

TRAINING ANNOUNCEMENT

“Image Manipulation: Can You Detect It?”

PRESENTERS: Mary Townsley, Ph.D., Senior Associate Dean, College of Medicine
Julio G. Turrens, Ph.D., Interim Associate VP Academic Affairs and Interim Dean, Graduate School

AUDIENCE: All research faculty, graduate students, and postdoctoral fellows involved in the creation, development, and publishing of images are **EXPECTED** to attend one of the scheduled sessions.

OBJECTIVES: This workshop provides guidance for presenting scientific images, how to avoid becoming suspect of research misconduct due to image manipulation and demonstrates approaches used to detecting image manipulation.
The DHHS Office of Research Integrity reports that 67% of closed research misconduct cases between 2011 and 2015 involved image manipulation.
