

Online Education

Welcome to the College of Education Online. Our online programs offer an opportunity for quality education courses via the Internet. The programs offer selected courses in several professional fields for students who cannot enroll in the traditional manner due to family, career, and location requirements. Courses are delivered using the computer technology and instructional methodology that is current and appropriate to the 21st Century. In addition to fully online courses and programs, every academic course in the college has a web component.

Associate Dean
Thomas L. Chilton

The College offers the following masters level programs: **Education Leadership, English for Speakers of Other Languages, Instructional Design and Development, Educational Media (Library Media), Reading Education and Special Education.** Additionally courses are offered in Elementary Education, and Secondary Education, Alabama Class A certification is available in all of the above except Education Leadership and Instructional Design and Development.

Our online system will provide the opportunity for continuous contact with the course instructors, chat sessions with classmates, threaded discussions, direct access to the University Library and other instructional resources, and on-line examinations.

The current available technology allows us to offer quality, affordable courses that complement our resident programs. All online courses are taught by the graduate faculty of the College of Education and utilize the same instructional resources that are used in the on-campus programs. We are confident that you will find the programs interesting, challenging, and rewarding.

In addition to the Southern Association of Colleges and Schools, teacher education and support personnel programs of the College of Education are Accredited by NCATE and approved by the Alabama State Board of Education.
