

LEARNING MAP

You made it to college, but how do you navigate to graduation? We're here for you!

Face-to-Face Tutoring

The CAE provides free one-on-one writing and subject tutoring for USA students. Our tutoring methodology is grounded in a growth mindset, and we strongly advocate that students can learn anything with hard work, perseverance, and good study habits.

*Zoom appointments are available with tutors in Fall 2020.

Mentor Collective

Our University is a community of leaders and learners who support and challenge one another, and Mentor Collective capitalizes on this by connecting new students with third- or fourth-year students who act as personalized mentors. Their research-backed matching capability helps promote inclusivity, confidence, and a sense of belonging for students who are new to the USA family.

Supplemental Instruction

Supplemental Instruction (SI) is an additional resource attached to courses that are traditionally difficult. It is not extra tutoring for struggling students; it is additional meeting time outside of class time where students will learn from other successful students how best to prepare and learn in particular courses.

Online Tutoring

24/7 access through ThinkingStorm. This platform provides students with access to live one-on-one tutoring in a variety of general education courses, including math and sciences, as well as live writing tutoring appointments and asynchronous feedback on papers.

Success Coaches

Success coaches are students who are carefully selected to assist peers in identifying, locating, and utilizing appropriate resources to empower them to achieve their goals. Through weekly Zoom meetings and email exchanges, coaches work with students to develop study habits, effective time management skills, personal accountability strategies, how to engage with their faculty, and more. Success coaches are strategically partnered with freshman and sophomore students who have similar interests and fields of study.

Success Workshops

Can't make it to campus? No problem! Access 20 free, StudentLingo workshops focused on helping students meet their goals. Topics include online learning, academic exploration, personal management, writing strategies, and more!

Study Smart

Online structured study sessions promote active learning and studying from anywhere. Our peer tutors and coaches host Zoom study events, which facilitate group tutoring discussion and individual breakout sessions in a variety of subjects. For event information, visit our southalabama.edu/cae.
