

ENVIRONMENTAL/STRUCTURAL ENGINEERING: The Department of Civil Engineering at the University of South Alabama invites applications for a tenure-track faculty position in Environmental Engineering or Structural Engineering at the assistant professor level. Candidates must have an earned doctoral degree in Civil Engineering or a related field, good communication skills, a strong commitment to excellence in teaching at both the undergraduate and graduate levels, and the ability to initiate and maintain a funded research program in their area of specialization. The undergraduate program in Civil Engineering is fully accredited by ABET. The Department of Civil Engineering also has a growing masters degree program. Located in Mobile near the Mobile Bay Estuary and the Alabama Gulf coast with its beautiful white-sand beaches, the University of South Alabama is a public institution of over 14,000 students. Mobile is the center of a growing metropolitan area with an expanding economy and a challenging environment for all aspects of civil engineering. Interested candidates should submit a letter of application specifically describing their professional experience, teaching and research interests, the names of three references and a comprehensive curriculum vitae to: Dr. Joseph M. Olsen, Chair, Faculty Search Committee, University of South Alabama, Department of Civil Engineering, EGCB 280, Mobile, AL 36688. Applicants must be legally able to work in the U.S. Review of applications will begin December 1, 2009 and continue until the position is filled. Starting date for the appointment is August 15, 2010. The University of South Alabama is an Equal Opportunity/ Equal Access Employer.
