Improvement Number: 55

Original Improvement: Parking Hangtag Reciprocity

Parking Services has always recognized an official and current parking permit issued by the hospitals. When Parking Services does their annual review/update to the parking rules/regulations for the Main Campus this summer, they will specifically address that.

Hospitals do not require a parking hangtag. The only people that may use hospital permits are individuals with segregated parking, such as doctors and nurses.

No plan to add metered parking.

Kiosk were installed which help visitors find parking services easily.
