

Pre-Health Program

Pre-Health advising at the University of South Alabama offers valuable resources to students interested in a variety of graduate professional health programs. In order to prepare students for the rigorous demands of these programs, advisors provide information and guidance on required course work, admission test needs, the application process and non-academic requirements. Pre-health advising is provided as a supplement to major academic advising. All pre-health students have an academic advisor who will guide them in meeting requirements for graduation.
