## Full Board Review

All new protocol submissions are reviewed at the monthly convened meeting of the IRB - BR

## Expedited Review

Protocols falling under an [expedited review](#) and involving no more than minimal risk, as well as minor changes in approved full board protocols, may be reviewed under an expedited process. A member of the IRB is designated to conduct the review, and either approve or require modifications to the protocol prior to approval. An expedited reviewer may not disapprove a protocol, but may forward to the fully convened committee for further determination if warranted.

## Exempt Status

Protocols falling under an [exempt category](#) defined under the federal regulations require administrative review by the IRB office to ensure that basic ethical principles, such as confidentiality of data and obtaining informed consent where applicable, are addressed. Applications for exempt protocols are reviewed by IRB Office or designee.
