

The 4th row of  
Pascal's Triangle  
Contains the numbers  
1,4,6,4,1. These indicate  
the number of vertices  
in the intersection of the  
unit 4-cube with the  
solids  $x+y+z+w=Const.$   
Where  $Const.=0,1,2,3,$  or 4.
