

CCP Doctoral Training Program
Statement of Receipt of Training Manual & Commitment to the Ethical Principles

I acknowledge receipt of the Student Handbook for the Clinical & Counseling Psychology (CCP) Doctoral Training Program. I understand that I am responsible for the information, policies and procedures contained therein and that it is my responsibility to seek clarification for any information I do not understand.

I also agree to conduct myself in an ethical manner as set forth in *Ethical Standards of Psychologists* and *Standards for Providers of Psychological Services*. I understand that I may be disciplined and possibly dismissed from the CCP Program if I engage in behaviors that are enumerated in the *Guidelines for Part-Time Clinical Employment* as violations which may call for disciplinary action or dismissal, or if violations of professional ethical principles should contraindicate my ability and effectiveness in the rendering of professional services. It is my understanding that my professional behavior will be reviewed and evaluated in such regard and that due process will be observed.

I concur by my signature to this statement that following admittance to the Clinical and Counseling Psychology Doctoral Training Program at the University of South Alabama, should circumstances prevail that prevent me from graduating; I will at no time give the impression to others that I am a graduate of the CCP Program at the USA.
