

## HY136 Midterm Study Guide (Revised 9/30)

The midterm exam will consist of 40 identify questions, the answers to which are contained in following list. An example question might be “The first president of the United States;” the answer would, of course, be George Washington. Each question will be worth two points.

In addition to the identify questions, there will be two questions requiring a short (5 or 6 sentences) answer on your choice of two of five subjects. Each of these will be 10 points. Total 100 points for the exam. Remember the midterm is 20% of your total grade.
