analysis of Experiments

6. CORE COURSES - Forty-nine (49) credit hours are required as follows:
   PC CIS 110 Introduction to Computer and Information Sciences
   PC CIS 120 Problem Solving and Prog Concepts I
   PC CIS 121 Problem Solving and Prog Concepts II
   CIS 321 Data Communications
   CIS 324 Database Design, Development, & Management
   CIS 497 Senior Project I (W)
   CIS 498 Senior Project II (W)
   PC ITE 271 Intro to Information Tech I
   PC ITE 272 Intro to Information Tech II
   PC ITE 285 Scripting and Windows Prog
   ITE 370 Advanced Application Dev
   ITE 382 Network Administration
   ITE 474 Human Computer Interface
   ITE 475 IT Project Management
   ITE 480 Needs Assessment and Technology Evaluation (W)
   And
   ITE 485 Senior Demonstration Project
7. **ITE ELECTIVES** - Eighteen (18) credit hours are required. Students complete one of the following Focus Tracks consisting of nine (9) hours of specified courses and nine (9) hours of approved specialization support electives:

   **A. Data Management:**
   - ISC 457 Data Warehousing & Decision Support
   - ISC 463 Info Systems DBA & Security
   - ITE 472 Advanced Data Management

   **B. Web Publishing:**
   - ITE 375 Publishing for the World Wide Web
   - ITE 453 Web Site Management
   - ITE 380 Multimedia Production

   **C. Networking:**
   - ITE 384 Network Infrastructure Systems
   - ITE 476 Network Security Management
   - ITE 484 Advanced Network Management

   **Specialization Support Electives** - Nine (9) credit hours are required. Support electives are designed to further refine and develop a set of focused skills. Support electives generally add the following types of skills to the focus track: communications, e-commerce, or business. Support electives require approval of advisor/ coordinator.

8. **GENERAL STUDIES ELECTIVES** - Hours as needed to meet degree and 128 semester-hour-requirements. All General Studies Electives must be approved by the Information Technology Coordinator.

**SUGGESTED FRESHMAN COURSES**

**REQUIREMENTS FOR A MINOR IN COMPUTER AND INFORMATION SCIENCES**

Students wishing to obtain a minor in CIS must complete one (1) of the following four (4) options with a minimum grade of "C" in each course. An E-Commerce major who wishes to earn a minor in the School of Computer and Information Sciences must see the ITE coordinator to prepare a special minor plan.

1. **Computer and Information Sciences (CIS) Option**
   - PC CIS 110 Introduction to Computer and Information Sciences
   - PC CIS 120 Problem Solving and Prog Concepts I
   - PC CIS 121 Problem Solving and Prog Concepts II
   - CIS 230 Adv Data & File Structures
   - CIS 231 Software Engineering Principles
   - CIS 321 Data Comm and Networking
     And
   - CIS 324 Database Design, Development, & Management

Or

2. **Information Technology (ITE) Option**
   - CIS 110 Introduction to Computer and Information Sciences
   - CIS 120 Problem Solving and Prog Concepts I
   - ITE 271 Intro to Information Technology I
   - ITE 285 Scripting & Windows Prog
   - CIS 321 Data Comm and Networking
   - CIS 324 Database Design, Development, & Management
     And
   - ITE 272 Intro to Information Technology II

Or

3. **Computer and Information Sciences (ISC) Option**
   - CIS 110 Introduction to Computer and Information Sciences
   - CIS 120 Problem Solving and Prog Concepts I
   - ISC 245 Info Systems in Organizations
GRADUATE

THE MASTER OF SCIENCE IN COMPUTER AND INFORMATION SCIENCES PROGRAM
The Master of Science in Computer and Information Sciences degree program is designed for students and professionals wishing to further their knowledge and expertise in computer science. There are two major areas of concentration within the degree program:

1. COMPUTER SCIENCE (CSC) for students interested in the theoretical aspects of the discipline with an emphasis on the construction of system software or the development of scientific applications using software engineering principles.

2. INFORMATION SYSTEMS (ISC) for students interested in business and organizational applications and information systems management.

REQUIREMENTS FOR REGULAR AND PROVISIONAL ADMISSION
Students are admitted each semester. Applicants who have an earned undergraduate or graduate degree from an accredited institution of higher education and who satisfy the admission criteria for the Graduate School (See Graduate School, Categories of Admission) may qualify for admission to the School of Computer and Information Sciences Graduate Program.

- Applicants whose highest degree is an earned graduate degree from an accredited institution of higher education may qualify for Regular Admission based upon their previous graduate work.
- Applicants whose highest degree is an undergraduate degree from an accredited institution of higher education must provide official scores on the Verbal, Quantitative, and Analytical Writing sections of the GRE in addition to the Graduate School requirements for Regular or Provisional Admission.

Final admission decisions are made based upon an evaluation of the applicant's complete file which consists of all official academic transcripts, undergraduate grade-point average; GRE scores; three (3) letters of reference; professional experience; the applicant's statement of purpose; TOEFL scores (for international applicants); and program enrollment and availability.

NON-DEGREE ADMISSION
The School of CIS does not accept Non-Degree admissions to the Master of Science in Computer and Information Sciences.

COMPUTER OWNERSHIP POLICY
All students enrolling in any undergraduate and graduate course offered by the School of CIS, except CIS 110, CIS 150, CIS 210, CIS 211, CIS 227, CIS 250, and CIS 500, are required to own a personal laptop computer system that conforms to the current School minimum published standards. This is a one-student one-machine requirement. For more information consult Links for Students, Resources, Policies at www.cis.usouthal.edu.

CIS GRADUATE PROFESSIONAL COMPONENT

All CIS graduate courses require CIS Graduate Professional Component Standing. Upon entering the School of Computer and Information Sciences Graduate Program, the student meets with the coordinator of the student’s specialization area (CSC or ISC) to prepare an initial draft of the student’s personal program of study. To obtain a greater understanding of acquired computing skills and knowledge, the School of CIS may administer a CIS Foundation Placement Examination to students entering the School of CIS graduate program. The specialization coordinator reviews the student’s previous academic work to see if any courses from the CIS Graduate Foundation or the Required/Supporting courses are to be included as part of the student’s personal program of study. These prescribed courses form the CIS Graduate Professional Component requirement for the student. A student attains CIS Graduate Professional Component Standing if either a) the student is not prescribed Professional Component courses or b) the student successfully completes the prescribed Professional Component courses. The CIS Foundation and Requirement/Supporting Courses (undergraduate equivalents are listed in parenthesis) for each specialization are enumerated below:

1. CIS GRADUATE FOUNDATION COURSES:

A. Courses common to Computer Science (CSC) and Information Systems (ISC) Specializations
Three (3) CIS Foundation courses common to both CSC and ISC specializations are as follows:

   a. CIS 501 Accelerated Programming
      (CIS 120) (Problem Solving and Programming Concepts I) And
      (CIS 121) (Problem Solving and Programming Concepts II)
   b. CIS 321 Data Comm and Networking
   c. CIS 507 Database Programming
      (CIS 324) (Database Design, Development, and Management)

B. Computer Science (CSC)
Three (3) additional CIS Foundation courses for the CSC specialization are:

   a. CIS 322 Operating Systems
   b. CIS 503 Accelerated Data and File Structures
      (CIS 230) (Adv Data and File Structures)
   c. CSC333 Language Theory

C. Information Systems (ISC)
Three (3) additional CIS Foundation courses for the ISC specialization are:

   a. ITE 285 Scripting and Windows Prog
   b. ITE 272 Intro to Information Tech II
   c. CIS 506 IS in Organizations (no undergraduate equivalent)

2. REQUIRED SUPPORTING COURSES:
The supporting courses required for each specialization area are as follows:

a. COMPUTER SCIENCE (CSC)
   MA 125 Calculus I
   MA 126 Calculus II
   MA 267 Discrete Math
   And
   ST 315 Statistics

b. INFORMATION SYSTEMS (ISC)
   MA 267 Discrete Math
   MGT340 Organizational Behavior
   MGT497 MBA Statistical Analysis
   And
   One additional approved Business/Management course

INTERNATIONAL STUDENTS’ SPECIAL REQUIREMENTS
International students must submit documentary evidence showing TOEFL test scores of at least 525 or an equivalent level of competence as exhibited by a bachelor’s degree from an accredited university in the United States. All international students will be required to take the ESL (English as a Second Language) examination and may be required to enroll in ESL courses as part of their graduate program in addition to the normal requirements for the degree listed below.

CHOICE OF BULLETIN UNDER WHICH A STUDENT GRADUATES
Students entering the CIS program may choose any bulletin from their entry date to their time of graduation. This applies for new students and transfer students. Students at the University of South Alabama changing their graduate specialization in CIS, changing their major to CIS, or who interrupt their program for more than one calendar year are considered new students with respect to bulletin selection.

COURSES TAKEN OUTSIDE THE SCHOOL OF COMPUTER AND INFORMATION SCIENCES
No more than three graduate courses, maximum of nine (9) semester hours taken outside of the School of Computer and Information Sciences may be applied toward the degree. Only grades of “A” or “B” may be accepted. Transfer credit is approved only after completion of a minimum of nine (9) semester hours of graduate credit towards the degree. Any such transfer courses must be approved by the Director of Graduate Studies for Computer and Information Sciences and the student's advisor and may not have been used to fulfill the requirements of another graduate degree.

SCHEDULING OF COURSES
The graduate program for CIS is primarily an evening program. The courses are scheduled to accommodate full-time students (normally two or three courses per semester) and part-time students (one course per semester). Special topics, directed study, and thesis courses are available as they are needed.

TIME LIMITATION
All requirements for a graduate degree must be completed within five (5) calendar years from the date of matriculation as a CIS graduate student. The five calendar year constraint also applies to all accepted transfer courses.

GRADUATE RESEARCH SEMINAR
The CIS Graduate Research Seminar is scheduled periodically during each semester as a forum for students and faculty to present and discuss research issues, ideas, and results. Attendance is expected of all graduate students. For students enrolled in these special courses: CIS 518, CIS 594, CIS 595, CSC 595, ISC 595, CIS 598, CSC 598, ISC 598, and CIS 599. Moreover students enrolled in these special courses are required to give a presentation each semester based on their work in the course in which they are enrolled.

PROFESSIONAL PARTICIPATION
Master’s students are expected to take an active part in at least one (1) professional computing organization. They are expected to be aware of the social impact of computing and adhere to the ACM/AITP code of ethics. For more information consult Links for Students, Resources, Organizational Affiliations at http://www.cis.usouthal.edu.

GRADUATE ASSISTANTSHIPS AND FELLOWSHIPS
A limited number of graduate assistantships are available on a competitive basis and are awarded on the recommendation of the School of Computer and Information Sciences. Applications can be obtained from the CIS office.

COMPREHENSIVE EXAMINATION
All CIS masters students must complete a comprehensive examination for the CORE courses in their Specialization (Computer Science or Information Systems). The comprehensive examination may be repeated no more than twice. A written examination is required of students who choose the Course Only Concentration, an oral examination is required of students who complete either the Thesis Concentration or the Project Concentration. The School of CIS Comprehensive Examination Policies and Procedures document and the Comprehensive Examination Application form are available at http://www.cis.usouthal.edu, Links for Students, Student Recources, Applications and Forms.
GRADED SCHOOL STANDARDS
For all other graduate policies and procedures not specifically supplemented for the Master of Science in Computer and Information Sciences degree program, refer to The Graduate School. Some policies and procedures that may be of interest are: Graduate Study for Advanced Undergraduates, Graduate School Academic Standards, Grade Standards, Change of Grade, Academic Dismissal, Final Grade Grievance Policy, Appeal Procedure, English Language Proficiency, Full Load of Course Work in a Semester, Change of Program, Student Responsibility, Degree Requirements for the Master’s Degree, Guidelines for Theses and Dissertations, Standards for Theses and Dissertations, and Application for Degree.

REQUIREMENTS FOR MASTERS DEGREE WITH COMPUTER SCIENCE (CSC) SPECIALIZATION
Students must satisfactorily complete any prescribed CIS Graduate Professional Component courses, a comprehensive examination, and thirty-six (36) graduate credit hours for the Master of Science degree with Computer Science specialization. The thirty-six (36) graduate credit hours consist of twelve (12) hours of CORE courses, three (3) semester hours of REQUIRED courses, and twenty-one (21) semester hours of approved elective courses according to the selected concentration option as follows:

1. CORE COURSES (12 semester hours):
   All core courses must be completed with a minimum grade of “B”.
   - CSC520 Computer Architecture
   - CSC522 Perform Eval of Algorithms
   - CSC525 Complexity Theory
   - And
   - CSC527 Software Engineering Prin

2. REQUIRED COURSES (3 semester hours):
   - CIS 518 CIS Research Methodologies

3. CONCENTRATIONS (21 semester hours):
   A. THESIS CONCENTRATION.
   Acceptance to the THESIS CONCENTRATION may occur after successfully completing each Computer Science core course with a minimum grade of “B” and CIS 518 with a grade of “S”. Students must enroll in CIS 595 (Computer and Information Sciences Research Development) in the semester during which they defend their thesis prospectus. The thesis will normally be completed in one semester while enrolled in CIS 599 (Computer and Information Sciences Thesis). Students must enroll in CIS 599 in the semester during which they defend and/or submit their thesis. A grade of “C” in CIS 595 will result in dismissal from the THESIS CONCENTRATION to the COURSE ONLY CONCENTRATION. A maximum of nine (9) semester hours of CIS 595 and CIS 599 may be applied to the degree for the THESIS CONCENTRATION. Thesis/project dissertation guidelines and forms are available at the University of South Alabama Graduate School web site http://www.southalabama.edu/graduateprograms/forms.html.
   a. Research Development
      A minimum of three (3) and a maximum of six (6) semester hours credit of CIS 595, Computer and Information Sciences Research Development, may be applied towards the degree.
   b. Thesis
      A minimum of three (3) and a maximum of six (6) semester hours credit of CIS 599, Computer and Information Sciences Thesis, may be applied towards the degree.
   c. Elective Course Work
      A minimum of twelve (12) and a maximum of fifteen (15) semester hours of approved electives. A list of Pre-Approved Computer Science elective courses and a list of Special Permission courses are given in this section.
   d. Comprehensive Examination

Links for Students, Student Resources, Applications and Forms.

B. PROJECT CONCENTRATION.
Acceptance to the PROJECT CONCENTRATION may occur after successfully completing each Computer Science core course with a minimum grade of "B" and CSC 518 with a grade of "S". A required defense of the project proposal is normally made in the semester following completion of CSC 518. Students must enroll in CSC 595, Computer Science Project Proposal Development, in the semester during which they defend their project proposal. The project will normally be completed in one semester while enrolled in CSC 598, Computer Science Project. Students must enroll in CSC 598 in the semester during which they defend and/or submit their project. A grade of "C" in CSC 595 will result in the dismissal from the PROJECT CONCENTRATION to the COURSE ONLY CONCENTRATION. A maximum of nine (9) semester hours of CSC 595 and CSC 598 may be applied to the degree for the PROJECT CONCENTRATION. Thesis/project dissertation guidelines and forms are available at the University of South Alabama Graduate School web site http://www.southalabama.edu/graduateprograms/forms.html.

a. Project Proposal Development
A minimum of three (3) and a maximum of six (6) semester hours credit of CSC 595, Computer Science Project Proposal Development, may be applied towards the degree.

b. Project
A minimum of three (3) and a maximum of six (6) semester hours credit of CSC 598, Computer Science Project, may be applied towards the degree.

c. Elective Course Work
A minimum of twelve (12) and a maximum of fifteen (15) semester hours of approved electives. A list of Pre-Approved Computer Science elective courses and a list of Special Permission courses are given in this section.

d. Comprehensive Examination
All students in the Project Concentration must pass an oral comprehensive examination administered after the project committee accepts the project. The School of CIS Comprehensive Examination Policies and Procedures document and the Comprehensive Examination Application form are available at http://www.cis.usouthal.edu, Links for Students, Student Resources, Applications and Forms.

C. COURSE ONLY CONCENTRATION.
Computer Science students who do not choose the THESIS CONCENTRATION or the PROJECT CONCENTRATION are assumed to be in the COURSE ONLY CONCENTRATION. Acceptance to the COURSE ONLY CONCENTRATION occurs after successfully completing each Computer Science core course with a minimum grade of "B" and CIS 518 with a grade of "S".

a. Elective Course Work
Twenty-one (21) semester hours of approved electives are required. A list of Pre-Approved Computer Science elective courses and a list of Special Permission courses are given in this section.

b. Comprehensive Examination
All students in this Concentration must pass a written comprehensive examination. Students must take the examination as soon as possible after successfully completing each Computer Science core course with a minimum grade of "B" and CIS 518 with a grade of "S". Students wishing to sit for the examination must apply online to the Director of CIS Graduate Studies by the Friday of the last week of classes in the semester prior to which the examination is to be taken. The site for the online application may be found by following the Links for Students selection on the School of CIS web site, http://cis.usouthal.edu. The policy regarding the comprehensive examination is available in the CIS office. The comprehensive examination is offered at least once a year. The School of CIS Comprehensive Examination Policies and Procedures document and the Comprehensive Examination Application form are available at http://www.cis.usouthal.edu, Links for Students, Student Resources, Applications and Forms.
4. COMPUTER SCIENCE ELECTIVES
A list of Pre-Approved Computer Science elective courses and a list of Special Permission courses are given below. All other courses must be approved by the Computer Sciences Coordinator. A maximum of six (6) credit hours of non-CSC or non-CIS courses will be allowed.

A. PRE-APPROVED COMPUTER SCIENCE ELECTIVES
CSC510 Compiler Design and Construction
CSC511 Communication and Network Analysis
CSC512 Real-Time Software Systems
CSC513 Computer Graphics
CSC514 Modeling and Simulation
CSC515 Numerical Analysis
CSC524 Computer Language Design
CSC526 Database Structure and Design
CSC532 Advanced Operating Systems
CSC533 Artificial Intelligence and Heuristic Programming
ISC 559 Info Systems Applications Design and Implementation
ISC 561 Info Systems Database Management
ISC 571 Info Systems Data Warehousing and Decision Support

B. SPECIAL PERMISSION COURSES
Approval of the Computer Science Coordinator and the Director of the CIS Graduate Studies is required for CIS Graduate faculty sponsorship of a Special Permission course. A maximum of three (3) credit hours of Special Permission courses may be applied to the degree for the THESIS CONCENTRATION or the PROJECT CONCENTRATION; a maximum of six (6) credit hours of Special Permission courses may be applied to the degree for the COURSE ONLY CONCENTRATION.
CIS 594 Directed Study
CIS 595 Computer Science Research Development
CSC595 Computer Science Project Proposal Development
CIS 598 Computer and Information Sciences Project

REQUIREMENTS FOR MASTERS DEGREE WITH INFORMATION SYSTEMS (ISC) SPECIALIZATION:
Students must satisfactorily complete any prescribed CIS Graduate Professional Component courses, a comprehensive examination, and thirty-six (36) graduate credit hours for the Master of Science degree with Information Systems specialization. The thirty-six (36) graduate hours consist of twelve (12) hours of CORE courses, fifteen (15) hours of REQUIRED courses, and six (6) semester hours of approved elective courses according to the selected CONCENTRATION option as follows:

1. CORE COURSES (12 semester hours):
   All core courses must be completed with a minimum grade of “B”.
   ISC 551 Human/Computer Interface Design
   ISC 560 Info Systems Analysis and Design
   ISC 561 Info Systems Database Management
   And
   ISC 565 Info Systems Project and Change Management

2. REQUIRED COURSES (15 semester hours):
   CIS 518 CIS Research Methodologies
   ISC 545 Management Information Systems
   ISC 559 Applications Design and Implementation
   ISC 567 IS Function Integration
   ISC 568 IS Enterprise Integration

3. CONCENTRATIONS (9 semester hours):
   A. THESIS CONCENTRATION.
Acceptance to the THESIS CONCENTRATION may occur after successfully completing each Information Systems core course with a minimum grade of "B" and CSC 518 with a grade of "S". Students must enroll in CIS 595 (Computer and Information Sciences Research Development) in the semester during which they defend their thesis prospectus. The thesis will normally be completed in one semester while enrolled in CIS 599 (Computer and Information Sciences Thesis). Students must enroll in CIS 599 in the semester during which they defend and/or submit their thesis. A grade of "C" in CIS 595 will result in dismissal from the THESIS CONCENTRATION to the COURSE ONLY CONCENTRATION. A maximum of nine (9) semester hours of CIS 595 and CIS 599 may be applied to the degree for the THESIS CONCENTRATION.

a. Research Development
A minimum of three (3) and maximum of six (6) semester hours credit of CIS 595, Computer and Information Sciences Research Development, may be applied towards the degree.

b. Thesis
A minimum of three (3) and maximum of six (6) semester hours credit of CIS 599, Computer and Information Sciences Thesis, may be applied towards the degree.

c. Comprehensive Examination
All students in the Thesis Concentration must pass an oral comprehensive examination administered after the thesis committee accepts the thesis. The School of CIS Comprehensive Examination Policies and Procedures document and the Comprehensive Examination Application form are available at [http://www.cis.usouthal.edu](http://www.cis.usouthal.edu), Links for Students, Student Recourses, Applications and Forms.

B. PROJECT CONCENTRATION.
Acceptance to the PROJECT CONCENTRATION may occur after successfully completing each Information Systems core course with a minimum grade of "B" and CIS 518 with a grade of "S". A required defense of the project proposal is normally made in the semester following completion of CIS 518. Students must enroll in ISC 595, Information Systems Project Proposal Development, in the semester during which they defend their project proposal. The project will normally be completed in one semester while enrolled in ISC 598, Information Systems Project. Students must enroll in ISC 598 in the semester during which they defend and/or submit their project. A grade of "C" in ISC 595 will result in dismissal from the PROJECT CONCENTRATION to the COURSE ONLY CONCENTRATION. A maximum of nine (9) semester hours of ISC 595 and ISC 598 may be applied to the degree for the PROJECT CONCENTRATION.

a. Project Proposal Development
A minimum of three (3) and maximum of six (6) semester hours credit of ISC 595, Information Systems Project Proposal Development, may be applied towards the degree.

b. Project
A minimum of three (3) and maximum of six (6) semester hours credit of ISC 598, Information Systems Project, may be applied towards the degree.

c. Comprehensive Examination
All students in the Thesis Concentration must pass an oral comprehensive examination administered after the thesis committee accepts the thesis. The School of CIS Comprehensive Examination Policies and Procedures document and the Comprehensive Examination Application form are available at [http://www.cis.usouthal.edu](http://www.cis.usouthal.edu), Links for Students, Student Recourses, Applications and Forms.

C. COURSE ONLY CONCENTRATION.
Information Systems students who do not choose the THESIS CONCENTRATION or the PROJECT CONCENTRATION are assumed to be in the COURSE ONLY CONCENTRATION. Acceptance to the COURSE ONLY CONCENTRATION occurs after successfully completing each Information Systems core course with a minimum grade of "B" and CIS 518 with a grade of "S".

a. Elective Course Work
Nine (9) semester hours of approved electives are required. A list of Pre-Approved Information Systems courses and a list of Special Permission courses are given in this section.

b. Comprehensive Examination
All students in this Concentration must pass a written examination. Students must take the examination as soon as possible after successfully completing each Information Systems core course with a minimum grade of "B" and CIS 518 with a grade of "S". Students wishing to sit for the examination must apply online to the Director of CIS Graduate Studies by the Friday of the last week of classes in the semester prior to which the examination is to be taken. The site for the online application may be found by following the Links for Students selection on the School of CIS web site, http://cis.usouthal.edu. The policy regarding the comprehensive examination is available in the CIS office. The comprehensive examination is offered at least once a year. The School of CIS Comprehensive Examination Policies and Procedures document and the Comprehensive Examination Application form are available at http://www.cis.usouthal.edu, Links for Students, Student Resources, Applications and Forms.

4. INFORMATION SYSTEM ELECTIVES
   A list of Pre-Approved Information Systems elective courses and a list of Special Permission courses are given below. All other courses must be approved by the Information Systems Coordinator.
   A. PRE-APPROVED INFORMATION SYSTEMS ELECTIVES
      ISC 553  Info Systems Web Site Mgt.
      ISC 557  Modeling and Decision Support Systems
      ISC 563  Info Systems Database Admin
      ISC 571  Info Systems Date Warehousing and Decision Support
      CSC511  Communications and Network Analysis
      CSC514  Modeling and Simulation
      CSC527  Software Engineering Prin.
      CSC533  Artificial Intelligence and Heuristic Programming
   B. SPECIAL PERMISSION COURSES
      Approval of the Information Systems Coordinator and the Director of the CIS Graduate Studies is required for CIS Graduate faculty sponsorship of a Special Permission Course. A maximum of three (3) credit hours of Special Permission courses may be applied to the degree for the THESIS CONCENTRATION or the PROJECT CONCENTRATION; a maximum of six (6) credit hours of Special Permission courses may be applied to the degree for the COURSE ONLY CONCENTRATION.

  INFORMATION TECHNOLOGY (ITE)
HON 301 Introduction to Honors Senior Project 1 cr
This course is designed to introduce juniors in the USA Honors Program to scholarly research and creative activities in diverse disciplines. The primary graded assignment of the course is the guided development of an approved Prospectus for the Honors Senior Project.

Honors Program
ENVIRONMENTAL TOXICOLOGY (EXT)

EXT 594 Directed Studies in Environmental Toxicology 3 cr
Students pursue a research project under the direction of a graduate faculty member. The course requires special permission from the program director or the Advisory Committee, to ensure that the study is in line with the curriculum that the student is pursuing.

EXT 599 Research Thesis in Environmental Toxicology 6 cr
Students are responsible for an original research project under the direction of a member of the graduate faculty. Prerequisite: Approval of research prospectus by the Advisory Committee.

Master of Science in Environmental Toxicology

The Graduate School
ACCOUNTING (ACC)

ACC 211 Principles of Accounting I 3 cr
The course provides an understanding of ways in which accounting information supports business decision-making. Topics include financial accounting and reporting for assets and liabilities. ACC 211 and ACC 212 must be taken in sequence.

ACC 212 Principles of Accounting II 3 cr
The course provides an understanding of ways in which accounting information supports business decision-making. Topics include financial accounting and reporting for ownership interests, and managerial accounting concepts relevant to planning, control and analysis. Prerequisite: ACC 211.

ACC 331 Taxation of Individuals 3 cr
Basic federal income tax law and tax planning considerations relating to individuals. Prerequisite: ACC 212.

ACC 341 Accounting Information Systems 3 cr
The study of Accounting as a comprehensive information system which provides for planning and control, special reports, and preparation of external financial statements. Prerequisites: ACC 212 and CIS 250.

ACC 371 Financial Accounting I 3 cr
Accounting theory as related to income measurement; preparation of balance sheets and income statements; recognition, measurement, and reporting of assets. (A minimum grade of "C" must be earned in ACC 371 before ACC 372 can be taken.) Prerequisite: ACC 212 with a minimum grade of "C".

ACC 372 Financial Accounting II 3 cr
Includes measurement, recognition and reporting of liabilities, equities, investments, and deferred taxes; EPS; and the preparation of cash flow statements. Coverage of selected professional pronouncements. (A minimum grade of "C" must be earned in ACC 372 before ACC 451 may be taken.) Prerequisite: ACC 371 with a minimum grade of "C".

ACC 381 Cost Accounting 3 cr
Includes cost-accounting theory and practice involving such topics as job-order and process-cost systems, cost-volume-profit relationships, budgets, standard costs, variance analysis, direct costing, and cost allocation. Prerequisite: ACC 212.

ACC 416 Advanced Financial Accounting 3 cr
Study of business combinations, consolidation issues, interim and segmented reporting, inflation accounting. Coverage of selected professional pronouncements. Prerequisite: ACC 372 with a minimum grade of "C".

ACC 432 Taxation of Partnerships and Corporations 3 cr
An examination of the federal tax treatment of partnerships and corporations. Topics include: tax aspects of the formation of the entity, elements of gross income, treatment of property dispositions, allowable deductions and credits, determination of entity and investor basis, and liquidation of the entity. Prerequisites: ACC 331, ACC 372 with a minimum grade of "C".

ACC 451 Auditing (W) 3 cr
Accounting (ACC)

The theory and application of the attest function, ethical issues, and written communication for accountants. Includes standards, objectives, review of internal control structures, tests of controls, substantive testing and reporting. Ethical issues and the preparation of written letters and formal reports are covered. Prerequisite: ACC 372 with a minimum grade of “C”.

ACC 452 Advanced Auditing 3 cr
Advance study of the application of Auditing Standards; internal control evaluations; applications of statistics; audits of EDP systems; internal and operational auditing, ethical, legal and reporting obligations. Prerequisite: ACC 451 with a minimum grade of “C”.

ACC 461 Accounting of Governmental and NFPE 3 cr
A study of the concepts and procedures underlying fund accounting, budgetary control, and financial reporting requirements for governmental and not-for-profit entities. Prerequisite: ACC 372 with a minimum grade of “C”.

ACC 490 Special Topics 3 cr
Designed to provide senior students an opportunity to study selected topics of particular interest. Prerequisite: Permission of the department chair. (A student may count no more than three hours of Special Topics in the Concentration.)

ACC 494 Directed Study in Accounting 3 cr
Primarily designed to give superior students an opportunity to study some phase of accounting of particular interest. Conferences, a bibliography, and a formal research report are required. Prerequisites: Junior or senior standing, a cumulative GPA of 2.5 or better, and approval of the department chair following the evaluation of a written proposal.

ACC 496 Accounting Internship 3 cr
Students obtain practical accounting experience, with respect to which they are to report to a faculty advisor in accounting and satisfy the requirements set forth for the course. No more than three hours of internships may be counted toward a degree in the Mitchell College of Business. Grades are awarded on a satisfactory/unsatisfactory basis. Prerequisites: Declared accounting concentration, an overall grade point average of at least 2.5, an accounting grade point average of 2.5, and completion of ACC 372 with a grade of at least “C”. In addition, the students must obtain the signed approval of the department chair.

ACC 497 MBA Accounting Survey 3 cr
Accounting principles and concepts which provide the foundation of the measurement and communication of financial data to management. Valuation of resources, accounting or debt and equities, income determinants and analysis of financial statements. Available only to college graduates planning to enter the MBA or MAcc programs.

ACC 511 Financial Accounting Theory 3 cr
The evolution of general accounting theory leading up to and including the conceptual framework will be discussed as well as the specific theory underlying certain accounting topics of current interest.

ACC 520 Accounting for Management Decisions 3 cr
Study of managerial accounting in support of strategic business decisions. Includes budgeting, costing, resource allocation, control, feedback and responsibility accounting.

ACC 521 Advanced Managerial Accounting 3 cr
Advanced managerial and cost accounting topics. Tools for planning and control, development of cost information for decision making, cost allocations, inventory management systems, capital budgeting, performance measurements, transfer pricing and multi-national considerations.

ACC 531 Tax Planning and Research 3 cr
An examination of tax research tools, their utilizations, and various tax planning considerations. Students are required to conduct research and tax planning upon assigned topics, and write a report on their findings.

**ACC 534  Taxation of Gifts, Trusts and Estates  3 cr**
An examination of the federal tax treatment of gratuitous transfers made during life and at death.

**ACC 541  Advanced Accounting Systems  3 cr**
Analysis of accounting information system case studies in order to expose students to real-world system problems and applications. Course work includes hands-on work with a variety of computer-based accounting application packages.

**ACC 571  Professional Accounting  3 cr**
A capstone course study of contemporary issues and responsibilities relevant to the accounting profession, including ethical, legal and international considerations. Prerequisites: ACC 511, ACC 531 and ACC 541.

**ACC 590  Special Topics  3 cr**
Designed to provide graduate students an opportunity to study selected topics. Permission of department chair. (A student may count no more than three hours of Special Topics in the graduate program).

**ACC 594  Independent Study in Accounting  3 cr**
Readings and research on selected topics. Conferences and formal research report required. Prerequisites: Approval of department chair.

**Department of Accounting**

**Mitchell College of Business**
ADULT HEALTH NURSING (AHN)

AHN 347  Adult Health Nursing I  3 cr
Provides the opportunity to analyze theories, concepts, research, issues and trends in caring for adults with basic and commonly occurring health care needs. Content includes internal and external environmental factors affecting the health of adults with basic and commonly occurring health care needs. Emphasis is on the role of the professional nurse in health promotion and maintenance, illness care, and rehabilitation of adults. Prerequisites: NU 325, NU 300, NU 301, HSC 342, HSC 343. Prerequisite with Corequisite: NU 327. Corequisite: AHN 348.

AHN 348  Adult Health Nursing Clinical I  3 cr
Clinical practice course in adult health nursing. The focus is on application of theories, concepts, research, issues and trends in caring for adults with basic and commonly occurring health care needs. Emphasis is on the role of the professional nurse and on the use of the nursing process with adults experiencing basic and commonly occurring health care needs and their families. Prerequisites: NU 325, NU 300, NU 301, HSC 342, HSC 343. Prerequisite with Corequisite: NU 327. Corequisite: AHN 347.

AHN 447  Adult Health Nursing II  3 cr
Provides students the opportunity to analyze theories, concepts, research, issues and trends in caring for adults with complex multisystem health care needs. Content includes internal and external environmental factors affecting the health of adults with complex multisystem health care needs. Emphasis is on the role of the professional nurse in health promotion and maintenance, illness care, and rehabilitation of adults. Prerequisites: AHN 347, AHN 348, HSC 332. Prerequisites/Corequisites: CMN 350, CMN 351, MCN 340, MCN 341, MCN 345, MCN 346. Corequisite: AHN 448.

AHN 448  Adult Health Nursing Clinical II  3 cr
Clinical practice course in adult health nursing. Focus is on application of theories, concepts, research, issues and trends in caring for adults with complex multisystem health care needs. Emphasis is on the role of the professional nurse and on the use of the nursing process with adults experiencing complex multisystem health care needs and their families. Prerequisites: AHN 347, AHN 348, HSC 332. Prerequisites/Corequisites: CMN 350, CMN 351, MCN 340, MCN 341, MCN 345, MCN 346. Corequisite: AHN 447.

AHN 514  Evidence-Based Practice in AHN Nursing & Healthcare 1 cr
The focus of this course is the analysis of best nursing and health care practices with a selected clinical, educative or administrative problem. Students develop a project using an EBP approach to accept or reject recommendations made from the evidence. Prerequisites that can be taken concurrently are NU 513 and one of the following combinations of courses: (AHN 548, AHN 549, AHN 551) or (AHN 568, AHN 569, AHN 571) or (NU 524, AHN 525) or (NU 566, NU 571).

AHN 525  Clinical Practicum in Advanced Adult Health Nursing 4 cr
Application of advanced clinical concepts in Adult Health Nursing theory and other concepts are evaluated within evidenced based practice models. Prerequisites: NU 523, NU 545, NU 578, NU 518, NU 519. Corequisite: NU 524 or special permission of instructor.

AHN 548  Advanced Assessment of Older Adults 3 cr
The purpose of this course is to expand the Advanced Gerontological NP/CNS/ Diabetes Clinical Manager Nursing student's knowledge and skills for obtaining, recording, and analyzing a systematic health assessment of the older adult. Emphasis is placed on synthesis and application of nursing and related theories and scientific knowledge to the development of differential/nursing diagnoses as a basis for health promotion and management, especially clinical management of diabetes. Corequisite: AHN 549.

**AHN 549 Advanced Assessment of Older Adults Practicum 1 cr**

The purpose of this clinical course is to provide an environment in which Advanced Gerontological NP/CNS/Diabetes Clinical Manager students have the opportunity to become proficient at obtaining, recording, and analyzing a systematic health history and advanced physical examination of older adults. The focus is refinement of cognitive and clinical skills needed to provide comprehensive health assessments of older adults, especially those with diabetes. Corequisite: AHN 548.

**AHN 551 Health Promotion/Disease Prevention & Issues in Advanced Gerontological-Diabetes Clinical Manager Nursing**

The purpose of this didactic course is to prepare the Advanced Gerontological NP/ CNS/ Diabetes Clinical Manager Nursing student with a knowledge basis for identifying and implementing appropriate health promotion and disease prevention strategies with older adults. The focus is on the advanced practice nursing of older adults, especially those with diabetes in multiple health care settings. Emphasis is placed on health promotion/disease prevention and related health issues with strategic planning at the primary, secondary and tertiary levels of prevention. Corequisites: AHN 548 and AHN 549.

**AHN 552 Advanced Gerontological-Diabetes Clinical Manager Nursing I 3 cr**

The purpose of this didactic course is to prepare Advanced Gerontological NP/CNS/ Diabetes Clinical Manager Nursing student to assess, diagnose, and manage selected health care needs of older adults, especially those with diabetes. The focus is on advanced practice nursing with older adults and families in primary and acute care settings. Emphasis is on wellness and the pathophysiology/epidemiology underlying acute and chronic health problems, and on clinical management for older adults who have diabetes. Prerequisites: AHN 548, AHN 549, AHN 551 and NU 506. Prerequisites or Corequisites: NU 545, NU 578. Corequisite: AHN 553.

**AHN 553 Advanced Gerontological-Diabetes Clinical Manager Nursing Practicum I 3 cr**

The purpose of this practicum course is to provide opportunities for Advanced Gerontological NP/CNS/ Diabetes Clinical Manager Nursing Specialist student to apply concepts from Advanced Gerontological-Diabetes Clinical Manager Nursing I in selected clinical settings. The focus is on older adults and families in primary acute care settings. The emphasis is on diagnostic reasoning and decision making/ critical thinking especially with older adults who have diabetes and live in rural/impoverished/ underserved areas. Prerequisites: AHN 548, AHN 549, AHN 551 and NU 506. Prerequisites or Corequisites: NU 545, NU 578. Corequisite: AHN 552.

**AHN 554 Advanced Gerontological-Diabetes Clinical Manager Nursing II 3 cr**

The purpose of this course is to provide the Advanced Gerontological NP/CNS/ Diabetes Clinical Manager Nursing student an in-depth study of the health care management of older adults within the framework of nursing, especially older adults who have diabetes. The focus is on selected acute and chronic complex health care problems of the gerontological patient. Emphasis is on the interaction among interdisciplinary health care providers in a culturally diverse environment, especially in rural/impoverished/underserved areas. Prerequisites: AHN 552, AHN 553. Corequisite: AHN 555.

**AHN 555 Advanced Gerontological-Diabetes Clinical Manager Nursing Practicum II 3 cr**
The purpose of this course is to provide opportunity for the Advanced Gerontological NP/CNS/Diabetes Clinical Manager Nursing student to practice within an advanced nursing framework. The focus is on the role of the AG NP/CNS/DCM nurse in the management of health care for older adults, especially those who have diabetes. Emphasis is on collaboration with interdisciplinary health care providers in a culturally diverse environment, especially in rural/impoverished/underserved areas.

Prerequisites: AHN 552, AHN 553. Corequisite: AHN 554.

AHN 556  Advanced Gerontological-Diabetes  4 cr  
Nursing Internship

The purpose of this culminating course is to provide a faculty-supervised and preceptor facilitated experiences in the Advanced Gerontological NP/CNS/Diabetes Clinical Manager Nursing role. The focus is on the application, synthesis, evaluation of knowledge and skills acquired in all previous courses and tested in clinical practice, and on testing telehealth strategies in providing healthcare at reduced costs to multicultural older adults, especially in rural/impoverished/underserved areas.

Prerequisites: AHN 554, AHN 555, NU 506. Corequisite: AHN 557. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

AHN 557  Advanced Gerontological-Diabetes  3 cr  
Clinical Manager Nursing III

The purpose of this course is to provide a forum for the evaluation of advanced gerontological nursing practice, use of technology/telehealth strategies in multiple health care settings for older adults, and trends in current interdisciplinary health care systems. Emphasis is on application, evaluation, and enhancement by the Advanced Gerontological NP/CNS/Diabetes Clinical Manager Nursing of empirically-based knowledge in clinical management of rural/impoverished/underserved older adults of various cultures. Prerequisites: AHN 554, AHN 555, NU 506. Corequisite: AHN 556. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

AHN 568  Advanced Nursing Assessment of Adults  3 cr

The purpose of this course is to expand the Adult Acute Care Nurse Practitioner/Clinical Nurse Specialist student's knowledge and skills for obtaining, recording, and analyzing a systematic health assessment of the adult. Emphasis is placed on synthesis and application of nursing and related theories and scientific knowledge to the development of differential/nursing diagnoses as a basis for health promotion and management. Corequisite: AHN 569.

AHN 569  Advanced Nursing Assessment of Adults Practicum

The purpose of this clinical course is to provide an environment in which the Adult Acute Care Nurse Practitioner/Clinical Nurse Specialist student will have the opportunity to become proficient at obtaining, recording, and analyzing a systematic health history and advanced physical examination of adults. The focus is refinement of cognitive and clinical skills needed to provide comprehensive health assessments for adults. Corequisite: AHN 568.

AHN 571  Health Promotion/Disease Prevention & Issues for Adult Acute Care Nursing  3 cr

The purpose of this didactic course is to prepare the Adult Acute Care Nurse Practitioner/Clinical Nurse Specialist student to identify and implement appropriate health promotion and disease prevention strategies across the lifespan. The focus is on the advanced practice nursing of individuals and families in primary care settings. Emphasis is placed on health promotion/disease prevention with strategic planning at the primary, secondary and tertiary levels of prevention. Various issues are explored pertinent to the advanced practice role. Corequisites: AHN 568 and AHN 569.
The purpose of this didactic course is to prepare Adult Acute Care Nurse Practitioner/Chicago Nurse Specialist student to assess, diagnose, and manage selected health care needs of adults. The focus is on advanced practice nursing with adults and families in primary and acute care settings. Emphasis is placed on the wellness and the pathophysiology and epidemiology underlying acute and chronic health problems. Prerequisites: AHN 568, AHN 569, AHN 571, NU 506. Prerequisites or Corequisites: NU 545, NU 578. Corequisite: AHN 573.

**AHN 573**  Advanced Adult Acute Care Nursing Practicum I  3 cr
The purpose of this practicum course is to provide opportunities for Adult Acute Care Nurse Practitioner/Clinical Nurse Specialist student to apply concepts from Advanced Adult Acute Care Nursing I in select clinical settings. Focus is on adults and families in primary and acute care settings. The emphasis is on diagnostic reasoning and decision making/ critical thinking. Prerequisites: AHN 568, AHN 569, AHN 571, NU 506. Prerequisites or Corequisites: NU 545, NU 578. Corequisite: AHN 572.

**AHN 574**  Advanced Acute Care Nursing of Adults II  3 cr
The purpose of this course is to provide an in-depth study of the health care management of the Adult Acute Care patient. Emphasis is on the interaction among health care providers in a culturally diverse environment. Prerequisites: AHN 572, AHN 573. Corequisite: AHN 575.

**AHN 575**  Advanced Adult Acute Care Nursing Practicum II  3 cr
The purpose of this course is to provide an opportunity for the Adult Acute Care Nurse Practitioner/Clinical Nurse Specialist student to practice within an advanced nursing framework. The focus is on the role of the advanced practice nurse in the health care management of adults. Emphasis is on collaboration with other health care providers in a culturally diverse environment. Prerequisites: AHN 572, AHN 573. Corequisite: AHN 574.

**AHN 576**  Advanced Adult Acute Care Nursing Internship  4 cr
The purpose of this culminating course is to provide a preceptor and faculty facilitated experience in the Adult Acute Care Nurse Practitioner/Clinical Nurse Specialist role. The focus is on the application and synthesis of knowledge and skills acquired in all previous courses. Prerequisites: AHN 574, AHN 575, NU 506. Corequisite: AHN 577. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

**AHN 577**  Advanced Adult Acute Care Nursing III  3 cr
The purpose of this course is to provide a forum for the evaluation of issues and trends encountered in advanced adult acute care nursing. Emphasis is on a critical analysis and management of issues by the Adult Acute Care Nurse Practitioner/ Clinical Nurse Specialist in an interdisciplinary health care delivery system. Prerequisites: AHN 574, AHN 575, NU 506. Corequisite: AHN 576. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

**College of Nursing**
ADULT INTERDISCIPLINARY STUDIES

AIS 101  Theories and Principles of Adult Learning  3 cr
Introduction to basic theories and principles of adult education and development, with emphasis on liberal education. Assists students in defining competencies needed for success in academic study and professional leadership, in setting educational goals, and in planning a learning experience to achieve them. AIS 101 or AIS 301 is required of all AIS majors and should be taken during the first semester of enrollment in the Adult Degree Program.

NOTE: To avoid duplication, credit for both AIS 101 and AIS 301 is not allowed.

AIS 105  Encounter with the Humanities  3 cr
Introduction to the various disciplines within the humanities with emphasis on the role each plays in a liberal arts education. Core Course.

AIS 110  Encounter with the Natural Sciences  3 cr
Introduction to the various disciplines within the natural sciences with emphasis on the role each plays in a liberal arts education.

AIS 115  Encounter with the Social Sciences  3 cr
Introduction to the various disciplines within the social sciences with emphasis on the role each plays in a liberal arts education. Core Course.

AIS 120  Encounter with the Fine and Performing Arts  3 cr
Introduction to the various disciplines within the fine arts with emphasis on the role each plays in a liberal arts education.

AIS 125  Professional Conduct  3 cr
Introduces students to primary sources in ethical theory and readings and discussions of theories of human nature to provide a basis for understanding one's rationale for personal moral decisions and to offer a foundation for the application of ethics to the workplace.

AIS 201  Seasons of Life  3 cr
An interdisciplinary, media-assisted course in which students study human development from the biosocial, cognitive, and psychosocial perspectives with special emphasis on the adult years. Through readings, audio tapes, written exercises, and discussions, students explore the theory and research findings of life span development which enable them to reflect on their own lives as well as the lives of others. Core Course.

AIS 290  Special Topics  1-6 cr
A variable topics course treating special themes. May be repeated for credit when course content varies.

AIS 294  Directed Studies  1-3 cr
Directed study of a topic consistent with the student's individualized program under the supervision of a member of the University faculty. Prerequisite: Permission of the department chair.

Identification and analysis of current concepts and problems in the natural sciences and their relation to the needs, values, and operation of modern society.

Identification and analysis of current concepts and problems in the social sciences and their relation to the needs, values, and operation of modern society.

Presents the foundations of community development and leadership, including basic concepts, methods and literature. Student teams gain practical application through researching an issue and designing a community deliberation to address that issue. The course lays foundations for further study and practice in the field.

Explores the field of adult and continuing education, focusing on its history, philosophy, grounding in adult learning theory, its current applications in educational institutions and business, and its future as an international and technology-enhanced enterprise.

An in-depth research project in the student's concentration. Provides an opportunity for the student to design a comprehensive research project, analyze and synthesize research data, and develop expertise in a particular subject. AIS 430 is required of all AIS majors. Prerequisite: AIS 380.

A variable topics course treating special themes. May be repeated once for credit when course content varies.

Directed study of a topic consistent with the student's individualized program under the supervision of a member of the University faculty. Prerequisite: Permission of the department chair.

The purpose of the internship is to give the student supervised practical experience in a setting related to the student's concentration. The course may be taken for a maximum of six hours credit. Prerequisites: junior or senior standing and permission of the department chair.

A substantial research project in the student's field that reflects a commitment to genuine scholarship. Provides an opportunity for the student to design a comprehensive research project, analyze and synthesize research data, and develop expertise in a particular subject. Fulfills the senior project requirement for the honors program. Prerequisites: AIS 380, 3.5 overall GPA on 60 credits from USA, and permission of the AIS 380 instructor.
AFRICAN-AMERICAN STUDIES (AFR)

AFR 101  Introduction to African-American Studies  3 cr
An interdisciplinary investigation of the origins, experiences, conditions, accomplishments and contributions of people of African ancestry in the United States. Core Course.

<td>Air Force Leadership and Management I (W)</td>
<td>3 cr</td>
</tr>
<tr>
<td></td>
<td>Integrated management course emphasizing the individual as a manager in an Air Force milieu. The individual motivation and behavioral processes, leadership, ethics, communications, and group dynamics provide a foundation or the development of the junior officer's professional skills as an Air Force officer. The basic managerial processes involving decision-making, and the use of analytic aids in planning, organizing, and controlling in a changing environment are emphasized. Laboratory provides opportunities for practical application of leadership skills.</td>

**College of Arts and Sciences**
ANTHROPOLOGY (AN)

AN 100  Introduction to Cultural Anthropology  3 cr
Introduces culture as a set of integrated behaviors and meanings learned in a social environment. Explores the diversity of human cultural practices in terms of kinship, gender, religion, subsistence, and politics. Language is emphasized as the means by which culture is transmitted from one generation to the next. Core Course.

AN 101  Introduction to Archaeology and Physical Anthropology  3 cr
The place of people in nature; the origin, development, and differentiation of people as biological organisms; archaeological evidence of early human cultures; basic concepts and principles for understanding human cultures. Introduces students to the topics of evolution, genetics, and primates and integrates cultural aspects associated with early human development. The fundamental orientation and methods of archaeology are introduced and an overview of world prehistory presented. Core Course.

AN 105  Honors Introduction to Cultural Anthropology  3 cr
Introduces culture as a set of integrated behaviors and meanings learned in a social environment. Explores the diversity of human cultural practices in terms of kinship, gender, religion, subsistence, social inequality, and politics. Language is emphasized as the means by which culture is transmitted from one generation to the next. The Honors Introduction to Cultural Anthropology will provide a more in-depth study of anthropological theories and place more emphasis on discussion of course material than AN 100. It will also involve a fieldwork research project. Prerequisite: students must be enrolled in a University or Departmental Honors Program, or by permission of instructor.

AN 106  Honors Introduction to Archaeology and Physical Anthropology  3 cr
The place of people in nature; the origin, development and differentiation of people as biological organisms; archaeological evidence of early human cultures; basic concepts and principles for understanding human cultures. Introduces students to the topics of evolution, genetics, and primates and integrates cultural aspects associated with human development. The fundamental orientation and methods of archaeology are introduced and an overview of world prehistory presented. The Honors course will provide a more in-depth study of the principles, methods, and theories involved in the study of human physical and cultural evolution. Class discussion is emphasized and a class project is required. Prerequisite: students must be enrolled in a University or Departmental Honors Program, or by permission of instructor.

AN 200  Language and Culture  3 cr
Brief introduction to descriptive and structural linguistics, language universals, classification and processes of change in language, language and thought, social and cultural factors as expressed in language, origin of language, child language, and non-verbal communication. Prerequisite: AN 100 or AN 101 or AN 105 or AN 106.

AN 210  Physical Anthropology  4 cr
Course focuses on humans as biological and cultural beings and includes a laboratory. Covers variation in modern human populations, as well as evolutionary trends as seen in fossil remains. Also studies nonhuman primates, such as apes and monkeys. Fulfills a College of Arts and Sciences General Education Core Requirement for the Natural Sciences. Fee.

<td>AN 357</td>
<td>Political Anthropology</td>
<td>3 cr</td>
</tr>
</tbody>
</table>
Authority, power, and conflict are examined cross-culturally and in evolutionary perspective. Particular emphasis is placed on the origins of stratification and the state. Prerequisite: AN 100 or AN 105.

**AN 358 Economic Anthropology** 3 cr
An evolutionary survey of production and exchange in diverse societies. Considers the applicability of western economic theory to nonmarket economies, as well as their transformation by global capitalism. Prerequisite: AN 100 or AN 105.

**AN 394 Directed Studies** 1-3 cr
Supervised readings or projects. No more than a total of six hours may be taken for credit. Prerequisite: AN 100 or AN 101 or AN 105 or AN 106; prior approval of instructor.

**AN 426 Social and Cultural Change** 3 cr
Major theories and processes of social and cultural change, the factors influencing social and cultural change, diffusion of innovations, and adoption of new ideas and practices. Cross-listed as SY 426. Prerequisite: AN 100 or AN 101 or AN 105 or AN 106 or permission of instructor.

**AN 430 Forensic Anthropology** 3 cr
Techniques by which Physical Anthropologists analyze human remains in order to establish individual identity. Students work in a laboratory setting with human skeletal materials. Prerequisite: AN 210 or permission of instructor.

**AN 435 Museum Methods in Archaeology** 3 cr
Archaeology as practiced in museums, including the registration and curation of archaeological collections; artifact conservation; public interpretation of the past; and exhibit design, composition, construction, and evaluation. Prerequisite: AN 100 or 101 or AN 105 or AN 106.

**AN 440 Advanced Archaeological Field Methods** 4 cr
This course involves participant instruction in archaeological field and laboratory techniques, including advanced excavation and survey methods, soils analysis, site mapping with electronic instruments, sampling strategy, and site interpretation. Prerequisite: permission of instructor.

**AN 442 Cultural Resource Management** 3 cr
This course examines the interaction between archaeologists, architectural historians, historic preservationists, state and federal governments, and the public with regard to cultural resources. The focus of the course is identification, evaluation, and mitigation of cultural resources. Related topics discussed include public perceptions of the past, ethics, and being a professional in historical preservation.

**AN 454 Anthropological Theory (W)** 3 cr
An advanced historical survey of anthropological ideas, with primary emphasis on contemporary theoretical orientations and debates. Examines anthropology's often contested status as a science or humanity. Prerequisite: AN 100 or AN 105.

**AN 456 Health and Culture (W)** 3 cr
This course provides an overview of a broad range of subjects in the fields of medical anthropology and medical sociology. It analyzes the ways in which health, illness, and healing are embedded in their cultural and social contexts. And it investigates healing practices and meanings attributed to health and illness in a variety of cultures and social settings. Prerequisite: AN 100 or AN 105 or by permission of instructor.

**AN 458 Ethnological Research Methods** 3 cr
A survey of methods and techniques used by cultural anthropologists in the collection and interpretation of data. Examines procedures involved in formulating a research proposal and selecting appropriate research methods. Prerequisite: AN 100 or AN 105.
AN 490 Special Topics 3 cr
Different topics of anthropological importance will be studied as announced. This course may be taken for credit when the content varies; not more than six credits will be accepted toward the degree. Prerequisites: AN 101 or AN 105, senior standing; minimum of nine hours of Anthropology above 300 level; or permission of instructor.

AN 492 Senior Seminar 3 cr
Course specifically designed for majors in their senior year. Some topical aspect of the discipline will be analyzed. Prerequisite: AN 100 or AN 101 or AN 105 or AN 106.

AN 496 Anthropology Internship 3-6 cr
Provides an opportunity to combine academic principles with practical experiences in an agency dealing with human relationships, cultural resources, or primate research. Specifics of the assignment result from a mutual agreement among student, course director and agency. Course may be repeated for a maximum of six hours of credit. Prerequisites: Advanced standing in Anthropology major and permission of course director.

AN 498 Senior Thesis 3 cr
With the guidance and advice of a faculty mentor, students will identify and carry out an in-depth, year-long, field research project in anthropology. The Senior Thesis will be judged and graded by a committee of three faculty, chaired by the faculty mentor. This course will be repeated to continue the thesis during a second semester, for up to six credits Prerequisites: Anthropology major; senior status; permission of a faculty mentor; and completion of a thesis prospectus, prepared in consultation with the faculty mentor through an AN 394 Directed Studies course taken during the junior year.

AN 499 Honors Senior Thesis 3 cr
With the guidance and advice of a faculty mentor, honors students will identify and carry out an in-depth, field research project in anthropology. The Honors Senior Thesis will be judged and graded by a committee of three faculty, chaired by the faculty mentor. This course will be repeated, for up to six credits Prerequisites: Anthropology major; senior status; permission of a faculty mentor; grade-point average of 3.5; and completion of a thesis prospectus, prepared in consultation with the faculty mentor through an AN 394 Directed Studies course taken during the junior year.

ART EDUCATION (AED)

AED 301  Art in the Elementary School  3 cr
Knowledge and skills appropriate to the elementary school art program. Techniques
and media for teaching art in the various grades.

AED 501  Trends and Practices in Teaching Art in  3 cr
the Elementary School
Orients the student toward the artistic interests and creative abilities of children in the
elementary school, and developing attitudes of respect for individuality and creativity.
Included are laboratory experiences with art materials and research into appropriate
techniques of teaching art.

AED 502  Trends and Practices in Teaching Art in  3 cr
Secondary School
Current trends and practices in curriculum, instruction, selection of materials, and
derivation of procedures for guiding learning in art in the secondary school.

AED 560  Graduate Research Seminar  3 cr
Research in problems confronting American education. Selected topics are explored
by students which provide the basis for seminar discussions. A seminar paper is
presented by each student. This course also includes a field-based practicum.
Prerequisite: Permission of department chair.

AED 590  Special Topics  3 cr
Current topics of special concern to secondary educators. A different topic will be used
each time the course is offered. No more than six semester hours can be applied
toward a graduate degree. Prerequisite: Permission of department chair.

AED 594  Directed Study and Research  1, 3 cr
Students explore through directed study problems and issues of special interest or
significance in Art Education. Not more than three semester hours of any departmental
594 courses can be accepted toward a degree program. Prerequisite: Permission of
the department chair.

Art History (ARH)

Art of Flanders, Germany, and France in the 14th, 15th and 16th centuries. Prerequisite: ARH 123. Fee.

ARH 324   Italian Early Renaissance Art 3 cr
Art of 14th- and 15th-century Italy. Prerequisite: ARH 123. Fee.

ARH 326   Sixteenth Century Italian Art 3 cr
Art of the Italian High Renaissance and Mannerist periods. Prerequisite: ARH 123. Fee.

ARH 330   Baroque Art of Southern Europe 3 cr
A study of painting, sculpture, and architecture in Italy, France, and Spain during the 17th and early 18th centuries. Prerequisite: ARH 123. Fee.

ARH 343   African-American Art 3 cr
Investigation of the art of African-Americans and the historical and social contexts in which the works were produced. Major periods of concentration include slavery, post-slavery, and the 20th century. Fee.

ARH 344   Contemporary Art 3 cr
A study of art developments since 1960. Fee.

ARH 345   American Arts: 1600-1940 3 cr
American painting, graphics and sculpture from the Colonial period to 1940. Fee.

ARH 346   American Architecture: 1600-1940 (W) 3 cr
American architecture from the colonial period to 1940. Fee.

ARH 360   Traineeship in Museum Work 2 cr
Evaluated experience in museum work at the Mobile Museum of Art. Cannot be used to fulfill requirements for the Art History primary concentration or minor. May be repeated twice if experience differs. Prerequisites: Fifteen hours of Art History courses and permission of the course director. Fee.

ARH 362   Internship in Architectural Preservation 3 cr
Evaluated experience in architectural preservation at the Mobile Historic Development Commission. Cannot be used to fulfill requirements for the Art History primary concentration or minor. This course cannot be repeated. Prerequisites: ARH 304, ARH 346, ARH 406, ARH 415, and permission of instructor. Fee.

ARH 390   Special Topics 3 cr
Different subjects or themes in art or architectural history as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours. Prerequisite: To be announced. Fee.

ARH 406   Roman Art 3 cr
Architecture, painting, and sculpture in Ancient Rome and its empire. Prerequisite: ARH 103. Fee.

ARH 415   Gothic Architecture 3 cr
A study of architecture and architectural sculpture during the Gothic Age, with special emphasis on France, Germany, England, Italy, and Scandinavia. Prerequisite: ARH 103. Fee.

ARH 434   Baroque Art of Flanders and Holland 3 cr
A study of the painting of the major artists of Baroque Flanders and Holland; the work of Rubens, Hals, Rembrandt, Vermeer, and others will be studied. Prerequisite: ARH 123. Fee.

This seminar will treat variable subjects. This course may be repeated once when the content varies, for a maximum of six credit hours. Prerequisite: Nine hours of Art History above the 200 level. Fee.

Research in a selected topic in art or architectural history under the direction of a faculty member, resulting in a scholarly paper presented as an illustrated lecture. Prerequisites: Nine hours in Art History courses numbered 300 or higher and permission of the instructor. Fee.

Honors students will identify and carry out independent scholarly research on an art history topic over two semesters with the guidance of a faculty member. At the end of the first semester, the project will be concluded with a formal oral presentation to the Visual Arts faculty. At the end of the second semester, the student will submit the senior thesis. The work from both semesters will be graded by a three-member faculty committee, chaired by the mentor. This course is to be taken as two sequential, three-credit course units.

Different subjects or themes in art or architectural history as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours. Prerequisites: ARH 103, ARH 123, and nine hours in upper-level Art History courses.
ARS 101  Art Appreciation  3 cr  
A broad introduction to the nature, vocabulary, and media of the visual arts of drawing, painting, prints, the camera arts, graphic design, sculpture, crafts, and architecture. Fee. Core Course.

ARS 121  Perceptual Drawing I  3 cr  
An introductory course with emphasis on the development of drawing skills to realistically represent natural and manmade forms using dry drawing media. Fee.

ARS 122  Perceptual Drawing II  3 cr  
A continuation of ARS 121 using wet and mixed drawing media. Prerequisite: ARS 121. Fee.

ARS 123  Two-Dimensional Design  3 cr  
The study and application of art elements and principles of perception, for the purpose of increasing the student's skill in communicating visually with paints and other two-dimensional media. Fee.

ARS 124  Three-Dimensional Design  3 cr  
A study and application of art principles to three-dimensional problems. Fee.

ARS 222  Figure Drawing I  3 cr  
A study of the human figure using various drawing (dry) media. Prerequisites: ARS 122, ARS 123. Fee.

ARS 225  Conceptual Drawing I  3 cr  
An introduction to the developmental process of drawing as an art form using various subject matter and drawing media. Prerequisites: ARS 122, ARS 123. Fee.

ARS 231  Painting I  3 cr  
An introduction to the techniques and concepts of oil painting using various subject matter. Prerequisites: ARS 122, ARS 123. Fee.

ARS 232  Painting II  3 cr  
A continuation of ARS 231 with an emphasis on color, composition and technical facility in oil paint. Prerequisites: ARS 122, ARS 123. Fee.

ARS 241  Introduction to Ceramics  3 cr  
Introduction to the exploration of basic hand building and wheel techniques of working with clay. Included will be basic design considerations for traditional pottery forms as well as simple sculptural forms. There will be exposure to techniques in glazing and basic firing. Fee.

ARS 251  Intaglio and Lithography  3 cr  
Fundamentals of making intaglio and lithograph prints. Basic processes and use of drawing and design skills are stressed. Prerequisites: ARS 121, ARS 122, ARS 123. Fee.

ARS 252  Relief and Screen Printing  3 cr  
Fundamentals of making woodcuts and other types of relief prints. Emphasis on basic processes and techniques and applying drawing and design skills. Prerequisites: ARS 122, ARS 123. Fee.

ARS 261  Sculpture I  3 cr
A basic course with additive sculpture materials dealing with problems of mass, volume, and form. Prerequisites: ARS 122 and ARS 124. Fee.

ARS 262  Sculpture II  3 cr
An introduction to basic metal fabrication, including cutting, brazing, and welding both ferrous and non-ferrous materials. Prerequisite: ARS 261. Fee.

ARS 271  Introduction to Graphic Design  3 cr
An introduction to skills and techniques used in graphic design, problems in visual priorities, and use of selected materials. Prerequisites: ARS 122, ARS 123. Fee.

ARS 272  Typography  3 cr
This class will examine typography as a visual communications tool. Students will explore issues within type and image. Prerequisite: ARS 271. Fee.

ARS 273  Basic Desktop Publishing (C)  3 cr
An introductory course on the fundamentals of using the Macintosh interface and basic instruction with desktop-publishing software for graphic design applications. Prerequisite: ARS 271 or concurrent enrollment in ARS 271. Fee.

ARS 281  Intro to Photography  3 cr
An introduction to the technical and aesthetic aspects of photography. Investigation of picture making problems and control of photographic media. Involves the use of color transparency materials and an introduction to black and white processing and enlarging. Students must have 35 mm single lens reflex cameras capable of being operated in the manual exposure mode. Fee.

ARS 290  Special Topics  3-6 cr
A lower level studio, lecture, or seminar course treating a special medium, subject, or theme, as announced. This course may be repeated when the topic varies, for a maximum of six credit hours. Prerequisite: As announced. Fee.

ARS 322  Figure Drawing II  3 cr
Further study of the human figure using various drawing (wet and dry) media. Prerequisite: ARS 222. Fee.

ARS 325  Conceptual Drawing II  3 cr
A continuation of ARS 225 with emphasis on exploration of concepts found in Cubism, Surrealism, Abstract Expressionism, and Photo realism. Prerequisite: ARS 225. Fee.

ARS 331  Painting III  3-12 cr
A continuation of ARS 231 and 232 with emphasis on conceptual exploration in oil and/or water media paint. May be repeated for a maximum of 12 hours. Prerequisites: ARS 231, ARS 232. Fee.

ARS 341  Intermediate Ceramics  3-9 cr
A continuation of ARS 241 with emphasis on hand-building or wheel techniques. May be repeated for a total of nine semester hours credit. Prerequisites: ARS 122, ARS 124, ARS 241. Fee.

ARS 351  Intermediate Printmaking  3-12 cr
Further work in making prints. Students may work in one or more of the following print media: intaglio, lithography, relief printing, screen printing. The course may be repeated for a maximum of 12 semester hours. Prerequisites: ARS 251, ARS 252. Fee.

ARS 361  Sculpture III  3-6 cr
An introduction to direct carving processes with wood and stone. This course may be repeated for a total of six semester hours credit. Prerequisite: ARS 262. Fee

ARS 362  Intermediate Sculpture IV  3-6 cr
Advanced mold making techniques. This course may be repeated for a total of six semester hours credit. Prerequisite: ARS 361. Fee.

ARS 372  Graphic Design Production  3 cr
Design, typography, page layout, paper selection, prepress techniques and the preparation of art for reproduction using both traditional and digital means.
Prerequisites: ARS 272, ARS 273. Fee.

ARS 373 Graphic Design I 3 cr
An intermediate course developing design skills used in the production of printed materials for visual communications with an emphasis on logos, letterheads, brochures, and posters. Prerequisites: ARS 272, ARS 273. Fee.

ARS 374 Graphic Design II 3 cr
An intermediate course developing design skills used in the production of printed materials for visual communications with an emphasis on newsletters, magazines, and newspaper graphics. Prerequisite: ARS 373. Fee.

ARS 375 Digital Graphic Design 3 cr
An advanced level course utilizing computers to produce graphic design work for printed and digital media. Prerequisite: ARS 373 or concurrent enrollment in ARS 273. Fee.

ARS 376 Illustration 3 cr
Conceptual approaches, materials and techniques used to solve problems in illustration, emphasizing developing rendering skills. Prerequisites: ARS 271 and a 200-level drawing course. Fee.

ARS 381 Intermediate Photo I 3 cr
This course is designed to allow you to begin to communicate your own vision and artistic voice. This course is intended to take your technical skills to the next level, by reading, writing and thinking about photography. Prerequisite: ARS 281. Fee.

ARS 382 Intermediate Photo II 3 cr
The three main objectives of this course are to further your knowledge of fine art photography, learn how to conceptualize ideas through the medium of photography, and to treat photography primarily as a creative medium for discussing personal, political, and social concerns. Since photography is tied to many technical processes, these concerns will also be acknowledged in this class. Prerequisites: ARS 281, ARS 381. Fee.

ARS 387 Digital Silver Photography 3 cr
This studio course examines the intersecting theories and practices of photography with digital cameras and computer imaging. Prerequisites: ARS 271, ARS 281, ARS 381, ARS 382. Fee.

ARS 396 Professional Practices for the Artist (W) 3 cr
A workshop to prepare the student for employment, graduate school, or a professional career in the visual arts. Prerequisite: Junior standing. Fee.

ARS 422 Figure Drawing III 3 cr
Individual problems with the human figure as subject, emphasizing concept, composition and media. Prerequisite: ARS 322. Fee.

ARS 425 Conceptual Drawing III 3 cr
A continuation of ARS 325 with emphasis on exploration of personal concepts. Prerequisite: ARS 325. Fee.

ARS 431 Painting IV 3-6 cr
A continuation of ARS 331 with emphasis on personal development of conceptual approaches in oil and/or water media paintings. Students with Primary Concentrations in Painting will use this course to prepare for thesis. This course may be repeated for a total of six semester hours credit. Prerequisites: Six hours of ARS 331. Fee.

ARS 441 Advanced Ceramics 3-12 cr
A continuation of ARS 341 with emphasis on hand-building or wheel processes. May be repeated for a total of 12 semester hours credit. Prerequisites: 9 hours of ARS 341. Fee.

http://www.southalabama.edu/bulletin/bulletin0506/courars.htm (4 of 5)
An independent project of creative work in the area of the Primary Concentration or one or more Secondary Concentrations, with the guidance of one to three faculty advisors. The student is required to work at least 18 hours a week in the studio. The thesis must be publicly exhibited. It will be graded by the entire full-time Visual Arts faculty.

ARS 499 Honors Senior Thesis 3 cr
Honors student, the first semester, will identify and carry out independent scholarly research on a topic with the guidance of a faculty member. The second semester, the student will produce a body of work that incorporates and exemplifies the ideas explored in the research paper. The paper will be concluded with a formal presentation to the Visual Arts faculty. The Honors project will be graded by a three-member faculty committee, chaired by the mentor. This course is to be taken as two sequential, three-credit course units.

ARS 520 Graduate Drawing 3-9 cr
Intensive course in drawing as both a set of skills and as a creative medium of expression. May be repeated for a total of nine credit hours. Prerequisites: ARS 422 or 425 or bachelor's degree in art or art education. Fee.

ARS 530 Graduate Painting 3-9 cr
Intensive course in painting with traditional or contemporary media, subjects, and concepts. May be repeated for a total of nine credit hours. Prerequisite: ARS 431 or bachelor's degree in art or art education. Fee.

ARS 540 Graduate Ceramics 3-9 cr
A study of clay as a creative medium of expression. Problems of form, volume, space, texture, decoration, and function will be investigated in their relation to selected ceramic processes and building techniques. May be repeated for total of nine credit hours. Prerequisite: ARS 441 or bachelor's degree in art or art education. Fee.

ARS 550 Graduate Printmaking 3-9 cr
Intensive investigation of visual, expressive, or technical problems in one or more printmaking media. May be repeated for a total of nine credit hours. Prerequisite: ARS 451 or bachelor's degree in art or art education. Fee.

ARS 560 Graduate Sculpture 3-9 cr
Intensive investigation of problems of mass, volume, form and space using one or more sculptural media. May be repeated for a total of nine credit hours. Prerequisite: ARS 461 or bachelor's degree in art or art education. Fee.

ARS 590 Special Topics 3-9 cr
A graduate course treating a special medium, subject, or theme, as announced. May be repeated twice when content varies, for a maximum of nine credit hours. Prerequisites: Thirty-two hours in Studio Art or a bachelor’s degree in art or art education. Fee.
DOCTOR OF AUDIOLOGY (AUD)

AUD 612 Anatomy and Physiology of the Hearing Mechanism 3 cr
Study of the anatomy and physiology of the nervous system, the anatomy and physiology of the outer, middle, inner ear, including the vestibular system, and the central auditory nervous system.

AUD 613 Psychoacoustics 3 cr
Study of the principles, procedures and research involved in the field of psychoacoustics and of the relationships between the physical dimensions of auditory stimuli and the resultant perceptual experience; as well as the relationships among psychoacoustic testing and both auditory physiology and the audiologic evaluation process. Participation in laboratory assignments will be required.

AUD 614 Instrumentation and Acoustics 2 cr
Study of basic electricity, acoustics and measurement of sound properties, wave analysis, transducers, measuring and calibration systems, speech processing systems, and system interaction and integration.

AUD 615 Speech and Language Science 3 cr
Study of the acoustical, perceptual, physiological aspects of speech; as well as the phenomena of communication and language development. These are discussed as they relate to the field of audiology.

AUD 616 Research Design and Statistics for the Hearing Sciences 3 cr
Research designs utilized in the hearing sciences; elements of research proposals and studies; how to critique a research study; how to conduct a literature review; APA format; students will be required to write précis of research articles and write a research proposal. Elements of modern statistics including sets and functions, probability theory, hypothesis testing, analysis of variance models, correlation, regression, distribution-free statistics, SPSS, multivariate statistical techniques including multiple regression, multivariate analysis of variance, discrimination, canonical and factor analysis.

AUD 621 Professional Issues 1 cr
This course will address a variety of professional issues such as organizations, societies, and their histories; codes of ethics; scopes of practice; credentialing and licensure; the development of the Au.D.; guidelines and position statements generated by ASHA, AAA, ADA, and AVI; standards, and best practices; methods and models of service delivery; and infection control.

AUD 622 Medical Audiology 3 cr
This course will address acquired and congenital diseases and disorders of the outer, middle, and inner ear (including the vestibular system) and the central auditory nervous system (including auditory neuropathy and tinnitus) occurring across the lifespan; imaging techniques; non-audiologic medical and surgical interventions for these conditions; and cerumen management techniques, including a cerumen management practical experience.

AUD 630 Electroacoustic Characteristics of Amplification Systems 3 cr
This class will address styles and types of earmolds, hearing aids, and assistive listening devices; basic electronics, components of amplification systems and their electroacoustic properties and functioning; use of ANSI standards; earmold impressions; physical, acoustic, and electroacoustic modifications of earmolds and amplification systems.

