Overview

Institutional approval of ORED-sponsored internal funding program proposals is handled through Cayuse SP. (Internal funding submissions do NOT use Cayuse 424.) The use of Cayuse SP to obtain institutional approvals replaces the use of the paper USA Transmittal Form and is consistent with the processes established for proposal submission to external agencies. This applies to the following ORED-sponsored internal funding programs:

- Faculty Development Council Fellows
- Faculty Development Council Grant
- Research and Scholarly Development Grant
- Seed Grant in Support of the Arts and Humanities

Proposals can be created in Cayuse SP as soon as a submission is planned. Users can save the proposal without routing it and return later to enter more information and upload attachments. It is best practice to start the process well in advance of the due date. Users should also be aware that routing for institutional approvals can take time depending upon faculty and administrator availability, and should plan accordingly.

New Cayuse SP users will need to request account creation. This can be done by going to the Sponsored Projects Administration website and using the green “Cayuse Research Suite Change Request” button.
The following information will assist in completing information in Cayuse SP to obtain institutional approval. All fields within Cayuse SP designated with an asterisk (*) must be completed in each “page” to advance to routing the information.

The information presented below pertains only to the specific field information required for routing ORED-sponsored internal funding proposals and does NOT detail every field that needs completion.
