

WORK IN PROGRESS

Austal is seeking a more efficient system for their developers to use in order to keep track of time and progress made on various projects. Along with logging time spent on various tasks, the developers should be able to see an accurate representation of actual time spent vs. projected time in the form of a burndown chart.

James Stork

Major: Computer Science

I enjoy learning new things, watching Netflix, and making people laugh! You'll often see me riding my sweet red and black bike around campus.

Dr. Robert Sweeney

Senior Project Professor
University of South Alabama

Jasmine Pace

Major: Information Technology

Focus Track : Digital Forensics & Networking

I thoroughly enjoy bash scripting and the python programming language. In my spare time, I enjoy scripting, dancing, or napping.

AJ Briggs

Senior Director of
Business Integration
Austal USA

Arlando Boykin

Major: Computer Science

I am a very passionate learner and love investing myself in new projects and ideas. In my spare time, I enjoy listening to and creating music; playing video games; and dancing.

Mark LaBoe

Major: Information Technology

Focus Track: Web

I love video game development and programming. I also love to play video games with friends whenever I have the opportunity.
