

Additional Views/Features

5

From the Worksheets view, there are additional features available to you. By default you see the Student View of your Degree Audit. You also have a **Registration Checklist** and **Class History** views.

Registration Checklist

To view the Registration Checklist and view a list of unfulfilled program requirements follow these steps:

1. Select Registration Checklist from the **format** options;
2. and click the **View** button.
3. Then view the list of unfulfilled program requirements to assist you in planning your courses for future semesters.
4. You have the option to Save/Print the output to PDF as well.

The screenshot displays the University of South Alabama Degree Audit interface. At the top, there is a navigation bar with links for Back to PAWS, FAQ, Help, Print, and Log Out. Below this, a form contains fields for Student ID, Name, Degree (B.S.), Major (CS: Information Systems), and Last (08/2013). A red dashed arrow labeled '1' points to the Degree dropdown, and another labeled '2' points to the Major dropdown. A third arrow labeled '3' points to the 'Registration Checklist' option in the 'Format' dropdown menu. A fourth arrow labeled '4' points to the 'View' button next to the 'Registration Checklist' option. Below the 'Format' menu, there are buttons for 'Save/Print PDF' and a link for 'Class History'. The main content area shows the 'Degree in Bachelor of Science Information Systems' section with a list of 'Still Needed' requirements. A red dashed arrow labeled '3' points to this section. Below it is the 'General Education Requirements-School of Computing' section, which also lists 'Still Needed' requirements.
