

**Course Title:** Antibiotic Review for the Rehabilitation Professional

**Price:** \$60

**Number of CEUs:** 0.2 CEUs

**Course Instructor:**

**Preston Warren, DPT, MD**, is an assistant professor in the DPT program at the University of South Alabama. He earned his DPT degree from the University of South Alabama in 2010 and his MD from the University of South Alabama in 2016. He has clinical experience in acute care, skilled nursing, and outpatient physical therapy.

**Date & Time:** Tuesday, August 23, 2022; 5:45 p.m. - 7:45 p.m.

**Course Delivery Method:** In-person

**Location:** University of South Alabama Department of Physical Therapy. Room: HAHN 2048

**Course Description:** Many rehabilitation professionals frequently treat patients who are receiving antibiotic therapy. This course will review some of the more commonly prescribed antibiotics, their mechanisms of action, common microbes treated, and potential impacts these antibiotics may have on a patient's rehabilitation course.

**Learner-based objectives:**

Upon completion of the course, participants will be able to:

1. Identify the primary mechanism of action of specific antibiotics.
2. Discuss the importance of assessing patients who are receiving antibiotics.
3. List potential antibiotic side effects which may impact a patient's rehabilitation course.

**Course Schedule:**

5:45 p.m. Opening remarks, Course objectives

6:00 p.m. Briefly review common microbes encountered in clinical practice

6:30 p.m. Discuss commonly prescribed antibiotics, their mechanism of action, and their potential impact on a patient's rehabilitation course

7:45 p.m. Closing remarks

**Course Open to:** PT, PTA, OT, OTA

**Prerequisite course:** None

**Special Attire:** Casual attire

**Specified Equipment/books:** None

**Maximum Registration:** 40
