Full Board Review

In order to facilitate a timely review and approval, **all initial submissions and annual renewals** are reviewed and approved at the scheduled convened meeting of the IRB - EBR

Expedited Review

Although protocols reviewed by the IRB- EBR are minimal risk studies and can be designated as expedited review, only **amendments** will be reviewed under the expedited process. A member of the IRB is designated to conduct the review, and either approve or require modifications to the protocol prior to approval. An expedited reviewer may not disapprove a protocol, but may forward to the fully convened committee for further determination if warranted.

Exempt Status

Protocols falling under an [exempt category](#) defined under the federal regulations require administrative review by the IRB office to ensure that basic ethical principles, such as confidentiality of data and obtaining informed consent where applicable, are addressed. Applications for exempt protocols are reviewed by IRB Office or designee.
