Financial Report Highlights March 31, 2008

Introduction

This Financial Report presents the financial position and financial activity of the University of South Alabama utilizing the fund basis of accounting. The report presents the assets, liabilities and fund balances of each fund including the current funds (unrestricted and restricted), loan funds, endowment funds, and plant funds (renewals and replacements, retirement of indebtedness and investment in plant). The financial reporting requirements of the Governmental Accounting Standard Board, by which the University reports its quarterly financial statements, are not utilized in this monthly financial report.

Financial Analysis

This report should be read in conjunction with the University's monthly financial reports and with the understanding of the cyclical nature of the University's operations. Certain revenues (tuition and fees, auxiliary enterprises, etc.) are received at specific times in the University's fiscal year while certain other revenue streams (hospital, state appropriations) are received throughout the year. Additionally, certain revenue and expense items fluctuate with changes in enrollment while others do not. As a result of these items, significant fluctuations of cash and investments along with other balance sheet items are normal.

Economic Outlook

Enrollment and tuition have increased in recent years. Additionally, state appropriations increased significantly in fiscal 2008 and 2007. University administration is not aware of any conditions that are expected to have a significant impact on the University financial position throughout the remainder of 2008 or beyond.

UNIVERSITY OF SOUTH ALABAMA
Notes to Financial Report

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTS

The accompanying financial reports are the responsibility of management of the University of South Alabama. Management is responsible for adopting sound accounting policies, for maintaining an adequate and effective system of accounts, for the safeguarding of assets and for devising a system of internal control that will, among other things, help assure the production of proper financial statements. The transactions which should be reflected in the accounts and in the financial reports are matters within the direct knowledge and control of management.

BASIS OF PRESENTATION

The financial reports of the University of South Alabama (the University) are prepared on the accrual basis. The statement of current funds revenues, expenditures and other changes is a statement of financial activities of current funds related to the current reporting period. It does not purport to present the results of operations as would a statement of income or a statement of revenues and expenses.

To the extent that current funds are used to finance plant assets, the amounts so provided are accounted for as (1) expenditures, in the case of normal replacement of movable equipment and library books; (2) mandatory transfers, in the case of required provisions for debt amortization and interest and equipment renewal and replacement; and, (3) transfers of a nonmandatory nature in all other cases.

FUND ACCOUNTING

In order to observe limitations and restrictions placed on the use of resources available to the University, the accounts of the University are maintained in accordance with the principles of fund accounting. Resources for various purposes are classified for accounting and reporting purposes into funds which may be used for specified activities or objectives. Separate accounts are maintained for each fund; however, in the accompanying financial statements funds that have similar characteristics have been combined into fund groups. Accordingly, all financial transactions have been recorded and reported by fund group.

Within each fund group, funds restricted by outside sources are so indicated and are distinguished from funds designated for specific purposes by authority of the Board of Trustees.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires that management make estimates and assumptions affecting the reported amounts of assets and liabilities, revenues and expenses, as well as disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes to Financial Report

CURRENT FUNDS

Current fund balances are separated into those which are unrestricted and those which are restricted by donors and grantors. Restricted funds may only be expended for the purpose indicated by the donor or grantor, whereas unrestricted funds are under the control of the University to use in achieving its educational purposes.

PLANT FUNDS

Plant funds include the transactions related to investment in institutional properties and related indebtedness.

Plant assets consisting of land, buildings, equipment and library books are stated at cost or, if contributed, at fair market value at the time of receipt. Investment in plant is reduced for disposals of plant assets.

Some equipment purchases are made from current funds and are presented under the appropriate functional classification of expenditures, while other additions are funded by transfers from unrestricted current funds to the plant funds. All such expenditures in excess of \$5,000 having a life of two years or more are capitalized as investment in plant.

INVESTMENT IN POOLED FUNDS

Investments are stated at cost, except those received by gift which are stated at fair market value at date of receipt. Endowment investments of the University are maintained and administered in a common pool. Separate accounts are maintained for each fund, as applicable. Depositories and other financial institutions that held investments for the University have pledged securities of various governmental agencies to secure funds held on deposit.

UNRESTRICTED GIFTS

Except for pledged operating and capital gifts, unrestricted gifts are recognized as revenue when received. Certain operating and capital pledges are recorded as a receivable, along with the corresponding revenue, when such pledges are made.

GRANTS AND CONTRACTS

The University has been awarded grants and contracts for current funds operations for which the funds have not been received nor have expenditures been made for the purpose specified in the grant or contract. These awards have not been reflected in the financial reports, but represent commitments of sponsors to provide funds for specific research and training projects.

UNIVERSITY OF SOUTH ALABAMA
Notes to Financial Report

SCHOLARSHIPS AND FELLOWSHIPS

The University receives funds which are restricted by donors and grantors for assistance to qualified students. When these funds are granted to students, the University records the expenditure for scholarships and fellowships along with the corresponding revenue.

INCOME TAXES

The Internal Revenue Service has determined that the University is a tax-exempt organization; accordingly, no provision for income taxes has been made in the accompanying financial statements.

DEFERRED REVENUES AND EXPENDITURES

Dormitory rentals, student tuition and other fees, together with related expenditures, are deferred and amortized over the applicable academic semester.

EMPLOYEE BENEFITS

Employees of the University are covered by two pension plans, a defined contribution pension plan and a pension plan administered by the Teachers' Retirement System of the State of Alabama (the Retirement Plan).

The defined contribution pension plan covers certain academic and administrative employees and contributions under this plan are funded as accrued.

Permanent employees of the University participate in the Teachers' Retirement System of Alabama. The Retirement Plan is fully funded by the State and by contributions from participating employees. The University contributes 11.75% of each employee's gross earnings to the Retirement Plan and is reflected in current funds expenditures. All covered employees must contribute 5% of their gross earnings to the Retirement Plan. Benefits fully vest after 10 years of full-time, permanent employment.

LIABILITY INSURANCE

The University and certain of its affiliates participate in professional and general liability trust funds. These trust funds are irrevocable and use contributions by the University and its affiliates, together with earnings thereon, to pay liabilities arising from the performance of its employees. Contributions to the trusts are recorded as expenditures upon payment and are determined by independent actuaries. If the trust funds are ever terminated, appropriate provision for payment of reported claims will be made and any remaining balance will be distributed to the University and its affiliates in proportion to contributions made.

University administration and legal counsel are of the opinion that the resolution of these matters will not have a material effect on the financial position or results of operations of the University.

MEDICAID DISPROPORTIONATE SHARE PAYMENTS

Hospitals revenues include funds received from the Alabama Medicaid Agency for services provided to a disproportionately high number of low income patients.