**AUD 631  Selection and Fitting of Amplification Systems  3 cr**
This class will address the principles of selection and fitting amplification systems, including hearing aids and assistive listening devices; subjective and objective audiologic assessments used to determine need for, select, and fit appropriate amplification systems for patients of all ages; and techniques used to select and fit amplification systems. Special Fee.

**AUD 632  Verification and Validation of Amplification Systems  2 cr**
This class will address the principles of verification and validation; tools used to verify appropriate fitting of amplification systems (such as real-ear probe-mic equipment) and techniques used to validate fitting (such as software packages, and subjective and objective audiologic measures); cochlear implant re-mapping.

**AUD 633  Advanced Sensory Aids  3 cr**
This course will address advanced technologies for individuals with hearing-impairment such as cochlear and brainstem implants, vibrotactile aids, and implantable devices, as well as the selection and fitting of these technologies.

**AUD 640  Basic Audiologic Assessment  3 cr**
This course will address the principles of cross-check, the test battery approach, differential diagnosis, relevant test equipment, instruments, and transducers, administration and interpretation of the pure-tone testing, clinical masking, case history, otoscopy, and tuning-fork tests, speech audiometry; tests for pseudo-hypacusis, otoxicity, site-of-lesion testing and historical assessments; and informal assessment procedures.

**AUD 641  Impittance Measures  2 cr**
This course will address administration and interpretation of the immittance test battery, including standard and multi-frequency tympanometry, ART, AR decay, ETF testing, SPAR, and facial nerve testing.

**AUD 642  Pediatric Audiology  3 cr**
The course will address issues associated with providing audiologic services to pediatric and developmentally delayed populations. Issues will include gestational development, test administration and interpretation; genetic transmission of hearing loss, risk factors for hearing loss; principles of screening and the development and construction of a screening program; universal newborn hearing screening and early hearing detection and intervention programs.

**AUD 643  Audiology and Aging  3 cr**
This course will address the issues associated with providing audiologic services to older adults. Issues will include effects of aging on anatomy, physiology, and function, and test administration and interpretation issues specific to older adults.

**AUD 644  Otoacoustic Emission Measures  2 cr**
This course will address administration and interpretation of otoacoustic emission measures across the lifespan. Influence of intrinsic and extrinsic variables including cochlea and retro-cochlear pathology on outcomes; differential diagnosis.

**AUD 645  Evoked Potential Measures  3 cr**
This course will address instrumentation (transducers and electrode types); application and interpretation of evoked potential (EP) measures including ENOG, ECochG, ABR, middle and late potentials, across the lifespan; sedation protocols; assessment protocols associated with different EP measures and the populations to which they are applied; population norms; intrinsic and extrinsic variables affecting EP results; differential diagnosis of auditory neuropathy; troubleshooting.
AUD 646  Pediatric Audiologic Habilitation  3 cr
This class will address the speech and language of the hearing impaired, philosophies and methods of teaching speech and language to children with hearing impairment that utilize manual and/or oral components including American Sign Language, Signing Essential English I and II, Cued Speech, and Total Communication, and Auditory-Verbal therapy.

AUD 647  Adult Audiologic Rehabilitation  3 cr
This class will address the implications of hearing loss in adulthood including the educational, vocational, social and legislative concerns of adults with hearing loss; hearing aid orientation approaches; and assessment tools and intervention techniques used in order to maximize communication skills.

AUD 648  Counseling the Hearing Impaired and Their Families  3 cr
This class will address various theories, principles and techniques associated with the social and psychological aspects of disability as well as issues specific to and techniques used when counseling patients with hearing loss and their families.

AUD 650  Vestibular Assessment and Treatment  3 cr
This class will address assessment approaches utilized in the diagnosis of vestibular disorders (such as ENG) and procedures used in the management of these disorders (such as vestibular rehabilitation techniques).

AUD 651  Assessment and Treatment of Auditory Processing Disorders  3 cr
This course will address the development, assessment and interpretation of an auditory processing screening protocol and test battery across the lifespan, as well as intervention approaches.

AUD 652  Educational Audiology  3 cr
This course will address the delivery of audiology services to a school-based population. Issues to be addressed will include the development, management and utilization of hearing and middle ear system screening programs, classroom acoustics, selection and fitting of classroom-based amplification, and federal law associated with children with special needs.

AUD 653  Industrial and Forensic Audiology  3 cr
This class will address OSHA regulations and documentation, synergistic effects of noise exposure, sound measurement in the field, use of dosimeters, development and implementation of a hearing conservation program, hearing protection options, their fitting and evaluation, and forensic audiology.

AUD 654  Tinnitus and Hyperacusis  2 cr
This class will address assessment and intervention approaches used in the management of tinnitus and hyperacusis.

AUD 655  Speech-Language Pathology for Audiologists  3 cr
This class will address specific topics in speech-language pathology relevant for audiology majors.

AUD 661  Development and Management of Audiology Practices  3 cr
This course will address issues associated with audiology practice management including techniques involved in developing a mission statement and a business plan; working with an accountant; determining type, location, and name of practice; regulation, licensure, and hiring a legal advisor; equipment and service delivery decisions; establishing accounts with suppliers, paying bills and budgeting; third-party reimbursement, Medicaid, and Medicare; hiring and supervision; demographics and marketing; use of outcome data; and professional writing.

AUD 670  Clinical Practicum I  1 or 2 cr
Students will observe clinical activities as well as obtain experience with basic audiologic techniques on non-clinic populations in the USA Speech & Hearing Center while under direct supervision. Special Fee.

**AUD 671  Clinical Practicum II**  
3 cr  
Students will obtain experience administering a number of audiologic assessment and intervention techniques to clinic populations in the USA Speech and Hearing Center and external practicum sites while under direct supervision. Special Fee.

**AUD 672  Clinical Practicum III**  
1 cr  
Opportunity for students to obtain additional supervised clinical experience prior to starting full-time externship. Special Fee.

**AUD 673  Supervision in Audiology**  
2 cr  
This course includes a description of supervision and supervisors, the development of supervisory behaviors, components of the supervisory process, models for the assessment of supervisees, analyzing the supervisory process, supervision across settings, supervision of non-audiology personnel, and accountability.

**AUD 674  Special Projects in Audiology**  
3 cr  
Student will be required to develop a variety of projects during their academic training some of which will be further developed and completed during this course.

**AUD 675  Special Topics in Audiology**  
1 cr  
Students will identify cases or service delivery issues of clinical or professional interest and present these cases or issues to fellow students, clinical supervisors, and faculty via a chat room in a grand rounds format.

**AUD 676  Externship**  
3 to 11 cr  
Off-campus opportunity to obtain clinical experience in a full-time setting.
BIOCHEMISTRY (BCH)

BCH 520 Medical Biochemistry 7 cr
A basic course in biochemistry with emphasis on the physicochemical properties and intermediary metabolism of proteins, carbohydrates, lipids, and nucleic acids. The regulation and integration of metabolic pathways for energy transfer and biosynthesis of major cellular constituents are presented in detail. Enzymes, vitamins, hormones, biochemical genetics, and nutrition are included in the course material.

BCH 526 Literature Reports 1 cr
Students and faculty participate in a supervised reading of the current literature and meet periodically (usually once a week) to interact in a discussion of the selected article or topic. The goal of this course is to maintain the faculty’s and students’ level of information at a “state of the art” in both methods and theory in the discipline and to develop critical skills in reviewing the literature.

BCH 527 Directed Studies 1-6 cr
Students participate in research under the direction of a graduate faculty member. The student may pursue independent research or participate in a literature project.

BCH 590 Special Topics 1-3 cr
This course provides in-depth tutorial exposure to specific areas in the discipline. Student and/or faculty presentations followed by group discussions (usually in the Socratic mode), examine the subject matter in an area of current interest either to one student or to a group of students. Credits and titles are arranged with an individual faculty member.

BCH 620 Enzymes and Proteins 3 cr
The techniques used for the physical and chemical characterization of proteins are presented and protein structure-function relationships, enzyme kinetics, and enzyme mechanisms are presented to provide a student with the basic knowledge to understand the role of functional proteins in life processes.

BCH 622 Molecular Biology 3 cr
The focus of this course is on cellular processes involving DNA repair, replication and translation. Current concepts regarding the organization and structure of chromosomes, genes, and the regulation of gene expression will be discussed. Eukaryotic molecular biology is emphasized; however, some eukaryotic and prokaryotic processes are compared and contrasted. This course stresses the methods and experimental design used to delineate and understand cellular information transfer and molecular phenomena.

BCH 626 Research Seminar 1 cr
Students and faculty present a research topic for discussion before members of the department. The presentations are usually scheduled on a rotational basis. The student may present research data for critique by the faculty.

BCH 799 Research/Dissertation 1-6 cr
Independent research by the student under the sponsorship of the graduate faculty in individual departments in the Basic Medical Sciences. Prerequisite: Approved formal research proposal.

College of Medicine
### BIOLOGY (BLY)

Prerequisites for all courses may be waived with permission of the instructor.

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BLY 134</td>
<td>Ocean Science</td>
<td>3 cr</td>
</tr>
</tbody>
</table>
An introduction to physical, chemical, and biological oceanography. Prerequisite: BLY 101 (usually taught in the spring semester).

BLY 134L Ocean Science Laboratory 1 cr
Laboratory experiences associated with BLY 134. Prerequisite: BLY 134 or concurrent enrollment. Fee.

BLY 205 Introduction to Environmental Science 3 cr
Environmental science, including the fundamentals required to understand how ecosystems work, how environmental modifications affect ecosystems and living things, and how living things affect their environment. Topics to be emphasized include the effects of pollution, habitat modification, and other environmental changes, on ecosystems, plants, wildlife, man, outdoor recreation, and the future. Public health and medical effects will also be considered. Many topics covered are of special significance to this region: wetlands, the effects of dredging and filling, artificial lake construction, development, agricultural and forestry practices on ecosystems, plants, and animals. Prerequisite: college biology, or permission of instructor.

BLY 207* Biology of Aging 3 cr
A descriptive review of processes of aging. Emphasis is placed on studying structural and functional changes that could occur with increase in chronological age. Prerequisite: BLY 101, equivalent course, or permission of instructor (usually taught in the fall, spring, and summer semesters).

BLY 213* Microbiology 3 cr
A survey of bacteria, fungi, protozoa, and viruses with emphasis on host-microbe interactions, immune responses, and control mechanisms. Prerequisite: BLY 101 or BLY 152.

BLY 214* Laboratory Studies in Microbiology 1 cr
A series of laboratory experiments designed to provide practical experiments in basic microbial techniques. Prerequisite: BLY 213 or concurrent enrollment. Fee.

BLY 215* Human Genetics 3 cr
For students who desire knowledge of human genetics either to further their career goals of to enhance their liberal-arts education. Prerequisite: BLY 101 or permission of chair.

BLY 251*,252* Anatomy and Physiology I, II 4 cr each
Structure and function of the normal human body, ranging from cells through systems, with emphasis on integration and regulation at all levels. Take in sequence. Fee.

BLY 311 Genetics 4 cr
Principles and processes involved in the transmission of heredity traits. Mendelian principles are correlated with modern genetic concepts. Enrollees must register for recitation section. Genetics Laboratory (BLY 312) is recommended but not required. Category A or D. Prerequisite: BLY 121 (usually taught in the spring semester).

BLY 312 Laboratory Studies in Genetics 2 cr
Designed to illustrate classical and molecular principles through laboratory experiences. Studies in eukaryotic and prokaryotic genetics are utilized. Prerequisite: BLY 311 or concurrent enrollment in BLY 311 (usually taught in the spring semester). Fee.

BLY 314 Molecular Microbiology (W) 4 cr
Study of prokaryotic and eukaryotic microorganisms and their relationship to their environment. Molecular, genetic, and biochemical aspects of each will be emphasized. Prerequisite: CH 131.

BLY 325 Ecology (C) 4 cr
Basic ecological principles operating in terrestrial, freshwater, and marine ecosystems. Field work in representative biotic communities of the Mobile region constitute an integral part of the course. Category D (taught in the spring semester). Fee.

BLY 332 Introduction to Non-Vascular Plants 4 cr
A survey of non-vascular plants: algae, fungi, liverworts, and mosses, with emphasis on morphology and taxonomy. Category B.

**BLY 341**  
**Cell Biology**  
3 cr  
A course designed to integrate cell structure and function: the study of the ultrastructure, organization, physiology, genetics, and other functions of the cell. Prerequisites: CH 131 and CH 132. Category A (usually taught in the fall semester).

**BLY 342**  
**Cell Biology Laboratory (W) (C)**  
2 cr  
Laboratory experience with instrumentation and techniques utilized in modern cell biology research including organellar isolation, protein analysis, and microscopic techniques. Prerequisite: BLY 341 or concurrent enrollment (usually taught in the fall semester). Fee.

**BLY 352**  
**Biology of Terrestrial Vertebrates (W)**  
4 cr  
Evolution, characteristics, classification, life history, ecology, and behavior of amphibians, reptiles, birds, and mammals. Laboratory and field work emphasize local species. Category C (usually taught in alternate spring semester).

**BLY 354**  
**General Entomology**  
4 cr  
Classification and habits of insects, including collection, preservation, and identification of those occurring in South Alabama. Category C. (taught in the fall semester).

**BLY 360**  
**The Invertebrates**  
4 cr  
Detailed study of the invertebrate phyla: taxonomy, ecology, and phylogenetic relationship. Terrestrial, freshwater, and marine forms are studied. Category C.

**BLY 363**  
**Vertebrate Embryology**  
4 cr  
Avian and amphibian histogenesis and organogenesis from fertilization to time of histological maturity. Category C.

**BLY 365**  
**Comparative Vertebrate Anatomy**  
5 cr  
Anatomy and evolution of the organ systems of the major vertebrate groups. Laboratory includes dissections of dogfish sharks and cats. Category C (usually taught in the fall semester).

**BLY 367**  
**Marine Biology**  
4 cr  
Local marine environments and the classification, morphology, and ecology of the locally occurring flora and fauna. Category D (usually taught in the summer semester).

**BLY 425**  
**Chemical Ecology (W)**  
3 cr  
This class focuses on chemically mediated interactions between, among, and within organisms in both the aquatic and terrestrial environments. The topics covered include: chemoreception, chemical defense, chemical attraction, and the impact of chemical ecology on humans. This course includes a writing component. Students will gain experience in critical analysis, research development, grant writing and computer based presentation. Category D. Prerequisites: BLY 325, BLY 341, BLY 436, and CH 201.

**BLY 426**  
**Freshwater Ecology**  
3 cr  
This course examines four aspects of freshwater ecology; physical and chemical properties of water, biotic communities, links among freshwater systems, and human influence on freshwater ecosystems. Students will be required to submit a collection of local freshwater invertebrates. Prerequisite: Ecology (BLY 325). This prerequisite may be waived at the discretion of the instructor. Category D (taught every second fall semester).

**BLY 430**  
**Marine Botany**  
4 cr  
A general survey of marine algae and vascular and non-vascular plants associated with the marine environment. Distribution, identification, structure, ecology, and reproduction will be considered. Course offered only through marine Environmental Science Consortium. Category B (usually taught in the summer semester).

**BLY 431**  
**Plant Physiology (W)(C)**  
4 cr
A critical study of higher plant function. This course includes a study of water relations, plant biochemistry, and plant development. Category A (usually taught in the spring semester). Fee.

**BLY 432 Morphology of Vascular Plants**  
4 cr  
Morphological features and possible relationships of psilophytes, club mosses, horsetails, ferns, and seed plants. Illustrated whenever feasible with local plants. Category B.

**BLY 433 Taxonomy of Flowering Plants**  
4 cr  
Principles of classification of flowering plants; survey of major plant families; collection and identification of representative local plants. Field trips. Category B (usually taught in the spring semester).

**BLY 435 Biology of Fungi**  
4 cr  
Identification and morphology of fungi with some emphasis on their relation to human affairs. Collection required. Category B (usually taught in the spring semester).

**BLY 436 Animal Physiology (W)(C)**  
4 cr  
This class will take a comparative approach to animal physiology. Comparisons of structural and functional relationships in the body systems of invertebrates and vertebrates, including humans, will be made. A basic foundation in chemistry and cell biology is required for this course. This course incorporates writing and computer components. Students will gain experience in critical analysis, research development and analysis, word processing, computer based statistical and graphical analysis, and in computer based presentation programs. Prerequisites BLY 341, BLY 342, CH 131, and CH 132. Category A (usually taught in the spring semester). Fee.

**BLY 440 Biochemistry I**  
3 cr  
Principles of carbohydrate, protein, lipid, and nucleotide chemistry; membrane phenomena; enzyme kinetics and bioenergetics. Prerequisite: CH 201. Also cross-listed as CH 440. Category A (usually taught in the fall semester).

**BLY 441 Biochemistry II**  
3 cr  
Course is sequential to Biochemistry I and focuses on reactions and regulation of intermediary metabolism; molecular genetics, hormonal action, and nutrition. Prerequisite: BLY 440. Requires special permission. Also cross-listed as CH 441. Category A (usually taught in the spring semester).

**BLY 443 Laboratory Studies in Biochemistry**  
3 cr  
Course familiarizes the student with basic laboratory techniques commonly employed in biochemical research. Prerequisite: BLY 440 or concurrent enrollment in BLY 441. Requires special permission. Also cross-listed as CH 443. Fee.

**BLY 450 Animal Behavior**  
3 cr  
Introductory animal behavior from a biological viewpoint, emphasizing behavioral adaptation of animals to their environment. Orientation, migration, rhythms, communication, territoriality, experimental techniques, and ecological and evolutionary aspects of behavior will be considered. Category D (usually taught in the spring semester).

**BLY 451** Marine Vertebrate Zoology  
4 cr  
A study of marine vertebrates, with emphasis on fishes; their systematics, zoogeography, and ecology. Category C (usually taught in the summer semester).

**BLY 455 Ornithology (W)**  
4 cr  
Principles of classification, structure, distribution, migration natural history, and adaptations of birds within an ecological context. Field and laboratory identification of birds by habitat, size, form, color, and sound. Some field activities may occur at times other than regularly scheduled laboratory hours. Category C (usually taught in alternate spring semester).

**BLY 459 General Parasitology**  
3 cr  
Principles of parasitology and a survey of all major parasitic groups. Category C (usually taught in the fall semester).
BLY 463  Vertebrate Histology  4 cr
Microscopic anatomy of organ systems, with emphasis on human tissues. Category C.

BLY 470  Herpetology  4 cr
A field course that emphasizes the ecology, evolution, natural history, characteristics, structure, function, geographic distribution, behavior, and systematics of amphibians and reptiles. Course includes structured writing assignments and focuses on good writing skills and forms. Laboratory and field work emphasize identification of specimens by name, habit, and characteristics. Some field activities will occur at time other than the scheduled laboratory hours.

BLY 471** Marine Invertebrate Zoology  4 cr
A study of the natural history, systematics, and morphology of marine invertebrates. Category C (usually taught in the summer semester).

BLY 474** Introduction to Oceanography  4 cr
A general introduction to the oceans, with emphasis on chemical, physical, and geological processes, and their relation to biological systems.

BLY 475** Marine Ecology  4 cr
The relationship of marine organisms to their environment. Category D (usually taught in the summer semester).

BLY 478** Marsh Ecology (W)  4 cr
A study of floral and faunal elements of various marsh communities. Interaction of physical and biological factors will be emphasized. Course is structured to provide actual field experience in addition to lecture material. Category D (usually taught in the summer semester).

BLY 481** Marine Technical Methods  2 cr
An introduction to instruments and procedure normally used aboard a marine research vessel, including physical, biological, chemical, and geological parameter measures and sample collection (usually taught in the summer semester).

BLY 483** Field Marine Science  2 cr
The Field Marine Science course consists of a 10-day field exercise in the tropical southeastern Gulf of Mexico (Florida Keys) and the temperate north Atlantic. Sites alternate annually. Faculty members with diverse interests accompany the students, participate in pretrip readings and discussion sessions and evaluate the product developed by each student. Prerequisites: Senior or graduate standing in a major related to marine sciences and permission of the instructor.

BLY 484  Conservation Biology  3 cr
The study of preserving biodiversity and sustaining ecosystems using a multidisciplinary approach. Primary emphasis will focus on the development of strategies for preservation and management using scientific principles and theory. Prerequisite: BLY 325.

BLY 485  Evolutionary Biology  3 cr
The study of mechanisms and historical patterns of evolutionary change in biological systems ranging form genes to phylogeny. Prerequisite: BLY 311.

BLY 490  Special Topics  3-5 cr
Small, interested groups of students will study specialized topics not generally listed in the course offerings. Faculty and visiting professors will offer courses in their areas of specialization. Prerequisite: Permission of the department.

BLY 494  Directed Studies  1-4 cr
This course is designed to enable the capable student to pursue independent research under the direction of a member of the faculty. Prerequisite: Permission of the department chair.

BLY 499  Honors Research in Biology (W)  1-6 cr
Experience in planning, conducting, and reporting a research project under the direction of the faculty. Prerequisites: BLY 121/BLY 122, CH131/CH 132, overall GPA 3.0, biology GPA 3.5, and permission of the department chair.
BLY 511  Developmental Biology  3 cr
The genetic and biochemical interactions present in the early embryonic development of higher organisms. Emphasis on animal development. Prerequisites: BLY 311, BLY 341, BLY 363.

BLY 515  Ecotoxicology  4 cr
The impact of chemicals as toxic agents on ecosystems. Students will understand types, sources, and effects of environmental toxicants, methods of testing and interpretation, and regulation of environmental toxicants. This material will be presented in the context of ecosystem health rather than human health. This is a core course for M.S. degree students in the Environmental Toxicology program.

BLY 520  Biometry  4 cr
The application of statistical methodology, both univariate and multivariate techniques, to the solution of biological problems. This course is not designed as a substitute for instruction in statistics, but rather to complement previous course work. The laboratory will involve the use of PC computers to perform procedures on biological data and subsequent interpretation of the results. Prerequisites: ST 275 and one BLY 300 level course. Prerequisites can be waived at the discretion of the instructor. Category D (taught every second spring semester). Fee.

BLY 525  Chemical Ecology  3 cr
Chemical Ecology focuses on chemically mediated interactions within organisms in both aquatic and terrestrial environments. The topics covered include: chemoreception, chemical defense, chemical attraction, and the impact of chemical ecology on humans. This course includes a writing component. Students will gain experience in critical analysis, research development, grant writing and computer based presentation. Prerequisites: BLY 325, BLY 341, BLY 436 and CH 201.

BLY 526  Freshwater Ecology  3 cr
This course examines four aspects of freshwater ecology; physical and chemical properties of water, biotic communities, links among freshwater systems, and human influence on freshwater ecosystems. Students will be required to submit a collection of local freshwater invertebrates. Prerequisite: Ecology (BLY 325). This prerequisite may be waived at the discretion of the instructor. (taught every second fall semester).

BLY 530  Marine Microbial Ecology  3 cr
A general survey of the types of microorganisms found in the marine environment. Emphasis will be on the interaction of microorganisms with each other and with their environment. In particular, the role of microorganisms in carbon cycling and biogeochemical processes will be stressed. Readings from current literature will expose students to the latest techniques and research. Cross listed with Marine Sciences.

BLY 533  Topics in Parasitology  3 cr
Theoretical aspects of parasite ecology, evolution, and physiology, with emphasis on current literature.

BLY 535/435  Biology of Fungi (Mycology)  4 cr
Identification and morphology of fungi with some emphasis on their relation to human affairs. Collection required. Credit for both BLY 535 and BLY 435 is not allowed.

BLY 540/440  Biochemistry I  3 cr
Principles of carbohydrate, protein, lipid, and nucleotide chemistry; membrane phenomena; enzyme kinetics and bioenergetics. Prerequisite: one year of organic chemistry. Credit for both BLY 540 and BLY 440 is not allowed.

BLY 541/441  Biochemistry II  3 cr
Sequential to Biochemistry I and focuses on reactions and regulation of intermediary metabolism; molecular genetics, hormonal action, and nutrition. Prerequisite: BLY 540/440. Credit for both BLY 541 and BLY 441 is not allowed.

BLY 543/443  Laboratory Studies in Biochemistry  3 cr
Familiarizes the student with basic laboratory techniques commonly employed in biochemical research. Prerequisite: BLY 541. Credit for both BLY 543 and BLY 443 is not allowed.
BLY 551/451** Marine Vertebrate Zoology 4 cr
A study of marine vertebrates with emphasis on fishes; their systematics, zoogeography, and ecology. Students will have an opportunity to assemble a collection of vertebrate species. Credit for both BLY 551 and BLY 451 is not allowed.

BLY 570/470 Herpetology 4 cr
A field course that emphasizes the ecology, evolution, natural history, characteristics, structure, function, geographic distribution, behavior, and systematics of amphibians and reptiles. Course includes structured writing assignments and focuses on good writing skills and forms. Laboratory and field work emphasize identification of specimens by name, habit, and characteristics. Some field activities will occur at times other than the scheduled laboratory hours. Oral classroom presentations required.

BLY 571/471** Marine Invertebrate Zoology 4 cr
A study of the natural history, systematics and morphology of marine invertebrates. Credit for both BLY 571 and BLY 471 is not allowed.

BLY 573** Oceanology of the Gulf of Mexico 2 cr
A descriptive study of the oceanology of the Gulf of Mexico and adjacent waters, including coastal zone, continental shelf, and deep ocean. Prerequisite: Degree in a science. Fee.

BLY 575/475** Marine Ecology 4 cr
The relationship of marine organisms to their environment. Credit for both BLY 575 and BLY 475 is not allowed.

BLY 578/478** Marsh Ecology 4 cr
Study of floral and faunal elements of various marine marsh communities. Interaction of physical and biological factors emphasized. Structured to provide actual field experience in addition to lecture material. Credit for both BLY 578 and BLY 478 is not allowed.

BLY 583/483** Field Marine Science 1-4 cr
An 8-12 day field exercise in representative coastal sites. The field exercise is conducted in the break prior to the semester of registration for the course. Faculty members with diverse interests will accompany the students, participate in pretrip discussions and evaluate the product developed by each student. Designed to familiarize students with habitats and research conditions different from those they experience on the Northern Gulf Coast. Field trip locations selected on the basis of faculty/student interest, economics, and availability of logistical support. Students pay their room and board costs for the field exercise. Primarily for graduate students, but advanced undergraduates may enroll with consent of instructor. BLY 483/BLY 583 may be taken for credit when taught in a different environment.

BLY 585 Evolutionary Biology 3 cr
The study of mechanisms and historical patterns of evolutionary change in biological systems ranging from genes to phylogeny.

BLY 589** Marine Plankton 3 cr
The course familiarizes the student with the taxonomic breadth of phytoplankton, bacterioplankton and zooplankton in estuaries, coastal seas and open oceans. Though the focus is on taxonomic familiarization, basic biology of all major taxa represented in the plankton will be covered. Students will learn fundamental, as well as "cutting-edge" field, lab and statistical techniques. Prerequisite: Graduate status in one of the physical or biological sciences.

BLY 590 Special Topics 1-4 cr
Specialized topics not generally listed in the course offerings.

BLY 592 Seminar 1 cr
Recent research in areas of special academic interest to students and faculty.

BLY 594 Directed Studies 1-4 cr
Independent research under the direction of a member of the graduate faculty. Primarily intended for non-thesis graduate students. A maximum of six credits may be granted for this course. Special permission must be granted.

**BLY 599 Thesis 1-4 cr**
Prerequisite: Approval of research prospectus by student's graduate committee.

*Course not counted toward a major in biology.
**Course is usually offered at Sea Lab, Dauphin Island.

</tbody>
</table>
Study of medical physiology with emphasis on cellular physiology and communication through the nervous and endocrine system. This course is the first of a 2 course sequence. Prerequisites: BLY 121 & BLY 122; CH 131 & CH 132. Taught fall semester.

**BMD 335 Human Physiology II**
Study of medical physiology with emphasis on the basic principles of organ system physiology. The course emphasizes muscle, cardiovascular, renal, respiratory, digestive, and reproductive physiology and an introduction to immunology. This is the second course in a 2 course sequence. Prerequisite: BMD 334. Taught spring semester.

**BMD 336 Physiology Laboratory - (W)**
This laboratory is designed to afford students hands-on laboratory experience in membrane physiology, motor and sensory neurophysiology, cardiovascular, respiratory and renal physiology. Limited to BMD majors unless by special permission. Prerequisites: BMD 334 and BMD 335 (or BMD 335 concurrently). Taught fall and spring semesters. Special fee.

**BMD 390 Special Topics**
Topics of current health interest.

**BMD 401 Immunology**
This course presents the basic concepts of immunochemistry, immunobiology and host immune responses to disease. Antigens, antibodies, cells and structures of the immune system will be discussed as well as their roles in the process of immunity, allergies, transplantation and diseases. Prerequisites: BMD 321 or (CH 201 and CLS 114 and BMD 210). Taught fall semester.

**BMD 402 Medical Microbiology**
This course presents the concepts of pathogenicity and virulence as they relate to disease causing bacteria, viruses, and fungi. Mechanisms of pathogenicity, interrelationships and interactions that occur between the host, the parasite and their environments will be emphasized in molecular terms. General concepts of microbial physiology, genetics and antimicrobial therapy are also presented. The laboratory portion of the course will provide hands-on experience in the handling and identification of bacteria. Prerequisite: BMD 401. Taught spring semester. Special fee.

**BMD 410 Pathophysiology**
A systematic study of disease processes involving relationships between pathophysiological changes and clinical manifestations. Prerequisites: BMD 210 or BMD 401 or acceptable microbiology course; BMD 334 and BMD 335 or CLS 114 and CLS 115. Taught fall and spring semesters.

**BMD 415 Microscopic Anatomy**
A course in (human) microscopic anatomy with laboratory emphasizing recognition and utilizing traditional histologic techniques to process tissue for microscopic examination. Prerequisite: BMD 311. Taught fall semester. Special fee.

**BMD 420 Pharmacology**
An introduction to pharmacological concepts and effects and uses of major drug classes. Drug design, pharmacodynamics (receptors, mechanisms, dose-response) and pharmacokinetics (time-action) are discussed in general (principles), and in particular, for selected classes of drugs. Prerequisites: BMD 321, BMD 322, BMD 334, and BMD 335. Taught fall semester.

**BMD 430 Neurosciences - (W)**
A study of neuroscience which integrates neurochemistry, neuroanatomy, and neurophysiology, emphasizing cellular neurobiology, neural systems, and the neurobiology of behavior. Prerequisites: BMD 311, BMD 321, BMD 322, BMD 334, and BMD 335. Taught spring semester.

**BMD 450 Introduction to Research**
Basic concepts of research will be presented to provide a fundamental understanding of the application of the scientific method as a means to advance knowledge in the biomedical sciences. Prerequisites: BMD 311, BMD 321, BMD 322, BMD 334, BMD 335 and BMD 336. Taught fall, spring, and summer semesters.

**Department of Biomedical Sciences**

**College of Allied Health**
BUSINESS (BUS)

BUS 150  Introduction to Business and Management  3 cr
A survey of the field of business, including profit-seeking firms, not-for-profit organizations, and new businesses created by entrepreneurs. Emphasis on the business environment, organization and management, current economic and international issues, and career opportunities. Societal and ethical issues are also examined. Open to Business freshmen and all other freshmen and sophomores.

BUS 245  Applied Business Statistics I  3 cr
An examination of statistical techniques that are used to support managerial decision-making and problem solving. Topics include measures of central tendency and dispersion, probability theory, discrete and continuous sampling distributions, methods of estimation, and test of hypotheses. Prerequisite: MA 112.

BUS 255  Applied Business Statistics II  3 cr
The application of statistical techniques for analysis for business problems. Emphasis will be placed on forecasting techniques. Topics will include: resources of data, index numbers, time-series analysis, correlation and regression analysis, step-wide regression, and problems associated with the regression of time-series data. Prerequisite: BUS 245 or ST 210.

BUS 305  Information Systems and Technology  3 cr
The analysis, design, and implementation of information systems. Analysis of the functional area of business and integration of computer tools to satisfy information requirements. Current developments in business computer systems, including surveys of current systems and the Internet. Computer classrooms are utilized to provide students with "hands on" experience. Prerequisite: CIS 250.

BUS 496  Mitchell Honors Senior Project I
Applied business project and paper prepared under the direction of a project advisor plus two other persons elected by the advisor in consultation with the student. The student must have developed a proposal for the project and paper in consultation with the advisor and received permission from the committee to proceed. In addition, the student must be entering his or her senior year and be a major in the Mitchell College of Business. The project proposal must be formulated no later than the end of the first semester of the student's senior year and the project must be completed by the student's graduation date. The student must have maintained his or her standing in the university honors program to be eligible to enroll in this course. The student will formally enroll in the course in his or her last full semester in school. The course may be counted in one of two ways: 1) as an additional course not counting towards the business degree, or 2) in special cases, as a major or business elective, to be decided by the committee. Prerequisites: Completion of HON 399 and the business core with the exception of MGT 485.

BUS 497  MCOB Honors Senior Project II
Applied business project and paper prepared under the direction of a project advisor plus two other persons selected by the advisor in consultation with the student. The student must have developed a proposal for the project and paper in consultation with the advisor and received permissions from the committee to proceed. In addition, the student must be entering his or her senior year and be a major in the Mitchell College of Business. The project proposal must be formulated no later than the end of the first semester of the student’s senior year and the project must be completed by the student’s graduation date. The student must have maintained his or her standing in the university honors program to be eligible to enroll in this course. The student will formally enroll in the course in his or her last full semester in school. The course may be counted in one of two ways: 1) as an additional course not counting towards the business degree, or 2) in special cases, as a major or business elective, to be decided by the committee. Prerequisites: Completion of HON 399, BUS 496, and the business core with the exception of MGT 485.

BUS 498 Mitchell Scholars Senior Project
Applied business project and presentation prepared under the direction of the instructor in consultation with the student. This course will have irregular meetings scheduled by the instructor and will have both a classroom component and a project component. The student must have maintained his or her standing in the Mitchell Scholars program and be a senior to be eligible to enroll in this course. This class will be counted in one of three ways: 1) as a business elective, 2) as an additional course not counting towards the business degree, or 3) in special cases, as a major elective to be decided by the major department’s faculty. Prerequisite: Completion of the business core with the exception of MGT 485.

Mitchell College of Business
CARDIORESPIRATORY CARE (CRC)

All courses require admission to the professional component or permission of the chair.

**CRC 330 Cardiorespiratory Care Assessment Skills** 4 cr
A presentation of patient assessment skills to prepare for subsequent courses in the curriculum. Modules included are chart review and history, vital signs, physical assessment of the chest, chest radiography, laboratory assessment, bedside pulmonary function testing, electrocardiography, and cardiopulmonary resuscitation. Students are prepared to function in a problem-based learning curriculum. Special fee.

**CRC 331 Respiratory Anatomy and Physiology** 3 cr
The structure and function of the respiratory system will be discussed. Emphasis will be placed on (1) the physiologic ramifications associated with respiratory therapeutic intervention and (2) interrelationships between the pulmonary and renal systems and how these two systems influence and control the body's acid-base status.

**CRC 332 Intermittent and Diagnostic Cardiorespiratory Care** 5 cr
This course will focus on cases involving patients receiving intermittent respiratory care modalities including oxygen and aerosol therapy, resuscitation, airway care, pharmacology, chest physiotherapy, incentive spirometry, and IPPB. Infection control issues will be included. Diagnostic issues include pulmonary function testing and arterial blood gas analysis. Students will discuss the pathophysiology, health promotion and disease prevention aspects of each case. Relevant laboratory exercises will be conducted.

**CRC 334 Pharmacology** 1 cr
An overview of pharmacological principles will be presented. Emphasis will be given to drugs influencing the respiratory, cardiovascular, nervous, and renal systems.

**CRC 335 Intensive Cardiorespiratory Care** 6 cr
This course will focus on cases involving patients receiving intensive cardiorespiratory care modalities including mechanical ventilation, invasive and non-invasive monitoring, artificial airways, and hyperbaric oxygen therapy. Diagnostic issues will include hemodynamic monitoring and fiberoptic bronchoscopy. Students will discuss the pharmacology, pathophysiology, health promotion and disease prevention aspects of each case. Relevant laboratory exercises will be conducted.

**CRC 342 Intermittent Cardiorespiratory Care Practicum** 3 cr
Clinical experiences are conducted in the care of patients who are receiving respiratory care modalities, as discussed in the cases in CRC 332. Students prepare and present case studies relevant to this patient population.

**CRC 345 Intensive Cardiorespiratory Care Practicum** 6 cr
Clinical experiences will involve patients who receive intermittent and intensive care modalities and diagnostic procedures discussed in the cases in CRC 335. Students will prepare and present case studies relevant to this patient population.

**CRC 415 Research Methodology** 2 cr
A survey of research designs, methods, and evaluative techniques, applicable to basic science and clinical research studies.

**CRC 429 Cardiovascular Physiology** 1 cr
Discusses the physiology of the heart and the vasculature. Will serve as the basis for understanding cardiovascular pathophysiology.
CRC 430 Neonatal-Pediatric Cardiorespiratory Care 3 cr
This course will focus on cases involving infants and children. Topics include developmental anatomy and physiology, assessment, pathophysiology, basic and intensive care, pharmacology, extracorporeal membrane oxygenation, and resuscitation. Students will discuss the pharmacology, pathophysiology, health promotion and disease prevention aspects of each case. Relevant laboratory exercises will be conducted.

CRC 431 Cardiopulmonary Diseases 3 cr
This course will focus on patients who have cardiovascular diseases and on patients who have pulmonary diseases. Students will use the case study method to learn about certain cardiopulmonary pathophysiologies, as well as their diagnostic approaches and treatment. Advanced Cardiac Life Support (ACLS) will also be taught. Special fee.

CRC 432 Subacute Care 4 cr
This course will focus on cases involving patients who are treated in nursing homes, subacute care facilities, rehabilitation programs, and the home. Topics will include health care settings and organization, polysomnography, subacute mechanical ventilation, and case management. Students will discuss the health promotion and disease prevention aspects of each case. Relevant laboratory exercises will be conducted.

CRC 440 Neonatal-Pediatric Cardiorespiratory Care Practicum - (W) 5 cr
Clinical experiences will involve the care of neonatal and pediatric patients who receive intermittent and intensive cardiorespiratory care, as discussed in the cases in CRC 430. Students will prepare and present case studies relevant to this patient population.

CRC 441 Cardiopulmonary Diagnostics Practicum 5 cr
Clinical experiences will involve the care of cardiac patients who receive intensive cardiovascular procedures and pulmonary function testing. The cardiovascular procedures include electrocardiography, echocardiography, and cardiac catheterization. Students will prepare and present case studies relevant to this patient population.

CRC 442 Subacute Care Practicum 5 cr
Clinical experiences involve the care of patients who are placed in subacute settings and in the sleep laboratory. Students will prepare and present case studies relevant to this patient population.

CRC 446 Cardiorespiratory Care Education - (W) 2 cr
General educational principles and projects will receive major emphasis. These principles and projects include writing instructional objectives, developing didactic and clinical instructional strategies, and constructing evaluation instruments. Accreditation and credentialing issues will also be addressed. Developing and presenting instructional units will be among the various projects assigned.

CRC 447 Cardiorespiratory Care Management 2 cr
This course will provide the student with experiences and projects pertaining to the management of a respiratory therapy and cardiopulmonary department. Some management functions include: JCAHO respiratory therapy standards, staff scheduling, departmental budgeting, quality assurance, evaluation of personnel, purchasing, and grievance procedures.

CRC 450 Clinical Research I - (W) 1 cr
This is the first part of a two-part course. Students will design and perform a research project, relating to either clinical practice, education, or management. The work involved in this course will extend through two successive semesters. Students register for CRC 450 Fall Semester of the senior year for one credit, and for CRC 451 Spring Semester for two credit hours. Special fee.

CRC 451 Clinical Research II - (W) 2 cr
This is the second part of a two-part course. Students will design and perform a research project, relating to either clinical practice, education, or management. The work involved in this course will extend through two successive semesters. Students register for CRC 450 Fall Semester of the senior year for one credit, and for CRC 451 Spring Semester for two credit hours. Special fee.

**CRC 499  Senior Honors Project - (H,W) 3-6 cr**

Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research project relevant to the field of Cardiorespiratory Care study that will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty members chaired by the honors mentor. This course is required for Honors recognition and may be repeated for up to six credit hours. Prerequisites: Permission of the department chair and completion of an approved project prospectus.

**College of Allied Health Professions**
COOPERATIVE EDUCATION (COE) ALTERNATING

COE 100  Alternating Cooperative Education,  No Credit
1st Training Period

Prerequisites: 12 hours of academic credit, a cumulative grade-point average of 2.3 or better, at least three semesters remaining before graduation, completion of the Employability Skills Seminar, acceptance into the Alternating Cooperative Education Program, and payment of the materials fee.

COE 101  Alternating Cooperative Education,  No Credit
2nd Training Period

Prerequisite: COE 100.

COE 200  Alternating Cooperative Education,  No Credit
3rd Training Period

Prerequisite: COE 101.

COE 201  Alternating Cooperative Education,  No Credit
4th Training Period

Prerequisite: COE 200.

COE 300  Alternating Cooperative Education,  No Credit

Cooperative Education Program
School of Continuing Education and Special Programs
CAREER PLANNING (CP)

CP 100 New Student Seminar 2 cr
A course for first-time students that assists with maximizing the student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by college life. Taught in small groups, the course provides an introduction to the nature of higher education and a general orientation to the functions and resources of the University. Extensive reading and writing assignments relevant to the student's first year experience are required. Special permission required.

CP 150 Study Skills and College Reading 3 cr
This course gives students the opportunity to develop and use study and reading strategies necessary for college success. Topics include note-taking techniques, test-taking techniques, time management, organizational skills, vocabulary skills, textbook reading skills, comprehension skills, critical reading and thinking skills.

CP 200 Clinical Observation 1 cr
(Medicine, Dentistry, Optometry, Pharmacy, and Veterinary Medicine)
Gives the student clinical exposure to various health-care services. A report on the experience is required. May be repeated for a maximum of six hours' credit. Prerequisite: Sophomore status and permission of Chair of Preprofessional Advisory Committee.

CP 250 Career Planning and Development 3 cr
Principles, methods, and practice in career planning and development with emphasis on career information, self analysis, exploration of careers, career opportunities, and guidelines for goal achievement.

CP 450 The Job Campaign 1-3 cr
Practical approach to career development designed to help students develop strategies for obtaining suitable employment and making career choices. Emphasis is on the principles, methods, and practice in achieving career goals through the study of careers, preparing resumes, writing letters of application, practicing job interview techniques, and identifying prospective employers.

Career Planning and Development Program

School of Continuing Education and Special Programs
CELL BIOLOGY AND NEUROSCIENCE (CBN)

CBN 501 Medical Gross Anatomy 8 cr
A course consisting of lectures and laboratory experience stressing the more important aspects of human morphology using both systematic and regional approaches supplemented by introductory radiological features.

CBN 510 Medical Histology 7 cr
A study of the structure and function of cells, tissues, and organs, which includes lectures, demonstrations, and individual laboratory study of slides.

CBN 511 Medical Neuroanatomy 6 cr
This course consists of lectures and laboratories stressing the important aspects of the structures of the central nervous system and emphasizing the functional aspects which relate to human disease.

CBN 513 Developmental Anatomy 2 cr
A course which presents a synopsis of human development and related information. Clinically related topics are emphasized while normal development is closely correlated with the systemic lectures given in the gross anatomy course.

CBN 516 Literature Reports 1 cr
Students and faculty participate in a supervised reading of the current literature and meet periodically (usually once a week) to interact in a discussion of the selected article or topic. The goal of this course is to maintain the faculty's and students' level of information at a "state of the art" in both methods and theory in the discipline and to develop critical skills in reviewing the literature.

CBN 517 Directed Studies 1-6 cr
Students participate in research under the direction of a graduate faculty member. The student may pursue independent research or participate in a literature project.

CBN 590 Special Topics 1-3 cr
Each course provides in-depth tutorial exposure to specific areas in the discipline. Student and/or faculty presentations followed by group discussions (usually in the Socratic mode), examine the subject matter in an area of current interest either to one student or to a group of students. Credits and titles are arranged with an individual faculty member.

CBN 601 Molecular and Cellular Neuroscience 2 cr
A course which requires students to read and evaluate critically the contemporary literature dealing with the cellular and molecular mechanisms of neural function.

CBN 616 Research Seminar 1 cr
Students and faculty present a research topic for discussion before the members of the department. The presentations are usually scheduled on a rotational basis. The student may present research data for critique by the faculty.

CBN 799 Research/Dissertation 1-6 cr
Independent research by the student under the sponsorship of the graduate faculty in individual departments in the Basic Medical Sciences. Prerequisite: Approved formal research proposal.

http://www.southalabama.edu/bulletin/bulletin0506/courche.htm (2 of 4)
Directed study, under the guidance of a faculty advisor, of a topic from the field of chemical engineering, not offered in a regularly scheduled course. Prerequisites: Consent of department chair and minimum GPA of 3.00. Fee.

**CHE 499 Senior Honors Project (H) 1-6 cr**
Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research project, relevant to the field of chemical engineering, that will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty chaired by the honors mentor. This course is required for Honors recognition. A minimum of 4 credit hours is required but students may enroll for a maximum of 6 credit hours over two semesters. Prerequisites: CHE 332, CHE 322, CH 265, CH 301 and completion of an approved project prospectus.

**CHE 510 Thermodynamics of Chemical Systems 3 cr**
Phase and reaction equilibria in multi-component chemical engineering applications, nonideal considerations. Fee.

**CHE 520 Transport Phenomena I 3 cr**
Unified treatment of momentum, energy, and mass transport. Emphasis on momentum and energy transport. Prerequisite: concurrent enrollment in CHE 551. Fee.

**CHE 521 Transport Phenomena II 3 cr**
Emphasis on mass transport and transfer in flowing nonisothermal, multicomponent, reacting systems. Prerequisite: Consent of instructor. Fee.

**CHE 525 Chemical Reactor Analysis 3 cr**
Single and multiple chemical reactions and reactor systems. Reactor characterization and design. Prerequisite: concurrent enrollment in CHE 551. Fee.

**CHE 530 Synthetic Fuels 3 cr**
Fundamentals of gasification and liquefaction concepts applied to fossil fuels and biomass conversion. Fee.

**CHE 540 Distillation 3 cr**
Analysis and design of separation units for multicomponent nonideal systems. Fee.

**CHE 550 Chemical Process Control 3 cr**
Sampled-data algorithms, feedback, feedforward, deadtime compensation, advanced control schemes applied to chemical engineering processes. Fee.

**CHE 551 Advanced Chemical Engineering Modeling 3 cr**
Advanced mathematical modeling of chemical process systems for design and analysis. Fee.

**CHE 560 Mixing and Agitation 3 cr**
Analysis and design of single-phase and multiple-phase mixing units. Fee.

**CHE 563 Simulation of Chemical Processes 3 cr**
Steady state simulation of chemical processes using modern software tools. Simulation topics include physical properties, flowsheet generation, convergence, optimization, electrolytes, solids, and advanced simulation projects. Fee.

**CHE 570 Separation Techniques 3 cr**
Analysis and design of separation processes other than distillation. Topics include extraction, gas absorption, crystallization, and filtration. Fee.

**CHE 575 Chemical Process Synthesis and Optimization 3 cr**
Use of analysis, synthesis, and optimization in process development. Fee.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CH 100</td>
<td>Fundamentals of Chemistry</td>
<td>4 cr</td>
<td>An introduction to the fundamental concepts of chemistry, and exposure to common laboratory techniques. For students without high school chemistry or a score of less than 35 on the required chemistry placement exam. The course may not be used to satisfy the Natural Science requirement for the College of Arts &amp; Sciences. (Offered Fall and Spring Semesters.) Fee.</td>
</tr>
<tr>
<td>CH 101</td>
<td>Survey of Inorganic and Organic Chemistry</td>
<td>3 cr</td>
<td>An intensive presentation of inorganic and organic chemistry principles selected to convey a basic understanding of their relationship to and function in the life process. Laboratory exercises will introduce students to basic laboratory procedures, often using exercises related to life process. This course is generally taken by students in the College of Nursing. CH 101L must be taken concurrently. Together, CH 101 and CH 101L count as one laboratory science course, partially fulfilling general education requirements. (Offered Fall and Spring Semesters.) Core Course.</td>
</tr>
<tr>
<td>CH 101L</td>
<td>Survey of Inorganic and Organic Chemistry Laboratory</td>
<td>1 cr</td>
<td>Laboratory exercises associated with CH 101. CH 101 must be taken concurrently. Together, CH 101 and CH 101L count as one laboratory science course, partially fulfilling general education requirements. Fee. Core Course.</td>
</tr>
<tr>
<td>CH 103</td>
<td>Chemistry: Its Role in Society</td>
<td>3 cr</td>
<td>Chemical principles to allow understanding of the technical aspects of air and water pollution, chemical solutions of the energy crisis, the polymer industry, drugs, nutrition, and genetic engineering. CH 103 is not designed to lead to other chemistry courses and may not be used to substitute for CH 131 for students majoring or minoring in Chemistry. CH 103L must be taken concurrently. Together, CH 103 and CH 103L count as one laboratory science course, partially fulfilling general education requirements. (Offered Fall and Spring Semesters.) Core Course.</td>

<tr>
<td>CH 132</td>
<td>General Chemistry II</td>
<td>3 cr</td>
<td></td>
</tr>
</tbody>
</table>
Continuation of CH 131. Topics include solutions, colligative properties, chemical kinetics, equilibrium, acids and bases, pH, buffers, titrations, thermodynamics, and electrochemistry. Additional topics may include nuclear chemistry, organic and biochemistry, chemistry of inorganic compounds, transition metal complexes, and industrial chemistry. CH 132L must be taken concurrently. Together, CH 132 and CH 132L count as one laboratory science course, partially fulfilling general education requirements. (Offered Fall and Spring Semesters.) Prerequisites: CH 131, CH 131L.

Core Course.

CH 132L General Chemistry II Laboratory 1 cr
Laboratory exercises associated with CH 132. CH 132 must be taken concurrently. Together, CH 132 and CH 132L count as one laboratory science course, partially fulfilling general education requirements. Fee. Core Course.

CH 141 Chemical Principles 4 cr
A one-semester accelerated introductory course in chemistry for majors, minors, and others seeking a more physical and quantitative treatment. Covers stoichiometry, states of matter, chemical bonding and structure, solutions, kinetics, gaseous and aqueous equilibria thermodynamics, electrochemistry, and nuclear chemistry. CH 141L must be taken concurrently. Together, CH 141 and CH 141L count as one laboratory science course, partially fulfilling general education requirements. (Offered Fall and Spring Semesters.) Prerequisite: ACS Chemistry Placement Qualifying Exam score of 45 or above. Core Course.

CH 141L Chemistry Principles Laboratory 1 cr
Laboratory exercises associated with CH 141. CH 141 must be taken concurrently. Together, CH 141 and CH 141L count as one laboratory science course, partially fulfilling general education requirements. Fee. Core Course.

CH 150 Introduction to Computer Chemistry (C) 2 cr
This course will introduce the student to direct application and use of computer activity for applications in chemistry: acquisition of data from instrumentation, data analysis, presentation of experimental data, and chemical structure and modeling programs. (Offered Fall Semester.) Prerequisites: CH 131 or CH 141 concurrent; MA 115. Fee.

CH 201 Organic Chemistry I 5 cr
Fundamentals of structure and chemical behavior of organic molecules including nomenclature, properties, structure, stereo-chemistry, spectroscopy (both infrared and nuclear magnetic resonance), reactions, synthesis, and mechanisms of alkanes, alkenes, alkyl halides, and alcohols. The laboratory introduces basic organic laboratory practices such as the collection of physical properties data, separation and purification techniques, synthesis and spectroscopic methods. (Offered Fall and Spring Semesters.) Prerequisite: CH 132 or CH 141. Fee.

CH 202 Organic Chemistry II 5 cr
Continuation of study of structure and chemical behavior of organic molecules including aromatic compounds, ketones and aldehydes amines, carboxylic acids and their derivatives, carbohydrates, amino acids, peptides and proteins, nucleic acids, alkynes, ethers and epoxides, and conjugated dienes. The laboratory continues with the basic organic laboratory practices with additional synthetic methods and an introduction to nuclear magnetic resonance spectroscopy. (Offered Fall and Spring Semesters.) Prerequisite: CH 201. Fee.

CH 265 Introductory Analysis 5 cr
A detailed study of the fundamental theories and principles of chemistry with emphasis on their application to quantitative analysis. (Offered Fall and Spring Semesters.) Prerequisite: CH 132 or CH 141. Fee.

CH 300 Physical Chemistry for Life Sciences (W) 5 cr
Designed to introduce the concepts of physical chemistry to students interested in the biochemical and biological aspects of chemistry. Topics are presented from viewpoint of their applications to biochemical problems: thermodynamics/biochemical energetics, properties of solutions, biological redox reactions, chemical/ enzyme kinetics. (Offered Fall Semester.) Prerequisites: CH 265; MA 126; PH 202; CH 440 (concurrent). Fee.

**Department of Chemistry**

**College of Arts and Sciences**
CIVIL ENGINEERING (CE)

CE 106 Introduction to Civil Engineering 1 cr
Introduction to the issues facing today's Civil Engineers. Students will learn the basic techniques of working in teams. Computer aided design and applications using spreadsheets in Civil Engineering will be introduced. Prerequisite: None. Fee.

CE 204 Surveying Fundamentals 3 cr
Applications of fundamental surveying techniques. Students will be introduced to the applications of Global Positioning System (GPS) and Geographical Information Systems (GIS) in Civil Engineering. Prerequisites: CE 106, MA 120. Corequisite: CE 205.

CE 205 Surveying Fundamentals Lab 1 cr
Students will collect field data using state-of-the-art surveying and GPS equipment. Collected data will be used in Geographic Information Systems (GIS) software. Prerequisites: CE 106, MA 120. Corequisite: CE 205. Fee.

CE 312 Construction Engineering 3 cr
An introduction to the construction industry and the role of civil engineering in construction. Construction engineering methods including preparation of cost estimates, critical path scheduling and resource allocation. Fee.

CE 314 Civil Engineering Materials 3 cr
Study of engineering properties of materials used in civil engineering including steel, concrete, asphalt, and timber. Prerequisites: CH 132, ST 315. Corequisite: CE 315. Fee.

CE 315 Civil Engineering Materials Lab (W) 1 cr
Study of experimental techniques used to evaluate engineering properties of materials. These techniques will be used to test materials used in civil engineering according to ASTM standards. Prerequisites: CH 132, ST 315. Corequisite: CE 314. Fee.

CE 340 Soil Mechanics 3 cr

CE 352 Transportation Engineering 3 cr
Principles of transportation engineering with emphasis on highways and traffic. Prerequisites: CE 204, CE 205. Fee.

CE 366 Hydraulic Engineering 3 cr
The application of fluid mechanics and other science and engineering disciplines in the development of structures, projects, and systems involving water resources. Introductions to streamflow and groundwater hydrology, open channel flow and closed conduit flow, dams and reservoirs, hydraulic structures and machinery, flood control, and coastal engineering. Prerequisite: EG 360. Corequisite: CE 367. Fee.

CE 367 Hydraulics Laboratory (W) 1 cr
Laboratory and field measurement of fluid and flow properties: hydraulic laboratory practice and model simulation techniques. Prerequisite: EG 360. Corequisite: CE 366. Fee.

</table>
Directed study, under the guidance of a faculty advisor, or a topic from the field of civil engineering not offered in a regularly scheduled course. Requires department chair permission. Prerequisite: Senior Status. Fee.

**CE 499  Senior Honors Project (H)  3 cr**
Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research project, relevant to the field of Civil Engineering study, that will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty members chaired by the honors mentor. This course is required for Honors recognition. Prerequisites: Completion of the most advanced required course in the subdiscipline of the project (CE 443, CE 352, CE 366, CE 470 or CE 384) plus completion of an approved project prospectus. Fee.

**CE 510  Construction Engineering  3 cr**
Construction engineering methods with emphasis on scheduling, cost estimates, and resource allocation. Prerequisite: instructor consent. Fee.

**CE 542  Ground Water  3 cr**
Principals of fluid flow through porous media. Well hydraulics. Ground water contamination, including principals that govern fate, transport, and remediation. Prerequisites: CE 340, CE 470. Fee.

**CE 581  Advanced Concrete Design  3 cr**
Advanced topics in reinforced concrete including the design of two-way slabs, flat plates, deep beams, brackets, corbels, and torsion. Prerequisite: CE 485 or instructor consent. Fee.

**CE 582  Advanced Solid Mechanics  3 cr**
Analysis of stresses in two and three dimensions, advanced stress-strain relationships for solids, mechanical behavior of material, energy methods, beams on elastic foundations, torsion in beams, and plastic behavior of solids. Prerequisites: EG 315, MA 238 or instructor consent. Fee.

</tbody>
</table>
Advanced study in clinically important microorganisms with emphasis on laboratory isolation and identification. Special fee.

**CLS 420 Hematology II** 3 cr
Advanced study of the hematopoietic system and blood cells including morphology and disease states, such as leukemias and lymphomas. Special fee.

**CLS 431 Clinical Chemistry and Instrumentation II** 3 cr
Study of analytical methods used to measure clinically important ions and molecules, and the application of those measurements to diagnose and monitor diseases. Special fee.

**CLS 432 Immunohematology** 5 cr
A study of blood cell antigens and their corresponding antibodies with emphasis on their laboratory identification on blood donor/recipient compatibility testing. Special fee.

**CLINICAL PRACTICA**

**CLS 435 Introduction to Laboratory Management - W** 2 cr
Principles of organization, human resource, and financial management in clinical laboratories.

**CLS 436 Introduction to Research** 1 cr
Basic concepts of scientific inquiry are presented to develop an appreciation for research as an element for contributing to the body of knowledge in the clinical laboratory sciences. Special fee.

**CLS 440 Hematology Practicum** 2 cr
Supervised clinical practice in hospital hematology and hemostasis laboratories. Taught in spring and fall semesters. Duration: 4 weeks.

**CLS 441 Immunology/Immunohematology Practicum** 1 cr
Supervised clinical practice in hospital immunology/immunohematology laboratory. Taught in fall and spring semesters. Duration: 2 weeks.

**CLS 445 Clinical Microbiology Practicum I** 2 cr
Supervised clinical practice in hospital microbiology laboratory. Taught in fall and spring semesters. Duration: 4 weeks.

**CLS 446 Clinical Microbiology Practicum II** 1 cr
Supervised clinical practice in hospital microbiology/virology laboratory. Taught in fall and spring semesters. Duration: 2 weeks.

**CLS 452 Immunohematology Practicum** 2 cr
Supervised clinical practice in hospital blood bank. Taught in fall and spring semesters. Duration: 4 weeks.

**CLS 453 Clinical Chemistry Practicum I** 2 cr
Supervised clinical practice in hospital chemistry laboratory. Taught in fall and spring semesters. Duration: 4 weeks.

**CLS 454 Clinical Chemistry Practicum II** 1 cr
Supervised clinical practice in hospital chemistry/toxicology laboratory. Taught in fall and spring semesters. Duration: 2 weeks.

**CLS 455 Body Fluids Practicum** 1 cr
Supervised clinical practice in hospital urine and body fluid analysis department. Taught in fall and spring semesters. Duration: 2 weeks.

**CLS 490 Elective Practica** 1 cr
Supervised clinical practice in phlebotomy, generalist environment, and an area outside the main clinical laboratory. Taught in fall and spring semesters. Duration: 2 weeks.

**CLS 495 Clinical Correlation Studies** 4 cr
This is a capstone course covering advanced methods and pertinent case studies with emphasis on intralaboratory interpretation of patient data. Taught in spring semester.

**CLS 496 Comprehensive Examination Review** 1 cr
A comprehensive review of the body of knowledge with a test designed to evaluate the student's progress and prepare the student to challenge a national certification examination. Taught in spring semester.

CLS 499  Senior Honors Project - (H, W)  3-6 cr
Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research project relevant to the field of Clinical Laboratory Sciences study that will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty members chaired by the honors mentor. Prerequisite: Permission of the department chair and completion of an approved project prospectus.

Course Description:

- **CA 100 Introduction to Communication**
  - Course examines various approaches people take to communicating. Focuses on developing an awareness of how and why we communicate and why we do not always communicate effectively. Includes consideration of variables related to interpersonal, group, public, and mass-communication contexts. Fee.

- **CA 101 Introduction to Communication Media**
  - Course examines the functioning of communication media in contemporary society, including the political, economic, and social environment. The structure and functions of newspaper, magazine, film, radio, television and public relations industries are examined. The impact of the media on individuals and institutions is explored. Fee.

- **CA 102 Diction: An Introduction to Phonetics**
  - A phonetic approach to speech communication concerned with the standards and practices of pronunciation and word selection. The International Phonetic Alphabet is the vehicle used to develop an awareness of speech encoding. Regional dialects are compared. Fee.

- **CA 110 Public Speaking**
  - A beginning study of the principles of speech communication as they relate to speaker-audience communication. An opportunity is provided the student in developing the arts of audience and subject analysis, research, critical thinking, organization, language, and delivery of speeches. This course includes a video-component. Fee. Core Course.

- **CA 200 Survey of Communication Theory**
  - Introductory survey of theoretical orientations in the field of human communication. Focuses on alternative explanations regarding elements of the communication process, models of communication, the communication act, and the communication relationship. Prerequisites: EH 101, EH 102. Fee.

- **CA 202 Vocal Effectiveness**
  - A principles-and-practice approach for individuals interested in achieving a high level of vocal control for personal or professional application. Attention to individual interest of students enrolled. Fee.

- **CA 205 Nonverbal Message Exchange**
  - Course examines how nonverbal messages act to create impressions and to regulate verbal communication. Emphasis on the major message codes through which individuals send messages to each other without words - e.g., how we send space - and how those codes can be used for more effective sending and receiving messages. Fee.

- **CA 207 The Verbal Message System**
  - Examination of the verbal dimension of human communication, including focus on message construction, message elements, and message impact. The course deals with the verbal message system in interpersonal and mass mediated contexts. Fee.

- **CA 210 Argumentation**
  - Examines the role of argumentation in a democratic society and aims to develop critical thinking and reasoned advocacy. Course makes functional a knowledge of tests of evidence and the modes of logical reasoning. Students participate in various forms of argumentation and debating. Fee.

- **CA 211 Interpersonal Communication**
  - 3 cr
A study of communication behavior in the interpersonal setting. Focuses on development of knowledge, trust, understanding, supportiveness, etc., in a relationship, and their collective impact on the communication exchange. Fee.

CA 220 Writing for Communication Media (W) 3 cr
Intensive study of writing for various media and audiences. Specific attention is given to improvement of writing skills, including grammar, punctuation, spelling, word use, sentence composition, Associated Press style, and organization of material, as well as the different formats for the different media. Media styles studied include print, broadcast, and online journalism and public relations, which also includes study of evaluating, documenting, and prioritizing facts in the writing of news stories and media releases for public relations. Attention to advertising copy writing and other styles also is included. Prerequisites: EH 101, EH 102; 30 wpm typing ability. Fee.

CA 221 Principles of Advertising 3 cr
Introductory survey of the principles of modern advertising. Prerequisites: EH 101, EH 102, CA 101. Fee.

CA 230 Communication in Organizations 3 cr
Application of communication principles and techniques to those aspects of one’s life in an organization that have been shown to be the most difficult and troublesome parts of the communication milieu in the world of work. Includes interviewing, conference participation, leadership decisions, conflict management, and organizational change as communication phenomena. Fee.

CA 241 Introduction to Television Studio Production 3 cr
Theory and practice of television production. Concentrates on exploring the uses of television in varied contexts, including corporate, community, and broadcasting applications. Fee.

CA 244 Introduction to Radio Production 3 cr
Introduction to the theory and techniques of radio production. Emphasis on the effective use of words, music, and sound. Students create and critique radio dramas, public affairs and documentary programming, commercials, promotional and public service announcements, and music programs. Fee.

CA 250 Radio & Television Performance 3 cr
Course focuses on the unique aspects of radio and television as communicating media. Different styles of delivery for various media projects will be studied—broadcast news, advertising, and entertainment. Course also focuses on restraints and requirements of the individual medium on the practice of broadcast delivery. Prerequisite: CA 110. Fee.

CA 260 New Communication Technologies 3 cr
Survey of new electronic media and telecommunication technologies (such as satellite-to-home broadcasting, low power TV, high-definition video, electronic mail, video-text, etc.), that are changing the traditional forms, roles, and economics of corporate, organizational, and mass communication. Historical background and basic technical aspects of each system are introduced; regulatory and economic issues are examined. The future of electronic communication in all its forms will be considered in the context of a communication environment characterized by unprecedented and rapid change. Fee.

CA 270 Information Gathering for the Mass Media 3 cr
Study of techniques for gathering information for news stories, including use of public documents, use of the internet, and interviewing people-sources. Study includes how to find and evaluate appropriate sources for news stories and how to use source information in news stories. Prerequisites: EH 101 and EH 102, typing ability of 30 wpm. Fee.

CA 275 Small Group Discussion 3 cr
Theory and practice in leading and participating in group discussions. Special focus on group problem solving and the management of conflict in group meetings. This course includes a video-component. Fee.

CA 281 Editing and Layout 3 cr

</tbody>
</table>

Principles and practices of selection and preparation of written and pictorial materials for newspapers, magazines, and related media. Layout and design, production planning, and related topics. Prerequisite: CA 220. Fee.

CA 286 Principles of Public Relations 3 cr
An overview of the principles and techniques of public relations. Concentrates on the role of public relations in our society, the audience for public relations, and the mass media as public-relations vehicles. Prerequisites: CA 101 or permission of instructor; EH 101, EH 102. Fee.

CA 290 Special Topics 3 cr
A variable-topics course treating communication concepts and topics relevant to the disciplines. May be repeated once when course content changes. Fee.

CA 300 Foundations of Communication Research (C) 3 cr
Introduction to research foundations in the field of communication. Includes historical, critical, descriptive, and experimental methods. Prerequisite: CA 200. Fee.

CA 310 Persuasion 3 cr
Basic theories and techniques of persuasion and their application to typical communication situations and problems in today’s society. Fee.

CA 315 Gender and Communication 3 cr
Survey of research and theory concerning the differences in communication between men and women and the effects and functions of communication between men and women. Fee.

CA 320 Broadcast Scriptwriting 3 cr
Study and practice in the techniques of writing scripts for radio and television. Special scripting projects. Fee.

CA 321 Advertising Media Planning 3 cr
Selecting and using media to fulfill marketing objectives and strategies. Prerequisites: CA 221, CA 300. Fee.

CA 322 Advertising Copy Writing (W) 3 cr
Preparation of advertising materials for print and non-print media; application of basic advertising research and media planning strategies to message development. Prerequisites: CA 220 and CA 221. Fee.

CA 325 Applied Communication Workshop 3 cr
A workshop stressing practical applications of the principles and theories of communication disciplines to those settings and problems in the world of work that are of special interest to the students enrolled. Prerequisite: Permission of instructor. Fee.

CA 340 Television Post-Production 3 cr
The focus of this course is on production techniques, processes, and skills. Analysis of television production as a communication process, program formats, advanced production equipment and facilities, production unit management, and the role of the director. Prerequisite: CA 101. Fee.

CA 343 Film History 3 cr
An examination of the development of motion pictures from 1893 to the present. Films representing major periods, movements, and styles will be examined. Fee.

CA 344 Film & Television Genres 3 cr
A study of the formation and evolution of film and television genres including comedy, science fiction, western, epic, and others. Selected genres will be studied in terms of their structure and cultural history. Fee.

CA 350 Broadcast News 3 cr
Course includes both writing for the broadcast media and exploring broadcast news operations. Assignments include writing broadcast news stories and evaluating broadcast news operations. Lectures cover the characteristics of broadcast news, news styles, news policy, and ethics and responsibility in broadcast news. Prerequisites: CA 101, CA 220, and CA 340. Fee.

**CA 351 Social Effects of Mass Communication 3 cr**
Examination of the interaction between mass communication and American society. Current research literature in the field will be analyzed and methods of improving the system will be discussed. Prerequisites: CA 101 and CA 200 or permission of instructor. Fee.

**CA 352 Media Literacy in the Information Age 3 cr**
Study of how to be a good consumer of mass media messages. Topics include how media messages are affected by media production techniques, media technology, professional values, and the media’s political-economic structure. Prerequisite: CA 101. Fee.

**CA 356 Broadcast/Cable Management 3 cr**
An examination of management and programming strategies in broadcast and cable television. Fee.

**CA 360 Communication and the Internet 3 cr**
Intensive study and application of rhetorical and communication theories to understanding problems that arise as the Internet and the World Wide Web begin to render fixed-media-based communication obsolete. Implications for advertising, journalism, organizational record keeping and management, interpersonal communication, training, entertainment, etc. Computer Fee.

**CA 366 Visual Information for Electronic Communications Media 3 cr**
Rhetorical issues in the design of Internet and World Wide Web materials. Focus on how motion, color, and other visual elements compete for audience attention; how rhetorical theory, learning theory, and communication theory inform the myriad decisions involved in visual presentation. This course will address these rhetorical issues from the creator’s and user’s viewpoint. Computer Fee.

**CA 370 Intermediate Reporting and Writing (W) 3 cr**
Study of intermediate skills needed for reporting, evaluating, and writing news stories, with particular attention given to the reporting of public affairs issues. Prerequisites: CA 220, CA 270. Fee.

**CA 382 Photojournalism 3 cr**
The study of basic photography and the principles of still photography journalism, with particular emphasis on camera use, photo processing, visual aesthetics, and journalistic story-telling. Fee.

**CA 386 Public Relations Communication Methods (W) 3 cr**
Study of audio, visual, and written tools and techniques with emphasis on public relations writing and editing. Prerequisites: CA 220 and CA 286. Fee.

**CA 387 Advanced News and Feature Writing 3 cr**
A writing and reporting course focusing on advanced skills, including alternative structures for news stories. Emphasis is given to newspaper and magazine feature writing. Prerequisite: CA 220. Fee.

**CA 388 History of Mass Media 3 cr**
The role of journalism in American society from the Revolution to the present. This course is also listed as HY 388. Fee.

**CA 390 Special Topics 1-3 cr**
An advanced variable-topic course treating communication concepts and topics relevant to the discipline. May be repeated twice for up to six hours’ credit. Fee.

**CA 394 Directed Study in Communication 1-3 cr**
Directed individual study of literature in an area of need and interest of the student. May be repeated for a maximum of six hours’ credit. Prerequisites: Approval of the instructor. Open to students with sixteen hours in the field. Fee.

CA 400  Contemporary Theories of Human Communications  3 cr
An advanced investigation of communication theory in context. Fee.

CA 410  Persuasion in Context  3 cr
An advanced examination of and application of persuasive techniques in communication situations and contexts (e.g., field, laboratory, interpersonal, small group, nonverbal, mass communication). Prerequisite: CA 310. Computer Fee.

CA 411  Interpersonal Conflict Management  3 cr
Examines the literature surrounding various interpersonal conflict problems (such as betrayal of a social contract) from a variety of theoretical perspectives. Fee.

CA 422  Rhetorical Theory  3 cr
A broad survey of Western Rhetorical tradition designed to give students a working knowledge of rhetoric and its historical and contemporary influence on communicative events and perspectives. Fee.

CA 424  Rhetorical Criticism (W)  3 cr
This course is designed to introduce students to the process of rhetorical analysis. Through criticism of communication artifacts, students learn to identify key elements of the rhetorical process and to develop critical thinking, writing, and viewing skills. The course prepares students to interpret, understand, analyze, and critique communication in diverse contexts including speeches, advertisements, interpersonal conversations, films, and works of art to name a few. Prerequisites: EH 101 and EH 102. Fee.

CA 430  Advanced Organizational Communication  3 cr
Study and application of organizational and communication theory of assessment of organizational and community needs. Critical analysis of intervention programs and strategies. Prerequisite: Junior or senior standing. Fee.

CA 435  Communication Training and Development Programs  3 cr
Review and analysis of communication training and development programs designed to solve communication problems in groups and organizations. Students will develop and present a training or development program. Fee.

CA 440  Advanced Television Postproduction  3 cr
Theory and practice of television post-production. Concentrates on exploring and understanding the concepts and technology involved in advanced video postproduction for a variety of applications including commercial, corporate and community outlets. Prerequisite: CA 340. Fee.

CA 441  Advanced TV Studio Production  3 cr
Advanced theory and practice of television production. Concentrates on exploring the advanced uses of television in varied contexts, including corporate, community, and broadcasting applications. Prerequisite: CA 241.

CA 445  Ethics and Social Responsibility in Communication (W)  3 cr
Study of social responsibility and ethics in communication. Acquaints student with ethical standards and expectations society has for communicators. Fee.

