

## Chapter 6 terms

Absolute humidity  
Capacity  
Condensation  
Convictional lifting  
Convergent lifting  
Dew  
Dew point  
Dry adiabatic rate  
Evaporation  
Evapotranspiration  
Fog  
Frontal lifting  
Humidity  
Hydrologic cycle  
Latent heat of condensation  
Latent heat of evaporation  
Lifting condensation level  
Orographic lifting  
Potential evapotranspiration  
Rain shadow  
Relative humidity  
Saturated adiabatic rate  
Sensible temperature
