

Secondary Education, General Science Composite, M.Ed. or Alt. A

The Master of Education (M.Ed.) program is designed to enhance and extend the knowledge and qualifications of secondary Science teachers. Successful completion of the program may qualify the candidate for the Class “A” Professional Certificate provided they already hold a Class “B” Professional Certificate in Secondary Education, General Science Composite.

Advanced programs are extensions of basic preparation and differ from basic programs not in general purpose but in competence they seek to develop.

The Alternative Master of Education, (M.Ed.) program is designed to provide initial teacher certification at the graduate level, primarily for students interested in a career in teaching, but whose undergraduate degree did not include a teacher preparation program. Successful completion of the program may qualify the candidate for the Class “A” Professional Educator Certificate.