CA 450  Advanced Broadcast News  3 cr
This is an advanced course in broadcast news reporting and production. Students will have hands-on practice in a newsroom situation. Prerequisite CA 350. Fee.

CA 453  Political Communication: Processes and Ethics  3 cr
Communication (CA)

Provides students with a broad overview of political communication from both historical and contemporary perspectives so students may understand how the subject has evolved over time to become a unique field of theoretical and research interest. Special attention is paid to campaigns and elections, agenda-setting research, and media power. The major focus is on the United States. Fee.

CA 455  Law of Communication  3 cr
Study of the broad application of principles of law to American communication, including study of free speech, freedom of information, mass media law and regulation including libel, copyright, and right of privacy. Prerequisite: CA 200. Fee.

CA 457  Communication Technology Systems  3 cr
An examination of the new communication technology systems with an emphasis on how they reconfigure patterns of communications organizations, production, storage, and dissemination. The role of communication technology systems today and tomorrow, and implications for organizational, local, national, and international contexts will be studied. Fee.

CA 460  Methods of Research in Communication I  3 cr
An introduction to research methodology in communication focusing upon historical, survey, field, and experimental research methods. Focuses on historical and survey methods of communication research. Fee.

CA 470  Issues in Publication Design  3 cr
Study of layout, editing, and design for newspapers, magazines, brochures, pamphlets, and other print media outlets. Recommended: CA 281. Fee.

CA 472  Senior Reporting Seminar  3 cr
Advanced study of news reporting and presentation techniques, including investigative reporting. Students concentrating in print will produce a professional quality-print project; students concentrating in broadcast news will produce a professional-quality film documentary news story. Prerequisites: CA 387 (Print) or CA 350 (Broadcast) and senior standing, CA 300. Fee.

CA 475  Communication and Group Processes  3 cr
The nature of small group processes. Leadership, communication, and decision making in small groups. Prerequisite: Junior or senior standing. Fee.

CA 476  Advertising Campaigns  3 cr
Creation of advertising campaigns for specific organizations; integration of advertising theories, strategies and procedures into comprehensive communication programs. Prerequisites: CA 221, CA 300, CA 321, CA 322; senior standing. Fee.

CA 481  Editorial and Column Writing (W)  3 cr
An examination of the editorial and other opinion and persuasive communications used by the print and electronic media. Prerequisites: CA 220 and CA 270. Fee.

CA 484  Managing Public Relations  3 cr
Study of the operation and objectives of corporate and agency public relations using the case study approach. Emphasis is given to relating the management function of decision-making and policy formation to the communication process. Prerequisites: CA 286, CA 300 or permission of instructor. Fee.

CA 486  Public Relations Campaigns  3 cr
Reseaching, planning, and preparing for an integrated public relations campaign. Prerequisites: CA 300, CA 386. Fee.

CA 492  Seminar  1-3 cr
An investigation of advanced topics and concepts of communication. Topics will rotate based upon disciplinary relevance and student needs. May be repeated once for credit when content varies. Prerequisite: Senior standing. Fee.

CA 494  Directed Study in Communication  1-3 cr
Investigation of questions of special interest in communication. May be repeated to a maximum of six semester hours, provided no repetition of subject matter occurs. Students are required to file a description of their goals and objectives for their study. This description is to be specific so that it can serve in place of a syllabus for this course. Prerequisite: Consent of the instructor.

CA 496  Professional Studies: Internship  1-3 cr
On-the-job experience in a selected communication area related to potential career selection. Supervision by communication advisor and off-campus agency required. The Internship Program may be repeated for up to six credits. This course may also be taken through the Cooperative Education Program. Prerequisite: Prior approval of internship coordinator or department chair.

CA 500  Foundations of Graduate Study in Communication  3 cr
An introduction of graduate study in the multidisciplinary field of communication. Introduction to the major subareas of the study of communication, the faculty of the department and their areas of specialization, university research facilities, university library facilities, and the organizations that support advanced study in the field of communication. Broad overview of and relationship between theories and research methods. Prerequisite: Graduate standing. CA 500 is a prerequisite or corequisite for all CA 500 level courses. Under special circumstances CA 500 may be waived as a prerequisite for graduate students in other majors. Fee.

CA 501  Communication Research Methods I  3 cr
An investigation of research used in the study of communication; overview and introduction to qualitative and quantitative methodologies used in basic and applied communication research settings; in depth study of a variety of qualitative methodologies; study of the use and practical applications of triangulation research methods; study of the management and purchase of research services. Prerequisites: Graduate standing and CA 500. CA 500 may be taken concurrently. Fee.

CA 502  Communication Theory  3 cr
A survey of the theoretical perspectives that guide the study of human communication. Competing and complementary epistemological frameworks will be compared. Prerequisites: Graduate standing and CA 500. CA 500 may be taken concurrently. Fee.

CA 503  Communication Research Methods II  3 cr
An advanced investigation of research methodologies used in the study of communication with in-depth study of a variety of quantitative methodologies used in basic and applied communication research settings; study of statistical applications; practical interpretations of computer-assisted data analysis. Prerequisites: Graduate standing, CA 500, 501 and 502. CA 502 may be taken concurrently. Fee.

CA 509  Advanced Argumentation and Persuasion  3 cr
Advanced analysis and development of persuasive messages and argumentative strategies. Ethical responsibilities of the message sender will also be addressed. Prerequisites: Graduate standing, consent of advisor and CA 500. CA 500 may be taken concurrently. Fee.

CA 512  Theoretical Foundations in Interpersonal Communication
Review of the interpersonal communication research literature with respect to the process of mutual adaptation and negotiation. The social and psychological processes constraining and organizing interpersonal communication will be studied. Topics include verbal and nonverbal codes, message production and interpretation, conversation management, relationship definition, and interpersonal communication competence. Prerequisites: Graduate standing, consent of advisor and CA 500. CA 500 may be taken concurrently. Fee.

CA 531  Analysis of Communication in Organizations  3 cr
Analysis of interpersonal, dyadic, group, and organization-wide communication events that occur in organizational settings. Attention will be directed to the network of messages that occur in organizations and the organizational change that occurs when a message system is disrupted or changed. Organizational communication research methodologies will be introduced. Prerequisites: Graduate standing, consent of advisor and CA 500. CA 500 may be taken concurrently. Fee.
CA 540 Moving Image Structure and Process 3 cr
An analysis of moving-image form and process for decision makers who supervise, produce, and/or evaluate electronic and/or film media for organizations. Theories of narrative and rhetoric and of moving-image syntax provide principles for structuring media content and managing the production process. Prerequisites: Graduate standing, consent of advisor and CA 500. CA 500 may be taken concurrently. Fee.

CA 546 Ethics and Responsibility in Corporate and Public Communication 3 cr
Advanced analysis and interaction between organizations and the social institutions of American society. Study of the literature and communication ethics and social responsibility. Prerequisites: Graduate standing, consent of advisor and CA 500. CA 500 may be taken concurrently. Fee.

CA 549 Mass Media and Social Effects 3 cr
A study of the role of corporate and public communication in the American social structure, including mass media extensions and impact upon institutions. Consideration of historical, legal, social, and economic issues. Prerequisites: Graduate standing, consent of advisor and CA 500. CA 500 may be taken concurrently. Fee.

CA 556 Corporate and Public Communication Law 3 cr
A survey of the law as it deals with public communication. The course provides a working knowledge of First Amendment theory, copyright, trademark, advertising, contracts, access and administrative laws as they relate to the public relations environment. Prerequisites: Graduate standing, consent of advisor and CA 500. CA 500 may be taken concurrently. Fee.

CA 576 Investigation of Group Communication 3 cr
An in-depth analysis of study of group communication theories. Topics to be covered include: decision making, conflict, conformity, leadership, and observation methods. Prerequisites: Graduate standing, consent of advisor and CA 500. CA 500 may be taken concurrently. Fee.

CA 585 Public Relations Administration 3 cr
A comprehensive analysis of public relations as a management function. Examination of the public relations function within organizations, their problems, and procedures. An in-depth look at relevant social science theories that explain common public relations problems. Study of these theories to understand the effects of different public relations techniques. Prerequisites: Graduate standing, consent of advisor and CA 500. CA 500 may be taken concurrently. Fee.

CA 590 Special Topics in Communication 1-3 cr
A detailed examination of selected topics in communication theory. Topic announced prior to registration. Course may be repeated once when subject matter varies. Prerequisites: Graduate standing, consent of advisor and CA 500. CA 500 may be taken concurrently. Fee.

CA 592 Seminar in Communication Theory 1-3 cr
Departmental seminar investigating a selected field of communication theory through in-depth evaluation of its accompanying body of literature. Topic announced prior to registration. Course may be repeated once when subject matter varies. Prerequisites: Graduate standing, consent of advisor and CA 500. CA 500 may be taken concurrently. Fee.

CA 594 Directed Study in Communication 1-3 cr
Independent research in field, laboratory, or library under the direction of a member of the graduate faculty. Prerequisites: Graduate standing, consent of advisor, and approval of department chair.

CA 595 Project in Communication 1-5 cr
Work on a significant communication problem within the student's area of specialization. Project will involve analysis of the problem, development of significant communication theory applications, and administration of the solution suggested by the analysis. Project will be designed in consultation with the major advisor and approved by the student's advising committee.
CA 599 Thesis 1-3 cr
Three hours of 599 credit may be applied toward the M.A. degree for students selecting to write a thesis.

[http://www.southalabama.edu/bulletin/bulletin0506/courcsd.htm](http://www.southalabama.edu/bulletin/bulletin0506/courcsd.htm)
Independent study under the direction of a graduate faculty member. May be repeated. Prerequisite: Permission of graduate advisor.

CSD 695 Directed Research 1-3 cr
Research under the direction of a graduate faculty member. May be repeated. Prerequisite: Permission of graduate advisor.

CSD 696 Professional Practicum: Administration 2 cr
Supervised professional experiences in administration under the guidance of graduate faculty mentors. May be repeated.

CSD 697 Professional Practicum: Clinical Supervision 2 cr
Supervised professional experiences in clinical teaching under the guidance of graduate faculty mentors. May be repeated.

CSD 698 Professional Practicum: Teaching 2 cr
Supervised professional experiences in academic teaching under the guidance of graduate faculty mentors. May be repeated.

CSD 799 Dissertation Research 1-9 cr
Independent research under the direction of a graduate faculty member. May be repeated. Prerequisite: Admission to doctoral candidacy, or Consent of Dissertation Director and Graduate Advisor.

DEPARTMENT OF SPEECH PATHOLOGY AND AUDIOLOGY

College of Allied Health Professions
COMMUNITY/MENTAL HEALTH NURSING (CMN)

CMN 350 Psychiatric/Mental Health Nursing 3 cr
Provides students the opportunity to analyze theories, concepts, research, and issues and trends in psychiatric-mental health nursing. Focus is on internal and external factors affecting the mental health of children, adolescents, adults, and families. Emphasis is on the role of the professional nurse in health promotion and maintenance, illness care, and rehabilitation of children, adolescents, adults, and families experiencing psychiatric-mental health concerns. Prerequisites: NU 300, NU 301, NU 325, HSC 342, HSC 343. Prerequisite with Corequisite: NU 327. Corequisite: CMN 351.

CMN 351 Psychiatric/Mental Health Nursing Clinical 3 cr
Clinical practice course in psychiatric-mental health nursing. Focus is on the application of theories, concepts, research, and issues and trends in psychiatric-mental health nursing. Emphasis is on the role of the professional nurse in psychiatric-mental health nursing and on the use of the nursing process with children, adolescents, adults, and families experiencing psychiatric-mental health concerns. Prerequisites: NU 300, NU 301, NU 325, HSC 342, HSC 343. Prerequisite with Corequisite: NU 327. Corequisite: CMN 350.

CMN 420 Community Health Nursing Care 3 cr
Provides students an in-depth exploration of community health nursing concepts and principles from an aggregate health care perspective. Focus is on the prevention of disease and the promotion of health. The changing needs of an increasingly culturally diverse population within the social context of the community are examined. Course content includes environmental, economical, political, and legal constraints to the health of aggregates. Emphasizes the use of the nursing process to assess the complex factors in the community that affect the health of aggregates. Students are guided in the study of interventions that prevent disease and promote health. Prerequisites/Corequisites: AHN 447, AHN 448. Corequisite: NU 413.

CMN 514 Evidence-Based Practice in CMN Nursing & Healthcare 1 cr
The focus of this course is the analysis of best nursing and health care practices with a selected clinical, educative or administrative problem. Students develop a project using an EBP approach to accept or reject recommendations made from the evidence. Prerequisites that can be taken concurrently are NU 513 and one of the following combinations of courses: (CMN 548, CMN 549, CMN 551) or (CMN 568, CMN 569, CMN 571) or (NU 524, CMN 525) or (NU 565, NU 571) or (HSC 540, HSC 541).

CMN 525 Clinical Practicum in Advanced Community/Mental Health Nursing 4 cr
Application of advanced clinical concepts in Community/Mental Nursing theory and other concepts are evaluated within evidenced based practice models. Prerequisites: NU 523, NU 545, NU 578, NU 518, NU 519. Corequisite: NU 524 or special permission of instructor.

CMN 543 Public Health Nursing: Community Assessment and Planning 3 cr
The purpose of this course is to examine concepts and methods of assessing populations and communities for the purpose of planning interventions that promote and preserve health. The focus is on the roles of advanced practice nursing in public health as leaders within the interdisciplinary health care system. The emphasis is on the integration theories and concepts from nursing and the public health sciences to promote and preserve the health of populations and communities within a culturally diverse society. Prerequisites: NU 506, HSC 540, HSC 541, HSC 542. Prerequisite or Corequisite: NU 508. Corequisite: CMN 544.

Community/Mental Health Nursing (CMN)

The purpose of this practicum course is to provide opportunities for Psychiatric-Mental Health Nurse Practitioner/Clinical Nurse Specialist students to apply concepts from Advanced Psychiatric/Mental Health Nursing I in primary and acute care settings with adults and families experiencing psychiatric/mental health concerns. The emphasis is on mental health nursing across the lifespan. Prerequisites: CMN 548, CMN 549, CMN 551, NU 506. Prerequisites or Corequisites: NU 545, NU 578. Corequisite: CMN 552

CMN 554  Advanced Psychiatric/Mental/Health Nursing II  3 cr
The purpose of this course is to provide the Psychiatric-Mental Health Nurse Practitioner/ Clinical Nurse Specialist student an in depth study of psychiatric/mental health care management of adults and their families within the framework of advanced nursing. The focus is on selected acute and chronic complex psychiatric/mental health care problems. Emphasis is on the interaction among health care providers in a culturally diverse environment. Prerequisites: CMN 552, CMN 553. Corequisite: CMN 555

CMN 555  Advanced Psychiatric/Mental Health Nursing Practicum II  3 cr
The purpose of this course is to provide opportunity for the Psychiatric-Mental Health Nurse Practitioner/ Clinical Nurse Specialist student to practice within an advanced nursing framework. The focus is on the role of the advanced practice nurse in the health care management of adults with psychiatric/mental health concerns. Emphasis is on collaboration with other health care providers in a culturally diverse environment. Prerequisites: CMN 552, CMN 553. Corequisite: CMN 554

CMN 556  Advanced Psychiatric/Mental Health Nursing Internship  4 cr
The purpose of this course is to provide a preceptor and faculty facilitated experience in the Psychiatric-Mental Health Nurse Practitioner/ Clinical Nurse Specialist role. The focus is on the application and synthesis of knowledge and skills acquired in all previous courses. Prerequisites: CMN 554, CMN 555, NU 506. Corequisite: CMN 557. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

CMN 557  Advanced Psychiatric/Mental Health Nursing III  3 cr
The purpose of this course is to provide a forum for the evaluation of issues and trends encountered in Advanced Psychiatric-Mental Health Nursing care. Emphasis is on critical analysis and management of issues by the Psychiatric-Mental Health Nurse Practitioner/ Clinical Nurse Specialist in an interdisciplinary health care delivery system. Prerequisites: CMN 554, CMN 555, NU 506. Corequisite: CMN 556. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

CMN 568  Advanced Nursing Assessment of Children, Adults, and Families  3 cr
Expands the FNP student's knowledge and skills for obtaining and recording a systematic health assessment of children, adults, and families with attention to unique aspects of health assessment of clients from diverse cultural and minority groups. Emphasis is placed on synthesis and application of nursing and related theories and scientific knowledge in the development of differential/nursing diagnoses as a basis for health promotion and illness management. Corequisite: CMN 569.

CMN 569  Advanced Nursing Assessment of Children, Adults, and Families Practicum  1 cr
This clinical course is to provide an environment for the FNP student to have the opportunity to become proficient at obtaining and recording a systematic health history and advanced physical examination of children, adults, and families of diverse cultural backgrounds. Corequisite: CMN 568.

CMN 571  Health Promotion/Disease Prevention and Issues for Family Nursing  3 cr
This didactic course prepares the FNP student to identify and implement appropriate and culturally sensitive health promotion and disease prevention strategies across the life-span for individuals and families in primary care settings. Emphasis is placed on health promotion/ disease prevention with strategic planning at the primary, secondary, and tertiary levels. Corequisites: CMN 568, CMN 569.
CMN 572  Advanced Family Nursing I  3 cr
This didactic course prepares the FNP student to assess, diagnose, and manage selected health care needs of culturally diverse populations across the lifespan. The focus is on the advanced practice nursing of individuals and families in primary care settings. Emphasis is placed on wellness and the pathophysiology and epidemiology underlying acute and chronic health problems. Prerequisites: CMN 568, CMN 569, CMN 571, NU 506. Prerequisites or Corequisites: NU 545, NU 578. Corequisite: CMN 573.

CMN 573  Advanced Family Nursing Practicum I  3 cr
This practicum course provides opportunities for the FNP to apply concepts from CMN 572 FNP I in select clinical settings. Focus is on individuals and families in primary care settings. The emphasis is on culturally competent health care delivery of health care, diagnostic reasoning and decision making/critical thinking. Prerequisites: CMN 568, CMN 569, CMN 571, NU 506. Prerequisites or Corequisites: NU 545, NU 578.
Corequisite: CMN 572.

CMN 574  Advanced Family Nursing II  3 cr
This course provides an in-depth study of the health care management of children, adults, and families within the framework of advanced nursing. Emphasis is on the interaction among health care providers in a culturally diverse environment. The focus is on selected acute and chronic complex health problems of children, adults, and families in primary health care settings. Prerequisites: CMN 572, CMN 573.
Corequisite: CMN 575.

CMN 575  Advanced Family Nursing Practicum II  3 cr
This practicum course provides an opportunity for the FNP student to practice within an advanced nursing framework. The focus is on the role of the advanced practice nurse in the health care management of children, adults, and families. Emphasis is on collaboration with other health care providers in a culturally diverse environment. Prerequisites: CMN 572, CMN 573. Corequisite: CMN 574.

CMN 576  Advanced Family Nursing Internship  4 cr
The purpose of this culminating clinical course is to provide a preceptor and faculty facilitated experience in the Family Nurse Practitioner role. The focus is on the application and synthesis of knowledge and skills acquired in all previous courses. Prerequisites: CMN 574, CMN 575, NU 506. Corequisite: CMN 577. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

CMN 577  Advanced Family Nursing III  3 cr
This course provides a forum for the evaluation of issues and trends encountered in health care. Emphasis is on critical analysis and management of these issues by the FNP student in an interdisciplinary health care system. Prerequisites: CMN 574, CMN 575, NU 506. Corequisite: CMN 576. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

College of Nursing
Computer and Information Sciences (CIS)

All prerequisites must be passed with a minimum grade of “C”.

**CIS 100  Information Technology in Society  1 cr**
A discussion of the impact of information technology on personal, local, national, and global issues. Not to be taken with CIS 110. No prerequisites.

**CIS 110  Introduction to Computer and Information Sciences  3 cr**
An introduction to information technology. A discussion of the social, ethical, economics, and philosophical implications of computing. Exposure to a representative set of applications. Not to be taken with CIS 100. No prerequisites.

**CIS 120  Problem Solving and Programming Concepts I  4 cr**
Introduction to the design of algorithms and their implementation in a high-level programming language. Topics include: algorithm design strategies, programming concepts, programming environment, data structures, searching and sorting methods, and internal representation of data types. Prerequisite: MA 112 or math placement score of 75 or higher.

**CIS 121  Problem Solving and Programming Concepts II  4 cr**
Continuation of CIS 120. Topics include: design concepts, abstract data types, use of object libraries, dynamic storage allocation, stacks, queues, link lists, random access files, testing and software engineering practices. Prerequisites: CIS 110 and 120.

**CIS 150  Introduction to Computer Applications  3 cr**
This course is designed to provide a broad-based introduction to the use of computers to enhance personal productivity. Topics to be covered are use of a graphical user interface, word processing, spreadsheet analysis, basic image management related to documents and reports and the fundamentals of Internet publishing. No prerequisites.

**CIS 190  Computer and Information Sciences Special Topics  1 cr**
Selected topics in computer and information sciences. Prerequisite: Permission of the specialization coordinator.

**CIS 210  Introduction to C++ Programming  3 cr**
Introduction and fundamentals of C++ programming, input-output operations, variables, data types, arithmetic expressions, control statements, looping, functions, arrays, pointers, strings, structures, and abstract data types. Prerequisite: MA 125.

**CIS 211  Advanced C++ Programming  3 cr**
Advanced concepts in C++ Programming, constructors, destructors, classes and operation overloading. Prerequisite: CIS 210.

**CIS 227  Numerical Computation I  3 cr**
Floating point numbers, representation, and errors; software tools for scientific computing; elementary problems in scientific computing. Prerequisite: MA 126.

**CIS 230  Advanced Data and File Structures  3 cr**
Extension of elementary data structures as covered in CIS 121, techniques to organize and access collections of data. Definition, implementation, and use of Classes and Abstract Data Types (ADT). The use of ADT’s and objects for solving CIS problems. Network, hierarchical, and relational data models leading to Database Management Systems. Topics include: recursion, search trees, algorithmic complexity, advanced searching and sorting algorithms, and graphs. Prerequisites: CIS 211 or CIS 121 and MA 267.

CIS 231 Software Engineering Principles 3 cr
Models, techniques, and tools used in project management. Topics include: software development process, task scheduling, estimation and progress measurement. Coordination of development teams. Standards, testing plans, configuration management, metrics and use of CASE tools, systems delivery and maintenance strategies. Prerequisite: CIS 230 or ITE 285.

CIS 235 Programming Language Seminar 3 cr
Fundamentals of syntax and style for a relevant, or current programming language. Includes application development in that language. Prerequisite: Knowledge of a programming language.

CIS 250 Advanced Computer Applications 3 cr
This course provides continuing coverage of advanced office technologies. Areas of emphasis include: e-mail, the WWW, searching for information on the Web, developing a visual graphics-based presentation, and data management using a database management tool. Students will be required to complete computer-based labs in these areas. Prerequisites: CIS 150 or placement by exam.

CIS 321 Data Communications and Networking 3 cr
An introduction to data communications, computer networking, and network operating systems. Topics include: basic concepts of data transmission, network architectures, communications devices, and communications protocols. Prerequisite: CIS 121.

CIS 322 Operating Systems 3 cr
This course covers the development of operating systems that control computing systems. Topics include: file systems, process management, scheduling, memory management (real and virtual), security, and concurrency. Case studies of operating systems are examined. Prerequisite: CIS 230.

CIS 324 Database Design, Development, and Management 3 cr
Analysis, design, and development of desktop database systems. Coverage of normalization concepts, DBMS models, E-R/Semantic modeling, and query processing. Prerequisite: CIS 121 or ITE 285.

CIS 401 Accelerated Programming 3 cr
This course presents programming concepts in an accelerated manner. Coverage includes ADT’s, classes and class libraries, and simple data structures such as linked lists, stacks, queues. Laboratory assignments will be done in a high-level, object-oriented language. This course does not count towards a graduate degree in CIS. Prerequisite. Prior programming experience desired and permission of Coordinator.

CIS 402 Accelerated Operating Systems Computer Architecture 3 cr
This course presents computer architecture and operating systems concepts in an accelerated manner. Coverage includes machine and assembly languages, functioning of a simple processor, machine-level data flow, microprogramming, I/O, interrupts and processing drivers, memory management, dynamic process scheduling, and multitasking. This course does not count towards a graduate degree in CIS. Prerequisite. Prior programming experience desired and permission of Coordinator.

CIS 403 Accelerated Data and File Structures 3 cr
This course applies advanced programming concepts and techniques to data structures such as linear and linked lists, trees, records, files and database. Sequential and random access file processing methods; searching and sorting methods. Laboratory assignments will be done in a high-level, object-oriented language. This course does not count towards a graduate degree in CIS. Prerequisite: CIS 401.

CIS 404 Accelerated Networks and Communications 3 cr
This course presents network and communications concepts in an accelerated manner. Coverage includes signaling concepts, communication devices, switching, network architectures and protocols, OSI reference model, network management and planning. This course does not count towards a graduate degree in CIS. Prerequisite: CIS 402.

CIS 405 Programming Languages 3 cr
This course examines formal language concepts of programming languages including syntax and basic grammars. Language features such as data types and structures, control structures, and data flow will be studied. Laboratory assignments include the use of high-level languages, as well as the use of windows API. Prerequisite: CIS 403.

CIS 406 Information Systems in Organizations 3 cr
An examination of the relationship of information systems in organizations and the impact on people in the organization with respect to planning and decision making. Other topics covered include general systems theory, data security and integrity, application access control, project management, and large group behaviors. Prerequisites: CIS 402, 403, 404.

CIS 407 Database Programming 3 cr
This course examines implementation and access of databases via event-driven applications developed with visual programming tools. Other topics covered are elementary ER modeling, data integrity, referential integrity, report development, interface design. This course does not count towards a graduate degree in CIS. Prerequisite: CIS 403.

CIS 439 Windows Programming 3 cr
This course continues and expands the study of programming begun in either ITE 285 or CIS 121. Concepts previously learned are extended to application programming in the windows (GUI) environment. Students will make use of the OLE, DDE, AI features of windows in programming projects. Students will write and use their own DLL’s in producing user interfaces and applications projects. Prerequisite: CIS 230 or ITE 285.

CIS 490 Computer and Information Sciences 3 cr
Special Topics
Advanced selected topics in computer and information sciences. Prerequisite: Permission of the Specialization Coordinator.

CIS 494 Directed Study 1-3 cr
May be taken for a maximum of six (6) credits, only three (3) of which may be applied to the CIS major or minor. Prerequisite: Permission of the specialization coordinator.

CIS 496 Computer and Information Sciences Internship 1-4 cr
CIS internship program is designed to give advanced students practical experience in the computer industry. Students will work on sponsored projects with faculty advisors. Credit may apply to degree with approval of the dean. Prerequisites: GPA of 2.75 or better and approval of the dean.

CIS 497 Senior Project I (W) 3 cr
Development of requirements definitions, architectural design specifications, detailed design specifications, testing plan, and documentation for the software and/or hardware components of a comprehensive project. CIS 497 will have problem analysis, feasibility, logical design, and project plan as deliverables. Both oral and written reports will be required. Senior standing and instructor permission are required. CIS 497 and 498 must be taken in consecutive semesters. Prerequisite: Professional Component Standing and nine (9) hours* of upper division course work in the area of specialization as specified below:

**Computer Science**: CSC 333 and six (6) hours of approved upper division courses.
**Information Systems**: ISC 360 and six (6) hours of approved upper division courses.
**Information Technology**: ITE 474, ITE 480 and three (3) hours of approved upper division courses.

*CIS 321, CIS 322, and ITE 370 will not be considered as approved upper division courses.

**CIS 498**  
**Senior Project II (W)**  
Development of requirements definitions, architectural design specifications, detailed design specifications, testing plan, and documentation for the software and/or hardware components of a comprehensive project. CIS 498 will have project tracking, testing systems user documentation, software installation, and project demonstration as deliverables. Both oral and written reports will be required. Senior standing and instructor permission are required. CIS 497 and 498 must be taken in consecutive semesters. All students must complete the graduate exit interview with the Dean. Prerequisite: CIS 497.

**CIS 499**  
**Computer and Information Sciences Senior Honors Project**  
Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research project, relevant to the field of computing, that will lead to a formal presentation at the annual Honors Student Colloquium. The senior honors project will be judged and graded by three faculty chaired by the honors mentor. This course is required for Honors recognition and may be repeated for up to six credit hours. Prerequisite: Completion of an approved project prospectus and permission of the appropriate coordinator.

**CIS 500**  
**Basic Computing Principles and Applications**  
Introduction to computers and computer applications. Components of a computer system will be presented. Word processing, system design and implementation, and programming concepts will be introduced. Not to be taken for CIS graduate credit. Prerequisite: Graduate Standing.

**CIS 501**  
**Accelerated Programming**  
This course presents programming concepts in an accelerated manner. Coverage includes ADT’s, classes and class libraries, and simple data structures such as linked lists, stacks, queues. Laboratory assignments will be done in a high-level, object-oriented language. This course does not count towards a graduate degree in CIS. Prerequisite. Prior programming experience desired and permission of Coordinator.

**CIS 502**  
**Accelerated Operating Systems Computer Architecture**  
This course presents computer architecture and operating systems concepts in an accelerated manner. Coverage includes machine and assembly languages, functioning of a simple processor, machine-level data flow, microprogramming, I/O, interrupts and processing drivers, memory management, dynamic process scheduling, and multitasking. This course does not count towards a graduate degree in CIS. Prerequisite. Prior programming experience desired and permission of Coordinator.

**CIS 503**  
**Accelerated Data and File Structures**  
This course applies advanced programming concepts and techniques to data structures such as linear and linked lists, trees, records, files and database. Sequential and random access file processing methods; searching and sorting methods. Laboratory assignments will be done in a high-level, object-oriented language. This course does not count towards a graduate degree in CIS. Prerequisite: CIS 501.

This course may be repeated for a maximum of six (6) credits. A thesis committee will provide direction during the thesis. Prerequisite: CIS 595, approval of thesis proposal by the student’s thesis committee and by the Director of CIS Graduate Studies.
COMPUTER SCIENCE (CSC)

All prerequisites must be passed with a minimum grade of “C”.

CSC 190  Computer Science Special Topics 1 cr
Selected topics in computer science. Prerequisite: Permission of the CSC coordinator.

CSC 228  Digital Logic and Computer Architecture 3 cr
Topics include: Boolean algebra, minimization techniques, combinatorial and sequential circuit analysis, memory organization, microprocessor concepts, and system architecture. Prerequisite: CIS 121.

CSC 320  Computer Organization and Architecture 3 cr
An introduction to computer organization using a top down approach from system component to the register level, internal representation of data, general assembly and linking concepts, addressing modes, and introduction to a specific processor, its architecture and operating system. Prerequisite: CIS 230, CSC 228.

CSC 333  Programming Language Theory (W) 3 cr
Formal examination of programming languages. Formal language concepts including syntax and basic grammars are studied. Language features such as data types and structures, control structures and data flow are examined. The run-time environment and the process of interpretation/compilation are covered. Interpreter and compilation techniques are introduced. Prerequisite: Professional Component Standing.

CSC 410  Compiler Design and Construction 3 cr
Lexical analysis, syntactic analysis, intermediate code generation, object code generation, optimization, memory use, generators for scanners and parsers. Prerequisite: CSC 333.

CSC 411  Communications and Network Analysis 3 cr
Data communications and computer networks. An in-depth treatment of network architectures and protocols for both WANs and LANs. Topics include: network routing and flow algorithms, Internet working, and distributed systems. Prerequisite: Professional Component Standing and CIS 321, 322.

CSC 412  Real-Time Software Systems 3 cr
Design and implementation of software for real-time computer systems. Survey of typical real-time systems; techniques for code-conversation, error checking, and transmission monitoring. Prerequisite: Professional Component Standing and CIS 321, 322.

CSC 413  Computer Graphics 3 cr
An in-depth study of hardware and software techniques used in computer graphics. Study of display and entry devices including refresh, storage, and raster scan topics. Software techniques will include display files, windowing, clipping, two and three-dimensional transformations, and hidden-surface removal. Prerequisite: Professional Component Standing.

CSC 414  Modeling and Simulation 3 cr
Analytic and simulation models developed using deterministic and stochastic techniques. Topics include: event-driven simulations, queueing theory, Markov processes, and dynamic systems. 'Real world' project required. Prerequisite: Professional Component Standing and ST 310, 315 or 320.
CSC 415  Numerical Analysis  3 cr
Mathematical preliminaries, solving linear systems, numerical solution of ordinary and partial differential equations. Prerequisites: Professional Component Standing.

CSC 432  Performance Evaluation of Algorithms  3 cr
Classification and analysis of algorithms including recursive, divide and conquer, greedy, etc. Data structures and algorithms design and performance. Run time and main storage complexity analysis. Performance evaluation measurements will be discussed and popular benchmarking techniques reviewed. P, NP, and NP complete complexities will be discussed. Prerequisites: Professional Component Standing and ST 315 or 320.

CSC 433  Artificial Intelligence Theory and Programming  3 cr
Introduction to basic concepts, implementation techniques, and philosophies of artificial intelligence and intelligent systems. Introduction to expert systems, fuzzy logic systems, neural networks, and techniques for Artificial Intelligence Programming. The fundamentals of an AI programming language (LISP or PROLOG) will be presented. The language will then be used to solve problems in typical AI applications. Prerequisite: Professional Component Standing.

CSC 434  Formal Language and Automata Theory  3 cr
Mathematical preliminaries, languages, context-free grammars, parsing, normal forms, finite automata, regular languages, pushdown automata, Turing machines. Prerequisites: CSC 333.

CSC 490  Computer Science Special Topics  3 cr
Advanced selected topics in computer science. Prerequisite: Permission of the CSC Coordinator.

CSC 510  Compiler Design and Construction  3 cr
Lexical analysis, syntactic analysis, intermediate code generation, object code generation, optimization, memory use, generators for scanners and parsers. Prerequisite: CIS Graduate Professional Component.

CSC 511  Communications and Network Analysis  3 cr
Data communications and computer networks. An in-depth treatment of network architectures and protocols for both WANs and LANs. Topics include: network routing and flow algorithms, internet working, and distributed systems. Prerequisite: CIS Graduate Professional Component.

CSC 512  Real-time Software Systems  3 cr
Design and implementation of software for real-time computer systems. Survey of typical real-time systems; techniques for code-conversion, error checking, and transmission monitoring. Prerequisite: CIS Graduate Professional Component.

CSC 513  Computer Graphics  3 cr
An in-depth study of hardware and software techniques used in computer graphics. Study of display and entry devices including refresh, storage, and raster scan topics. Software techniques will include display files, windowing, clipping, two and three dimensional transformations, and hidden-surface removal. Prerequisite: CIS Graduate Professional Component.

CSC 514  Modeling and Simulation  3 cr
Analytic and simulation models developed using deterministic and stochastic techniques. Topics include: event-driven simulations, queuing theory, Markov processes, and dynamic systems. ‘Real world’ project required. Prerequisites: CIS Graduate Professional Component.

CSC 515  Numerical Analysis  3 cr
Mathematical preliminaries, solving linear systems, numerical solution of ordinary and partial differential equations. Prerequisites: CSC 327 and MA 238.

MUSIC THEORY (MUT)

CONDUCTING

MUT 361  Fundamentals of Conducting  3 cr  
Basic baton technique; simple and complex rhythms; score reading; practical choral and instrumental conducting techniques. Prerequisite: MUT 213.

MUT 362  Instrumental Conducting  3 cr  
Advanced baton technique; psychology of rehearsal; interpretative and conducting techniques for instrumental organizations. Prerequisite: MUT 361.

MUT 364  Choral Conducting and Literature  3 cr  
Advanced conducting with attention to the harmonic and formal analysis of choral works; special emphasis on performance practice. Prerequisite: MUT 361.

NOTE: A placement test is required of all transfer students. See Placement in Music Theory.

MUT 112  Basic Music Theory I (C)  3 cr  
Integrated course in aural and non-aural music theory including music skills, part writing analysis, counterpoint, slight singing, dictation, keyboard harmony, and computer applications in part writing and ear training.

MUT 113  Basic Music Theory II  3 cr  
Elementary part-writing in two, three, and four voices. Sight-singing, ear-training, and keyboard harmony. Must be taken in sequence. Prerequisite: MUT 112.

MUT 212  Intermediate Music Theory I  3 cr  
A continuation of elementary theory. Chromatic harmony and remote modulation; sight-singing, ear-training, keyboard harmony. Must be taken in sequence. Prerequisite: MUT 113.

MUT 213  Intermediate Music Theory II  3 cr  
A continuation of elementary theory. Chromatic harmony and remote modulation; sight-singing, ear-training, keyboard harmony. Must be taken in sequence. Prerequisite: MUT 212.

MUT 312  Integrated Analytical Techniques I  2 cr  

This is the first semester of a two semester sequence designed to familiarize students with the rudiments of formal analysis, counterpoint, and practical orchestration for 18th, 19th and 20th century music - particularly emphasizing classical, jazz, pop, and selected world-music styles. Prerequisites: MUT 213, Theory Placement Exam, or consent of instructor.

<tr>
<td>CED 564</td>
<td>Gerontological Counseling</td>
<td>3 cr</td>
</tr>
<tr>
<td></td>
<td>Emphasis is on a basic knowledge of the theories, principles, and techniques of counseling elderly individuals, couples, and their families. Includes such topics as: assessment, ethical and cultural issues, model programs, and current research in gerontological counseling.</td>
<td></td>
</tr>
<tr>
<td>CED 565</td>
<td>Seminar in School Counseling</td>
<td>3 cr</td>
</tr>
<tr>
<td></td>
<td>Course covers the history, roles, and practices in the field of school counseling at the elementary, middle, and high school levels. Review of applicable theories; relative research; and survey of activities, resources, and principles, which help the counselor make a difference in the system, but, foremost, in the lives of students.</td>
<td></td>
</tr>
<tr>
<td>CED 566</td>
<td>Multicultural Counseling</td>
<td>3 cr</td>
</tr>
<tr>
<td></td>
<td>Includes a study of historical and current theories and issues in multicultural counseling, provides an understanding of societal trends and changes, and demonstrates strategies/techniques for cross-cultural counseling techniques through class exercises, case studies, and demonstrations. Reflective experiences are used to allow for the development of cultural self-knowledge.</td>
<td></td>
</tr>
<tr>
<td>CED 571</td>
<td>Program Planning, Development and Management for Counselors</td>
<td>3 cr</td>
</tr>
<tr>
<td></td>
<td>An introduction to the professional practice of counseling. Includes an orientation to the process of counseling, functions and responsibilities, issues and trends, and the management of the total counseling program. Emphasis is on ethical and legal issues, client developmental needs, consultation, counseling models and the history of the profession.</td>
<td></td>
</tr>
<tr>
<td>CED 572</td>
<td>Principles and Theories of Counseling</td>
<td>3 cr</td>
</tr>
<tr>
<td></td>
<td>Includes a study of various theories, principles, and techniques in counseling. Opportunity is provided for the implementation of counseling techniques through the study of case studies and transcripts.</td>
<td></td>
</tr>
<tr>
<td>CED 573</td>
<td>Educational and Occupational Information Systems, Materials and Resources</td>
<td>3 cr</td>
</tr>
</tbody>
</table>
The study of educational, vocational, psychological, and individual resources needed to make employment decisions. Emphasis is on the collection and evaluation of information, procedures and strategies for researching employment opportunities, and the management on information services.

**CED 574  Group Counseling and Group Guidance**  3 cr
**Procedures**
Includes both the theory and practice of group counseling, counseling with clients of diverse backgrounds, and selecting group work suitable to multicultural needs. Emphasis is on the developmental level and background of clients with whom the counselor expects to work.

**CED 575  Introduction to Community Rehabilitation**  3 cr
Introduces the student to the broad field of community rehabilitation including the history, philosophy, present activities and future trends in rehabilitation. A multidisciplinary approach to the study of the “whole person” is emphasized and direct contact with community social service agencies is an integral part of the course.

**CED 576  Supervised Practicum in Counseling**  3 cr
This course requires the student to demonstrate the appropriate use of a variety of counseling skills and techniques. Audio and video tapes of individual counseling sessions are critiqued in class by the instructor. Prerequisites: Special permission of the instructor and grade of “B” or above in CED 586.

**CED 577  Vocational Evaluation and Job Placement**  3 cr
This course offers the student both theory and experience in the determination of work potential in the person with a handicap. In addition, the student learns and practices the principles of vocational surveys, job-analysis, job placement, and follow-up.

**CED 578  Supervised Practicum in Group Counseling**  3 cr
Supervised practice is provided in group counseling and other group work experience appropriate for a counselor. Practicum experience is offered in the educational setting in which the student plans to work. Prerequisite: Special permission of the instructor.

**CED 579  Social and Psychological Aspects of Disability**  3 cr
The theory, research. and practices in related disciplines which contribute to an understanding of human disability. Field work and case studies serve as integrating activities.

**CED 580  Student Personnel Services**  3 cr
Included is a survey of historical developments and current practices in student personnel services in post-high school educational institutions. The organization, administration, and functions of the various services are stressed.

**CED 581  Rehabilitation Case Management**  3 cr
This course provides for critical analysis of representative rehabilitation case studies. Case records are used as a basis for developing an understanding of the clients with handicaps and their problems, the rehabilitation case work process, diagnosis, eligibility requirements, and the provision of services.

**CED 582  School Counseling and Guidance**  3 cr
The School Counselor: K-12 coverage of history, roles and current practices in the field of school counseling at elementary, middle and high levels. Review of applicable theories, relative research and survey of activities, resources and principles which help the counselor make a difference in the system, but foremost in the lives of students.

**CED 583  Individual and Group Testing Laboratory**  3 cr
Supervised experience in the selection, administration, and scoring of educational and psychological tests, and the interpretation and reporting of test results. Prerequisite: EPY 555.

**CED 584  Seminar in Ethical and Legal Issues In Counseling**  3 cr
Ethical standards of the profession and current legal issues will be examined in the context of case studies and current literature. Critical analysis by each student of legal and ethical issues faced by counselors and psychometrists will be stressed.

</tbody>
</table>
The internship is a supervised learning experience in a work setting similar to that in which a rehabilitation counselor eventually will be employed. The internship provides the student with an opportunity to apply the theories and concepts learned during the graduate program. Not more than 12 hours may be taken. Prerequisites: Special permission of the instructor, and grade of "B" or above in CED 586 and CED 576.

CED 599 Thesis 1-9 cr
A student selects a project, study, or investigation which is related to an area of specialization in Counselor Education. The project forms a basis for the thesis. A thesis committee will provide direction during the writing of the thesis.

CED 672 Advanced Counseling Theory and Practice 3 cr
An advanced study of counseling theories and strategies as they apply to practical situations and special populations. Prerequisite: CED 572.

CED 674 Advanced Theory and Practice in Group Counseling 3 cr
This course provides the student with advanced skills and knowledge designed to facilitate working with groups. The course emphasizes group theory, research, and participation in group dynamics. Prerequisite: CED 574.

CED 676 Advanced Practicum in Counseling 3 cr
Supervised field experience in appropriate settings. Required weekly seminar. Prerequisites: Special permission of the instructor and CED 576.

CED 678 Negotiation Training 3 cr
This course focuses on the development of negotiation, conflict resolution, and communication skills needed to be effective in resolving a variety of training-related problems. Students will have an opportunity to research and practice the skills in the negotiation process by applying communication and conflict resolution techniques in simulated and real situations.

CED 690 Special Topics 3 cr
Guided supervision in the completion of learning tasks in counselor education such as program design and revision, study of a significant topic, theory, model, and supervision of selected learning activities to acquire specific counseling and testing skills.

CED 694 Directed Study and Research 1-3 cr
Students explore through directed study problems and issues of special interest or significance in Counselor Education. Not more than three semester hours of any departmental 694 courses can be accepted toward a degree program.

CED 699 Research Project 3-9 cr
A supervised field project, study, or investigation in the Counselor Specialist Program, serving as the culminating experience in the program. Applying concepts and skills learned during the sixth-year program, the student will conduct an investigation and prepare a field project report in standard form. Prerequisites: CED 576 and special permission of the instructor.
### CRIMINAL JUSTICE (CJ)

NOTE: The following course, CJ 205, Introduction to Criminal Justice, is prerequisite to all subsequent courses in Criminal Justice and must be passed with a "C" or better.

<table>
<thead>
<tr>
<th>Course</th>

CJ 496 Professional Studies: Internship

http://www.southalabama.edu/bulletin/bulletin0506/courcj.htm (2 of 3) 7/14/2005 11:39:03 AM
Criminal Justice (CJ)

Relates the participant's classroom studies with occupational and professional experiences in an approved criminal justice agency. Written reports required. Course may be repeated for a maximum of twelve hours credit. Only 3 hours apply to the criminal justice curriculum. S/U grading only. Open only to CJ majors and minors and with permission of department chair.

CJ 497  Practicum in Polling  3 cr
Supervised experience in all aspects of the survey research process, including but not limited to literature review, research design, questionnaire development, sampling techniques, interviewing, data analysis and interpretation and presentation of findings. Prerequisite: Permission of the professor, PSC 130 and CJ 310, and S/U grading only.

CJ 498  Practicum in Policy Studies  3 cr
Students will be exposed to a variety of experiences associated with the operations of a fully operational research center, including inservice and management training, consulting, sponsored research organizational assessments, strategic and program planning, operations, program evaluation, intergovernmental fiscal processes including the search for funding, and grant writing. Research assignments will include basic research design, survey and focus group instrument development, administration of surveys, handling focus groups, curriculum preparation and administration, data manipulation and analysis, and report writing. Prerequisites: Permission of the professor, PSC 130, CJ 310, and S/U grading only.

CJ 499  Honors Thesis (W)  3 cr
The research and writing of a major paper in the field or Criminal Justice. Prerequisite: USA Honors Program

Department of Political Science and Criminal Justice

College of Arts and Sciences
DEVELOPMENTAL STUDIES (DS)

DS 011 Study Skills 3 cr
An introduction to college reading and study skills. Strategies for adjusting to college will be presented with assessments of personality as related to learning styles.

DS 014 Writing 3 cr
Designed to prepare students for college writing classes. The main focus is on writing drafts and revisions of several essays, using reading to augment this instruction in the writing process.

DS 081 Prealgebra 4 cr
A review of prealgebra and basic algebra skills including operations with whole numbers, fractions, and decimals; ratio and proportion, percent, and measurement; introduction to exponents, language of algebra, signed numbers, absolute value, order of operations, linear equations and inequalities, graphs and statistics. Required labs. Prerequisites: Placement test and permission of Developmental Studies Academic Advisor.

DS 082 Introductory Algebra 4 cr
A continuation of DS 081 including a review of the algebra of polynomials, factoring polynomials, fractions of algebra, linear equations in two variables, square roots and related equations, and quadratic equations. Required labs. Prerequisites: Successful completion of DS 081 and permission of Developmental Studies Academic Advisor.

DS 083 Elementary Algebra 4 cr
A review of elementary algebra including the language of algebra and signed numbers, order of operations, linear equations and inequalities, graphs and functions, algebra of polynomials, factoring polynomials, fractions of algebra, linear equations in two variables, and quadratic equations. Required labs. Prerequisites: Placement test or successful completion of DS 081 and permission of Developmental Studies Academic Advisor.

DS 084 Intermediate Algebra 4 cr
A review of intermediate algebra including compound inequalities, absolute value equations and inequalities, solving systems of linear equations; radicals, rational exponents, operations of radical expressions, radical equations, complex numbers; solving quadratic equations, nonlinear inequalities, graphs of quadratic functions; inverse functions, exponential function, logarithmic functions, exponential and logarithmic equations; arithmetic and geometric sequences, series, partial sums, binomial theorem; graphs of parabola, circle, ellipse, hyperbola, nonlinear systems of equations, nonlinear systems of inequalities. Required labs. Prerequisites: Placement test or successful completion of DS 082 or 083 and permission of Developmental Studies Academic Advisor.

DS 085 Trigonometry and Geometry 3 cr
A trigonometry and geometry course for students who need this preparation for MA 113 or 115. Topics include lines and angles, polygons, triangles, circles, solids, and composite figures, the six trigonometric functions, right triangle trigonometry, radian measure, graphing and inverse functions, identities, equations, complex numbers and polar coordinates, and logarithms. Required computer lab. Prerequisite: High School Algebra or successful completion of DS 082 or 083 and permission of Developmental Studies Academic Advisor.

DS 090 Special Topics 1-3 cr
Designed to provide students an opportunity to study selected topics of particular interest. Prerequisite: Permission of Department.
DS 094 Directed Studies 1-4 cr
Directed studies under the supervision of a faculty member. Directed study in mathematics includes required labs. Prerequisite: Permission of the Program Chair.

</tbody>
</table>
An exploration of modern dance techniques, vocabulary, and history with ballet as their basis. Prerequisite: DRA 204.

DRA 210  Makeup  1 cr  A study of the materials and techniques of theatrical makeup.

DRA 220  Stage Movement  3 cr  Through exercises and scene study, student-actors explore movement for the stage. Prerequisite: DRA 211 or permission of instructor.

DRA 221  Voice for Actors  3 cr  A workshop-lecture course in speaking voice and articulation for performance. Prerequisite: DRA 211 or permission of instructor.

DRA 250  Theatre Management  3 cr  A basic course in the principles of accounting, purchasing, box-office management, house management, and promotion.

DRA 261  Creative Dramatics  3 cr  A practical course concerned with improvisational acting with children. Of special interest to students in Education and Leisure Services.

DRA 290  Special Topics  3 cr  Theatre and drama topics not covered in regular curriculum. May be repeated when subject varies.

DRA 300  Advanced Workshop: Rehearsal and Performance  1 cr  Advanced practical experience in acting. May be repeated for a maximum of four hours. Prerequisites: Junior status and permission of the department chair.

DRA 301  Advanced Workshop: Technical Production  1 cr  Advanced practical experience in backstage work. May be repeated for a total of four hours. Prerequisites: Junior status and permission of the department chair.

DRA 302  Advanced Workshop: Special Activities  1 cr  Advanced practical experience in theatre areas other than acting or technical production. May be repeated for a total of four hours. Prerequisites: Junior status and permission of the department chair.

DRA 310  Playwriting  3 cr  Studies in character, plot development, and the one-act play form. Prerequisite: Permission of department chair.

DRA 320  Acting III  3 cr  An in-depth study of character analysis and portrayal, typically "audition techniques." Prerequisite: DRA 211 or permission of instructor.

DRA 321  Acting IV  3 cr  A continuation of Acting III, this course emphasizes the techniques of theatrical styles, typically "Shakespeare." Prerequisite: DRA 211 or permission of instructor.

DRA 330  Scene Design  3 cr  The fundamentals of scene design for the stage.

DRA 332  History of Costume  3 cr  Historical study of dress in relation to costuming for the stage.

DRA 340  Directing I  3 cr  The fundamental techniques involved in directing a stage play: analysis, casting, and blocking. Prerequisite: DRA 120.

DRA 350  Theatre History I (W)(C)  3 cr  A comprehensive study of the important contributions in theatre art from its beginnings to 1642.

DRA 351  Theatre History II (W)  3 cr

Department of Dramatic Arts

College of Arts and Sciences
ECONOMICS (ECO)

ECO 215 Principles of Microeconomics 3 cr
Functions of the price system in a market economy; role of households and business firms in mobilizing resources to meet human needs. The functional and personal distribution and use of income. Relevant problems are discussed. Core Course.

ECO 216 Principles of Macroeconomics 3 cr
Economics as a science; its nature and functions. Analysis of the American economy from the macroeconomic viewpoint, stressing full employment, monetary and fiscal policy, national income accounting, and their application to current problems and issues. Core Course.

ECO 300 Introduction to Economics 3 cr
Intensive study of micro- and macroeconomic principles with emphasis on application to current economic issues and problems of interest to public school teachers and students. Prerequisite: for non-business and non-economics majors.

ECO 315 Intermediate Microeconomics 3 cr
Operation of the price system, with special reference to a market economy and to related public policies and business issues; analysis of the distribution of income; theories of consumer behavior, the firm, resource allocation, and product distribution. Prerequisite: ECO 215 or ECO 300 for non-business and non-economics majors.

ECO 316 Intermediate Macroeconomics 3 cr
The nature and control of forces in a developed economy that determine levels of employment, income and use of resources, and rate and direction of economic growth. Prerequisite: ECO 216 or ECO 300 for non-business and non-economics majors.

ECO 318 Principles of Managerial Economics 3 cr
Study of economic principles and methods in analyzing problems faced by management of a business or other type of organization; application of economic concepts to finding solutions of such problems that advance the best interest of such organizations. Prerequisite: ECO 215 or ECO 300 for non-business and non-economics majors.

ECO 321 Economic Systems 3 cr
Economic systems in leading societies and cultures are analyzed, with special reference to economic growth, full employment policies, various institutions and techniques, and the effectiveness with which they function under different systems. Prerequisite: ECO 215 or ECO 300 for non-business and non-economics majors.

ECO 322 Industrial Structure and Public Policy 3 cr
An analysis of the effect of modern industrial structure on competitive behavior and performance, in the light of contemporary price theory and the theory of workable competition; a critical evaluation of the legislative content, judicial interpretation, and economic effects of antitrust laws, current problems and proposed remedies. Prerequisite: ECO 215 or ECO 300 for non-business and non-economics majors.

ECO 323 Public Finance 3 cr
The nature, purposes, and economic effects of various types of taxes in a federal government. Problems of tax administration, budgeting, and expenditure of tax revenues. Review of current problems. Prerequisite: ECO 215 or ECO 300 for non-business and non-economics majors.

ECO 325 State and Local Government Finance 3 cr
An analysis of the facts, problems, theories, and economic policy implications of the expenditures and revenue sources of state and local governments. Prerequisite: ECO 215 or ECO 300 for non-business and non-economics majors.

**ECO 330 Current Global Economic Issues 3 cr**
Application of standard economic theory of markets to analyze major issues confronting U.S. consumers and businesses in the global economy. Topics include comparative advantage, commercial policy and protectionism, currency markets and foreign exchange rates, economic integration and free trade areas, international trade accounting, and financial aspects of international trade. Prerequisite: ECO 215 or ECO 300 for non-business and non-economics majors.

**ECO 340 Money and Banking 3 cr**
Analysis of monetary, credit, and banking institutions in the American economy, emphasizing commercial banks, the Federal Reserve System, and the Treasury. Prerequisites: ECO 215 and ECO 216, or ECO 300 for non-business and non-economics majors.

**ECO 343 Labor Economics 3 cr**
United States population analyzed by age, sex, and other characteristics; study of the labor force and its composition; unemployment and underemployment. Education as an investment in productive resources. Economics of leisure, health, housing, recreation, and other areas of human-resource development. Prerequisite: ECO 215 or ECO 300 for non-business and non-economics majors.

**ECO 363 International Economics 3 cr**
Modern international trade theory; the balance of payments and adjustment processes; the evolution of international economic institutions; critical analysis of current international economic policies - trade, monetary, and regional economics organizations. Prerequisite: ECO 216 or ECO 300 for non-business and non-economics majors.

**ECO 371 Economic Development 3 cr**
Economic development theory with stress on the roles of technology, management, international financing, technical assistance organizations, and international private investment. Factors that control and influence the developmental and growth process either positively or negatively. Prerequisite: ECO 215 or ECO 300 for non-business and non-economics majors.

**ECO 372 Economics of Urban Development 3 cr**
The nature of urban development, with special attention to analysis of the impact of urban expansion on natural, human, and capital resources; financial and administrative problems. The role of planning and regulation. Theoretical and practical limitations to urbanization. Prerequisite: ECO 215 or ECO 300 for non-business and non-economics majors.

**ECO 383 Economic History of the United States 3 cr**
The evolution of the modern United States economic system. The parts played by exploitation of natural resources, investment from abroad, financial institutions, and technology in arriving at the present economic situation. Critical analysis of development just before, during and after World War II, and of current economic problems. Prerequisites: ECO 215 and ECO 216, or ECO 300 for non-business and non-economics majors.

**ECO 453 Introduction to Econometrics 3 cr**
Study of regression analysis and its application to business, economics, and other social-science problems; emphasis on model building, research writing, and econometric forecasting. Students are required to write a term paper on econometric applications under direct supervision of the instructor. Prerequisites: BUS 245 or ST 210, ECO 215 and ECO 216.

**ECO 490 Special Topics 3 cr**
Designed to provide senior students an opportunity to study selected topics of particular interest. Prerequisite: Approval of department chair.

**ECO 491 History of Economic Thought 3 cr**
Economics ideas from the Greeks to present, with intensive study of the classical, neoclassical, and contemporary schools of economic thought. Prerequisite: ECO 215 or ECO 300 for non-business and non-economics majors.

ECO 494 Directed Study in Economics 3 cr
Reading and research on selected economic topics under guidance of the departmental faculty. Credit and prerequisites vary with the nature and magnitude of individual projects. Prerequisites: Junior or senior standing, a cumulative GPA of 2.5 or better, and approval of the department chair following the evaluation of a written proposal.

ECO 496 Economics Internship 3 cr
The internship program is designed to give students practical experience in their field of study. Students will complete projects under the supervision of a faculty advisor. No more than three hours of internship may be counted toward a degree in the Mitchell College of Business. Prerequisites: Junior or senior standing, a cumulative GPA of 2.5 or better, and approval of the department chair, following the evaluation of a written proposal.

ECO 497 MBA Economics Survey 3 cr
A survey of macro- and microeconomic theory with emphasis placed upon the economics of the firm and the industry, market structures, price theory, forecasting and long-term business planning. Available only to college graduates planning to enter MBA or MAcc programs.

ECO 518 Managerial Economics 3 cr
An application of microeconomic concepts to managerial decision making; concepts covered include market structure, optimization, regression modeling, global concepts, price elasticity, pricing/profit analysis, gaming analysis, antitrust laws, forecasting, and capital budgeting.

ECO 520 Global Economic Issues for Managers 3 cr
An introduction to global economic concepts for managers of the public and private sector; concepts covered include impact of US trade policies on the global economy, foreign exchange rates, foreign direct investment, multinational corporations, international organizations for free trade, and managerial decision-making in the changing global environment.

ECO 521 Governmental Policy Towards Business 3 cr
An examination of the rationale behind and actual effects of federal government statutes and policies in the areas of antitrust, public utilities, quasi-public utilities, and public enterprise. Particular attention is given to firm behavior in unregulated markets and the modifications of this behavior which result from governmental intervention.

ECO 532 Macroeconomic Theory 3 cr
Provides the student with an understanding of the interrelated forces that determine the levels of employment, income, and rate of inflation in a free-market economy. Analyzes the theoretical basis for governmental stabilization policies, and the macro-effects of such policies.

ECO 590 Special Topics 3 cr
Designed to provide graduate students an opportunity to study selected topics. (A student may count no more than 3 hours of Special Topics in the M.B.A. degree program). Prerequisite: Approval of department chair.

ECO 594 Independent Study in Economics 3 cr
Readings and research on selected topics. Conferences and formal research report required. Prerequisite: Approval of department chair.

**Department of Educational Leadership**

**College of Education**
EDM 310 Microcomputing Systems in Education 3 cr
Basic understanding of microcomputing hardware and software for instructional purposes. Requires a special fee.

EDM 312 Educational Technology 3 cr
Application of current educational technology in various instructional environments. Laboratory experience is given with selected software programs. May be repeated when technological application changes.

EDM 385 Methods of Instructional Communication 3 cr
Application of current concepts in communication and instructional system design to elementary and secondary teaching. Operation of basic mediaware and overview of literature related to media use are stressed.

EDM 490 Special Topics 3 cr
Investigation of contemporary topics of interest in Educational Media. Prerequisite: Permission of department.

EDM 494 Directed Study: ED Media 1-3 cr
Directed study in Educational Media. No more than two directed studies can count toward the Bachelor’s degree. Prerequisite: Requires departmental approval.

EDM 510 Microcomputing Systems in Education 3 cr
Basic understanding of microcomputing hardware and software for instructional purpose.

EDM 520 Computing Applications in Education 3 cr
Application of current software and hardware in various instructional environments.

EDM 530 Workshop in Educational Media 1-9 cr
In-depth study and operational experience in current trends and techniques in educational media research.

EDM 533 Curriculum Media for Children 3 cr
This course explores media used for learning and enjoyment with children in preschool through grade eight. Other topics include: the professional roles and responsibilities of a collection developer; the influence of child development curriculum on collection development; an overview of the marketplace; strategies to encourage teachers to use media center materials in teaching; and related research.

EDM 552 Curriculum Media for Young Adults 3 cr
This course initiates or extends a student's knowledge of how to identify, select, and use library media resources for students in grades 6 through 12. Other topics include: the role of a library media specialist in establishing and maintaining a collection of resources; steps that can be taken to encourage students to use the collection; related research; and ways professionals can keep abreast of the latest knowledge, practices, and resources.

EDM 580 Information Literacy 3 cr
This course focuses on the role of the library media specialist in teaching students and instructional staff how to select, evaluate, and use information from print, non-print and online sources. Emphasis is placed on information access, retrieval, and interpretation; advanced research techniques; copyright laws; and lessons and projects that utilize research information.

EDM 581 Media Center Management 3 cr
This course covers the procedures and routines for effective media center management, including acquiring, organizing, classifying, cataloging, maintaining, and inventorying a relevant collection. Other topics include: selecting resources to support the total curriculum and budget, responding to the needs of a school's demographic population, assisting students and teachers in the application of information skills, and applying the fundamentals of library design to achieve an effective environment for learning and leisure use.

**EDM 582 Production of Curriculum Media** 3 cr
Provides instruction in the elements of planning, preparation and evaluation of professional curricular materials for group and individual instruction.

**EDM 583 Library Media Programs** 3 cr
This course covers the professional responsibilities for planning, implementing, and evaluating a library media program that serves a school program. Emphasis is placed on curriculum, leadership, environment, teaching and learning styles, a planning model, collaboration, staff development, program administration and evaluation activities, and ways in which research can be used to help shape an effective program.

**EDM 590 Special Topics** 3 cr
Topics of contemporary interest in the area of Educational Media will be presented, discussed, and investigated.

**EDM 594 Directed Study and Research** 1-3 cr
Students explore problems and issues of special interest or significance in Educational Media. Not more than four semester hours maybe accepted toward degree programs.

**EDM 595A Internship in Educational Media: A** 1 cr
The internship is a supervised learning experience in a work setting similar to that in which a media specialist eventually will be employed. Departmental approval is required. Prerequisite: A grade of "B" or above in EDM 581.

**EDM 595B Internship in Educational Media: B** 1 cr
The internship is a supervised learning experience in a work setting similar to that in which a media specialist eventually will be employed. Departmental approval is required. Prerequisite: A grade of "B" or above in EDM 580.

**EDM 595C Internship in Educational Media: C** 1 cr
The internship is a supervised learning experience in a work setting similar to that in which a media specialist eventually will be employed. Departmental approval is required. Prerequisite: A grade of "B" or above in EDM 533 or EDM 583.

*Only for students admitted to teacher candidacy.*

</table>
Includes basic theories of intelligence, basic concepts and principles of intelligence testing, and extensive practice in administering, scoring, and interpreting the Stanford-Binet Scale in a wide variety of educational settings. Competencies in consulting with other professional personnel and with parents will be emphasized. Prerequisite: A grade of "B" or above in EPY 555.

**EPY 558 Individual Intelligence Testing:** 3 cr
**The Kaufman Scales**
The Kaufman Assessment Battery for Children and the Kaufman Adolescent and Adult Scale are the basic instruments used for extensive practice in administering, scoring, and the interpretation of intelligence. The various theories of intelligence, especially those of Horn and Cattell, Luria, Sperry and Neisser are emphasized. Prerequisite: EPY 555.

**EPY 590 Special Topics** 3 cr
Guided supervision in the completion of learning tasks in educational psychology such as program design and revision, study of a significant topic, theory, model, and supervision of selected learning activities to acquire specific counseling and testing skills.

**EPY 594 Directed Study and Research** 1-3 cr
Students explore through directed study problems and issues of special interest or significance in Educational Psychology. No more than three semester hours of any departmental 594 courses can be accepted toward a degree program. Prerequisite: Consent of the Department Chair.

**EPY 602 Advanced Theories of Learning** 3 cr
A study of the major psychological theories, models, research, and principles that apply to the teaching and learning process. Special attention will be given to cognitive approaches. Prerequisite: A grade of "B" or above in EPY 502.

**EPY 610 Individual Differences Among Learners** 3 cr
Examination of individual and developmental differences as related to learning, performance, and behavior. Intelligence, attitudes, cognitive and learning styles, anxiety, prior knowledge, and locus of control are among the topics discussed. Models and methods for using learner characteristics in instructional design, teaching practices, and research are considered.

*Only for students admitted to teacher candidacy.*

## ELECTRICAL AND COMPUTER ENGINEERING (EE)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>EE 220</td>
<td>Circuit Analysis I</td>
<td>3 cr</td>
<td>SI System of units; resistive networks with independent and dependent sources; Ohm's law; Kirchoff's law; nodal and loop analysis; network theorems; energy storage elements (capacitors and inductors); first and second order transient circuits; steady state AC analysis; and introduction to PSpice. Prerequisite: MA 125.</td>
</tr>
<tr>
<td>EE 227</td>
<td>Circuits and Devices Laboratory</td>
<td>1 cr</td>
<td>Introduction to electrical laboratory equipment and instrumentation: analog and digital meters, oscilloscopes, bridges, power supplies, function generators. Measurement of voltage, current, and power in DC networks and in single-phase and three-phase AC networks. Verification of Kirchoff's laws. Measurement of resistance, capacitance, and inductance. Prerequisites: EE 220 and credit for or concurrent registration in EH102. Fee.</td>
</tr>
<tr>
<td>EE 263</td>
<td>Digital Logic Design</td>
<td>3 cr</td>
<td>Number systems, introduction to basic logic circuits, analysis and design of combinational and sequential logic circuits, HDL based logic circuit simulation and design. Prerequisite: CIS 210. Corequisite: EE 220. Fee.</td>
</tr>
<tr>
<td>EE 264</td>
<td>Microprocessor Systems and Interfacing</td>
<td>3 cr</td>
<td>Small computer organization, assembly and machine level programming, microprocessor architectures and instruction sets, microprocessor and microcontroller system design, and microprocessor based peripheral interfacing. Prerequisite: EE 263. Fee.</td>
</tr>
<tr>
<td>EE 268</td>
<td>Digital Logic Laboratory</td>
<td>1 cr</td>
<td>A series of digital logic circuit experiments and simulations using TTL/CMOS integrated circuits designed to reinforce the material presented in EE 263. Design projects include standard SSI and MSI digital circuit based simulation and experiments. Prerequisite: EE 263. Corequisite: EE 227. Fee.</td>
</tr>
<tr>
<td>EE 301</td>
<td>Professionalism and Ethics in ECE</td>
<td>1 cr</td>
<td>Topics in engineering ethics and professionalism using case studies, video tapes and invited speakers from the profession and related fields. Electrical Engineering students are required to make at least one oral presentation, become student members of the Institute of Electrical and Electronics Engineers (IEEE) and attend both Student Chapter and Mobile Section meetings as part of the course requirements. Computer Engineering students have identical requirements to the above, unless, as an alternative, they opt to join the Association for Computing Machinery (A.C.M.). Prerequisite: Professional Component Standing. Fee.</td>
</tr>
<tr>
<td>EE 302</td>
<td>Computer Methods in ECE</td>
<td>1 cr</td>
<td>Introduction to the use of computer software such as MATHCAD/MATLAB and PSPICE/ELECTRONIC WORKBENCH for the analysis of engineering related problems and the solution of electrical/electronic circuits. Prerequisites: EE 223 and EE 263. Fee.</td>
</tr>

</tr>
<tr>
<td></td>
<td>Solutions of the wave equation in unbounded simple media. Electromagnetic waves in parallel-wire transmission lines, metallic waveguides, resonant cavities, and optical fibers. Radiation by electric and magnetic dipoles, wire and aperture antennas, and antenna arrays, principles of energy conversion and characteristics of microwave klystron amplifiers and oscillators. Prerequisite: EE 354. Fee.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>EE 356</td>
<td>Electromagnetics Laboratory</td>
<td>1 cr</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Computer-aided and experimental field mapping; shielding techniques; field measurement of elementary radiating structures and waveguide circuits; terminal characteristics of klystrons, tunnel diodes and space wave propagation losses. Radiation characteristics of wire and aperture antennas and antenna arrays. Prerequisite: Credit for or concurrent registration in EE 355. Fee.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>EE 365</td>
<td>Digital Signal Processing</td>
<td>3 cr</td>
<td></td>
</tr>
</tbody>
</table>
Electrical and Computer Engineering (EE)

Discrete-time signals and systems in the time domain and in the transform domain. LTI discrete-time systems in the transform-domain. Digital processing of continuous-time signals. Introduction to analog and digital filter structures. Introduction to MatLab based filter design. Prerequisites: EE 321, EE 322.

**EE 368 Microprocessor Systems and Interfacing Laboratory**

This laboratory is designed to reinforce the material covered in EE 264 and to provide practical hands-on experience with microprocessor software, hardware and interfacing. Topics include integration of microprocessor software, hardware and peripheral devices; assembly level programming and hardware interfaces for control and instrumentation. Prerequisite: EE 268. Corequisite: EE 264.

**EE 372 Introduction to Communications**

Introduction to communication systems; analog, digital, deterministic and stochastic messages; modulation; redundancy coding. Signal energy and power; correlation; orthogonal signal set and Fourier series. Fourier transforms; signal transmission through linear systems; ideal and practical filters; signal distortion; Parseval's theorem; essential bandwidth and energy and power spectral density. Amplitude modulation: DSB, SSB, AN, QAM and VSB; phase and frequency modulation and the basic design of a FM transmitter. Sampling theorem; pulse code modulation and differential pulse code modulation. Prerequisites: EE 322, EE 331.

**EE 381 Electromechanical Energy Conversion**

Introduction to the principles of electromechanical energy conversion. Energy balance, force, and torque of electrostatic and electromagnetic systems; magnetic circuits and ferromagnetic losses; transformers and their connections; three-phase induction motors; synchronous generators and motors; salient and non-salient machines. Parallel operation of synchronous generators. Dynamics of electric machines. Prerequisites: Credit for or concurrent registration in EE 354 and EE 302. Fee.

**EE 385 Energy Conversion Laboratory**

Laboratory experiments based on: Faraday's Law and magnetic coupling; magnetic circuits; transformers (single and three phase) their connections and tests. Three phase induction motors-tests and performance characteristics; synchronous generators and motors. Machine data acquisition methods and processing using a computer. Prerequisites: EE 302. Credit for or concurrent registration in EE 381. Fee.

**EE 401 Introduction to Electrical and Computer Engineering Design (W)**

Specification of design criteria. Written and oral presentations of design proposals. Prerequisites: EE 368, EE 334 and credit for or concurrent registration in EE 301. Fee.

**EE 404 Electrical and Computer Engineering Design (W)**

Implementation of a design project from the field of Electrical or Computer Engineering in the broadest sense and under the guidance of a project director from the electrical and computer engineering faculty. Written and oral presentations of project proposals, interim and final reports. Prerequisites: EE 337, EE 401 and instructor's permission. Fee.

**EE 422 Advanced Feedback Control Systems**

Sensors, encoders and D.C. motors in control systems. The performance and design of feedback control systems. System bandwidth; Nichol's Chart and the stability of control systems with time delays. State variable analysis and design. Use of MatLab for analysis and design. This course is dually listed with an equivalent graduate level course (EE 522) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisite: EE 328. Fee.

**EE 423 Modern Control Theory**

3 cr
Simulation and modeling; introduction to linear system theory; concepts of controllability and observability; specifications, structures and limitations; review of classical design methods; state feedback design methods; multivariable control; robust stability and sampled data implementation. Introduction to the use of MATLAB for design. This course is dually listed with an equivalent graduate-level course (EE 523) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisite: EE 328. Fee.

EE 424 Nonlinear Control System 3 cr
State space description; methods of linearization; isoclines; stability of nonlinear systems; Lyapunov's direct method; harmonic linearization; describing functions; dual input describing functions; Popov's method; circle criterion and computer aided analysis. This course is dually listed with an equivalent graduate-level course (EE 524) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisite: EE 328. Fee.

EE 425 Programmable Logic Controller Lab 1 cr
PLC overview; ladder logic programming; programming of timers and counters; programming control; data manipulation and math instructions; sequencers and shift register instructions; data acquisition methods. Prerequisite: EE 334. Fee.

EE 427 Digital Control Systems 3 cr
State space and transfer function description of discrete-time systems; solution of discrete state equation; discrete-time model of analog plants; frequency domain analysis; design of discrete state-feedback regulators; observers and tracking systems. This course is dually listed with an equivalent graduate level course (EE 527) and requires a minimum GPA of 2.75 for admission. Prerequisite: EE 328 or the instructor's permission. Fee.

EE 430 Power Semiconductor Devices 3 cr
Characteristics of power devices; physics of transport phenomena; breakdown voltage; power rectifiers; bipolar transistors; power MOSFET; insulated-gate bipolar transistor and MOs-gated thyristors. Prerequisite: EE 331. Fee.

