

The University of South Alabama
Fact Book (Statistical Profile)
2010 – 2011

Introduction

The University of South Alabama Fact Book (Statistical Profile), 2010-2011 is the thirty second publication in a series which began with the USA Fact Book for 1979-80. Production of the annual fact book has been an evolving process as data series are expanded and new topics added. We hope that the publication has grown to meet the needs of the University community for information to support program planning and evaluation. We welcome all comments or suggestions for continuing to improve the publication.

The University of South Alabama

Statement of Mission

The University of South Alabama was chartered in 1963 by the State of Alabama as a comprehensive, coeducational institution of higher education. The University serves as a major center of high-quality and accessible undergraduate, graduate, and professional education for metropolitan Mobile, the State of Alabama, the Gulf Coast region, and the southeastern United States. The University mission actively embraces the functions of teaching, research, public service, and health care through which it pursues the preservation, discovery, communication, and application of knowledge. As it grows and develops, the University will focus its strengths to produce programs of interdisciplinary excellence that address the special needs of the people it serves.

Undergraduate education is designed to promote the growth of the individual to think critically and analytically, to communicate effectively, to acquire information and apply it to problem-solving, and to understand the context of global complexity and diversity in which knowledge is applied. The University is committed to the education of the whole person - the creative person. To accomplish this, a wide range of curricular and co-curricular opportunities for students to expand their cultural, physical, and emotional awareness is provided. The University's environment must encourage and foster the qualities expected of leaders, such as integrity, service, stewardship, involvement, and respect for individuals, as well as an appreciation for diversity. Graduate education provides students with increasing levels of challenge and opportunities for independent investigation, creative achievement, the advancement of knowledge, and participation in traditional and new forms of scholarly activity in a broad range of discipline-based and inter-disciplinary programs. These programs will prepare students for new, as well as traditional, professional and academic careers.

Scholarship is an important aspect of the mission of the University and is the responsibility of every faculty member. The University of South Alabama will provide quality research and scholarly activity in all areas of its academic programs and community service activities, as illustrated by the work of its faculty in business, education, engineering, mathematics, science, fine arts, humanities, and health sciences. To advance scholarship, the University will provide appropriate instructional and investigative facilities within an atmosphere of academic freedom and shared governance.

Because of its location and commitment to the community, the University's academic health center is an important resource for accomplishing its mission. The University is dedicated to the education of physicians, health scientists, allied health professionals, and professional nurses who will provide the community and the region with the highest quality health care. To promote improved health care in its service region through research, teaching, and outreach programs, its hospitals and clinics will offer the latest scientific and medical technology possible.

The University is further dedicated to the promotion of lifelong learning and to the enhancement of access to education for a variety of individuals and communities. Thus, it will continue to develop programs that meet the needs of its evening, weekend, off-campus, and special program clients who seek both credit and non-credit learning experiences on campus and at the Brookley campus site. The USA-Baldwin County campus will provide degree programs and other learning opportunities required by the rapidly growing population in Baldwin County.

The University of South Alabama's programs of education, research, public service and health care are all founded upon the basis of a reciprocal relationship between the institution and the community it serves. Instruction, research, scholarship, public service, and health care that enhance the economic development of the State and improve the quality of life and health of its citizens are integral and essential parts of its mission as a comprehensive, metropolitan university.

Major Sources of First-Time Graduate Students*
Fall Semesters 2006 through 2010

Highlights:

- In Fall 2010, more first-time graduate students completed their baccalaureate degrees at the University of South Alabama (168) than the combined total of the remainder of the top ten feeder universities (92).
- In Fall 2010, University of Alabama (2nd) and University of Southern Mississippi (3rd) continued to rank in the top three feeder universities.

The Biomedical Library currently is housed in three locations: the Biomedical Library Building on the main campus, the third floor of USA Medical Center and in the CWEB I building of the Children's and Women's Hospital. The Biomedical Library collections are designed to serve the curricula of the College of Medicine, the College of Allied Health Professions and the College of Nursing as well as the information needs of the hospital sites.

*Numbers reported here include the resources of both the Biomedical Library and the University Library.

* Starting in 1987, the freshman class is represented by Fall first-time full-time freshmen including those admitted in prior Summer and enrolled in the Fall. Previous freshman classes were represented by first-time freshmen first enrolled in any term within an academic year.

** Starting in 1990, 4-Class Average only contains first-time full-time freshmen.

*** The 4-Class Average is the weighted Six-Year Graduation Rates of the cohort for this year and the previous three cohorts combined.

* The number of grades issued in all undergraduate courses is based on computational letter grades assigned plus course withdrawals (WDs). As of Fall 2008, withdrawals from "S" and "U" courses are not included. Grade point averages are calculated on the basis of letter grades, "A" through "F". Lower division includes courses numbered 100-299 and upper division includes courses numbered 300-499.
