JagSPOT Review Chair User Guide

This guide will assist you with all parts of the scholarship review and awarding processes in JagSPOT powered by Scholarship Universe.
# Table of Contents

1. Navigating a Scholarship.................................................................3
2. Managing Review Pools.................................................................5
3. Reviewing and Rubrics for Internal Applications.................................7
4. Creating an Award View...............................................................11
5. Using SmartRanks....................................................................13
6. Awarding Direct Award Scholarships.........................................15
7. Awarding Internal Application Scholarships..................................17
8. Awarding Internal Application-Continuous Awarding Scholarships.........19
9. Pulling Reports........................................................................21
This guide will assist with locating and understanding the features of scholarships within JagSPOT.

1. To locate a scholarship under your pervue in JagSPOT, start by clicking on Plan in the left hand navigation portal.

2. Once you have arrived on the Plan page, select the Scholarships tile.

3. The scholarship planning portal will now be visible. On this screen all of the scholarships you oversee will appear in the tab corresponding to their current status.

4. Once the correct scholarship has been identified, click on the Pencil icon to access it.

5. On the scholarship detail view there are various fields to consider.

**Draft:** Award is not visible to students, can still be edited.

**Active:** Award is open and available for students to apply to.

**Review:** Award application period has ended and is ready for review and awarding.

**Award:** Award is ready for awarding.

**Completed:** Award has been awarded for this award year.

**Archived:** Award listings from previous award years.
Scholarship Page Fields:

**General:** Details of current scholarship settings.

**Matching:** Criteria students need to meet to be able to view the scholarship.

**Candidates:** List of students who have applied or who meet matching criteria if no application.

**Awards:** List of students who have been awarded this aid year.

**General details:** Scholarship name and basic organizational details.

**Application Method:**
- Direct Award (previously auto-match or faculty nominated),
- Internal Application (previously conditional applications),
- Internal Application Continuous Awarding (conditional application that can be awarded on a rolling basis).

**Cycle Dates:** Dates when scholarships open and close for students to apply.

**Award Year and Terms:** Award year and terms will be preset.

**Total Amount:** 999 will appear as a placeholder until endowment reports come out in January.

**Amount Displayed:** Displayed to the student when they view the scholarship.

**Description:** Description of award that is visible to students when they view the scholarship.
JagSPOT Creating and Managing Review Pools: For Those Who Want to Get Fancy

This guide will assist you with creating and managing reviewer pools to be used during the review process process. The Office of Scholarship Services will regularly create and manage these review pools. Below are instructions for customizing these review pools.

1. Navigate to the **Review** section on the left-hand navigation bar and then click on the **Manage Pools** tile.

   This will bring up the **Manage Pools Portal**.

2. Select the review pool by clicking on the corresponding pencil icon.

3. So long as the review process has not started for this pool fields in the Round 1 section will be editable.

   **Review Deadline:** Either key in the date or use the calendar icon to select the date for the review period to close.

   **Review Type:** Select either a committee or individual review. Another box will appear asking you to select the specific committee or individual.

   **Scoring Method:** Pools can use either a 5-point recommendation scale or a **Scorecard** if you would like to use a Scorecard, contact Scholarship Services for assistance in customizing one.

   **Allocation Method:** The applicants can be distributed among members of the committee in three different ways.

   **Display Average Committee Score:** If enabled, committee members see the average score other reviewers have assigned this applicant while reviewing the application.

   **Reviewer Instructions:** Additional comments for your Committee members to see when they review applications.
4. Once the pool settings are completed, you can select the *Start Review* button. This will notify the committee that the applications are ready for review.

5. After the first round of review has been completed, you can proceed to awarding or start another round of reviewing by selecting New Round and completing steps 3-5 in this guide.
Committees will all be managed and populated by the Office of Scholarship Services. If you need to make changes to the composition of your committee, please contact scholarships@southalabama.edu. Before the review process begins, the Office of Scholarship Services will be in communication with the Committee Chair to confirm the details of the desired review process.

1. Once a scholarship submission deadline passes, the Office of Scholarship Services will initiate the review process. Committee Chairs can also start this process if they prefer. This is done by clicking on the Review section on the left-hand navigation bar and then selecting Manage Pools.

2. A list of available Pools in various stages of the awarding process will be visible. All Pools that are beginning or still in the process of reviewing should be listed under the Reviewing tab. To access a pool, press the Pencil icon.

This will allow you to view the settings of the pool. Settings will be populated to reflect the desired review process of the committee chair. Please do not adjust them without consulting the Scholarship Office.

3. Once the review is ready to begin select the Start Review button.

4. This will trigger an email notification to all committee members notifying them that the review session is now open. The email to their JagMail account will have a link directly to their review workflow.
5. Once in the Review Workflow the pools you have been designated to review will appear.

6. To begin reviewing you will click the Binoculars which will display the list of applicants.

7. To view an applicant’s materials, you will click on the Gavel icon.

8. A pop-up window will appear with the applicant’s materials. You can toggle between Application, Matching, Academic, Finance, and Admissions tabs for additional information.