EE 431 Advanced Electronic Devices 3 cr
Semiconductor electronics; semiconductor diode circuit analysis; bipolar and field effect transistors; analog-to-digital and digital-to-analog circuits and active filters. This course dually listed with an equivalent graduate-level course (EE 531) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisite: EE 334. Fee.

EE 432 Microelectronic Devices 3 cr
Introduction to semiconductor material properties; semiconductor diodes; structure and operation; diode circuit applications; bipolar transistor: structure and operation; junction field effect transistors (JFETs); metal oxide field effect transistors (MOSFETs); fabrication technology and construction of semiconductor devices; biasing and stability of amplifiers. This course is dually listed with an equivalent graduate-level course (EE 532) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisite: EE 334. Fee.

EE 438 Electronic Instrumentation 3 cr
Transducers; measurement techniques; measurement errors; operational amplifiers and applications; digital signal processing; noise sources and reduction; digital image processing; computer aided electronic instrument design and experimentation. Prerequisite: EE 334. Fee.

EE 439 VLSI Technology and Fabrication 3 cr
Introduction to semiconductor devices; crystal growth and wafer preparation; chemical and physical vapor deposition; oxidation; diffusion; ion implantation; lithography; etching; metallization; process integration of CMOS and bipolar technologies; diagnostic techniques and measurements; packaging; yield and reliability. This course is dually listed with an equivalent graduate-level course (EE 539) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisite: EE 331. Fee.

EE 440 Introduction to VHDL 3 cr
Introduction to the syntax and elements of the basic VHDL language such as entities and architectures; creating combinational, synchronous logic and state machines using both structural and behavioral VHDL; using hierarchy in large designs; synthesizing and implementing designs. This course is dually listed with an equivalent graduate-level course (EE 540) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisites: EE 264 and EE 268. Fee.

**EE 441 Computer Networks**

3 cr

Introduction to design and analysis of computer networks. Polling networks and ring networks. This course is dually listed with an equivalent graduate level course (EE 541) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisites: EE 264 and EE 268. Fee.

**EE 443 Introduction to Verilog**

3 cr

Introduction to the syntax and elements of the basic Verilog language such as modules and ports; hierarchical modeling; gate-level modeling; dataflow modeling; behavioral modeling, switch-level modeling; tasks and functions; timing and delays; user-defined primitives synthesizing and implementing designs. This course is dually listed with an equivalent graduate level course (EE 543) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisites EE 264 and EE 268. Fee.

**EE 444 Wireless Networks**

3 cr

Introduction to wireless data transmission principles and practices. Spectrum administration and standards. Digital cellular communications systems. Mobile data networks. Wireless PBXs and wireless LANs. This course is dually listed with an equivalent graduate-level course (EE 544) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisite: EE 321. Fee.

**EE 445 Microprocessor Based System Design**

3 cr

Architecture and software of 16-bit and 32-bit microprocessor hardware and software; interface design to memory and peripheral devices; multiprocessing. Prerequisites: EE 264 and EE 368. Fee.

**EE 446 Microprocessor Based System Design Laboratory**

1 cr

Design projects utilizing 16-bit and 32-bit microprocessor hardware and software; interfaces to memory and peripheral devices. Prerequisite: Credit for or concurrent registration in EE 445. Fee.

**EE 447 Programmable Logic Devices Lab**

1 cr

Digital design projects utilizing simulation and synthesis CAD tools and targeting programmable logic devices. Prerequisites: EE 264, EE 268. Fee.

**EE 450 Fundamentals of Fourier Optics**

3 cr

Two-dimensional Fourier analysis; linear systems; sampling theory; scalar diffraction theory. Fourier transform imaging properties of lenses; frequency analyses of diffraction-limited coherent and incoherent imaging systems; aberrations and resolution analysis; Vander Lugt filters and frequency domain analysis and synthesis; SAR and pattern recognition applications. Prerequisites: EE 331, EE 355. Fee.

**EE 452 Microwave Engineering**

3 cr

Generation and transmission of high frequency electromagnetic energy; magnetrons, klystrons masers, parametric amplifiers, traveling wave tubes and solid-state devices; waveguides and resonators. This course is dually listed with an equivalent graduate level course (EE 552) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisites: EE 355, EE 356. Fee.

**EE 453 Antenna Design I**

3 cr

Classification and fundamental parameters of antennas; linear antennas; loop antennas; arrays; broadband antennas and matching techniques. Computer-aided design of antenna systems. Prerequisites: EE 355, EE 356. Fee.

**EE 454 Antenna Design II**

3 cr
Aperture antennas; array synthesis and frequency independent antennas. Computer-aided design of antenna systems. Prerequisite: EE 453. Fee.

EE 455 Optoelectronics 3 cr
Wave propagation in free-space and in wave guides; optical resonators; interaction of radiation and atomic systems; laser oscillation; solid-state lasers. He-Ne and Argon lasers, integrated optics including integration of emitters and detectors; optical interconnects; spatial light modulators; optoelectronic materials and devices; and applications of optoelectronics. This course is dually listed with an equivalent graduate level course (EE 555) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisites: EE 355, EE 356. Fee.

EE 456 Fiber Optic Communication Systems 3 cr
Review of optics; dielectric waveguides; fabrication of optical fibers; fiber manufacturing, packaging and interconnection devices; light sources; photodetectors; fiber measurements and fiber optic communication systems. Prerequisites: EE 355, EE 356. Fee.

EE 457 Photonic System Design 3 cr
Energy band structure in semiconductors; optical absorption and refraction; radiative transitions; non-radiative recombination; p-n junctions; stimulated emission, semiconductor lasers; photodetectors; multiple-quantum-well devices; electro-optical, magneto-optical, acousto-optical effects; frequency doubling; frequency mixing; optical bi-stable switches; optical limiters; optical modulators, photo-refractive materials; liquid crystals; photo-active organic and biologic materials. Prerequisite: EE 331. Fee.

EE 458 Radar Systems 3 cr
Introduction to radar signal processing. Continuous wave and pulsed radars. Clutter and radio wave propagation. Moving target indicator, target surveillance and tracking radar systems. Side-looking, synthetic aperture, interferometric and other airborne radars. This course is dually listed with an equivalent graduate level course (EE 558) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisites: EE 355, EE 356, EE 365. Fee.

EE 465 Advanced Digital Signal Processing 3 cr
Review of discrete Fourier and Z-transforms. Review of analog filter design. Canonical digital filter forms. Design of IIR and FIR digital filters. Fast Fourier transform (FFT) and applications. Hardware implementation and quantization effects. Advanced digital filter structures design. DSP algorithm design and implementation. Analysis of finite wordlength effects of DSP applications. Extensive use of MatLab for analysis and design. This course is dually listed with an equivalent graduate level course (EE 565) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisite: EE 365.Fee.

EE 468 Digital Computer System Design 3 cr
Machine organization; hardware programming languages; data selection design; ALU design; control unit design; I/O and interrupt designs; memory organization; DMA; microprogramming; multi-processor and time-sharing. Prerequisites: EE 264, EE 268. Fee.

EE 469 Advanced Digital System Design 3 cr
Design Specification and implementation of combinational sequential modular systems and networks; iterative and tree structures; hardware and firmware algorithms; hardwired and programmable control and subsystems; computer-aided design. This course is dually listed with an equivalent graduate level course (EE 569) and requires a minimum GPA of 2.75 or the instructor's permission admission. Prerequisites: EE 264, EE 268. Fee.

EE 470 Synthesis of Active and Passive Networks 3 cr
Reliability of network functions (high-pass, band-pass, low-pass, band-reject and equalizing filters); approximation techniques; sensitivity analysis; passive and active synthesis; positive and negative feedback and biquads. Computer techniques for the realization of standard filter forms (Butterworth, Chebyshev, Bessel, Sallen and Key, and other forms). Prerequisite: EE 321. Fee.

</tbody>
</table>
Basic principles of direct energy conversion. Thermoelectric, photovoltaic, thermionic, magnetohydrodynamic, fuel cell and nuclear (fission and fusion) methods. This course is dually listed with an equivalent graduate level course (EE 589) and requires a minimum GPA of 2.75 or the instructor's permission for admission. Prerequisites: EE 331, EE 381 and credit for or concurrent registration in EE 385. Fee.

**EE 490**  
**Special Topics**  
1-3 cr  
Topics of current electrical and computer engineering interests. This course requires permission of the Department Chair and a minimum GPA of 2.75 for admission. Prerequisite: Instructor's permission. Fee.

**EE 494**  
**Directed Independent Study**  
1-3 cr  
Directed study under the guidance of a faculty advisor, of a topic from the field of electrical and/or computer engineering, not offered in a regularly scheduled course. This course requires permission of the Department Chair and a minimum GPA of 2.75 for admission. Prerequisite: Instructor's permission. Fee.

**EE 499**  
**ECE Senior Honors Project (H)**  
4 cr  
Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research/design project, relevant to the field of EE/CpE study, which will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty chaired by the honors mentor. This course is required for Honors recognition. Prerequisites: EE 268, EE 334, EE 301, and an approved project prospectus. Fee.

**EE 522**  
**Advanced Feedback Control Systems**  
3 cr  
Sensors; encoders and DC motors in control systems. The performance and design of feedback control systems. System bandwidth; Nichol's Chart and the stability of control systems with time delays. State variable analysis and design. Use of MatLab for analysis and design. This course is dually listed with an equivalent 400-level course (EE 422). Prerequisite: EE 328 or Instructor's permission.

**EE 523**  
**Modern Control Theory**  
3 cr  
Simulation and modeling; introduction to linear system theory; concepts of controllability and observability; specifications, structures and limitations; review of classical design methods; state feedback design methods; multivariable control; robust stability; and sampled data implementation; introduction to the use of MATLAB for design. This course is dually listed with an equivalent 400-level course (EE 423). Prerequisite: EE 328 or Instructor's permission.

**EE 524**  
**Nonlinear Control Systems**  
3 cr  
State space description; methods of linearization; isoclines; stability of nonlinear systems; Lyapunov's direct method; harmonic linearization; describing functions; dual input describing functions; Popov's method; circle criterion; computer aided analysis. This course is dually listed with an equivalent 400-level course (EE 424). Prerequisite: Instructor's permission.

**EE 525**  
**Optimal Control Systems**  
3 cr  
Static optimization; method of Lagrange multipliers; adaptive controllers; dynamic optimization; calculus of variations; the principle of optimality and dynamic programming, Pontryagin's maximum principle; quadratic optimal control. Prerequisite: Instructor's permission.

**EE 526**  
**Introduction to Robotics**  
3 cr  
Basic mathematics of robotic control; homogeneous transformation; kinematics and kinematic solutions; differential relationships; dynamics; motion trajectory; robotic control systems and programming. Prerequisite: Instructor's permission.

**EE 527**  
**Digital Control Systems**  
3 cr  
State space and transfer function description of discrete-time systems; solution of the discrete state equation; discrete-time model of analog plants; frequency domain analysis; design of discrete state-feedback regulators; observers and tracking systems. This course is dually listed with an equivalent 400-level course (EE 427). Prerequisite: Instructor's permission.

</table>
Introduction to semiconductor devices; crystal growth and wafer preparation; chemical and physical vapor deposition; oxidation; diffusion; ion implantation; lithography; etching; metallization; process integration of CMOS and bipolar technologies; diagnostic techniques and measurements; packaging; yield and reliability. This course is dually listed with an equivalent 400-level course (EE 439). Prerequisite: Instructor's permission. Fee.

EE 540  Introduction to VHDL 3 cr
Introduction to the syntax and elements of the basic VHDL language such as entities and architectures; creating combinational, synchronous logic and state machines using both structural and behavioral VHDL; using hierarchy in large designs; synthesizing and implementing designs. This course is dually listed with an equivalent 400-level course (EE 440). Prerequisite: Instructor's permission. Fee.

EE 541  Computer Networks 3 cr
Introduction to design and analysis of computer networks. Polling networks and ring networks. Networking Applications. This course is dually listed with an equivalent 400-level course (EE 441). Prerequisite: Instructor's permission. Fee.

EE 542  Advanced Topics in Digital Design and HDLs 3 cr
Current topics of interest in digital design. State-of-the-art software tools used in digital design. Advanced topics in HDLs. Prerequisite: Instructor's permission. Fee.

EE 543  Introduction to Verilog 3 cr
Introduction to the syntax and elements of the basic Verilog language such as modules and ports; hierarchical modeling; gate-level modeling; dataflow modeling; behavioral modeling, switch-level modeling, tasks and functions; timing and delays; user-defined primitives; synthesizing and implementing designs. This course is dually listed with an equivalent 400-level course (EE 443). Prerequisite: Instructor's permission. Fee.

EE 544  Wireless Networks 3 cr
Introduction to wireless data transmission principles and practices. Spectrum administration and standards. Digital cellular communications systems. Mobile data networks. Wireless PBXs and wireless LANs. This course is dually listed with a 400-level course. Prerequisite: Instructor's permission. Fee.

EE 545  Optical Networks 3 cr

EE 546  Neural Networks 3 cr

EE 548  Computer and Network Security 3 cr
Techniques for achieving security in multi-use computer systems and distributed computer systems; cryptography; authentication and identification schemes; intrusion detection; viruses; formal models of computer security; secure operating systems; software protection; security of electronic mail and the World Wide Web; electronic commerce; payment protocols; electronic cash; firewalls; risk assessments. Prerequisite: Instructor's permission.

EE 552  Microwave Engineering 3 cr
Generation and transmission of high frequency electromagnetic energy; magnetrons, klystrons, masers, parametric amplifiers, traveling wave tubes and solid-state devices. This course is dually listed with an equivalent 400-level course (EE 452). Prerequisite: Instructor's permission. Fee.

EE 553  Advanced Electromagnetic Theory 3 cr
Solution of the wave equation; special theorems and concepts; analytical, asymptotic
and numerical methods of solution of electromagnetic engineering problems.
Prerequisite: Instructor's permission. Fee.

EE 554 Electromagnetic Scattering and Diffraction 3 cr
Formulation and analysis of scattering problems; radar cross-section of smooth bodies
by classical and ray-optical techniques; extension to multiple bodies and impedance
boundaries; introduction to inverse scattering; diffraction problems; analysis by
rigorous, ray optical, and numerical methods; applications to diffraction by
 discontinuities, apertures and multiple bodies; introduction to inverse diffraction.
Prerequisite: Instructor's permission. Fee.

EE 555 Optoelectronics 3 cr
Wave propagation in free-space and in wave guides; optical resonators, interaction of
radiation and atomic systems; laser oscillation; solid-state lasers. He-NE and Argon
lasers, integrated optics including integration of emitters and detectors; optical
interconnects; spatial light modulators; optoelectronic materials and devices; and
applications of optoelectronics. This course is dually listed with an equivalent 400-level
course (EE 455). Prerequisite: Instructor's permission. Fee.

EE 556 Microwave Antennas 3 cr
Mathematical analysis of common reflector antennas including effects of various types
of feed structures and fabrication techniques. Prerequisite: Instructor's permission. Fee.

EE 557 Experimental Techniques in Microwave Engineering 3 cr
Experimental methods to determine scattering parameters, insertion loss, mismatch
and return loss, cavity parameters; detector and mixer performance characteristics;
power measurements; system noise determination; antenna radiation pattern and gain
measurements. Prerequisite: Instructor's permission. Fee.

EE 558 Radar Systems 3 cr
Introduction to radar signal processing. Continuous wave and pulsed radars. Clutter
and radio wave propagation. Moving target indicator, target surveillance and tracking
radar systems. Side-looking, synthetic aperture, interferometric and other airborne
radars. This course is dually listed with an equivalent 400-level course (EE 458).
Prerequisite: Instructor's permission. Fee.

EE 559 Optical Information Processing 3 cr
Parallel optical information processing in Fourier transform systems; nonlinear optical
image processing in a linear optical processing; optical image equidensity and pseudo-
color using techniques; wavefront reconstruction; on-axis and off-axis holography,
effects of film MTF and nonlinearities; holographic memory, display and non-destructive
testing; and optical computing. Prerequisite: Instructor's permission. Fee.

EE 560 Advanced Computer Architecture 3 cr
Overview of software/hardware architectures of selected RISC/CISC microprocessors,
DLX instruction set, advanced pipelining and instruction level parallelism, memory
hierarchy design, introduction to multiprocessor systems and interconnection networks.
Prerequisite: Instructor's permission. Fee.

EE 565 Advanced Digital Signal Processing 3 cr
Review of discrete Fourier and z-transforms; review of analog filter design; canonical
digital filter forms; design of IIR and FIR digital filters. Fast Fourier Transforms (FFT)
and their applications; hardware implementation and quantization effects. Advanced
digital filter structures and design. DSP algorithm design and implementation. Analysis
of finite wordlength effects of DSP applications. Extensive use of MatLab for analysis
and design. This course is dually listed with an equivalent 400-level course (EE 465).
Prerequisite: EE 365 or Instructor's permission. Fee.

EE 566 Digital Image Processing 3 cr
Review of digital image fundamentals; different image transforms; image enhancement
techniques; image restoration methods; detection of discontinuities and thresholding.
Prerequisite: EE 365 or Instructor's permission. Fee.

</tbody>
</table>
Rectifier control of DC motors; chopper control of DC drives; closed-loop control of DC drives; induction motor speed control and multiquadrant control; control of induction motors by AC controllers and frequency-controlled drives; slip power control of induction motors; synchronous motor drives - brushless DC and AC motor drives. Prerequisite: Instructor's permission. Fee.

EE 589  Direct Energy Conversion  3 cr
Basic principles of direct energy conversion. Thermoelectric, photovoltaic, thermionic, magnetohydrodynamic, fuel cell, and fission and fusion nuclear methods. This course is dually listed with an equivalent 400-level course (EE 489). Prerequisite: Instructor's permission. Fee.

EE 590  Special Topics  1-3 cr
Topics of current interest in electrical and computer engineering. Prerequisite: Instructor's permission. Fee.

EE 592  Directed Independent Study  1-3 cr
Directed study, under the guidance of a faculty advisor, of a topic from the field of Electrical and Computer Engineering not offered in a regularly scheduled course. Prerequisite: Instructor's permission. Fee.

EE 594  Project in Electrical and Computer Engineering  1-3 cr
An investigation of an original problem in electrical and computer engineering under the guidance of the student's major professor. Prerequisite: Approval of the project prospectus by the student's Advisory Committee, and consent of Director of Engineering Graduate Studies. Fee.

EE 599  Thesis  1-6 cr
An investigation of an original problem in electrical and/or computer engineering under the guidance of the student's major professor. Prerequisite: Approval of the thesis prospectus by the student's Advisory Committee, the Graduate School, and consent of the Director of Engineering Graduate Studies. Fee.
**ELEMENTARY/EARLY CHILDHOOD EDUCATION (EEC)**

**EEC 290**  
**Special Topics**  
3 cr  
Guided study of selected educational tasks (e.g. curriculum revision, classroom materials development, models of learning and teaching) and teaching problems and practices for improving student achievement. No more than six semester hours may be earned in Special Topic Courses.

**EEC 300**  
**Classroom Management**  
3 cr  
An introductory course in classroom management with emphasis upon effective instructional practices that inhibit student behaviors incompatible with learning. The focus is upon established guidelines including preparation for instruction, organizing instruction, assessing student performance, establishing a positive learning climate, and effective communication skills.

**EEC 332**  
**Teaching Language Arts**  
3 cr  
This course presents methods of promoting meaningful language and literacy skills in early childhood and elementary school programs. Corequisites: RED 330, RED 333, and EEC 346. Prerequisites: Admission to Candidacy, EEC 290. This course has a required field experience.

**EEC 335**  
**Teaching Mathematics (W)**  
3 cr  
A course which deals with effective methods of teaching mathematics to elementary school students. Emphasis will be on developing an understanding of numbers, teaching basic operations, and using various teaching aids and materials to meet the various needs of elementary age children. Prerequisites: MA 201 or MA 202; RED 330 and 333, EEC 290, EEC 332, and EEC 346. Corequisites: EEC 336, EEC 337, EEC 345; and RED 331. This course has a required field experience.

**EEC 336**  
**Teaching Social Studies**  
3 cr  
A course using problem solving and independent investigation as means of teaching the relationship of humans to their environment. Objectives, content, and procedures are discussed. Prerequisites: RED 330 and RED 333; EEC 290, EEC 332, and EEC 346. Corequisites: EEC 335, EEC 336, EEC 337, EEC 345; and RED 331. This course has a required field experience.

**EEC 337**  
**Teaching Science**  
3 cr  
A course using discovery, inquiry and problem-solving approaches as a means of teaching science. Relationship of science to entire early childhood and elementary curriculum is discussed. Prerequisites: RED 330 and RED 333; EEC 290, EEC 332, and EEC 346. Corequisites: EEC 335, EEC 336, and EEC 345; and RED 331. This course has a required field experience.

**EEC 345**  
**Sequence Field Experience**  
1 cr  
Supervised practice in teaching curriculum areas in the elementary or early childhood classroom setting during the semester in which sequence courses are taken. Prerequisites: RED 330 and RED 333; EEC 290, EEC 332, and EEC 346. Corequisites: EEC 335, EEC 336, and EEC 337; and RED 331.

**EEC 346**  
**The Early Childhood-Elementary School Program**  
3 cr  
This course will introduce the roles of the teacher in working with children from nursery/day care setting through the elementary grades. History, management, and parent education techniques are presented. Corequisites: EEC 332; and RED 330 and RED 333. Prerequisites: Admission to Candidacy, EEC 290. This course has a required field experience.

**EEC 429**  
**Opening School Laboratory Experiences**  
1 cr
Professional laboratory experiences of observation and participation for a two-week period at the opening of school.

**EEC 430**  
Student Teaching  
9 cr

Observation and supervised teaching in elementary or early childhood settings with opportunity for study and discussion of problems and issues encountered. Prerequisite: permission of department.

**EEC 490**  
Special Topics  
3 cr

Guided study of selected educational tasks (e.g. curriculum revision, classroom materials development, models of learning and teaching) and teaching problems and practices for improving student achievement. No more than six semester hours may be earned in Special Topic Courses.

**EEC 494**  
Directed Study  
1, 3 cr

No more than two directed studies can be applied toward the Bachelor’s Degree and Class B Certification. Prerequisite: Permission of the department.

**EEC 496**  
Internship  
3 cr

The internship is a supervised learning experience in an approved school setting similar to that in which an educator will eventually be employed. The internship provides students with an opportunity to apply theories and concepts learned during the undergraduate program. Prerequisites: Candidacy and approval of department chair.

**EEC 499**  
Seniors Honors Project  
3-6 cr

Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research project, relevant to the field of elementary/early childhood study, that will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty and chaired by the honors mentor. This course is required for Honors recognition and may be repeated for up to six credit hours. Prerequisites: Participant in honors program and junior level status.

**EEC 522**  
Curriculum Planning in Elementary School  
3 cr

The study of curriculum with emphasis on concepts, procedures and models particular to curriculum in the elementary school. Curriculum study includes the context of and a process for planning, developing, implementing and evaluating the elementary school curriculum.

**EEC 523**  
Instructional Planning in Elementary School  
3 cr

Presents an overview of factors and procedures involved in planning, developing and evaluating the elementary school instructional process.

**EEC 532**  
Language Development in Elementary School  
3 cr

Designed to explore the multi-dimensional theory of language development and to provide techniques and practices for development of language ability. Through correlating these related areas, the student should grow in understanding dynamics and change in language structure and development. Opportunities for oral and written communication are emphasized.

**EEC 535**  
Trends in Teaching Mathematics  
3 cr

This course emphasizes new methods of presenting mathematical content to elementary school students. Various materials will be developed to promote thinking and discovery of mathematical concepts. Opportunities are provided for developing multi-level materials appropriate to the varied abilities and interest levels in elementary school.

**EEC 536**  
Issues and Innovations in Teaching Social Studies  
3 cr

Current issues and innovations in early childhood and elementary school social studies teaching and learning are reviewed.

**EEC 537**  
Teaching Science  
3 cr
Current trends and issues in early childhood and elementary school science teaching and learning are reviewed.

</table>
Guided supervision in the identification and completion of educational tasks, such as curriculum revision, course and/or program design, self-study for accreditation visitation, student achievement evaluation, aesthetic experiences, consumer and career education. No more than six hours of credit may be applied toward a graduation degree.

EEC 592 Research Seminar 3 cr
Structured to assist graduate students in designing and implementing appropriate research for professional growth and writing of the thesis.

EEC 594 Directed Study and Research 1 or 3 cr
Students explore through directed individual study research problems and issues of special interest or significance in elementary or early childhood education. No more than three hours of any departmental 594 courses can be accepted toward a degree program. Prerequisite: Permission of department chair.

EEC 595 Internship 3-9 cr
The internship is a supervised learning experience in a work setting similar to that in which the educator will eventually be employed. The internship provides the students with an opportunity to apply the theories and concepts learned during the graduate program of study. Prerequisites: Candidacy and approval of the department chair.

EEC 599 Thesis 1-9 cr
A student selects a project, study, or investigation related to his area of specialization in early childhood or elementary education. The project forms a basis for the thesis. A thesis committee will provide direction during the investigation for and writing of the thesis.

EEC 601 Advanced Seminar 3 cr
In depth study of various curriculum areas through research reports, problem analysis and individual evaluation of promising practices and topical issues. Each seminar participant will concentrate on a curriculum area: e.g., arithmetic, career awareness, communication, consumer education, humanities, natural sciences, social sciences, early reading, and psycholinguistics.

EEC 610 Diagnostic and Prescriptive Teaching 3 cr
Designed to assist teachers and school leaders in understanding the skills and techniques necessary for diagnosing and prescribing for learners in different types of teaching-learning settings.

EEC 622 Seminar in Curriculum and Instructional Problems 3 cr
Critical study of curriculum and instructional problems in the elementary school. Research reviews and problem design problems are emphasized.

EEC 635 Seminar in Mathematics Education 3 cr
A study of current topics related to teaching mathematics in the early childhood and elementary years.

EEC 690 Special Topics 3 cr
Guided supervision in the identification and completion of educational tasks, such as curriculum revision, course and/or program design, self-study for accreditation visitation, student achievement evaluation. No more than six hours will be applied toward a degree. Prerequisites: Candidacy and approval of the department chair.

EEC 694 Directed Study and Research 1 or 3 cr
Students explore through directed study problems and issues of special interest or significance in early childhood or elementary education. No more than three hours of any departmental 694 courses can be accepted toward a degree program. Prerequisites: Candidacy and approval of the department chair.

EEC 695 Internship 3-9 cr
The internship is a supervised learning experience in a work setting similar to that in which an educator will eventually be employed. The internship provides the student with an opportunity to apply the theories and concepts learned during the graduate program. Prerequisites: Candidacy and approval of the department chair.

Cardiopulmonary Resuscitation (CPR) emphasizes the scope and magnitude of cardiovascular disease causes of sudden death, and the effects of prudent heart living as a tool to reduce risk factors associated with cardiovascular disease. The skills component identifies and measures competence in one-person CPR, two person CPR, infant and child CPR, and management of airway obstruction. Course completion cards are issued by the American Heart Association.

A skills approach in helping the student to intervene in any medical or traumatic emergency situation before the emergency personnel arrive. Emphasis is placed on care of the airway, CPR, control of bleeding, splinting and bandaging, and overall management.

Includes all required modules of the 1994 EMT Basic National Standard Curriculum Patient assessment, airway management, hemorrhage control, management of fractures, care of special injuries, emergency childbirth, environmental emergencies, transportation of the sick and injured, and radio communications. Prerequisite: AHA BLS for Health Care Providers. Corequisite: EMT 205.

Pre-hospital care and transportation of the sick and injured using principles of basic life support, correlated with emergency room experience. Time distributed between emergency room, ambulance, communications center, and interfacility transport vehicle.

Basic Emergency Medical Technician Skill practicum. Designed to allow Basic EMT students extensive practice of required psychomotor skills.

Medical vocabulary including prefixes, suffixes and their etymological derivation. Proper pronunciation stressed as well as logic, grammar, and spelling.

Selected topics in Emergency Medical Services and Emergency Response Training. May be repeated for credit when course content varies.

An overview of the human body and its systems. Emphasis is placed on the understanding of the functions of human systems and subsystems. Includes concepts of pathophysiology included in the 1999 DOT paramedic curriculum.

Date last changed: December 20, 2004 11:36 AM

The courses listed below are common to two or more programs.

**EG 101  Introduction to Engineering  3 cr**
Introduction to engineering fundamentals through reading, homework assignments, laboratory investigations, guest lecturers and group discussions on the engineering profession. Fee.

**EG 220  Electrical Circuits  3 cr**
Basic SI units; RLC circuits; steady-state AC and DC circuit analysis; balanced 3-phase systems; transformers; AC and DC motors and generators; operational amplifiers; and digital system components. Prerequisite: MA 125. Fee.

**EG 230  Engineering Economics  3 cr**
Application of economic principles to engineering problems; calculation of capitalized costs, present worth, prospective rates of return, annual costs, selection of alternatives and minimum attractive rate of depreciation, taxation, inflation and equipment replacement. Prerequisite: EG 220 or EG 270 or EG 283. Fee.

**EG 270  Engineering Thermodynamics  3 cr**
First and second law of thermodynamics and applications. Prerequisites: MA 126, PH 201. Fee.

**EG 283  Statics  3 cr**
Vector algebra; forces, moments, couples; equilibrium analysis of rigid bodies, beams, trusses, frames, area and mass moments of inertia, and friction. Prerequisite: MA 126. Fee.

**EG 284  Dynamics  3 cr**
Kinematics and kinetics of particles and rigid bodies. Work/energy and momentum methods. Prerequisites: EG 283, MA 126. Fee.

**EG 290  Special Topics in Engineering  1-5 cr**
Subjects of special interest in engineering. Prerequisite: Permission of instructor. Fee.

**EG 315  Mechanics of Materials  3 cr**

**EG 360  Fluid Mechanics  3 cr**
Study of the properties of fluids including fluid statics, kinematics, integral and differential equations of mass, momentum and energy conservation; dimensional analysis; flows in ducts, boundary layer flows and compressible flow. Prerequisites: MA 238, EG 284. Fee.

**EG 501  Professionalism, Research Integrity and Seminar  1 cr**
Exposes graduate students planning to undertake a thesis or project option to a variety of issues concerning professionalism, research integrity, and inform them of current policies related to research activities and thesis development. Fee.

**EG 590  Special Topics in Engineering  1-3 cr**
Subjects of special interest in engineering for engineering graduate students. Prerequisite: Permission of Instructor.

</table>
A survey of literature from Neoclassicism, Romanticism, Nineteenth-century Realism and Naturalism, and the modern world, featuring selections in translation. Prerequisites: EH 101 and EH 102. **Core Course.**

**EH 242**  
Black Writers in America 3 cr  
A survey of literature by major African-American authors from the days of slavery to the present. Readings will include fiction, poetry, drama, autobiography, and polemical prose. Prerequisites: EH 101 and EH 102.

**EH 280**  
Horror 3 cr  
A study of the history and themes of horror from the early 19th century to the present, including representative texts, films, and critical scholarship.

**EH 288**  
Academic Writing (W) 3 cr  
Practice in the writing necessary in various academic disciplines. Prerequisites: EH 101 and EH 102.

**EH 290**  
Special Topics 3 cr  
A variable-content course treating selected topics in literature and language. May be repeated once for credit when topic varies. Prerequisites: EH 101 and EH 102.

**EH 301**  
Poetry: Critical Reading and Analysis 3 cr  
Introduction to close reading and interpretation of poetry, including written explications and analysis. Prerequisites: EH 101 and EH 102.

**EH 302**  
Drama: Critical Reading and Analysis 3 cr  
Introduction to close reading and interpretation of drama, including written analysis. Prerequisites: EH 101 and EH 102.

**EH 303**  
Fiction: Critical Reading and Analysis 3 cr  
Introduction to close reading and interpretation of fiction, including written analysis. Prerequisites: EH 101 and EH 102.

**EH 310**  
Classical Mythology 3 cr  
Through the disciplines of English and Philosophy, this course will provide an introduction to myths and to the literature that recounts the myths, legends, and folktales of ancient Greece and Rome. Not only will this course offer a survey of Greek and Roman myth, but also it will look at how different writers treat the material and why their treatments vary. Prerequisites: EH 101 & EH 102. Cross-listed with PHL 310 & REL 310. Credit cannot be received for both EH 310 and either PHL 310 or REL 310.

**EH 311**  
Chaucer’s Canterbury Tales 3 cr  
Introduction to the poetry of Chaucer with instruction in the background and the language of Chaucer’s England and with readings of selected tales such as those of the Knight, the Miller, the Wife of Bath. Prerequisites: EH 101 and EH 102.

**EH 321**  
Renaissance Literature 3 cr  
Non-dramatic literature of the English Renaissance through 1600. Prerequisites: EH 101 and EH 102.

**EH 322**  
Shakespeare’s Comedies and Romances 3 cr  
Study of Shakespeare’s comedies and romances. Prerequisites: EH 101 and EH 102.

**EH 323**  
Shakespeare’s Tragedies and Histories 3 cr  
Study of Shakespeare’s tragedies and histories. Prerequisites: EH 101 and EH 102.

**EH 324**  
Seventeenth-Century Literature 3 cr  
Non-dramatic literature 1600-1660. Prerequisites: EH 101 and EH 102.

**EH 331**  
American Novel to 1900 3 cr  
American novel from its beginning to 1900. Prerequisites: EH 101 and EH 102.

**EH 332**  
American Nonfiction Prose 3 cr  
Major American nonfiction prose. Prerequisites: EH 101 and EH 102.

**EH 334**  
American Poetry to 1900 (W) 3 cr
American poetry from its beginning to 1900. Prerequisites: EH 101 and EH 102.

**EH 340 Restoration and Early 18th-Century Literature** 3 cr
Literature of the period, including such authors as Behn, Dryden, Finch, Defoe, Pope, Montagu, Swift, and Fielding. Prerequisites: EH 101 and EH 102.

**EH 342 Later 18th-Century Literature (W)** 3 cr
Literature of the period, including such authors as Gray, Boswell, Johnson, Sheridan, Radcliffe, Wollstonecraft, Blake, and Austen. Prerequisites: EH 101 and EH 102.

**EH 343 18th-Century British Novel** 3 cr

**EH 348 19th-Century Continental Philosophy and Literary Theory** 3 cr
An examination of selected themes and issues in 19th-century Continental philosophy and literary theory. Topics may include Idealism, Romanticism, Existentialism, Marxism, Freudianism. Identical with PHL 348 & LG 348. Credit cannot be received for both EH 348 and either PHL 348 or LG 348. (For LG credit, students will be required to complete some course work in their language of concentration.) Prerequisites: EH 101 and EH 102.

**EH 349 20th-Century Continental Philosophy and Literary Theory** 3 cr
An examination of selected themes and issues in 20th-century Continental philosophy and literary theory. Topics may include Phenomenology, Existentialism, Hermeneutics, Structuralism, and Post-Structuralism. Identical with PHL 349 & LG 349. Credit cannot be received for both EH 349 and either PHL 349 or LG 349. (For LG credit, students will be required to complete some course work in their language of concentration.) Prerequisites: EH 101 and EH 102.

**EH 351 British Romanticism** 3 cr
The poetry and prose of Romantic-era writers, including Wordsworth, Coleridge, Byron, Keats, and Shelley. Prerequisites: EH 101 and EH 102.

**EH 352 Victorian Poetry** 3 cr
The poetry and critical ideas of Tennyson, Browning, Arnold, and the Pre-Raphaelites, with some attention to lesser writers. Prerequisites: EH 101 and EH 102.

**EH 353 Victorian Prose** 3 cr
Prose, exclusive of the novel, with emphasis on Carlyle, Newman, Mill, Ruskin, and Arnold. Prerequisites: EH 101 and EH 102.

**EH 354 19th-Century British Novel** 3 cr
Novels of the Romantic and Victorian periods. Prerequisites: EH 101 and EH 102.

**EH 360 Anglo-American Poetry Since 1900** 3 cr

**EH 361 American Novel Since 1900** 3 cr
Twentieth-century American novel. Prerequisites: EH 101 and EH 102.

**EH 367 British Novel Since 1900** 3 cr
Twentieth-century British novel. Prerequisites: EH 101 and EH 102.

**EH 369 The Modern Short Story** 3 cr
Representative modern short story writers of America, Britain, and Continental Europe. Oral and written analyses and critiques required. Prerequisites: EH 101 and EH 102.

**EH 370 History of the English Language** 3 cr
A study of the development from Old English through Middle English to Modern English. Prerequisites: EH 101 and EH 102.

**EH 371 Approaches to English Grammar (W) 3 cr**
A course designed primarily to help education majors translate between the languages of conventional grammar and the syntactical grammar relevant to the teaching of English at pre-college levels. Consideration will also be given to the rationales basic to the formation of different grammars and to methods of presenting grammatical material in a classroom situation. Non-education majors interested in a sophisticated approach to the study of grammar might also benefit from this course. Prerequisites: EH 101 and EH 102.

**EH 372 Technical Writing (W) (C) 3 cr**
The purpose of this course is to train students in the kinds of written reports required of practicing professionals, aiming to improve mastery of the whole process of report writing from conceptual stage through editing stage. Prerequisites: EH 101 and 102.

**EH 373 Writing in the Professions (W) (C) 3 cr**
Practice in the kinds of writing done in such professions as speech pathology and audiology, nursing, teaching, criminal justice, and business. Assignments, which emphasize persuasive writing, may include position papers, correspondence, and reports. Prerequisites: EH 101 and EH 102.

**EH 374 The English Bible - Old Testament 3 cr**
King James Version of the Bible studied with respect to literary forms, philosophical concepts, and problems of translation. Prerequisites: EH 101 and EH 102.

**EH 375 The English Bible - Apocrypha and New Testament 3 cr**
King James Version of the Bible studied with respect to literary forms, philosophical concepts, and problems of translation. Prerequisites: EH 101 and EH 102.

**EH 376 Science Fiction 3 cr**
A study of the history and themes of science fiction literature and film from the end of the 19th century to the present. Prerequisites: EH 101 and EH 102.

**EH 390* Special Topics 3 cr**
A variable-content course addressing selected topics in literature and writing. May be repeated once for credit when course content varies.

**EH 391, 392 Fiction Writing I, II 3 cr**
Intensive practice in the writing of the short story. Constructive, critical discussions are conducted on each composition. Emphasis is upon creation of high-quality fiction with possible view to publication. These courses require special permission. Prerequisites: EH 101 and EH 102.

**EH 393, 394 Creative Nonfiction I, II 3 cr**
Intensive study of and practice in writing creative nonfiction - nonfiction that stresses personal voice and the use of literary elements. Concentrates on genres of creative nonfiction (personal or narrative essay, travel, and nature writing, cultural criticism, memoir) with emphasis on producing high-quality writing. Prerequisites: EH 101 and EH 102.

**EH 395, 396 Poetry Writing I, II 3 cr**
The English language as it may be used in embodying poetic knowledge. Readings in contemporary poetry, study of fixed and open verse forms and their metrics, and practice in producing poems and explications. Prerequisites: EH 101 and EH 102.

**EH 401* Teaching Composition (W) 3 cr**
Study of theories of composition and their applications for teaching writing at the secondary school level. Prerequisites: EH 101 and EH 102.

**EH 402* Rhetoric: Ancient and Modern (W) 3 cr**
Readings in rhetorical theory, ancient and modern, are applied in specific writing assignments which encourage students to adopt a point of view and address a specific audience. Prerequisites: EH 101 and EH 102.

Department of English

College of Arts and Sciences
ENGLISH AS A SECOND LANGUAGE (ESL)

ESL 004 Intermediate ESL Structure 3 cr
An intermediate-level study of syntax and grammar.

ESL 005 Intermediate ESL Reading and Vocabulary 3 cr
Emphasis on developing reading speed, comprehension, and vocabulary through reading of a variety of intermediate-level texts.

ESL 006 Intermediate ESL Composition 3 cr
Concentration on sentence structure and development of the paragraph.

ESL 008 Intermediate ESL Oral Skills 3 cr
Concentration on listening, comprehension, and speaking fluency.

ESL 014 Advanced ESL Structure 3 cr
An in-depth study of syntax and grammar.

ESL 015 Advanced ESL Reading and Vocabulary 3 cr
Emphasis on developing speed, comprehension and vocabulary through reading of a variety of texts.

ESL 016 Advanced ESL Composition 3 cr
Designed to give a foundation in composition and to serve as a preparatory course for English 101. It consists of three areas of concentration: sentence structure, paragraph organization and essay organization and development.

ESL 017 English for Academic Success 3 cr
Emphasis is on classroom oral presentations using PowerPoint. Library research skills, note-taking, lecture comprehension and other skills that international students need for academic success are also taught.

ESL 018 Advanced ESL Oral Skills 3 cr
Emphasis is placed on communication, both oral and aural, in a variety of situations. Designed to enhance fluency in listening and speaking, and includes note-taking on recorded lectures and making class presentations.

ESL 019 ESL Pronunciation 3 cr
Concentration is on improving pronunciation through the study of American English phonemes, stress, rhythm and intonation.

ESL 020 TOEFL Preparation 3 cr
A preparatory class for the computer-based Test of English as a Foreign Language. Students practice with exercises and test for the three sections of the TOEFL: Listening Comprehension, Structure and Written Expression, and Vocabulary and Reading Comprehension.
American Short Story

ESL 021

Students are familiarized with great American authors and their work of fiction in written and dramatized forms. Listening skills are developed through video presentations, writing skills through book reports, reading skills through analysis of texts, and oral skills through oral reports.

U.S. Culture

ESL 022

Students are sensitized to the difficulties inherent in cross-culture encounters, and they are provided with information about American life to help them in their cultural adjustment.

Current Events

ESL 023

Designed to stimulate students' language development through discussion, debate, and readings on topics of current interest in the news.

Basic Word Skills

ESL 024

Emphasis is on word building through a study of roots, prefixes and suffixes. Academic and reading vocabulary is acquired. Dictionary skills are also emphasized.

English on the Internet

ESL 025

Students improve a number of English skills by exploring the numerous ESL web sites for TOEFL preparation, pronunciation, grammar, vocabulary acquisition, slang, humor and many other areas. Writing is practiced via e-mail, and students create their own web page.

The English Verb

ESL 026

An intensive review of the English verb system, including tense, voice and aspect. Ample examples, plus written and oral exercises and activities, are designed to make students more secure in their usage.

Practical Vocabulary and Idioms

ESL 027

Students rapidly extend their vocabulary through intensive study of high-frequency words arranged thematically, such as by profession or in everyday situations. Groups of special expressions linked to certain verbs, slang expressions, and idioms are also taught.

Beginning English

ESL 028

An introduction to the language for people who know little or no English. The goal is to achieve a basic proficiency in understanding, speaking, reading and writing English.

Business English

ESL 029

The focus is primarily on acquisition of English business vocabulary through an examination of American business procedures and practices. Students also practice composing resumes, memos, reports, business letters and other business writing.

Department of English as a Second Language

School of Continuing Education and Special Programs
FINANCE (FIN)

FIN 300 Personal Finance 3 cr
General principles and techniques of finance as applied to personal business transactions and the management of personal funds. Finance majors may not count this course as a finance elective.

FIN 315 Business Finance 3 cr
A survey course covering corporate financial management. Basic concepts such as interest rates, time value of money, cost of capital, and risk are discussed and applied to stock, bond and long-term investment valuation. Guidelines are developed for corporate financial decision-making in the areas of capital structure policy, dividend policy, long-term financing, corporate control, and working capital management. The impact of ethical considerations and global financial markets are discussed. Prerequisites: ACC 212 or ACC 497, ECO 215 or ECO 497, MA 120, BUS 245.

FIN 332 Multinational Finance 3 cr
Analysis of financial management of multi-national firms. Introduces the environment of international capital and foreign exchange markets and examines the effects of the international business environment on risk, capital budgeting, working capital management, and capital structure decisions of the firm. Prerequisite: FIN 315.

FIN 343 Money Markets and Financial Institutions 3 cr
An examination of the major financial institutions operating in our economy, and the environment in which they operate. In light of the changing environment of the financial institutions area, the changing roles of the various financial markets, major legislation, and the regulatory agencies are also studied in this course. Prerequisite: FIN 315 or consent of instructor.

FIN 345 Principles of Insurance 3 cr
Examines risks facing the individual and business organizations and applications of public and private insurance to reduce or eliminate such risks. This is a survey course involving all classes of insurance.

FIN 350 Financial Statement Analysis 3 cr
In-depth coverage of the principles and practices of effective analysis of the financial statements of firms for the purpose of understanding (1) the economic and financial characteristics and current conditions of the firm, (2) particular strategies the firm may select with which to compete, and (3) the accounting principles and procedures underlying the financial statements. The course integrates concepts form accounting, economics, finance, and management. Prerequisite: FIN 315.

FIN 410 Intermediate Business Finance 3 cr
In-depth coverage of financial planning and management, including capital budgeting, financial structure decisions, working capital management, valuation, dividend policy and other topics. Prerequisites: FIN 315, BUS 255.

FIN 411 Problems in Business Finance 3 cr
Actual and simulated cases in finance from business and industry; includes businesses of all sizes. Prerequisites: FIN 343, FIN 350, FIN 410, FIN 420.

FIN 420 Investments 3 cr
Survey of the characteristics of investment alternatives and the investment environment, including market operations and regulations, sources and uses of information, and an introduction to capital market theory. Prerequisites: FIN 315, BUS 245.

The development of the theory and practice of security analysis and portfolio management. Security analysis involves the fundamental determination of security values through economic, industry, and firm analysis. Portfolio management addresses asset selection and allocation for the construction and maintenance of portfolios that meet specific investment objectives in a risk-return context. Prerequisite: FIN 420.

covers principles of Options and Futures contracts and their economic functions. Options: basic strategies; combinations and spreads; pricing; and the various types of contracts. Futures: fundamentals of the market; contract specifications and their uses. Program trading and portfolio insurance. Prerequisites: FIN 315, FIN 420.

Prerequisites: FIN 315.

Analysis of depository institution management processes focusing on management of capital, assets, and liabilities with emphasis on the regulatory environment in which depository institutions operate. Prerequisites: FIN 315, FIN 343 (FIN 343 may be taken concurrently).

In-depth analysis of consumer, real estate, commercial, and agricultural lending areas of depository institutions. Prerequisite: FIN 315.

Designed to provide senior students an opportunity to study selected topics of particular interest. Prerequisites: FIN 315 and approval of department chair.

Oral reports on readings of various aspects of business finance. Prerequisites: FIN 315 and Finance major.

Primarily designed to give superior students an opportunity to study selected topics of particular interest. Grades are awarded on a satisfactory/unsatisfactory basis. Prerequisites: FIN 315, FIN 343, FIN 350, FIN 410, FIN 420. Cumulative GPA of at least 2.5 and approval of department chair.

The internship program is designed to give students practical experience in their field of study. Students will complete directed projects under the supervision of a faculty advisor. No more than three hours of internship may be counted toward a degree in the Mitchell College of Business. Grades are awarded on a satisfactory/unsatisfactory basis. Prerequisites: FIN 315, FIN 343, declared finance or depository institution major and a 2.5 GPA, and approval of department chair.

Theory and practice of assembling, investing, and managing capital. Major topics include estimating a firm’s cost of funds, basic and advanced capital budgeting techniques, capital structure analysis, and dividend policy theory and practice.

Study of investment alternatives and their environment, including market operations and regulations, sources and uses of information and an introduction to capital market theory. Prerequisite: FIN 501.
Analysis of the organization of American banking systems for international operations; functions of foreign money and capital markets in international banking and finance; the export-import banks and intergovernmental institutions; foreign lending and investment criteria of private financial institutions; foreign exchange; balance of payments; intergovernmental monetary agreements, organizations and controls. Prerequisite: FIN 501.

**FIN 590  Special Topics**  
3 cr  
Designed to provide graduate students an opportunity to study selected topics. (A student may count no more than 3 hours of Special Topics in the M.B.A. degree program). Prerequisite: Approval of the department chair.

**FIN 594  Independent Study in Finance**  
3 cr  
Reading and research on selected topics. Conference and formal research report required. Prerequisite: Approval of the department chair.

Department of Finance  
Mitchell College of Business
LANGUAGES FOREIGN (LG)

LG 021  French Proficiency Test  0 cr
Elementary level proficiency test administered to Arts and Sciences students who wish to demonstrate proficiency in French.

LG 022  German Proficiency Test  0 cr
Elementary level proficiency test administered to Arts and Sciences students who wish to demonstrate proficiency in German.

LG 023  Spanish Proficiency Test  0 cr
Elementary level proficiency test administered to Arts and Sciences students who wish to demonstrate proficiency in Spanish.

LG 024  Foreign Language Proficiency Test  0 cr
Elementary level proficiency test administered to Arts and Sciences students who wish to demonstrate proficiency in a foreign language other than French, German, or Spanish.

LG 110  World Languages  3 cr
The general aim of this introductory-level course is to ground students in a basic understanding of the social, political, economic and cultural realities of language around the globe, including the importance of mastering one or more languages other than one's native tongue. Students taking the course will profit from an understanding of language value in the global marketplace and will gain new insight into their own native language through a brief examination of the structures of several of the world's major languages. The course may feature guest presenters and will also discuss techniques of language acquisition and memory extension.

LG 190  Special Topics  1-3 cr
Topics to be determined by student need and interest. Course may be repeated when content varies.

LG 205  Foreign Literatures in Translation (W)  3 cr
A varying-content course designed to introduce the student to selected major works of one language other than English. Works from English-speaking countries may occasionally be used for the purpose of cross-cultural comparison. The student may choose from a number of specific topics that will be designated prior to each semester. All readings and discussions are in English. May be repeated for credit when course content varies. Foreign Language majors wishing to have one or several of these courses count toward their major must seek prior approval from their advisor. Prerequisite: EH 102.

LG 290  Special Topics  1-3 cr
Topics to be determined by student need and interest. Course may be repeated when content varies.

LG 305  Studies in Gender and Writing  3 cr
A varying-content course that provides an in-depth study of gender-related questions in a literary and cross-cultural context. Unless otherwise indicated, all readings and discussions are in English. May be repeated for credit when course content varies. Foreign Language majors wishing to have one or several of these courses count toward their major must seek prior approval from their advisor. Prerequisite: EH 102.
LG 348  19th Century Philosophy and Literary Theory  3 cr
An examination of selected themes and issues in 19th Century Continental Philosophy and Literary Theory. Topics may include Idealism, Romanticism, Existentialism, Marxism, and Freudianism. Identical with PHL 348 and EH 348. Credit cannot be received for both LG 348 and PHL 348 or EH 348. (For LG credit, students will be required to do some coursework in their language of concentration).

LG 349  20th Century Philosophy and Literary Theory  3 cr
An examination of selected themes and issues in 20th Century Continental Philosophy and Literary Theory. Topics may include Phenomenology, Existentialism, Hermeneutics, Structuralism, and Poststructuralism. Identical with PHL 349 and EH 349. Credit cannot be received for both LG 349 and PHL 349 or EH 349. (For LG credit, students will be required to do some coursework in their language of concentration).

LG 394  Directed Studies: Pre-Study Abroad  1 cr
Working under the direction of their faculty advisor, language majors will prepare for their required study abroad experience through an examination of selected country-specific readings as well as cross-cultural orientation materials. Prerequisite: completion of intermediate sequence in student's concentration or equivalent.

LG 480  Senior Seminar (C)  3 cr
This course is designed to broaden and enhance the study-abroad experience and to serve as a capstone to their foreign-language major. Building on the study-abroad experience, students will (1) contextualize their experience through readings, (2) continue their experience by maintaining consistent contact with the target culture, and (3) communicate their experience and their enhanced understanding of topics such as culture shock, culture stereotypes, cultural metaphors, and cross cultural comparisons of behavior and mind-set. Classes will consist of lectures, discussions of readings, an important research, and technical component in order to insure that students have attained the appropriate computing, Internet, research, and multimedia skills for the discipline. Prerequisite: completion of the Study Abroad requirement.

LG 490  Special Topics  1-3 cr
Topics to be determined by student need and interest. Course may be repeated when content varies. A subtitle identifying the topic will be entered on the student's record.

LG 492  Seminar  1-3 cr
A course designed for advanced students to pursue a special topic in depth through readings, critical discussions, and delivery of a seminar paper. This course may be repeated for a maximum of six credits. Prerequisite: Normally limited to juniors and seniors.

LG 494  Directed Studies  1-3 cr
Directed study under the supervision of a member of the Foreign Language faculty. This course may be repeated for a maximum of six credits. Prerequisite: Permission of the department chair.

LG 499  Senior Honors Project  3-6 cr
Under the advice and guidance of a faculty mentor honors students will identify and carry out a research project, relevant to the field of foreign language study, that will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty chaired by the honors mentor.

LG 590  Special Topics  1-3 cr
Topics to be determined by student need and interest. Content will vary. A subtitle identifying the topic will be entered on the student's record.

LG 592  Seminar  1-3 cr
A course designed for graduate students to pursue a special topic in depth through readings, critical discussions, and delivery of a seminar paper.
Directed study under the supervision of a member of the Foreign Languages and Literatures faculty having Graduate Faculty status. This course may be repeated for a maximum of six credits. Prerequisite: Permission of department chair.

**FRENCH**

**LG 111 Introductory French I** 3 cr  
The first of a two-semester sequence in introductory French. The goal of the two-semester sequence is to achieve a basic proficiency in understanding, speaking, reading, and writing French, and to acquire basic knowledge of French-speaking cultures. Fee. **Core Course.**

**LG 112 Introductory French II** 3 cr  
The second semester of the introductory course. Prerequisite: LG 111 or equivalent. Fee. **Core Course.**

**LG 113 Accelerated Introductory French (Honors)** 6 cr  
A one-semester intensive first-year course for highly motivated students with prior instruction in the language, i.e., students who have recently completed a minimum of two years of high school French with a "B" average or better. This course covers the material taught in LG 111 and LG 112 and satisfies the Arts and Sciences foreign language requirement. By permission of the instructor. Usually taught in the fall semester. Fee.

**LG 211 Intermediate French I** 3 cr  
The first of a two-semester sequence in intermediate French. A continuation of the training necessary to achieve fluency in understanding, speaking, reading and writing French. A comprehensive grammar review is complemented by elaboration of grammatical topics and lexical development beyond the scope of Introductory French I and II. Readings of literary and cultural texts treating French-speaking areas of the world. Emphasis on fluency in conversation and cultural fluency through class discussion of both written and recorded texts from the Francophone world. Prerequisite: LG 112 or equivalent. Fee. **Core Course.**

**LG 212 Intermediate French II** 3 cr  
The second semester of the intermediate sequence. Prerequisite: LG 211 or equivalent. Fee. **Core Course.**

**LG 213 Accelerated Intermediate French (Honors)** 6 cr  
A one-semester intensive intermediate course for students who have successfully completed LG 113 (Accelerated Introductory French-Honors), or the equivalent. This course covers material taught in LG 211 and LG 212. Usually taught in the spring semester. By permission of instructor. Prerequisites: LG 112, LG 113, or equivalent. Fee.

**LG 311 Survey of French Literature and Culture I** 3 cr  
The first part of a two-semester course that deals with the major periods of French culture. Readings of representative works from the Middle Ages through the Eighteenth Century. In French. Prerequisites: LG 212, LG 213 or equivalent.

**LG 312 Survey of French Literature and Culture II** 3 cr  
The second of a two-semester course that deals with the major periods of French culture. Readings of representative works from the Nineteenth and Twentieth Centuries. In French. Prerequisites: LG 212, LG 213 or equivalent.

**LG 326 Advanced French Grammar and Conversation** 3 cr  
Comprehensive review of French grammar coupled with weekly practice in conversation using various levels of the spoken language from slang to formal speech. Emphasis on vocabulary acquisition and mastering the more complex features of French grammar. Prerequisites: LG 212, LG 213 or equivalent.
LG 327  Advanced French Composition and Conversation  3 cr
(W)
Intensive course in writing French coupled with oral presentations and activities
designed to enhance the student's command of the language. Prerequisites: LG 212,
LG 213 or equivalent.

LG 412  Readings in Francophone Literature  3 cr
Study of the literature of the Francophone world, including West and North Africa, the
Caribbean and Quebec, in their cultural and historical context. In French. Prerequisites:
LG 311, LG 312 or equivalent.

LG 415  Readings in the French Novel  3 cr
Study of the development of the novel in French from the romantic period through the
contemporary novel. In French. Prerequisites: LG 311, LG 312 or equivalent.

LG 416  Identités Françaises  3 cr
Study of how different minority groups have been represented and have represented
themselves in Nineteenth and Twentieth Century French and Francophone literature,
theses, and film. Prerequisites: LG 311, LG 312 or equivalent.

GERMAN
LG 151  Introductory German I  3 cr
The first of a two-semester sequence in introductory German. The goal of the two-
semester course is to achieve a basic proficiency in understanding, speaking, reading,
and writing German, and to acquire basic knowledge of German-speaking cultures.
Fee. Core Course.

LG 152  Introductory German II  3 cr
The second semester of the introductory course. Prerequisite: LG 151 or equivalent.
Fee. Core Course.

LG 153  Accelerated Introductory German (Honors)  6 cr
A one-semester intensive first-year course for highly motivated students with prior
instruction in the language, i.e., students who have recently completed a minimum of
two years of high school German with a "B" average or better. This course covers the
material taught in LG 151 and LG 152 and satisfies the Arts and Sciences foreign
language requirement. By permission of instructor. Usually taught in the spring
semester. Fee.

LG 251  Intermediate German I  3 cr
The first of a two-semester sequence in intermediate German. A continuation of the
training necessary to achieve fluency in understanding, speaking, reading, and writing
German. Reading of literary, cultural, and historical texts. Class discussions, reports in
German, both oral and written, are required. Prerequisite: LG 152 or equivalent. Fee.
Core Course.

LG 252  Intermediate German II  3 cr
The second semester of the intermediate sequence. Prerequisite: LG 251 or equivalent. Fee. Core Course.

LG 361  German Culture and Literature from the
Beginnings through Classicism  3 cr
Origin and development of German civilization (literature, thought, the arts, and society
in a historical context) from the beginnings through the early nineteenth century.
Extensive readings, class discussions, and oral and written reports in the language are
required. Taught in German. Prerequisite: LG 252 or equivalent.

LG 362  German Culture and Literature of the Nineteenth Century  3 cr
Development of German civilization (literature, thought, the arts, and society in a historical context) during the period of unification and industrialization, including Romanticism, Realism, Naturalism, and early Modernism. Extensive readings, class discussions, and oral and written reports in the language are required. Taught in German. Prerequisite: LG 252 or equivalent.

**LG 363 Modern and Contemporary German Culture and Literature**  
3 cr  
Development of German civilization (literature, thought, the arts, and society in a historical context) from the early twentieth century through the present. Extensive readings, class discussions, and oral and written reports in the language are required. Taught in German. Prerequisite: LG 252 or equivalent.

**LG 364 Highlights of German Culture and Literature**  
3 cr  
A capstone course highlighting masterpieces of German literature and culture from a particular genre (e.g., the Novelle); a particular period or movement (e.g. Romanticism); an author or group of authors (e.g. Brecht); or a particular thematic focus. Extensive readings, class discussions, and oral and written reports in the language are required. Taught in German. Prerequisite: LG 363 or equivalent.

**LG 366 Advanced German Grammar**  
3 cr  
Designed for the student who wishes to teach or do advanced work. Comprehensive study of formal grammar and structured practice in oral and written expression. Prerequisite: LG 252 or equivalent.

**LG 367 Advanced German Conversation**  
1 cr  
Intensive conversation with practice in using various levels of the spoken language from slang to formal speech. Emphasis on the sounds and idioms of German. The course meets one hour per week with the instructor and one hour per week for a lab session, often with a native speaker. The content of this course will vary over four consecutive semesters. This course may be repeated for a maximum of four credits. Prerequisite: LG 252 or equivalent.

**LG 368 Advanced German Composition (W)**  
3 cr  
Intensive course in writing German. Emphasis is on writing as a process, the communicative purposes of writing, and the development of critical reflection. Analysis of authentic texts and extensive practice in various genres of written German, including description, narrative, report, critical review, and interpretation. Prerequisite: LG 252 or equivalent.

**LATIN**

**LG 101 Introductory Latin I**  
3 cr  
Introductory Latin I is the first half of a two-course sequence in Classical Latin. The goal of the courses is to achieve basic proficiency in understanding and reading Latin and to acquire a basic knowledge of Roman customs, history, and culture.

**LG 102 Introductory Latin II**  
3 cr  
Introductory Latin II is the second half of a two-course sequence in Classical Latin. Prerequisite: LG 101.

**LG 201 Intermediate Latin I**  
3 cr  
The first of a two-semester sequence in intermediate Latin. The course is a continuation of the study necessary to achieve fluency in reading, understanding and translating Classical Latin. A comprehensive review of grammar is accompanied with the presentation of material beyond the scope of Introductory Latin I and II. All texts for reading and translation are presented in the original classical texts, unabridged and complete. Emphasis on the development of the periods of classical Roman literature as well as pertinent events in Roman history and culture. Prerequisite: LG 102.

**LG 202 Intermediate Latin II**  
3 cr  
The second of a two-semester sequence in intermediate Latin. Prerequisite: LG 201.
RUSSIAN

LG 171 Introductory Russian I 3 cr
The first of a two-semester sequence in introductory Russian. The goal of the two-semester course is to achieve a basic proficiency in understanding, speaking, reading, and writing Russian. Fee. Core Course.

LG 172 Introductory Russian II 3 cr
The second semester of the introductory course. Prerequisite: LG 171 or equivalent. Fee. Core Course.

LG 173 Accelerated Introductory Russian (Honors) 6 cr
A one-semester intensive first-year course for highly motivated students with prior instruction in a foreign language (either high school or college level) with a "B" average or better. This course covers material taught in LG 171 and LG 172 and satisfies the Arts and Sciences foreign language requirement. By permission of the instructor. Usually taught in the spring semester. Fee.

LG 271 Intermediate Russian I 3 cr
The first of a two-semester sequence in intermediate Russian. A continuation of the training necessary to achieve fluency and understanding in speaking, reading, and writing Russian. Reading of literary and cultural texts. Increased practice in Russian conversation. Prerequisite: LG 172 or equivalent. Fee. Core Course.

LG 272 Intermediate Russian II 3 cr
The second semester of intermediate Russian. Prerequisite: LG 271 or equivalent. Fee. Core Course.

LG 372 The Golden Age of Russian Literature (W) 3 cr
A survey course designed to familiarize the student with the essential works of 19th-century Russian literature. Students read and discuss works by Pushkin, Lermontov, Gogol', Dostoevsky, Turgenev, Tolstoy, and Chekhov. In English. Russian majors are required to read excerpts of works in Russian and to complete a course project in Russian. Prerequisite: LG 272 or equivalent.

LG 374 Advanced Russian Grammar 3 cr
A course designed to give students active control of the more complex features of Russian grammar. Structured practice in oral and written expression. Prerequisite: LG 272 or equivalent.

LG 375 Advanced Russian Conversation 1 cr
Intensive conversation practice in using the various levels of modern spoken Russian. This course meets two hours per week. The content of this course will vary over four consecutive semesters. This course may be repeated for a maximum of four credits. Prerequisite: LG 272 or equivalent, or permission of the instructor.

LG 376 Advanced Russian Composition (W) 3 cr
This course provides extensive practice in writing Russian. Students read, discuss, and write about texts which reflect the controversial and topical issues of the day. Prerequisite: LG 272 or equivalent.

LG 380 Russian Poetry 3 cr
Designed to enhance the student's overall command of spoken Russian through the study of Russia's rich poetic tradition. Russian poems and songs provide the basic materials for this course. Lectures, materials, and discussions in Russian. Prerequisite: LG 272 or equivalent.

LG 381 Russian Prose in Context 3 cr
A course designed to enhance the student's ability to read, translate, and discuss Russian texts. Students read works from both 19th- and 20th-century fiction, which they analyze both thematically and stylistically. Classwork and assignments are geared towards increasing the student's vocabulary and understanding of Russian stylistics. All texts, lectures, and discussions in Russian. Prerequisite: LG 272 or equivalent.
SPANISH

LG 131  Introductory Spanish I  3 cr
The first of a two-semester sequence in introductory Spanish. The goal of the two-semester course is to achieve a basic proficiency in communication in Spanish through the development of listening, speaking, reading and writing skills. Fee. Core Course.

LG 132  Introductory Spanish II  3 cr
A continuation of Spanish 131. Prerequisite: LG 131 or equivalent. Fee. Core Course.

LG 134  Accelerated Introductory Spanish (Honors)  6 cr
A one-semester intensive first-year course for highly motivated students with prior instruction in the language, i.e. students who have recently completed a minimum of two years of high school Spanish with a "B" average or better. This course covers the material taught in LG 131 and LG 132 and satisfies the Arts and Sciences language requirement. By permission of the instructor. Usually taught in the fall semester. Fee.

LG 231  Intermediate Spanish I  3 cr
The first of a two-semester sequence in intermediate Spanish. A continuation of the training necessary to achieve fluency. Grammar review, class discussions, extensive oral and written work, short readings in literature and culture are included. Prerequisites: LG 132, LG 134, or equivalent. Fee. Core Course.

LG 232  Intermediate Spanish II  3 cr
The second semester of the intermediate sequence. Prerequisite: LG 231 or equivalent. Fee. Core Course.

LG 234  Accelerated Intermediate Spanish (Honors)  6 cr
A one-semester intensive intermediate course for students who have successfully completed LG 134 (Accelerated Introductory Spanish), or the equivalent. This course covers the material taught in LG 231 and LG 232. Usually taught in the spring semester. By permission of the instructor. Prerequisites: LG 132, LG 134 or equivalent. Fee.

LG 333  Conversational Spanish and Composition (W)  3 cr
Extensive oral and written work through a variety of activities to review and reinforce acquired language skills, emphasizing vocabulary acquisition and fluency in the language. Prerequisite: LG 232 or equivalent.

LG 334  Advanced Spanish Grammar and Composition (W)  3 cr
Extensive study of major aspects of Spanish grammar with emphasis on increasing proficiency in the four skills. Special emphasis is placed on descriptive and narrative writing. Prerequisite: LG 232 or equivalent.

LG 335  Commercial and Technical Spanish  3 cr
Advanced course in written and spoken business and technical Spanish. Emphasis on writing proficiency in various aspects of business, government, technical and general commercial writing. Development of related speaking skills for commerce. Prerequisites: LG 333, LG 334, or equivalent.

LG 336  Introduction to Textual Analysis in Hispanic Literature  3 cr
An introduction to literary analysis, literary and critical terminology, and genres as they appear in short works from both Spain and Latin America. Usually taught in fall semester. Prerequisites: LG 232, LG 234 or equivalent.

LG 431  Hispanic Civilization  3 cr
In-depth study of various aspects of Hispanic civilization and its contributions to world culture; emphasis upon geographical, historical, social, political, and artistic forces. Extensive class discussions, oral and written reports in the language are required. Prerequisites: LG 333, LG 334, or LG 336.
LG 432  Readings in Spanish Literature Through the 19th Century  3 cr
Representative readings reflecting major literary movements and cultural events in Spain prior to the twentieth century. Extensive class discussions, oral and written reports in the language are required. Prerequisites: LG 333, LG 334, or LG 336.

LG 433  Readings in Spanish Literature of the 20th Century  3 cr
Representative readings reflecting major literary movements and cultural events in Spain in the twentieth century. Extensive class discussions, oral and written reports in the language are required. Prerequisites: LG 333, LG 334, or LG 336.

LG 434  Readings in Latin American Literature Through the 19th Century  3 cr
Representative readings reflecting major literary movements and cultural events in Latin America prior to the twentieth century. Extensive class discussions, oral and written reports in the language are required. Prerequisites: LG 333, LG 334, or LG 336.

LG 435  Readings in Latin American Literature of the 20th Century  3 cr
Representative readings reflecting major literary movements and cultural events in Latin America in the twentieth century. Extensive class discussions, oral and written reports in the language are required. Prerequisites: LG 333, LG 334, or LG 336.

GENDER STUDIES (GS)

GS 290 Gender Studies Lecture Seminar 1 cr
This course will provide students with a survey of current research and issues focusing on Gender Studies. It will involve a variety of seminars facilitated by different scholars, visiting professors, or community members; films; and discussions.

GS 490 Gender Studies Special Topics 3 cr
Advanced study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 492 Gender Studies Seminar 3 cr
Advanced study of selected topics in gender studies. May be repeated for credit when content varies.

GS 494 Directed Studies 1-4 cr
Directed research under the guidance of a Gender Studies faculty member. Special permission required.

GS 496 Internship 1-4 cr
Practical learning through occupational or community work with an approved agency dealing with gender-related issues. Readings and final report supervised by gender studies faculty. Special permission required.

Gender Studies Program

College of Arts and Sciences
GEO 101 Atmospheric Processes and Patterns  3 cr
Introduces students to the natural science branch of geography. Emphasizes earth-sun relationships, weather and climate. Fee. Core Course. Corequisite: GEO 101L.

GEO 101L Atmospheric Processes and Patterns Laboratory  1 cr
Laboratory exercises associated with GEO 101. GEO 101 must be taken concurrently. Together, GEO 101 and GEO 101L count as one laboratory science course, partially fulfilling general education requirements.

GEO 102 Landscape Processes and Patterns  3 cr
Introduces students to the natural science branch of geography. Emphasizes spatial patterns and processes related to natural landscape regions and landforms. Fee. Core Course. Corequisite: GEO 102L.

GEO 102L Landscape Processes and Patterns Laboratory  1 cr
Laboratory exercises associated with GEO 102. GEO 102 must be taken concurrently. Together, GEO 102 and GEO 102L count as one laboratory science course, partially fulfilling general education requirements.

GEO 114 Introduction to Human Geography  3 cr
This course introduces students to the social sciences branch of geography. Emphasis is placed on the location, spatial arrangement, and spatial interaction of the human environment which includes: population, culture, geopolitics, economic activity, and settlements. Core Course.

GEO 115 World Regional Geography  3 cr
A survey of the major regions of the world, excluding North America, and the interrelationship of environmental, cultural, economic and political factors that characterize each. Core Course.

GEO 310 Environmental Earth Sciences  3 cr
A spatial perspective on major global environmental problems. Topics include population pressure; loss of biodiversity; ozone depletion; global warming; water, energy and mineral resources, food supplies, waste disposal, geologic hazards, and political/economic forces (identical to GY 310).

GEO 312 World Economic Geography (C, W)  3 cr
Emphasis is placed on the location, spatial distribution, and spatial interaction of economic activities within a global context. Topics covered include population, natural resources, primary, secondary, and tertiary activities, development and international trade and aid. Students will write technical reports using word processing and spreadsheet software. Prerequisite: GEO 114.

GEO 313 Geography of Anglo-America  3 cr
An analysis of the environmental, historical, cultural and economic factors that create the spatial patterns, development processes and distinctiveness of Canada and the United States.

GEO 314 Geography of Europe  3 cr
An analysis of the environmental, historical, social and economic factors that create the diversity of countries and their unique spatial characteristics on the subcontinent of Europe.

GEO 315 The Geography of Latin America  3 cr
A systematic survey of Latin American landscapes. Attention is directed to natural resources, human activities, and regional differentiation. Prerequisite: GEO 114 or GEO 115.

GEO 320 Alabama Geography (W) 3 cr
Spatial study of physical and human features in Alabama. Includes geomorphology, climate, vegetation, agriculture, development, population, and environmental issues within the state.

GEO 321 National Parks Conservation (W) 3 cr
An analysis of the motives and processes for establishing national parks and nature reserves, the primary conservation and preservation issues they have, and the influences of ecology, politics, and culture on their planning and management. US national parks are emphasized.

GEO 330 Map Interpretation and Design 3 cr
Advanced map interpretation skills followed by an introduction to mapmaking and cartographic design using basic pen and ink techniques. Prerequisite: GEO 102. Fee.

GEO 331 Computer Cartography (C) 4 cr
A review of the application of computers to quantitative thematic cartography. Prerequisite: GEO 330. Fee.

GEO 332 Introduction to Remote Sensing 4 cr
Introduction to the theory and use of remotely sensed data for analysis of earth surface phenomena. Prerequisite: GEO 102 or permission of the instructor. Fee.

GEO 341 Climatology 3 cr
Analysis of global climate as aggregate weather. Component elements, factors controlling distribution, resulting area patterns, and climatic classification are studied. Prerequisite: GEO 353/MET 353 (identical to MET 341). Fee.

GEO 342 Severe Weather 3 cr
A study of the causes, structure, and impact of tornadoes, hurricanes, thunderstorms and other severe weather systems (identical to MET 342). Prerequisite: GEO 353/MET 353.

GEO 353 General Meteorology 4 cr
An overall view of the field of meteorology for science majors. The course uses a quantitative approach to study the composition of the atmosphere, atmospheric processes, global circulation, and storm development (identical to MET 353). Prerequisites: GEO 101 and MA 112. Fee.

