

Mathematics and Statistics DIRECTED STUDIES APPROVAL

Under the supervision of a faculty member, a student may study a topic of interest independently. The topic should relate to one of the student's disciplines and/or the field of study. After deciding on a topic, the student and the faculty member should prepare the Directed Studies Proposal. After approval of the plan, the student may sign up for MA, 494, or ST 494, 1-3 hrs. credit.

STUDENT NAME:	Student Num	Number:	
ADDRESS:			
PHONE NUMBER:	DATE:		
Field of Study:			
Directed Studies Title:			
Semester to be taken	MA 494:	1 hr. 2 hrs. 3 hrs.	
	ST 494:	1 hr. 2 hrs. 3 hrs.	
Professor Directing the Study		Daytime Phone Number	
Street Address		City, State, Zip	
Department Chair		Date	

NOTICE: In order to register for a Directed Studies course, you must do the following prior to the beginning of registration:

*Complete both pages of this form and obtain all signatures. *Turn form into Department of Mathematics and Statistics Office, ILB 325.

DIRECTED STUDIES PROPOSAL

DESCRIPTION What are you going to do?

GOALS AND OBJECTIVES Describe briefly the purpose of the Directed Studies.

METHODOLOGY How are you going to do it?

RESOURCES Who and what will help you?

RESULTS What form will the final project take?

TIME INVOLVED How many hours will you spend on this project?

How does this Directed Studies *relate to your educational objectives?*

Mathematic and Statistics

FACULTY EVALUATION FORM

□ MA 494 or □ ST 494 Directed Studies

Student:	Student No:
Faculty Advisor:	Semester:
Topic:	Credit Hours:
Recommended Grade:	

1. Were the student's goals for undertaking this directed study clear?

- 2. Did the student meet the goals and objectives of the directed studies?
- 3. Did the student present the learning outcomes in a satisfactory way?
- 4. Do you have any additional comments about this student's work or comments that might help us make our directed studies opportunities more effective?

Thank you.