If your committee is using a Scorecard (customizable rubric) you will find it on the pop-up window. You can enter scores and comments for the application in this section.
9. Letters of Recommendation and additional materials are available on the application tab.

10. Once you have reviewed the application you can enter your scores and comments before saving your review. This will move the student to the completed review section of your workflow.

11. To monitor the progress of all reviewers, navigate back to the Manage Pools page and select your pool from the list by clicking on the Pencil icon.

12. Once the specific Pool Detail page has loaded, click on the Pool Scoring button. This will bring up a screen that allows you to view the progress of the committee members.

13. Once Reviewers have completed all of their reviews, the Chair will receive an email notifying them that the pool review has been completed.

14. Chairs will then log into the Review section of JagSPOT and select the Manage Pools tile. From this page they will select the pool that is indicated in the email notification and click on the pencil tool to edit.

If you are not using a scorecard, you will see ranking options from Strong No to Strong Yes.

Click on the Letter of Recommendation to display the letter in a pop-up window.
15. Once on the Pool Detail page, Chairs will now have the option to Complete Review. If you are satisfied with the reviews, click that button.

![Pool Detail Page with Complete Review button highlighted]

16. Chairs will then have the option to start awarding or to begin a new round of review. Once you are ready to start the awarding process click Start Awarding.

![Start Awarding and New Round buttons highlighted]

New rounds can be used to narrow down very large pools of applicants. To start a new round, refer to the instructions above to begin the review process on your own.
This guide will assist you with setting up a new tool for the awarding process for your scholarships. Award Views are customizable groupings that allow the awardee to view, rank, and sort all applicants who are eligible to receive an award. These views are unique to the individual awardee.

1. To begin awarding scholarships, create a unique award view to manage the awarding process through. Select Award from the left-hand menu and then the Award Views tile.

   ![Award Views](image1)

   This will show a list of previously created award views.

   **Award views are individual to the user so you can customize them however you want.**

   ![My Award Views](image2)

   To **create** a new award view click the *Add* button.

2. First, name the award view. These views can be used for multiple cycles so name it something identifiable.

   Next, select the specific pool this view is for (if you are reviewing as part of a pool committee) or select *No Pools* if you are awarding individually.
If No Pools selected, a list of possible scholarships will be generated to choose from. Use the filters to identify scholarship(s) to be included in the award view.

Use the check boxes to include them in your award view and press save.

3. The award view now shows a list of students who are eligible for the award and is ready to begin awarding.

If you need to nominate a student who did not match to the scholarship you can do that by clicking the Nominate button and entering the student’s Jag number.

If you would like to use a SmartRank, you can select it from the drop-down menu. To create a new SmartRank, click on the Plus button. See SmartRank guide for more detailed instructions.
SmartRanks are used to rank applicants who already meet the matching requirements of a scholarship using multiple criteria. This feature allows committees to quickly see a stack ranking of candidates and eliminate inconsistency in awarding. *SmartRanks* can be predefined as outlined below or can be created or updated during awarding in the Award View screen. When applied, the *SmartRank* will create a weighted numeric score for each candidate and an ordinal ranking for each that can be sorted or filtered on in the Award Views screen.

1. Login to JagSPOT and select *Award* on the left-hand navigation bar, followed by the *SmartRanks* tile.

![Image showing JagSPOT Award screen with SmartRanks highlighted]

2. To create a new *SmartRank* select the *Add* button.

![Image showing SmartRanks interface with Add button highlighted]

3. From here, users are able to search for application questions and Banner student data such as institutional or High School GPA, SAT/ACT scores, or residency.

![Image showing Add Requirement screen with question and SmartRank weight]

---

13
As requirements are added to the SmartRank, users will assign weights in relation to other requirements. These percentages must equal 100%.

4. Once a SmartRank has been created it can be used for any scholarship under review. To implement the newly created SmartRank, navigate back to the scholarship in the Plan tab. Then select the Candidates tab and use the drop-down menu to select the SmartRank.

6. Once the SmartRank has been selected, the applicants will be reordered to reflect the values in the SmartRank. From here, the application materials can be viewed using the Binocular icon and they can be forwarded for awarding using the $ icon.

Non-numeric factors can also be added to into the SmartRank, such as residency description or major. To do this, select the requirement, then select the operator (equal to, any of these, none of these) and assign an amount value.
JagSPOT Awarding Direct Award Applications

This guide will assist you with Direct Award Applications (previously Auto-Match) and the awarding process. Direct Award Applications do not have a committee review option in JagSPOT.

4. To award Direct Awards navigate to Plan on the left-hand navigation bar and then select the Scholarships tile.

5. Locate the scholarship to be awarded using the filter function and click on the Pencil icon to edit the award.

6. Select the Candidates tab, and then click on the Re-Run Auto-Match button to ensure you have the most current list of eligible students.