GEO 365 Urban Geography (C, W) 3 cr
Concentrates upon the evolution and function of the urban spatial system, and upon the internal spatial structure of an urban area's residential, commercial and industrial land use. Prerequisite: GEO 114.

GEO 370 Geography of Tourism 3 cr
The study of the components of the Tourism industry, their spatial distribution, the environmental and cultural effects of Tourism, and the requisites and techniques for planning tourism development.

GEO 375 United States Historical Geography 3 cr
A study of the historical processes of exploration, settlement, environmental modification and land use that have created the spatial patterns and landscapes of modern United States. Prerequisite: GEO 114 or GEO 115.

GEO 381 Cultural Geography (W) 3 cr
Study of the development and differentiation of cultural landscapes and the economic, political, technological and cultural processes that shape them. Prerequisite: GEO 114 or GEO 115.

GEO 410 Biogeography 3 cr
Analysis of spatial patterns of life on earth. Biogeography emphasizes the influence of the physical environment, paleogeography, and past and possible future climate change on biomes and biogeographic realms. Prerequisite: GEO 101 or special permission.

GEO 411   Soils            3 cr
A review of soil formation, processes and properties (identical to GY 411). Prerequisite: GEO 102 or permission of the instructor.

GEO 420   Geostatistics (C) 4 cr
Applied bivariate and multivariate statistics to problems in geology, geography, and meteorology; parametric and non-parametric procedures in correlation, regression, analysis of variance, etc. Time series analysis, trend surface analysis, kriging and analysis of spatial (map) data (identical to GY 420).

GEO 435   Research Methods in Geography (C) 3 cr
This course serves as an introduction to geography as a research discipline. Emphasis is placed on geographic problem solving, data collection, data analysis, and reporting. Micro computer oriented statistical and mapping packages will be used to analyze geographic data. Prerequisites: Senior Standing, CIS 150, ST 210. Fee.

GEO 440   Coastal Zone Management  2 cr
A review of ecological features and of management policies for coastal communities with a description of relevant federal and state programs. Taught only at Dauphin Island Sea Lab.

GEO 441   Coastal Climatology 2 cr
Study of the controlling factors and features of the world's climates, with particular attention to coastal areas, and application and interpretation of climate data. Taught only at Dauphin Island Sea Lab.

GEO 442   Applied Remote Sensing 3 cr
Analysis of remotely sensed data for detection, identification, inventory and mapping of earth resources (identical to GY 442). Prerequisite: GY 332 or GEO 332. Fee.

GEO 461   Computer Mapping and GIS Technology (C) 4 cr
Techniques for the preparation of Geoscience maps with the aid of desktop computer workstations with emphasis on GIS analysis (identical to GY 461). Prerequisites: GY 111, GEO 102. Fee.

GEO 480   Field Work in Geography (W) 4 cr
This course trains students in the collection and interpretation of field data. Information collected by measurements, observations, and interviews is integrated into a final written project report dealing with a specific local environmental problem. Prerequisite: Senior standing. Fee.

GEO 490   Special Topics 1-3 cr
Geographic topics not covered in current geography courses.

GEO 492   Seminar 1-3 cr
Departmental seminar investigating a selected field of geography. (Topic announced prior to registration.) May be repeated once when content varies.

GEO 494   Directed Studies 1-4 cr
Independent research in field, laboratory, or library under the direction of a member of the geography faculty.

GEO 496   Internship in Geography 1-3 cr
On-the-job learning through occupational or professional work with an approved firm or agency. Open only to geography majors.

GEO 590   Special Topics 1-6 cr
An in-depth course for advanced students in geography. Topics and titles will be selected to examine the subject matter in an area of current interest to students and in an area of particular faculty expertise. To include specialized topics not currently listed in Bulletin course offerings.

*Introduction to elementary crystallography, crystal chemistry, and atomic structure of minerals. Geologic data will be analyzed using various microcomputer-oriented statistical and graphics packages. Fee.*

*Identification of common rock-forming minerals and important ore minerals. Includes introduction to determinative techniques involving basic qualitative chemical tests. Geologic data will be analyzed using microcomputer-oriented statistical and graphics packages. Prerequisite: GY 341 or permission of instructor. Fee.*

*The study of the formation and classification of igneous and metamorphic rocks. Prerequisite: GY 342.*

*A study of sediments and their classification, as well as sedimentary processes, petrography and diagenesis. Prerequisites: GY 111 and GY 112. Fee.*

*The development of the stratigraphic column; correlation and field procedures. Prerequisite: GY 112.*

*Study of the deformation of the internal earth and the structures that result. Prerequisites: GY 111, GEO 102.*

*Major invertebrate fossil groups, their identification, and their geologic distribution. Prerequisite: GY 112. Fee.*

*A review of soil formation, processes and properties (identical to GEO 411). Prerequisite: GEO 102 or permission of the instructor.*

*An introduction to coastal sediment processes and applied coastal geomorphology with emphasis on waves, tides, sediments and their interactions including the impacts of anthropogenic influences.*

*Applied bivariate and multivariate statistics to problems in geology, geography, and meteorology; parametric and non-parametric procedures in correlation, regression, analysis of variance, etc. Time series analysis, trend surface analysis, kriging and analysis of spatial (map) data (identical to GEO 420). Credit for both GY 420 and GY 520 will not be allowed.*

*Theory and use of the petrographic microscope in the recognition and identification of crystallographic and optical properties in non-opaque minerals. Prerequisite: GY 342 or permission of the instructor. Fee.*

*Theory and use of X-ray diffraction systems as applied to crystallography, mineralogy, chemistry, and metallurgy. Prerequisite: GY 341 or permission of instructor.*

*A laboratory-based course illustrating techniques employed by geologists to prepare thin-sections from geological materials. Students will produce thin-sections and write up reports detailing the petrography of the samples examined. Prerequisites: GY 344 and permission of the instructor. Fee.*

*Analysis of remotely sensed data for detection, identification, inventory, and mapping of earth resources (identical to GEO 442). Prerequisite: GY 332 or GEO 332. Fee. Credit for both GY 442 and GY543 will not be allowed.*

GERONTOLOGY (GRN)

GRN 290 Special Topics 3 cr
This designation is used for interdisciplinary courses on aging on a variety of subjects. (Example: Gender and Aging). This course does not replace any course in a single discipline.

GRN 490 Special Topics 3 cr
This course is designated for upper division students and graduate students, particularly those pursuing studies for the Certificate in Gerontology. The course content focuses on interdisciplinary treatments on various topics on aging. (Example: Trends and Issues in Gerontology). This course does not replace any course in a single discipline.

GRN 494 Directed Studies 1-3 cr
Under the guidance of a faculty member, the student will pursue directed research or readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to maximum of six semester hours.

GRN 496 Internship: Gerontology 3 or 6 cr
This course is to provide a practicum experience in gerontology in a setting selected by the student. The course emphasis is on the experiential learning process and outcomes. The undergraduate student will apply theoretical concepts in specific areas of interest related to aging and intergenerational relations. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. Prerequisites: Completion of Core Courses in Gerontology Certificate Program (undergraduate) or Minor. Permission of Director of Gerontology. Proof of insurance is required.

GRN 596 Internship in Gerontology 3 or 6 cr
The course is to provide a practicum experience in gerontology in a setting selected by the student. The course emphasis is on the experiential learning process and outcomes. The graduate student will apply theoretical concepts to leadership roles, conducting research and influencing social and health care policies related to aging and intergenerational relationships. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. Prerequisites: Completion of at least two graduate courses in Gerontology. Proof of insurance is required.

</table>
A supervised learning experience in a health and physical education work setting. Provides the students with an opportunity to apply the theories and concepts learned during the graduate program. Not more than nine semester hours may be taken. HPELS advisor approval required.

**HPE 599  Thesis**  1-9 cr
A student selects a project, study, or investigation in Health or Physical Education. Such project forms the basis for the thesis. A Thesis Committee will give guidance during the investigation and during the writing of the thesis. HPELS advisor approval required.

**HPE 601  Biomechanical Foundations in Human Movement**  3 cr
Teachers develop competence in applying basic laws of physics and cinematographical techniques to the analyses of human motion.

**HPE 603  Advanced Movement and Evaluation in HPE**  3 cr
Measurement and evaluation in the areas of strength, body composition, flexibility, endurance, general motor capacity, perceptual motor-functions, and anthropometrics.

**HPE 694  Directed Study and Research**  3 cr
Through directed study and research, problems and issues of special interest or significance in health and physical education are explored. Not more than three semester hours of any departmental 694 courses can be accepted toward a degree program.

**HPE 699  Research Project**  3 cr
A supervised research project or investigation in instructional development. The student will conduct an investigation, apply concepts and skills learned during the Sixth-Year Program. May be taken more than one semester; total cannot exceed six semester hours.

Date last changed: December 17, 2004 4:04 PM

http://www.southalabama.edu/bulletin/courhpe.htm
HS 170 First Aid 1 cr
The scope, needs, and limitations of first aid with laboratory training in the techniques and methods of injury care. Opportunity for American Red Cross first-aid and CPR certification.

HS 262 Personal Health 3 cr
Current health problems as related to the individual with emphasis on sociological, psychological, and economic factors.

HS 263 Nutrition and Hunger 3 cr
An introduction to digestion, absorption, transportation, and utilization of nutrients. Other topics include: nutrition across the life span, population dynamics and world hunger.

HS 351 Safety Education 3 cr
Traffic safety and safety at home, work, school, and play. Organization of safety education programs in school and community. Methods and materials for teaching safety.

HS 361 School and Community Health-Implications for Curriculum 3 cr
Contemporary school health and public health issues. Epidemiological concepts and methods. Governmental and volunteer health agencies. Curriculum development based upon epidemiological data.

HS 362 Drug Education 3 cr
A survey of substance abuse issues. Attention is given to specific drug classifications, use and abuse patterns, prevention, treatment, and future implications.

HS 363 Individualized Nutrition 3 cr
Basic nutritional principles are covered. Includes assessment of individual and/or group diets. The course is designed around individualized programmed instruction.

HS 460* Methods in Health Education (W) 3 cr
Topic selection and teaching unit preparation. Presentation and classroom practice of teaching methodologies. Practical mini-teaching experiences in local school or other pertinent agencies. Admission to teacher candidacy or permission of instructor.

HS 462 Public Health 3 cr
A study of public health organizations and available community health resources, including the official and non-official health agencies at various levels. An examination of causative community factors in disease, community diagnosis of and programs to combat these conditions.

HS 463 Human Sexuality: Some Health Education Perspectives 3 cr
An exploration of human sexuality with implications for health education.

HS 473 Problems in Health Education 3 cr
Special problems are assigned to individuals and to groups of students.

HS 490 Special Topics 3 cr
A varying content course treating several aspects of health education. May be repeated for credit when course content varies.

HS 494 Directed Study 3 cr
Directed research. Prerequisite: Permission of Department. No more than two directed studies can be counted toward the bachelor’s degree and Class B Certification. HPELS advisor approval required.

**HS 510 Current Health Problems 3 cr**
Identification, exploration, and definition of current health problems such as drug abuse, mental health, aging, death and dying, human sexuality, chronic and communicable disease.

**HS 520 Special Methods in Health Education 3 cr**
Development, selection, and implementation of classroom teaching strategies and classroom techniques in the health sciences area.

**HS 560 School Health Curriculum 3 cr**
Designed to develop the prospective teacher’s or the in service teacher’s competencies in curriculum planning and development applied to the health area.

**HS 562 Drug Use and Abuse 3 cr**
A study of the drug spectrum including legal and illegal drug use and abuse. Discussion of education and preventive strategies.

**HS 563 Nutrition 3 cr**
An in-depth study of educational concepts related to digestion, absorption, transportation and utilization of nutrients.

**HS 565 Community Health 3 cr**
An introductory course in community health. Includes a survey of contemporary health problems of both communities and schools. A review of school and community health programs.

**HS 567 Aging and Health: Biologic and Social Perspectives 3 cr**
An overview of the normal aging process, including physical, psychological and social changes, myths, diseases, related community resources, and the team approach to meeting needs.

*Only for students admitted to candidacy.*

</tbody>
</table>
The purpose of this course is to examine the principals of disaster management and the implications for interdisciplinary health care.

**HSC 542 Biostatistics 2 cr**  
The purpose of this course is to provide the biostatistical framework for advanced practice nursing in public health. The focus is on the concepts and methods of biostatistical analysis as it is applied in the health sciences. The emphasis is on the application of appropriate biostatistical methods to specific studies in public health.

**HSC 550 Ethical Consideration in the Care of the Aging 3 cr**  
Interdisciplinary course on critical investigation of ethical issues affecting the elderly and on application of principles, concepts, theories, and decision models as a framework for ethical decision making. Elective.

**HSC 568 Applied Economics in Health Care Policy 3 cr**  
The purpose of this course is to provide a foundation for participation in health policy formulation and or understanding the economic implications for health professions, and the role of the provider in policy making. Emphasis will be on analysis of health care policy from a socio-economic, ideological, political, historical, and technological perspective.

**HSC 570 Transcultural Health Care 1-3 cr**  
Emphasis is on appreciation of the attitudes, customs, and values of people in a variety of cultures and on utilization of this knowledge in planning health care for people in multiple settings.

**HSC 571 Managing Health Care Personnel 3 cr**  
The purpose of this course is to analyze frameworks for managing health care personnel. Emphasis is on current legal and governmental directives regulating human resource management, employee relations, recruitment and retention, ethics and motivational issues in health care management.

**HSC 590 Special Topics 1-6 cr**  
Study of topics significant to the health professions. Content varies and may be repeated.

**HY 101** History of Western Civilization I  
History of humankind, emphasizing the development of the West to c. 1600 CE. Core Course.  

**HY 102** History of Western Civilization II  
History of humankind, emphasizing the rise of the West from c. 1600 CE. Core Course.  
NOTE: History 101 and 102 are related courses but do not need to be taken in order.  

**HY 103** History of Asian Civilization I  
A survey of traditional cultures, values, ideas, and institutions of East, South, Southeast Asia to 1800.  

**HY 104** History of Asian Civilization II  
The responses of East, South, Southeast Asia to the impact of Western challenges; their roles in the modern world. Economic and political structure; the emergence of China and Japan as major world political and economic powers.  
NOTE: History 103 and 104 are related courses but do not need to be taken in order.  

**HY 135** United States History to 1877  
An introductory course in United States history to 1877. Core Course.  

**HY 136** United States History since 1877  
An introductory course in United States history since 1877. Core Course.  
NOTE: HY 135 and 136 are related courses but do not need to be taken in order.  

**HY 210** United States during the 1960's  
A history of the United States during the 1960's.  

**HY 215** Military History of the U.S. Civil War  
Examines the military aspects of the U.S. Civil War, paying particular attention to strategy, tactics, technology, leadership, and minority participation.  

**HY 228** Latin America  
An introductory survey of Latin American history from the time of European conquest to the present.  

**HY 245** Tsarist Russia  
Russian history to 1917.  

**HY 246** The U.S.S.R. and Russia  
History of the Soviet Union and Russia since 1917.  
NOTE: HY 245 and 246 are related courses but do not need to be taken in order.  

**HY 303** Warfare and Society in the Modern World  
Examines the mutual interrelationships between warfare and society in western civilization since the 14th century.  

**HY 305** History of Military Thought (W)  
An intellectual history of the place of armed conflict in society from the Renaissance to the Nuclear Age.

</tbody>
</table>
A study of the development of European historical literature and its theoretical and methodological bases.

HY 541 Major European Thinkers 3 cr
Seminar devoted to the writings of leading European thinkers of the past five hundred years, including such figures as Luther, Rousseau, Darwin, Marx, Freud and de Beauvoir.

HY 546 Research in Soviet Social History 3 cr
A study of the relationship between political and social development in Soviet Russia from 1917-1941.

HY 551 Medieval Europe 3 cr
Seminar that explores the history of Western Europe between 950 and 1500, with emphasis on changes in government, economy, society, religion, thought, war and diplomacy.

HY 552 Renaissance Europe 3 cr
Seminar that explores intellectual and cultural developments in Western Europe between 1350 and 1600.

HY 553 Religious Reform in Europe 3 cr
Seminar that considers religious reform movements within the Catholic Church before the beginning of Protestantism, the development of major Protestant tendencies, and the continuing development of reform within the Catholic Church after the Protestant break.

HY 559 Modern European History 3 cr
Examination of major interpretive and methodological problems in European history from 1740 to the present. May be repeated under a different instructor.

HY 570 American Biography 3 cr
A study of American biography, autobiography, and methodology.

HY 578 Research in Southern History 3 cr
History of the southern United States, from the colonial era to the present. Students will write a research paper involving interpretation of primary documents.

HY 581 Research in American History 3 cr
This is a variable content seminar course. Students will write a research paper involving interpretation of primary sources.

HY 586 Research in European History 3 cr
This is a variable content seminar course. Students will write a research paper involving interpretation of primary sources.

HY 590 Special Topics 3 cr
A colloquium of selected subjects and readings to be arranged by the department. Limited to fifteen students. May be repeated once for credit when content varies.

HY 592 The Teaching of History 3 cr
This class is conceived as part seminar and part practicum. It is an introduction to the problems and principles of the teaching of history in secondary and higher education settings. It will combine instructor lecture, class presentations, and class discussions of assigned readings.

HY 594 Directed Studies 1-3 cr
Directed individual study. May only be used in unusual case to build on regular graduate course work. A maximum of six credit hours of HY 594 may count toward degree requirements. Prerequisites: Special permission of department chair.

HY 595 Archival Practice 3 cr
Introduces graduate students to archival theory and practice.

HY 597 Professional Studies: Directed Field Research 3 cr
Directed individual field research. Occupational and professional experiences under faculty direction in a defined field of interest, including but not limited to archival, museum, library, or other public history projects. Written reports required. Special permission of departmental chair required.

**HY 599  Thesis  1-3 cr**
Six hours required of student in the thesis track. May not be taken for credit toward a degree by students in the non-thesis track. Prerequisite: Completion of a research seminar and nine hours of graduate level-history, including one 500-level course, in the field relevant to the thesis. Special permission of department chair.

*HY 499 may not be taken by graduate students.*
All prerequisites must be passed with a minimum grade of “C”.

**ISC 190**  Information Systems Special Topics  1 cr
Selected topics in information systems. Prerequisite: Permission of the ISC Coordinator.

**ISC 245**  Information Systems in Organizations  3 cr
An overview of information systems topics from an organizational and managerial perspective. Topics include current information technology and systems, such as the Internet and its organizational impacts; the emergence of global economy and digital firms; and the ethical and social impacts of information systems, such as privacy, intellectual property rights, and liability. Issues and strategies regarding information systems planning, systems development, decision-making, and using IT for competitive advantage are discussed. Throughout the course, students will investigate the strategic uses of information technology in current industry-specific situations through individual and team assignments.

**ISC 305**  Information Systems and Technology  3 cr
The analysis, design, and implementation of information systems. Analysis of the functional areas of business and integration of computer tools to satisfy information requirements. Current developments in business computer systems, including surveys of current systems and the Internet. Computer classrooms are utilized to provide students with “hands on” experience. Prerequisite: CIS 250.

**ISC 353**  Information Systems Applications Development  3 cr
The management of the development of a small system using E-R modeling and a phase-build approach. Interactive programming applications, database concepts, and report generation will also be covered. Prerequisite: CIS 324.

**ISC 360**  Information Systems Analysis and Design (W)  3 cr
A thorough examination of the analysis and design of computer information systems from the systems analyst's view. The course will use an established software development methodology. At each step in the software development life cycle, both the methodologies used and the documentation required will be examined. Prerequisites: Professional Component and CIS 324.

**ISC 361**  Database for Information Systems  3 cr
The course builds on relational database and programming concepts by exploring the analysis, design, and implementation of more complex database systems. Topics include advanced data modeling, advanced query design, and application development in a database programming environment. Prerequisites: Professional Component and CIS 324.

**ISC 362**  Information Systems Object-Oriented Analysis and Design  3 cr
This course provides an introduction to an object-oriented analysis and design (OOAD) methodology as well as the tools and techniques for supplementing this methodology. The course will also cover the use of notational metalanguages such as Unified Modeling Language (UML) and OOAD computer-assisted software engineering (CASE) tools. Prerequisites: Professional Component and ISC 360.

**ISC 457**  Data Warehousing and Decision Support  3 cr
This course examines the analysis and design issues as well as architectural infrastructures associated with enterprise data warehouses for decision support. Prerequisites: Professional Component standing and CIS 324.

**ISC 459 Information Systems Application**  
**Design and Implementation**  
Analysis and design of information systems to support multiple locations via Intranet/Internet access. Additional and supporting topics, such as corporate privacy and security are also covered. Prerequisites: Professional Component and CIS 324.

**ISC 463 Information Systems Database**  
**Administration and Security**  
An examination of the issues and activities associated with the administrator function for databases. This course will cover installation, implementation, user management, backup, and security. Prerequisites: Professional Component and CIS 324.

**ISC 490 Information Systems Special Topics**  
Advanced selected topics in information systems. Prerequisites: Professional Component and permission of the ISC Coordinator.

**ISC 545 Management Information Systems**  
This course provides an overview of information systems from an organizational, managerial, and technical perspective. The topics covered will focus on the strategic role of information systems and information technology in business processes, change and knowledge management, group and individual decision-making, and electronic commerce. Specific topics include current hardware, infrastructure and connectivity technologies, software and systems development methodologies, Internet-based applications, management challenges and opportunities created by information systems and global connectivity such as privacy, data and systems security and control, intellectual property, ethical and social consequences of information technology, and the impact of digital integration on an organization's competitiveness, products, services, procedures, and management structures. Prerequisite: Permission of the Director of CIS Graduate Studies.

**ISC 551 Human/Computer Interface Design**  
The course covers principles, guidelines, and methods in human computer interface design. Students complete a project involving the development, evaluation, and demonstration of a user interface. The interface is designed around a user and task analysis performed on a given problem. Students plan and conduct a usability study of a working prototype and report on results and recommendations. Prerequisite: CIS Graduate Foundation Courses or equivalent.

**ISC 553 Information Systems Web Site Management**  
Concepts of web site development and management: home-page, intranet, and Internet. Web programming and database access. Prerequisites: CIS 501, CIS 504 or equivalent and permission of ISC Coordinator.

**ISC 557 Modeling and Decision Support Systems**  
Multi-criteria decision making techniques, group decision making process, database query for decision support, inference engines, and expert system architectures. Prerequisite: CIS Graduate Professional Component.

**ISC 559 Information Systems Applications**  
**Design and Implementation**  
Analysis and design of information systems infrastructures to support multiple locations, Intranet/Internet access, corporate privacy, and security. Capacity analysis and planning, installation, performance monitoring, and problem solving strategies. Prerequisite: CIS Graduate Professional Component.

**ISC 560 Information Systems Analysis - Design**  
3 cr
This course will include an introduction to the systems development life cycle as well as a survey of analysis and design technique. Detail topics will include information systems planning and project identification and selection, requirements collection and structuring, process modeling, data modeling, design of interface and data management, system implementation and operation, system maintenance, and change management implications of systems. Globalization issues in systems will also be discussed. Students will use current methods and tools such as rapid application development, prototyping, and visual development. Prerequisite: Graduate Professional Component.

**ISC 561 Information Systems Database Management** 3 cr
An introduction to database management systems. The data environment, basic technical concepts and systems resources, database concepts, including use and management of databases. Classical and current DBMS models will be presented. Laboratory project activity will involve definition, creation, and development of a database. Prerequisite: CIS Graduate Professional Component.

**ISC 562 IT Policy and Strategy** 3 cr
This course provides the top management strategic perspective for aligning competitive strategy, core competencies, and information systems. Issues include the development and implementation of policies and plans to achieve organizational goals, including defining systems that support the operational, administrative, and strategic needs of the organization, its business units, and individual employees. Prerequisites: ISC 559, ISC 560, ISC 561.

**ISC 563 Information Systems Database Administration** 3 cr
This course examines issues and activities associated with the administrator function for organizational databases. Topics include storage and indexing, query evaluation, physical database design, crash recovery, and security. Prerequisite: CIS Graduate Professional Component.

**ISC 565 Information Systems Project and Change Management** 3 cr
A study of the concepts and techniques of project management from an information systems perspective. The course provides an overview of project lifecycle activities, and a focus on managerial, behavioral, and process issues that surround the dynamic context of systems development. The issue of managing the change brought about by the introduction or modification of information systems in organizations will be discussed. Students will be instructed in the use of software tools for project management. Prerequisite: CIS Graduate Professional Component.

**ISC 567 IS Function Integration** 3 cr
The tactical/operational responsibilities of the CIO. Governance considerations that link the IS-business organizations. Current/emerging issues in creating and coordinating the key activities necessary to manage the day-to-day operations of the IS function. Coordinating skills and organizational IS infrastructure. Prerequisites: ISC 560, ISC 561.

**ISC 568 IS Enterprise Integration** 3 cr
Information systems' role in transforming organizations and industries. An integrated view of the organization from an external and internal perspective. IS's internal role in integrating the enterprise through a cohesive set of business processes and functional applications to meet business needs. Enterprise resource planning and enterprise functionality. Collaborative systems. Consideration of external relations with suppliers, outsourcers, and customers. Prerequisite: ISC 567.

**ISC 571 Information Systems Data Warehousing and Decision Support** 3 cr
This course examines the analysis and design issues as well as the architectural infrastructures associated with enterprise-wide data warehouses. Prerequisite: CIS Graduate Professional Component.

**ISC 590 Information Systems Special Topics** 3 cr
Advanced selected topics in information systems. Prerequisite: Permission of the ISC Coordinator.
ISC 595  Information Systems Project  Proposal Development  1-3 cr
Development of the project proposal for the ISC master's project. Prerequisites: CIS 518 and permission of the Director of CIS Graduate Studies.

ISC 598  Information Systems Project  1-3 cr
This course may be repeated for a maximum of six (6) credits. A CIS project committee will provide direction during the project. Prerequisites: ISC 595, approval of project proposal by the student’s project committee, and permission by the Director of CIS Graduate Studies.
INFORMATION TECHNOLOGY (ITE)

All prerequisites must be passed with a minimum grade of “C”.

ITE 190 Information Technology Special Topics 1 cr
Selected topics in information technology. Prerequisite: Permission of the ITE Coordinator.

ITE 271 Introduction to Information Technology I 3 cr
This course introduces students to the Information Technology (IT) concepts and the software that facilitates IT solutions. Topics include: data, information, & knowledge concepts, productivity software tools, role of networking and communication, the "digital phenomena", and the benefits of IT. Also, included are IT program concepts such as: ethics, the importance of effective written & oral communication, continuous learning and technology monitoring/ evaluation. Prerequisite: CIS 120.

ITE 272 Introduction to Information Technology II 3 cr
This course introduces students to the Information Technology (IT) hardware and systems software concepts. Topics include: computer hardware, operating systems, system software, hardware & software integration, operating procedures, system performance, security/safety, and compatibility. Student labs and hands-on activities will include: Windows, Unix, and Linux systems, system utilities and software tools. Prerequisite: CIS 120.

ITE 285 Scripting and Windows Programming 3 cr
Introduces the fundamentals of windows, event-driven programming using a "visual" computer language. Topics include: event-driven design, interactive programming, use of windows objects, file input and output operations, and using existing Windows DLL and DDE components. Programming projects are required. Prerequisite: CIS 120.

ITE 370 Advanced Application Development 3 cr
This course explores advanced topics in visual applications development. Emphasis is placed upon developing increased program functionality and connectivity with local and remote databases. Other topics: using SQL to construct queries, integrating programming components and libraries, and application development and testing methodologies. Programming projects are required. Prerequisite: CIS 324.

ITE 375 Publishing for the World Wide Web 3 cr
Presents an opportunity for students to use high-level development tools to produce documents for the World Wide Web. Students will consider the following: design and delivery issues of Web pages, multimedia Web publishing, creating interactive Web pages, creating and supporting database enabled Web applications using Java, CGI, Perl, or other current languages. Prerequisites: Professional Component Standing and CIS 321.

ITE 380 Multimedia Production 3 cr
This course covers the models and tools of multimedia development and production. Development models include: message analysis, audience analysis, and media formats. Technical issues include: data formats, data interoperability, and hardware concepts. From a practical perspective, students will develop a multimedia project. Prerequisite: Professional Component Standing.

ITE 382 Network Administration 3 cr
This course examines the network and database administrator functions in an organization. Students study the functions required of an administrator to facilitate the use of the environment while securing the resources. Various methods and software products will demonstrate the areas of access and security. Prerequisites: Professional Component Standing and CIS 321.

ITE 384 Network Infrastructure Systems 3 cr
This course focuses upon the concepts of network hardware systems that provide interconnection of communication devices. Topics include: network architectures & technologies, concepts such as routing, addressing, and network protocols (TCP/IP and others). Students will be required to setup, configure, and manage wired and wireless network equipment such as switches, routers, access points, and gateways. Prerequisites: Professional Component Standing and ITE 382.

ITE 453 Web Site Management 3 cr
This course addresses the design, establishment, and implementation of a World Wide web site. Issues addressed are: definition of the site, establishment of a physical site, choice of a Web server, determination of software requirements, implementation details, security, management, and monitoring of the site. Prerequisite: ITE 375.

ITE 472 Advanced Data Management 3 cr
This course extends previous material presented in the earlier database courses. The focus here is on the management of data and the technologies which specifically targets mass data storage with a view to on-line and after-the-fact examination of data to acquire new insights. The major topics include: data warehouse planning, data warehouse models, and supporting software, data mining concepts and tools, creation of data mining models for the tools and matching the tool to the task. Prerequisites: Professional Component Standing and CIS 324.

ITE 474 Human Computer Interface 3 cr
Students will study the concepts of human-computer interaction and interface design. Topics include: detailed human-computer interaction concepts, modern graphical user interface (GUI) design conventions, interface design models, and interface usability testing. Students will use rapid-prototyping tools to develop and test a typical user interface. Prerequisites: Professional Component Standing and ITE 370.

ITE 475 Information Technology Project Management 3 cr
This course examines the principles and techniques of project management from an information technology perspective. Topics included are: project planning, scheduling, resource allocation, and project management software tools. There is a specific focus on management of software projects, integrating the principles of information systems/needs analysis, software engineering, risk management, and change management. Both the technical and behavioral aspects of project management are covered. Prerequisite: Professional Component Standing.

ITE 476 Network Security Management 3 cr
This course examines network and web security issues including: risks & threats, system access points, hardware & software defense methods, and organizational security policies. Labs will require students to analyze systems for potential threats, implement security procedures, monitor systems for security breaches, and institute recovery or repairs. Prerequisites: Professional Component Standing and ITE 384.

ITE 480 Needs Assessment and Technology Evaluation (W) 3 cr
This course presents methodologies for assessing technological needs in support of organizational information requirements. Students learn the next logical step is a formal means of evaluating a given technology. Major topics of the course are specifying organizational needs, identifying potential technologies, evaluating potential benefits, and assessing the organization’s ability to utilize the technology. Students will examine planning for technological change and strategic implementation of the change. Prerequisites: Professional Component Standing and EH 372.

ITE 482 ITE E-Commerce Systems 3 cr
This course examines the tools and techniques of electronic commerce on the World Wide Web. Interaction with the user and the enterprise is examined from the perspectives of: security, data integrity, and performance. Students will be required to complete a project that simulates Web-based e-commerce. Programming skills are required. Prerequisite: ITE 453.

**ITE 484 Advanced Network Management 3 cr**  
This course explores advanced network management issues including: developing/designing network implementation strategies, managing users & data, providing operational support & help-desk, developing network use policies, developing network recovery procedures. Labs will require that students manage an operational network that provides typical network services and experience the day-to-day problems that network administrators encounter. Prerequisites: Professional Component Standing and ITE 382. Prerequisite: Senior Standing and CIS 497.

**ITE 485 ITE Senior Demonstration Project 3 cr**  
A senior capstone project course that utilizes teams and/or individuals working from problem requirements and specifications to produce a solution. This requires exploration of suitable information technologies to produce a solution that improves the problem situation. Students/teams will analyze, plan, and report on the project and implement a prototype.

**ITE 490 Information Technology Special Topics 3 cr**  
Advanced selected topics in information technology. Prerequisite: Permission of the ITE Coordinator.

Discussion and investigation of particular topics related to Instructional Design and Development.

Course serves as an overview and review of essential written communication skills needed by instructional design professionals.

Discussion and investigation of history, current trends, and issues in instructional design and their implications for education and training.

Course focuses on macro-level design and development of large-scale instructional systems. Course emphasizes needs assessment, proposal writing, methods of analyzing organizational dynamics, and diffusion of institutional innovations. Students identify a problem in a large instructional system, propose a solution, and develop a detailed plan for solving the problem.

This course affords students the opportunity to apply a variety of well-established and emerging instructional design and development models. Prerequisites: ISD 621.

In this course, students explore the use of an assortment of instructional strategies to meet diverse learning needs.

Students collaborate with a graduate faculty member who is conducting research in the area of instructional design and development. May be repeated for credit. Requires permission of instructor.

Introductory course that focuses on a recognized model of instructional design. Includes emphasis on instructional analysis, instructional objective, performance assessment, instructional strategies and sequences, and formative evaluation.

Application of advanced instructional design models and procedures for needs assessment, instructional development, and evaluation in various instructional and learning environments using current learning tools.

Analysis of needs assessment procedures related to the development of instructional systems. Considers a variety of needs assessment models. Students apply needs assessment models in selected settings.

Provides students with practical methods of analyzing and solving human performance problems. Emphasis is placed on development of both noninstructional and instructional interventions.

This course will develop knowledge and competencies in the coordination of large instructional projects. It is designed to enhance skills in the basic functions of instructional project coordination: planning, organizing, controlling, and directing.

A course for persons interested in the use of the computer to present instructional materials to students. Current learning theory as it pertains to authoring will be discussed. Prerequisite: ISD 621.
This course will present techniques for the integration of instructional design theory and practice into the newer delivery systems including those using video and digitized media.

**ISD 652 Technology-Based Instruction 3 cr**
This course is a continuation of ISD 651. It concentrates on the additional skills and software necessary to develop and produce an original interactive instructional product.

**ISD 653 Developing Online Instruction 3 cr**
Developing online instruction using course management tools, multimedia technologies, and instructional design principles. Prerequisite: ISD 621.

**ISD 656 Training Interventions 3 cr**
Practical experience in designing and implementing facilitator-led training in various large-scale organizations.

**ISD 680 Emerging Technologies 3 cr**
Course introduces students to emerging technological breakthroughs in education and training settings especially emphasizing the effects of future technologies.

**ISD 682 Impact of Emerging Technologies 3 cr**
This course examines the impact of new digital technologies in education and training and prepares educators to use digital approaches in their institutions.

**ISD 694 Directed Study and Research 3 cr**
Students explore problems and issues of special interest or significance in Instruction Design. Not more than three semester hours may be accepted toward degree program.

**ISD 695 Internship (Doctoral) 3-6 cr**
A supervised learning experience in an actual or similar setting to that which instructional designers or media administrators are employed.

**ISD 696 Internship: Masters and Doctoral 0 cr**
The internship is a supervised learning experience in an actual or similar setting to that in which instructional designers or media administrators are employed. Prerequisite: Approval of internship coordinator.

**Instructional Design and Development Program**

**College of Education**

</tr>
</tbody>
</table>
Second of a two-semester sequence designed for students in the first year interdisciplinary curriculum. Detailed exploration of the fundamentals of microbiology and immunology, developmental biology, integrative systems physiology, and mechanisms of drug action prerequisite to advanced study of basic medical sciences. Didactic lectures will be complemented with discussions of the literature. Prerequisite: Fundamentals of Basic Medical Science I IDL 580 Minimum Grade of "C".

**IDL 590 Interdisciplinary Special Topics**  1-3 cr
In depth tutorial exposure to specific interdisciplinary topics in Basic Medical Sciences.

**IDL 594 Interdisciplinary Directed Studies**  1-6 cr
Directed research study under the direction of a member of the graduate faculty. This course should be taken by students who have not yet identified a major professor in Basic Medical Sciences.

**IDL 630 Lung Biology**  4 cr
This course introduces an advanced level of lung physiology. An understanding of fundamental lung development, anatomy, and cell and organ physiology is emphasized. The course consists of lectures and written assignments and essay exams. Reading assignments are from the primary literature. Prerequisite: Graduate level IDL 580 Minimum Grade of "C" and Graduate level IDL 581 Minimum Grade of "C".

**IDL 631 Lung Pathobiology**  4 cr
This course builds on an in-depth understanding of normal lung biochemistry, cell biology, pharmacology, and physiology to examine lung disease. Emphasis is given on understanding mechanism(s) underlying the genetic, cell biology, anatomy and physiology of disease development and progression. Current therapeutic interventions are discussed. Clinical correlations are utilized to track signs and symptoms of specified diseases, and provide a framework for treatment options. The course consists of lectures and written assignments and essay exams. Reading assignments are exclusively from the primary literature. Prerequisite: Graduate level IDL 630 Minimum Grade of "C".

**IDL 635 Advanced Signal Transduction**  4 cr
This course builds on signal transduction topics discussed in the Fundamentals course (IDL 580, 581). The mechanisms of more generalized signaling pathways (e.g., G-protein coupled pathways) to specific signaling pathways (e.g., TGF/BMP family) will be discussed. Signal transduction pathways will be examined using classic literature references, from the molecular details of pathway components to the effects on the organ system. The course consists of lectures, student presentations, and essay/problem solving examinations. Prerequisites: Graduate level IDL 580 Minimum Grade of "C" and Graduate level IDL 581 Minimum Grade of "C".

**IDL 640 Statistics and Experimental Design in Biomedical Research**  2 cr
This course covers statistical analysis, logic and hypothesis-driven experimental design in biomedical research, utilizing a combination of lectures, weekly practical data sets or written assignments, and student presentation.

**IDL 656 Research Seminar in Lung Biology**  1 cr
Students and faculty present a research topic for discussion before members of the Center for Lung Biology. The presentations are usually scheduled on a rotational basis. The student may present research data for critique by the faculty.

**IDL 667 Cancer Biology Research Seminar**  1 cr
Students and faculty present a research topic for discussion before members of the department. The presentations are usually scheduled on a rotational basis. The student may present research data for critique by the faculty.

**IDL 676 Literature Report in Lung Biology**  1 cr
Students and faculty participate in a supervised reading of the current literature and meet once a week to discuss the selected article or topic and its relation to ongoing research. The goal of this course is to maintain the faculty's and students' level of information at a "state of the art" in both methods and theory in the discipline and to develop critical skills in reviewing the literature of lung biology.

**IDL 799 Research-Dissertation**  1-6 cr
Independent research by the student under the sponsorship of the graduate faculty in individual departments in the Basic Medical Sciences. Prerequisite: Approved formal research proposal.

This course introduces students to the basic structural components of the global system, including the nation-state system and world economy, and explores the major schools of thoughts in such areas as security, economic prosperity and development, international law, gender, and environmental studies. The course helps students understand the complex and interlinked issues facing global society and view the U.S. within a broader context.

Variable content course focusing on a particular nation or region of the world. Course offers a multidisciplinary introduction into the people, society and politics.

Study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies. Prerequisite: IS 100.

An international exchange program for University of South Alabama students. Grading is S/U. Prerequisite: Permission of the IS Director.

Advanced study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies. Prerequisite: IS 100.

Advanced study of selected topics in international studies from a comparative perspective. May be repeated for credit when content varies. Prerequisite: IS 100.

Directed research in the field of international studies. Prerequisite: Permission of the International Studies Director.

Practical learning experiences through occupational or professional work with an approved international organization, governmental agency, or international business. Prerequisite: Permission of the International Studies Director.

[International Studies Program]

[College of Arts and Sciences]
LEISURE STUDIES (LS)

LS 191 Orientation to Leisure Studies 3 cr
An introduction to the Leisure Services profession; its history, philosophies, and the psychology of leisure in the changing society. Includes an orientation to community leisure agencies.

LS 194 Leisure Crafts 3 cr
Adapting various crafts media for use in recreational programs. Design and execution of creative crafts with emphasis on use of indigenous materials.

LS 276 Introduction to Sport Management 3 cr
A study of the activities, organizations, and businesses involved in producing, facilitating, and organizing sport, fitness, and recreation related products and services.

LS 280 Hospitality Services 3 cr
A study of hotel/motel/resort services. Includes an overview of recreation services, food and beverage, guest services, marketing, housekeeping, maintenance, and fiscal concerns.

LS 292 Outdoor Recreation/Adventure 3 cr
A classroom introduction to a wide range of outdoor recreation pursuits with an emphasis on safety, minimum impact, and “how to get started” in outdoor activities like backpacking, canoeing, rafting, car camping, hiking and others.

LS 295 Introduction to Therapeutic Recreation 3 cr
Introduces students to the field of Therapeutic Recreation, including the history, foundations, and philosophy of the field. In addition, characteristics and leisure needs of numerous special populations will be introduced.

LS 297 Campus Recreation 3 cr
Planning, organization, and leadership of intramural and community sports activities.

LS 298 Field Work in Leisure Services 3 cr
Opportunity to gain leadership experiences in leisure service settings.

LS 375* Administration of Leisure Services (W) 3 cr
Management and organization of leisure services agencies, managing authorities, legal basis, fiscal aspects, personnel and staffing procedures, and community relations.

LS 391 Leadership in Leisure Services (W) 3 cr
Theories, principles, and philosophies of leadership as applied to the delivery of Leisure Services. Also includes a study of programming principles and techniques.

LS 395 Therapeutic Recreation Process 3 cr
This course includes the following aspects of Therapeutic Recreation in treatment settings: Client assessment, treatment planning, documentation, provision of treatment interventions and evaluation.

LS 397 Intergenerational Recreation and Wellness 3 cr
This course is an intergenerational experience combining theory and practice in aging and recreation. Students utilize the therapeutic recreation process (assessment, program planning, implementation and evaluation) with older adults who have special needs, to promote health, wellness, and rehabilitation.

**LS 467** Therapeutic Recreation for Physical Disabilities 3 cr
This course will familiarize the student with the etiology, characteristics and course of treatment provided to individuals with various physically disabling conditions and promote awareness of the role of Therapeutic Recreation in the physical rehabilitation process. A field work component of 40 hours is required.

**LS 469** Therapeutic Recreation for Psychological Impairments 3 cr
This course will familiarize students with the etiology, characteristics, and course of treatment provided to individuals with psychological impairments and developmental disabilities and promote awareness of the role of Therapeutic Recreation in the habilitation/rehabilitation process. A field work component of 40 hours is required.

**LS 472** Legal Issues in Sports and Recreation 3 cr
This course introduces students to the legal liabilities, negligence, contractual agreements, and risk management issues pertaining to the areas of sport and recreation.

**LS 479** Leisure and Aging 3 cr
This course will provide an overview of the changes affecting the psychomotor, cognitive and affective domains of the aged; implications of leisure and retirement; and institutional and community settings that provide leisure services for the older adult.

**LS 480** Private and Commercial Leisure Services 3 cr
A survey of private and commercial leisure services including a study of resort operations.

**LS 481** Tourism and Resort Development 3 cr
Tourism and recreational travel; nature of resort development and its effect on generating tourist flow to and within regions. Economic importance of both tourism and resort development.

**LS 483** Issues in Leisure Services 3 cr
A study of the major trends, problems and issues in various areas of Leisure Studies.

**LS 486** Sport & Recreation Facility Planning & Design 3 cr
This course will familiarize students with the basic methodologies, objectives, and principles applied to the design and strategic planning of sport and recreation service facilities. It includes the examination and implementation of guidelines used to create a facility planning brief.

**LS 490** Special Topics 3 cr
Selected topics in leisure services. Topics will vary according to needs and interests of students. Course may be repeated for credit when content varies.

**LS 492** Outdoor Education and Interpretation 3 cr
Theories, philosophies, and principles of outdoor education with emphasis on the development of interpretive programs.

**LS 496** Sport and Recreation Resource Management 3 cr
A study of facility resource management in sport and recreation. Applies the functions of management to the supervision, operation, development, evaluation, and financing of sport and recreation facilities in public and private environments.

**LS 498** Internship in Leisure Services 12 cr
Supervised experiences in an assigned leisure services or related agency. Requires approximately 500 hours of documented work.
LS 569  Leisure in Modern Society  3 cr
An exploration of the economic, religious, political, and sociocultural factors which influence leisure behavior in modern society.

LS 570  Procedures in Therapeutic Recreation I  3 cr
Procedures in Therapeutic Recreation I was designed to prepare the graduate student for the more complex areas of present day professional issues and services provision including: an in-depth analysis of historical and philosophical influences, therapy and facilitation techniques, quality management, ethics, standards of practice, clinical supervision, health care reimbursement and professional credentialing.

LS 571  Procedures in Therapeutic Recreation II  3 cr
This course is designed to familiarize the graduate student with the Therapeutic Recreation Process. Content areas will include: analysis of assessment procedures, sources and processes, treatment planning, interdisciplinary procedures, medical record documentation, activity-based interventions and evaluation of program effectiveness.

LS 573  Issues and Trends in Leisure Services  3 cr
An in-depth examination of current issues and trends in Leisure Services with respect to their impact on the leisure service profession and society.

LS 576  Conceptual Foundations of Therapeutic Recreation  3 cr
Designed to introduce the student to the field of Therapeutic Recreation including philosophy, history, current issues and trends, administration and program development. The course will also provide an overview of various disabling conditions.

LS 580  Internship  3 cr
An individually planned practicum experience in an approved leisure services setting. Requires a minimum of 150 work hours per three hours of credit. HPELS advisor approval required.

LS 585  Management of Leisure Services  3 cr
An in-depth examination into the research, foundations, and functions in the delivery of leisure services, including current practices in management of fiscal procedures, budgeting and grants.

LS 590  Special Topics  3 cr
A varying-content course treating various aspects of Leisure Services. May be repeated once for credit when course content varies.

LS 591  Travel and Tourism  3 cr
A survey course designed to provide students with an overview of travel and tourism as an area of study. Discussions will center on tourism at the macro (regional and national) level. Tourist behavior, the social, environmental, and economic impact of tourism will be highlighted.

LS 592  Outdoor Recreation/ Adventure Programming  3 cr
Study and practicum in popular adventure activities (e.g., shooting sports, angling, backpacking, orienteering, rock climbing, canoeing). Emphasis on attitudes, skills, environmental awareness, teaching methodology, and principles of group leadership as they relate to adventuresome activities.

LS 596  Special Projects  3 cr
An individually planned experience whereby a student conceptualizes and researches a special problem relevant to the leisure services profession. Students will share their experiences in a weekly seminar (non-thesis option). HPELS advisor approval required.

*Only for students admitted to candidacy.*

<th>Description</th>
<th>Prerequisite(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 300</td>
<td>Management Theory and Practice</td>
<td>3 cr</td>
<td>Theories of organizational structures, practices, and behavior, and the effective leadership and management of organizations. Emphasis on leadership and developing patterns and strategies of organization management in a dynamic environment as affected by the interaction of material and human resources using the technique of applied social and management sciences.</td>
<td>sophomore standing.</td>
</tr>
<tr>
<td>MGT 305</td>
<td>Organizational Communication (W)</td>
<td>3 cr</td>
<td>A study of written and oral communication in organizations. Emphasis is given to communication theory, including organization flows and barriers to organizational communication. The preparation of neutral, negative, and persuasive written messages as well as formal written reports is covered in depth. In addition, oral presentations and employment interviews are discussed.</td>
<td>EH 101, EH 102 with a minimum grade of &quot;C&quot;.</td>
</tr>
<tr>
<td>MGT 310</td>
<td>Legal Environment of Business I</td>
<td>3 cr</td>
<td>A study of the global legal environment in which contemporary American business functions, including a review of legal thought and ethical considerations and the foundations and impacts of governmental regulation in areas such as labor and employment, environmental concerns, consumer protection, and antitrust. Contemporary issues, domestic and international concepts and institutions, and social forces that shape the legal environment are emphasized.</td>
<td>junior standing.</td>
</tr>
<tr>
<td>MGT 311</td>
<td>Legal Environment of Business II</td>
<td>3 cr</td>
<td>An advanced treatment of the law of agency, commercial transactions, business organizations, property, negotiable instruments, secured transactions, professional liability, debtor-creditor relations, including application sections of the Uniform Commercial Code.</td>
<td>MGT 310.</td>
</tr>
<tr>
<td>MGT 325</td>
<td>Operations Management</td>
<td>3 cr</td>
<td>Addresses concepts, problems, and managerial approaches applicable to the management of manufacturing and service operations. The course will examine the strategic and tactical considerations that are involved in creating a systematic framework that supports the creation of competitive advantages through effective operations and the production of high quality products. Topics covered include the role of operations in the overall organization, operations strategy development and implementation, product design and process selection, location and capacity planning, facilities' layout, quality management, inventory management, production planning, scheduling and control, and project management. An important component of the overall course is the incorporation of computer applications for problem solving and decision making in operations.</td>

MGT 345 Small Business Management 3 cr
Management of small enterprises at the business level and the functional level. This course focuses on skills and techniques specifically used for small businesses and on how skill and techniques used by larger businesses can be modified for use by small businesses. Topics include small business strategies, family businesses, franchising, purchasing a business, asset management, and human resources management for small firms. Term projects such as feasibility studies, case studies, and small business simulations allow students to apply the concepts and principles to small business management situations. Prerequisites: MGT 300, ACC 212.

MGT 351 Human Resource Management 3 cr
Principles, policies, and practices used to develop a sound human resource management program in the business organization. Among the topics included are job analysis, employment, organization development, employee development and evaluation, wage and salary administration and labor relations. Prerequisite: MGT 300.

MGT 390 Total Quality Management 3 cr
Total Quality Management (TQM) is a management philosophy which emphasizes customer focus, continuous improvement, and employee involvement throughout the organization. This course is an introductory course which examines these components and their integration into a comprehensive quality management system. Prerequisites: MGT 300, MGT 325.

MGT 430 Operations Research 3 cr
Reviews selected operations research concepts: nonlinear optimization methods, linear programming; dynamic programming; model building; and simulation methods. The student is expected to understand the concepts of operations research and to be able to use computer procedure to solve problems. Prerequisite: MGT 325.

MGT 441 Service Operations 3 cr
This course will provide students the opportunity to learn about service operations management, including service strategies and operations considerations and imperatives for service enterprises, and how service systems are structured and operated. Students will also learn about various tools and techniques for managing service operations such as how to forecast service demand, determine capacity requirements, schedule activities, coordinate operations, plan and schedule service activities, and evaluate system performance. Prerequisite: MGT 325.

MGT 450 Organizational Staffing 3 cr
A detailed study of the function of employee staffing in a modern work organization. Emphasis on job analysis, criterion development, development and use of employment tests, validation of selection techniques, and statistical methods for making fair employment decisions. Course work includes a comprehensive group staffing project. Prerequisites: MGT 340, MGT 351, BUS 245.

MGT 451 Employee Training and Development 3 cr
An applied course which details the training and development function. Content areas of job analysis, training needs analysis, training program development and implementation, and program evaluation will be incorporated in a comprehensive training and development project. Prerequisites: MGT 340 and MGT 351.

MGT 452 Labor and Employment Law 3 cr
Analysis of significant legal issues in labor and employment law, including labor-management relations, wage and hour laws, safety and health laws, retirement, welfare, and privacy laws. Emphasis on federal legislation and developing case law. Prerequisites: MGT 310 and MGT 351.

MGT 454 Compensation Administration 3 cr
A study of the fundamentals of compensation administration in organizations. Topics include job analysis, KSA determination, job evaluation, wage structure development, incentive pay systems, legal aspects of compensation and new developments in compensation. Comprehensive course project required. Prerequisite: MGT 351.

MGT 455 Labor-Management Relations 3 cr
Course covers the organizing, negotiation, and contract administration phases of union-management relations. An analysis of current labor-management relations issues and a major collective bargaining simulation are involved. Prerequisite: MGT 351.

**MGT 456  Current Issues in Human Resource Management  3 cr**
A capstone course in human resource management. The seminar format covers state-of-the-art issues in human resource management which are new or not well developed in existing texts. Assignments include at least one major paper based on library research and oral presentations in class. Students work closely with the professor in the preparation of both written and oral communications. Prerequisites: MGT 351, MGT 450 and MGT 451.

**MGT 460  Organization Development and Change  3 cr**
Provides insight into theory and practice of organization change and development. It bridges the gap between theory and practice and emphasizes the process of improving both organizations and individuals. Topics covered encompass understanding organizations and how they change, intervention strategies, and methods for improving organizations, quality of work-life approaches and strategic considerations in system-wide change. Prerequisites: senior standing, and MGT 300.

**MGT 462  Negotiation and Dispute Resolution in Business  3 cr**
This course provides theoretical background and practical applications in business negotiation, conflict management and alternative dispute resolution. Areas covered include positional and interest-based bargaining, business and employment arbitration, organizational conflict management strategies, mediation, and effective communications for negotiators and ADR participants. Prerequisite: MGT 300.

**MGT 465  New Venture Creation  3 cr**
How new businesses are organized and planned. Objectives are: 1) understanding the knowledge, skills and abilities required of entrepreneurs, 2) creating and developing opportunities for new ventures, and 3) planning resources to convert those opportunities into businesses. Students work in teams to develop a business plan for a new venture they have chosen. Prerequisites: MGT 300, FIN 315, MKT 320.

**MGT 470  High Performance Organizations  3 cr**
This course examines the role of organization culture, leadership, employee involvement, work teams, and human resource practices in developing and sustaining high performance organizations that practice the principles of total quality management. Prerequisites: senior standing, and MGT 300.

**MGT 483  Quality Analysis, Improvement, and Control  3 cr**
The course focuses on the measurement and evaluation of quality and performance, the formulation of approaches to improve quality and performance and the measurement of improvement. A variety of assessment and improvement approaches such as Kaizen, Six Sigma, and continuous improvement will be covered. Statistical analysis, process control, benchmarking, and reengineering will be used for analysis. Prerequisite: MGT 325.

**MGT 485  Business Policy in a Global Economy  3 cr**
The culmination course in business and management education. Interdisciplinary and global in nature, the course uses the case method to develop a top management perspective in which all business disciplines are integrated into the organization’s effective total functioning. Prerequisites: Seniors who have completed all core courses, petitioned for graduation, and are beginning the final semester.

**MGT 486  Undergraduate Comprehensive Exam  0 cr**
A corequisite course with MGT 485 with no credit hours which includes an undergraduate comprehensive business exam.

**MGT 490  Special Topics  3 cr**
Designed to provide senior students enrolled in the Mitchell College of Business an opportunity to study selected topics of particular interest. Prerequisite: senior standing. (A student may count no more than three hours of Special Topics in the concentration).
MGT 492 Seminar: Management 3 cr
Designed to help the students bridge the gap between the management theory and the realities involved in the practice of management. Topics include 1) development of the human, social, and political skills of the student as an individual, 2) business ethics, 3) global management issues, and 4) current trends in society that affect business and management. Prerequisites: MGT 300 and senior standing.

MGT 494 Directed Study in Management 3 cr
Primarily designed to give superior students an opportunity to study some phase of management of particular interest. Conferences, a bibliography, and a formal research report are required. Prerequisites: junior or senior standing, a cumulative GPA of 2.5 or better, and approval of the department chair following the evaluation of the written proposal.

MGT 496 Management Internship 3 cr
The internship program is designed to give students practical experience in their field of study. Students complete directed projects under the supervision of a faculty advisor. No more than three hours of internship may be counted toward a degree in the Mitchell College of Business. Prerequisites: junior or senior standing, a major in the Department of Management, a cumulative GPA of 2.5 or better, and approval of the department chair following the evaluation of a written proposal.

MGT 497 MBA Statistics Survey 3 cr
An examination of basic statistical concepts used in business analysis. Topics include fundamental of probability, sampling, statistical estimation, test of hypothesis, analysis of variance, and multivariate analysis. Emphasis is placed on the use of statistical techniques for business decision making. Available only to college graduates planning to enter MBA or MAcc programs.

MGT 502 Organizational Behavior in Contemporary Organizations 3 cr
A study of the behavioral approaches to management emphasizing individual and group behavioral concepts, leadership, motivation, communication, conflict resolution, and recognizing the multicultural reality of contemporary organizations.

MGT 515 Business Policy and Strategy 3 cr
An integrative problem-solving course focusing on top management and the total organization, and requiring students to use conceptual and analytical tools acquired in the various functional areas to address issues related to the formulation and implementation of policy and strategy in a global economy. Prerequisites: All MBA core courses.

MGT 520 Human Resource Management 3 cr
Provides an overview of the human resource function in the business firm. Topics covered include human resource planning, recruitment, selection, compensation administration, employee training, management development, employee involvement, and organization development. Prerequisite: MGT 502.

MGT 525 Organizational Change and Development 3 cr
Course focuses on the forces causing organizational change and the process of managing change. Explores the concepts, values, processes, technology, and strategies of organizational change and development.

MGT 540 Survey of Quantitative Methods 3 cr
The application of the resources of Operations Research and Management Science to develop managerial decision support information. Utilization of computerized tools to support computational operations and interpretation of information are emphasized.

MGT 560 Business Research 3 cr
The collection, analysis, and presentation of research information for purposes of business decision making. The student will be required to prepare a research proposal, collect the relevant data, perform the required quantitative analysis, and prepare a final research report.

MGT 590 Special Topics 3 cr
Designed to provide graduate students an opportunity to study selected topics. Prerequisite: Approval of department chair. A student may count no more than three hours of Special Topics in the M.B.A. degree program.

**MGT 594 Independent Study in Management**  
3 cr  
Readings and research on selected topics. Conferences and formal research report required. Prerequisite: Approval of department chair.

**MGT 599 Graduate Comprehensive Exam**  
0 cr  
A corequisite course with MGT 515 with no credit hours which includes a graduate comprehensive business exam.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAS 511</td>
<td>Marine Analytical Instrumentation</td>
<td>3 cr</td>
</tr>
<tr>
<td></td>
<td>The course will provide an overview of the major analytical tools available to marine scientists in the laboratory. The focus will be three-fold: (1) to provide an introduction to the theory behind major classes of instrumentation, (2) to provide an overview of specific applications of these tools in marine science, and (3) to provide a 'hands-on' working knowledge of the instrumentation available at the DISL. Prerequisite: Undergraduate degree in science with sufficient Chemistry and Biology background.</td>
<td></td>
</tr>
<tr>
<td>MAS 520</td>
<td>Marine Resource Management</td>
<td>2 cr</td>
</tr>
<tr>
<td></td>
<td>Designed to acquaint graduate students concerned with management of marine resources: development of legislation, evolution of policy, legal processes, impacts on human resources. The emphasis will be placed on living resources. Prerequisites: Admission to Graduate School.</td>
<td></td>
</tr>
<tr>
<td>MAS 521</td>
<td>Marine Conservation Biology</td>
<td>2 cr</td>
</tr>
<tr>
<td></td>
<td>The intent of this course is to develop the student's understanding of conservation biology, by building upon the foundations provided in introductory marine ecology class. Assigned readings will be selected from the widest possible range of topics in marine conservation. In some cases, readings will come from disciplines outside the marine sciences. Students will be required to develop a topical term paper and give a short presentation to their class on their chosen topic.</td>
<td></td>
</tr>
<tr>
<td>MAS 530</td>
<td>Marine Microbial Ecology</td>
<td>3 cr</td>
</tr>
<tr>
<td></td>
<td>A general survey of the types of microorganisms found in the marine environment. Emphasis will be on the interaction of microorganisms with each other and with their environment. In particular, the role of microorganisms in carbon cycling and biogeochemical processes will be stressed. Readings from current literature will expose students to the latest techniques and research.</td>
<td></td>
</tr>
<tr>
<td>MAS 531</td>
<td>Physiological Ecology of Marine Microalgae</td>
<td>3 cr</td>
</tr>
<tr>
<td></td>
<td>Microalgae are a fundamental component of marine ecosystems, whether as freely-dispersed plankton, sediment-associated microphytobenthos, epiphytes growing over submerged aquatic vegetation, or as coralline endosymbionts. This course will cover the acclimative responses to variations in the availability of light, nutrients and temperature; and the stress responses that are engendered when variability in these environmental factors exceeds the organisms' acclimative capacity. The course will emphasize the commonality of these processes across taxa as well as considering taxon-specific responses that allow different groups to exploit their niches. The course will also cover methods such as molecular biology, active fluorescence and remote sensing that can be used to investigate population dynamics and growth over a range of spatial and temporal scales.</td>
<td></td>
</tr>
<tr>
<td>MAS 540</td>
<td>Sediment Biogeochemistry</td>
<td>3 cr</td>
</tr>
<tr>
<td></td>
<td>To provide students with an in depth knowledge of sediment biogeochemical processes and the implications thereof on nutrient cycles, plant production and animal distribution. Emphasis will be on early diagenesis in coastal sub-tidal and wetland sediment systems. Prerequisite: Chemical Oceanography or permission of instructor. Fee.</td>
<td></td>
</tr>
<tr>
<td>MAS 548</td>
<td>Marine Biogeochemical Processes</td>
<td>2 cr</td>
</tr>
</tbody>
</table>
The course will examine the interaction between biological, chemical and geological processes in the marine environment. This will be done by first reviewing the cycling of several of the major elements (e.g. carbon, nitrogen, phosphorous, sulfur, and iron) in the sea, and then examining how these cycles differ between various marine ecosystems (e.g. open ocean surface waters, estuaries, coral reefs, seagrass systems and tidal marshes). The focus will be on developing an understanding of how biogeochemical processes serve to regulate ecosystem function in these various habitats. Prerequisite: Organic chemistry, geology, and marine ecology.

MAS 550 Fisheries Techniques 3 cr
Students are exposed to a detailed, semi-quantitative introduction to current biological and technological methodologies for studying fishes and aquatic habitats, with emphasis on study design and integration across sub-disciplines. Prerequisites: Ichthyology (or Marine Vertebrate Zoology) or an introductory course in Fisheries. Introductory Statistical Methods would be valuable but not required.

MAS 551 Quantitative Methods in Fisheries and Ecology 3 cr
Ecological and fisheries research has progressed beyond qualitative inference and is continuing to adapt more quantitative methods. A diversity of modeling and experimental approaches exists for ecologists and fisheries scientists. This course is designed to familiarize the students with the most commonly used quantitative approaches. Prerequisite: Permission of instructor.

MAS 555 Fisheries Oceanography 2 cr
Students examine the relationship between fish life history, recruitment dynamics and harvest potential, and local-, meso- and global scale oceanographic processes. Students are exposed to the evolution in thinking on the role of interaction between biology and physics relative to fish and fisheries. This "readings" type course, by design, is geared toward student participation at an advanced and interactive level.

MAS 570 Ocean Variability and Global Change 2 cr
This course will examine large scale, spatial and temporal variability in the Earth/ocean system as evidenced by present-day and paleo records. Variability such as the El Nino Southern Oscillation will be covered. It will critically evaluate the evidence for and the consequences of modern global change as it pertains to the marine environment. Emphasis will be placed on potential changes in climate, biogeochemical cycles, hydrologic cycles, eutrophication/species diversity, and UV light fluxes. Prerequisites: Permission of one of the instructors.

MAS 571 Marine Hydrodynamics/ Biomechanics 4 cr
To present an introduction to the importance of small scale fluid dynamics, thermodynamics, and solid mechanics to marine science and to present techniques for measurement of important parameters. Prerequisite: Upper-Division/Graduate standing in Biology or Marine Sciences.

MAS 572 Estuarine Hydrodynamics 3 cr
This course will address physical processes in estuarine environments. With physical processes in estuaries occurring in various timescales, discussions will proceed in terms of three different time scales: turbulent, tidal, and residual time scales. Emphasis will be placed on mass transport by physical transport process (water movement). Prerequisite: Physical Oceanography or permission of the instructor.

MAS 573 Oceanography of the Gulf of Mexico 3 cr
This course provides a survey of the physics, chemistry, biology, geology and meteorology of the continental margins and deep ocean regions in the Gulf of Mexico and adjacent waters. Prerequisite: Permission of the instructor.

MAS 575 Marine Ecology 4 cr
The course covers general ecological principles and how they apply to marine ecosystems. Both open ocean and nearshore waters are considered. Specific topics covered include: adaptations of marine organisms for life in the intertidal vs. subtidal zones; different modes of feeding and reproduction in marine organisms; and the importance of predation, competition, adult/larval interactions and dispersal mechanisms. The second half of the course is devoted to discussion of specific habitats including: coral reefs, mangrove swamps, kelp forests, and hydrothermal vents. Prerequisite: General Biology, Marine Biology, or Oceanography.

MAS 576  Benthic Ecology  2 cr
This course covers the evolutionary history and the ecology of marine benthic communities from the earliest fossils to present. The importance of scale and of proper study design will be considered. Other topics include: predation, competition, adult/larval interactions and dispersal mechanisms. There will be discussion of productivity, and materials cycling in benthic systems. Special topics of students' suggestions conclude the course. Prerequisite: Marine Ecology/or General Ecology.

MAS 579  Coastal Ecosystem Dynamics  2 cr
Coastal Ecosystem Dynamics will allow students to investigate the basic principles of ecosystem structure and function. The course is divided into 2 parts: an instructional phase for learning basics of ecosystem modeling, and a student-led investigation of the structure and function of a variety of coastal ecosystems. This approach will give the student a set of quantitative tools for modeling ecosystems. Also, students will learn to evaluate differences and similarities of energy and nutrient processing in disparate ecosystems. There will be one 2-hr class meeting each week during which students will learn to use the ecological modeling software packages "Ecopath" and "Ecosim". During the initial period, students will "dissect" published models (obtained from the internet) as a mechanism to understand the utility of ecosystem modeling as well as the basics of this particular software. The second half of the course will be devoted to student-constructed ecosystem models. The models will be constructed from data and pathway descriptions in Alongi's 'Coastal Ecosystem Processes' (CPR Press). A synthesis of these models will be constructed and placed on the WWW.

MAS 580  Marine Biogeography and Paleoecology  3 cr
This graduate level course will give students a broad overview of the time course of evolutionary changes in the structure and function of marine ecosystems, and will consider the interacting roles of both historical and current factors as they influence the distribution and abundance of marine organisms. Lectures will be mixed with discussions of assigned readings from the primary literature to stimulate critical thinking about various topics. Prerequisite: An introductory ecology or marine ecology course.

MAS 581  Advanced Marine Ecology  2 cr
This course will improve students' understanding of ecological processes by building upon the foundations provided in an introductory ecology class. Emphasis will be placed on the mechanisms that control the distribution of marine plants and animals at scales ranging from individual organism to the ecosystem. Assigned readings from the scientific literature will cover the entire range of marine habitats and will reflect classical-to-recent thinking on the major concepts and problems in ecological theory. Quantitative laboratory exercises will train students in the design and statistical analysis of marine ecological studies.

MAS 582  Marine Larval Ecology  2 cr
This course introduces the student to the breadth of scientific research involving larvae of marine animal populations. Though a small portion of the course will be devoted to a taxonomic survey of the larval forms of marine species, the vast majority of the course will be process-oriented, often cutting across boundaries between biology, physics and chemistry. The scope of the course will include nutrition and feeding, dispersal and recruitment, bio-energetics, behavior, and biophysical coupling. This course is reading intensive focusing on both historical and topical articles from the primary literature. Prerequisites: Biological Oceanography or Advanced Ecology.

MAS 583  Field Marine Science I  2 cr
The Field Marine Science course will consist of an 11 day field exercise in representative coastal sites in Maine with emphasis on rocky intertidal, kelp bed and eelgrass habitats. Two faculty members will accompany the students, participate in the pre-trip readings and evaluate the product developed by each student. Prerequisite: Marine Biology.

**MAS 587 Seagrass Ecosystems Ecology 2 cr**
A survey of current literature on topics related to the ecology of seagrass ecosystems. Students will read assigned papers to be analyzed in a faculty-lead discussion format. A final research paper will be prepared by each student. Prerequisite: Graduate Standing.

**MAS 588 Field Marine Science II 2 cr**
The Field Marine Science course will consist of an 8-12 day field exercise in representative coastal sites. Faculty members with diverse interests will accompany the students, participate in pre-trip discussions and evaluate the product developed by each student. The course is designed to familiarize students with habitats and research conditions different from those they experience on the Northern Gulf Coast. Field trip locations are selected on the basis of faculty and student interest, economics, and availability of logistic support. Students pay their room and board costs for the field exercise. The course is primarily for graduate students, but advanced undergraduates may enroll with consent of instructor. Both MAS 588 and MAS 583 may be taken for credit when each is taught in a different environment. Prerequisite: Senior undergraduate or Graduate Status.

**MAS 589 Marine Plankton 3 cr**
The course familiarizes the student with the taxonomic breadth of phytoplankton, bacterioplankton and zooplankton in estuaries, coastal seas and open oceans. Though the focus of the course is on taxonomic familiarization, basic biology (including reproduction and feeding) of all major taxa represented in the plankton will be covered. Students will learn fundamental, as well as 'cutting-edge', field, laboratory and statistical techniques. Two hours of lectures each week will be accompanied by two hours of hands-on laboratory work. Prerequisite: Graduate status in one of the physical or biological sciences.

**MAS 590 Special Topics 1-4 cr**
An in-depth tutorial exposure to specific areas in the marine sciences. Credit and title will be arranged to examine the subject matter in an area of current interest to one or a group of students. Specialized topics not currently listed in catalog course offerings. MAS 590 is available to M.S. students - MAS 690 is available to Ph.D. students. Prerequisite: Admission to Graduate School.

**MAS 592 Seminar 1 cr**
Students and faculty meet weekly in an interactive discussion of current literature in marine sciences. The focus will be on "state-of-the-art" theories and methodologies as they occur in the primary marine literature. Student presentation is required to receive credit. Prerequisite: Admission to the Graduate Program in Marine Sciences.

**MAS 594 Directed Studies 1-4 cr**
Independent research, not related to the thesis, under direction of a member of the graduate faculty. May be used to learn new techniques or explore research questions of special interest. A maximum of 4 hours may be earned for this course toward the MS Prerequisite: Admission to the Graduate Program in Marine Sciences.

**MAS 599 Thesis 1-8 cr**
Independent research by the student under the sponsorship of a member of the department. Progress reports of the work accomplished are required every six months. Prerequisite: Approved Committee.

**MAS 601 Physical Oceanography 3 cr**
Physical properties and circulation of the world oceans. Topics to be covered include: basic physical laws, properties of heat, water and salt budgets; waves; tides; large and small scale circulations; sea-level fluctuations; interactions of the sea with the atmosphere and land masses; light and acoustics. Prerequisite: Admission to graduate program in Marine Sciences Biological Oceanography or equivalent.

MAS 602 Chemical Oceanography 3 cr
An in-depth examination of the chemistry of sea water and its relationship with biological, geological, and physical processes in the oceans. Coverage of sea water composition, buffering capacity, redox potential, and photochemistry will form the basis for an in-depth analysis of dynamic equilibria of gases, organic materials, nutrients, and trace elements in the sea. Critical evaluation of recent primary literature in chemistry oceanography will be used to illustrate state-of-the-art research approaches.

MAS 603 Geological Oceanography 3 cr
Geological Oceanography encompasses the historic and current consequences of both geophysical and classic geological processes. Included topics are tectonic theory and its development, sedimentary processes in coastal and oceanic provinces, stratigraphy, structural geology, micro-paleontology, erosion, diagenesis and the formation of hydrocarbons. Prerequisite: Admission to the graduate program is Marine Sciences.

MAS 604 Biological Oceanography 3 cr
A comprehensive survey of marine organisms and their interaction including pelagic and benthic communities of the oceans, coastal waters and estuaries. Primary formation of particulate material, feeding processes, kinetics of food webs, biogeochemical processes, patterns of distribution, ecology of biotic systems, human interactions and current concerns are topics to be covered. Prerequisites: Masters degree in one of the physical or biological sciences departments. Special considerations to other students may be granted with permission of the instructor and the student's departmental chair.

MAS 690 Special Topics 1-4 cr
An in-depth tutorial exposure to specific areas in the marine sciences. Credit and title will be arranged to examine the matter in an area of current interests to one or group of students. Specialized topics not currently listed in catalog course offerings. MAS 590 is available to master students - MAS 690 is available to Ph.D. Students. Prerequisite: Admission to Graduate School.

MAS 692 Seminar 1 cr
Students and faculty meet weekly in an interactive discussion of current literature in marine sciences. The focus will be on "state-of-the-art" theories and methodologies as they occur in the primary marine literature. Student presentation is required to receive credit. Prerequisite: Admission to the Graduate Program in Marine Sciences.

MAS 694 Directed Studies 1-4 cr
Independent research, not related to the dissertation, under the direction of a member of the graduate faculty. May be used to learn new techniques or explore research questions of special interest. A maximum of 4 hours may be earned for this course toward the Ph.D. degree. Prerequisite: Admission to the Graduate Program in Marine Sciences.

MAS 799 Dissertation Research 1-8 cr
Independent research by the student under the sponsorship of a member of the department. Progress reports of the work accomplished are required every six months. Prerequisite: Approved prospectus.

