

THE DEPARTMENT OF CHEMICAL & BIOMOLECULAR ENGINEERING AT THE UNIVERSITY OF SOUTH ALABAMA invites applications for an Instructor position starting August 15, 2018. Applicants must have a Ph.D. or M.S. in Chemical Engineering or a related field by the time of appointment and an outstanding academic record. Teaching experience at the undergraduate level is preferred. Applications may be for full-time or part-time employment. All candidates should have a demonstrated commitment to excellence in undergraduate and graduate education and be able to teach courses in undergraduate chemical engineering curriculum. Review of applications will begin immediately and will continue until the position is filled. More information on the Department can be found on our website: <http://www.southalabama.edu/colleges/engineering/chbe>, while a complete job posting can be found at <http://www.southalabama.edu/departments/academicaffairs/facultyposition.html>. Applicants must be legally eligible to work in the U.S. EO/AA Employer – minorities/females/veterans/disabilities/sexual orientation/gender identity.

Located in Mobile near the Mobile Bay Estuary and the Alabama Gulf Coast with its beautiful white-sand beaches, the University of South Alabama is a public, doctoral-level institution enrolling more than 15,000 students. The Department of Chemical and Biomolecular Engineering has an ABET accredited undergraduate program, a M.S. program, and participates in two interdisciplinary doctoral programs in Systems Engineering and the Biomedical Engineering track of the Basic Medical Sciences program. The Department is located in a new, state-of-the-art 155,000 sq. ft. Engineering & Computing Science building. The College of Engineering has four ABET-accredited departments: Chemical and Biomolecular Engineering, Civil Engineering, Electrical and Computer Engineering, and Mechanical Engineering. The College also houses interdisciplinary analytical chemistry and electron microscopy facilities and is home to several nationally-recognized research centers, including the Center for Lung Biology. Additionally, the University is located in a region with a well-established chemical industry corridor. Mobile is a busy international port and a main center of commerce for approximately 600,000 people in Alabama's two coastal counties.

Applications should be submitted on-line at <https://academicjobsonline.org/ajo/jobs/11557> and include a letter of application, a curriculum vitae, statements of research and teaching interest, and a list of three references. Review of applications will begin immediately and will continue until the position is filled. Inquiries regarding this position may be directed to chbeseach@southalabama.edu.
