

The University of South Alabama
Statistical Profiles
2006 – 2007

Introduction

The University of South Alabama Statistical Profiles, 2006-2007 is the twenty-eighth publication in a series which began with the USA Fact book for 1979-80. Production of the annual fact book has been an evolving process as data series are expanded, new topics added, and graphic presentations refined. We hope that the publication has grown to meet the needs of the University community for information to support program planning and evaluation. We welcome all comments or suggestions for continuing to improve the publication.

* Starting 1987, the freshmen class is represented by First-Time Full-Time Fall Freshmen including those admitted in prior Summer and enrolled in the Fall. Previous freshmen classes were represented by First-Time Freshmen first enrolled any term within an academic year. Starting 1990, 4-Class Average contains Full-Time cohorts only.

** The 4-Class Average is the weighted Six-Year Graduation Rates of this year's cohorts and the previous three years' cohorts combined.