<td>Examination of the fundamental concepts and technologies for Customer Relationship Management and Data Mining. Description and analysis of methodologies, techniques, and tools for building and maintaining long term customer satisfaction and loyalty. Prerequisites: MKT 320, MKT 340.</td>
<td></td>
</tr>
<tr>
<td>MKT 374</td>
<td>Buyer Behavior</td>
<td>3 cr</td>
</tr>
</tbody>
</table>
A study of the contributions of the behavioral sciences to the interpretation of market information. Involves the use of behavioral information which pertain to the analysis of consumers and organizational buyers in both domestic and international settings. Prerequisites: MKT 320 and sophomore standing.

**MKT 375 Supply Chain Management** 3 cr
This course encompasses the design and management of the supply chain that collectively provides for the exchange of title, physical movement, and storage activities in marketing, including the use of new technologies. This course examines the role of manufacturers and intermediaries in channel strategies including scope, methods, problems and opportunities of total supply chain coordination. Prerequisites: MKT 320 and sophomore standing.

**MKT 376 Industrial Marketing** 3 cr
Study of the participants, channels, and relationships that govern the behavior of industrial buyers and marketers. Prerequisites: MKT 320 and sophomore standing.

**MKT 377 Pricing Strategies** 3 cr
Pricing strategies encompasses the design and monitoring of an integrative framework for making pricing decisions. The purpose of this course is to synthesize economic and behavioral principles with marketing, accounting, and financial information, and to analyze the various pricing options within legal, market, and corporate constraints. This course covers both theory and application of pricing strategies for national and multinational concerns organized as either profit or non-profit entities. Prerequisites: MKT 320 and sophomore standing.

**MKT 379 Retailing** 3 cr
Study of the management of retail operations. Topics include store location and layout, merchandise buying and planning, legal and ethical issues, promotion, pricing, human resource management, financial planning, information systems, and customer services. Prerequisites: MKT 320 and sophomore standing.

**MKT 380 Integrated Marketing Communications** 3 cr
Study of the fundamentals of marketing communications from a strategic perspective. Examines the roles of and relationships between a variety of marketing communication elements including advertising, direct marketing, database marketing, interactive marketing, media planning, public relations, sales promotion, and personal selling. Prerequisites: MKT 320 and sophomore standing.

**MKT 382 Brand Management** 3 cr
Systematic examination of strategies involved in tangible and intangible product decisions. Issues and strategies involved in identifying and implementing the development of new goods and services for both domestic and international markets are examined in depth, as well as the management of mature products. Prerequisites: MKT 320 and sophomore standing.

**MKT 384 Market Research** 3 cr
Study of information gathering techniques, research methods and procedures used to solve marketing problems in consumer and organizational in both domestic and international markets. Prerequisites: BUS 255 and MKT 320 and sophomore standing.

**MKT 385 Services Marketing** 3 cr
Study of the unique features of services marketing and the service sector. Examines the strategies and activities of organizations and industries whose core product is service, such as sports, hospitality, healthcare, financial services, information technology, and event marketing. Prerequisites: MKT 320 and sophomore standing.

**MKT 477 Export-Import Management** 3 cr
Study of exporting and importing strategies used by both domestic and multinational firms including a concentration in the areas of international pricing, governmental assistance, and channel selection. Emphasis is placed on the best practices and procedures of packing and documentation. Prerequisites: MKT 320 and MKT 336.
MKT 479  Marketing Policy (W)  3 cr
The capstone course for marketing majors. Integration and application of marketing concepts requiring analysis of both domestic and international marketing problems. Prerequisites: Graduating seniors only, MKT 320, MKT 336, MKT 374, MKT 384.

MKT 480  Practicum in E-Commerce  3 cr
Integration and application of technical and business concepts and issues relating to e-commerce. The course requires research, analysis, and implementation of e-commerce plans and strategies. Prerequisites: Senior standing, MKT 355.

MKT 481  Sales Management and Personal Selling  3 cr
Study of the principles and practices of sales management in planning, organizing, directing, and controlling, the sales organization in both domestic and international markets. Included in the course are skills developed through presentation, discussion, and role playing. Special emphasis is directed to recruiting, selecting, training, evaluating, compensating, and supervising sales personnel and sales organizations. Prerequisites: MKT 320 and sophomore standing.

MKT 490  Special Topics  3 cr
Designed to provide senior students an opportunity to study selected topics of particular interest. Prerequisite: Approval of department chair. (A student may count no more than three hours of Special Topics in the Concentration.) Prerequisite: Junior standing.

MKT 492  Seminar: International Business  3 cr
Examines current organizations and practices of domestic and foreign businesses in the international market; problems of trade and foreign government regulation barriers, investment opportunities and economic arrangements and developments, the role of the manager in the rapidly changing economic environments. Prerequisites: Junior standing and MKT 320.

MKT 494  Directed Study in Marketing  3 cr
Primarily designed to give superior students an opportunity to study some phase of marketing of particular interest. Conferences, a bibliography, and a formal research report are required. Grades are awarded on a satisfactory/unsatisfactory basis. Prerequisites: Junior or senior standing, a cumulative GPA of 2.5 or better, and approval of the department chair following the evaluation of a written proposal.

MKT 495  Seminar in Sport and Event Marketing  3 cr
Integration and application of concepts and issues relating to the marketing of sporting, cultural, corporate, historical, and charitable events. Emphasis on planning, promoting, and implementing special events. Prerequisites: MKT 385 and junior standing.

MKT 496  Marketing Internship  3 cr
The internship program is designed to give students practical experience in their field of study. Students will complete directed projects under the supervision of a faculty advisor. No more than three hours of internships may be counted toward a degree in the Mitchell College of Business. Grades are awarded on a satisfactory/unsatisfactory basis. Prerequisites: Junior or senior standing, a cumulative GPA of 2.5 or better, and approval of the department chair, declared major in the marketing department.

MKT 520  Marketing Management  3 cr
The role of the marketing function in the economy. Includes case studies of more complex marketing problems involving the use of accounting, statistics, economics, and sciences.

MKT 521  Business Logistics Management  3 cr
Integration of transportation, inventory, facility locations, informational flow, materials handling and protective packaging activities into a system for management physical flow of inbound and outbound products and materials. The total-cost and total-system approaches are developed in relationship to planning and managing the logistical function within the organization. Prerequisite: MKT 520.

**MKT 524  International Business  3 cr**
Study of the legal, political, financial, sociocultural, and economic, forces that influence trade in the international environment. Prerequisite: MKT 520.

**MKT 525  Marketing in a Global Economy  3 cr**
A conceptual and analytic approach to the identification of global marketing opportunities and the development of action strategies. Case analysis is an important component of this course. Prerequisite: MKT 520.

**MKT 590  Special Topics  3 cr**
Designed to provide graduate students an opportunity to study selected topics. A student may count no more than three hours of Special Topics in the MBA degree program. Prerequisite: Approval of department chair.

**MKT 594  Independent Study in Marketing  3 cr**
Readings and research on selected topics. Conferences and formal research report required. Prerequisite: Approval of department chair.

Department of Marketing and E-Commerce

MATERNAL/CHILD NURSING (MCN)

MCN 340  Maternal/Gynecologic Health Nursing  3 cr
Provides students the opportunity to analyze theories, concepts, research, and issues and trends in nursing of the childbearing family. Content includes internal and external environmental factors affecting the health of the childbearing family. Emphasis on the role of the professional nurse in health promotion and maintenance and wellness-illness care of the childbearing family. Prerequisites: NU 325, HSC 343, HSC 342, NU 300, NU 301. Prerequisite or Corequisite: NU 327. Corequisite: MCN 341.

MCN 341  Maternal/Gynecologic Health Nursing Clinical  3 cr
Clinical practice course in nursing of the childbearing family. Focus is on the application of theories, concepts, research, and issues and trends in nursing of the childbearing family. Emphasis is on the role of the professional nurse in nursing care of the childbearing family and on the use of the nursing process with the childbearing family. Prerequisites: NU 325 HSC 343, HSC 342, NU 300, NU 301. Prerequisite or Corequisite: NU 327. Corequisite: MCN 340.

MCN 345  Child Health Nursing  3 cr
Provides students the opportunity to analyze theories, concepts, research, and issues and trends in child health nursing. Content includes internal and external environmental factors affecting the health of children. Emphasis is on the role of the professional nurse in health promotion and maintenance, illness care, and rehabilitation of children. Prerequisites: NU 325, HSC 343, HSC 342, NU 300, NU 301. Prerequisite or Corequisite: NU 327. Corequisite: MCN 346.

MCN 346  Child Health Nursing Clinical  3 cr
Clinical practice course in child health nursing. Focus is on the application of theories, concepts, research, and issues and trends in child health nursing. Emphasis is on the role of the professional nurse in child health nursing and on the use of the nursing process with children and their families. Prerequisites: NU 325, HSC 343, HSC 342, NU 300, NU 301. Prerequisite or Corequisite: NU 327. Corequisite: MCN 345.

MCN 514  Evidence-Based Practice in MCN Nursing & Healthcare  1 cr
The focus of this course is the analysis of best nursing and health care practices with a selected clinical, educative or administrative problem. Students develop a project using an EBP approach to accept or reject recommendations made from the evidence. Prerequisites that can be taken concurrently are NU 513 and one of the following combinations of courses: (MCN 538, MCN 539, MCN 541) or (MCN 548, MCN 549, MCN 551) or (MCN 568, MCN 569, MCN 571) or (NU 524, MCN 525) or (NU 565, NU 571).

MCN 525  Clinical Practicum in Advanced Maternal/Child Health Nursing  4 cr
Application of advanced clinical concepts in Maternal/Child Nursing theory and other concepts are evaluated within evidence based practice models. Prerequisites: NU 523, NU 545, NU 578, NU 518, NU 519. Corequisite: NU 524 or special permission of instructor.

MCN 538  Advanced Women's Health Assessment  3 cr
The purpose of this course is to expand the Women's Health Nurse Practitioner/Clinical Nurse Specialist student's knowledge and skills for obtaining, recording, and analyzing a systematic health assessment of women. Emphasis is on the synthesis and application of nursing and related theories and scientific knowledge to the development of differential nursing diagnoses as a basis for health promotion and management. Corequisite: MCN 539

**MCN 539 Advanced Women's Health Assessment Practicum** 1 cr

The purpose of this clinical course is to provide an environment in which the Women's Health Nurse Practitioner/Clinical Nurse Specialist student will have the opportunity to become proficient at obtaining and recording a systematic health history and advanced physical examination of women. The focus is refinement of cognitive and clinical skills needed to provide comprehensive health assessments of women. Corequisite: MCN 538.

**MCN 541 Health Promotion/Disease Prevention and Issues for Women's Health Nursing** 3 cr

The purpose of this didactic course is to prepare the Women's Nurse Practitioner/ Clinical Nurse Specialist student to identify and implement appropriate health promotion and disease prevention strategies across the lifespan. The focus is on the advanced practice nursing of individuals and families in primary care settings. Emphasis is placed on health promotion/disease prevention with strategic planning at the primary, secondary and tertiary levels of prevention. Various issues are explored pertinent to the advanced practice role. Corequisites: MCN 538, MCN 539.

**MCN 542 Advanced Women's Health Nursing I** 3 cr

The purpose of this didactic course is to prepare the Women's Health Nurse Practitioner/ Clinical Nurse Specialist student to assess, diagnose, and manage selected health care needs of women. The focus is on advanced practice nursing with women in primary, acute, and chronic health care settings. Emphasis is on wellness and the pathophysiology and epidemiology underlying acute and chronic health problems. Prerequisites: MCN 538, MCN 539, MCN 541, NU 506. Prerequisites or Corequisites: NU 545, NU 578. Corequisite: MCN 543.

**MCN 543 Advanced Women's Health Nursing Practicum I** 3 cr

The purpose of this practicum course is to provide opportunities for the Women's Health Nurse Practitioner/Clinical Nurse Specialist student to apply concepts from MCN 542 Advanced Women's Health Nursing I in select clinical settings. Focus is on advanced practice nursing with women and families in primary, acute, and chronic health care settings. The emphasis is on diagnostic reasoning and decision making/ critical thinking. Prerequisites: MCN 538, MCN 539, MCN 541, NU 506. Prerequisites or Corequisites: NU 545, NU 578. Corequisite: MCN 542.

**MCN 544 Advanced Women's Health Nursing II** 3 cr

The purpose of this course is to provide the Women's Health Nurse Practitioner/ Clinical Nurse Specialist student an in-depth study of the health care management of women within the framework of advanced nursing. The focus is on selected acute and chronic complex health care problems. Emphasis is on the interaction among health care providers in a culturally diverse environment. Prerequisites: MCN 542, MCN 543. Corequisite: MCN 545.

**MCN 545 Advanced Women's Health Nursing Practicum II** 3 cr

The purpose of this course is to provide opportunity for the Women's Health Nurse Practitioner/ Clinical Nurse Specialist student to practice within an advanced nursing framework. The focus is on the role of the advanced practice nurse in the health care management of women. Emphasis is on collaboration with other health care providers in a culturally diverse environment. Prerequisites: MCN 542, MCN 543. Corequisite: MCN 544.

**MCN 546 Advanced Women's Health Nursing Internship** 4 cr
The purpose of this culminating course is to provide a preceptor and faculty facilitated experience in the Women's Health Nurse Practitioner/Clinical Nurse Specialist role. The focus is on the application and synthesis of knowledge and skills acquired in all previous courses. Prerequisites: MCN 544, MCN 545, NU 506. Corequisite: MCN 547. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

**MCN 547 Advanced Women's Health Nursing III** 3 cr
The purpose of this course is to provide a forum for the evaluation of issues and trends encountered in advanced women's health nursing care. Emphasis is on critical analysis and management of issues by the Women's Health Nurse Practitioner/Clinical Nurse Specialist student in an interdisciplinary health care system. Prerequisites: MCN 544, MCN 545, NU 506. Corequisite: MCN 546. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

**MCN 548 Advanced Child Health Assessment** 3 cr
The purpose of this course is to expand the child Health Nurse Practitioner/Clinical Nurse Specialist student's knowledge and skills for obtaining, recording and analyzing a systematic health assessment of children. Emphasis is placed on synthesis and application of nursing and related theories and scientific knowledge to the development of differential/nursing diagnoses as a basis for health promotion and management. Corequisite: MCN 549.

**MCN 549 Advanced Child Health Assessment Practicum** 1 cr
The purpose of this clinical course is to provide an environment in which the Child Health Nurse Practitioner/Clinical Nurse Specialist student will have the opportunity to become proficient at obtaining, recording, and analyzing a systematic health history and advanced physical examination of children. The focus is refinement of cognitive and clinical skills needed to provide comprehensive health assessments of children. Corequisite: MCN 548.

**MCN 551 Health Promotion/Disease Prevention and Issues for Child Health Nursing** 3 cr
The purpose of this didactic course is to prepare the Child Nurse Practitioner/Clinical Nurse Specialist student to identify and implement appropriate health promotion and disease prevention strategies for children from birth to adolescence. The focus is on the advanced practice nursing of children and families in primary care settings. Emphasis is placed on health promotion/disease prevention with strategic planning at the primary, secondary and tertiary levels of prevention. Various issues are explored pertinent to the advanced practice role. Corequisites: MCN 548, MCN 549.

**MCN 552 Advanced Child Health Nursing I** 3 cr
The purpose of this didactic course is to prepare the Child Health Nurse Practitioner/ Clinical Nurse Specialist student to assess, diagnose, and manage selected health care needs of children from birth to school age. The focus is on advanced practice nursing with children and families in primary and acute care settings. Emphasis is on the wellness, and the pathophysiology and epidemiology underlying acute and chronic health problems. Prerequisites: MCN 548, MCN 549, MCN 551, NU 506. Prerequisites or Corequisites: NU 545, NU 578. Corequisite: MCN 553.

**MCN 553 Advanced Child Health Nursing Practicum I** 3 cr
The purpose of this practicum course is to provide opportunities for the Child Health Nurse Practitioner/Clinical Nurse Specialist student to apply concepts from MCN 552 Advanced Child Health Nursing I in select clinical settings. Focus is on advanced practice nursing with children and families in primary and acute care settings. The emphasis is on diagnostic reasoning and decision making/ critical thinking. Prerequisites: MCN 548, MCN 549, MCN 551, NU 506. Prerequisites or Corequisites: NU 545, NU 578. Corequisite: MCN 552.

**MCN 554 Advanced Child Health Nursing II** 3 cr
The purpose of this course is to provide the Child Health Nurse Practitioner/Clinical Nurse Specialist student an in-depth study of the health care management of children from school-age to adolescence within the framework of advanced nursing. The focus is on selected acute and chronic complex health problems. Emphasis is on the interaction among health care providers in a culturally diverse environment. Prerequisites: MCN 552, MCN 553. Corequisite: MCN 555.

MCN 555 Advanced Child Health Nursing Practicum II 3 cr
The purpose of this course is to provide opportunity for the Child Health Nurse Practitioner/Clinical Nurse Specialist student to practice within an advanced nursing framework. The focus is on the role of the advanced practice nurse in the health care management of children. Emphasis is on collaboration with other health care providers in a culturally diverse environment. Prerequisites: MCN 552, MCN 553. Corequisite: MCN 554.

MCN 556 Advanced Child Health Nursing Internship 4 cr
The purpose of this culminating course is to provide a preceptor and faculty facilitated experience in the Child Health Nurse Practitioner/Clinical Nurse Specialist role. The focus is on the application and synthesis of knowledge and skills acquired in all previous courses. Prerequisites: MCN 554, MCN 555, NU 506. Corequisite: MCN 557. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

MCN 557 Advanced Child Health Nursing III 3 cr
The purpose of this course is to provide a forum for the evaluation of issues and trends encountered in advanced child health nursing care. Emphasis is on critical analysis and management of issues by the Child Health Nurse Practitioner/Clinical Nurse Specialist in an interdisciplinary health care delivery system. Prerequisites: MCN 554, MCN 555, NU 506. Corequisite: MCN 556. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

MCN 558 Advanced Infant/Neonatal Assessment 3 cr
The purpose of this course is to expand the Infant/Neonatal Nurse Practitioner/Clinical Nurse Specialist student's knowledge and skills for obtaining and recording a systematic health assessment of infants/neonates through one year of life. Emphasis is placed on the synthesis and application of nursing and related theories and scientific knowledge of the development of differential/nursing diagnoses as a basis for health promotion and management. Corequisite: MCN 559.

MCN 559 Advanced Infant/Neonatal Assessment Practicum 1 cr
The purpose of this clinical course is to provide an environment in which the Infant/Neonatal Nurse Practitioner/Clinical Nurse Specialist student will have the opportunity to become proficient at obtaining and recording a systematic health history and advanced physical examination of infants/neonates through one year of life. The focus is refinement of cognitive and clinical skills needed to provide comprehensive health assessments of infants/neonates through one year of life. Corequisite: MCN 558.

MCN 571 Health Promotion Disease Prevention and Issues for Infant/Neonatal Nursing 3 cr
The purpose of this didactic course is to prepare the Infant/Neonatal Nurse Practitioner/ Clinical Nurse Specialist student to identify and implement appropriate health promotion and disease prevention strategies for the neonate/infant to one year of life and their family. The focus is on the advanced practice nursing of neonates/infants to one year of life and their families in primary care settings. Emphasis is placed on health promotion/disease prevention with strategic planning at the primary, secondary and tertiary levels of prevention. Various issues are explored pertinent to the advanced practice role. Corequisites: MCN 568, MCN 569.

MCN 572 Advanced Infant/Neonatal Nursing I 3 cr
The purpose of this didactic course is to prepare the Infant/Neonatal Nurse Practitioner/ Clinical Nurse Specialist student to assess, diagnose, and manage selected health care needs of infants/neonates and their families from birth through one year of life. The focus is on infants/neonates and families in primary, acute, and chronic health care settings. Emphasis is placed on wellness and the pathophysiology and epidemiology underlying acute and chronic health problems. Prerequisites: MCN 568, MCN 569, MCN 571, NU 506. Prerequisites or Corequisites: NU 545, NU 578. Corequisite: MCN 573.

MCN 573 Advanced Infant/Neonatal Nursing Practicum I 3 cr
The purpose of this practicum course is to provide opportunities for the Infant/Neonatal Nurse Practitioner/Clinical Nurse Specialist student to apply concepts from MCN 572 Advanced Infant/Neonatal Nursing I in select clinical settings. Focus is on advanced nursing practice with infants/neonates and their families through one year of life in primary, acute, and chronic health care settings. The emphasis is on diagnostic reasoning and decision making/critical thinking. Prerequisites: MCN 568, MCN 569, MCN 571, NU 506. Prerequisites or Corequisites: NU 545, NU 578. Corequisite: MCN 572.

MCN 574 Advanced Infant/Neonatal Nursing II 3 cr
The purpose of this course is to provide the Infant/Neonatal Nurse Practitioner/Clinical Nurse Specialist student an in-depth study of the infant/neonate within the framework of nursing. The focus is on selected acute, and chronic complex health problems of infants and neonates in the primary, acute, and chronic health care settings. Emphasis is on the interaction among health care providers in a culturally diverse environment. Prerequisites: MCN 572, MCN 573. Corequisite: MCN 575.

MCN 575 Advanced Infant/Neonatal Practicum II 3 cr
The purpose of this course is to provide opportunity for the Infant/Neonatal Nurse Practitioner/Clinical Nurse Specialist student to practice within an advanced nursing framework. The focus is on the role of the advanced practice nurse in the management of the neonate and infant through one year of life. Emphasis is on collaboration with other health care providers in a culturally diverse environment. Prerequisites: MCN 572, MCN 573. Corequisite: MCN 574.

MCN 576 Advanced Infant/Neonatal Nursing Internship 4 cr
The purpose of this culminating course is to provide a preceptor-faculty facilitated experience in the Infant/Neonatal Nurse Practitioner/ Clinical Nurse Specialist role. The focus is on the application and synthesis of knowledge and skills acquired in all previous courses. Prerequisites: MCN 574, MCN 575, NU 506. Corequisite: MCN 577. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

MCN 577 Advanced Infant/Neonatal Nursing III 3 cr
The purpose of this course is to provide a forum of the evaluation of issues and trends encountered in advanced infant/neonatal nursing care. Emphasis is on critical analysis and management of issues by the Infant/Neonatal Nurse Practitioner/Clinical Nurse Specialist in an interdisciplinary health care system. Prerequisites: MCN 574, MCN 575, NU 506. Corequisite: MCN 576. Prerequisites or Corequisites: NU 508, NU 513, NU 514, NU 545, NU 578, HSC 568.

College of Nursing
MATHEMATICS (MA)

MA 100  Mathematics in Society  3 cr
An introduction and real life applications to the mathematics of finance, probability, and descriptive statistics with particular emphasis on mathematics of finance. Specific topics include geometric progressions, compound interest, annuities, perpetuities, permutations, combinations, probability measure, and statistical measures of central location and dispersion. Prerequisite: Two years of high school algebra or equivalent. This course does not satisfy the mathematics requirement for General Studies.

MA 101  Introduction to Mathematical Thought  3 cr
A course designed to give the nonscience major, especially humanities and fine arts majors, an appreciation of the method, content, and scope of mathematics. This course does not satisfy the mathematics requirement for General Studies.

MA 110  Finite Mathematics  3 cr
This course is intended to give an overview of topics in finite mathematics together with their applications. The course includes logic, sets, counting, permutations, combinations, basic probability, descriptive statistics, matrices, and their applications. Students are required to have a scientific calculator. Prerequisite: placement test score of 35 or more or DS 084. Core Course.
Note: May be offered for Honors Credit.

NOTE: The three courses listed above are not prerequisites for nor are they intended to be preparatory for any course listed below. Students who do not have the prerequisites for MA 110 or MA 112 should contact Developmental Studies.

MA 112  Precalculus Algebra  3 cr
Study of use of variable quantities to interpret information about relationships that can be expressed in mathematical terms. Linear, polynomial, absolute value, rational, exponential and logarithmic functions with emphasis on numerical, graphical and algebraic properties and applications and use in modeling real world situations. Systems of linear equations. Graphing calculator required. Credit for both MA 112 and MA 115 not allowed. Prerequisite: DS 084 or placement test score of 65 or more. Core Course.

MA 113  Precalculus Trigonometry  3 cr
Continuation of MA 112. Numerical, graphical and algebraic properties of polynomial, rational and trigonometric functions. Parametric equations, right angle trigonometry, inverse trigonometric functions. Polar coordinates. Conic sections. Development and use of mathematical models to solve problems which concern real-world situations emphasized. Graphing calculator required. Credit for both MA 113 and MA 115 not allowed. Prerequisite: MA 112 or placement test score of 75 or more. Core Course.

MA 115  Precalculus Algebra and Trigonometry  4 cr
Study of elementary functions, their graphs and applications, including polynomial, rational, algebraic, exponential, logarithmic, and trigonometric functions. This fast-paced course is designed as a review of the algebra and trigonometry needed in calculus. Students are required to have a graphing calculator. Prerequisite: placement test score of 75 or more. Core Course.

MA 120  Calculus and Its Applications  3 cr
Introduction to calculus with an emphasis on problem solving and applications. Key concepts are presented graphically, numerically and algebraically, although the stress is on a clear understanding of graphs and tabular data. The course covers: algebraic, exponential and logarithmic functions, their properties and their use in modeling; the concepts of derivative and definite integral and their applications to marginal analysis, optimization and probability; examples of multivariable functions, partial derivatives and applications to optimization problems. Students are required to have a graphing calculator. Credit for both MA 120 and MA 125 not allowed. Prerequisite: MA 112 or placement test score of 75 or more. **Core Course.**

**MA 125 Calculus I**

4 cr  
Introduction to calculus with emphasis on presenting the key concepts graphically, numerically, and algebraically. Limit of a function; the derivatives of algebraic, trigonometric, exponential, and logarithmic functions; applications of the logarithmic functions; applications of the derivative to curve sketching; optimization problems including examples in the physical/natural sciences and economics; introduction of the definite integral; Fundamental Theorem of Integral Calculus. Students are required to have a graphing calculator. Credit for both MA 120 and MA 125 not allowed. Prerequisite: MA 113 or MA 115 or placement test score of 85 or more. **Core Course.**

NOTE: MA 110, MA 112, MA 113, MA 115, MA 120, and MA 125 have strict prerequisites. The placement exam is available at [http://www.southalabama.edu/mathplacement](http://www.southalabama.edu/mathplacement)

**MA 126 Calculus II**

4 cr  
A continuation of MA 125. Techniques of symbolic and numerical integration; applications of the definite integral to geometry, physics, economics, and probability; indeterminate forms; improper integrals; introduction to differential equations; sequences and series; Taylor polynomials and Taylor series. Vectors and geometry. Students are required to have a graphing calculator. Prerequisite: MA 125. **Core Course.**

**MA 150 Contemporary Mathematics and Statistics Seminar**

1 cr  
This course gives an overview of modern mathematics and statistics from the point of view of the practitioners. The course is designed for majors in mathematics and statistics at all levels as well as those students who are considering mathematics or statistics as a major or minor area of study. Topics usually included are elements of geometry, algebra, analysis, methods of statistical inference, the role of the computer in analytical sciences; these topics vary from semester to semester. This course cannot be taken for credit simultaneously with ST 150, but may be repeated in different semesters. **NOTE: May be offered for Honors Credit.**

**MA 201 Mathematics for Elementary Teachers I**

3 cr  
An examination of some of the major ideas encountered in the teaching of elementary mathematics. Topics include introduction to problem solving, sets, relations, logic, numeration systems, elementary number theory, properties and operations for whole numbers, integers, rational numbers, and real numbers. Prerequisite: Fulfillment of the General Studies mathematics requirement. **NOTE: MA 201 does not fulfill graduation requirements for any curriculum other than College of Education.**

**MA 202 Mathematics for Elementary Teachers II**

3 cr  
Topics covered are those that a prospective elementary or middle school teacher should expect to encounter in the teaching of geometry in elementary or middle school. Topics include geometric shapes, measurement, triangle congruence and similarity, coordinate geometry, geometric transformation. Prerequisite: MA 201. **NOTE: MA 202 does not fulfill graduation requirements for any curriculum other than College of Education.**

**MA 227 Calculus III**

4 cr
Vectors; functions of several variables; partial derivatives; local linearity; directional
derivatives; the gradient; differential of a function; the chain rule; higher order partial
derivatives; quadratic approximations; optimization of functions of several variables;
multiple integrals and their applications; parametric curves and surfaces; vector fields;
line and surface integrals; vector calculus. Students are required to have a graphing
calculator. Prerequisite: MA 126. Core Course.

MA 237 Linear Algebra I 3 cr
An introduction to linear algebra. Topics include vector spaces, linear transformations,
determinants, the eigenvalue problem and applications. Prerequisite: MA 126. Core
Course.

MA 238 Applied Differential Equations I 3 cr
First order differential equations. Higher order linear differential equations. Systems of
first order linear differential equations. Laplace Transforms. Methods for approximating
solutions to first order differential equations. Applications. Students are required to
have a graphing calculator. Students should have taken or be taking MA 227. Core
Course.

MA 267 Discrete Mathematical Structures 3 cr
This course is an introduction to discrete mathematics for students majoring in
computer-related areas. Students will be introduced to concepts and methods that are
essential to theoretical computer science. A strong emphasis is placed on developing
skills in mathematical reasoning and understanding and writing proofs. Topics include
sets, functions, induction, recursion, combinatorics and graphs. Prerequisites: MA 112,
MA 113, MA 115, a placement exam score of 75 or better, or consent of instructor.

MA 290 Special Topics 3 cr
Selected topics in elementary undergraduate mathematics.

MA 303 Mathematics for Elementary Teachers III 3 cr
An exploration of problem solving strategies. Problems exemplifying the various
problem solving strategies studied. Emphasis on the development of problem solving
skills by exploring interesting problems which demand for their solution that the student
select from a wide variety of possible strategies and use a wide variety of conceptual
tools. Prerequisite: MA 202.
NOTE: MA 303 does not fulfill graduation requirements for any curriculum other
than elementary education.

MA 311 Introduction to Number Theory 3 cr
An introduction to classical number theory with a balance between theory and
computation. Topics include mathematical induction, divisibility properties, properties of
prime numbers, the theory of congruences, number theoretic functions, continued
fractions. Prerequisite: MA 126.

MA 316 Linear Algebra II 3 cr
A continuation of MA 237. Topics include inner product spaces, spectral theorem for
symmetric operators, complex vector spaces, Jordan canonical form. Additional topics
such as duality and tensor products to be included at the discretion of the instructor.
Prerequisite: MA 237.

MA 318 Matrix Theory 3 cr
A theoretical as well as computational treatment of the notions of determinant, inverse,
rank and diagonalization of a matrix with real or complex entries. Eigenvalues and
eigenvectors, similarity, solutions of linear systems of algebraic equations, Jordan
canonical forms. Students are required to have a graphing calculator. Prerequisite: MA
126.

MA 320 Foundations of Mathematics (W) 3 cr
The students will develop facility with proof through the study of logic and proof techniques as applied to various areas of mathematics. Topics include symbolic logic, proof techniques, relations, functions, and structure of the number system. Prerequisite: MA 126.

**MA 321 Elementary Geometry 3 cr**
The students will review the major topics (from secondary school curriculum) of plane and solid geometry from the modern viewpoint; axioms, undefined terms, definitions, theorems and proofs. Prerequisite: MA 320.

**MA 332 Differential Equations II 3 cr**

**MA 334 Advanced Calculus I 3 cr**
This is the first of a two course sequence designed to provide students with the theoretical context of concepts encountered in MA 125 through MA 227. Topics covered include Completeness Axiom, sequences of real numbers, suprema and infima, Cauchy sequences, open sets and accumulation points in Euclidean space, completeness of Euclidean space, series of real numbers and vectors, compactness, Heine-Borel Theorem, connectedness, continuity, Extremum Theorem, Intermediate Value Theorem, differentiation of functions of one variable. Prerequisites: MA 227 and MA 237.

**MA 335 Advanced Calculus II 3 cr**
This is the second of a two course sequence designed to provide students with the theoretical context of concepts encountered in MA 125 through MA 227. Topics covered include integration of functions of one variable, pointwise and uniform convergence, integration and differentiation of series, differentiable mappings of several variables, chain rule, product rule and gradients, Mean Value Theorem, Taylor's Theorem, Inverse Function Theorem, Implicit Function Theorem. Prerequisite: MA 334.

**MA 354 Computer Assisted Mathematical Modeling (W) (C) 3 cr**
Formulation, development, testing and reporting of mathematical models of various real world problems. Deterministic and stochastic models, optimization, simulation. Emphasis on the careful mathematical formulations and the appropriate use of computer software, both as an aid in the solution of mathematical problems and as a tool in the process of model evaluation, simulation, reporting. A term project will be an important component of this course. The course is taught in a laboratory setting with computers as lab equipment. Prerequisites: MA 227 and MA 238.

**MA 367 Combinatorial Enumeration 3 cr**
An introduction to the mathematical theory of counting. Basic counting principles, permutations and combinations, partitions, recurrence relations, and a selection of more advanced topics such as generating functions, combinatorial designs, Ramsey theory, or group actions and Poyla theory. Prerequisite: MA 126 or consent of instructor.

**MA 410 History of Mathematics (W) 3 cr**
Historical survey of general development of mathematics with a balance of historical perspective and mathematical structure. Prerequisite: Senior standing or permission of instructor or department chair.

**MA 413 Algebra I (W) 3 cr**
An introduction to group theory and ring theory. Topics include permutations and symmetries, subgroups, quotient groups, homomorphisms, as well as examples of rings, integral domains, and fields. Prerequisites: MA 237 and one of the following: MA 311, MA 320, MA 334.

**MA 414 Algebra II (W) 3 cr**
A continuation of MA 413 focusing on rings and fields. Topics include rings, ideals, integral domains, fields and extension fields. Geometric constructions and Galois theory are introduced. Prerequisite: MA 413.

MA 434  Topology  3 cr
An introduction to topology with emphasis on the geometric aspects of the subject. Topics covered include surfaces, topological spaces, open and closed sets, continuity, compactness, connectedness, product spaces, and identification and quotient spaces. Credit for both MA 434 and MA 542 is not allowed. Prerequisite: MA 335.

MA 436  Numerical Analysis  3 cr
Selected numerical algorithms are analyzed. Topics include error analysis, machine arithmetic, roundoff, root finding using fixed point methods, interpolation, numerical integration, differential equations, eigenvalue /eigenvector problems, least squares analysis, boundary value problems. Prerequisite: MA 227, credit for or concurrent registration in MA 238. Students are also required to have proficiency in a programming language.

MA 437  Complex Variables  3 cr
Arithmetic of complex numbers; regions in the complex plane; limits, continuity, and derivatives of complex functions; elementary complex functions; mappings by elementary functions; contour integration; power series; Taylor series; Laurent series; calculus or residues; conformal representation; applications. Credit for both MA 437 and MA 537 not allowed. Prerequisite: MA 238.

MA 451  Probability  3 cr
A comprehensive introduction to probability, the mathematical theory used to model uncertainty, covering the axioms of probability, random variables, expectation, classical discrete and continuous families of probability models, the law of large numbers and the central limit theorem. Credit for both MA 451 and MA 550 is not allowed. Prerequisites: MA 227 and either MA 237 or MA 318.

MA 458  Operations Research (W)  3 cr
An introduction to linear programming. The course will include a study of the simplex method as well as using computers to solve linear and nonlinear problems. As time permits, topics covered will include sensitivity analysis, duality, integer programming, transportation, assignment, transshipment, networks, game theory, Markov processes, queuing theory, simulation, and forecasting. Credit for both MA 458 and MA 567 is not allowed. Prerequisites: MA 227 and either MA 237 or MA 318.

MA 490  Special Topics  1-3 cr
Selected topics in advanced undergraduate mathematics. This course may be repeated for a maximum of six credits.

MA 494  Directed Studies  1-3 cr
Directed individual study. May be repeated for a maximum of six credits. Prerequisites: Permission of the department chair.

MA 499  Honors Senior Project  3-6 cr
With the guidance and advice of a faculty mentor, Honors Students will identify, and carry out a research project in mathematics. The outcome of the research project will include a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three members of the faculty, chaired by the faculty mentor.

MA 501  Number Systems  3 cr
A case study of axiom systems and the deductive method for graduate students in Mathematics Education. It is expected that students in this course will practice and improve their logical skills, better understand proof as a mathematical activity, and study the similarities and differences between several commonly utilized number systems. Prerequisite: MA 321 or MA 413 or permission of the instructor.
MA 502  Introduction to Abstract Algebra  3 cr
An introduction to the fundamental concepts of modern algebra such as groups, rings,
and fields through concrete examples. The course is designed for graduate students in
the College of Education. Prerequisite: MA 501.

MA 503  Introduction to Analysis  3 cr
A careful look at the elements, procedures, and applications of differential and integral
calculus. Prerequisites: MA 501 and one year of calculus.

MA 504  Introduction to Geometry  3 cr
An introduction to the foundations of geometry using both synthetic and metric
approaches. Euclidean, finite, projective, and hyperbolic geometries are discussed.
The axioms for various geometries are discussed.

MA 505  Mathematical Problem Solving  3 cr
An in-depth activity-based approach to the methods and strategies for mathematical
problem solving for students in Mathematical Education. Problems selected from logic,
algebra, analysis, geometry, combinatorics, number theory and probability.

MA 506  Statistics for Teachers  3 cr
Prepares in-service and pre-service teachers to teach statistics in high schools using
data-based approach. Uses hands-on-activities approach and simulation of situations
to teach concepts and technology to teach analysis. Prerequisite: MA 126.

MA 507  Applicable Mathematics I  3 cr
A graduate-level introduction to topics of ordinary differential equations, partial
differential equations, and their applications in physics and engineering.

MA 508  Applicable Mathematics II  3 cr
A continuation of MA 507 with more emphasis on theory of partial differential
equations, as well as their applications in physics and engineering problems.

MA 511  Abstract Algebra I  3 cr
A graduate level introduction to group theory. Topics include quotient groups,
homomorphism, group actions, Sylow theorems, composition series, simple groups,
free groups, fundamental theorem of abelian groups.

MA 512  Abstract Algebra II  3 cr
A graduate level introduction to ring theory and fields. Topics include ring
homomorphism, quotient rings, ideals, rings of fractions, Euclidean domains, principal
ideal domains, unique factorization domains, modules, finite fields, field extensions.
Prerequisite: MA 511.

MA 515  Number Theory  3 cr
Modular arithmetic, arithmetic functions; prime numbers, algebraic number theory.

MA 516  Topics in Number Theory  3 cr
A second course in number theory, covering topics of interest to the students and
instructor. Prerequisite: MA 515.

MA 518  Linear Algebra I  3 cr
Fields, vector spaces, dual spaces, quotient spaces, multilinear forms, linear
transformations, algebras, adjoints, eigenvalues.

MA 519  Linear Algebra II  3 cr
Triangular form, nilpotence, Jordan form, inner products, self-adjoint transformations,
positive transformations, isometries, Spectral Theorem, polar decomposition,
applications to analysis. Prerequisite: MA 518.

MA 521  Discrete Mathematics  3 cr
Pigeonhole principle, basic counting techniques, binomial coefficients, inclusion-exclusion principle, recurrence relations, generating functions, systems of distinct representatives, finite fields.

</tbody>
</table>
A comprehensive introduction to the mathematical foundations of statistics. Sufficient statistics and information, parameter estimation, maximum likelihood and moment estimation, optimality properties of estimators and confidence intervals. Hypothesis testing, likelihood ratio tests and power functions. Credit for both MA 551 and ST 470 is not allowed. Prerequisite: MA 451 or MA 550.

**MA 555 Statistical Analysis I** 3 cr
A first course in an integrated two-course sequence in applied statistical theory and methods for research workers in technical fields. Coverage includes probability and basic probability models, mathematical expectations, random sampling processes and central limit theorem, estimation, hypothesis testing and power analysis, some applications of the theory of least squares. Computer assisted data analysis is used.

**MA 560 Statistical Analysis II** 3 cr
A second course (continuation of MA 555) in an integrated two-course sequence in applied statistical theory and methods for research workers in technical fields. Coverage includes regression analysis, design and analysis of experiments, factorial experiments, analysis of covariance, nonparametric analytical techniques, analysis of count data. Computer assisted data analysis is used. Prerequisite: MA 555.

**MA 565 Numerical Analysis** 3 cr
An introduction to Numerical Analysis. Topics include error analysis, systems of linear equations, nonlinear equations, integration, ordinary differential equations among others. Prerequisite: MA 535.

**MA 567 Operations Research** 3 cr
An introduction to linear programming. The course will include a study of the simplex method as well as using computers to solve linear and nonlinear problems. As time permits, topics covered will include sensitivity analysis, duality, integer programming, transportation, assignment, transshipment, network, game theory, Markov processes, queuing theory, simulation, and forecasting. Credit for both MA 567 and MA 458 is not allowed. Prerequisites: MA 227 and either MA 318 or MA 316.

**MA 568 Topics in Operations Research** 3 cr
A second course in operations research, covering topics of interest to the students and instructor. Prerequisite: MA 567.

**MA 571 Ordinary Differential Equations** 3 cr
An introduction to ordinary differential equations from a dynamical systems perspective. Topics include existence and uniqueness theorems, dependence on initial data, linear systems and exponential of operators, stability of equilibria, Poincare-Bendixon theorem. Additional topics such as applications to population dynamics, classical mechanics, periodic attractors among others will be included at the discretion of the instructor. Prerequisite: MA 518.

**MA 572 Partial Differential Equations** 3 cr
An introduction to partial differential equations emphasizing spectral methods. Topics include elementary Hilbert spaces, Fourier series and integrals and their applications to the study of the basic partial differential equations of mathematical physics. More advanced topics such as asymptotic properties and regularity of solutions and nonlinear equations among others will be included at the discretion of the instructor. Prerequisite: MA 536.

**MA 590 Special Topics** 1-3 cr
Selected topics in elementary graduate mathematics. This course may be repeated for a maximum of six credits.

**MA 592 Seminar** 1 cr
Student seminar. Topics covered vary. This course may be repeated indefinitely, but only two credits count towards the degree. Grading system: satisfactory/unsatisfactory.

**MA 594 Directed Studies** 1-3 cr
Directed individual study. Prerequisites: Approval of the department chair.

MA 599  Thesis  1-6 cr
Prerequisite: Approval of research prospectus by Department Graduate Committee.

Department of Mathematics and Statistics

College of Arts and Sciences
MECHANICAL ENGINEERING (ME)

Note: Students must obtain Professional Component Standing before they can enroll in any 300-level engineering course.

ME 123 Introduction to Design and Ethics 3 cr
An introduction to the techniques used in the design of engineering systems, including problem identification, brainstorming alternative solutions, establishing criteria and constraints, implementing and evaluating solutions, and oral and written communication of the results. Professional engineering codes will be used as the starting point to discuss ethics in engineering design. Teamwork and team roles will be emphasized along with computer skills for computation, writing, graphics, and presentations. One and one-half hours of design. Prerequisite: EH 101. Fee.

ME 135 Engineering Graphics and Communications 3 cr
Graphical representation of objects orthographic, oblique, and isometric views. Freehand lettering and sketching, computer aided graphics, presentation of graphics based on numerical data using spreadsheet, word processor and presentation software. Fee.

ME 312 Mechanical Engineering Thermodynamics 3 cr
Thermodynamic power and refrigeration cycles, gas mixtures, psychometrics, and combustion. One-half hour of design. Prerequisites: EG 270, ME 123. Fee.

ME 314 Machine Component Design 3 cr
Analysis and optimization of machine elements to accomplish given tasks within limits of stress and size. One hour of design. Prerequisites: EG 284, EG 315, ME 123. Fee.

ME 316 Instrumentation (W) 3 cr
Measuring system analysis and design, signal conditioning, analysis of data, statistical error analysis, digital data collection and analysis, communication of results. This course is a corequisite with ME 319 Instrumentation Laboratory. The same grade will be given in both courses. Prerequisites: EG 220, MA 238, PH 202. Corequisite: ME 319. Fee.

ME 317 Heat Transfer 3 cr
Steady and transient multi-dimensional conduction, forced and natural convection, radiation and heat exchangers. One-half hour of design. Prerequisites: EG 270, EG 360, MA 238, ME 328. Fee.

ME 319 Instrumentation Lab 1 cr
Laboratory component of ME 316 Instrumentation. This course is a corequisite with ME 316 Instrumentation. The same grade will be given in both courses. Prerequisites: EG 220, MA 238, PH 202. Corequisite: ME 316. Fee.

ME 326 Materials Science 3 cr
Mechanical, chemical, and physical properties of materials. Relationship between structure, processing, and properties of engineering materials. One-half hour of design. Prerequisite: PH 202. Fee.

ME 328 Mechanical Engineering Analysis 3 cr

http://www.southalabama.edu/bulletin/bulletin0506/courme.htm (2 of 8)7/14/2005 11:40:39 AM
Design and implementation of analog and digital feedback control systems. Introduction to Programmable Logic Controllers. Control applications for microprocessors. One-half hour of design. Prerequisite: ME 426. Fee.

**ME 430 Mechanism Synthesis 3 cr**
Kinematic synthesis of planar linkages for function, path, and motion generation. Topics include: degrees of freedom; graphical, linear analytical, and nonlinear analytical methods; and curvature theory. This course is dual-listed with an equivalent 500-level mechanical engineering course. One hour of design. Prerequisites: EG 284, ME 328. Fee.

**ME 431 Gas Dynamics 3 cr**
Introduction to compressible fluid flow. Conservation laws, isentropic flow, adiabatic flow, flow with heat transfer, and normal shock. One hour of design. Prerequisites: EG 360, ME 312. Fee.

**ME 432 Advanced Thermodynamics 3 cr**
Continuation of mechanical engineering thermodynamics to develop a broader and deeper understanding of thermal energy transformations. One hour of design. Prerequisite: ME 312. Fee.

**ME 438 Finite Element Analysis 3 cr**
Introduction to the finite element method. Engineering application to stress-strain analysis is emphasized. Other field problems are also considered. This course is dual-listed with an equivalent 500-level mechanical engineering course. Prerequisite: ME 328. Fee.

**ME 439 Boundary Elements I 3 cr**
Fundamental concepts of the boundary element method of numerically solving partial differential equations. Application to potential flow problems in heat transfer. This course is dual listed with an equivalent 500-level mechanical engineering course. Prerequisites: ME 328 and consent of instructor. Fee.

**ME 441 Microprocessors for Mechanical Engineers 3 cr**
Basic concepts of programming and applying microprocessors to the control of mechanical systems. Assembly language programming. Memory decoding and use. Input and output circuits. Interfacing with the PIA. Prerequisites: EG 220, ME 316. Fee.

**ME 450 Heating, Ventilation, and Air Conditioning 3 cr**
Addresses the heating and cooling of buildings. Covers related engineering sciences, cooling and heating loads, systems, and equipment. One hour of design. Prerequisites: EG 360, ME 312, and 317. Fee.

**Refrigeration Systems 3 cr**
Study of refrigeration systems including solution of typical engineering design problems. Concepts from fluid mechanics, thermodynamics, and heat transfer are used. One hour of design. Prerequisites: EG 360, ME 312, ME 317. Fee.

**ME 452 Combustion 3 cr**
Introduction to the theory of combustion processes, chemical equilibrium, adiabatic flame temperatures, reaction kinetics. This course is dual listed with an equivalent 500-level mechanical engineering course. Prerequisite: ME 312. Fee.

**IC Engines 3 cr**

ME 461 Turbomachinery 3 cr
Energy transfer between fluid and rotor: fluid flow in turbomachines, centrifugal and axial flow pumps and compressors; radial and axial flow turbines. Prerequisites: EG 360 and ME 312. Fee.

Vibration Analysis and Synthesis 3 cr
Steady state and transient vibration analysis of discrete and continuous systems. Vibration problems as related to design are also included. One hour of design. Prerequisites: EG 284, EG 315, MA 238, ME 316, ME 328. Fee.

ME 472 Noise and Vibration Control 3 cr
Principles of acoustics; human response to noise; control of noise and vibration by means of isolation, sound barriers, and absorption. One hour of design. Prerequisite: ME 472. Fee.

ME 474 Special Topics 1-3 cr
Topics of current mechanical engineering interest. Prerequisite: Consent of instructor. Fee.

ME 494 Directed Independent Study 1-3 cr
Selected mechanical engineering topics of special or current interest not available in regularly scheduled courses. Prerequisite: Consent of instructor. Fee.

ME 499 Honors Senior Project (H) 3 cr
Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research project, relevant to the field of Mechanical Engineering study, that will lead to a formal presentation at the Annual Honors Student Colloquium. The senior project will be judged and graded by three faculty chaired by the honors mentor. This course is required for Honors recognition. A minimum of 4 credit hours is required, but students may enroll for a maximum of six (6) credit hours over two semesters. Prerequisites: Senior status plus completion of a project prospectus. Fee.

ME 518 Advanced Mechanical Engineering Analysis 3 cr
Application of numerical methods including finite difference; finite element and boundary element techniques to the solution of problems in Mechanical Engineering. Fee.

ME 519 Computer Aided Design & Manufacturing 3 cr
Introduction to computer aided design (CAD) and computer aided manufacturing (CAM) principles and their practical applications as fundamental elements of contemporary product design and manufacturing. This course is dual listed with an equivalent 400-level mechanical engineering course. Fee.

ME 520 Advanced Fluid Mechanics 3 cr
Analysis of steady and unsteady motion of a viscous fluid. Topics include: conservation equations, Newtonian fluids and the Navier-Stokes equations, vorticity, analytical solutions, boundary layers, instability of viscous flows. Fee.

</tbody>
</table>
Uncertainty analysis, system response, sampling theory and FFT, differential pressure measurement and multi-hole probes, thermo-couple and RTD, thermal anemometry, LDV and other non-intrusive optical methods, flow visualization. Fee.

ME 550  Combustion  3 cr
Introduction to the theory of combustion processes, chemical equilibrium, adiabatic flame temperature, reaction kinetics, flame structure. This course is dual-listed with an equivalent 400-level mechanical engineering course. Fee.

ME 551  Classical Thermodynamics  3 cr
Postulational treatment of the physical laws of equilibrium, equations of state, processes, equilibrium, stability, reactive systems, phase transition. Fee.

ME 552  Statistical Thermodynamics  3 cr
Principles of kinetic theory, quantum mechanics, and statistical mechanics with particular reference to thermodynamic systems. Conclusions of classical thermodynamics are established from the microscopic viewpoint. Fee.

ME 560  Compressible Fluid Flow  3 cr
Foundations of fluid dynamics and thermodynamics of one dimensional flow and heat transfer, isentropic flow, shock waves and method of characteristics. Fee.

ME 561  Turbomachinery  3 cr
Energy transfer between fluid and rotor; fluid flow in turbomachines, centrifugal and axial-flow pumps and compressors; radial and axial flow turbines. Fee.

ME 562  Computational Fluid Dynamics and Heat Transfer I  3 cr
Derivation of conservation equations, numerical solution of inviscial and viscous incompressible flow problems, emphasis on finite volume method, introduction to finite element and spectral method. Fee.

ME 563  Computational Fluid Dynamics and Heat Transfer II  3 cr
Governing equations in general coordinates, differential geometry for curvilinear coordinates, grid generations, numerical uncertainties. Prerequisite: ME 562. Fee.

ME 564  Turbulent Flow  3 cr
Reynolds equations, statistics of turbulence, analysis of free and wall turbulence, turbulence models. Prerequisite: ME 520. Fee.

ME 565  Lubrication  3 cr

ME 571  Advanced Engineering Dynamics  3 cr
Three-dimensional kinematics and kinetics of particles and rigid bodies, energy, momentum, and stability; application of Lagrange's equations to machinery and gyrodynamics. Fee.

ME 572  Advanced Vibrations  3 cr
Free and forced vibrations of mechanical systems having lumped mass and elasticity; introduction to vibrations of continuous systems; engineering applications. Fee.
ME 573  Vibration of Continuous Systems  3 cr
Equations of motion for strings, membranes, bars, and plates with various boundary
conditions, steady state and transient solutions, exact and approximate methods; wave
propagation in elastic media. Prerequisite: MA 507. Fee.

ME 574  Nonlinear Vibrations  3 cr
Vibrations of damped and undamped systems with nonlinear restoring forces; free and
forced oscillations in self-sustained systems; Hills equation and its application to the
study of the stability of nonlinear oscillations. Prerequisites: ME 572, MA 508. Fee.

ME 575  Continuum Mechanics  3 cr
Cartesian tensor analysis. Analysis of stress and strain, fundamental laws of
continuum mechanics. Constitutive equations, application to solid and fluid mechanics.
Fee.

ME 582  Advanced Materials Science  3 cr
Classical and quantum mechanical model of atoms, bonding, magnetism,
superconductivity, high strength low density materials, corrosion, biomedical materials.
Prerequisites: MA 507, MA 508. Fee.

ME 583  Applied Elasticity  3 cr
Classical problems in elasticity, torsion and bending theory, plane problems in
rectangular and polar coordinates; axisymetric problems, thermoelasticity. Fee.

ME 584  Introductory Metal Theory  3 cr
Theories of metals to explain electrical conductivity and scattering process, electronic
and lattice heat capacity, magnetic behavior, cohesion and lattice constant.
Prerequisite: MA 507. Fee.

ME 585  Theory of Plates  3 cr
Basic equations of rectangular and circular plates with various boundary conditions;
classical solutions and approximate methods in the theory of thin plates. Prerequisites:
ME 583, MA 507. Fee.

ME 586  Theory of Shells  3 cr
Introduction to differential geometry; general equations for arbitrary shells; shallow
shell theory with applications; solutions to membrane and bending theory for shells of
revolution. Prerequisite: ME 585. Fee.

ME 589  Biomechanics  3 cr
Discrete mass and continuum mechanics description of biological materials;
biodynamics of limb and gross body motions, various models for injury to head, neck,
torso, and extremities. Fee.

ME 590  Special Topics  1-3 cr
Topics of current mechanical engineering interest. Prerequisite: Consent of instructor.
Fee.

ME 592  Directed Independent Study  1-3 cr
Directed study, under the guidance of a faculty advisor, of a topic from the field of
Mechanical Engineering not offered in a regularly scheduled course. Prerequisite:
Consent of instructor.

ME 594  Projects in Mechanical Engineering  1-3 cr
May be repeated for credit. Prerequisite: Approved proposal and consent of director of
engineering graduate studies. Fee.

Thesis research may be taken more than once. Prerequisite: Approved prospectus. Fee.
MET 140 Introduction to Meteorology 3 cr
This course focuses on introducing the student to basic concepts involved in the analysis of weather phenomena on a global and local scale. Major topics include heat balance, atmospheric stability, precipitation processes, cyclonic activity, severe weather, weather analysis, and very basic weather forecasting techniques. Particular attention is devoted to the analysis of US Government weather charts and diagrams. Fee. Core Course. Corequisite: MET 140L.

MET 140L Introduction to Meteorology Lab 1 cr
Laboratory exercises associated with MET 140. Together, MET 140 and MET 140L count as one laboratory science, partially fulfilling general education requirements.

MET 341 Climatology 3 cr
Analysis of global climate as aggregate weather. Component elements, factors controlling distribution, resulting area patterns, and climatic classification are studied (identical to GEO 341). Prerequisite: MET 353/GEO 353. Fee.

MET 342 Severe Weather 3 cr
A study of the causes, structure, and impact of tornadoes, hurricanes, thunderstorms and other severe weather systems (identical to GEO 342). Prerequisite: MET 353/GEO 353.

MET 353 General Meteorology 4 cr
An overall view of the field of meteorology for science majors. The course uses a quantitative approach to study the composition of the atmosphere, atmospheric processes, global circulation, and storm development (identical to GEO 353). Prerequisites: MET 140, MET 140L, and MA 112. Fee.

MET 354 Dynamic Meteorology I 3 cr
A quantitative study of solar and terrestrial radiation and the processes that result from the unequal heating of the earth's surface and the atmosphere. A special emphasis is placed on adiabatic processes, thermodynamic diagrams, and atmospheric stability. Kinematic properties of atmospheric flow are also examined. Prerequisites: MA 126 and PH 201 or permission of department chair.

MET 355 Dynamic Meteorology II 3 cr
The circulation of the atmosphere and the structure of storms is quantitatively analyzed using equations of atmospheric flow. The jet stream, atmospheric waves, mid-latitude cyclones, and the concept of vorticity are given considerable attention. Prerequisite: MET 354.

MET 356 Physical Meteorology 3 cr
A detailed investigation of atmospheric aerosols, the disposition of radiant energy, the earth's radiation budget, precipitation processes, atmospheric optics and electricity. Prerequisite: MET 354.

MET 357 Meteorological Instrumentation 2 cr
Design, calibration, use, and maintenance of existing and newly developed meteorological instruments and instrumentation systems as well as remote sensing applications. Prerequisite: MET 353.

The course is designed to give the student a three-fold introduction to weather radar and its value in the workplace. Basic radar principles and assumptions applicable to all radars are presented: the Doppler function and limitations are covered in depth with final emphasis on properly utilizing weather radar in an operational setting. Prerequisites: MET 353, MET 354 and MET 357.

This course gives the students the basic skills necessary for broadcasting weather information on TV. This course will focus on the basic principles and techniques of effective TV weather broadcasting.

A course specifically designed for students minoring in meteorology. Students are introduced to weather forecasting concepts and methods. Prerequisite: MET 353.

A course specifically designed for students minoring in meteorology. Weather forecasting techniques are discussed with an emphasis on the use of meteorological models and severe weather forecasting. Prerequisite: MET 401.

Students will be introduced to computer applications that are commonly used in meteorology. Simple programming skills will be developed using FORTRAN, including UNIX programming, and data visualization. In addition, students will gain experience with the GrADS meteorological graphics package and the MM5 numerical weather model. Although the course will consist of some theory, it will mostly involve hands-on assignments. Prerequisite: MET 355.

This course will focus on the structure and behavior of tropical cyclones. Students will be introduced to the physics and dynamics of tropical cyclones and the equations that describe them. In addition, students will be exposed to a research environment where they will utilize scientific journals and participate in a simulated scientific conference. Prerequisite: MET 354.

Principles of dynamic meteorology are applied to current surface and upper air analyses of frontal cyclones. An emphasis is placed on forecasting techniques, daily weather discussions, and continuity and analysis. Prerequisites: MET 355, MET 356, or instructor permission. Fee.

Through the use of surface and upper air analysis, satellite and radar imagery, and the principles of atmospheric dynamics, convective weather systems are studied and forecast. Special attention will be placed on predicting and monitoring severe weather events, using computer model forecasts, and daily weather discussions. Prerequisite: MET 454. Fee.

Training in the application of climatology to solve real world problems. In addition to an examination of present day climate patterns, their causes, and mechanisms, the course focuses on the El Nino, recent and past climates, the natural and human impact on the earth's energy balance, Greenhouse warming and chaos theory. Prerequisites: MET 341 and 353.

Meteorology topics not covered in current meteorology courses.
Departmental seminar investigating a special field of meteorology. (Topic announced prior to registration.) May be repeated once when content varies.

**MET 494 Directed Studies**  
1-4 cr  
Independent research in field, laboratory, or library under the direction of a member of the meteorology faculty.

**MET 496 Internship in Meteorology**  
1-2 cr  
On-the-job learning through occupational or professional work with an approved firm or agency. Open only to meteorology majors. Prerequisite: Permission of department chair.

**MET 497 Broadcast Meteorology Practicum I**  
3 cr  
This course focuses on introducing the student to the ever evolving technology in broadcast meteorology. Emphasis is placed on the application of meteorological data through the use of professional television weather graphics systems in order to develop a "weather story." Particular attention is given to the use of chroma key mechanics/techniques for public viewing. Prerequisite: MET 359.

**MET 498 Broadcast Meteorology Practicum II**  
3 cr  
This course focuses on communicating accurate forecasts and other important weather info to the public. Attention is given to fine-tuning the on-air weather presentation style, as well as developing a professional resume tape of weather shows in order to gain employment as a broadcast meteorologist. Special attention is given to severe weather cut-ins and accurately conveying severe weather threats to the public. Prerequisites: MET 497 and permission of department chair.

<td>Research Seminar</td>
<td>1 cr</td>
</tr>
</tbody>
</table>
Students and faculty present a research topic for discussion before members of the department. The presentations are usually scheduled on a rotational basis. The student may present research data for critique by the faculty.

**MIC 799 Research/Dissertation 1-6 cr**

Independent research by the student under the sponsorship of the graduate faculty in individual departments in the Basic Medical Sciences. Prerequisite: Approved formal research proposal.

[College of Medicine](http://www.southalabama.edu/bulletin/courmic.htm)
MILITARY SCIENCE (MS)

MS 101  Basic Military Skills I  1 cr
An introductory course of instruction and participation in common task skills required to prepare cadets to perform as members of small military units. Contracted students are required to attend Physical Training (PT) Lab two (2) times per week for 1 hour per session.

MS 102  Basic Military Skills II  1 cr
A continuing course of instruction and participation in individual common task skills required to prepare cadets to perform as members of small military units. Contracted students are required to attend Physical Training (PT) Lab two (2) times per week for 1 hour per session.

MS 201  Intermediate Military Skills I  2 cr
A further development of common task skills required to prepare cadets to lead small military units. Emphasis on practical application of basic military skills and ability through development of leadership skills. Contracted students are required to attend Physical Training (PT) Lab two (2) times per week for 1 hour per session. Fee.

MS 202  Intermediate Military Skills II  2 cr
A further development of common task skills required to prepare cadets to lead small military units. Emphasis on practical application of basic military skills and ability through development of leadership skills. Contracted students are required to attend Physical Training (PT) Lab two (2) times per week for 1 hour per session. Fee.

MS 301  Advanced Military Skills I (W)  3 cr
Intensive instruction and practical application of principles required to lead military units. Emphasis on squad and platoon level leadership techniques. Contracted students are required to attend Physical Training (PT) Lab three (3) times per week for 1 hour per session. Fee.

MS 302  Advanced Military Skills II  3 cr
Intensive instruction and practical application of principles required to lead military units. Emphasis on squad and platoon level leadership techniques. Contracted students are required to attend Physical Training (PT) Lab three (3) times per week for 1 hour per session. Fee.

MS 401  Leadership Skills I  3 cr
Intensive study and work involving the daily operation and supervision of military units. Special emphasis on leadership responsibilities, military justice, ethical behavior, and decision making. Contracted students are required to attend Physical Training (PT) Lab three (3) times per week for 1 hour per session. Fee.

MS 402  Leadership Skills II (W)  3 cr
Continued intensive study and work involving the daily operation and supervision of military units. Special emphasis on leadership responsibilities, military justice, ethical behavior, and decision making. Contracted students are required to attend Physical Training (PT) Lab three (3) times per week for 1 hour per session. Fee.

MS 494  Directed Studies  1-3 cr
Directed study and research. May be repeated in different subject areas. Course work will be specified by the instructor prior to the beginning of the semester. Studies may include but are not limited to research papers, special projects, and leadership seminars. Fee.

Department of Military Science

College of Arts and Sciences
### MUSIC, APPLIED (MUA, MUB)

NOTE: All applied music courses (MUA and MUB), except recital courses (MUA 100, 300, 400 and 500), require a special fee.

#### MUA 100 Recital Class No Credit
A convocation required each semester of all full-time music majors meeting each week in laboratory session to hear performances, perform, and discuss performing techniques, in addition to attending nine public programs. Six semesters of successful participation required for graduation with adjustments for transfer students.

#### MUA 300 Junior Recital No Credit
Performance concentration junior recital. To be taken with a 400 level applied music course.

#### MUA 400 Senior Recital No Credit
Bachelor of Music for all concentrations degree senior recital. To be taken with the appropriate 300 or 400 level applied music course.

</table>

The techniques of teaching percussion instruments and the development of some proficiency on all percussion instruments.
MUE 346 Marching Band Techniques 1 cr

The techniques of organization, administration, instruction, and rehearsal of the marching band. Prerequisite: Music major.

MUE 411 Woodwind Pedagogy 2 cr

A survey of the teaching techniques, instruments, accessories and pedagogical materials for woodwind instruments. Prerequisite: Upper division studio study in woodwinds or permission of instructor.

MUE 412 Brass Pedagogy 2 cr

This offering is intended as a technique course specific to high brass (trumpet/horn) and low brass (trombone/euphonium/tuba). Topics of study will include: developing manual technique; the study and analysis of etudes and in-depth discussion of etude material for specific and efficient use; techniques for preparation and performance of concertos and sonatas; the basics of chamber music; an in-depth examination of the pedagogical literature for the brasses; strategies for controlling performance anxiety. Prerequisite: Upper division or above in brass studio studies or permission of instructors.

MUE 413 Percussion Pedagogy 2 cr

A comprehensive study of methods and materials used to teach percussion instruments. Prerequisites: Required of percussion performance concentration; highly recommended for all percussion majors; instructor permission for other students.

MUE 414 Guitar Pedagogy 2 cr

A survey of the teaching techniques, instruments, accessories and pedagogical materials for guitar. Prerequisite: Upper division studio study in guitar or permission of instructor.

MUE 444 Elementary/ School Music (W) 3 cr

Music program, methods, music literature, and teaching aids for elementary school students. Prerequisites: Junior level or above in music education concentration, admission to candidacy, completion of two-thirds of teaching field.

MUE 446 Piano Pedagogy 2 cr

Methods and materials for the private lesson. Lab practice in teaching included. Offered in alternate years. Prerequisite: Piano major or piano concentration.

MUE 448 Vocal Pedagogy 2 cr

Theory and practice of the art of teaching singing as it relates to Voice Science, with regard to both current and historical practices, physiology, function, acoustics, observations, and hands-on experience. Prerequisite: Upper division or above in vocal studio studies.

MUE 455 Teaching Music in Middle and Secondary Schools 3 cr
Assists the student in organizing materials and in developing methods of teaching music in middle and secondary schools. Prerequisites: Junior level or above in music education concentration, admission to candidacy, completion of two-thirds of teaching field.

MUE 501 Instrumental Music Education 3 cr

Study of the organization, development, appraisal, role and future trends of instrumental programs in the public schools.

MUE 590 Special Topics 1-3 cr

Special topics in music education designed to meet specific needs and special interests, and to explore current issues in the field. May be repeated for a maximum of nine hours credit when content varies

**MUS 201 Introduction to Music Education Technology**

Application of current Music Technology for the N-12 curriculum. Laboratory experience is given in selected software programs appropriate to music education. Fee. Prerequisite: MUT 213 or instructor consent.

**MUS 202 Vocal Diction I**

A lecture/performance course, rooted in the International Phonetic Alphabet (IPA), designed to enable singers to analyze and perform vocal repertoire in English, Italian, and Latin.

**MUS 203 Vocal Diction II**

A lecture/performance course, rooted in the International Phonetic Alphabet (IPA), designed to enable singers to analyze and perform vocal repertoire in German, French, and Spanish. Prerequisite: MUS 202.

**MUS 204 Introduction to Music Business**

A general overview of the music industry is the primary objective of the course. Some emphasis will be placed on career options.

**MUS 304 Principles of Music Business I**

A continuation of MUS 204, 304 will place emphasis on the legal aspects of the music industry. Prerequisite: MUS 204 or permission of instructor.

**MUS 305 Principles of Music Business II**

A continuation of MUS 304, 305 will address marketing and promoting in music. Prerequisite: MUS 304 or permission of instructor.

**MUS 404 Recording Technology**

This course provides an overview of analog and digital audio, introduces students to basic recording/mixing tools and techniques, and cross-platform hardware/software systems. Specific topics include: microphone and mixer preparation, studio and computing equipment, analog capture, analog to digital conversion, and digital capture/edit. Also addressed are: project management, asset management, writing media to disk/CD-R/DVD-ROM, archiving, and presentation of completed projects. Prerequisite: Consent of instructor.

**MUS 421 Music, Sound and Multimedia**

This course familiarizes students with the techniques and materials for incorporating sound and music in the Wintel and Macintosh multimedia environments. Topics to be addressed will include making music with and without MIDI, sound resources, special effects, commercial libraries and sounds, digital sequencing, authoring environment, and legal issues.

**MUS 422 Sequencing**

To familiarize students with professional-level music sequencing software, hardware, and techniques. Students will gain practical skills with MIDI recording, playback, and editing.

**MUS 470 Internship in Music Business**

9-12 cr
Internship is a program that provides qualified university students with supervised experience in production practice, management techniques, research applications, personnel matters, and other activities found in modern music industry. Prerequisites: Completion of the Music Business Concentration core including College of Business course requirements, permission of the participating business/organization, and approval of the departmental internship coordinator and department chair.

**MUS 490 Special Topics in Music Technology 1-3 cr**
This course introduces students to fundamental techniques and materials for working with studio-quality sound, hardware, and software. Topics will be drawn from: MIDI/music networks, graphic notation, MIDI controllers/sequences, sampling basics, and film and video synchronization fundamentals. May be repeated for a maximum of nine credit hours. Prerequisites: MUS 421, 422 or consent of the instructor.

**MUS 521 Music, Sound and Multimedia 3 cr**
This course familiarizes students with the techniques and materials for incorporating sound and music into Multimedia environment. Topics to be addressed include making music with and without MIDI, sound resources, special effects, commercial libraries and sounds. Digital Sequencing, Authoring Environments, and legal issues.

**MUS 590 Special Topics in Music Technology 1-3 cr**
Special topics in Music Technology. May be repeated for a maximum of nine hours credit when content varies. Prerequisite: MUS 522 or consent of instructor.

Department of Music

College of Arts and Sciences
**MUSICAL ORGANIZATIONS (MUO)**

(Auditions are required for some organizations. Contact the Department of Music for specific information)

Lower division credit is for 1st and 2nd year students. Upper division credit is for 3rd and 4th year students and reflects increased responsibility and leadership within the section and/or ensemble as assigned by the conductor/director. Graduate credit requires assisting the conductor/director with logistics, rehearsals, and presentation of concerts. Each number to be repeated four times for a two-year sequence of the course.

Department of Music

College of Arts and Sciences
NU 300  Foundations of Professional Nursing (W)  3 cr
Foundational course on nursing concepts and theories related to health promotion and maintenance to facilitate healthy lifestyles and meet basic human needs. Exploration of professional nursing roles and strategies in promoting the health of individuals and families within a variety of acute and community settings. The emphasis is on the use of the nursing process as a systematic approach to health promotion and maintenance. Prerequisites/Corequisites: NU 325, HSC 342, HSC 343. Corequisite: NU 301.

NU 301  Foundations of Professional Nursing Clinical  2 cr
Application of concepts and theories related to health promotion and maintenance with individuals and families in a variety of settings to facilitate healthy lifestyles and meet basic human needs. Also provides opportunity for the development of clinical competency in the performance of selected nursing skills and procedures. Clinical practice experiences with individuals and families in a variety of acute and community settings will be provided. Prerequisite/Corequisites: NU 325, HSC 342, HSC 343. Corequisite: NU 300.

NU 304  Research for Health Professions (W)  3 cr
Surveys the research process through computer-assisted instruction. The focus is on the research process, methods for critiquing research, and ethical and legal implications. Emphasis is on the importance of research to nursing practice and the development of critical consumers of nursing research. Requires professional component standing.

NU 325  Health Assessment  4 cr
Nursing assessment of the whole person and includes physical, psychological, sociocultural, and spiritual assessment of the adult and child. Emphasis on the development of skills in obtaining a health history and performing health assessment across the lifespan. Prerequisite: Admission to professional component or special permission of instructor.

NU 327  Pathophysiological Basis of Nursing  3 cr
This course provides students knowledge related to physiology and alterations in physiology of individuals with health problems. The course focuses on theory and research applicable to the cardiovascular, pulmonary, genitourinary, gastrointestinal, immune, neurological, musculoskeletal, and endocrine systems. This course provides students with a foundation for providing nursing care to persons having acute, chronic and long-term health care problems. Prerequisite: Admission to professional component or special permission of instructor.

NU 390  Special Topics  1-4 cr
Study of a significant topic or problem in Nursing and the Health Professions. Course may be repeated for a total of four credits.

NU 394  Directed Study  1-4 cr
Individual study in a nursing area chosen in consultation with instructor.

NU 409  Nursing Issues and Leadership  3 cr
Continuation of the socialization process of students as professional nurses. Focuses on professionalism, leadership roles and functions, management strategies, continued professional development, and issues and trends in nursing and health care. Emphasis on the professional nurse as a leader in improving patient care and cost effectiveness of health care. Prerequisites/Corequisites: AHN 447, AHN 448.

</tbody>
</table>
The purpose of this course is to analyze selected advanced nursing roles. Emphasis is on framework components and concepts which provide the basis for specialization and expansion of roles for advanced nursing practice.

NU 513 Advanced Nursing Research 3 cr
The purpose of this course is the critical evaluation of methods designs, and issues in nursing research. The focus is on research design, implementation, and analysis of data in advanced nursing practice.

NU 514 Research Project 1 cr
The purpose of this course is to provide a research practicum with a health care researcher. The focus is on collaborative research in advanced nursing practice. Prerequisite: NU 513. Corequisite: AHN 552 or AHN 572 or CMN 552 or CMN 572 or MCN 542 or MCN 552 or MCN 572 or NU 528 or NU 566.