7. Next, proceed to Award on the left-hand navigation bar and click on Award Views.
8. If an award view has already been created for this scholarship, select that view by clicking on the corresponding Pencil icon. If not, create a new award view by pressing the Add+ button (detailed instructions can be found in the Creating Award Views Document).

9. Once inside the Award View, a list of eligible students will be visible.

SmartRanks and or the Column Manager can be used to add additional information from the student's file to your view.

10. After identifying the students to be awarded, click on the $0.00 Award Amount next to their name. This will pull up an awarding window.

In this window you will enter the dollar amount you are awarding the student into the corresponding award term. There is also a box for comments if you would like to make notations for the record.

11. Once you have allocated all of the awards in the award view, save your work and alert your Opportunity Administrator that awards are ready to approve.
This guide will assist with the awarding process for Scholarships with an Internal Application (previous known as conditional applications). Detailed instructions for the reviewing process can be found in the Reviewing and Rubrics For Internal Applications Quick Start Guide.

12. First, select to Award on the left-hand navigation bar and click on Award Views.

13. If an award view has already been created for this scholarship, select that view by clicking on the corresponding Pencil icon. If not, create a new award view by pressing the Add+ button (detailed instructions can be found in the Creating Award Views Document).

14. Once inside the Award View, a list of eligible students will be visible. Column Manager can be used to add additional information from the student’s file to your view.
15. A pop-up widow will appear to allow you to search via Questions or SIS Data. Refer to the list of frequently used SIS Data Codes on the Scholarship Services JagSPOT knowledgebase.

Use the pop-up window to search for and add any columns you may find useful, such as:

- HIGH_SCHOOL_GPA
- ACT_SUPER_SCORE
- SAT_CONVERTED_TEST_SCORE

16. After identifying the students to be awarded, click on the $0.00 Award Amount next to their name. This will pull up an awarding window.

In this window you will enter the dollar amount you are awarding the student into the corresponding award term. There is also a box for comments if you would like to make notations for the record.

17. Once you have allocated all of the awards in the award view, save your work and alert your Opportunity Administrator that awards are ready for approval.
JagSPOT Awarding Internal Applications with Continuous Awarding Applications

This guide will assist you with Internal Applications with Continuous Awarding and the awarding process. **Internal Applications with Continuous Awarding do not have a committee review option in JagSPOT.**

**Awarding While Scholarship Is Still Accepting Applications**

1. Navigate to Plan on the left-hand navigation bar and then select the Scholarships tile.

2. Locate the scholarship you will be awarding and click on the Pencil icon to edit it.

3. Once applicants have been reviewed, they can be promoted to the award screen by clicking on the $ in the Award Amount column. This message will automatically appear, click Confirm if this is indeed the student you want to award.

4. Once students have been promoted to be awarded, move to the Awards tab to enter their award amounts. Click on the $0.00 Award Amount next to their name. This will pull up an awarding window.
5. In this window enter the dollar amount being awarded to the student into the corresponding award term.

There is box for comments if you would like to make notations for the record.

### Awarding Once the Scholarship Is Closed

1. Navigate to Award on the left-hand navigation bar and click on Award Views.

2. If an Award View has already been created for this scholarship, select that view by clicking on the corresponding Pencil icon.

3. Once inside the Award View, a list of eligible students will be visible.

   * SmartRanks and or the Column Manager can be used to add additional information from the student’s file to your view.

4. After identifying the students to be awarded, click on the $0.00 Award Amount next to their name. This will pull up an awarding window.

   In this window you will enter the dollar amount you are awarding the student into the corresponding award term. There is also a box for comments if you would like to make notations for the record.

18. Once all awards in the Award View have been awarded, save your work alert your Opportunity Administrator that awards are ready for approval.
This guide will assist you with the pulling of reports in JagSPOT. Reports can be used to access information about your scholarships, applicants, and potential applicants.

1. To begin pulling a report, use your single sign on to access JagSPOT.

2. Next, select the *Reports* section on the left-hand navigation bar.

3. First, name the award view. These views can be used for multiple cycles so name it something identifiable.

**Incomplete Application:** A list of students who have started but stopped the application process.

**Internal Application Details:** A list of students who have submitted an application to at least one scholarship in a given organization or department.

**Internal Application Volume:** A list of scholarships applied to that use specific questions for matching criteria.

**Matched Not Applied:** A list of students who have matched to a scholarship but have not started the application process.

**Organization Scholarships:** A list of scholarships by award year, organization and department with the amount budgeted and the amounts awarded.

**Batch Applications:** A list of all review applications associated to the review pool. Please note that all applications will be batched together.

**Scholarship Code:** A list of the total dollar amount and number of awards per scholarship code.
4. After selecting the appropriate report tile, a window will pop-up asking for specific parameters for the report. Enter these fields to locate the desired information then press the *Submit* button.

5. JagSPOT will now send a copy of the report to your JagMail.
