

## **Professional Studies Department Graduate Level**

### **Library Media Specialist, (Online)**

The department offers the Master of Education (M.Ed.) leading to Class A certification as a Library Media Specialist entirely online. The program is designed to provide candidates training and experience in working with the elements necessary to become a successful Library Media Specialist in P-12 settings. Successful completion of the program may qualify the candidate for the Class "A" Professional Educator Certificate in Library Media Specialist provided they already hold a Class "B" Professional Educator Certificate in a teaching field.

Advanced programs are extensions of basic preparation and differ from basic programs not in general purpose but in competence they seek to develop.