NU 518 Advanced Nursing Assessment 3 cr
This course is designed to further develop the student's advanced knowledge and skills for obtaining and recording a systematic health history and advanced physical examination of individuals and families across the lifespan. The course involves the synthesis of nursing, biologic, psychologic, and socio-cultural knowledge and theories as applied to the findings obtained in the comprehensive health assessment. The central objective is the development of cognitive and clinical skills needed to provide comprehensive care to individuals of all ages in primary, secondary, and tertiary care settings. Corequisite: NU 519.

NU 519 Advanced Nursing Assessment Practicum 1 cr
The purpose of this course is to provide a practicum experience in which the student will have the opportunity to become proficient at obtaining and recording a comprehensive health history and advanced physical assessment of individuals appropriate to their clinical specialty area. Corequisite: NU 518.

NU 522 Educational Technology for Nurse Educators 3 cr
Course provides students the opportunity to develop competence in basic and advanced software essential to executing the nurse educator role in the classroom and online.

NU 524 Clinical Concepts and Cultural Competency in Advanced Nursing Practice II 3 cr
Continued analysis and evaluation of advanced clinical concepts and the role of nursing in providing evidenced based care to facilitate positive health outcomes. Prerequisites: NU 523, NU 545, NU 578, NU 518, NU 519. Corequisite: AHN 525 or CMN 525 or MCN 525 or special permission of instructor.

NU 526 Nursing Education Practicum 4 cr
Supervised practicum in the role of the nurse educator. The purpose of this course is the synthesis of nursing education theory in practicum experience. Focus is on the application of nursing education theory in developing, teaching, and evaluating an education unit, exemplifying the nurse educator role, and adhering institutional and legal guidelines. Prerequisites: NU 524, AHN 525 or CMN 525, or MCN 525, NU 527, NU 528. Prerequisites/Corequisites: NU 508, NU 513, NU 514, HSC 568. Corequisite: NU 529 or special permission of instructor.

NU 527 Curriculum and Evaluation in Nursing Education 3 cr
Analysis and synthesis of theories and concepts related to curriculum development and evaluation in nursing. Emphasis is on institutional purposes, goals, nursing curricula, evaluation, and nursing education research. Prerequisite/Corequisite: NU 506 or special permission of instructor.

NU 528 Instructional Design in Nursing Education 3 cr
Analysis and synthesis of theories and concepts related to instructional design in nursing practice and education. Emphasis is on institutional purposes and goals, classroom and clinical instruction, staff development, and nursing education research.

</table>

The purpose of each course is as follows:

**NU 529 Nursing Education Seminar 2 cr**
The purpose of this course is to provide a forum for the evaluation of issues and trends encountered in nursing education. Emphasis is on critical analysis and management of these issues by nursing educators. Prerequisites: NU 524, AHN 525 or CMN 525, MCN 525, NU 527, NU 528. Prerequisites/Corequisites: NU 508, NU 513, NU 514, HSC 568. Corequisite: NU 526 or special permission of instructor.

**NU 539 Advanced Nursing Informatics 1-3 cr**
Focuses on the components of nursing information systems. Topics include analysis of available software for managing personnel budgets, and data. Basic computer experience required. Prerequisite: Permission of Instructor.

**NU 545 Physio-Pathological Basis of Advanced Nursing 3 cr**
The purpose of this course is to provide the advanced practice nurse with knowledge of normal physiology and alterations in physiology in individuals across the life span. The focus is theory and research applicable to organ systems and cellular events. Emphasis is on regulatory and compensatory functions in health and in pathophysiological conditions.

**NU 552 Human Sexuality and Nursing 3 cr**
Focus is on the development of a theoretical basis for advanced nursing practice with clients having sexual concerns. Emphasis is on developing self awareness and on strategies for advanced nursing practice.

**NU 561 Nursing Administration Concepts and Theory 3 cr**
The purpose of this course is to provide a forum for analysis and synthesis of selected theories, issues and trends, and research for the nurse administrator role. Emphasis is placed on development of a framework for practice for the role of nurse administrator, organizational structure, and nursing model in the changing sociopolitical economic environment.

**NU 562 Resource Management in Advanced Practice Nursing 3 cr**
The purpose of this course is to examine concepts and methods of managing resources in advanced practice nursing in public health. The focus is on human, physical, and financial resource management in a variety of health care environments. Emphasis is on the application of leadership and motivation theories for interdisciplinary team management as well as provision of cost effective services in a quality, culturally sensitive care environment.

**NU 565 Nursing Administration Finance 3 cr**
The purpose of this course is synthesis of the fiscal processes in health care systems to include basic accounting, financial decision-making concepts, statement analysis, and information systems in advanced nursing and healthcare management.

**NU 566 Nursing Administration Field Study 3 cr**
The purpose of this field experience course is to provide students an opportunity to explore and analyze the structure, regulation, and operation of a selected health care system. Focus is on systems organization, and communications analysis in a selected health care organization. Prerequisites: NU 506, 562, 565. Prerequisites/Corequisites: NU 561, HSC 571.

**NU 567 Nursing Administration Internship 4 cr**
The purpose of this culminating course is to provide a preceptor and faculty facilitated experience in the nurse administrator role with a focus on the application and synthesis of knowledge and skills acquired in all previous courses. Prerequisites/ Corequisites: NU 506, NU 508, NU 513, NU 514, HSC 568. Prerequisites: NU 561, NU 562, NU 566. Corequisite: NU 568.

**NU 568 Nursing Administration Seminar 2 cr**
The purpose of this course is to provide a forum for the evaluation of issues and trends encountered in health care. Emphasis is on critical analysis and management of these issues by nursing administration. Prerequisites/Corequisites: NU 506, NU 508, NU 513, NU 514, HSC 568. Prerequisites: NU 561, NU 562, NU 566. Corequisite: NU 567.

**NU 578 Pharmacology for Advanced Practice Nurses** 3 cr
The purpose of this course is to expand the pharmacological knowledge of the advanced practice nurse. The focus is the selection and monitoring of drug therapy for persons throughout the lifespan. Emphasis is on pharmacokinetics and pharmacotherapeutics of major drug classifications. Prerequisite: NU 545.

**NU 580 Health Care Problems of the Rural South** 3 cr
Orientation of health care problems of the rural South. Opportunity to assess, develop, and implement nursing intervention techniques in selected settings.

**NU 582 Consultation in Nursing Practice** 3 cr
Focuses on the steps of the consulting process in advanced nursing practice with an emphasis on assessment, planning and the communication of findings. Theoretical frameworks and models for consultation are analyzed.

**NU 590 Special Topics** 1-6 cr
Study of significant topics or problems in nursing and the health professions. Content will vary. May be repeated.

**NU 594 Directed Studies** 1-9 cr
Directed study under the direction of a member of the graduate faculty.

**NU 599 Thesis** 1-3 cr
The purpose of this course is to provide an opportunity to complete a research study with the guidance of a graduate faculty committee. The focus is on research in advanced nursing practice.

**NU 690 Special Topics** 1-4 cr
Selected topics in Nursing Science and/or Nursing Education.

**NU 694 Directed Study and Research** 1-6 cr
Directed study and research facilitated by a member of the graduate faculty.

---

**College of Nursing**
OCCUPATIONAL THERAPY (OT)

OT 101  Introduction to Occupational Therapy  2 cr
An introduction to the occupational therapy profession and the scope of occupational therapy practice. Includes self assessment and development strategies to enhance students' readiness for the professional component of the occupational therapy curriculum. Familiarizes students with the functions, policies and services of the University, College and Department and includes an exploration of related allied health professions.

OT 499  Senior Honors Project - (H, W)  3-6 cr
Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research project relevant to the field of Occupational Therapy study that will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty members chaired by the honors mentor. This course is required for Honors recognition and may be repeated for up to six credit hours. Prerequisites: Permission of the department chair and completion of an approved project prospectus.

OT 500  Occupation in Context  3 cr
An in-depth, interdisciplinary study of the form, function and meaning of human occupation in a variety of environments including the therapeutic context. Includes an introduction to the occupational science literature and discussion of the impact of occupation on health and well-being. Special fee.

OT 502  Occupational Development I  3 cr
Study of human occupational development, including developmentally appropriate roles, tasks and activities. Covers prenatal period through adolescence. Emphasis is on normal human development, with some consideration of abnormal development.

OT 503  History and Philosophy of Occupational Therapy  3 cr
Explores the history and development of occupational therapy within the context of national and international events. Philosophies inherent to the field will be explored with an overview of the life-span approach to "occupation". Includes discussion of official documents guiding the profession and legislative changes affecting the current and future practice of the profession. Students will be required to learn terminology utilized by occupational therapists.

OT 505  Scientific Inquiry I (W)  3 cr
An introduction to qualitative and quantitative research concepts and statistical methods with emphasis on evidence-based practice and outcomes research. Includes library search strategies, critical analysis of scientific literature, application of statistical methods and research designs, and scientific writing skills.

OT 510  Theoretical Foundations of Occupational Therapy (W)  3 cr
Introduction to the prevalent theories and fundamental concepts guiding occupational therapy. Includes similarities and differences among major theories. Emphasizes application of these theories to professional practice in occupational therapy. Special fee.

OT 512  Occupational Development II  3 cr
Occupational Therapy (OT)

Study of human occupational development, including developmentally appropriate roles, tasks and activities. Covers young adulthood through senescence and death. Emphasis is on normal human development, with some consideration of abnormal development.

OT 514  Neuromusculoskeletal Dimensions of Occupational Performance  5 cr
Study and analysis of neurophysiological and musculoskeletal processes that facilitate, or through dysfunction impair functional abilities. Emphasizes application of basic scientific knowledge as it relates to human occupational performance. Special fee.

OT 517  Occupational Evaluation I  3 cr
An overview of the evaluation process in occupational therapy. Includes the theoretical basis of evaluation, selection of appropriate data gathering methods, use of standardized and non-standardized assessment tools, interpretation of results and documentation of evaluation findings.

OT 519  Professional Development Seminar I  2 cr
Introduction to professional behavior and interpersonal dynamics in a seminar format. Emphasizes self-awareness, self-assessment, communication issues and the value of life-long learning.

OT 520  Occupational Intervention I  5 cr
Occupational therapy intervention for persons with developmental and acquired impairments and disabilities affecting self care skills. A life-span approach will be taken with emphasis on occupational performance components and context. Therapeutic interventions will emphasize problem-solving, critical reasoning, and occupational performance synthesis to enhance occupational performance and adaptation. Special fee.

OT 521  Practicum I  1 cr

OT 524  Biomedical and Phenomenological Perspectives on Disability I  3 cr
Biomedical etiology, diagnostic procedures, prognosis, and medical management including pharmacotherapies of selected disorders are presented and contrasted with phenomenological perspectives based on personal narratives. Includes the identification of the consequences of the disorders and their impact on occupational performance.

OT 525  Documentation  2 cr
Overview of basic professional writing skills including: reporting evaluation data, intervention plans, progress notes, and discharge summaries. Includes understanding the varied purposes of documentation as well as legal and ethical issues in documentation.

OT 527  Occupational Evaluation II  3 cr
Orientation to and practice in the use of both standardized and non-standardized assessment tools appropriate for evaluating persons with developmental and acquired impairments and disabilities affecting occupational performance. Special fee.

OT 529  Professional Development Seminar II  1 cr
Seminar preparing the student for placements in fieldwork level I settings. The role of fieldwork in education, the role of the student and fieldwork supervisor will be discussed. Problem-solving strategies will be used to facilitate professional growth.

OT 530  Occupational Intervention II  5 cr
Occupational therapy intervention for persons with developmental and acquired impairments and disabilities affecting play/leisure skills. A life-span approach will be taken with emphasis on occupational performance components and context. Therapeutic interventions will emphasize problem-solving, critical reasoning, and occupational performance synthesis to enhance occupational performance and adaptation. Special fee.

**OT 531 Practicum II** 1 cr

**OT 534 Biomedical and Phenomenological Perspectives on Disability II** 3 cr
Biomedical etiology, diagnostic procedures, prognosis, and medical management including pharmacotherapies of selected disorders are presented and contrasted with phenomenological perspectives based on personal narratives. Includes the identification of the consequences of the disorders and their impact on occupational performance.

**OT 536 Management** 3 cr
Explores the application of the principles of organizational management to the development and administration of occupational therapy programs in the emerging health care environment.

**OT 539 Professional Development Seminar III** 2 cr
Designed to facilitate students’ transition from didactic and part-time fieldwork components of the curriculum to the required full-time fieldwork experience. Emphasizes professional behavior, clinical reasoning and ethical issues.

**OT 540 Occupational Intervention III** 5 cr
Occupational therapy intervention for persons with developmental and acquired impairments and disabilities affecting work skills. A life-span approach will be taken with emphasis on occupational performance components and context. Therapeutic interventions will emphasize problem-solving, critical reasoning, and occupational performance synthesis to enhance occupational performance and adaptation. Special fee.

**OT 541 Practicum III** 1 cr
Observation and limited participation in clinical and community-based settings. Emphasis on assessment and intervention in performance of occupations related to work.

**OT 545 Scientific Inquiry II** 3 cr
The application of qualitative and quantitative research concepts and statistical methods in the development and implementation of a scholarly project. Includes data collection and preliminary analysis.

**OT 546 Supervision** 2 cr
Application of the principles of supervision with special emphasis on the appropriate roles and use of the Certified Occupational Therapy Assistant (COTA), aides and non-OT personnel.

**OT 548 Advanced Technology in Occupational Therapy** 2 cr
An introduction to microcomputer utilization in Occupational Therapy. Includes an examination of software, hardware and peripheral devices that facilitate computer access and productivity. Uses of computer technology in Occupational Therapy evaluation, treatment and administration will be explored. Special fee.

**OT 549 Professional Development Seminar IV** 1 cr
Occupational Therapy (OT)

Designed to facilitate students' transition from didactic and part-time fieldwork components of the curriculum to the required full-time fieldwork experience.

**OT 550 Level II Fieldwork (A) 6 cr**
A directed experience in evaluation, planning and implementing occupational therapy services under the supervision of an experienced, certified occupational therapist. Designed to emphasize critical reasoning, entry-level skill acquisition and integration of didactic knowledge with practice.

**OT 555 Level II Fieldwork (B) 6 cr**
A directed experience in evaluation, planning and implementing occupational therapy services under the supervision of an experienced, certified occupational therapist. Designed to emphasize critical reasoning, entry-level skill acquisition and integration of didactic knowledge with practice.

**OT 560 Professional Issues 3 cr**
A discussion of a variety of issues of professional concern including, but not limited to: OT's role in non-traditional practice arenas; professional ethics; implications of cultural diversity for health care service delivery; credentialing; health care reform; and current controversies in the field.

**OT 565 Scientific Inquiry III 3 cr**
Completion of a scholarly project and preparation of the results for presentation in professional formats. Special fee.

**OT 566 Leadership 3 cr**
Explores concepts and theories of leadership, profiles occupational therapy leaders throughout history, and provides training in leadership skills needed by future professionals. Emphasizes the importance of leadership in context, interdisciplinary teaming and the nature of change processes and diffusion of innovations.

**OT 570 Community-Based Intervention 3 cr**
Occupational therapy intervention for clients in community settings. A life-span approach will be taken with emphasis on occupational performance areas and contexts. Community interventions will emphasize problem-solving, critical reasoning and occupational analysis to enhance performance and adaptation. Includes health promotion and disease/disability prevention strategies, innovative program development, evaluation and funding strategies, and community health concepts. Special fee.

**OT 575 Advanced Professional Writing 3 cr**
Covers a variety of types of professional writing useful to occupational therapists including: grant proposals; journal articles; books; client education materials; and presentation proposals and papers. Includes both the form and content of a range of technical documents as well as the processes of writing, peer review and critique.

**OT 580 Level II Fieldwork (C) 4 cr**
A directed experience in evaluation, planning and implementing occupational therapy services under the supervision of an experienced, certified occupational therapist. Designed to emphasize critical reasoning, entry-level skill acquisition and integration of didactic knowledge with practice.

**OT 585 Level II Fieldwork (D) 4-12 cr**
A directed experience in evaluation, planning and implementing occupational therapy services under the supervision of an experienced, certified occupational therapist. Designed to emphasize critical reasoning, entry-level skill acquisition and integration of didactic knowledge with practice.

**OT 590 Special Topics 1-6 cr**
A variable topics course covering areas not available in other occupational therapy courses. A subtitle identifying the topic will be entered on the student's record.
OT 598 Independent Study in Occupational Therapy 1-6 cr
Special studies directly relevant to the practice of occupational therapy. The student will select an area of interest in which they wish to become more proficient. A faculty member will provide guided study, supervision and assistance in developing appropriate learning experiences.

Department of Occupational Therapy
College of Allied Health Professions
PHARMACOLOGY (PHA)

PHA 540 Medical Pharmacology 7 cr
This course is designed to provide the student with a basic understanding of the actions of drugs and their clinical uses. Basic principles, including dose-response relationships and receptor theory, are emphasized. Current concepts of drug effects, mechanisms, and sites of action are explored in detail with respect to major classes of drugs. Important considerations are also given to drug interactions and the toxicology of therapeutic agents, chemicals in the environment, and other biologically active substances.

PHA 546 Literature Reports 1 cr
Students and faculty participate in a supervised reading of the current literature and meet periodically (usually once a week) to interact in a discussion of the selected article or topic. The goal of this course is to maintain the faculty's and students' level of information at a "state of the art" in both methods and theory in the discipline and to develop critical skills in reviewing the literature.

PHA 547 Directed Studies 1-6 cr
Students participate in research under the direction of a graduate faculty member. The student may pursue independent research or participate in a literature project.

PHA 548 Physiological Pharmacology 6 cr
This course covers both cellular and organ system physiology. It is designed to prepare graduate students for Medical Pharmacology (PHA 540), for research in pharmacology, and includes reading and discussion of articles from the literature.

PHA 549 Special Topics 1-3 cr
Each course provides in-depth tutorial exposure to specific areas in the discipline. Student and/or faculty presentations followed by group discussions (usually in the Socratic mode) examine the subject matter in an area of current interest either to one student or to a group of students. Credits and titles are arranged with an individual faculty member.

PHA 640 Molecular and Cellular Pharmacology 3 cr
In this course, the central themes of signal transduction from cellular receptor to amplified response, structure-activity relationships, and drug design are studied comprehensively. Specific topics include receptor-ligand interactions, receptor structure and coupling mechanisms, the biochemical and molecular aspects of G-proteins, protein phosphorylation mechanisms, molecular modeling and protein crystallography. Prerequisites: Biochemistry.

PHA 643 Molecular and Cellular Toxicology 3 cr
This course is concerned with the mechanisms by which toxic substances exert their effects at the molecular and cellular level. Detailed analysis of the processes by which toxic materials are metabolized to toxic intermediates is addressed. The mode of action of how toxic compounds interact with structural proteins and other macromolecules, enzymes and receptors, and the genome is included. Examples of toxicity of the heart, liver, lung, pancreas, and brain, including teratogenic, mutagenic, and carcinogenic effects are discussed at the mechanistic level. Prerequisites: Biochemistry.

PHA 646 Research Seminar 1 cr
Students and faculty present a research topic for discussion before members of the department. The presentations are usually scheduled on a rotational basis. The student may present research data for critique by the faculty.

**PHA 799  Research/Dissertation  1-6 cr**
Independent research by the student under the sponsorship of the graduate faculty in individual departments in the Basic Medical Sciences. Prerequisite: Approved formal research proposal.
Any course whose title contains the word "introduction" may be taken as a first course. The department recommends that students take no more than two such introductory courses. Often after a single such course, students should proceed to follow their interests with 200- and 300-level courses.

**PHL 110 Introduction to Philosophy 3 cr**
An introduction to philosophical analysis and criticism through a survey of the major branches of philosophy. Topics may include, but are not limited to: the mind/body problem, theory of knowledge, skepticism, ethics, political philosophy, aesthetics, and philosophy of religion. Core Course.

**PHL 121 Introduction to Logic 3 cr**
Studies arguments: what they are, how to identify them, and how to judge their quality; and examines inductive and deductive arguments in both their informal and formal aspects. Core Course.

**PHL 131 Introduction to Ethics 3 cr**
Examines ideas about good and bad, right and wrong, and moral obligation through a survey of major ethical systems in western philosophy. The course includes consideration of how these ideas apply to moral problems and issues. Core Course.

**PHL 231 Social Ethics (W) 3 cr**
Readings and analyses of ethical issues in society. Topics may include euthanasia, sexual equality, sexual morality, censorship, world hunger, animal rights, the environment, and capital punishment. Core Course.

**PHL 233 Philosophy of Love and Friendship (W) 3 cr**
Love and friendship are investigated by a philosophical analysis of concepts embraced by the terms. Examples of the concepts are drawn from common life, religion, history, and literature.

**PHL 240 Western Philosophy: 3 cr**

- **Classical and Medieval (C)(W)**
  Survey of Greek, Roman, and Medieval philosophy with emphasis on classical Greek philosophy. Core Course.

**PHL 310 Classical Mythology 3 cr**

Through the disciplines of English and Philosophy, this course will provide an introduction to myths and to the literature that recounts the myths, legends, and folktales of ancient Greece and Rome. Not only will this course offer a survey of Greek and Roman myth, but also it will look at how different writers treat the material and why their treatments vary. Prerequisites: EH 101 and EH 102. Cross-listed with EH 310 and REL 310. Credit cannot be received for both PHL 310 and either EH 310 or REL 310.

**PHL 245 Western Philosophy:** 3 cr

**Renaissance/Enlightenment (C)(W)**
Survey of Western philosophy from F. Bacon to Kant with emphasis on the empiricists, rationalists, and Kant.

**PHL 251 Philosophy and Cognitive Science** 3 cr
A survey of central concepts and issues in cognitive science, including an informal introduction to automata theory, intelligent systems architecture, and the philosophical issues arising out of computational models of language and cognition.

**PHL 261 Existentialism** 3 cr
An investigation of human individuality, the individual in relation to society, and authentic versus inauthentic individuality. Philosophers studied can include Kierkegaard, Nietzsche, Heidegger, Sartre, and Camus.

**PHL 290 Special Topics** 1-3 cr
Different themes and issues of philosophical significance will be studied as announced.

**PHL 311 Political Philosophy I:** 3 cr

**Classical and Medieval**
An examination of the central themes of classical Western political philosophy through the reading and discussing of the primary works of such thinkers as Plato, Aristotle, Augustine, and Aquinas. Cross-listed as PSC 311. Credit cannot be received for both PHL 311 and PSC 311.

**PHL 312 Political Philosophy II** 3 cr

**Renaissance and Enlightenment**
An examination of the central themes of classical Western political philosophy through the reading and discussing of the primary works of such thinkers as Machiavelli, Hobbes, Locke, and Rousseau. Cross-listed as PSC 312. Credit cannot be received for both PHL 312 and PSC 312.

**PHL 313 Political Philosophy III 19th Century (W)** 3 cr
An examination of the central themes of classical Western political philosophy through the reading and discussing of the primary works of such thinkers as Hegel, Mill, Marx and Nietzsche. Cross-listed as PSC 313. Credit cannot be received for both PHL 313 and PSC 313.

**PHL 321 Symbolic Logic** 3 cr
A study of sentential and predicate logics and related topics.

PHL 327 Philosophy of the Social and Natural Sciences

Studies such topics as method and explanation in the sciences; realist and anti-realist views about scientific theories; scientific change; and society, science, and values. Attention will be given to the similarities and differences between the social and natural sciences.

PHL 331 Alienation

Alienation, a fundamental element in human existence, is analyzed in the philosophy of Marx, Hegel, Dostoevsky, Nietzsche and Sartre, and then used to interpret characters and situations in selected novels and films.

PHL 333 Biomedical Ethics (W)

Ethical analyses of problems and issues in the biomedical and health-related fields. Topics may include genetic research and technology, abortion, health care, experimentation, and death and dying.

PHL 334 Man and Technology

Examines the most common impacts that technology is envisioned to have on both the spirit of the human person and the environment in which that person lives. Both the technologist and antitechnologist arguments will be explored.

PHL 336 Legal Theory

Explores theoretical issues and problems in the area of law, including theories about the nature of law, legal validity, the relations between morality and law, and our obligation to obey the law. Specific problems, such as legal moralism, are also examined. Cross-listed as CJ 336. Credit cannot be received for both PHL 336 and CJ 336.

PHL 337 Liability and Punishment

Explores theoretical issues and problems in the areas of law (especially criminal law) concerning liability and punishment. Topics to be examined include diminished capacity, theories of punishment, and capital punishment. Cross-listed as CJ 337. Credit cannot be received for both PHL 337 and CJ 337.

PHL 339 Philosophy of Culture

Acquaints students with Cassirer's philosophy of culture, with emphasis on the unity of human experience as ramified into myth, language, religion, art, history, science, and politicosocial life.

PHL 345 Anglo-American Philosophy Since Kant

An examination of selected themes and issues in Anglo-American philosophy since 1800. Topics may include pragmatism, ideal language philosophy, and ordinary language philosophy.

PHL 348 19th Century Continental Philosophy

and Literary Theory
An examination of selected themes and issues in 19th Century Continental Philosophy and Literary Theory. Topics may include Idealism, Romanticism, Existentialism, Marxism, and Freudianism. Identical with EH 348 and LG 348. Credit cannot be received for both PHL 348 and either EH 348 or LG 348. (For LG credit, students will be required to do some coursework in their language of concentration.)

</table>

Different figures or topics of philosophical significance will be studied as announced. May be repeated, when content varies, for a total of six hours.
NOTE: The Department requires at least one lower-level philosophy course or junior standing as a prerequisite for 400-level courses.

**PHL 421* Literary Criticism to 1900 (W) 3 cr**
Classical, Neoclassical, Romantic, and Victorian literary theory. Prerequisites: EH 101 and 102. Identical with EH 421. Credit cannot be received for both PHL 421 and EH 421.

**PHL 422* Literary Criticism Since 1900 (W) 3 cr**
Modern and contemporary literary theory. Prerequisites: EH 101 and 102. Identical with EH 422. Credit cannot be received for both PHL 422 and EH 422.

**PHL 431 Advanced Ethical Theory 3 cr**
Problems in traditional and recent value theory and ethics.

**PHL 441 Theory of Knowledge 3 cr**
Examines knowledge, its scope and limits. Topics may include the conditions, criteria, and grounds for knowledge, and theories of truth and meaning.

**PHL 461 Metaphysics 3 cr**
Studies philosophical theories about the nature of reality, including such topics as what is real, change, the nature of things, universals, and such views as monism, materialism, realism, and idealism.

**PHL 492 Seminar 1-3 cr**
An investigation of issues and concepts in philosophy for advanced undergraduates and graduate students. May be repeated, when content varies, for a total of six hours.

**PHL 494 Directed Studies 1-3 cr**
Directed research in philosophy under the guidance of a member of the department. Credit according to the magnitude of the individual project. May be repeated, if content varies, for a total of three hours. Prerequisites: Junior or senior standing and approval of directing professor and department chair.

**PHL 499 Honors Thesis 3 cr**
Extended research paper prepared under direction of thesis advisor plus two-person committee selected by advisor in consultation with student. Prerequisites: The student must have developed a proposal for the thesis in consultation with the advisor, and received permission for the work from the committee. In addition, the student must be a senior major or minor, have completed the logic and history of philosophy requirements, have at least two courses at the 300-level or higher, and have at least a 3.3 GPA in Philosophy. Credit for this course is only given as an addition to the hours required for the major.

**PHL 590 Special Topics 1-3 cr**
Study of individuals or topics of philosophical significance. May be repeated for credit when content varies. Enrollment is limited to students in disciplines other than philosophy.

Department of Philosophy
PHYSICAL EDUCATION ACTIVITY AND PROFESSIONAL PHYSICAL EDUCATION (PE)

PE 100  Concepts of Health and Fitness  3 cr
An introductory course designed to show students the contributions of physical activity to preventive health. Students learn how to evaluate their physical and nutritional needs, and to design individual programs for healthy living.

PE 101  PE Activity  1 cr
Instruction and practice of basic sport and activity skills. A varying content course that gives students choices from designated semester offerings. May be repeated for credit.

PE 102  Weight Training  1 cr
A progressive resistance training course designed to improve muscular strength and muscular endurance. May be repeated for credit.

PE 103  PE Activity  1 cr
Instruction and practice of sport and activity skills. A varying content course that gives students choices from designated semester offerings. May be repeated for credit. An additional fee will be charged for these activities.

PE 104  PE Activity  1 cr
Instruction and practice of basic sport and activity skills. A varying content course that gives students choices from designated semester offerings. May be repeated for credit. An additional fee will be charged for these activities.

PE 105  PE Activity  1 cr
Instruction and practice in basic sport and activity skills. A varying content course that gives students choices from designated semester offerings. May be repeated for credit. An additional fee will be charged for these activities.

PE 106  Gymnastics  1 cr
Instruction and practice in gymnastics skills. A varying-content course treating different skill levels in gymnastics. May be repeated for credit.

PE 107  PE Activity  1 cr
Instruction and practice of basic sport and activity skills. A varying content course that gives students choices from designated semester offerings. May be repeated for credit. An additional fee will be charged for these activities.

PE 108  Ballroom Dancing  1 cr
Knowledge, skills, and techniques associated with various forms of Ballroom dancing through demonstration, practice, and partnering.

PE 109  Swing Dancing  1 cr
Knowledge, skills, and techniques associated with various forms of swing dancing through demonstration, practice, and partnering.

PE 110  Dance  1 cr
Instruction and practice in dance. A varying-content course treating different types of
dance such as but not limited to: social, folk, square, and dance performance. May be
repeated for credit.

PE 142  Volleyball  1 cr
Instruction and practice in volleyball. May be repeated for credit.

PE 143  Basketball  1 cr
Instruction and practice in basketball. May be repeated for credit.

PE 144  Soccer  1 cr
Instruction and practice in soccer. May be repeated for credit.

PE 145  Jogging  1 cr
Instruction and practice in the activity of jogging designed to improve cardiovascular endurance.

PE 146  Bicycling  1 cr
An introductory course to bicycling for leisure and fitness emphasizing the selection and care of bicycles, safety concerns, apparel, route selection, bike handling skills, and development of a bicycle fitness program.

PE 147  Racquetball  1 cr
Instruction and practice in racquetball. May be repeated for credit.

PE 148  Intermediate Golf  1 cr
Instruction and practice in intermediate golf. Demonstrable beginner golf skills necessary.

PE 149  Ultimate Frisbee  1 cr
Fundamental skills, rules, and strategies with Frisbees with opportunities for participation.

PE 155  Martial Arts  1 cr
Instruction and practice in the various forms of Martial Arts. A varying-content course treating different skill levels of karate, judo, kung-fu, etc. Requires special fee. May be repeated for credit.

PE 157  ICA-Varsity Sports  1 cr
Restricted to members of South Alabama intercollegiate athletic teams by special permission of the respective coaches. Includes but not limited to: basketball, soccer, baseball, track, golf, tennis, and volleyball. May be repeated for credit with the exception of education majors.

PE 166  Movement, Rhythms, and Developmental Activities  3 cr
Movement exploration experiences, developmental games, rhythmic and dance activities are explained, developed, and practiced. Clinical or field experience required.

PE 201  Orientation to Health and Physical Education  3 cr
An overview of the fields of Health, Physical Education and Athletic Training. An introduction to the Department of HPELS followed by a survey of philosophical and historical aspects, and professional preparation standards of the specific fields.

PE 231  ARC Lifeguard Training  3 cr
Prepares the student for American Red Cross Lifeguard, CPR for the Professional Rescuer, and first aid certification. Emphasis is placed on emergency action plans, life guarding techniques, and all forms of victim rescue. Prerequisite: Strong swimmers only. See department secretary for specific skill requirements.

PE 278  Sport and Human Behavior  3 cr
A study of the psychological and sociological aspects of sport and their relationship to human behavior.

<td>Evaluation and Treatment of Athletic Injuries I</td>
<td>3 cr</td>
</tr>
</tbody>
</table>
A study of athletic injuries to the lower extremities and lumbar spine. Prevention, evaluation, and management of these injuries will be explored along with common surgical procedures associated with these sports related injuries and conditions.

PE 386*  Evaluation and Treatment of Athletic Injuries II  3 cr
Prevention, evaluation, and management of injuries to the head, neck, upper extremities, and the trunk will be discussed in detail. Field and clinical strategies for the identification of signs and symptoms will be explored along with common surgical procedures used to treat upper extremity and axial injuries.

PE 396*  Practicum in Athletic Training II  1 cr
A practical and clinical application of techniques utilized in the evaluation and treatment of athletic injuries to the lower extremities and lumbar spine. A minimum of 200 hours of clinical work during afternoon and evening hours and a weekly seminar is required.

PE 397*  Practicum in Athletic Training II  1 cr
A practical and clinical application of techniques utilized in the evaluation and treatment of athletic injuries to the upper extremities, axial skeleton, thorax, and abdomen. A minimum of 200 hours of clinical work during afternoon and evening hours and a weekly seminar is required.

PE 429  Opening School Laboratory Experience  1 cr
Professional laboratory experiences of observation and participation at a local public school.

PE 430*  Student Teaching-Early Childhood/Elementary  4 cr
Observation and supervised teaching with opportunity for study and discussion of problems and issues encountered at the elementary level. Students will be placed with a person holding a valid teaching certificate in the appropriate field. Prerequisite: Admission to teacher candidacy.

PE 452*  Methods of Teaching Physical Education (W)  3 cr
Organizing materials and developing methods of teaching physical education in elementary, middle, and high schools. Field experience required.

PE 460*  Student Teaching-Secondary  1-9 cr
Observation and supervised teaching with opportunity for study and discussion of problems and issues encountered in the secondary schools. Students will be placed with a person holding a valid teaching certificate in the appropriate field. Prerequisite: Admission to teacher candidacy.

PE 461  Physical Education for Atypical Children and Youth  3 cr
Principles and techniques for adapting physical education activities to meet the needs of children with special problems.

PE 470*  Student Teaching in the N-12 Program  9 cr
Observation and supervised teaching with opportunity for study and discussion of problems and issues encountered in the N-12 program. Students will be placed with a person holding a valid teaching certificate in the appropriate field. Prerequisite: Permission of the department.

PE 474  Sport and Fitness Conditioning  3 cr
Study of the theory, principles, methods, and techniques in the development, implementation, and evaluation of various strength and conditioning programs designed to enhance athletic performance and improve physical fitness. The conditioning needs of various populations with disease and degenerative conditions will be examined.

<td>PT 610</td>
<td>Principles of Research</td>
<td>2 cr</td>
<td></td>
</tr>
</tbody>
</table>
An introduction to research concepts and methods, critical analysis of the scientific literature, application of statistical methods and research designs, and basic scientific writing skills.

**PT 611 Research Proposal Development** 2 cr 1 (1) 1 (2)
The application of research concepts and methods in the preparation of a proposal for a team research project including preparation of the proposal for presentation in written and seminar formats.

**PT 612 Research Project** 1 cr 1 (3)
The undertaking of a team research project, including analysis and preparation of the research results for presentation in paper and poster formats. Special fee.

**PT 613 Critical Analysis of Research Literature** 2 cr 1 (1) 1 (2)
An in-depth analysis of research from recently published studies undertaken in topics related to physical therapy.

**PT 614 Measurement in PT** 1 cr 1 (1)
A course exploring theoretical aspects of measurement and the role of measurement in physical therapy.

**PT 620 Clinical Kinesiology** 4 cr 2 (1) 2 (3)
A study of human movement as it relates to clinical physical therapy practice with an emphasis on biomechanical principles of movement and surface anatomy palpation of the musculoskeletal system. Includes laboratory study.

**PT 621 Introductory PT Skills** 2 cr 1 (1) 1 (4)
A course pertaining to basic skills of physical therapy practice including introduction to examination techniques, positioning and draping, transfer training and ambulation with assistive devices. Includes laboratory study. Special fee.

**PT 622 Exercise Physiology** 4 cr 3 (1) 1 (4)
A study of the effect of physical activity on human physiology with an emphasis on the musculoskeletal, cardiovascular/pulmonary, and endocrine systems. Modes of exercise, environmental considerations, and selected clinical populations are also covered in this course. Includes laboratory study.

**PT 623 Therapeutic Exercise I** 3 cr 2 (1) 1 (4)
A general clinical science course including general principles of therapeutic exercise and scientific applications of therapeutic exercise with emphasis on peripheral musculoskeletal conditions. Includes laboratory study.

**PT 624 Therapeutic Exercise II** 2 cr 1 (1) 1 (4)
Specific application of therapeutic exercise and manual therapy techniques with emphasis on intervention for spinal conditions and pain management. Includes laboratory study.

**PT 625 Therapeutic Intervention** 2 cr 1 (1) 1 (4)
A study of specific techniques of therapeutic intervention in physical therapy practice including electrophysical agents and manual therapy techniques. The electrophysical agents unit will include the physical principles, physiological effects, therapeutic uses and clinical application of thermal, mechanical, electrical and photic energy. The manual intervention unit will include manual therapy techniques including soft tissue massage. Includes laboratory study. Special fee.

**PT 626 Health Promotion and Prevention in PT** 1 cr 1 (1)
A course to focus on prevention of impairments, functional limitations or disabilities by identifying disablement risk factors and providing educational intervention to facilitate a positive change in the health behavior of patients.

**PT 627 Medical Screening** 2 cr 2 (1)
A course focusing on the use of screening tests and clinical tools to enhance the therapist's role as an independent practitioner with the ability to identify medical conditions of concern that require referral to a physician.

**PT 628 Mobility, Orthotics and Prosthetics** 3 cr 2 (1) 1 (2)
The study of human functional mobility, including both normal and pathological aspects of locomotion. The course will also address related topics including prosthetics and orthotics.

**PT 630 Musculoskeletal Disorders I** 4 cr 3 (1) 1 (4)
An introduction to musculoskeletal disorders, including the etiology, diagnostic procedures and radiography, medical management and physical therapy examination, evaluation and intervention of selected musculoskeletal disorders of the peripheral joints. Includes laboratory study.

**PT 631 Musculoskeletal Disorders II** 4 cr 3 (1) 1 (4)
A continuation of PT 630 including the etiology, diagnostic procedures and radiography, medical management and physical therapy examination, evaluation and intervention of selected musculoskeletal disorders, with an emphasis on spinal conditions. Includes laboratory study.

**PT 632 Special Topics in Musculoskeletal Disorders** 2 cr 1 (1) 1 (2)
Special topics in the management of musculoskeletal conditions, including ergonomics, sports medicine and musculoskeletal issues in obstetrics and gynecology.

**PT 640 Neuromuscular PT Examination** 3 cr 2 (1) 1 (4)
A study of the principles and concepts of normal human movement and physical therapy examination in patients with diseases of the neuromuscular systems. Includes laboratory study.

**PT 641 Neuromuscular PT Evaluation** 3 cr 2 (1) 1 (2)
This course provides opportunities for clinical decision-making and establishing a plan of care based on examination data including emphasis on prognosis for a wide variety of diseases of the neuromuscular systems. Review of medical management, pharmacologic treatment, radiographic imaging and other diagnostic testing related to neuromuscular disorders. Includes laboratory study.

**PT 642 Neuromuscular PT Intervention** 4 cr 3 (1) 1 (4)
A course to follow PT 640 and PT 641 with added emphasis on principles and concepts of physical therapy intervention in patients with disorders of the neuromuscular systems. Includes laboratory study.

**PT 650 PT in Integumentary Disorders** 4 cr 3 (1) 1 (2)
A study of the practice of physical therapy in management of skin disorders and underlying disease with an emphasis on the patient with open wounds, including burns. Includes laboratory study.

**PT 660 PT in Cardiovascular and Pulmonary Disorders** 4 cr 3 (1) 1 (2)
A study of the principles and practice of physical therapy for patients with cardiovascular and pulmonary disease, including radiography, and medical and surgical management. Includes laboratory study.

**PT 670 Clinical Case Studies I (W)** 1 cr 1 (1)
A course designed to provide opportunities to develop clinical judgment as part of patient management including examination, evaluation based on examination data, establishing a physical therapy diagnosis, consideration of patient prognosis and development of an individualized plan of care. Primary emphasis will be on musculoskeletal disorders.

**PT 671 Clinical Case Studies II** 1 cr 1 (1)
A continuation of PT 670 designed to provide opportunities to develop clinical judgment as part of patient management including examination, evaluation based on examination data, establishing a physical therapy diagnosis, consideration of patient prognosis and development of an individualized plan of care. Disorders of each system including multi-system co-morbidities will be included.

**PT 672 Clinical Case Studies III**
1 cr 1 (1)
A continuation of PT 671 designed to provide opportunities to develop clinical judgment as part of patient management including examination, evaluation based on examination data, establishing a physical therapy diagnosis, consideration of patient prognosis and development of an individualized plan of care. Disorders of each system including multi-system co-morbidities will be included.

**PT 673 Clinical Case Studies IV**
1 cr 1 (1)
A continuation of PT 672 designed to provide opportunities to develop clinical judgment as part of patient management including examination, evaluation based on examination data, establishing a physical therapy diagnosis, consideration of patient prognosis and development of an individualized plan of care. Disorders of each system including multi-system co-morbidities will be included.

**PT 674 Clinical Synthesis and Patient Management**
2 cr 2 (1)
A review and synthesis of physical therapy evaluation, intervention planning and application of intervention techniques in the management and education of patients with specific clinical disorders, emphasizing clinical decision making based upon clinical experience.

**PT 675 Comprehensive Capstone**
1 cr 1 (1)
Occurring in the final weeks of the curriculum, a continuation of PT 674 including an emphasis on comprehensive review and preparation for taking the National Physical Therapy Examination. All students must pass the comprehensive final capstone exam to be awarded the DPT degree.

**PT 680 Professional PT Practice (W)**
2 cr 2 (1)
A study of physical therapy as a profession with emphasis on the patient management model, legal and ethical issues, psychosocial issues and PT/patient relationships. Licensure, practice issues, patient populations and professional interactions will be discussed.

**PT 681 Clinical Practice Issues**
2 cr 2 (1)
An introduction to documentation of physical therapy patient/client management and a review of medical terminology. This course will include use of the Guide to Physical Therapist Practice. Preparation for full-time clinical internships will be addressed including use of the clinical assessment tool, use of OSHA guidelines for universal precautions and TB prevention, and use of risk management reports.

**PT 682 PT Internship I**
7 cr TBA
A planned learning experience of clinical education designed to integrate previous didactic knowledge in a full-time, supervised clinical internship in Physical Therapy practice settings.

**PT 683 PT Internship II**
9 cr TBA
A continuation of PT 682, providing another planned learning experience, designed to integrate previous knowledge in a full-time, supervised clinical internship in Physical Therapy practice settings.

**PT 684 PT Internship III**
10 cr TBA
A continuation of PT 682 and PT 683, providing another planned learning experience, designed to integrate previous knowledge in a full-time, supervised clinical internship in Physical Therapy practice settings.

**PT 685 Management of PT Practice**
3 cr 3 (1)
A study of current organizational and management principles and issues related to health care delivery systems, with special emphasis on the current and future roles of Physical Therapy

Department of Physical Therapy

<td></td>
</tr>
<tr>
<td>PA 531</td>
<td>Issues in Health Care</td>
<td>4 cr</td>
</tr>
</tbody>
</table>
This course provides an introduction to a wide variety of issues pertinent to the health care practitioner in the current environment. Topics to be studied include: 1) Patient Education, 2) Health care management including quality assurance, risk management, billing and coding, reimbursement and medical informatics, 3) Medical-legal concerns, 4) Biomedical Ethics including the concepts of confidentiality and end-of-life concerns, 5) Miscellaneous professional issues such as licensing, certification and credentialing.

**PA 532 Pharmacology I**  
This is the first of two courses that covers classification, mechanism of action, toxicity and clinical use of therapeutic agents. Side effects, dose response and management will be emphasized. Prescriptive practice law covering physician assistants will be examined.

**PA 540 Clinical Medicine IV**  
This is the fourth in a series of four courses in patient assessment. In this course the student will study: 1) History and Physical Exam, 2) Nephrology, 3) Geriatric Medicine, 4) Emergency Medicine, 5) Hematology/Oncology, 6) Neurology, 7) continuation of Medical Research Methods.

**PA 541 Interpretation of Diagnostic Data and Studies**  
The course covers the indications for and interpretation of diagnostic studies relevant to the evaluation of common medical problems. Included in the course are laboratory studies of body fluids and tissues, radiographic studies, electrocardiography interpretation, pulmonary function tests, and ultrasound interpretation.

**PA 542 Pharmacology II**  
The second of two courses that covers classification, mechanism of action, toxicity and clinical use of therapeutic agents. Side effects, dose response and management will be emphasized.

**PA 550 Internal Medicine Preceptorship**  
The student is assigned to a medical setting which emphasizes the assessment and treatment of conditions common to inpatient and outpatient internal medicine problems, as well as appropriate health maintenance measures.

**PA 560 Pediatrics Preceptorship**  
The student is assigned to a pediatric setting and the experience includes both outpatient as well as inpatient practice. The student will gain experience in normal growth and development, pediatric preventive medicine and evaluation of childhood illness. Emphasis is placed on developing communication skills essential for relating to pediatric patients and families.

**PA 570 Primary Care/Family Practice Preceptorship**  
The student is assigned to an outpatient setting which emphasizes the assessment and treatment of conditions common to primary family medicine.

**PA 580 General Surgery Rotation**  
The student is assigned to a surgical team. The rotation emphasizes preoperative evaluation, assisting in the operating room, and post operative management of patients.

**PA 590 OB/GYN Rotation**  
The experience includes outpatient and inpatient components of OB/GYN Practice. The student will learn the assessment and treatment of common gynecological problems, pregnancy and delivery.

**PA 591 Emergency Medicine Rotation**  
The student is assigned to an Emergency Department. The student gains experience in the initial evaluation of emergency patients by performing problem specific examinations and performing minor surgical procedures. The rotation stresses the evaluation and management of the emergency patient.
Physician Assistant Studies (PA)

PA 592   Elective Clinical Preceptorship I  4 cr
Students will choose one of the following rotations: Expected employment practice or any other specialty approved by the faculty.

PA 593   Elective Clinical Preceptorship II  8 cr
Students will choose one of the following rotations: Expected employment practice or any other specialty approved by the faculty.

PA 594   Research Project Presentation  3 cr
During the second semester of pre-clinical work, the students are given a briefing regarding the research project. The project is not due until the last semester of clinical work. The student selects a topic under the direction of a faculty mentor. Once a topic is chosen, an in-depth review of the literature is conducted by the student. The project can be formatted as a case report, comprehensive review, or a research report.

PA 595   Comprehensive Review and Exam  2 cr
The comprehensive examination is the capstone of the Physician Assistant Program. A written examination will be administered as a final evaluation of the student's progress. These tests are also designed to prepare the graduate for the NCCPA exam.

PH 101  Introduction to Astronomy  4 cr
This is a descriptive survey course of elementary astronomy with laboratory intended for both non-science and science majors. Topics covered include a description of the celestial sphere, a tour of the Solar System, techniques for measuring and classifying stars, stellar evolution, white dwarfs, black holes, neutron stars, galaxies, and Big Bang cosmology. Fee. Core Course. Corequisite: PH 101L.

PH 101L  Introduction to Astronomy Lab
Laboratory course for the Introduction to Astronomy course. Student must pass this laboratory course to receive a passing grade in the PH 101 course. Corequisite: PH 101.

PH 104  Concepts of Physics  4 cr
A descriptive overview of the entire field of physics with laboratory, including the concepts of scalars and vectors, Newton's laws, momentum and energy conservation, rotational motion, fluids, heat and thermodynamics, sound, electricity and magnetism, optics, atomic and nuclear physics, relativity, and elementary particle physics. This course is intended to provide the non-scientist with substantial insight into the physical behavior of matter and energy. Extensive demonstrations accompany the presentation of material to illustrate key concepts. This course does not satisfy any preprofessional physics requirements. Fee. Core Course. Corequisite: PH 104L.

PH 104L  Concepts of Physics Lab
Laboratory course for the Concepts of Physics course. Student must pass this laboratory course to receive a passing grade in the PH 104 course. Corequisite: PH 104.

PH 107  Freshman Physics Seminar  1 cr
Intended for physics majors in their first year or others interested in physics as a possible major. This course will survey current "hot topics" in physics, basic useful techniques in physics problem-solving, physics as a career, and research in physics at USA. This course is not intended to satisfy the science requirements within the College of Arts and Sciences.

PH 114  Physics with Algebra/Trigonometry I (C)  5 cr
First semester of a two-semester introductory course in algebra/trigonometry-based physics with laboratory and recitation. This course covers mechanics and thermodynamics: one and two-dimensional motion, vectors, Newton's laws of motion, work and energy, momentum and collisions, circular motion, rotational motion, properties of solids and fluids, the laws of thermodynamics, kinetic theory of matter, simple harmonic motion, and wave motion. The laboratory uses computerized data acquisition and analysis for most of the experiments. Prerequisite: 21 ACT score on Mathematics or MA 112. Fee. Core Course. Corequisite: PH 114L.
PH 114L  
Physics with Algebra/Trigonometry I Lab

Laboratory course for the first semester of a two-semester introductory sequence in algebra/trigonometry-based physics. Student must pass this laboratory course to receive a passing grade in the PH 114 course. Corequisite: PH 114.

PH 114  
Physics with Algebra/Trigonometry I (C) 5 cr  
(Honors Course)

First semester of a two-semester introductory honors course in algebra/trigonometry-based physics with laboratory and recitation. This course covers mechanics and thermodynamics: one and two-dimensional motion, vectors, Newton's laws of motion, work and energy, momentum and collisions, circular motion, rotational motion, properties of solids and fluids, the laws of thermodynamics, kinetic theory of matter, simple harmonic motion, and wave motion. The laboratory uses computerized data acquisition and analysis for most of the experiments. The honors component consists of extra problems, projects or work assigned by the instructor by the end of the first week of classes. All honors students will meet with the instructor who will give an extra work syllabus. Prerequisites: 21 ACT score on Mathematics or MA 112, also permission of the Department Chair or good standing in the University Honors Program. Fee. Core Course. Corequisite: PH 114L (honors).

PH 114L (honors)  
Physics with Algebra/Trigonometry I Lab - H

Honors laboratory course for the first semester of a two-semester introductory honors sequence in algebra/trigonometry-based physics. Student must pass this laboratory course to receive a passing grade in the PH 114 honors course. Corequisite: PH 114 (honors).

PH 115  
Physics with Algebra/Trigonometry II (C) 5 cr

Second semester of a two-semester introductory course in algebra/trigonometry-based physics with laboratory and recitation. This course covers electrostatics, DC circuits, RC circuits, magnetic fields and forces, Faraday's Law, AC circuits, geometrical optics, interference and diffraction of light, the special theory of relativity, quantum physics, and atomic and nuclear physics. The laboratory uses computerized data acquisition and analysis for most of the experiments. Prerequisite: PH 114. Fee. Core Course. Corequisite: PH 115L.

PH 115L  
Physics with Algebra/Trigonometry II Lab

Laboratory course for the second semester of a two-semester introductory sequence in algebra/trigonometry-based physics. Student must pass this laboratory course to receive a passing grade in the PH 115 course. Corequisite: PH 115.

PH 115  
Physics with Algebra/Trigonometry II (C) 5 cr  
(Honors Course)
Second semester of a two-semester introductory honors course in algebra/trigonometry-based physics with laboratory and recitation. This course covers electrostatics, DC circuits, RC circuits, magnetic fields and forces, Faraday's Law, AC circuits, geometrical optics, interference and diffraction of light, the special theory of relativity, quantum physics, and atomic and nuclear physics. The honors component consists of extra problems, projects or work assigned by the instructor by the end of the first week of classes. The laboratory uses computerized data acquisition and analysis for most of the experiments. All honors students will meet with the instructor who will give an extra work syllabus. Prerequisites: PH 114-H, also permission of the Department Chair or good standing in the University Honors Program. Fee. Core Course. Corequisite: PH 115L (honors).

PH 115L (honors) Physics with Algebra/Trigonometry II Lab - H

Honors laboratory course for the second semester of a two-semester introductory honors sequence in algebra/trigonometry-based physics. Student must pass this laboratory course to receive a passing grade in the PH 115 honors course. Corequisite: PH 115 (honors).

PH 201 Calculus-Based Physics I (C) 4 cr

First semester of a two-semester introductory course in calculus-based physics with laboratory. This course covers: one and two-dimensional motion, vectors, Newton's laws of motion and their applications, work and energy, momentum and collisions, circular motion, rotational motion, properties of materials, simple harmonic motion, wave motion and topics in thermodynamics. The laboratory uses computerized data acquisition and analysis for most of the experiments. Prerequisites: MA 125, and concurrently taking MA 126. Fee. Core Course. Corequisite: PH 201L.

PH 201L Calculus-Based Physics I Lab

Laboratory course for the first semester of a two-semester introductory sequence in calculus-based physics. Student must pass this laboratory course to receive a passing grade in the PH 201 course. Corequisite: PH 201.

PH 201 (Honors Course)

First semester of a two-semester introductory honors course in calculus-based physics with laboratory. This course covers: one and two-dimensional motion, vectors, Newton's laws of motion and their applications, work and energy, momentum and collisions, circular motion, rotational motion, properties of materials, simple harmonic motion, wave motion and topics in thermodynamics. The laboratory uses computerized data acquisition and analysis for most of the experiments. The honors component consists of extra problems, projects or work assigned by the instructor by the end of the first week of classes. All honors students will meet with the instructor who will give an extra work syllabus. Prerequisites: MA 125 and concurrently taking MA 126, also permission of the Department Chair or good standing in the University Honors Program. Fee. Core Course. Corequisite: PH 201L (honors).

PH 201L (honors) Calculus-Based Physics I Lab - H

Honors laboratory course for the first semester of a two-semester introductory honors sequence in calculus-based physics. Student must pass this laboratory course to receive a passing grade in the PH 201 honors course. Corequisite: PH 201 (honors).

PH 202 Calculus-Based Physics II (C) 4 cr
Second semester of a two-semester introductory course in calculus-based physics with laboratory. This course covers electrostatic fields and Gauss' law, electric potential, electric circuits, magnetic fields, Ampere's law, Faraday's law, inductance, Maxwell's equations, electromagnetic waves and optics. The laboratory uses computerized data acquisition and analysis for most of the experiments. Prerequisites: PH 201 and MA 126. Fee. Core Course. Corequisite: PH 202L.

PH 202L Calculus-Based Physics II Lab

Laboratory course for the second semester of a two-semester introductory sequence in calculus-based physics. Student must pass this laboratory course to receive a passing grade in the PH 202 course. Corequisite: PH 202.

PH 202 Calculus-Based Physics II (C) 4 cr
(Honors Course)

Second semester of a two-semester introductory honors course in calculus-based physics with laboratory. This course covers electrostatic fields and Gauss' law, electric potential, electrical circuits, magnetic fields, Ampere's law, Faraday's law, inductance, Maxwell's equations, electromagnetic waves and optics. The laboratory uses computerized data acquisition and analysis for most of the experiments. The honors component consists of extra problems, projects or work assigned by the instructor by the end of the first week of classes. All honors students will meet with the instructor who will give an extra work syllabus. Prerequisites: PH 201-H and MA 126, also permission of the Department Chair or good standing in the University Honors Program. Fee. Core Course. Corequisite: PH 202 L (honors).

PH 202L (honors) Calculus Based Physics II Lab - H

Honors laboratory course for the second semester of a two-semester introductory honors sequence in calculus-based physics. Student must pass this laboratory course to receive a passing grade in the PH 202(honors) course. Corequisite: PH 202 (honors).

PH 290 Special Topics 1-4 cr
Topics of current issue interest but not available in regularly scheduled sophomore level courses. This course may be repeated once for credit when the content varies. May be taken twice for up to 8 hours.

PH 294 Directed Studies: Variable Content Lab 1 cr
A directed studies course to substitute for a laboratory credit for students who have successfully completed a calculus or algebra-based physics lecture course at another university without the laboratory. Students taking this course must get the approval of the Physics Department Chair. This course may be taken up to two times (once for each of the missing laboratories). Fee.

PH 301 Introductory Astrophysics 3 cr
Application of the principles of physics to the study of astronomical phenomena. Topics include celestial mechanics, stars and stellar evolution, the Milky Way and other galaxies, and cosmological models. Prior knowledge of astronomy is not required. Prerequisites: MA 125 and either PH 115 or PH 202.

PH 303 Modern Physics (C) 4 cr
Physics (PH)

This course, with laboratory, surveys physics of the twentieth century. Topics covered include special relativity, wave-particle concepts, the Schrödinger equation and quantum theory of the hydrogen atom, atomic spectra and structure, molecular spectra, the solid state, nuclear structure, radioactivity, and elementary particles. The accompanying laboratory includes experimental investigations of important topics in the subject of Modern Physics. Computerized numerical and graphical analysis of data is extensively used in the laboratory. Laboratory reports are written with word processors and submitted in a format consistent with articles submitted to student research journals. Prerequisites: MA 125 and either PH 115 or 202. Corequisite: PH 303L.

PH 303L  Modern Physics Lab

Laboratory course for the Modern Physics course. Corequisite: PH 303.

PH 346  Classical and Modern Optics  4 cr

Wave motion, reflection, refraction, dispersion, diffraction, interference phenomena, Fourier spectroscopy, lasers and other modern applications of optics. Prerequisites: PH 202 and MA 125 or the equivalent.

PH 348  Electricity and Magnetism I  3 cr

First of a two-semester sequence in electromagnetism. Topics include a review of vector analysis, Coulomb's law, Gauss' law, calculation of the scalar potential, electric fields in matter, the Biot-Savart law, Ampere's law, the vector potential, magnetostatics in matter, electrodynamics, Faraday's law, inductance, Maxwell's correction to Ampere's law and Maxwell's equations. Prerequisites: MA 227 and either PH 115 or PH 202.

PH 349  Electricity and Magnetism II  3 cr

Second of a two-semester sequence in electromagnetism. Topics include electromagnetic wave propagation in free space, electromagnetic wave propagation in materials, reflection and transmission at interfaces, wave guides, electromagnetic radiation, optical dispersion, and electrodynamics extended to the special theory of relativity. Prerequisite: PH 348.

PH 354  Electronics  3 cr

This course is intended to provide a theoretical and practical background in electronics. Topics include AC circuits, diode circuits, single-stage amplifiers, op-amps and feedback, and digital electronics. This course is not intended to satisfy the technical elective requirements for Electrical Engineering. This course will include periodic laboratory work. Prerequisites: MA 126 and either PH 115 or PH 202.

PH 366  Physical Mechanics I  3 cr

First course in a two-semester sequence in classical mechanics. Topics include motion of particles in one-dimension, one-dimensional motion theorems, harmonic oscillations, damped oscillations, forced oscillations, kinematics in multiple dimensions, momentum and energy theorems, the central force problem, motion under inverse square law forces, planetary orbital motion, Rutherford scattering, conservation theorems for multi-particle systems and their applications, collisions, coupled-harmonic oscillators, and rigid body rotation about a fixed axis. Prerequisites: MA 227 and PH 202.

PH 367  Physical Mechanics II  3 cr
Second course in a two-semester sequence in classical mechanics. Topics include: moving and rotating coordinate systems, Lagrange's equation and applications, Hamiltonian formulation, inertia and stress tensors, rotations of rigid bodies and the theory of small oscillations. Prerequisite: PH 366.

**PH 385**  
*Experimental Physics (W) (C)*  
3 cr

A course in the methods and techniques of experimental physics. A number of experiments in the area of classical mechanics, atomic physics, molecular physics, and nuclear physics will be performed and analyzed. A written report for each experiment that clearly and precisely explains the experiment's theory, technique and analysis is required. Computerized numerical and graphical analysis of data is extensively used in the laboratory. Laboratory reports are written with word processors and submitted in a format consistent with articles submitted to student research journals. Prerequisite: PH 303 (or taken concurrently). Corequisite: PH 385L.

**PH 385L**  
*Experimental Physics Lab*  
Laboratory course for the Experimental Physics course. Corequisite: PH 385.

**PH 390**  
*Special Topics*  
1-3 cr

Topics of current interest not available in a regularly scheduled course. This course may be repeated once for credit when content varies. May be taken twice for up to 8 hours.

**PH 411**  
*Computational Methods in Physics (C)*  
3 cr

Use of computers in physics research (industrial, applied or basic) is now common. This course will introduce advanced undergraduate physics students to computer solutions of physics problems. Particular attention will be paid to problems that have no analytic solutions and may only be solved numerically. This course will introduce several numeric methods and apply them to specific problems from quantum mechanics, electrodynamics, and mechanics. Students will write a series of programs in the Fortran or the C programming language and use them to solve undergraduate level physics problems. Prerequisites: MA 238, CIS 227, and PH 303.

**PH 448**  
*Elementary Quantum Mechanics I*  
3 cr

The first course of a two-semester sequence in Quantum Mechanics. Topics include an introduction to Hilbert space and operators, the quantum state and observables, the Heisenberg uncertainty principle, time evolution of the quantum state, application of the Schrödinger equation to one-dimensional systems, and the solution of the hydrogen atom. Prerequisites: MA 238 and either PH 303 or CH 302.

**PH 449**  
*Elementary Quantum Mechanics II*  
3 cr

The second course of a two-semester sequence in Quantum Mechanics. Topics include a continuation in the mathematical formulation of quantum mechanics, angular momentum, perturbation theory, identical particles and spin, collision theory and the semi-classical treatment of radiation. This course is recommended for students anticipating graduate study in physics. Prerequisite: PH 448.

**PH 463**  
*Thermodynamics and Statistical Mechanics*  
3 cr
An in depth course in thermodynamics and statistical mechanics. Topics include simple thermodynamics systems, work, heat and the first law of thermodynamics, ideal gases, the second law of thermodynamics, entropy, enthalpy, Helmholtz and Gibbs functions TdS equations, heat capacity, partition function, equipartition of energy, statistical distribution of molecular speeds, thermal properties of solids, higher order phase transitions, chemical equilibrium, Bose-Einstein statistics. Prerequisites: PH 202 and MA 227.

**PH 494  Directed Studies  1-3 cr**

Directed research under the supervision of a faculty member. Topics generally coincide with the research interest of the supervising faculty member. Areas of directed research may include atomic collisions, experimental molecular spectroscopy, experimental matter physics or experimental particle physics. Prerequisite: Permission of the Physics department chair. May be taken three times for up to 12 hours.

**PH 499  Senior Thesis  3 cr**

*(Honors Course)*

A written thesis that is part of the Honors Senior Project which is submitted to partially satisfy the requirements for a Degree in Physics with distinction. The Senior Thesis will be written on research done in collaboration with an Honors Physics Faculty member in the junior/senior year. The Senior Thesis will be reviewed by a committee of Honors Physics Faculty. Upon approval by the committee the Senior Honors candidate will present the Senior Thesis at the Honors Student Colloquium. This course may be repeated once for credit. Prerequisite: The Honors candidate must have developed in the last semester of the previous year a prospectus with the Physics Faculty Mentor and presented this prospectus at the Annual Honors Student Colloquium, also permission of the Physics Department Chair.
PHYSIOLOGY (PHS)

PHS 550 Medical Physiology 8 cr
This course includes lectures and laboratories which introduce the student to the basic functions of the heart, circulation, lung, and kidney, as well as the endocrine, nervous, and gastrointestinal systems. Fundamental mechanisms are stressed with the intent of providing the student with the basic knowledge of organ function necessary for the understanding and treatment of disease. The overall integrated response of the body to various stresses is discussed in detail.

PHS 556 Literature Reports 1 cr
Students and faculty participate in a supervised reading of the current literature and meet periodically (usually once a week) to interact in a discussion of the selected article or topic. The goal of this course is to maintain the faculty's and students' level of information at a "state of the art" in both methods and theory in the discipline and to develop critical skills in reviewing the literature.

PHS 557 Directed Studies 1-6 cr
Students participate in research under the direction of a graduate faculty member. The student may pursue independent research or participate in a literature project.

PHS 590 Special Topics 1-3 cr
Each course provides in-depth tutorial exposure to specific areas in the discipline. Student and/or faculty presentations followed by group discussions (usually in the Socratic mode), examine the subject matter in an area of current interest either to one student or to a group of students. Credits and titles are arranged with an individual faculty member.

PHS 651 Advanced Cardiovascular Physiology 5 cr
This is an advanced course covering cardiac function and metabolism, peripheral circulation, and microcirculation. The objective is to provide the student with a thorough understanding of cardiovascular physiology at both the organ and cellular level. Prerequisite: Medical Physiology (PHS 550).

PHS 654 Transport Across Physiological Barriers 2 cr
This course is designed to present a detailed analysis of physiological membranes and the physical principles governing the movement of solute and water across these barriers. Prerequisite: Medical Physiology (PHS 550).

PHS 656 Research Seminar 1 cr
Students and faculty present a research topic for discussion before members of the department. The presentations are usually scheduled on a rotational basis. The student may present research data for critique by the faculty.

PHS 799 Research/Dissertation 1-6 cr
Independent research by the student under the sponsorship of the graduate faculty in individual departments in the Basic Medical Sciences. Prerequisite: Approved formal research proposal.

College of Medicine
**POLITICAL SCIENCE (PSC)**

NOTE: It is not recommended that freshmen register for any 300 or 400 level Political Science course.

**PSC 101**

Introduction to Political Science: 3 cr

Honors

The course is an intellectual investigation of the traditional and behavioral approaches to the five broad areas of sub-fields that constitute the academic study of political science, namely, political theory, American government, comparative politics, international relations, and public administration. Permission of instructor required.

**PSC 130**

Introduction to U.S. Government 3 cr

Stresses formation and principles of the United States Constitution and roles of Congress, the President, and the Courts in the American system of government. Considers popular participation in politics, rights and responsibilities of citizens, and current public problems. PSC & CJ majors must pass with a "C" or better.

**PSC 210**

Public Policy 3 cr

Examination of selected functions and policies of the US Government, with special emphasis on the relationship between politics and the socioeconomic environment. Emphasis is placed upon the political, economic, and historical variables as they affect contemporary public policy output.

**PSC 230**

Current Political Issues 3 cr

An examination of the perennial political questions as they arise in current political issues and the arguments supporting different positions on the issues.

**PSC 232**

State and Local Governments 3 cr

An overview of state and local government systems. An analysis of administration and politics within states and localities and an examination of state and local governmental action.

**PSC 250**

Comparative Politics 3 cr

Introduction into the basic differences and similarities of the major political systems of the world. Emphasis is placed upon governmental structures and processes. PSC majors must pass with a "C" or better. Taught in the fall semester.

**PSC 251**

World Leaders 3 cr

This course introduces students to the concept of leadership and focuses on the lives and achievements of a number of influential 20th century leaders.

</tbody>
</table>
Relates the intern's classroom studies with occupational and professional experiences in an approved government or para-governmental agency. Written reports required. Course may be repeated for a maximum of twelve hours' credit. Only three hours apply to the political science curriculum. Prerequisites: Open only to political science majors and minors with advanced standing with permission of department chair. S/U grading only.

**PSC 497 Practicum in Polling** 3 cr

Supervised experience in all aspects of the survey research process including but not limited to literature review, research design, questionnaire development, sampling techniques, interviewing, data analysis, interpretation and presentation of findings. Prerequisites: PSC 130, PSC 310, S/U grading only, and permission of the professor.

**PSC 498 Practicum in Policy Studies** 3 cr

Students will be exposed to a variety of experiences associated with the operations of a fully operational research center, including in-service and management training, consulting, sponsored research, organizational assessments, strategic and programming planning, operations, program evaluations, intergovernmental fiscal processes including the research for funding, and grant writing. Research assignments will include basic research design, survey and focus group instrument development, administration of surveys, handling focus groups, curriculum preparation and administration, data manipulation and analysis, and report writing. Prerequisites: PSC 130, PSC 310, permission of professor, S/U grading only.

**PSC 499 Honors Thesis (W)** 3 cr

The research and writing of a major paper in the field of political science. Prerequisite: USA Honors Program.

(NOTE: PSC 130, Introduction to US Government, or its equivalent and permission of graduate director or department chair, are prerequisites for each of the following courses.)

**PSC 500 Public Administration** 3 cr

Organization Theory and Concepts of Public Management

A review and examination of the several principal, traditional, and contemporary theories of organization, policy making, and administration. Field problems and case studies are stressed.

**PSC 510 Intergovernmental and Interorganizational Relations** 3 cr

A review of the political, fiscal and administrative relationships between various levels of government in America. In addition, the emerging nexus to 3d sector non-profit organizations will be examined.

**PSC 520 Research Methods and Design** 3 cr

Social science research methodologies will be used to help students develop skills for policy analysis and decision making in the public service. Stresses the understanding of research methods and data collection in a Public Administration setting. Theoretical development and elaboration, and an overview of the variety of research designs used in social science research will be included.

**PSC 530 Quantitative Analysis** 3 cr
Focus is on application of statistical analysis techniques to Public Administration problems and issues. Computer analysis and interpretation of descriptive statistics will be emphasized. Topics will include fundamentals of probability, sampling, hypothesis testing, point estimation, association, correlation, and multivariate analysis.

**PSC 540 Public Human Resource Management**
This course will cover contemporary topics in public personnel administration, including public-employee unionization, relevance of the traditional civil-service approach, the challenge of employee productivity and motivation, equal opportunity, and public service ethics.

**PSC 541 Leadership: Theory and Practice**
This course will provide the analytical and intellectual thought and careful examination and reflection of the core issues in the practice of leadership. Models and influences on leadership will be critically examined.

**PSC 550 Managing the Public Budget**
This course emphasizes the political management and public-policy implications of budget reform. The conceptual framework for program and performance budgeting will be explored, as well as the increasing congressional role in federal budget policy.

**PSC 550 Comparative Public Administration**
A study of the operation of government systems throughout the World—their history, features, similarities, and differences.

**PSC 570 Administrative Law**
This course emphasizes the relationship between administrative processes of government and the legal system. Attention is given not only to the administrative process involving formal adjudication, rule making, and judicial review, but also to those processes involving formal and unreviewed discretionary action. Students propose legal resolutions to contemporary administrative issues.

**PSC 572 Environmental Law**
This course will introduce the student to some of the fundamental concepts of environmental law. It will utilize the philosophy and history of environmental law as it has developed from the Common Law of England to provisions of a Municipal Code.

**PSC 576 Administration Issues in Criminal Justice in the Mental Health System**
An overview of the relevant federal and state laws, federal regulations, and court rulings that address the issues of criminal justice for preserving the rights of those citizens who suffer from mental illness.

**PSC 580 Public Policy Analysis and Evaluation**
A practical introduction to policy analysis and program evaluation including a general overview of conceptual frameworks by which evaluations are conducted and an examination of the various qualitative and quantitative techniques by which policy outcomes and programs are analyzed. Designed to develop skills necessary for conducting evaluations and assessing the validity and credibility of evaluations conducted by others.

PSC 581 Public Policy and Aging 3 cr

Examines government response to the growing number of older Americans. The course examines the policy process and focuses on such issues as retirement, pensions, health care, housing, social services, and intergenerational issues. Elder advocacy and the long term political consequences of demographic changes are also addressed.

PSC 584 Political Corruption 3 cr

Study of the causes, consequences of political corruption is given from a comparative and national perspective. Special attention is given to corruption in the area of criminal justice.

PSC 590 Special Topics 3 cr

Study of a significant topic in Public Administration. May be repeated for credit when the content varies.

PSC 594 Directed Studies 1-6 cr

Under the guidance of a faculty member, student will pursue directed study of approved topics in public administration. For non-thesis students.

PSC 596 Professional Studies 3-9 cr max
    Internship in Public Administration

Relates the participants’ classroom studies to occupational and professional experiences in an approved public agency. Written reports required. May be taken for a total of nine hours. (For further details, see section on internship.)

PSC 597 Practicum in Polling 3 cr

Supervised experience in all aspects of the survey research process including but not limited to literature review, research design, questionnaire development, sampling techniques, interviewing, data analysis, and interpretation and presentations of findings. Prerequisite: permission of professor.

PSC 598 Practicum in Policy Studies 3 cr

Students will be exposed to a variety of experiences associated with the operations of a fully operational research center, including in-service and management training, consulting, sponsored research, organizational assessments, strategic and program planning, operations, program evaluation, intergovernmental fiscal processes including the search for funding, and grant writing. Research assignments will include basic research design, survey and focus groups, curriculum preparation and administration, data manipulation and analysis, and report writing. Prerequisite: permission of the professor.

</tbody>
</table>

http://www.southalabama.edu/bulletin/bulletin0506/courpsy.htm (4 of 6)
This course will focus on theoretical models, research, techniques, and interventions for working with culturally diverse populations in various settings. Specific issues to be addressed include world views, acculturation and acculturative stress, prejudice and prejudice-reduction techniques, racial/ethnic identity, culture and assessment, and the nature of multicultural competence in Psychology. Issues related to ethnic and racial identity will form the primary focus; however, other types of diversity (e.g., religion, gender, sexual orientation, physically challenged) will also be considered.

