Spring 2008

Summer 2008

1. Give priority to completing core courses (English, Math, Chem) which are required for PCS
2. Take a math every semester until you finish Diff. Equations & Linear Algebra
3. SEQUENCES ARE IMPORTANT: Pay attention to requirements leading up to senior year. Senior classes are offered only once a year and not being ready for a specific class could add a whole year to graduation.
4. Balance course load and work, limit number of work hours or reduce course load; be realistic.
