

Medical Information

Forget Me Nots

Information on this page may be given by a parent, physician, OT, PT, nurse, babysitter or virtually anyone caring for the child. These are tidbits of information unique to this child which will help anyone give them better care.

Ex: Do not leave child alone in a room because he is prone to choking episodes, routines for meal or bedtimes, such as always leave a light on in his room or he must wear special diapers to sleep in to keep him dry through the night.

Problem List

You can use this sheet to document illnesses, hospitalizations, outpatient procedures, etc. This page is a journal of your child's condition. You can also ask the physician or nurse to help you complete this page.

Medication Sheet

This is a sheet where medication dosages and schedules are written. This will eliminate confusion about when and what medications need to be given.