Prerequisites: PSY 506, PSY 530, PSY 352, and PSY 550.

**PSY 554 Cognitive Behavior Therapy**
3 cr
A follow up course to PSY 550, this course will survey theory, research and application of cognitive behavior therapy. Focus will be on treatment strategies and application to a variety of psychological disorders of adults and children. Prerequisites: PSY 506, PSY 530, PSY 532 and PSY 550.

**PSY 556 Practicum**
3 cr
Supervised experience with adult and children clients. Includes case conference and seminars. May include supervised placement in an applied setting. Prerequisites: PSY 532 and PSY 550.

**PSY 558 External Practicum**
3-5 cr
Supervised placement in an applied setting. Prerequisites: PSY 552 and/or PSY 554.

**PSY 570 Mental Retardation**
3 cr
A study of theories and research in mental retardation and related areas. (Dual listed.)

**PSY 572 Child Psychopathology**
3 cr
The description and etiology of deviant behavior patterns in children and adolescents. Prerequisite: PSY 532.

**PSY 575 Comparative and Evolutionary Psychology**
3 cr
A critical analysis of the main theories and research trends in comparative and evolutionary psychology. (Dual listed.)

**PSY 590 Special Topics in Psychology**
3 cr
Selected topics in psychology. May be repeated for credit when course content varies.

**PSY 594 Directed Individual Study**
1-3 cr
Individual study under the direction of a member of the graduate faculty. May be repeated for up to nine hours credit.

**PSY 598 Project in Psychology**
1-6 cr
Completion of a research project, program proposal, program evaluation, major literature review or other comparable experience under the direction of a member of the graduate faculty. IRB or Animal Use and Care Committee approval may be required for some projects. May be repeated for up to six hours credit. A minimum of three hours credit is required to meet degree requirements.

**PSY 599 Thesis Research**
1-6 cr
Completion and oral defense of a master's thesis based upon original research. May be repeated for up to nine hours credit. A minimum of six hours credit is required to meet degree requirements. Prerequisite: Approval of research prospectus including IRB or Animal Use and Care Committee approval if applicable.

---

**Department of Psychology**

**College of Arts and Sciences**
Enrollment in 100, 200 and 300 level courses requires admission to the professional component of the certificate program. Enrollment in 400 level courses requires admission to the Radiologic Sciences Degree Program.

CERTIFICATE PROGRAM

**RAD 101** Principles of Radiographic Exposure 4 cr
A beginning study of the principles involved in image formation including radiographic films, film processing, and exposure factors affecting film quality.

**RAD 104** Patient Care and Ethics Pertinent to Radiology 3 cr
This course is designed to give the student basic knowledge concerning patient care and ethical situations with which the radiologic technologist must be familiar. Class time is allotted for the student to practice certain techniques pertinent to obtaining vital signs, handling of patients, sterile technique, tray setup, first-aid measures, and general operating room and bedside radiography procedures.

**RAD 107** Clinical Education I 1 cr
Hospital-based laboratory allowing the student additional clinical experience in RAD 101 and RAD 104.

**RAD 108** Clinical Education II 1 cr
Hospital-based laboratory allowing the student to apply those positioning techniques within a clinical setting as presented in RAD 131.

**RAD 109** Clinical Education III 4 cr
Hospital-based laboratory experience allowing the student increased responsibility in those areas covered in RAD 131 and RAD 215, as well as bedside radiography.

**RAD 131** Radiography of the Osseous System I 4 cr
This course includes the demonstration and practice in positioning and phantom radiography of the chest, general abdomino-pelvic viscera, and the upper and lower extremities to include shoulder and pelvic girdles. Special fee.

**RAD 201** Radiography of the Osseous System II 6 cr
A continuation of RAD 131 to include the axial skeleton, sternum, sternoclavicular joints and introductory topics relating to special radiographic procedures. Special fee.

**RAD 204** Clinical Education IV 4 cr
Hospital-based laboratory allowing the student to obtain clinical experience in those areas presented in RAD 201 and RAD 215.

**RAD 215** Radiographic Contrast Media 4 cr
A detailed study of contrast media, preparation and administration, radiographic positions, technique, and anatomy and physiology of the organs studied.

**RAD 218** Radiologic Physics 4 cr
A study of the fundamentals of magnetism, basic electricity, x-ray machine circuitry, x-ray protection, and radiation physics, to give the student a basic understanding of the principles underlying the production of x-rays and their interaction with matter.
Radiologic Sciences (RAD)

RAD 265 Radiation Biology 2 cr
A study of health physics and methods used to reduce exposure to personnel and patients in diagnostic and therapeutic radiology. The biological effects of ionizing radiation are stressed along with applied mathematical principles.

RAD 305 Clinical Education V 4 cr
Hospital-based laboratory allowing the student to gain additional clinical experience in RAD 201 and RAD 215.

RAD 306 Clinical Education VI 5 cr
Hospital-based laboratory allowing the student to gain increased clinical experience in RAD 324 as well as in general radiographic procedures.

RAD 311 Survey of Pathology 4 cr
A general survey of diseases designed to acquaint the student with certain changes that occur in disease and their application to radiologic sciences.

RAD 320 Cross-Sectional Anatomy 2 cr
A study of cross-sectional anatomy as imaged in MRI and CT imaging.

RAD 324 Diagnostic Imaging 6 cr
A study of the principles and clinical applications of image intensification, vascular radiography, computerized tomography, ultrasound, and magnetic resonance imaging.

RAD 335 Pediatric and Geriatric Radiography 2 cr
A detailed study of the specialized equipment and accessories used in the handling of children and the elderly within the department of radiology.

RAD 337 Image Analysis 5 cr
Student radiographs taken during the clinical periods will be viewed and critiqued within the classroom.

RAD 394 Directed Independent Study in Radiography - (W) 2 cr
A comprehensive Registry Review to include written assignments and a presentation.

DEGREE PROGRAM

RAD 401 Vascular Radiography I 5 cr
Advanced practice in, and in-depth study of, the principles of vascular radiography.

RAD 402 Vascular Radiography II - (W) 5 cr
Continuation of RAD 401 with increased focus on digital radiography, peripheral and interventional radiography.

RAD 405 Computerized Tomography I 5 cr
Advanced practice in, and in-depth study of, computerized tomography.

RAD 406 Computerized Tomography II - (W) 5 cr
Continuation of RAD 405 with increased emphasis on 3-dimensional imaging reconstruction, biopsies and advanced CT techniques.

RAD 409 Magnetic Resonance Imaging I 5 cr
An in-depth study of the principles and clinical applications of MRI.

RAD 410 Magnetic Resonance Imaging II - (W) 5 cr
Continuation of RAD 409 with additional emphasis on instrumentation, abdominal and extremity joint procedures, and MRI angiography.

<tr>
<td></td>
<td>A study of techniques used for simulation and treatment delivery. Includes general and site-specific instruction, with attention given to technical details aimed at optimizing the dose delivery planned during simulation and accomplished during treatment. Site-specific topics will include lung, brain, breast, pelvis, head and neck. Palliative treatment techniques will also be examined. Time will be dedicated to demonstration of techniques.</td>
<td></td>
</tr>
<tr>
<td>RAD 453</td>
<td>Principles and Practice of Radiation Oncology II</td>
<td>3 cr</td>
</tr>
<tr>
<td></td>
<td>A continuation of course one. Site-specific topics will include those not covered during first course, pediatric cancers, and special procedures in Radiation Oncology. Time will be dedicated to demonstration of techniques.</td>
<td></td>
</tr>
<tr>
<td>RAD 455</td>
<td>Clinical Dosimetry I</td>
<td>3 cr</td>
</tr>
</tbody>
</table>
Concepts of clinical dosimetry and treatment planning include dose calculations and computer planning techniques. Tumor localization, dose calculations, beam and isodose characteristics, and single- and multiple-beam treatment planning will be discussed.

RAD 456  Clinical Dosimetry II  3 cr
Advance concepts of clinical dosimetry and treatment planning including dose calculations and computer planning techniques. Students will further develop tumor localization, dose calculation, complex computer treatment planning, and clinical dosimetry skills.

RAD 458  Cancer Management in Radiation Oncology (W)  4 cr
An in-depth study of the principles of clinical radiation oncology to include etiology, diagnosis, pathology, staging, spread patterns, treatment options, adjuvant therapies, side effects, and outcomes by site or disease category. Students are required to report on current literature throughout the course.

RAD 499  Senior Honors Project (H, W)  3-6 cr
Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research project relevant to the field of Radiologic Sciences study that will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty members chaired by the honors mentor. This course is required for Honors recognition and may be repeated for up to six credit hours. Prerequisite: Permission of the department chair and completion of an approved project prospectus.

<tr>
<td>RED 595</td>
<td>Internship: Reading Education</td>
<td>1-9 cr</td>
</tr>
</tbody>
</table>

http://www.southalabama.edu/bulletin/bulletin0506/courred.htm (2 of 4)
The internship is a supervised learning experience in a work setting similar to that in which an educator will eventually be employed. The internship provides students with an opportunity to apply the theories and concepts learned during the graduate program.

**RED 599 Thesis**
1-9 cr
A student selects a project, study, or investigation which is related to reading education. The project will form the basis for the thesis. A thesis committee will provide direction during the investigation and during the writing of the thesis.

**RED 611 Theories of Language Development in the Teaching of Reading**
3 cr
Emphasizes theories of language acquisition and development. Includes linguistics, language development of the culturally different child, and application of theory to classroom practices in reading and related areas.

**RED 612 Sociological Influences in Reading Instruction**
3 cr
Focuses upon the history of reading instruction, sociological factors influencing reading, reading in relation to other media of communication, and ways of applying these findings in classroom and clinical practice.

**RED 613 Administering and Supervising the Reading Program**
3 cr
Analyzes and interprets administrative and supervisory roles and functions as they relate to the total school program, elementary through high school. Stress is upon facilitating and enhancing all aspects of the programs.

**RED 615 Diagnosis and Remediation of Severe Reading Disabilities**
3 cr
Provides laboratory experiences in studying severe cases of reading disabilities and in developing plans and procedures for their remediation.

**RED 630 Psychological Factors in Teaching Reading**
3 cr
Relates pertinent psychological concepts and principles to (1) current definitions of the reading process, (2) methods of teaching, and (3) special procedures for reluctant and struggling readers. The student may apply these concepts and principles in regular or laboratory settings.

**RED 640 Research in Reading**
3 cr
A critical analysis and evaluation of the significant research studies in reading from which reading concepts emerge and from which implications for teaching and further research may be drawn.

**RED 690 Special Topics**
3 cr
Guided investigation of topics in reading education, such as curriculum revision, course or program design, newly evolved trends in reading education, and implications of research in reading education.

**RED 694 Directed Study and Research**
1 or 3 cr
Students explore through directed study problems an issues of special interest or significance in reading education. No more than three semester hours of any departmental 694 courses can be accepted toward a degree program. Prerequisite: Permission of the department chair.

**RED 699 Research Project**
3 cr
The student will conduct a supervised Research Project, relating to an issue or timely topic in the field of reading. May be taken more than one semester. Prerequisite: Permission of the department chair.

*Only for students admitted to teacher candidacy.*

[Department of Curriculum and Instruction](http://www.southalabama.edu/bulletin/bulletin0506/courred.htm)
RELIGION (REL)

REL 290 Special Topics 3 cr
Different themes and issues of significance in religion will be studied as announced.

REL 310 Classical Mythology 3 cr
Through the disciplines of English and Philosophy, this course will provide an introduction to myths and to the literature that recounts the myths, legends, and folktales of ancient Greece and Rome. Not only will this course offer a survey of Greek and Roman myth, but also it will look at how different writers treat the material and why their treatments vary. Prerequisites: EH 101 and EH 102. Cross-listed with EH 310 and PHL 310. Credit cannot be received for both REL 310 and either EH 310 or PHL 310.

REL 343 Witchcraft and Magic in Medieval and Early Modern Europe 3 cr
The history of beliefs and practices concerning witches, magic and witch-hunting in Medieval and Early Modern Europe. Identical with HY 343. Credit cannot be received for both REL 343 and HY 343.

REL 351 Philosophy of Religion (W) 3 cr
Investigates the nature of religion, including religious experience, religious language, arguments for the existence of God, and the problem of evil. Identical with PHL 351. Credit cannot be received for both REL 351 and PHL 351.

REL 352 World Religions 3 cr
Major Eastern and Western religions emphasizing their historical development, their theological structure, and their philosophical implications. Identical with PHL 352. Credit cannot be received for both REL 352 and PHL 352.

REL 353 Reformation Europe 3 cr
The role of religious change in the 16th and 17th centuries. Identical with HY 353. Credit cannot be received for both REL 353 and HY 353.

REL 354 Philosophies of India 3 cr
Introduces the major religions and philosophies of India by the way of the classical Realist/Anti-Realist debate in India. Study of the major religious doctrines of theistic and non-dualist Vedanta, Buddhism, and Jainism, and their philosophical articulation in the Nyaya, Advaita Vedanta, Madhyamaka, and other schools. Identical with PHL 354. Credit cannot be received for both REL 354 and PHL 354.

REL 355 Chinese Philosophy 3 cr
Introduces the major classical religious and philosophical systems of China by way of an examination of early Confucianism, Mohism, Yangism, Legalism, Taoism, and Chinese Buddhism. Particular emphasis will be placed upon the role of these schools in the development of Chinese religion, morality, and political organization. Identical with PHL 355. Credit cannot be received for both REL 355 and PHL 355.

SED 459 Creative Experience in Oral Language 3 cr
Background in the theory and function of oral language, and techniques for developing oral and dramatic communicative skills. Emphasis will be on everyday oral language, rather than on formal speech or theater.

SED 462* Student Teaching in the Middle School 12 cr
Observation and supervised teaching in the middle schools with opportunity for study and discussion of the problems and issues encountered. Students will be placed with a person holding a valid teaching certificate in the appropriate field. Prerequisites: Admission to candidacy, SED 340 and SED 341, appropriate methods course(s), and completion of three-fourths of teaching field(s).

SED 463* Student Teaching in the Middle School 3 cr
Observation and supervised teaching in the middle schools with opportunity for study and discussion of the problems and issues encountered. Students will be placed with a person holding a valid teaching certificate in the appropriate field. Prerequisites: Admission to candidacy and appropriate methods course.

SED 464* Student Teaching in the High School 9 cr
Observation and supervised teaching in high schools with opportunity for study and discussion of the problems and issues encountered. Students will be placed with a person holding a valid teaching certificate in the appropriate field. Prerequisites: Admission to candidacy, SED 340 and SED 341, appropriate methods course(s), and completion of three-fourths of teaching field(s).

SED 465* Student Teaching in the High School 3 cr
Observation and supervised teaching with opportunity for study and discussion of problems and issues encountered in the N-12 program. Students will be placed with a person holding a valid teaching certificate in the appropriate field. Prerequisites: Admission to candidacy and an appropriate methods course.

SED 470* Student Teaching in the N-12 Program 9 cr
Observation and supervised teaching with opportunity for study and discussion of problems and issues encountered in the N-12 program. Students will be placed with a person holding a valid teaching certificate in the appropriate field. Prerequisites: Admission to candidacy, SED 340 and SED 341, appropriate methods course(s), and completion of three-fourths of teaching field(s).

SED 494 Directed Study in Secondary Education 1, 3 cr
Directed study. Prerequisite: Permission of department. No more than two directed studies courses can be accepted for a Bachelor’s Degree and Class B Certificate. Prerequisite: Permission of department chair.

SED 499 Seniors Honors Project 3-6 cr
Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research project relevant to the field of study in Secondary Education that will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty members chaired by the honors mentor. This course is required for Honors recognition and may be repeated for up to six credit hours. Prerequisites: Participant in honors program and junior level status.

SED 551 The Secondary School Student 3 cr
Secondary Education (SED)

Study of the physical, mental, and social development of students at secondary school age levels. The objectives and procedures of American secondary education are related to the development of adolescents in our culture. Included are the level of significance of specific individual differences among students in the various subject fields, the relationship of student self-concept to learning, students study through use of records, a variety of diagnostic materials, and group study projects.

SED 552 The High School Curriculum 3 cr
A study of the purpose of American secondary education and how these are reflected in the school curriculum. Curriculum organization, professional roles in curriculum development, and forces shaping the curriculum today are examined.

SED 554 Guiding Learning in Secondary Schools 3 cr
Study of methods and techniques of teaching in the secondary school. Assists the students in organizing materials and developing strategies for teaching in his/her discipline area in secondary schools. Includes a field component in middle and secondary classrooms. Prerequisites: Candidacy, two (2) courses from EDF 501, EPY 455, EPY 502, SPE 400; and completion of SED 555 and SED 559.

SED 555 Curriculum and Teaching in the Secondary School 3 cr
Theories and practices of planning for instruction. Conducted as a system for individually guided mastery. Prerequisites: Level II Status, two (2) courses from EDF 501, EPY 502, SPE 500.

SED 557 Teaching Basic Writing Skills 3 cr
Background in theories of the writing process and techniques to help students develop writing skills. The main emphasis will be on teaching the process of writing: evaluation of writing and the issue of non-standard English will also be considered.

SED 558 The Middle School Curriculum 3 cr
A study of the Middle School program in light of the characteristics and educational needs of youth in early adolescence.

SED 559 Advanced Teaching Techniques 3 cr
Study and practice of selected instructional strategies and classroom management for middle level education and secondary education. Prerequisite: Level II Status.

SED 560 Graduate Research Seminar 3 cr
Research in problems confronting American secondary education. Selected topics are explored by students which provide the basis for seminar discussions. A seminar paper is presented by each student. This course also includes a field-based practicum. Prerequisite: Permission of department chair; taken near completion of coursework.

SED 561 Trends and Practices in Teaching Language Subjects in the Secondary Schools 3 cr
Current trends and practices in curriculum, instruction, selection of materials, and derivation of procedures for guiding learning in reading, listening, writing, and speaking.

Current trends and practices in organizing and teaching social studies in the secondary school. The selection and use of content, materials, methods, and the development and appraisal of typical units are emphasized.

SED 563 Trends and Practice in Teaching Mathematics in the Secondary Schools 3 cr
Current curriculum trends in teaching mathematics. Included are the selection of materials and a study of methods appropriate for teaching mathematics in the secondary school.

**College of Education**
SOCIAL WORK (SW)

SW 101  Introduction to Social Work  3 cr
Introduction to the profession of social work. Topics include historical development, nature of social work, professional associations, values and ethics.

SW 201  Human Behavior & Social Environment I  3 cr
The Person-In-Environment model of human behavior. Course examines individual, family and group behavior in the social context. Prerequisites: SY 109, BLY 102 or BLY 122.

SW 212  Introduction to Social Welfare  3 cr
Introduction to social welfare system, institution and philosophical base. Course will address historical development, social and economic justice, and diversity.

SY 214  Field Experience  2 cr
Service learning experience in social work. Forty hours agency-based experience is required. Students must attend two hour bi-weekly seminars. Prerequisites: SW 101, SW 112.

SW 310  Community Context  3 cr
The rural and urban contexts of social work practice. Emphasis of the course is placed on how these contexts affect human behavior and the practice of social work. Prerequisite: SW 202.

Department of Sociology, Anthropology and Social Work
College of Arts and Sciences
NOTE: SY 109 is a prerequisite for all other sociology courses described below. Prerequisites for anthropology courses are listed separately.

SY 109 Introductory Sociology 3 cr
The systematic study of human social patterns and processes. Provides exposure to the major concepts, issues and substantive findings of the discipline. Core Course.

SY 112 Social Problems 3 cr
A study of persistent and recurring social conditions and individual and group behaviors that are contrary to the expressed norms of community members and that community members strive to control through collective action. Core Course.

SY 200 Social Factors in Sexual Behavior 3 cr
An analysis of social patterns in sexual behavior including theories of sexuality and gender, gender similarities and differences in sexual behavior, sexual orientation, sexual violence, teen pregnancy and sexually transmitted diseases.

SY 212 Field of Social Welfare 3 cr
A survey of the field of social welfare and of social-work functions. Rise, development, and present organization of social welfare agencies and the social services. Brief introduction to techniques of the social-work profession.

SY 220 Marriage and the Family 3 cr
The organization, function, and present status of the family, primarily in the United States. Problems of mate selection, marital adjustment, and parent-child relations treated on the basis of recent and current social change.

SY 241 Criminology 3 cr
The nature and causation of criminal behavior. Evaluation of theories and research.

SY 242 Corrections 3 cr
Administration of criminal justice in American society. Federal, state and local prison systems; management and treatment of criminals; history of punishment; jail detention, probation and parole; prison activities; rehabilitation.

SY 290 Special Topics 1-3 cr
Selected topics in sociology. May be taken for a maximum of six hours credit when subject matter varies.

SY 305 Sociology of Sport 3 cr
Addresses the issues of rise and development of Sport in North America and relates these developments to other societal structures and processes.

SY 312 Social Work Applications 3 cr
Focus is on the application of social-behavioral science orientations to the amelioration of social problems and public policy issues. Prerequisites: SY 109, SY 212.

SY 315 African-American Families 3 cr
The study of family structure, mate selection, marital and other romantic interaction, parenting and kinship among African-Americans.

**SY 340** Juvenile Delinquency 3 cr  
A study of the nature, extent, treatment, and prevention of delinquent behavior among youth in the United States and other urban industrial societies.

**SY 360** Sociology of Work and Occupations 3 cr  
Work and the division of labor in industrial societies with particular emphasis on the sociology of occupations and professions.

**SY 372** Social Gerontology (W) 3 cr  
Sociological aspects of aging in contemporary American society. Within its parameters are the related problems of economics, health, and social contact.

**SY 375** Development of Sociological Theory 3 cr  
The development of theories in sociology, as related to social thought, institutions, and theories of social progress.

**SY 376** Modern Sociological Theory 3 cr  
The major schools of sociological theory after 1920, as well as recent challenges to these schools.

**SY 381** Sociological Research Methods I (C) 4 cr  
The first of two-semester sequence, with a laboratory experience, designed for sociology majors. Introduction to social research. (Usually taught Fall Semester.) Prerequisite: SY 109. Prerequisite or corequisite: ST 210. Fee.

**SY 382** Sociological Research Methods II (C) 4 cr  
A continuation of SY 381 for sociology majors. Practice of social research. Has a lab component. Prerequisites: SY 109, SY 381. Prerequisite or corequisite: ST 210. Fee.

**SY 394** Directed Studies 1-3 cr  
Field or library pursuits through which special interests or needs of the student may be pursued on an individual, supervised, or tutorial basis. No more than three hours may be used in the major. Arrangements must be made with the instructor prior to registration. Prerequisite: Permission of department chair.

**SY 408** Industrial Sociology 3 cr  
Examines the historical development and contemporary structure of American industry as social choices shaped by contending forces; also explores alternative industrial futures.

**SY 410** Population (W) 3 cr  
An introduction to the study of human populations; population growth and decline; fertility, mortality, and migration; characteristics of populations; population, food, and economic development; demographic analysis; population policies. Fee.

**SY 412** Applied Sociology (W) 3 cr  
A survey of the specialties and techniques of professional sociologists and the conditions under which sociological knowledge is applied to social problems, the kinds of problems, and the degree of effectiveness of this application. A variety of applied methods will be discussed including social impact analysis, program evaluation, needs assessments, social indicators, and cost-benefit analysis. Prerequisites: SY 109, SY 376, SY 381, SY 382.

**SY 415** Sociology of Mental Health and Illness 3 cr  
A sociological analysis of mental health and illness including social epidemiology, effects of social integration and support, labeling mechanisms, social evolution of treatment systems, and cultural factors in the recognition and diagnosis of disorders.

</tbody>
</table>
The social and structural factors in human conduct, including a consideration of language and communication, the self, attitudes and values, social roles, interpersonal relations, and small-group processes.

**SY 458 Crowds, Riots and Social Movements (W)** 3 cr
A survey of the theoretical and historical foundations of collective behavior, riots, and social movements. A variety of situations and behaviors will be analyzed including social movement participation; growth and organization; strategies, tactics, and consequences for participants and society.

**SY 459 Medicine and Society** 3 cr
The sociological study of medical care, with topics ranging from the micropolitics of doctor-patient communication through macro-level investigation of comparative health care systems.

**SY 460 Social Organization (W)** 3 cr
This course provides the student with a comprehensive behavioral science approach to understanding modern social organizational trends.

**SY 467 Environmental Sociology** 3 cr
This course will cover topics such as public awareness and the social construction of environmental issues, especially acid rain, biodiversity, biotechnology and technological disasters.

**SY 472 Sociology of Aging and the Family** 3 cr
The class focuses on sociological theories of family and aging and the linkages of families and their aging members with organizations that deliver medical and social services, with government bureaucracies, the legal system, corporations and businesses and religious organizations.

**SY 490 Special Topics** 1-3 cr
A sociological examination of advanced topics. This course may be taken for a maximum of six hours credit when the subject matter varies. Prerequisite: Upper division status.

**SY 492 Seminar (W)** 3 cr
Selected topics in sociology for students with junior or senior standing. Note: SY 492 is not intended for graduate students. Prerequisite: Upper division status.

**SY 494 Directed Studies** 1-3 cr
Designing a study, carrying out the research, and writing the result of a thesis. No more than six hours of credit may be applied to major. Prerequisites: Upper division status and chair's permission.

**SY 496 Sociology Internship** 3-6 cr
Provides an opportunity to combine academic principles with practical experience in an agency dealing with human relationships. Specifics of the assignment result from a mutual agreement among student, course director and agency. Course may be repeated for a maximum of six hours of credit. Prerequisites: Upper division status; and Chair's permission.

**SY 500 Orientation** 2 cr
Introduces the student to graduate study in sociology by providing information on degrees, career opportunities, and professional activities in the discipline.

**SY 505 Advanced Principles of Sociology** 3 cr
Systematic review and integration of major propositions, concepts, and research data from various fields of sociology. Development of a comprehensive orientation for the description and explanation of social phenomena.

**SY 506 Contemporary Sociological Theory** 3 cr
Critical examination of major theoretical schools after 1920 and their classical predecessors: also examination of recent challenges to and syntheses of these schools.

SY 567  Environmental Sociology 3 cr
This course will cover topics such as public awareness and the social construction of environmental issues, especially acid rain, biodiversity, biotechnology and technological disasters.

SY 572  Sociology of Aging and the Family 3 cr
The class focuses on sociological theories of family and aging and the linkages of families and their aging members with organizations that deliver medical and social services, with government bureaucracies, the legal system, corporations and businesses, and religious organizations.

SY 590  Special Topics 3 cr
Selected topics in graduate sociology. Course may be repeated for different topics.

SY 594  Directed Studies 1-3 cr
Field or library projects through which special interests of the student may be pursued on a tutorial basis with a graduate faculty member. Arrangements must be made with the professor prior to registration. Permission of the department chair is required.

SY 595  Research Project in Sociology 1-3 cr
A research paper is prepared under the supervision of a graduate faculty member. Student is guided through the formulation and execution of a research design with appropriate use of theory and research methodology. Prerequisites: Pass on comprehensive exam and approved research proposal.

SY 596  Internship: Sociology 3-9 cr
Relates the student's classroom studies to occupational and professional experiences in an approved community agency. Written reports required. May be taken for a maximum of nine credit hours. Permission of department chair is required.

SY 599  Thesis 1-6 cr
May be taken for a total of six hours' credit. Prerequisite: Pass on comprehensive examination.

</tbody>
</table>
Supervised early experience in the teaching field which allows the teacher’s performance to be evaluated qualitatively.

SPE 490 Special Topics 3 cr
Varies in content and deals with issues, trends, and topics of current interest in the field of educating exceptional individuals. May be repeated for credit when course content varies.

SPE 494 Directed Study 3 cr
Directed Study. No more than two directed studies may be applied to programs at the undergraduate level or for certification. Prerequisite: Permission of department.

SPE 495 Internship K-6 9 cr
Observation and supervised K-6 Collaborative Teaching experience providing the opportunity to synthesize all previous instruction. This culminating activity provides opportunity for study and discussion of problems and issues encountered in the practicum situation.

SPE 496 Internship 6-12 9 cr
Observation and supervised 6-12 collaborative teaching experience providing the opportunity to synthesize all previous instruction. This culminating activity provides opportunity for study and discussion of problems and issues encountered in the practicum situation.

SPE 497 Internship ECSE 9 cr
Observation and supervised ECSE teaching experience providing the opportunity to synthesize all previous instruction. This culminating activity provides opportunity for study and discussion of problems and issues encountered in the practicum situation.

SPE 499 Seniors Honors Project 3-6 cr
Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research project relevant to the field of study in Special Education that will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty members chaired by the honors mentor. This course is required for Honors recognition and may be repeated for up to six credit hours. Prerequisites: Participant in honors program and junior level status.

SPE 500 Nature and Needs of Exceptional Children and Youth 3 cr
Introduction to the field of special education involving the study of all exceptionality areas. Developmental and maturational sequences of exceptional children/youth are included.

SPE 504 Seminar in Special Education 3 cr
Designed to allow students an in-depth exploration of topics of special concern to them related to children with disabilities or high potential.

SPE 505 Administration and Supervision of Special Education 3 cr
Establishing, maintaining, supervising, and evaluating special education programs in school districts and systems. Legislation and litigation, budgeting and finance, trends and issues in special education are included.

SPE 510 Introduction to Learning Characteristics and Teaching in Special Education 3 cr
An examination of the definitions, characteristics, and prevalence of children with learning disabilities, emotional and/or behavioral disabilities, mental retardation and multiple disabilities. Emphasis is placed on the environmental and biological causes of problems in motor, perceptual, social academic, affective, and behavioral development. Students will be introduced to current service delivery models and the programming for individuals with disabilities.
SPE 511  Curriculum: Regular Class and Adaptations  3 cr
Examination of all curricula as represented by various state course of study
documents. Students will study and develop relevant adaptations of curricula to meet
needs of various exceptional children.

SPE 512  Ecological Curriculum and Methods  3 cr
From an ecological systems view, methods of individually deriving a functional, life-
centered curriculum for students with mild to severe disabilities as well as educational
strategies for teaching and training within such a framework.

SPE 514  Teaming and Collaboration  3 cr
An intensive study of the nature of teaming and collaborative practices with an
emphasis on developing skills to organize and participate in a variety of such situations.

SPE 515  Data-Based Behavior Management of Exceptional Children  3 cr
Behavioral assessment techniques and experimental design for the evaluation of
behavior change programs. Operant and respondent methods for deceleration of
inappropriate behavior. Operant methods for accelerating appropriate behaviors,
teaching new behaviors and maintaining behaviors. Data-Based decision making
strategies for formative program evaluation and modifications.

SPE 516  Methods for Special Needs Learners  3 cr
An examination of the methodologies employed in teaching special needs learners.
The course covers the theoretical underpinnings and practical applications of
techniques with media and materials.

SPE 517  Communication: Language and Reading  3 cr
Major topics include the nature of language development and language problems in
exceptional students, and remedial procedures. Informal and formal language and
reading assessment. Relationship of reading to writing, phonetic, sight and
combination means of reading instruction.

SPE 518  Assessment  3 cr
Advanced assessment of developmental levels, academic and nonacademic
performance of exceptional individuals though the administration and interpretation of
standardized tests, criterion-referenced instruments, and informal measures.

SPE 521  Children with High Potential  3 cr
Study of the intellectual, creative, emotional, and other psychological facets of gifted
and talented children. Attention will be paid both to those individuals whose potential is
realized and those who are considered underachievers.

SPE 522  Creative and Productive Thinking  3 cr
Geared to understanding the creative process, personality, and product of gifted and
talented children as well as how to foster creativity and productive thought in the
classroom.

SPE 523  Teaching Children with High Potential  3 cr
Various curricular emphases and program approaches employed for gifted, creative,
and talented children are studied. Insights are offered into articulating educational
efforts.

SPE 524  Atypical Children with High Potential  3 cr
This course is an in-depth study of the unique needs of atypical populations of gifted
students. Attention is directed to the culturally diverse gifted, economically
disadvantaged gifted, underachieving gifted, gifted in rural areas, gifted females, highly/
profoundly gifted, gifted with disabilities, gifted with ADD/ADHD/SLD, and gifted
preschoolers.

SPE 534  Assessment of the Developmental Young  3 cr
This course contains information on basic psychometric qualities of screening, evaluations, and assessments, tools for use with infants, toddlers, and young children with disabilities, conducting family assessments, adapting measures for children with disabilities, and using screening, assessment and evaluation in individualized programming.

SPE 535 Collaborating with Families 3 cr
This course prepares students to work with families of children with special needs. It contains information on understanding families, working with traditional and non-traditional families, and providing family-centered services.

SPE 589 Pre-Practicum Experience 3 cr
Supervised experience in the teaching field which allows the teacher's performance to be evaluated qualitatively.

SPE 590 Special Topics 3 cr
A course employed for awarding appropriate academic credit for selected, approved off-campus experiences conducted by the university, such as workshops, institutes, and conferences. Credit is dependent on length and composition of activity. May be repeated for credit. Total credit cannot exceed six hours.

SPE 591 Multicategorical Practicum/Seminar 3 cr
Combines field experiences and technology-based simulations and learning experiences with an ongoing seminar to address a wide-range of disabilities and educational implications. Course content will be individualized according to the students educational and professional background.

SPE 592 Collaborative Seminar 3 cr
A seminar which enables students to discuss controversial issues related to the role and function of the collaborative teacher. Students lead and respond to discussions on topics which include teaming, inclusion, and collaboration.

SPE 594 Directed Study and Research 3 cr
Students explore, through directed individual study and research, problems and issues of special interest or significance in special education.

SPE 595 Internship/Practicum in Special Education Collaborative Teacher K-6 3 cr
Supervised experiences in Collaborative Teaching K-6 in the teaching field which allow the teacher's performance to be evaluated qualitatively.

SPE 596 Internship/Practicum in Special Education Collaborative Teacher 6-12 3 cr
Supervised experiences in Collaborative Teaching 6-12 in the teaching field which allow the teacher's performance to be evaluated qualitatively.

SPE 597 Internship/Practicum in Special Education Early Childhood Special Education 3 cr
Supervised experiences in ECSE in the teaching field which allow the teacher's performance to be evaluated qualitatively.

SPE 598 Internship/Practicum in Special Education Gifted/Talented 3 cr
Supervised experiences in Gifted/Talented in the teaching field which allow the teacher's performance to be evaluated qualitatively.

SPE 599 Thesis 3 cr
A student selects a project, study, or investigation in special education related to the student's area of specialization. The project forms a basis for the thesis. A thesis committee will give guidance during the investigation and during the writing of the thesis.
SPE 601 Advanced Evaluation in Special Education 3 cr
Methods and procedures for developing criterion-referenced instruments and assessment batteries for classroom use in evaluating exceptional children and youth.

SPE 609 Advanced Study of Exceptional Children 3 cr
Comparison of normal development progress and that usually seen in the various exceptionality categories of special education especially cognitive, communication, motor, social and emotional development.

SPE 641 Seminar in Behavioral Disorders/Emotional Conflict 3 cr
Advanced study and review of the state of present knowledge in areas relevant to the psychopathological disorders of childhood including etiology, assessment, treatment, and education.

SPE 642 Clinical Teaching I 3 cr
A study of the principles of behavioral theory upon which strategies for change in cognitive and social behavior rest and the evaluative designs used to monitor behavioral change and validate strategies.

SPE 643 Clinical Teaching II 3 cr
A study and review of clinical research relevant to the curriculum requirements in the education and treatment of exceptional children and the identification of research needs in the various areas of exceptionality.

SPE 651 Seminar in Learning Disabilities 3 cr
Current trends and issues in the education of learning disabled individuals are discussed, various theoretical approaches and current empirical evidence provide the basis for discussion.

SPE 671 Seminar in Mental Retardation Education 3 cr
Current trends and issues in the education of mentally retarded individuals. Classic and recent professional literature are the basis for developing perspectives.

SPE 690 Special Topics 3 cr
A course with varying content dealing with issues, trends, and topics of current interest in the field of education exceptional individuals. May be repeated for credit when course content varies.

SPE 694 Directed Study and Research 3 cr
Students explore, through directed study, problems and issues of special interest or significance in special education.

SPE 699 Research Project 3 cr
The Research Project, as the culminating experience in the Specialist Program, provides an opportunity for the candidate to synthesize and apply the various program components in a selected instructional setting. Suitable agreements are reached with the appropriate public school system by the candidate.

*Only for students admitted to teacher candidacy.

</table>
This course is a study of the principles of the management of hearing loss in children and adults; relevant legislation; and treatment and education options. Prerequisite: SHS 473. **Taught Spring Semester.**

**SHS 480  Issues in Clinical Practicum (W)  4 cr**
Introduction to the clinical setting; organizations and statutes that govern professional service; instrumentation, procedures and approaches to remediation. Observation of therapy and indirect participation as a clinical aide. Prerequisites: SHS 331 and SHS 341. **Taught Spring and Summer Semesters.** Special fee.

**SHS 490  Special Topics  1-3 cr**
Topics to be determined by student need and interest. Content will vary. A subtitle identifying the topic will be entered on the student’s record. May be repeated for a total of six credits. Prerequisite: Permission of department chair.

**SHS 494  Directed Independent Study  1-3 cr**
Independent study under the direction of a faculty member. Prerequisite: Permission of department chair.

**SHS 499  Senior Honors Project (H, W)  3-6 cr**
Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research project relevant to the field of Speech Pathology and Audiology study that will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty members chaired by the honors mentor. This course is required for Honors recognition and may be repeated for up to six credit hours. Prerequisites: Permission of the department chair and completion of an approved project prospectus.

DEPARTMENT OF SPEECH PATHOLOGY AND AUDIOLOGY

College of Allied Health Professions

University of South Alabama - Mobile Alabama 36688-0002 / 1 (251) 460-6101

SPEECH-LANGUAGE PATHOLOGY (SLP)

SLP 510 Intro to Research Design 3 cr
A general presentation of research procedures. The student will learn to read and evaluate professional literature and develop a research prospectus.

SLP 521 Advanced Speech Science 3 cr
The study of physical and acoustic concepts involved in speech production and perception including instrumental measurement and analysis.

SLP 532 Clinical Linguistics 3 cr
This course gives students an overview of linguistic theories and approaches that are relevant to the field of speech sciences. There is a particular emphasis on those areas of linguistics that underpin the diagnostic and assessment procedures used in speech pathology.

SLP 533 Pediatric Language Disorders: Birth to Five 3 cr
Clinical assessment and management of language problems in infants, toddlers, and preschoolers, including language disorders associated with other developmental disorders and AAC.

SLP 534 School-aged Language Disorders 2 cr
This course covers assessment and intervention approaches for school-age language disorders, children beyond age 5 years. Topics include speech-language services at the discourse level; the relationship between language and literacy; service delivery models including integration; educational laws and policies.

SLP 541 Advanced Articulation Disorders 3 cr
Advanced study of disordered speech-sound production including these: development, assessment and intervention of articulation and phonological disorders in children.

SLP 551 Voice and Resonance Disorders 3 cr

SLP 561 Advanced Fluency Disorders 3 cr
Study of theories, research, and contemporary treatment procedures in the area of dysfluency.

SLP 565 Neuromotor Disorders of Communication 3 cr
Review of neuroanatomy and physiology, nature of neuromuscular pathologies, methods of assessment and rehabilitation of neuromotor disorders of speech production.

SLP 566 Acquired Disorders of Language and Cognition 3 cr
Review of neuropsychology of communication; nature of acquired pathologies affecting central processes of language and cognition; methods of assessment and rehabilitation of acquired cognitive and linguistic disorders in children and adults.

SLP 567 Medical Speech Language Pathology 2 cr
Medical aspects of speech-language pathology involving activities normally undertaken with patients in medical settings.

**ST 150 Contemporary Mathematics and Statistics Seminar**

This course gives an overview of modern mathematics and statistics from the point of view of the practitioners. The course is designed for majors in mathematics and statistics at all levels as well as those students who are considering mathematics and statistics as a major or minor area of study. Topics usually included are elements of geometry, algebra, analysis, methods of statistical inference, the role of the computer in the analytical sciences; these topics vary from semester to semester. This course cannot be taken for credit simultaneously with MA 150, but may be repeated in different semesters.

**NOTE:** May be offered for Honors Credit.

**ST 210 Statistical Reasoning and Applications (C)**

An introduction to modern statistics designed to provide the student with a solid foundation in statistical concepts, reasoning and applications. Emphasis given to problem identification, methodology selection and interpretation of results. Analysis of data accomplished by extensive use of statistical computer software, thereby minimizing manual computation. Coverage includes descriptive statistics, probability models, estimation, hypothesis testing, design of experiments and analysis of variance (ANOVA), linear regression and correlation. Prerequisite: High School level algebra is recommended. Computer Lab fee.

**NOTE:** ST 210 is intended for students in all disciplines except Engineering and Computer Science.

**NOTE:** May be offered for Honors Credit.

**ST 310 Statistical Research Techniques**

Continuation of ST 210 providing a more rigorous treatment of methodologies introduced in ST 210. Additional coverage will be given to experimental design, analysis of variance (ANOVA), regression, model building, nonparametric techniques, contingency table analysis, sampling and survey methods, and statistical simulations. Statistical computer software will be extensively used for data analysis. Prerequisite: ST 210. Computer Lab fee.

**NOTE:** Credit for only ONE course from ST 310, ST 315 and ST 320 is allowed.

**ST 315 Applied Probability and Statistics**

Concepts of probability theory, discrete and continuous probability distributions including gamma, beta, exponential and Weibull, descriptive statistics, sampling, estimation, confidence intervals, testing of hypothesis, ANOVA and multiple comparisons, linear and multiple regression, correlation, nonparametric analysis, contingency table analysis, computer-assisted data analysis using appropriate statistical software. Prerequisite: MA 125. Computer Lab fee.

**ST 320 Applied Statistical Analysis**

Descriptive statistics, probability distributions, sampling, estimation, confidence intervals and hypothesis testing, experimental designs, ANOVA and multiple comparisons, linear and multiple regression, correlation, nonparametric analysis, goodness of fit, contingency table analysis, quality control, acceptance sampling, computer-assisted data analysis using appropriate statistical software. Prerequisite: MA 125. Computer Lab fee.

NOTE: ST 315 and ST 320 are intended for students in Engineering, Computer Science, and Mathematics. ST 315 covers additional probability distributions while ST 320 additionally covers concepts of quality control and acceptance sampling. Students in these disciplines should consult with their academic advisor for appropriate choice between ST 315 and ST 320.

NOTE: Credit for only ONE course from ST 310, ST 315 and ST 320 is allowed.

ST 335  Applied Regression Analysis  3 cr
Simple, polynomial and multiple linear regression; residual and lack-of-fit analysis; simple, multiple, partial and multiple-partial correlation analysis; model building algorithms, dummy variables; analysis of covariance; model comparisons; analysis of experimental designs including messy data; nonlinear regression models; computer-assisted data analysis using appropriate statistical software. Prerequisite: ST 210 or ST 315 or ST 320. Computer Lab fee.

ST 340  Design and Analysis of Experiments  3 cr
Principles, constructions, and analysis of experimental designs to include completely randomized, randomized complete block, latin square and split plot designs, factorial experiments, designs with nested and/or crossed factors, multifactor experiments with randomization restrictions, transformations, incomplete block designs, multiple comparisons including contrasts, confounding, fractional replication, computer-assisted data analysis. Prerequisite: ST 210 or ST 315 or ST 320. Computer Lab fee.

ST 345  Sampling and Survey Techniques  3 cr
Sampling concepts and designs for survey investigations; sampling methodologies including applications of simple random, stratified, one-and two-stage cluster, and systematic sampling; sample size determination; ratio and regression estimation; population size estimation; random response modeling; acceptance sampling including applications of single and multiple 2-class attribute sampling plans; computer-assisted data analysis using appropriate statistical software. Prerequisite: ST 210 or ST 310 or ST 320. Computer Lab fee.

ST 350  Applied Time Series Analysis  3 cr
Fundamentals concepts; classical regression models as forecasting models, exponential smoothings, stationary and nonstationary models, additive and multiplicative decompositions, moving average, autoregressive, ARMA and ARIMA processes, estimation in MA, AR, ARMA, and ARIMA processes. Box-Jenkins methodology, computer aided modeling, applications. Prerequisite: ST 310 or ST 315 or ST 320 or ST 335. Computer Lab fee.

ST 355  Nonparametric Statistical Methods  3 cr
Distribution-free analysis of location and scale measures, non-parametric treatment of fundamental statistical designs, nonparametric comparison procedures, association and contingency table analysis, nonparametric goodness-of-fit procedures, and tests for randomness, nonparametric regression and other measures of association, computer intensive statistical methods. Prerequisite: ST 210 or ST 315 or ST 320. Computer Lab fee.

ST 415  Statistical Quality Control and Reliability  3 cr
Statistics (ST)

Probability distributions in quality control, inferences about process quality, control charts for attributes and variables, process capability analysis, economic design of control charts, cusum charts, acceptance sampling by attributes and variables, reliability concepts, censoring, definitions and properties of survival distributions, methods of estimating and comparing reliability distributions, Kaplan-Meier estimation, burn-in models with a major emphasis on computer-assisted data analysis.
Prerequisite: Any 300 level ST course. Computer Lab fee.

ST 425 Applied Linear Models 3 cr
Some results of matrix algebra, multivariate normal distributions, distributions of quadratic forms, general linear models, design models with one factor and two factors including interaction, component-of-variance models, computing techniques.
Prerequisite: MA 237 and ST 335 or ST 340. Computer Lab fee.

ST 450 Categorical Data Analysis 3 cr
Analysis of two-way, three-way and higher dimensional contingency tables using log-linear models, measures of association for nominal and ordinal tables, multiple-factor models, multiple response models, logistic regression, weighted least squares.
Prerequisite: Any 300 level ST course. Computer Lab fee.

ST 460 Multivariate Statistical Analysis 3 cr
Multivariate normal distribution, sampling distribution, hypothesis testing, principal components and introduction to factor analysis, canonical correlation analysis, discriminant and classification analysis, MANOVA. Prerequisite: Any 300 level ST course. Computer Lab fee.

ST 470 Theory of Statistics 3 cr
A comprehensive introduction to the mathematical foundations of statistics. Sufficient statistics and information. Parameter estimation, maximum likelihood and moment estimation, optimality properties of estimators and confidence intervals. Hypothesis testing, likelihood ratio tests and power functions. Credit for both ST 470 and MA 551 is not allowed. Prerequisite: MA 451 or MA 550.

ST 480 Statistical Practicum (W) 1 cr
Relates to the student's classroom studies with actual statistical problems encountered in practice. Working with the departmental statistical consultant, the student will participate in providing statistical assistance to research faculty in applied fields.
Prerequisite: Approval of department chair. Computer Lab fee.

ST 490 Special Topics 1-3 cr
Selected topics in advanced undergraduate applied statistics. This course may be repeated for a maximum of six credits.

ST 494 Directed Studies 1-3 cr
Directed study. May be repeated for a maximum of six credits. Prerequisite: Permission of the department chair.

ST 499 Honors Senior Project 3-6 cr
With the guidance and advice of a faculty mentor, Honors Students will identify, and carry out a research project in Statistics. The outcome of the research project will include a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three members of the faculty, chaired by the faculty mentor.

ST 540 Statistics in Research I 3 cr
A service course for graduate students in disciplines other than mathematics and statistics. A non-calculus exposition in support of application. Coverage includes descriptive statistics, probability and probability distributions, sampling, estimation, tests of significance, analysis of variance, correlation, linear, polynomial, and multiple linear regression including residual and lack of fit analysis, nonparametric procedures, contingency table analysis, and computer assisted data analysis using appropriate computer software. Computer Lab fee.
ST 545     Statistics in Research II     3 cr
Continuation of ST 540. Coverage includes regression analysis through matrices, multiple, partial and multiple-partial correlation analysis, model building algorithms, nonlinear regression, analysis of covariance, completely randomized, randomized complete block, and factorial experimentation for equal and unequal cell replication, logistic regression, resampling, basic multivariate techniques, and computer assisted data analysis. Prerequisite: ST 540. Computer Lab fee.

ST 550     Environmental Statistics     3 cr
Sampling environmental populations, parametric and nonparametric estimation; applications of lognormal, Weibull, gamma and beta distributions; locating hot spots; censored data; outlier detection; trend analysis, seasonality; estimation of animal abundance. Prerequisite: ST 540. Computer Lab fee.

All degrees are conferred at the commencement exercises in May and December.
HEALTH PRE-PROFESSIONAL PROGRAMS

Pre-professional programs in pre-dentistry, pre-medicine, pre-optometry, pre-pharmacy, and pre-veterinary medicine are offered at the University of South Alabama. The Pre-professional Advisory Committee guides the students concerning professional school admission requirements in these areas. Students planning to follow pre-professional programs listed above should see the Director of Health Pre-Professions Program, Dr. T. G. Jackson, Department of Chemistry.

The Health Pre-Professional Advisor will advise the pre-professional students for their first two years of college work. After two years of work the department in which the student wishes to major will guide the student in major and minor work. However, the student should continue to work with the health Pre-Professional Advisor and should obtain information concerning the application procedure for professional schools early in the junior year. Application Forms and instructions are available in the office of the health Pre-Professional Advisor.

The courses listed below are generally required for all professional schools. However, the students should discuss specific requirements with the Health Pre-Professional Advisor. The student should prepare to take the appropriate admissions exam, usually during the junior year.

- General Chemistry with Lab: Two semesters or three quarters
- Organic Chemistry with Lab: Two semesters or three quarters
- General Biology with Lab: Two semesters or three quarters
- Physics with Lab: Two semesters or three quarters
- Mathematics: Two semesters or three quarters, Calculus is recommended; some schools require calculus
- Humanities: Two semesters or three quarters
- English Composition: Two semesters or three quarters

**Program in Pre-Dentistry, Pre-Medicine, and Pre-Optometry**
This program is designed to prepare students for the vigorous demands of dental, medical, and optometry schools. The program is demanding and requires a high scholastic competence and performance. Students must maintain a better than “B” record to be competitive when applying to professional schools.

Most dental, medical and optometry schools prefer that the bachelors degree be earned for admission. However, some outstanding students may gain admission to a professional school prior to graduation.

The pre-optometry student should write for an official bulletin from the professional schools of interest during the freshman year and discuss with the Health Pre-Professional Advisor any special requirements for those schools. The student should make official application for admission to the professional schools about a year in advance of the expected date of matriculation.

**Program for Pre-Pharmacy**
Requirements for admission to pharmacy school vary. Complete information about professional curricula in pharmacy may be obtained by writing for an official bulletin from professional schools of choice. To matriculate in pharmacy school the student must be accepted for admission by the Admissions Committee of the School of Pharmacy. The student should make application for admission to the professional schools of choice at least one semester in advance of the date the student plans to enter professional school. The student must also receive approval for admission by the university with which the professional school is affiliated and applications for admission to the universities of choice should be made at least two semesters in advance of the date the student plans to enter. Specific requirements for several professional schools are available in the office of the Pre-Professional Advisor.

Pre-Veterinary Medicine
Students interested in the pre-veterinary medicine program at the University of South Alabama should see the Director of the Health Pre-Professions Program, Dr. T.G. Jackson, Department of Chemistry.

PREPARATION FOR LAW SCHOOL
Students interested in preparing for a career in law will find outstanding opportunities at the University of South Alabama. The finest pre-law education is considered by many to be a four-year liberal arts curriculum, but law schools will accept bachelor’s degrees in other areas also. Law schools generally do not prescribe a particular major or course of undergraduate study to qualify for admission. They all stress, however, the importance of excellence in whatever course of study is pursued. Specifically, the Association of American Law Schools emphasizes excellence in attaining the following three objectives in pre-law studies:

1. Comprehension and expression in words.
2. Critical understanding of human institutions and values with which the law deals.
3. Creative power in thinking.

“Shortly stated, what the law schools seek in their entering students is not accomplishment in mere memorization but accomplishment in understanding, the capacity to think for themselves, and the ability to express their thoughts with clarity and force” (from Association of American Law Schools, Statement of Policy).

To help the student develop the best possible course of study to prepare for law school in the light of particular needs, the University of South Alabama provides a pre-Law Advisor in the Department of Political Science and Criminal Justice. Pre-Law students are urged to consult with the Advisor for detailed information concerning how best to prepare for law school and for information concerning the Law School Admission Test, now required by practically all law schools.
SCHOOL OF COMPUTER AND INFORMATION SCIENCES
GRADUATE

Dean: David L. Feinstein (251) 460-6390
Director, CIS Graduate Studies: R. J. Daigle
Coordinators: Daigle (ISC), Doran (CSC), Owen (ITE)
Professors: Daigle, Doran, Feinstein, Longenecker
Associate Professors: Hain, Langan, Owen, Pardue, Simmons
Assistant Professors: Johnsten, Landry, Moulton, Sweeney, Zhou

School of Computer and Information Sciences web site
http://www.cis.usouthal.edu

THE MASTER OF SCIENCE IN COMPUTER AND INFORMATION SCIENCES PROGRAM
The Master of Science in Computer and Information Sciences degree program is designed for students and professionals wishing to further their knowledge and expertise in computer science. There are two major areas of concentration within the degree program:

1. COMPUTER SCIENCE (CSC) for students interested in the theoretical aspects of the discipline with an emphasis on the construction of system software or the development of scientific applications using software engineering principles.
2. INFORMATION SYSTEMS (ISC) for students interested in business and organizational applications and information systems management.

REQUIREMENTS FOR REGULAR AND PROVISIONAL ADMISSION
Students are admitted each semester. Applicants who have an earned undergraduate or graduate degree from an accredited institution of higher education and who satisfy the admission criteria for the Graduate School (See Graduate School, Categories of Admission) may qualify for admission to the School of Computer and Information Sciences Graduate Program.

- Applicants whose highest degree is an earned graduate degree from an accredited institution of higher education may qualify for Regular Admission based upon their previous graduate work.
- Applicants whose highest degree is an undergraduate degree from an accredited institution of higher education must provide official scores on the Verbal, Quantitative, and Analytical Writing sections of the GRE in addition to the Graduate School requirements for Regular or Provisional Admission.

Final admission decisions are made based upon an evaluation of the applicant's complete file which consists of all official academic transcripts, undergraduate grade-point average; GRE scores; three (3) letters of reference; professional experience; the applicant's statement of purpose; TOEFL scores (for international applicants); and program enrollment and availability.

NON-DEGREE ADMISSION
The School of CIS does not accept Non-Degree admissions to the Master of Science in Computer and Information Sciences.

COMPUTER OWNERSHIP POLICY
All students enrolling in any undergraduate and graduate course offered by the School of CIS, except CIS 110, CIS 150, CIS 210, CIS 211, CIS 227, CIS 250, and CIS 500, are required to own a personal laptop computer system that conforms to the current School minimum published standards. This is a one-student one-machine requirement. For more information consult Links for Students, Resources, Policies at www.cis.usouthal.edu.

CIS GRADUATE PROFESSIONAL COMPONENT
All CIS graduate courses require CIS Graduate Professional Component Standing. Upon entering the School of Computer and Information Sciences Graduate Program, the student meets with the coordinator of the student's specialization area (CSC or ISC) to prepare an initial draft of the student's personal program of study. To obtain a greater understanding of acquired computing skills and knowledge, the School of CIS may administer a CIS Foundation Placement Examination to students entering the School of CIS graduate program. The specialization coordinator reviews the student's previous academic work to see if any courses from the CIS Graduate Foundation or the Required/Supporting courses to be included as part of the student's personal program of study. These prescribed courses form the CIS Graduate Professional Component requirement for the student. A student attains CIS Graduate Professional Component Standing if either a) the student is not prescribed Professional Component courses or b) the student successfully completes the prescribed Professional Component courses. The CIS Foundation and Requirement/Supporting Courses (undergraduate equivalents are listed in parenthesis) for each specialization are enumerated below:

1. CIS GRADUATE FOUNDATION COURSES:
   A. Courses common to Computer Science (CSC) and Information Systems (ISC) Specializations
      Three (3) CIS Foundation courses common to both CSC and ISC specializations are as follows:
      a. CIS 501 Accelerated Programming
         (CIS 120) (Problem Solving and Programming Concepts I) And
         (CIS 121) (Problem Solving and Programming Concepts II)
      b. CIS 321 Data Comm and Networking
      c. CIS 507 Database Programming
         (CIS 324) (Database Design, Development, and Management)
   B. Computer Science (CSC)
      Three (3) additional CIS Foundation courses for the CSC specialization are:
      a. CIS 322 Operating Systems
      b. CIS 503 Accelerated Data and File Structures
         (CIS 230) (Adv Data and File Structures)
      c. CSC 333 Program Language Theory
   C. Information Systems (ISC)
      Three (3) additional CIS Foundation courses for the ISC specialization are:
      a. ITE 285 Scripting and Windows Prog
      b. ITE 272 intro to Information Tech II
      c. CIS 506 IS in Organizations (no undergraduate equivalent)

2. REQUIRED SUPPORTING COURSES:
The supporting courses required for each specialization area are as follows:
   a. COMPUTER SCIENCE (CSC)
      MA 125 Calculus I
      MA 126 Calculus II
      MA 267 Discrete Math
      And
      ST 315 Statistics
   b. INFORMATION SYSTEMS (ISC)
      MA 267 Discrete Math
      MGT 340 Organizational Behavior
      MGT 497 MBA Statistical Analysis
      And
      One additional approved Business/Management course

INTERNATIONAL STUDENTS' SPECIAL REQUIREMENTS
International students must submit documentary evidence showing TOEFL test scores of at least 525 or an equivalent level of competence as exhibited by a bachelor’s degree from an accredited university in the United States. All international students will be required to take the ESL (English as a Second Language) examination and may be required to enroll in ESL courses as part of their graduate program in addition to the normal requirements for the degree listed below.

**CHOICE OF BULLETIN UNDER WHICH A STUDENT GRADUATES**
Students entering the CIS program may choose any bulletin from their entry date to their time of graduation. This applies for new students and transfer students. Students at the University of South Alabama changing their graduate specialization in CIS, changing their major to CIS, or who interrupt their program for more than one calendar year are considered new students with respect to bulletin selection.

**COURSES TAKEN OUTSIDE THE SCHOOL OF COMPUTER AND INFORMATION SCIENCES**
No more than three graduate courses, maximum of nine (9) semester hours taken outside of the School of Computer and Information Sciences may be applied toward the degree. Only grades of “A” or “B” may be accepted. Transfer credit is approved only after completion of a minimum of nine (9) semester hours of graduate credit towards the degree. Any such transfer courses must be approved by the Director of Graduate Studies for Computer and Information Sciences and the student’s advisor and may not have been used to fulfill the requirements of another graduate degree.

**SCHEDULING OF COURSES**
The graduate program for CIS is primarily an evening program. The courses are scheduled to accommodate full-time students (normally two or three courses per semester) and part-time students (one course per semester). Special topics, directed study, and thesis courses are available as they are needed.

**TIME LIMITATION**
All requirements for a graduate degree must be completed within five (5) calendar years from the date of matriculation as a CIS graduate student. The five calendar year constraint also applies to all accepted transfer courses.

**GRADUATE RESEARCH SEMINAR**
The CIS Graduate Research Seminar is scheduled periodically during each semester as a forum for students and faculty to present and discuss research issues, ideas, and results. Attendance is expected of all graduate students. For students enrolled in these special courses: CIS 518, CIS 594, CIS 595, CSC 595, ISC 595, CIS 598, CSC 598, ISC 598, and CIS 599. Moreover students enrolled in these special courses are required to give a presentation each semester based on their work in the course in which they are enrolled.

**PROFESSIONAL PARTICIPATION**
Master’s students are expected to take an active part in at least one (1) professional computing organization. They are expected to be aware of the social impact of computing and adhere to the ACM/AITP code of ethics. For more information consult [Links for Students, Resources, Organizational Affiliations](http://www.cis.usouthal.edu) at [http://www.cis.usouthal.edu](http://www.cis.usouthal.edu).

**GRADUATE ASSISTANTSHIPS AND FELLOWSHIPS**
A limited number of graduate assistantships are available on a competitive basis and are awarded on the recommendation of the School of Computer and Information Sciences. Applications can be obtained from the CIS office.

**COMPREHENSIVE EXAMINATION**
All CIS masters students must complete a comprehensive examination for the CORE courses in their Specialization (Computer Science or Information Systems). The comprehensive examination may be repeated no more than twice. A written examination is required of students who choose the Course Only Concentration, an oral examination is required of students who complete either the Thesis Concentration or the Project Concentration. The School of CIS Comprehensive Examination Policies and Procedures document and the Comprehensive Examination Application form are available at [http://www.cis.usouthal.edu](http://www.cis.usouthal.edu), [Links for Students, Student Recourses, Applications and Forms](http://www.cis.usouthal.edu).
GRADUATE SCHOOL STANDARDS

For all other graduate policies and procedures not specifically supplemented for the Master of Science in Computer and Information Sciences degree program, refer to The Graduate School. Some policies and procedures that may be of interest are: Graduate Study for Advanced Undergraduates, Graduate School Academic Standards, Grade Standards, Change of Grade, Academic Dismissal, Final Grade Grievance Policy, Appeal Procedure, English Language Proficiency, Full Load of Course Work in a Semester, Change of Program, Student Responsibility, Degree Requirements for the Master’s Degree, Guidelines for Theses and Dissertations, Standards for Theses and Dissertations, and Application for Degree.

REQUIREMENTS FOR MASTERS DEGREE WITH COMPUTER SCIENCE (CSC) SPECIALIZATION

Students must satisfactorily complete any prescribed CIS Graduate Professional Component courses, a comprehensive examination, and thirty-six (36) graduate credit hours for the Master of Science degree with Computer Science specialization. The thirty-six (36) graduate credit hours consist of twelve (12) hours of CORE courses, three (3) semester hours of REQUIRED courses, and twenty-one (21) semester hours of approved elective courses according to the selected concentration option as follows:

1. CORE COURSES (12 semester hours):
   All core courses must be completed with a minimum grade of “B”.
   - CSC 520 Computer Architecture
   - CSC 522 Perform Eval of Algorithms
   - CSC 525 Complexity Theory
     And
   - CSC 527 Software Engineering Prin

2. REQUIRED COURSES (3 semester hours):
   - CIS 518 CIS Research Methodologies

3. CONCENTRATIONS (21 semester hours):
   A. THESIS CONCENTRATION.
   Acceptance to the THESIS CONCENTRATION may occur after successfully completing each Computer Science core course with a minimum grade of "B" and CIS 518 with a grade of "S". Students must enroll in CIS 595 (Computer and Information Sciences Research Development) in the semester during which they defend their thesis prospectus. The thesis will normally be completed in one semester while enrolled in CIS 599 (Computer and Information Sciences Thesis). Students must enroll in CIS 599 in the semester during which they defend and/or submit their thesis. A grade of "C" in CIS 595 will result in dismissal from the THESIS CONCENTRATION to the COURSE ONLY CONCENTRATION. A maximum of nine (9) semester hours of CIS 595 and CIS 599 may be applied to the degree for the THESIS CONCENTRATION. Thesis/project dissertation guidelines and forms are available at the University of South Alabama Graduate School web site http://www.southalabama.edu/graduateprograms/forms.html.
   a. Research Development
      A minimum of three (3) and a maximum of six (6) semester hours credit of CIS 595, Computer and Information Sciences Research Development, may be applied towards the degree.
   b. Thesis
      A minimum of three (3) and a maximum of six (6) semester hours credit of CIS 599, Computer and Information Sciences Thesis, may be applied towards the degree.
   c. Elective Course Work
      A minimum of twelve (12) and a maximum of fifteen (15) semester hours of approved electives. A list of Pre-Approved Computer Science elective courses and a list of Special Permission courses are given in this section.
   d. Comprehensive Examination

**B. PROJECT CONCENTRATION.**

Acceptance to the PROJECT CONCENTRATION may occur after successfully completing each Computer Science core course with a minimum grade of "B" and CSC 518 with a grade of "S". A required defense of the project proposal is normally made in the semester following completion of CIS 518. Students must enroll in CSC 595, Computer Science Project Proposal Development, in the semester during which they defend their project proposal. The project will normally be completed in one semester while enrolled in CSC 598, Computer Science Project. Students must enroll in CSC 598 in the semester during which they defend and/or submit their project. A grade of "C" in CSC 595 will result in the dismissal from the PROJECT CONCENTRATION to the COURSE ONLY CONCENTRATION. A maximum of nine (9) semester hours of CSC 595 and CSC 598 may be applied to the degree for the PROJECT CONCENTRATION. Thesis/project dissertation guidelines and forms are available at the University of South Alabama Graduate School web site [http://www.southalabama.edu/graduateprograms/forms.html](http://www.southalabama.edu/graduateprograms/forms.html).

a. **Project Proposal Development**

A minimum of three (3) and a maximum of six (6) semester hours credit of CSC 595, Computer Science Project Proposal Development, may be applied towards the degree.

b. **Project**

A minimum of three (3) and a maximum of six (6) semester hours credit of CSC 598, Computer Science Project, may be applied towards the degree.

c. **Elective Course Work**

A minimum of twelve (12) and a maximum of fifteen (15) semester hours of approved electives. A list of Pre-Approved Computer Science elective courses and a list of Special Permission courses are given in this section.

d. **Comprehensive Examination**

All students in the Project Concentration must pass an oral comprehensive examination administered after the project committee accepts the project. The School of CIS Comprehensive Examination Policies and Procedures document and the Comprehensive Examination Application form are available at [http://www.cis.usouthal.edu](http://www.cis.usouthal.edu), [Links for Students, Student Recourses, Applications and Forms](http://www.cis.usouthal.edu).

**C. COURSE ONLY CONCENTRATION.**

Computer Science students who do not choose the THESIS CONCENTRATION or the PROJECT CONCENTRATION are assumed to be in the COURSE ONLY CONCENTRATION. Acceptance to the COURSE ONLY CONCENTRATION occurs after successfully completing each Computer Science core course with a minimum grade of "B" and CIS 518 with a grade of "S".

a. **Elective Course Work**

Twenty-one (21) semester hours of approved electives are required. A list of Pre-Approved Computer Science elective courses and a list of Special Permission courses are given in this section.

b. **Comprehensive Examination**
All students in this Concentration must pass a written comprehensive examination. Students must take the examination as soon as possible after successfully completing each Computer Science core course with a minimum grade of “B” and CIS 518 with a grade of “S”. Students wishing to sit for the examination must apply online to the Director of CIS Graduate Studies by the Friday of the last week of classes in the semester prior to which the examination is to be taken. The site for the online application may be found by following the Links for Students selection on the School of CIS web site, http://cis.usouthal.edu. The policy regarding the comprehensive examination is available in the CIS office. The comprehensive examination is offered at least once a year. The School of CIS Comprehensive Examination Policies and Procedures document and the Comprehensive Examination Application form are available at http://www.cis.usouthal.edu, Links for Students, Student Recourses, Applications and Forms.

4. COMPUTER SCIENCE ELECTIVES
A list of Pre-Approved Computer Science elective courses and a list of Special Permission courses are given below. All other courses must be approved by the Computer Sciences Coordinator. A maximum of six (6) credit hours of non-CSC or non-CIS courses will be allowed.

A. PRE-APPROVED COMPUTER SCIENCE ELECTIVES

2. REQUIRED COURSES (15 semester hours):
3. CONCENTRATIONS (9 semester hours):

A. THESIS CONCENTRATION.
Acceptance to the THESIS CONCENTRATION may occur after successfully completing each Information Systems core course with a minimum grade of “B” and CSC 518 with a grade of “S”. Students must enroll in CIS 595 (Computer and Information Sciences Research Development) in the semester during which they defend their thesis prospectus. The thesis will normally be completed in one semester while enrolled in CIS 599 (Computer and Information Sciences Thesis). Students must enroll in CIS 599 in the semester during which they defend and/or submit their thesis. A grade of "C" in CIS 595 will result in dismissal from the THESIS CONCENTRATION to the COURSE ONLY CONCENTRATION. A maximum of nine (9) semester hours of CIS 595 and CIS 599 may be applied to the degree for the THESIS CONCENTRATION.

a. Research Development
A minimum of three (3) and maximum of six (6) semester hours credit of CIS 595, Computer and Information Sciences Research Development, may be applied towards the degree.

b. Thesis
A minimum of three (3) and maximum of six (6) semester hours credit of CIS 599, Computer and Information Sciences Thesis, may be applied towards the degree.

c. Comprehensive Examination
All students in the Thesis Concentration must pass an oral comprehensive examination administered after the thesis committee accepts the thesis. The School of CIS Comprehensive Examination Policies and Procedures document and the Comprehensive Examination Application form are available at [http://www.cis.usouthal.edu](http://www.cis.usouthal.edu), Links for Students, Student Resources, Applications and Forms.

B. PROJECT CONCENTRATION.
Acceptance to the PROJECT CONCENTRATION may occur after successfully completing each Information Systems core course with a minimum grade of “B” and CIS 518 with a grade of “S”. A required defense of the project proposal is normally made in the semester following completion of CIS 518. Students must enroll in ISC 595, Information Systems Project Proposal Development, in the semester during which they defend their project proposal. The project will normally be completed in one semester while enrolled in ISC 598, Information Systems Project. Students must enroll in ISC 598 in the semester during which they defend and/or submit their project. A grade of "C" in ISC 595 will result in dismissal from the PROJECT CONCENTRATION to the COURSE ONLY CONCENTRATION. A maximum of nine (9) semester hours of ISC 595 and ISC 598 may be applied to the degree for the PROJECT CONCENTRATION.

a. Project Proposal Development
A minimum of three (3) and maximum of six (6) semester hours credit of ISC 595, Information Systems Project Proposal Development, may be applied towards the degree.

b. Project
A minimum of three (3) and maximum of six (6) semester hours credit of ISC 598, Information Systems Project, may be applied towards the degree.

c. Comprehensive Examination
All students in the Thesis Concentration must pass an oral comprehensive examination administered after the thesis committee accepts the thesis. The School of CIS Comprehensive Examination Policies and Procedures document and the Comprehensive Examination Application form are available at [http://www.cis.usouthal.edu](http://www.cis.usouthal.edu), Links for Students, Student Resources, Applications and Forms.

C. COURSE ONLY CONCENTRATION.
Information Systems students who do not choose the THESIS CONCENTRATION or the PROJECT CONCENTRATION are assumed to be in the COURSE ONLY CONCENTRATION. Acceptance to the COURSE ONLY CONCENTRATION occurs after successfully completing each Information Systems core course with a minimum grade of "B" and CIS 518 with a grade of "S".

a. Elective Course Work
Nine (9) semester hours of approved electives are required. A list of Pre-Approved Information Systems courses and a list of Special Permission courses are given in this section.

b. Comprehensive Examination
All students in this Concentration must pass a written examination. Students must take the examination as soon as possible after successfully completing each Information Systems core course with a minimum grade of "B" and CIS 518 with a grade of "S". Students wishing to sit for the examination must apply online to the Director of CIS Graduate Studies by the Friday of the last week of classes in the semester prior to which the examination is to be taken. The site for the online application may be found by following the Links for Students selection on the School of CIS web site, http://cis.usouthal.edu. The policy regarding the comprehensive examination is available in the CIS office. The comprehensive examination is offered at least once a year. The School of CIS Comprehensive Examination Policies and Procedures document and the Comprehensive Examination Application form are available at http://www.cis.usouthal.edu, Links for Students, Student Resources, Applications and Forms.

4. INFORMATION SYSTEM ELECTIVES
A list of Pre-Approved Information Systems elective courses and a list of Special Permission courses are given below. All other courses must be approved by the Information Systems Coordinator.

A. PRE-APPROVED INFORMATION SYSTEMS ELECTIVES
- ISC 553 Info Systems Web Site Mgt.
- ISC 557 Modeling and Decision Support Systems
- ISC 563 Info Systems Database Admin
- ISC 571 Info Systems Data Warehousing and Decision Support
- CSC 511 Communications and Network Analysis
- CSC 514 Modeling and Simulation
- CSC 527 Software Engineering Prin.
- CSC 533 Artificial Intelligence and Heuristic Programming

B. SPECIAL PERMISSION COURSES
Approval of the Information Systems Coordinator and the Director of the CIS Graduate Studies is required for CIS Graduate faculty sponsorship of a Special Permission Course. A maximum of three (3) credit hours of Special Permission courses may be applied to the degree for the THESIS CONCENTRATION or the PROJECT CONCENTRATION; a maximum of six (6) credit hours of Special Permission courses may be applied to the degree for the COURSE ONLY CONCENTRATION.
- CIS 594 Directed Study
- CIS 595 Computer Science Research Development
- ISC 595 Info Systems Project Proposal Development
- CIS 598 Computer & Information Sciences Project

DESCRIPTIONS OF COMPUTER SCIENCES COURSES ARE FOUND AS FOLLOWS:

**COMPUTER AND INFORMATION SCIENCES (CIS)**
- COMPUTER SCIENCE (CSC)
- INFORMATION SYSTEMS (ISC)
- INFORMATION TECHNOLOGY (ITE)
