

# Calculus I

Math 125-101

M–F 9:10–10:25, ILB 410

**Instructor:** Prof. Josh Barnard

**Office:** 426 ILB

**Office Hours:**

**Phone:** 460-6264, ext. 2617

**Email:** [jbarnard@jaguar1.usouthal.edu](mailto:jbarnard@jaguar1.usouthal.edu)

**Course Webpage:** [www.southalabama.edu/mathstat/personal\\_pages/jbarnard/Sm08-125/](http://www.southalabama.edu/mathstat/personal_pages/jbarnard/Sm08-125/)

**Prerequisite:** MA 113 or MA 115 or placement test score of 85 or more

**Textbook:** *Calculus: Early Transcendentals (5th ed.)*, by James Stewart (Brooks/Cole 2003)

**Course Description:** Introduction to calculus with emphasis on presenting the key concepts graphically, numerically, and algebraically. The course includes limit of a function; the derivatives of algebraic, trigonometric, exponential, and logarithmic functions; application of differentiation to curve sketching and optimization problems including examples in the physical/natural sciences and economics; introduction of definite integral; Fundamental Theorem of calculus. Credit for both MA 120 and MA 125 not allowed.

**Announcements and Handouts:** The course webpage has an announcement section and a handout section. Both of these should be checked regularly, and you are responsible for any information found there. In particular, the requirements and policies for this course may be modified as circumstances dictate; such changes will be provided to students in class and noted on the webpage.

**Homework:** Homework problems will be assigned regularly in class, and also posted online. These are not to be turned in. The homework assignments are there to provide you with a **minimum** level of exposure to the materials outside of class. You will need to do many more problems before you feel comfortable with the concepts involved. The way to succeed in a math course is to work (and understand) a large number of problems.

**Grading:** Grades will be determined according to the following:

Four Quizzes — 20% total  
Two Mini-Tests — 20% total  
Two Tests — 40% total  
Final Exam — 20%

**Quizzes & Tests:** There will be a quiz, mini-test, or test every Friday in class. The schedule is as follows:

Quiz 1 — Friday, May 30  
Mini-Test 1 — Friday, June 6  
Quiz 2 — Friday, June 13  
Test 1 — Friday, June 20  
Quiz 3 — Friday, June 27  
Mini-Test 2 — Thursday, July 3  
Quiz 4 — Friday, July 11  
Test 2 — Friday, July 18

**Final Exam:** There will be a two-hour cumulative final exam. It is scheduled for Wednesday, July 23, 8:00–10:00 a.m. in the usual classroom.

**Attendance:** Routine attendance in class is essential and expected. As in any course, you should read the relevant section of the textbook **before** attending lectures. The homework webpage has a schedule listing the sections to go over. Routine participation in class is also expected. Attendance and participation will be considered in determining borderline grades.

**Calculators:** Calculators will be neither allowed nor necessary on the tests or quizzes.

**Office Hours:** If you have questions or problems, you are encouraged to come by my office during office hours, or make an appointment to come by some other time. Email is the best way to contact me. If you plan on coming during office hours, you need not notify me ahead of time.

**Student Disabilities:** If you have a specific disability that qualifies you for academic accommodations, please notify me *as soon as possible* and provide certification from the Office of Special Student Services. This office is directed by Ms. Bernita Pulmas and is located in the Student Center, Room 270, phone 460-7212.

**Academic Misconduct:** Students are assumed to be familiar with the current Academic Misconduct Code.
