Other Professional Experience:

Eskind Biomedical Library, Vanderbilt University (July 2001 to October 2002)

Co-coordinator, Educational Services

July 2002 to October 2002

Responsible for coordinating library user training and marketing education services and resources to faculty, clinical staff, researchers, and students. Taught classes on PubMed, MDConsult, UptoDate, CINAHL and other online resources. Created and updated user instruction handouts on various resources. Participated in the orientation training sessions for new house staff and nursing students. Evaluated virtual reference software for use by the library and developed policy and procedures for use in a pilot project.

Clinical Pathways Librarian

September 2001 to October 2002

Participated as a member of clinical healthcare teams in the development of clinical care pathways for patient care used at Vanderbilt University's Medical Center. Using evidence-based medicine methodology and tools, my role in the pathway teams was to search, synthesize, analyze, and filter the literature, write summaries of the selected articles, and present the information both verbally and in print to the clinical teams.

Member, Eskind Biomedical Library Training Team

June 2002 to October 2002

Responsibilities included contributing to the development and improvement of the internal training environment, and providing input as a recent intern to the training process.

Member, Monographs Collection Development Team

October 2001 to October 2002

As part of a five member team, responsible for evaluating monographs for the library's collection.

Other Library Experience:

Health Sciences Library, University of North Carolina at Chapel Hill

Graduate assistant, User Services

May 2000 to June 2001

Responsibilities included development of online course modules and web sites on subjects ranging from library and database instruction to drug information, working at the reference desk, and helping patrons in the multimedia lab. Trained as backup to teach Dreamweaver class for patrons. Conducted survey of distance education students and revised an existing web-based learning module as part of a distance education grant.

Glaxo-Smithkline, Research Triangle Park, NC

EAGLE Database Fellow

November 1999 to August 2000

Worked in the Information Management & Analysis department on a company proprietary database. Responsibilities included general database administration, indexing, updating and deletion of records. Prepared conference abstracts for inclusion in database. Edited and updated user instruction materials.

December 1998 to October 1999

Within the Neurology and Psychiatry Clinical Development group, worked with researchers in developing a small electronic library of journal articles in preparation for a New Drug Application (NDA).

Boston Scientific Corporation

October 1995 to November 1998

Working within the Research and Development group at this medical device company, conducted competitive information projects using Dialog, Profound, MDI, and the Internet. Created and maintained competitive information Intranet sites. Served as interim corporate librarian during the search for a replacement candidate. Organized a small special library for the Market Research department.
