Training Program for Faculty and Personnel Using Animals in Research

Instructional Process

General

- All personnel (including faculty, technicians, students, visiting scientists, postdoctoral fellows, administrative staff, and consultants) who will be working with animals are required to participate in the training program unless exempted by the Director of University Biological Resources. The IACUC Office maintains all audiovisual materials associated with the training program.
- This participation includes an online core training module, video training tapes, lectures, wet labs and other formats as deemed appropriate.
- Personnel are required to begin participation within 6 months of being hired.

Newly hired principal investigator's must provide a copy of the "Documentation of Training for Personnel Performing Animal Procedures" form when submitting an Animal Use Protocol form for review by the IACUC. **This form is required for the investigator and for each individual who will be using animals in the protocol and should be forwarded to Ms. Donna Skipper, Office of Institutional Animal Care and Use, CSAB 134.**

IACUC Protocol Review

- The investigator is required to affirm on the "Protocol for the Use of Laboratory Animals" that training has been completed or is up-to-date for all named personnel.
- Proof of training is to be submitted for all personnel listed on the protocol as 'Authorized Assistants'.
